This option is appropriate for degree students who want access to independent faculty supervision, lab areas, and supplies for independent projects, and do not need or desire extensive course instruction. This option is justified only if 1) the project content cannot be covered in an existing course, 2) the student's department deems it of substantive value to the student's educational goals and interests, and 3) the project work will be done outside of regularly scheduled class time. All directed studies are for credit (one to three credits). Students cannot take more than three credits of directed studies per semester. Students enrolled in directed studies will have access to the facilities and equipment at times arranged by the instructor. To enroll, students must submit a Directed Studies Contract that is available at the Office of the Registrar and obtain written permission from the instructor and the chair or program director of the student's department and when different, the course department. The directed studies instructor will be responsible for working with the student to establish project goals, oversee progress, and determine final course grades. Bachelor's Foundation students and Continuing Education students are not eligible for directed studies. Under certain circumstances, directed studies may be pursued by graduate students by combining participation in an advanced undergraduate course with extra independent assignments at the graduate level, as arranged in advance with the directed studies instructor.

CID 6900. Internship: Interior Design. 3 Credits.

For degree students only. Internships can help students develop marketable skills, establish professional contacts, and explore different career options.

CID 7010. Interior Design Studio III. 3 Credits.

Studio 3 concentrates on the application of building systems and spatial identity as they relate to the interior environment. Students explore specific design contexts and examine the relationships between site, program, and method. A comprehensive project will account for lighting, material specification, FFE, building systems, and sustainable building methods. Refined methods of representation, documentation, and communication will be explored including the conventions of construction documents.

CID 7020. Interior Design Studio IV. 3 Credits.

In Studio IV, students coordinate their design process with input from multiple disciplines. Students conduct specialized research and develop personal philosophies to execute a comprehensive design project. Integration of lighting, FFE, building systems, and sustainable building methods are essential components of the final project. Students will be required to establish a refined method of communicating their design intent through an advanced concentration on representational techniques.

CID 7060. Interior Design Design Applications III. 3 Credits.

The use of digital design technology to convey advanced design concepts. Methods of representation explored using digital modeling, rendering, and fabrication. The relationship between virtual and physical models.

CID 7100. Construction and Detailing. 3 Credits.

Detailing skills are central to the success of any interior design process. This course allows students to understand the methodology and practice of designing and drawing interior construction details in a built environment. Intensive study of the integration of materials will leave students with confidence in their ability to contribute to the preparation of technical drawings, and to provide drawing references for fabrication of design concepts. Pre-requisite(s): CID 3050 AutoCAD I, or permission of Department Chair. This course is only offered during the Spring semester.

CID 7200. Advanced Lighting Applications. 3 Credits.

In this hands-on advanced lighting studio students will gain practical experience with lighting drawings, fixture/lamp specifications and fixture installations. The course is project oriented with students working in teams on a range of projects such as lighting design concept development working from images to three dimensional spaces, and developing RCP light plans and specifications. The teams will then create working fixtures using found or everyday objects, create flashlight spaces, and participate in a Festival of Lights under the directions of the instructor. Prerequisite: CID 6100 Lighting Design or by permission of the Department Chair.

CID 7310. Advanced Digital Graphics. 3 Credits.

This course is intended to expand upon students' understanding of the fundamentals of computer-aided design through exploration of digital media. These explorations include systems of analysis, meaning of media, expression, syntactical, and spatial language. Students will focus on both two-dimensional graphic techniques/concepts and 3D modeling and image making techniques/concepts. Prerequisites: CDM 1200 Digital Design I (or equivalent experience), and CID 3050 AutoCAD I, CID 6060 AutoCAD II or CID 6060 Revit.

CID 7600. Selected Topics in Interior Design. 3 Credits.

Through a changing selection of design studios with instructors drawn from the professional design community, this studio will offer a broad range of topics from which students may choose during their course of study. The shifting nature of the subject matter of this studio intentionally allows for topical issues in the design community to be addressed. Topic varies each time it is offered. Limited to MA Interior Design candidates only.

CID 7800. Interior Design Pro-Thesis Seminar. 3 Credits.

Through a combination of research, writing and pre-design studies, students will formulate a thesis proposal for the final semester of study in the Master of Arts in Interior Design program. During this preparatory semester, students will document their research and experiences under the supervision of the instructor. This course is open to students enrolled in the Master of Arts in Interior Design program who have completed CID 7010 Interior Design Studio III; or by permission from the Department Chair. This course is only offered during the Fall semester.

CID 7900. Interior Design Thesis. 3 Credits.

The student is expected to work at a professional level in completing a comprehensive design project. Each student will undertake a rigorous exploration of a project of his or her own design and development, under the supervision of a thesis advisor. The process will culminate in a public review of the project with jurors drawn from the faculty as well as the professional design community. This course is only offered during the Spring semester.

CORCORAN PAINTING (CPT)

CPT 0800. Painting Workshop. 0 Credits.

Working from a live model each session, students explore how the human body may be represented in paint both realistically and semi-abstractly. Beginning students focus on acquiring technical skills and more advanced students receive guidance in handling compositional and expressive challenges. Students may work in oil or acrylic.

CPT 0810. Academic Painting Short Course. 0 Credits.

This short course is based on the approach used by the European art academies. The class will consist of several long-term assignments such as still life, portrait and figure, and include thorough drawing. Students will learn to see specific realistic images as a set of abstract shapes, and to see tonal values and colors in relation to the whole rather than to the neighboring areas. Another important topic will be the study of specifics of oil paint as a material.

CPT 0812. Painting Short Course. 0 Credits.

This short course is the non-credit version of our introductory painting class and is appropriate for all skill levels. Beginners will learn the basics, and more advanced students will progress on an individual basis. This course covers composition, color theory and canvas preparation.

CPT 0820. The Art of Watercolor/Gouache. 0 Credits.

This course emphasizes the control and expression of two water-based media: transparent watercolor and opaque gouache. Subject matter will be still life, landscape and portrait. Color mixing and color expression will be the primary focus of the class.

CPT 0821. The Touchscreen Artist: Sketching in the Gallery. 0 Credits.

Explore the digital touchscreen as a medium for drawing and painting CPT 0822 This non-credit course introduces students to a fresh approach to using watercolor as a flexible and erasable medium. The class will also cover color mixing, new surfaces for watercolor and techniques for layering imagery. Previous drawing or painting experience recommended.

CPT 0822. Non-Traditional Watercolors. 0 Credits.

CPT 0860. Landscape Drawing and Painting. 0 Credits.

Drawing as a way of seeing is explored through a series of free hand exercises, thereby developing one's landscape painting abilities. Students of all levels will have the opportunity to hone their hand skills and sharpen their artist's eye in articulating forms in the landscape. With visits to scenic locations and popular panoramic venues, and observing street scenes and garden vistas, students will be instructed in color theory and the principles of good landscape composition. Students may work in their chosen media and studio space will be available for use in case of inclement weather. Open to all levels of experience.

CPT 105. Painting Workshop. 3 Credits.

CPT 1200. Introduction to Painting. 1.5 Credit.

For all skill levels. Beginners will learn the basics, and more advanced students will progress on an individual basis. This course covers composition, color, and canvas preparation.

CPT 1210. Academic Painting. 1.5 Credit.

This course is based on the approach used by the European art academies. The class will consist of several long-term assignments such as still life, portrait, and figure, and include thorough drawing. Students will learn to see specific realistic images as a set of abstract shapes, and to see tonal values and colors in relation to the whole rather than to the neighboring areas. Another important topic will be the study of specifics of oil paint as a material. Prerequisite: Permission from the Continuing Education Advisor or previous enrollment in any Academic Drawing or Painting class at the Corcoran, including, but not limited to: CDR 0810 Academic Drawing Workshop, CDR 1220 Academic Drawing, CDR 1310 Academic Figure Drawing, CPT 0810 Academic Painting Workshop, CPT 1210 Academic Painting, or CPT 2310 Academic Portrait Painting.

CPT 1400. Introduction to Botanical Painting in Watercolor. 1.5 Credit.

For beginning students. This course is an introduction to the techniques of transparent watercolor using live plant material. Students will learn to apply paint and render the precise characteristics of specific plants, paying close attention to form, detail and color accuracy. Beginning with a simple plant form, students will move quickly to more complex plant portraits. Those with botanical drawings may proceed immediately to finished paintings. Drawing experience helpful. At times this course may be cross-tallied at a more advanced level as CPT 2400. Students with prior experience may wish to register for the more advanced section.

CPT 196. Oil Painting I. 0 Credits.

CPT 2200. Intermediate Painting. 1.5 Credit.

This course will review the fundamentals of painting and focus on individual development of style, technique, and direction. With the instructor's guidance, students will explore their personal visions and examine the historical and contemporary context of individual work. Class critiques and discussions will help students gain a better understanding of the painting process and increase their ability to express visual concepts. Students may work in oil or acrylic paint. For intermediate and advanced students. At time this course may be cross-tallied at the Introductory level as CPT 1200, beginning students should register for the introductory course. Prerequisite: CPT 1200 Introduction to Painting; or CPT 1210 Academic Painting.

CPT 2220. Abstract Painting. 1.5 Credit.

This course explores the concepts and meanings of abstraction and their relevance in today's world. Students will draw on imagery from nature and the visible world, personal experience, ideas, dreams, and the history of abstract painting. No painting or drawing experience required. At times this course may be offered at the undergraduate level as CPT 2220 and at the graduate level as CPT 6220. Additional coursework is required to earn graduate credit.

CPT 225. Painting. 0 Credits.

CPT 2280. Art of Color in Painting. 1.5 Credit.

Through a series of color exercises and painting assignments students will master the art of color using either oil or acrylic paint. Students will learn color mixing along with how to use color successfully in painting compositions. The course will also address the historical and theoretical use of color as well as explore color as personal expression. This class is open to both beginners as well as experienced painters.

CPT 2351. Still Life Painting in Oil: Techniques of the Old Masters. 1.5 Credit.

In this class, students will become acquainted with the painting techniques of early 17th-Century Europe. Starting with a tonal underpainting, students will use transparent glazes to build form, color, luminosity, and drama. The paintings of Caravaggio, Georges de La Tour, Claude Lorraine, and Vermeer will be used as guides as students become familiar with the terms chiaroscuro, tenebrism, and sfumato. Subject matter includes still life and landscape. This class is appropriate for both beginners and intermediate students. Offered in the the Spring semester only.

CPT 2400. Intermediate Botanical Painting in Watercolor. 1.5 Credit.

This course is a continuation of CPT 1400 Introduction to Botanical Painting in Watercolor. This course is a continuation of the techniques of transparent watercolor using live plant material. Students will learn to apply paint and render the precise characteristics of specific plants, paying close attention to form, detail, and color accuracy. Beginning with a simple plant form, students will move quickly to more complex plant portraits. Those with botanical drawings may proceed immediately to finished paintings. At times this course is cross-tallies with CPT 1400 Introduction to Botanical Painting. Pre-requisite: CPT 1400 Introduction to Botanical Painting.

CPT 2600. Painting Studio: Master Workshop. 3 Credits.

In this master workshop students will begin a cohesive body of work or fully develop one in progress. They will fine-tune image making skills on work with live models, projected images, or special projects, with emphasis on professional execution. History suggests that Van Eyck made the first oil painting medium, Rubens, Vermeer, and others helped to perfect it. Using the secret formulas and techniques of the Masters, students will learn how to use Maroger medium also known as miracle medium. Students will also explore imprimatura, underpainting and glazing, mixing and drying properties, opacities and characteristics of colors and media, and the production of effects with different brushes and painting tools. Finally, they will master these techniques and adapt them to their vision in forming expressive strategies in oil or acrylics.

CPT 301. Portrait Painting. 0 Credits.

CPT 3200. Painting Studio. 3 Credits.

Students in this course will begin a cohesive body of work or fully develop one in progress. They will fine-tune image making skills on work with live models, projected images, or special projects, with emphasis on professional execution. Using The Secret Formulas and Techniques of the Masters students will learn how to use Maroger Medium also known as Miracle Medium, history suggests that Van Eyck made the first oil painting medium, Rubens, Vermeer, and others helped to perfect it. Additionally, students will explore imprimatura, underpainting and glazing, mixing and drying properties, opacities and characteristics of colors and media, and the production of effects with different brushes and painting tools. Finally, they will perfect techniques and adapt them to vision in forming expressive strategies in oil or acrylics. For all skill levels, but some drawing is recommended. A few beginning and intermediate flourish with the Advanced students. Beginning students should register for CPT 3200 and advanced students may register for CPT 4200 if they have previously completed CPT 3200.

CPT 3201. The Contemporary Image in Painting and Drawing. 1.5 Credit.

This class challenges and facilitates intermediate, advanced, and post-baccalaureate students who wish to develop their art using emerging and current strategies in contemporary visual arts. Primary focus is painting and drawing but cross-media of all kinds will be considered and welcomed. The course is content driven and each student will be guided in developing strategies which uncover meaningful subject matter. Students will be guided in developing and refining painting and drawing skills in their chosen methods and materials. A series of experiments with methods and materials will challenge what students already know and enable them to develop a body of work that participates in the current conversation in the visual arts. Class critique, assigned reading and class discussions on current exhibitions in the city will be part of the class. Pre-requisite: CPT 2200: Intermediate Painting or equivalent painting experience.

CPT 3220. Advanced Abstract Painting Studio. 1.5 Credit.

For students with considerable drawing and painting experience who are interested in abstraction and non-objective imagery. Both individual and group critiques will be provided, with emphasis on the development of personal attitudes and approaches to painting. Out-of-class work will be encouraged and critiqued in relation to in-class work. This course is offered in the fall of even years only. Prerequisite: CPT 2220 Abstract Painting.

CPT 335. Intermediate Painting. 1.5 Credit.

CPT 392. Acrylic Painting. 1.5 Credit.

CORCORAN PHOTOGRAPHY (CPH)

CPH 0899. Digital Photography Basics. 0 Credits.

This short non-credit course is designed for digital camera newcomers who want to develop photographic skills, enhance pictures on the computer, and make digital prints. The curriculum introduces students to concepts in digital imaging and features of the digital camera. Students will learn about and practice shooting in aperture and shutter priority modes under different lighting conditions. Composition, depth of field, motion, raw file format, storage issues and color management concepts will be discussed. Basic methods of image enhancement using Adobe Photoshop are demonstrated and applied in preparing pictures for printing. Assignments will be reviewed on technical and aesthetic criteria.

CPH 100. Intro to Photography (Foundation Student). 3 Credits.

CPH 104. Fundamentals of Photography. 0 Credits.

CPH 1090. Photography Fundamentals I: Light Studies and Optical Culture. 3 Credits.

Light and optics are the fundamental elements of photographic media and of contemporary media culture. This Foundation year course introduces students to the formal characteristics of light and lenses by surveying a variety of image-making practices, from primitive photographic devices to digital photography and video. Through a combination of classroom talks and hands-on projects, students will encounter principles of black-and-white and color photography, as well as learning camera controls that open up a wide range of expressive possibilities. Historical antecedents, contemporary practices, and strategies of critical interpretation will be discussed in relation to specific assignments throughout the semester.

CPH 1091. Photo Fund II: Techniques/Practice. 3 Credits.

This film-based course for prospective photography majors and others interested in furthering their photography abilities extends students' existing camera and darkroom skills through a thorough assessment of individual image-making abilities. Students will learn advanced methods for making black-and-white negatives and prints, including controls for exposing and developing, as well as encountering new film formats and types. Practical instruction is accompanied by assignments that explore different genres and allow students to develop their own personal approaches.

CPH 2090. Photography/Photojournalism Studio I. 3 Credits.

Students explore personal sources of image making, strategies for editing, and different ways of seeing while refining their technical abilities. Assignments provide a structure for individual expression and interpretation while developing an awareness of photographic traditions, including photojournalism and documentary modes, and of the current state of contemporary practices. Students develop confidence and rigor in their approaches within an atmosphere of exploration and risk-taking. Fine-art photography and photojournalism students meet together and participate in frequent group and individual critiques, which promote intensive dialogue and proficiency in critical thinking.

CPH 2091. Photography Studio II. 3 Credits.

Students explore personal sources of image making, strategies for editing, and different ways of seeing while continuing to refine their technical abilities. This course continues the progression from Photography Studio I, but concentrates on discovering the sources of the student's impulse to make art and on developing a process for finding ways to express these sources using the photographic medium. For Fine Art Photography majors only. Pre-requisite: CPH 2090 Photography Studio I.

CPH 2100. Media Lab I. 3 Credits.

Required of Fine Art Photography and Photojournalism majors and elective for other BFA and BA students. This course extends the traditional use and control of photographic materials into the digital realm, exploring the scanning of negatives, the use of the digital darkroom for editing and tonal control, and the comparison of different output devices and materials available to the photographer. Discussions also include the integration of digital tools with traditional approaches to photography as well as non-traditional approaches, such as multimedia and animation. Issues dealing with presentation and the choice of archival inks and papers are covered. The goal is to familiarize students with the digital tools and materials, so as to allow freedom of personal expression and an awareness of the integration of technique, medium, and content. Formerly titled "Digital Photography for PH/PJ". Prerequisite: CPH 1000 Technique and Practice, or permission of instructor.

CPH 2110. Color Photography. 3 Credits.

This class introduces the student to the materials, techniques, and aesthetics of making color photographs using traditional chemical materials. Initially, the class will explore the use of a variety of transparency materials; however, the emphasis of the class will be on making prints from color negatives. The prints will be produced using enlargers with color filtration and an automatic roller-transport color processor. The aesthetics of color photography will be examined through group critiques and discussions of work by contemporary color photographers. Prerequisite: CPH 1000 Technique and Practice, CPH 1200 Introduction to Photography, or permission of the instructor.

CPH 2301. Digital Photography for Fine Art. 3 Credits.

This course is specifically designed for Fine Art and other non photographic majors who want to learn the fundamentals of digital photography. The class will cover all aspects of digital photography from proper use of cameras, how to properly scan both film and flatwork and how to use Adobe Photoshop CS 6 and Adobe Bridge CS 6 to edit and organize their work. There will be an emphasis on making fine prints using state of the art ink jet printers up to 44 inches wide. Students will be encouraged to explore how their photography fits into the content of their other work as well as how photographs can stand on their own. Current issues in photography will be explored through classroom discussions and critiques. There are no prerequisites and the class assumes no previous experience.

CPH 2350. The Extended Image. 3 Credits.

This course is for anyone interested in non-traditional photography, as well as for artists working in other media who wish to expand their use of photographic imagery. Students will learn to break away from the "classic" print by exploring the likes of soft focus, camera movement, pinhole and toy cameras, hand-applied color, paint-on developer, print toning, flashlight drawing, photograms, magazine lift, Polaroid transfer, photo collage, and blueprints, among other techniques. Emphasis (where possible) will be on simple, inexpensive, and nontoxic techniques and materials. Pre-requisite: CPH 1000 Photography Technique and Practice, CPH 1200 Introduction to Photography; or instructor's approval. Portfolio review may be required.

CPH 3050. Media Lab II. 3 Credits.

This course introduces students already familiar with still photography to time-based media, including video and audio. Over the course of the semester students will script, shoot/record, edit, and present projects including a silent video, a sound piece or audio package, and a video with audio. The history of time-based media will be examined and its influence traced through pop culture, art history, and conceptual and technical analyses. Basic techniques in Final Cut Pro and audio software will be covered. This course fulfills a PH and PJ major requirement, is open to all BFA majors and other degree students by permission of the instructor, and is a prerequisite for more advanced video classes. Prerequisite: CPH 1000 Technique and Practice or CPH 1200 Introduction to Photography. Formerly "Digital Video for PH/PJ" and "Media Lab".

CPH 3070. Studio and Location Lighting for Photographers. 3 Credits.

For PH/PJ majors only. This course examines qualities of light and explores creating and controlling light in a variety of photographic situations for desired outcomes, e.g., natural daylight supplemented with strobe light, studio lighting using single and multiple light set-ups, and on-location lighting. Various lighting methods are explored through three-dimensional still life's and portraits made in the studio and for assignments. Students are asked to keep a lighting journal of their techniques and progress. Prerequisite(s): CPH 2090 Photography Studio I or CPJ 2090 Photojournalism Studio I.

CPH 3090. Photography Studio III. 3 Credits.

The fine art photography major's third year is spent exploring the connections between ideas and photo-based techniques; between process and content. These explorations are the basis for discussions, assignments, field trips, and critiques. Students also study theory and criticism, with related assignments designed to promote a better understanding of the critical process. Students are encouraged to develop their own voices and to take responsibility for their own ideas through various strategies for the sequencing, construction, presentation, and existence of their work in different contexts (gallery wall, books, installation, video projections, internet, etc) and through self-assigned projects, which often become the nucleus of the students' senior-year thesis work. Prerequisite: CPH 2091 Photo Studio II.

CPH 3091. Photography Studio IV. 3 Credits.

This course continues the objectives of PH3090 Photography Studio III, with an emphasis on synthesizing the research and experimentation of that course to develop a student's ability to work in a self-directed fashion. Prerequisite: PH3090 Photo Studio III.

CPH 3120. Photography/Photojournalism Seminar I. 3 Credits.

This departmental seminar reflects on and reinforces issues of topical concern to photographers and photojournalists, as an adjunct to students' studio coursework. Topics will vary from year to year and when possible will be based on museum exhibitions, publications, and contemporary culture and events.

CPH 3200. Advanced Black and White Printing. 3 Credits.

This intensive darkroom course allows students to pursue work of their own choosing while learning advanced controls for black-and-white printing. The emphasis is on gaining the skills to make your prints look exactly as you want them to. Topics to be covered include local and overall contrast controls, toning for impact and for archival quality, masking and differential exposure, multiple printing, choices of paper tonality and surface, and the differences between condenser and cold-light printing. Students will work with their own negatives, which should be developed outside of class time. Prerequisite: CPH 1000 Photo Technique and Practice, CPH 2200 Intermediate Photography, or permission of the instructor.

CPH 3260. Advanced Digital Photography. 3 Credits.

This course is for students who know the basics of digital imaging, printing, and workflow and want to increase their skills and competencies in these areas in a workshop environment. Students will learn more refined and subtle approaches to editing and printing their photographs, develop a personal workflow process that is efficient and confidence-building, and benefit from individual and group critiques of their personal projects. The emphasis will be on exploring the creative possibilities of the digital darkroom, on integrating advanced digital techniques and approaches so that they serve the content of the image and the intentions of the image-maker, and on making high quality prints from both digital originals and scanned film. The class will be taught in an up-to-date digital lab using Adobe's latest Creative Suite version of PhotoShop and a choice of printers and film and flatbed scanners. Among the subjects covered are varieties of ink-jet printers and papers, color profiles and color management, test printing and proofing, advanced scanning and re-sampling, and creating master files. Students will also learn contemporary ideas about digital asset management (DAM). Prerequisite: CPH 2100 Media Lab 1, or permission of instructor.

CPH 3400. El Salvador Studio: International Experience/Transnational Identity. 3 Credits.

With some two million Salvadorans living in the U.S.-500,000 of them in the greater Washington, D.C., area-the people of El Salvador offer a lens into issues of migration and cultural identity that are central to much contemporary art and photography. El Salvador: International Experience/Transnational Identity, a seminar/studio and study-away course peers into this lens. Through readings, guest speakers, documentaries, first-hand experiences, interviewing artists and the study of an important art collection of Salvadoran art, students learn about the history and culture of El Salvador and its diaspora communities in the U.S., become mentors and ambassadors of culture, and probe the artist's role in the mediation of one's sense of self and place in a global/local context. During the seminar, students develop research and interviewing skills and learn to work collaboratively. With the assistance of the Corcoran's Public Education department, and in partnership with Salvadoran students and cultural figures, students will help develop an interdisciplinary outreach program to be used in schools and museums in Washington DC and in El Salvador that links art to contemporary life. Open to juniors and seniors, as well as graduate students from all Corcoran programs. Pre-requisite for CPH 3401 El Salvador/Travel: International Experience/Transnational Identity.

CPH 3401. El Salvador/Travel: International Experience/Transnational. 3 Credits.

The travel component of the course provides an opportunity for cultural exchange and for the application of an integrated model of art and social practice in a global/local context. By in situ exploration, conducting video interviews of artists and key cultural figures, and by leading educator workshops for youth, Corcoran students partner with students in El Salvador, empower young people, provide new models of engagement, and together construct a visual document of the artistic scene of the 1980s in El Salvador and its relevance to the current, transnational, cultural milieu. Travel expenses for CPH 3401 are additional. Pre-requisite: CPH 3400/6400 or permission by the instructor.

CPH 3450. Pre-Digital Alternative Process. 3 Credits.

This workshop-style course allows students to investigate new and personal directions using alternative photographic processes such as albumen, salted paper, gum bichromate, platinum/ palladium, and mordantage, leading to a fully realized portfolio, book, or other personal project. The course explores the creation of large-format digital negatives. Field trips include a visit to a Daguerreotype studio in New York City. Invention, experimentation, and risk will be strongly encouraged in this intermediate to advanced level class. Students will be required to provide their own chemistry and supplies for their final project. Prerequisite: CPH 2250 Extended Image, or permission of instructor.

CPH 3640. Advanced Studio Lighting: Commission Project. 3 Credits.

Students will work collaboratively with two professional photographers to produce 5-10 photographic portraits and 5-10 short videos of Foreign Service employees for an exhibition at the U.S. Department of State's new U.S. Diplomacy Center. Through an immersive, hands-on approach, students will learn the different aspects of commissions and exhibitions, including research, project management, collaboration and production. Students will also learn about historical and contemporary aesthetic approaches to photographic portraiture and will master technical issues such as lighting and interviewing skills. This course is aimed toward photography and photojournalism students who want to learn to work collaboratively in a real-life commission situation. Pre-requisite: CPH 3070 Studio Lighting and CPH 3050 Media Lab II or equivalent.

CPH 3800. Independent Study: Photography. 3 Credits.

This option is appropriate for degree students who want access to independent faculty supervision, lab areas, and supplies for independent projects, and do not need or desire extensive course instruction.

CPH 3900. Internship: Photography. 1 Credit.

For degree students only. Internships can help students develop marketable skills, establish professional contacts, and explore different career options.

CPH 4090. Photography Thesis I. 3 Credits.

As a complement to Senior Seminar, Senior Thesis Studio emphasizes process and practice in the development of a senior thesis project. The work evolves from a studio and seminar atmosphere that stresses individual and group critiques, as well as readings and discussions. Students are responsible for planning and executing a final thesis exhibition that meets professional standards and pushes their visual language and conceptual development. Various modes of presentation are discussed and demonstrated. During the fall semester, students exhibit their work-in-progress (White Walls Gallery) and participate in a critique with other Corcoran faculty. The work-in-progress critique at the end of the fall semester represents a pivotal moment in the development of the thesis exhibition and will be judged accordingly by the Studio faculty. Additionally, students will present and defend their work in the Photography Department's Departmental Review, in preparation for their exhibition during the spring semester. Prerequisite: CPH 3091 Photography Studio IV.

CPH 4091. Photography Thesis II. 3 Credits.

Senior Thesis Studio emphasizes process and practice in the development of a senior thesis project. The work evolves from a studio and seminar atmosphere that stresses individual and group critiques, as well as readings and discussions. Students are responsible for planning and executing a final thesis exhibition that meets professional standards and pushes their visual language and conceptual development. Various modes of presentation are discussed and demonstrated. During the spring semester, students continue to develop and refine their thesis project, so as to exhibit it in the thesis exhibition (Corcoran Gallery of Art). The latter part of the semester is dedicated to preparing the student to go out into the world as a practicing artist, interacting with visiting artists, with the public, continuing to look at a variety of artists' approaches, while pursuing a new body of work. Prerequisite: CPH 4090 Photo Thesis I.

CPH 4120. Photography/Photojournalism Seminar II. 3 Credits.

This course is a complement to Fine Art Photography Senior Thesis Studio (CPH 4090) and Photojournalism Senior Studio (CPJ 4090). This course explores issues of photographic voice, precedent and impact in the art world and publishing worlds. Students develop an awareness of the context in which they are making work by addressing contemporary issues through writing and oral presentations, visiting speakers, readings, exhibitions, and critiques with Corcoran faculty and outside experts. An emphasis will be placed on engaged participation and articulate and convincing writing addressing a student's ideas and aspirations in relation to traditions, practices, and discourses of photo-based art and media. This course is designed to assist Fine Art Photography and Photojournalism students in the process of working through a successful Senior Thesis project as well as in developing a well-rounded artistic and photojournalistic practice.

CPH 4170. Professional Practices for Photography. 3 Credits.

For photography majors only. This course facilitates the transition from a structured learning environment to real life. The range of experiences discussed includes working in commercial photography, in a classroom, or in commercial galleries or museums. In addition to field work, a classroom component provides information about current professional practices in photography. Topics include models' releases, copyright laws, taxes, contracts, graduate schools, resume writing, and business card and portfolio preparation, as well as others. Prerequisite: CPH 3091 or permission of department.

CPH 4251. Making Meaning: Narrative and the Art of the Photography Book. 3 Credits.

This advanced studio-based seminar engages with the traditions and practices of the photographic book to examine and explore narrative strategies useful to today's artists/photographers. Through close readings of such classic 20th century book works as Walker Evans's *American Photographs*, Wright Morris's *The Inhabitants*, Robert Frank's *The Americans*, Ralph Gibson's *The Somnabulist* and *Déjà Vu*, Larry Clark's *Tulsa*, Joel Sternfeld's *American Prospects*, and Alex Soth's *Sleeping by the Mississippi*, students will gain insight into ways of structuring their own photographic projects. On completion of the course, students will be expected to have sequenced and produced a book-length collection of their own photographs, in consultation with the instructor. This course can be taken as a substitute for CPH 3120, Junior Seminar. Former name: The Photo Book.

CPH 6400. El Salvador Studio: International Experience/Transnational Identity. 3 Credits.

With some two million Salvadorans living in the U.S.-500,000 of them in the greater Washington, D.C., area-the people of El Salvador offer a lens into issues of migration and cultural identity that are central to much contemporary art and photography. El Salvador: International Experience/Transnational Identity, a seminar/studio and study-away course peers into this lens. Through readings, guest speakers, documentaries, first-hand experiences, interviewing artists and the study of an important art collection of Salvadoran art, students learn about the history and culture of El Salvador and its diaspora communities in the U.S., become mentors and ambassadors of culture, and probe the artist's role in the mediation of one's sense of self and place in a global/local context. During the seminar, students develop research and interviewing skills and learn to work collaboratively. With the assistance of the Corcoran's Public Education department, and in partnership with Salvadoran students and cultural figures, students will help develop an interdisciplinary outreach program to be used in schools and museums in Washington DC and in El Salvador that links art to contemporary life. Open to juniors and seniors, as well as graduate students from all Corcoran programs. Pre-requisite for CPH 3401 El Salvador/Travel: International Experience/Transnational Identity.

CORCORAN PHOTOJOURNALISM (CPJ)

CPJ 121. Relief Printmaking Processes. 1.5 Credit.

CPJ 2091. Photojournalism Studio II. 3 Credits.

This course continues the progression of CPH 2090 Photojournalism Studio I but focuses entirely on the techniques, practices, and ethics of photojournalism itself. Assignments, classroom visitors, field trips, and readings will deepen students' understanding of the field and increase their skills for researching, photographing and editing stories. Prerequisite: CPJ 2090 Photojournalism Studio I.

CPJ 3090. Photojournalism Studio III. 3 Credits.

For Photojournalism majors only. Classes in this third-year course for photojournalism majors examine the similarities and differences in photojournalism in newspapers, magazines, television, the Internet, and other media. In addition to short-term, deadline-driven assignments, students undertake long-term projects. Topics include still and moving images, writing and editing needs in a variety of assignments, journalistic ethics, and communication laws. Prerequisite: CPJ 2091 Photojournalism Studio II.

CPJ 3091. Photojournalism Studio IV. 3 Credits.

For Photojournalism students only. In this continuation of CPJ 3090 students research, report and photograph a longterm narrative project. Through guest speakers, readings and assignments students consider different modes of practice, journalistic ethics, and communication laws. Multimedia approaches are explored as part of the course. Prerequisite: CPJ 3090 Photojournalism Studio III.

CPJ 3300. Speed of Sound. 3 Credits.

Great audio is a key component to compelling multimedia and video. Over the course of this class, audio reporting, collection, and postproduction techniques are explored and put into practice as a means to sharpen skills and advance understanding of the role and power of audio in visual journalism. Prerequisites: CPH 3050 and CPJ 2090 or CPJ 2091, or CPH 2090 and CPH 2091.

CPJ 4050. Picture Editing. 3 Credits.

CPJ 4090. Photojournalism Thesis I. 3 Credits.

In the final year of the Photojournalism curriculum, the emphasis is on developing individual strengths and style in the context of a sophisticated understanding of how photographic media shape and reflect public opinion. Students define, propose, research and initiate a longterm project that will culminate in the Spring semester Senior Thesis exhibit. Intensive one-on-one and group critiques are integrated into the course as the students explore various approaches to their chosen subject matter. Prerequisites: CPJ 3091 Photojournalism Studio IV and permission of the department.

CPJ 4091. Photojournalism Thesis II. 3 Credits.

This course continues the objectives of CPJ 4090 and focuses on the completion of the students' thesis work, which results in an exhibition at the Corcoran Gallery. Portfolio development and critique prepares students for the onset of their careers. Prerequisites: CPJ 4090 Photojournalism Thesis I and permission of the department.

CPJ 4170. Professional Practices for Photojournalism. 3 Credits.

For Photojournalism students only. This classroom complement to students' internship experiences examines the professional contexts in which today's photojournalism takes place and incorporates business practices, ethics, and economic realities. Practical approaches for working across multiple platforms are explored. Students will meet with working professionals and experts during the semester and will develop their portfolios, resumes and web identities for presentation in meeting the professional demands of the field. Prerequisite: CPJ 3091 Photojournalism Studio IV.

CPJ 4600. Web Essay. 3 Credits.

This class will teach photographers to build essays with still photography images and audio files. Over the course of the semester students will propose, research, edit and produce a series of audio/stills essays for web publication. Skills in developing and executing photo stories will be addressed as will effective audio gathering and editing. Audio gear and laptops required. Prerequisite: CPH 2090 Photography Studio I, CPJ 2090 Photojournalism Studio I, or permission of department.

CPJ 6010. Photojournalism Graduate Seminar I. 3 Credits.

This is the first in a three-semester series of courses exploring traditional and non-traditional uses of photographic imagery in the media. Over the semester the class will examine photojournalism to determine the elements within an image, sequence or mode of publication that are most effective in communicating a concept or representing human experience. The class will run as a series of lectures, visiting artists, field trips and group projects.

CPJ 6020. Photojournalism Graduate Seminar II: Approaches to Photo Editing. 3 Credits.

The course includes modules on the theory and aesthetics of editing and will enable students to develop creative skills for translating ideas into picture stories. Students will develop newspaper and magazine picture editor's management skills from managing assignments and photographers to storytelling in newspapers and magazines in print and online. Discussions on the communicative qualities of images how they affect decisions of picture use in publications and on the web.

CPJ 6024. Photojournalism Seminar II: Danish Embassy. 3 Credits.

To be announced.

CPJ 6025. PJ Sem II: Theories of Change/ New Forms of Radical Photography. 3 Credits.

In questioning how photographers collaborate with NGO's, policy makers, community activists and many others, this course will examine if and how creative work can radicalize civic institutions like the press, citizenship and even government toward greater justice and equity. With a focus on three arenas examined through visual arts: violence, the environment and global equity; the class will present students with a comprehensive window into the discourse and practice(s) of socially engaged art, film, and photography. Through critical discussions, field trips, and visiting artists, the class will create a blueprint and staging ground for students to activate these ideas within their own areas of interest.

CPJ 6050. Advanced Multimedia Lab I. 3 Credits.

In this intensive, required course all MA in CPJ students are immersed in the basics of audio collection and production, integration of still images into audio timelines, video techniques and post-production. Three projects are completed through the course of the semester and grow increasingly complex. Final projects are published on a webpage conceived by the student.

CPJ 6060. Advanced Multimedia Lab II: Editing and Production. 3 Credits.

Reserved for MA/PJ requirement.

CPJ 6100. Research, Reporting, and Writing: Contemporary Journalism Practice. 3 Credits.

Students go beyond the basics in story coverage exploring effective research techniques, interview techniques, and writing for breaking news as well as short and long term projects. Through lectures, writing assignments, intensive workshops as well as individual and team assignments, students develop and begin to hone the skills of effective story coverage for web and print publications. This course works closely with the Photojournalism Story and Narrative and Advanced New Media Lab courses. A critical reading of contemporary media is emphasized throughout the course.

CPJ 6110. Story and Narrative in Photojournalism. 3 Credits.

At the heart of photojournalism is the human condition and the day-day-lives of those around us. Through this course students analyze effective visual story telling with still images. Students develop an understanding of what makes a strong photo story and how to pursue compelling images. A series of student-generated projects is completed through the course of the semester.

CPJ 6300. Speed of Sound. 3 Credits.

Great audio is a key component to compelling multimedia and video. Over the course of this class, audio reporting, collection, and postproduction techniques are explored and put into practice as a means to sharpen skills and advance understanding of the role and power of audio in visual journalism. Prerequisite: CPJ 6050.

CPJ 6401. El Salvador Travel: International Experience/ Transnational Identity. 3 Credits.

The travel component of the course provides an opportunity for cultural exchange and for the application of an integrated model of art and social practice in a global/local context. By in situ exploration, conducting video interviews of artists and key cultural figures, and by leading educator workshops for youth, Corcoran students partner with students in El Salvador, empower young people, provide new models of engagement, and together construct a visual document of the artistic scene of the 1980s in El Salvador and its relevance to the current, transnational, cultural milieu. Travel expenses for CPH 3401 are additional. Pre-requisite: CPH 3400/6400 or permission by the instructor.

CPJ 6640. Advanced Studio Lighting: Commission Project. 3 Credits.

Students will work collaboratively with two professional photographers to produce 5-10 photographic portraits and 5-10 short videos of Foreign Service employees for an exhibition at the U.S. Department of State's new U.S. Diplomacy Center. Through an immersive, hands-on approach, students will learn the different aspects of commissions and exhibitions, including research, project management, collaboration and production. Students will also learn about historical and contemporary aesthetic approaches to photographic portraiture and will master technical issues such as lighting and interviewing skills. This course is aimed toward photography and photojournalism students who want to learn to work collaboratively in a real-life commission situation.

CPJ 6800. Independent Study: Photojournalism. 3 Credits.

This option is appropriate for degree students who want access to independent faculty supervision, lab areas, and supplies for independent projects, and do not need or desire extensive course instruction.

CPJ 6900. Internship: MA Photojournalism. 3 Credits.

For degree students only. Internships can help students develop marketable skills, establish professional contacts, and explore different career options.

CPJ 7010. Photojournalism Graduate Seminar III: The Medium and the Message. 3 Credits.

This course is designed to support and challenge New Media Photojournalism students as they work through the concepts of their thesis work and presentations. Units will address the essential elements of exhibitions, social media, online publishing, and community engagement. A combination of case studies, visiting lecturers and practical exercises will be used to explore ideas and develop multi-platform strategies for publishing work. This course functions as a complement to CPJ 7800 PJ Thesis Workshop.

CPJ 7251. Making Meaning: the Photography Book. 3 Credits.

This advanced studio-based seminar engages with the traditions and practices of the photographic book to examine and explore narrative strategies useful to today's artists/photographers. Through close readings of such classic 20th century book works as Walker Evans's *American Photographs*, Wright Morris's *The Inhabitants*, Robert Frank's *The Americans*, Ralph Gibson's *The Somnabulist* and *Déjà Vu*, Larry Clark's *Tulsa*, Joel Sternfeld's *American Prospects*, and Alex Soth's *Sleeping by the Mississippi*, students will gain insight into ways of structuring their own photographic projects. On completion of the course, students will be expected to have sequenced and produced a book-length collection of their own photographs, in consultation with the instructor.

CPJ 7320. Fine Printing Technique. 3 Credits.

This course is for graduate New Media Photojournalism students who know the basics of digital imaging, printing, and workflow and want to increase their skills and competencies in these areas in a workshop environment. Students will learn more refined and subtle approaches to editing and printing their photographs, develop a personal workflow process that is efficient and confidence-building, and benefit from individual and group critiques of their personal projects. The emphasis will be on exploring the creative possibilities of the digital darkroom, on integrating advanced digital techniques and approaches so that they serve the content of the image and the intentions of the image-maker, and on making high quality prints from both digital originals and scanned film. The class will be taught in an up-to-date digital lab using Adobe's latest Creative Suite version of Photoshop and a choice of printers and film and flatbed scanners. Among the subjects covered are varieties of ink-jet printers and papers, color profiles and color management, test printing and proofing, advanced scanning and re-sampling, and creating master files. Students will also learn contemporary ideas about digital asset management (DAM).

CPJ 7340. Project Driven Website Design for NMPJ. 3 Credits.

This class guides students through the process of bringing a large body of work or project to life through a website. Explored through the semester are questions of how to drive website design with content, engage viewers and nurture and build upon bodies of work. Each student will be expected to have joined the class with a thesis project or equally substantial body of work upon which to base the development of a site. Project deadlines are linked to the Corcoran thesis process.

CPJ 7350. Nuancing the Story: Advanced Post Production for NMPJ.. 3 Credits.

This course explores motion graphics and visual effects for video and film. Asset management, timeline work flow, keyframes, sound, compositing techniques, basic keying, effects, lighting, and camera are just some of the elements and reviewed and taught in this course. Professional techniques and standards are explored for timeline based special effects. Students learn advanced asset management, effects, and presets. The focus will be on enhancing existing projects and preparing a professional demo reel of work.

CPJ 7800. Thesis Workshop. 3 Credits.

This workshop-style course focuses on student's projects and progress in the research and production of a thesis project for graduation from the New Media Photojournalism program. Arranged as a series of team-led workshops, group and individual critiques, coaching sessions, and work with outside mentors, the class provides a productive atmosphere as students build and refine their projects. This is where the rubber hits the road. The proof gets into the pudding required of anyone who is working on thesis for Spring exhibit and defense.

CPJ 7815. Thesis Travel Project. 3-6 Credits.

This course provides structured support for New Media Photojournalism students undertaking thesis projects involving travel outside of the Washington, D.C. metro area. To be eligible to for this course students must have successfully completed the first year (24 credits) of the NMPJ curriculum and be on schedule to graduate and in good academic standing overall as outlined in the Student Handbook. Prior to enrolling in the course a thesis topic, proposal and budget must be approved by the program director and thesis project coach. Once approved and enrolled, the student will work with an assigned faculty member to develop a Work Plan and Outcomes document in order to define the pace and content of work, schedule of deadlines and expected outcomes. This plan must be approved by the program director. Students will undergo a minimum of three substantial reviews of work over the course of the semester in addition to a regular schedule of feedback as defined in the project Work Plan and Outcomes document. Students are expected to work independently and meet all deadlines for the course as well as thesis production, post-production, exhibition and defense over the course of the academic year. Expenses incurred for travel and submitting deadline materials to faculty before critiques are the responsibility of the student. As with all second-year NMPJ students, those enrolled in Thesis Travel Project are required to participate in Departmental Reviews at the end of the semester as scheduled. Program Director Approval Required This course is offered at 3 and 6 credits. Credit value will be determined based upon the scope and content of the course as outlined in the Work Plan and Outcomes document.

CPJ 7900. Photojournalism Graduate Thesis (Directed Study). 3 Credits.

In this course, students complete a comprehensive body of visual journalism accompanied by a written thesis outlining approach, photo/video precedents, and a narrative piece to accompany visual work. Each student works closely with faculty and advisors with the goal of producing the highest quality work for all components of the thesis process. Regular critiques and workshops are designed to support each student and keep on a schedule of production, postproduction, exhibition and defense. The process will culminate with the display of thesis projects developed over the course of the semester through required websites and other exhibition formats; formal students presentations to faculty and area professionals; completion of community engagement projects; and submission of all thesis work. Suggested complementary course: CPJ 7340, Project Driven Web Design.

CORCORAN PRINTMAKING (CPR)

CPR 1270. Surface Design for Textiles. 1.5 Credit.

Surface Design for Textiles is an introduction to the properties of dyes, paints and discharge chemicals on fabric. The course will cover the processes of immersion and dye painting and the techniques of Shibori, silkscreening, block printing, stenciling, monoprinting, and computer inkjet printing. Various resists will be explored, including potato and corn dextrin, rock salt, and gutta, on a variety of materials including silk, cotton, linen, and rayon. The completion of small samples using the techniques introduced will demonstrate understanding of the various processes. Two final projects will reflect the creative application of the learned processes. It is recommended that students who are pregnant, nursing, or planning a pregnancy this semester do not take this class. In some terms this course may be cross-tallied at the undergraduate level as CPR 1270 and at the graduate level as CPR 5270. Additional work is required to earn graduate credit.

CPR 1300. Introduction to Screenprinting. 1.5 Credit.

Students will use the latest in water-based ink technology in a variety of techniques for stencilmaking suited specifically to the screenprinting medium. Substantial independent work is possible for advanced students.

CPR 1351. Collagraph & Monotype Prints. 1.5 Credit.

Monotype and Collagraph processes offer many possibilities as a medium for both small and large format prints in black and white or color. Students will learn to assemble and fabricate plates with found materials using various textures, gessos and modeling pastes. A variety of techniques in preparing and print monotypes will also be demonstrated. Advanced Students may pursue individual projects with the instructor's supervision and approval.

CPR 155. Screenprinting. 1.5 Credit.**CPR 156. Screenprinting. 1.5 Credit.****CPR 210. Bookbinding for Artists & Designers. 1.5 Credit.****CPR 2280. Between Paint and Print. 1.5 Credit.**

This course is an opportunity for painters to explore the possibilities and potential of integrating screenprinted imagery, textures, and ideas into painting as unique works or as serial projects. Students will explore ways to incorporate printed images directly into the painted surface, working with printing inks, resists, and adhesives to alter and organize the paint when applied directly over the surface.

CPR 2300. Screenprinting. 3 Credits.

This is a broad based course in screen printing for both beginning and intermediate students. The course covers techniques and strategies in screen printing for students studying graphic design, photography and fine arts. The first half of the semester will be devoted to basic skill building and understanding the potential and uses of this medium. The second half will focus on specific projects related to each student's interests and background.

CPR 2403. Book Arts: Concept and Content. 3 Credits.

This course is for the beginner to intermediate student in fine arts, graphic design, or photography, and encompasses the fundamentals for creating and assembling artist's books. Class focus will be on student examination of book content and concept and will cover a range of book structures such as portfolio forms, pamphlets, Japanese stab binding, concertina, Coptic, and perfect bindings. The altered book and book object will also be covered. The Intermediate student will work more independently with additional hybrid book forms under the guidance of the instructor. Content of the books is emphasized with demonstrations in a variety of print and image-making techniques.

CPR 2423. 2D Applications in Paper. 3 Credits.

This course will introduce the beginning student to basic papermaking skills, tools and techniques. Sheets of various fibers and surface characteristics will be covered, as well a range of coloring techniques. Students will learn to prepare and beat cotton fiber and linter and design sheets for specific purposes such as printmaking, bookbinding, and photographic processes. Methods unique to making artwork in handmade paper will be explored, including pulp painting, printing and pulp transfer processes, and a variety of collaging, embedding, and watermark techniques. This course may be offered at the undergraduate level as CPR 3423 and at the graduate level as CPR 5423. The intermediate to advanced student will be able to do more self-directed projects in these areas and graduate students will be required to do a research paper on historical or contemporary papermakers and /or papermaking.

CPR 2460. Botanical Print. 1.5 Credit.

While the new resurgence of interest in botanical art concentrates on watercolor, artists should know that botanical art started with wood block and etching prints. Botanical Prints date back to the late 15th century, and by the 16th century became the medium of choice for the great flower painters. This course is designed for the botanical illustrator and will cover a range of introductory techniques in etching, relief, and lithographic print processes. It will enable the student to make reproductions of his/her work in both traditional and experimental printmaking, while exploring the rich possibilities inherent in these media. The prerequisite for the course is Botanical Drawing or Botany for Illustrators.

CPR 2750. SMdA: Charting San Miguel de Allende: The Artist's Journal. 3 Credits.

How do we write literature and make art that captures the experience of the places we visit as tourists? What strategies are available beyond the obvious ones? Through writing and the making of visual art, how can we see and record aspects of the daily life of a community that might go unremarked or unknown otherwise? The historic town of San Miguel, Mexico, with its rich history of art and literature, provides an unparalleled opportunity to explore these questions. This winter-session course focuses on the intersection of writing and bookmaking. Through a series of hands-on seminars and workshops, students will learn how to transform the raw materials of their sketchbooks and notebooks into fully realized literary texts in a variety of hand-made book forms. Two major book projects, one collaborative and one independent, will be required. Note: This course carries an additional fee which includes triple occupancy lodging, daily breakfast, materials fee for the duration of the course, and airport transportation. Airfare and tuition are additional, as is an optional excursion. Please contact the department for details.

CPR 3250. Lithography. 3 Credits.

Designed as an exploration of the lithographic process, which involves both the direct application of drawing on stone and aluminum plate and the use of photographically derived imagery. This course is a great introduction to printmaking, as well as an excellent tool for more advanced students. Lithography can be a highly expressive drawing medium as well as a versatile technical tool for the manipulation of photography. Students will be able to sample both skills, with expert guidance from CCAD's printmaking faculty. Ambitious prints will be realized in black and white and color, and will be driven by images and imagination. Students will learn some great technical skills while getting critical feedback on their ideas. At times this course may be cross-tallied at the graduate level as CPR 5250. Students seeking graduate credit will be required to do additional work including a research paper and formal presentation of their work and ideas to the general class.

CPR 3261. Photo Printmaking Projects. 3 Credits.

Ideal for the printmaker, photographer, or any student interested in utilizing photographic or appropriated images in their work, this course will cover a range of approaches in making fine art prints. Using solar etching plates, lithographic pronto plates and alternative processes such as gum transfer printing, and other mixed media and alternative print methods, the student will develop his/her imagery in an expansive and experimental manner. Color printing techniques, and unique monoprint processes will also be covered, allowing the student to explore the many possibilities these media have to offer.

CPR 3311. Screenprinting for Digital Media. 1.5 Credit.

The combination of traditional printmaking processes and digital techniques will be explored. Students will learn how to produce limited-edition fine art prints and/or posters for graphic projects. They will also develop conceptual and technical skills for the creation of digitally-based work. Artwork will be generated on the computer and in combination with drawing, painting, and/or photography. Film positives for screenprinting will be printed directly from the computer as multilayered, duotone, or four-color process separations. Images will then be transferred to a screen using a photo emulsion process. The latest techniques for screenprinting will be demonstrated using water-based inks on archival papers as well as alternative materials. At times this course may be cross-tallied at the undergraduate level as CPR 3311 and at the graduate level as CPR 5311. Students seeking graduate credit will be required to do additional work including a research paper and formal presentation of their work and ideas to the general class.

CPR 3361. The Wood Block Print: Traditional and Contemporary. 3 Credits.

Contemporary practice in art has over the years attached a special interest in the unique and expressive visual qualities of the woodcut. Its appeal is both as a stand alone print medium as well as one that can be combined with screenprinting, painting, sculpture and photography in multimedia projects. In this class, traditional methods of wood block printing will be taught as well as techniques that include reductive color printing from single blocks and works that incorporate the inclusion of other media enabling the student to create unique as well as multiple prints and objects. Anselm Kiefer and Christiane Baumgartner, both known for their large scale woodcuts are a few the artists working today who have mined the potential of this medium in their work. Their woodcuts along with other contemporaries artists working in this medium will be introduced in this class.

CPR 4350. Advanced Printmaking: Lithography, Monoprint, Etching. 3 Credits.

This intensive course covers advanced techniques in Etching, Relief, and Monoprint processes, and is designed for the student who has had introductory courses in some of these areas. The class covers a variety of color printing methods such as multi-plate, chine colle, and stencil printing. Further exploration into photo print and mixed media processes as well as a range of monotype and monoprint techniques will be demonstrated.

CPR 4351. Advanced Printmaking: Screenprinting and Woodblock. 3 Credits.

Expanding upon knowledge students have gained studying woodcut and/or screenprinting through intermediate level courses, students will work toward a level of mastery of one or both forms. Technical demonstrations will challenge students to technical expertise in their own work. This course will demonstrate the broad and varied connections of screenprinting and woodcut to other media, with emphasis on how they can be applied to the student's own artistic practice. Students will also pursue a cross media project resulting in a research paper and presentation, building toward strategies for future work. Examples will be regularly given linking the work of select contemporary artists to the notion that "printmaking processes, imagery and the materials themselves have an expansive quality that open new possibilities and perspectives in artistic process." Examples will be given of artists whose work uses print media to expand their ideas based in other media. Students will keep a journal with their thoughts and ideas about these artists and their work.

CPR 5250. Lithography. 3 Credits.

Designed as an exploration of the lithographic process, which involves both the direct application of drawing on stone and aluminum plate and the use of photographically derived imagery. This course is a great introduction to printmaking, as well as an excellent tool for more advanced students. Lithography can be a highly expressive drawing medium as well as a versatile technical tool for the manipulation of photography. Students will be able to sample both skills, with expert guidance from CCAD's printmaking faculty. Ambitious prints will be realized in black and white and color, and will be driven by images and imagination. Students will learn some great technical skills while getting critical feedback on their ideas. At times this course may be cross-tallied at the graduate level as CPR 5250. Students seeking graduate credit will be required to do additional work including a research paper and formal presentation of their work and ideas to the general class.

CPR 5270. Surface Design for Textiles. 1.5 Credit.

Surface Design for Textiles is an introduction to the properties of dyes, paints and discharge chemicals on fabric. The course will cover the processes of immersion and dye painting and the techniques of Shibori, silkscreening, block printing, stenciling, monoprinting, and computer inkjet printing. Various resists will be explored, including potato and corn dextrin, rock salt, and gutta, on a variety of materials including silk, cotton, linen, and rayon. The completion of small samples using the techniques introduced will demonstrate understanding of the various processes. Two final projects will reflect the creative application of the learned processes. It is recommended that students who are pregnant, nursing, or planning a pregnancy this semester do not take this class. In some terms this course may be cross-tallied at the undergraduate level as CPR 1270 and at the graduate level as CPR 5270. Additional work is required to earn graduate credit.

CPR 5300. Screenprinting. 3 Credits.

This is a broad based course in screen printing for both beginning and intermediate students. The course covers techniques and strategies in screen printing for students studying graphic design, photography and fine arts. The first half of the semester will be devoted to basic skill building and understanding the potential and uses of this medium. The second half will focus on specific projects related to each student's interests and background.

CPR 5311. Screenprinting for Digital Media. 1.5 Credit.

The combination of traditional printmaking processes and digital techniques will be explored. Students will learn how to produce limited-edition fine art prints and/or posters for graphic projects. They will also develop conceptual and technical skills for the creation of digitally-based work. Artwork will be generated on the computer and in combination with drawing, painting, and/or photography. Film positives for screenprinting will be printed directly from the computer as multilayered, duotone, or four-color process separations. Images will then be transferred to a screen using a photo emulsion process. The latest techniques for screenprinting will be demonstrated using water-based inks on archival papers as well as alternative materials. At times this course may be cross-tallied at the undergraduate level as CPR 3311 and at the graduate level as CPR 5311. Students seeking graduate credit will be required to do additional work including a research paper and formal presentation of their work and ideas to the general class.

CPR 5423. 2D Applications in Paper. 3 Credits.

This course will introduce the beginning student to basic papermaking skills, tools and techniques. Sheets of various fibers and surface characteristics will be covered, as well as a range of coloring techniques. Students will learn to prepare and beat cotton fiber and linter and design sheets for specific purposes such as printmaking, bookbinding, and photographic processes. Methods unique to making artwork in handmade paper will be explored, including pulp painting, printing and pulp transfer processes, and a variety of collaging, embedding, and watermark techniques. This course may be offered at the undergraduate level as CPR 3423 and at the graduate level as CPR 5423. The intermediate to advanced student will be able to do more self-directed projects in these areas and graduate students will be required to do a research paper on historical or contemporary papermakers and /or papermaking.

CPR 6261. Photo Printmaking Process. 3 Credits.

Ideal for the printmaker, photographer, or any student interested in utilizing photographic or appropriated images in their work, this course will cover a range of approaches in making fine art prints. Using solar etching plates, lithographic pronto plates and alternative processes such as gum transfer printing, and other mixed media and alternative print methods, the student will develop his/her imagery in an expansive and experimental manner. Color printing techniques, and unique monoprint processes will also be covered, allowing the student to explore the many possibilities these media have to offer.

CPR 6361. The Wood Block Print: Traditional and Contemporary. 3 Credits.

Contemporary practice in art has over the years attached a special interest in the unique and expressive visual qualities of the woodcut. Its appeal is both as a stand alone print medium as well as one that can be combined with screenprinting, painting, sculpture and photography in multimedia projects. In this class, traditional methods of wood block printing will be taught as well as techniques that include reductive color printing from single blocks and works that incorporate the inclusion of other media enabling the student to create unique as well as multiple prints and objects. Anselm Kiefer and Christiane Baumgartner, both known for their large scale woodcuts are a few the artists working today who have mined the potential of this medium in their work. Their woodcuts along with other contemporaries artists working in this medium will be introduced in this class.

CPR 6800. Directed Studies: Printmaking. 3 Credits.

This option is appropriate for degree students who want access to independent faculty supervision, lab areas, and supplies for independent projects, and do not need or desire extensive course instruction. This option is justified only if 1) the project content cannot be covered in an existing course, 2) the student's department deems it of substantive value to the student's educational goals and interests, and 3) the project work will be done outside of regularly scheduled class time. All directed studies are for credit (one to three credits). Students cannot take more than three credits of directed studies per semester. Students enrolled in directed studies will have access to the facilities and equipment at times arranged by the instructor. To enroll, students must submit a Directed Studies Contract that is available at the Office of the Registrar and obtain written permission from the instructor and the chair or program director of the student's department and when different, the course department. The directed studies instructor will be responsible for working with the student to establish project goals, oversee progress, and determine final course grades. Bachelor's Foundation students and Continuing Education students are not eligible for directed studies. Under certain circumstances, directed studies may be pursued by graduate students by combining participation in an advanced undergraduate course with extra independent assignments at the graduate level, as arranged in advance with the directed studies instructor.

CPR 7350. Advanced Printmaking: Lithography, Monoprint, Etching. 3 Credits.

This intensive course covers advanced techniques in Etching, Relief, and Monoprint processes, and is designed for the student who has had introductory courses in some of these areas. The class covers a variety of color printing methods such as multi-plate, chine colle, and stencil printing. Further exploration into photo print and mixed media processes as well as a range of monotype and monoprint techniques will be demonstrated.

CPR 7351. Adv Print: Screenprint/Woodblock. 3 Credits.

Expanding upon knowledge students have gained studying woodcut and/or screenprinting through intermediate level courses, students will work toward a level of mastery of one or both forms. Technical demonstrations will challenge students to technical expertise in their own work. This course will demonstrate the broad and varied connections of screenprinting and woodcut to other media, with emphasis on how they can be applied to the student's own artistic practice. Students will also pursue a cross media project resulting in a research paper and presentation, building toward strategies for future work. Examples will be regularly given linking the work of select contemporary artists to the notion that "printmaking processes, imagery and the materials themselves have an expansive quality that open new possibilities and perspectives in artistic process." Examples will be given of artists whose work uses print media to expand their ideas based in other media. Students will keep a journal with their thoughts and ideas about these artists and their work.

CORCORAN SCULPTURE (CSL)

CSL 105. Introduction to Sculpture for Fine Art Majors. 3 Credits.**CSL 1200. Introduction to Sculpture for CE. 1.5 Credit.**

In this course students will focus on a variety of problems, from elementary design to intermediate projects, and learn the basics of modeling in clay, plaster moldmaking, and casting. Each student will also work in one other medium, choosing from wood or metal. Drawing and design experience are strongly recommended. At times this course may be cross-tallied at an intermediate to advanced level as CSL 2200. Students with prior experience may wish to register for the more advanced section.

CSL 1410. Introduction to Stone. 3 Credits.

This course focuses on direct carving in stone. Students will explore abstract and objective forms while working on personally designed projects. There will be an emphasis on mastering carving techniques, including hand and power tools, and on exploring concept and composition within the subtractive context. Individual attention and an immediate hands-on approach will address the needs of all students. This course is designed for all skill levels. At times this course may be cross-tallied at a more advanced level as CPT 2410. Students with prior experience may wish to register for the more advanced section.

CSL 177. Sculpture. 1.5 Credit.**CSL 2250. Introduction to Metal Sculpture. 1.5 Credit.**

This course is designed for beginning students and will explore welding, cutting, bending, and fastening a variety of metals. Oxyacetylene and MIG welders, cutting saws and shears, and the bending brake will be introduced. Students will construct sculpture projects of their own design. At times this course may be cross-tallied at an intermediate level as CSL 3250. Students with prior experience may wish to register for the intermediate section.

CSL 2252. Metals and Metalsmithing. 3 Credits.

Large-scale metal sculpture and small-scale metalsmithing techniques share the student's creative energy in this inter-studio course. In the Sculpture studio, students explore welding, cutting, bending, and fastening a variety of metals. Oxyacetylene and MIG welders, cutting saws and shears, and the bending brake will be introduced. Small scale bronze casting, cold forging, piercing (jeweler's saw) scoring-and-bending, cold connections (rivets), soldering and emphasizing the use of the jeweler's saw, torch, flexible shaft drill and fine hammer work, are the focus of work in the metalsmithing studio. Assignments are designed to relate the use of metal and metalsmithing to students' own artistic explorations.

CSL 2320. Creative Destruction: Subtractive Processes. 3 Credits.

Using both wood and foam students will explore the subtractive method of carving and discover ways to make large works relatively inexpensively. Students will gain familiarity with power wood carving techniques using tools such as the band saw, die grinder, and the lathe. In addition, the class will explore foam carving through the use of hot wire tools, hand tools and power tools. Various types of foam will be discussed as well as materials for foam coating which will create a firm, paintable, permanent shell over the foam using materials such as Magic-Smooth, Aqua-Resin, Plasti-paste, and more. Priming and painting methods for finished works will be stressed in addition to the method of final presentation. The application of mixed media or video to the final presentation will be encouraged but not required. In addition to gaining a level of proficiency with these techniques, students will create a cohesive body of work that is an investigation of a singular theme of the student's choice.

CSL 2341. Woodworking and Furniture Design. 1.5 Credit.

This course is designed for students with an interest in woodworking and furniture design. The fundamentals of both traditional and contemporary design are explored. From chairs to tables to a variety of cabinetry, students will have the ability to construct a work of their own design. Over the course of the semester, students will work with the instructor on the design and building of a piece of furniture. Instruction in the usage and techniques of both machine and hand tools are covered in conjunction with the execution of the finished piece. Beginning with sketches, students will explore design and materials, fabricate models, and generate construction drawings, with a goal of fabricating and completing their own project. As different projects progress, tutorials on new techniques will be explained and applied. At times this course may be cross-tallied at an intermediate level as CSL 2351. Students with prior experience may wish to register for the intermediate section.

CSL 2351. Intermediate Woodworking and Furniture Design. 1.5 Credit.

In this intermediate course students expand on the skills and techniques developed in CSL 2341: Introduction to Woodworking and Furniture Design. From chairs and tables to a variety of cabinetry, students will have the ability to construct a work of their own design. Over the course of the semester, students will work with the instructor to design and build a piece of furniture. Instruction in the usage and techniques of both machine and hand tools are covered in conjunction with the execution of the finished piece. As different projects progress tutorials on new techniques will be explained and applied. At times this course may be cross-tallied at an introductory level as CSL 2341. Students with no prior experience may wish to register for the introductory section. Prerequisite: CSL 2341 Introduction to Woodworking and Furniture Design.

CSL 2410. Intermediate Stone. 1.5 Credit.

This course is designed for students who have had entry-level sculpture and carving classes. The focus will be advanced carving techniques. The use of texture and form will be explored, utilizing both traditional and non-traditional carving techniques and tools. Further inclusion of advanced sculptural techniques will examine the direct carving method, not using a model or maquette but allowing free creative expression. Traditional carving methods will also be employed to replicate sculpture, planned thought process, drawing, modelmaking, moldmaking, and copying using advanced sculptural instruments. Prerequisite: CSL 1400 Introduction to Stone and Wood, or CSL 1410 Intro to Stone.

CSL 3260. Mold-making and Casting. 3 Credits.

In this class students will gain familiarity with a variety of mold making and casting techniques and materials, brush up on clay modeling skills, and experiment with ways to add a final finish such as paint, stain, flocking, etc, to three-dimensional work. Students will create several small silicone rubber box molds, a large brush-on silicone rubber mold with a plaster mother mold, and an alginate mold from life. Castings will be made in Aqua Resin (a new non-toxic material) as well as polyurethane resin (liquid plastic) and alternative media such as latex, dirt, soap, or chocolate. The addition of dyes and decorative powders to the casting resin will be covered. The concept of the multiple and the copy will be discussed. The integration of mixed media into the final work is encouraged along with creative final presentation methods as students work towards the goal of creating portfolio quality work.

CSL 3351. Advanced Woodwork and Furniture Design. 1.5 Credit.

This course is designed for students with some experience in woodworking and furniture design. The fundamentals of both traditional and contemporary design are explored. From chairs to tables to a variety of cabinetry, students will have the ability to construct a work of their own design. Over the course of the semester, students will work with the instructor on the design and building of a piece of furniture. Instruction in the usage and techniques of both machine and hand tools are covered in conjunction with the execution of the finished piece. Beginning with sketches, students will explore design and materials, fabricate models, and generate construction drawings, with a goal of fabricating and completing their own project. As different projects progress, tutorials on new techniques will be explained and applied. In some cases this course may be cross-tallied at an intermediate level as CSL 2351. Based on experience, students may wish to register for the intermediate section. Prerequisite: CSL 2351 Intermediate Woodworking and Furniture Design.

CSL 3352. Wood as Sculpture. 3 Credits.

This practical skill-building course will explore the different uses and applications of wood as a material for making art. Students will learn the material characteristics of wood, methods of milling and processing, as well as engineered wood products. Instruction will include joinery, proper use of fasteners and adhesives, and wood finishing techniques. Emphasis will be placed on tool safety, project planning, and critical thinking skills. Through a series of direct, hands-on explorations students will gain the knowledge and experience to safely and confidently use; stationary tools as well as portable woodworking machines to perform cutting, joining, turning, carving, shaping, and finishing operations. At the conclusion of this course students will be able to identify and use the table saw, jointer, planer, band saw, drill press, hand circular saw, lathe, angle grinder, belt sander and miter saw. Successful completion of this course is required for use of the Sculpture Department's woodworking studio.

CSL 3451. Sculpture/New Technologies. 3 Credits.

CSL 350. Assemblage. 3 Credits.

CSL 5252. Metals and Metalsmithing. 3 Credits.

Large-scale metal sculpture and small-scale metalsmithing techniques share the student's creative energy in this inter-studio course. In the Sculpture studio, students explore welding, cutting, bending, and fastening a variety of metals. Oxyacetylene and MIG welders, cutting saws and shears, and the bending brake will be introduced. Small scale bronze casting, cold forging, piercing (jeweler's saw) scoring-and-bending, cold connections (rivets), soldering and emphasizing the use of the jeweler's saw, torch, flexible shaft drill and fine hammer work, are the focus of work in the metalsmithing studio. Assignments are designed to relate the use of metal and metalsmithing to students' own artistic explorations.

CSL 5341. Woodworking and Furniture Design. 1.5 Credit.

This course is designed for students with an interest in woodworking and furniture design. The fundamentals of both traditional and contemporary design are explored. From chairs to tables to a variety of cabinetry, students will have the ability to construct a work of their own design. Over the course of the semester, students will work with the instructor on the design and building of a piece of furniture. Instruction in the usage and techniques of both machine and hand tools are covered in conjunction with the execution of the finished piece. Beginning with sketches, students will explore design and materials, fabricate models, and generate construction drawings, with a goal of fabricating and completing their own project. As different projects progress, tutorials on new techniques will be explained and applied. At times this course may be cross-tallied at an intermediate level as CSL 2351. Students with prior experience may wish to register for the intermediate section.

CSL 6451. Sculpture/New Technologies. 3 Credits.

COMPUTER SCIENCE (CSCI)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CSCI 1010. Computer Science Orientation. 1 Credit.

Introduction to the field of computer science. Basic and emerging concepts and applications of computer science. Hands-on experiments and team projects. Technical resources, professional ethics, writing, and presentation.

CSCI 1011. Introduction to Programming with Java. 3 Credits.

An introductory course in programming a computer, using the Java language. Object-oriented programming, classes, applets, methods, control structures, inheritance, overriding, GUI widgets, containers, and exceptions.

CSCI 1020. Applications Software. 3 Credits.

Introduction to the use of microcomputer hardware and software for word processing (e.g., Word), spreadsheets (e.g., Excel), and database management (e.g., Access), with emphasis on the use of computers to solve typical problems in academia and business.

CSCI 1021. Introduction to Computers and the Internet. 3 Credits.

Survey of computers and languages. Introduction to computer programming. History of computing and networking. The effects of computing and the Internet on our lives. E-commerce and new technologies. Concepts of web page design. (Fall and spring).

CSCI 1022. Introduction to Internet Technology. 3 Credits.

An introductory course for non-technical students who wish to obtain a better understanding of the hardware and software that comprise the Internet. Information transfer over fiber, routing and switching of packets, methods of information transfer, protocols, software, ISP, web pages and multimedia.

CSCI 1023. Introduction to Web Software Development. 3 Credits.

Introduction to the Internet. Topics include address and URL to find your way, linking to a URL, HTML and web programming, building a web page, building a home page, client-server techniques. (Fall and spring).

CSCI 1030. Technology and Society. 3 Credits.

Historical, social, and ethical issues of the technological age. Ethical principles and skills and social analysis skills needed to evaluate the design and implementation of complex computer systems. Privacy, computer crime, equity, intellectual property, professional ethics. Data collection, analysis, and presentation; technical writing and oral communication skills.

CSCI 1030W. Technology and Society. 3 Credits.

Historical, social, and ethical issues of the technological age. Ethical principles and skills and social analysis skills needed to evaluate the design and implementation of complex computer systems. Privacy, computer crime, equity, intellectual property, professional ethics. Data collection, analysis, and presentation; technical writing and oral communication skills.

CSCI 1041. Introduction to FORTRAN Programming. 3 Credits.

Structured programming with high-level language using FORTRAN. Control structures. Different data types with emphasis on real and complex number computations. Arrays used with vector and matrix manipulation to solve simultaneous equations. External subroutines for mathematical and graphical applications. Prerequisite or corequisite: Math 1220 or MATH 1231.

CSCI 1111. Introduction to Software Development. 3 Credits.

Introduction to the solution of problems on a digital computer using the Java language. Object-oriented programming concepts; documentation techniques; design of test data. Writing, debugging, and running programs in an interactive computing environment.

CSCI 1112. Algorithms and Data Structures. 3 Credits.

Object-oriented software. Inheritance, exceptions, development of classes, event-driven programming. Data structures such as trees, lists, stacks, queues, and strings. Sorting and searching. Introduction to algorithm performance prediction. May be taken for graduate credit by students in fields other than computer science. Prerequisites: CSCI 1111 with a grade of C or higher; and MATH 1220 or MATH 1231. (Spring).

CSCI 1121. Introduction to C Programming. 3 Credits.

Structured programming with the C language. Control structures. Data types. Use of pointers. Matrix manipulation to solve simultaneous equations. External subroutines for mathematical and graphical applications. Introduction to C> Complex number representation. Corequisite: MATH 1220 or MATH 1231.

CSCI 1131. Introduction to Programming with C. 3 Credits.

Intensive introductory course for students with a science, mathematics, or other quantitative background. Solution of numerical and nonnumerical problems on a digital computer using C programming language in a Unix environment. Recommended for graduate and advanced undergraduate students in other departments. Prerequisite: MATH 1232 .

CSCI 1132. Data Structures and Software Design. 3 Credits.

Data structures such as trees, lists, stacks, queues, and strings. Big-O notation and introduction to algorithm performance analysis. Solutions of numerical and non-numerical problems. Use of I/O libraries. Application development and software testing. Prerequisite: CSCI 1121.

CSCI 1311. Discrete Structures I. 3 Credits.

Mathematics for computer science. Sets, functions, sequences. Propositional and predicate calculus, formal proofs, mathematical induction. Matrices, semigroups, groups, isomorphism. Relations, partitions, equivalence relations, trees, graphs. May be taken for graduate credit by students in fields other than computer science. Prerequisites: MATH 1220 or MATH 1231. (Fall).

CSCI 2113. Software Engineering. 3 Credits.

Programming techniques and software development in one or more programming languages. Application development with GUIs, database access, threads, Web programming. Prerequisites: CSCI 1112 with a grade of C or higher; MATH 1231. (Fall).

CSCI 2312. Discrete Structures II. 3 Credits.

Basic discrete techniques in computer science. Proofs, algebraic structures, number theory, graph theory, (coloring and planar graphs, communication networks), advanced recurrences, advanced sums, approximations and asymptotics. Prerequisites: CSCI 1311 with a grade of C or higher; MATH 1231. (Fall).

CSCI 2441. Database Systems and Team Projects. 3 Credits.

Design of relational database systems, relational query languages, normal forms, design of database applications. Team software development, integration, and testing. Professional code of ethics, intellectual property, privacy, software copyrights. Corequisite: CSCI 2113.

CSCI 2441W. Database Systems and Team Projects. 3 Credits.

Design of relational database systems, relational query languages, normal forms, and design of database applications. Team software development, integration, and testing. Professional code of ethics, intellectual property, privacy, and software copyrights. Corequisite: CSCI 2113. (Spring).

CSCI 2461. Computer Architecture I. 3 Credits.

Number representation, computer arithmetic, digital logic and circuit design. Computer organization, micro-architecture and processor datapath, assembly and machine language programming. Introduction to memory organization and the hardware-software interface. Implementation of high-level language constructs. Prerequisites: CSCI 1112 with a grade of C or higher; CSCI 1311. (Fall).

CSCI 3212. Algorithms. 4 Credits.

Core concepts in design and analysis of algorithms, data structures, and problem-solving techniques. Hashing, heaps, trees. Graph algorithms, searching, sorting, graph algorithms, dynamic programming, greedy algorithms, divide and conquer, backtracking. Combinatorial optimization techniques. NP-completeness. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 3221. Programming Languages. 3 Credits.

Programming language and software design fundamentals. Writing programs in a non-procedural programming language. Closures; procedure and data abstraction; object-oriented, procedural, and declarative programming; continuation compilation and interpretation, and syntactic extension. Advanced control structures appropriate for parallel programming. Prerequisite: CSCI 2113.

CSCI 3240. Pre-Senior Design with Research. 3 Credits.

For students who wish to combine a research project with their Senior Design project. The goal is to complete the research, under a faculty mentor, within three semesters. Prerequisite: CSCI 3212, CSCI 3313, CSCI 3411, and permission of instructor.

CSCI 3313. Foundations of Computing. 4 Credits.

Theoretical foundations. Formal languages and automata; regular expressions, context-free languages; finite state automata and pushdown automata; Turing machines and computability, recursive function theory, undecidability. Compiler construction. Lexical and syntax analysis; parsing and parsing techniques; lexical and parsing tools. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3362. Probability for Computer Science. 3 Credits.

Introduction to probability and statistics for computer scientists. Random variables. Conditional probability, independence, correlation. Applications to computer science, including information theory, data compression, coding, inference, Markov chains, introduction to randomized algorithms. Prerequisite: Math 1232, CSCI 1311; or permission of instructor.

CSCI 3410. Systems Programming. 3 Credits.

Concepts underlying all computer systems. Processor operation, hierarchical memory systems, embedded boards, data acquisition, actuation, and systems software such as compilers, linkers, and operating systems from the programmer's perspective. Use of embedded platforms to examine how programs interact with and are constrained by hardware. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3411. Operating Systems. 4 Credits.

Process management, process state, concurrent processing, synchronization, events. Operating system structure, the kernel approach, processor scheduling, task switching, monitors, threads. System management, memory management, process loading, communication with peripherals. File systems. Socket programming, packets, Internet protocols. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 3462. Computer Architecture II. 3 Credits.**CSCI 3571. Introduction to Bioinformatics. 3 Credits.**

Same as BiSc 2584.

CSCI 3907. Special Topics. 1-3 Credits.

Topic to be announced in the Schedule of Classes. (Fall and spring).

CSCI 3908. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

CSCI 4222. Theory of Computer Translators. 3 Credits.

Lexical and syntax analysis, regular expressions, context-free grammars, parsing techniques, top-down parsing, efficient parsing, syntax-directed translation, intermediate formats, flow of control, block structures, procedure calls, symbol tables, run-time storage, error-detection and recovery, code optimization, code generation. Prerequisite: CSCI 3462, CSCI 3313.

CSCI 4223. Principles of Programming Languages. 3 Credits.

Fundamental concepts underlying design of programming languages. Detailed study of functional and object-oriented computational models. Types, evaluation, abstraction, control flow, modules, mutation, laziness, polymorphism, subtyping, inheritance. Practice learning new languages. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 4235. Development of Open-Source Software. 3 Credits.

Design, process, tools, and culture of open-source software development. Cross-platform development and testing. Geographic dispersal, social and team dynamics, licenses (GPL, BSD, other); code reuse (modular code, shared libraries); very-large-scale distributed development techniques (CVS, Bugzilla, release-management, mailing-lists). May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4237. Software Design for Handheld Devices. 3 Credits.

Design of interactive software for handheld devices. Event driven programming, user interface design practices, memory management, handheld debugging techniques. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4243. Capstone Design Project I. 3 Credits.

Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4243W. Capstone Design Project I. 4 Credits.

Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4244. Capstone Design Project II. 4 Credits.

Continuation of CSCI 4243. Planning, design, and construction of the capstone project. Economic analysis of the project. Application of software engineering principles, including software requirements, specification, requirements engineering, reuse, documentation, verification/validation, testing, configuration management. Report writing and presentations. Prerequisite: senior status.

CSCI 4314. Discrete Analysis-Computer Sci. 3 Credits.

Combinatorial theory: permutations and combinations, generating functions, recurrence relations, the principle of inclusion and exclusion. Block designs. Applications to the analysis of algorithms, computer organization, VLSI placement, coding theory, simulation, and other problems. May be taken for graduate credit. Prerequisite: CSCI 1311 or permission of instructor.

CSCI 4331. Cryptography. 3 Credits.

Algorithmic principles of cryptography from Julius Caesar to public key cryptography. Key management problems and solutions. Cryptographic systems and applications. Prerequisite: CSCI 2312, CSCI 3313, CSCI 3212.

CSCI 4341. Continuous Algorithms. 3 Credits.

Overview of structures in continuous mathematics from a computational viewpoint. Main topics include continuous system simulation, computational modeling, probability, statistical techniques, next-event simulation, algorithms for continuous optimization, machine learning, neural networks, statistical language processing, robot control algorithms. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 4342. Computational Linear Algebra and Applications. 3 Credits.

Application of linear algebra to computer science and engineering, with a computational perspective. Topics include points, vectors, matrices, and their programming representations; algorithms for 3D transformations, pose and viewpoint estimation; linear equations, independence, rank; algorithms for matrix decompositions, reduction of dimension; computation with large matrices, under and over-determined systems; applications to large data, computer vision, text processing. Prerequisite: CSCI 2113.

CSCI 4361. Simulation Methods. 3 Credits.

Computational methods for continuous and discrete system simulation. Effects of computer software and hardware architectures on computational precision and accuracy requirements. Random-number generation and testing. Calibration and scaling technique. Verification and validation technique. May be taken for graduate credit. Prerequisite: CSCI 2113.

CSCI 4364. Machine Learning. 3 Credits.

Overview of core machine learning techniques: nearest-neighbor, regression, classification, perceptron, kernel methods, support vector machine (SVM), logistic regression, ensemble methods, hidden Markov models (HMM), non-parametrics, online learning, active learning, clustering, feature selection, parameter tuning, and cross-validation.

CSCI 4415. Real-Time and Embedded Systems. 3 Credits.

Development of software for real-time control of physical systems. Reliability and fault tolerance, exceptions and exception handling, reliability and concurrent processes, timeouts, deadline scheduling, shared-memory and message-based device drivers. May be taken for graduate credit. Prerequisite: CSCI 2113.

CSCI 4417. UNIX System Programming. 3 Credits.

Exposure to UNIX internals. Use of UNIX system calls and utilities in conjunction with script and C programs. RFCs, GNU project, and other collaborative traditions in the UNIX community. May be taken for graduate credit. Prerequisite: Senior status or 1 year of C programming and UNIX user experience.

CSCI 4418. UNIX System Administration. 3 Credits.

System administration for the stand-alone system or small networks. Installation of two or more UNIX variants (Linux, FreeBSD, Solaris) on Intel or Sparc platforms. Configuration of mail, name services, and other network utilities. Backup and recovery, security and ethics. May be taken for graduate credit. Prerequisite: CSCI 4417.

CSCI 4431. Computer Networks I. 3 Credits.

Higher-layer protocols and network applications on the Internet, such as session layer, presentation layer, data encryption, directory services and reliable transfer services, telnet, network management, network measurements, e-mail systems, and error reporting. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 4431W. Computer Networks I. 3 Credits.

Higher-layer protocols and network applications on the Internet, such as session layer, presentation layer, data encryption, directory services and reliable transfer services, telnet, network management, network measurements, e-mail systems, and error reporting. Prerequisite: CSCI 2461, CSCI 2113.

CSCI 4432. Computer Networks II. 3 Credits.

Computer networks and open system standards. Network configurations and signals, encoding and modulation, transmission media, connection interfaces, error detection and correction, signal compression, switching, link layer control, ISDN, X.25, frame relay, ATM, and Sonet. Bridges, routers, and routing algorithms. Prerequisite: CSCI 4431.

CSCI 4455. Computer Game Design and Programming. 3 Credits.

Principles, techniques, and design of computer games. Graphic game engines, modeling, motion, AI and interaction; sound design and synthesis; real-time software and hardware issues. May be taken for graduate credit. (Fall).

CSCI 4511. Artificial Intelligence Algorithms. 3 Credits.

Knowledge representation and reasoning, propositional logic and predicate calculus. Logic programming. Search, game trees, backtracking. Planning. May be taken for graduate credit. Prerequisite: CSCI 3221, CSCI 3212.

CSCI 4521. Introduction to Mobile Robotics. 3 Credits.

Overview of autonomous mobile robotics. Sensing, localization, calibration, mapping, perception, decision making, planning, and control. Emphasis on algorithmic rather than hardware aspects of robotics. Development of algorithms that can operate autonomous mobile platforms in complex, real-world environments. Prerequisite: MATH 1232, MATH 2184; CSCI 3362 or CSCI 4341.

CSCI 4525. Autonomous Robotics: Manipulation. 3 Credits.

Introduction to robot manipulation. Core principles necessary to program robots for autonomous operation in dynamic and typically human-centric environments. Transdisciplinary concepts from computer science (reinforcement learning, perception), mechanical engineering (kinematics, dynamics), and electrical engineering (control theory). Prerequisite: permission of instructor.

CSCI 4527. Introduction to Computer Vision. 3 Credits.

Introduction and overview of computer vision. Image-formation signal processing and filtering. Saliency, image features and feature extraction, tracking, stereo disparity estimation, structure from motion, photogrammetry, optic flow, homography estimation and warping, scene segmentation, place recognition, object recognition, robust estimation, and camera calibration. Prerequisite: MATH 1232, MATH 2184; CSCI 4362 or CSCI 4341.

CSCI 4531. Computer Security. 3 Credits.

Risk analysis, cryptography, operating system security, identification and authentication systems, database security. Prerequisite: CSCI 3411; corequisite: CSCI 4431.

CSCI 4532. Information Policy. 3 Credits.

Roles, issues, and impacts of computer-based information systems in national and international arenas, focusing on privacy, equity, freedom of speech, intellectual property, and access to personal and governmental information. Professional responsibilities, ethics, and common and best practices in information use.

CSCI 4541. Network Security. 3 Credits.

Security protocols and applications in local, global, and wireless networks; IPsec and packet-level communication security systems; network authentication and key-exchange protocols; intrusion detection systems and firewalls; secure network applications; network worms and denial-of-service attacks. Prerequisite: CSCI 4531.

CSCI 4551. Concepts and Applications of Computer Graphics. 3 Credits.

Introduction to computer graphics without programming; building 3-D geometry and rendering; computer animation; virtual reality and computer games; hands-on projects in modeling, rendering, and animation using commercial software; hands-on projects in photo and video manipulation.

CSCI 4552. Design of Computer Animation I. 3 Credits.

Use of commercial 3-D computer animation packages to create digital artistic works. Principles of animation, including timing, exaggeration of motion, and anticipation; use of a storyboard; modeling; motion; rendering and editing. Prerequisite: CSCI 4551.

CSCI 4553. Design of Computer Animation II. 3 Credits.

Use of commercial 3-D animation packages to create artistic works and visualizations. Process-spanning concepts of development through pre-production, production, and post-production. Emphasis on developing original content and attaining high production values. Prerequisite: CSCI 4552.

CSCI 4554. Computer Graphics 1. 3 Credits.

Hardware; concepts of graphics subroutine packages; programming concepts for interaction, display, and data structuring; basic clipping and scan-conversion algorithms; homogeneous coordinates; three-dimensional viewing transforms; basic rendering. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4561. Design of User-Interface Programs. 3 Credits.

Structure of interactive programs. Widgets, windows, and input devices. Client-server model, event-driven programming, and callbacks. Window systems (e.g., Xwindows) and dialog control. May be taken for graduate credit. Prerequisite: CSCI 2113 or CSCI 6221.

CSCI 4572. Computational Biology. 3 Credits.

Pairwise alignment and scoring. Multiple sequence alignment. Fragment assembly, physical mapping of DNA. Phylogenetic trees. Molecular structure prediction and protein folding. Microarrays and microarray data, image comparison. Clustering. Overview of biological databases, PDB, MMDB, GenBank. Draft genomes and genome browsers. Pathway databases. May be taken for graduate credit. Prerequisite: CSCI 3571 and CSCI 3212 or CSCI 6212.

CSCI 4576. Introduction to Biomedical Computing. 3 Credits.

A survey of the problems and solutions in biomedical computing. Application of computers in medicine. Patient care and monitoring systems, electronic medical records, digital imaging and analysis. Telemedicine, medical ethics, health care regulations and organizations.

CSCI 4577. Biomedical Computing. 3 Credits.

Computing issues in epidemiology and biosurveillance, decision support, medical imaging and visualization, image-guided surgery; medical databases, issues in system integration, mobile medical computing. May be taken for graduate credit. Prerequisite: CSCI 2113, CSCI 4576; corequisite: CSCI 2441.

CSCI 6010. Introduction to Computer Science Fundamentals. 3 Credits.

Review of programming in a high-level language using Java or C++ Introduction to objects and object-oriented programming: static and dynamic objects, inheritance, dynamic method invocation. Data structures: 2D-arrays, linked-lists, stacks, queues, trees, hashing. Discrete structures: sets, graphs, permutations and combinations. Prerequisite: one year of course work in programming in C, C++ or Java.

CSCI 6011. Introduction to Computer Systems. 3 Credits.

Introduction to basic concepts underlying all computer systems. Processor operation, hierarchical memory systems, elementary logic circuits, and systems software such as compilers, linkers, and operating systems from the programmer's perspective. Prerequisite: one year of course work in programming in C, C++ or Java.

CSCI 6212. Design and Analysis of Algorithms. 3 Credits.

Design and analysis of algorithms. Turing machines; NP-Complete theory. Algorithmic techniques: divide-and-conquer, greedy, dynamic programming, graph traversal, backtracking, and branch-and-bound. Applications include sorting and searching, graph algorithms, and optimization. Prerequisite: CSCI 1311, CSCI 1112.

CSCI 6213. Advanced Data Structures. 3 Credits.

Sparse matrix transpose and multiplication. List insertion and deletion, lists of available space. In-order, preorder, and postorder traversal of trees. Topological sorting. Binary search trees, including AVL trees, B-trees, and tries. Dynamic hashing. Prerequisite: CSCI 6212.

CSCI 6221. Advanced Software Paradigms. 3 Credits.

Object-oriented, procedural, functional, and concurrent software design paradigms; design patterns; software life-cycle concepts. Tradeoffs between compiled and interpreted languages. Examples from Java, C, C++ and Perl. Prerequisites: CSCI 1112 and CSCI 1311 or graduate status.

CSCI 6223. Principles of Programming Languages. 3 Credits.

Fundamental concepts underlying design of programming languages. Detailed study of functional and object-oriented computational models. Types, evaluation, abstraction, control flow, modules, mutation, laziness, polymorphism, subtyping, inheritance. Practice learning new languages. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 6231. Software Engineering. 3 Credits.

The life-cycle model. Requirements and specifications. Design models, structured and object-oriented design. Program development, PDL's tools, configuration control. Program, unit, and integration testing. Program verification. Other development models. Development metrics. Computer-aided software engineering (CASE). Prerequisite: CSCI 6221, CSCI 6212.

CSCI 6232. Software Engineering Development. 3 Credits.

Formal methods in software engineering. First-order logic, basic specification elements, rigorous proofs, formal development process, concurrency. Prerequisite: CSCI 6461, CSCI 6212.

CSCI 6233. Software Testing & Quality. 3 Credits.

Flow graphs and path testing, transaction flow testing, data flow testing, software metrics, system testing, test planning and documentation, reliability, statistical testing. Prerequisite: CSCI 6231.

CSCI 6234. Object-Oriented Design. 3 Credits.

Object-oriented systems, software reusability, software modularity, top-down and bottom-up approaches, object classification, genericity, metaprogramming, concurrent object-oriented programming languages. Prerequisite: CSCI 6221.

CSCI 6235. Component-Based Enterprise Software Development. 3 Credits.

Component-based software development for enterprise applications. Component models, multi-tier architecture. Specific case studies may include topics such as Enterprise Java Beans, DCOM, and COBRA. Prerequisite: CSCI 6221.

CSCI 6311. Theory of Computation. 3 Credits.

Theoretical foundations of computer science. Formal languages and automata; regular expressions, context-free languages, parsing; Turing machines and complexity; partial recursive functions; undecidability; program correctness; fixed-point theory; formal specifications of software. Prerequisite: CSCI 6212.

CSCI 6312. Graph Theory & Applications. 3 Credits.

Undirected and directed graphs. Connectivity, partitions, cycles and matchings. Edge and vertex coloring, chromatic polynomials, and the four-coloring problem. Planar graphs and Kuratowski's theorem. Properties of random graphs. Applications to a variety of problems. Prerequisite: CSCI 6212.

CSCI 6313. Advanced Discrete Structures. 3 Credits.

Discrete techniques in computer science. Algebraic structures, vector spaces, linear transforms, norms, matrices, complex numbers, convolution and polynomial multiplication, Fourier analysis, discrete Fourier transform, number theory. Applications to computer security, coding theory, and audiovisual signal processing. Prerequisites: CSCI 1311, MATH 1232 or graduate status. (Fall).

CSCI 6318. Complex Systems. 3 Credits.

The edge-of-chaos phenomenon, phase transitions, power laws, small-world networks, Boolean networks, cellular automata, and complex dynamics. Applications to networks and biological systems. Prerequisite: CSCI 6212.

CSCI 6331. Cryptography. 3 Credits.

Review of mathematical theory for cryptography. Classical ciphers. Modern block and stream ciphers. Symmetric and asymmetric systems. Digital signatures. Public key infrastructure. Authentication. Prerequisite: CSCI 6212.

CSCI 6341. Continuous Algorithms. 3 Credits.

Overview of structures in continuous mathematics from a computational viewpoint. Main topics include continuous system simulation, computational modeling, probability, statistical techniques, next-event simulation, algorithms for continuous optimization, machine learning, neural networks, statistical language processing, robot control algorithms. Prerequisite: CSCI 1311, CSCI 2113.

CSCI 6342. Computational Linear Algebra and Applications. 3 Credits.

Linear algebra applied to computational problems in computer science and engineering. Topics include points, vectors, matrices, and their programming abstractions; 3D transformations, pose and viewpoint estimation; linear equations; algorithms for matrix decompositions, dimension reduction, computation with large matrices, under- and over-determined systems; applications to big data, computer vision, text processing. Prerequisite: CSCI 2113.

CSCI 6343. Numerical Solutions of Algebraic Systems. 3 Credits.

Numerical solutions of linear algebraic equations and the algebraic eigenvalue problem. Sparse matrix techniques. Solutions of nonlinear simultaneous equations. Interpolation and extrapolation. Prerequisite: CSCI 6212.

CSCI 6351. Data Compression. 3 Credits.

Background on signals, information theory, transforms, human vision, and metrics. Lossless and lossy compression techniques. Video compression. Compression standards. Progressive transmission. Prerequisite: CSCI 6212.

CSCI 6362. Probability for Computer Science. 3 Credits.

Concepts of probability and statistics used in computer science. Random variables. Conditional probability, independence, correlation. Law of large numbers, central limit theorem. Applications to computer science, including entropy, information theory, data compression, coding, inference, Markov chains, randomized algorithms. Prerequisite: MATH 1232, CSCI 1311; or permission of instructor.

CSCI 6364. Machine Learning. 3 Credits.

Machine learning algorithms: nearest-neighbor, regression, classification, perceptron, kernel methods, support vector machine (SVM), logistic regression, ensemble methods, boosting, graphical models, hidden Markov models (HMM), non-parametrics, online learning, active learning, clustering, feature selection, parameter tuning, and cross-validation. Prerequisite: CSCI 6212; CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6365. Advanced Machine Learning. 3 Credits.

Theory and algorithms for machine learning research. In-depth focus on advanced machine learning topics such as clustering, learning from data streams, and Climate Informatics. Prerequisite: CSCI 4364, CSCI 6212, CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6411. Advanced Operating Systems. 3 Credits.

Fundamentals of operating system design and structure, resource management, and system support for multi-core. Topics include scheduling, synchronization, system structure, virtual address spaces, memory management, I/O management, and systems abstractions for modern multi-core architectures. The course involves an implementation component and requires substantial programming experience. This course can be taken for credit by undergraduates who have taken CSCI 3411. Prerequisite: CSCI 6461 or CSCI 2461.

CSCI 6412. OS Design & Implementation. 3 Credits.

Builds on CSCI 6411 to provide students with the knowledge to build parts of modern operating systems, which will be studied and motivated from the viewpoint of practical design and implementation. Students will learn how operating system's components for resource management and abstraction are built from the ground up and integrated into working systems considering the challenges of reliability, multi-core, and security. The course has a significant implementation component; substantial low-level programming experience is required. Prerequisite: CSCI 6411.

CSCI 6421. Distributed and Cluster Computing. 3 Credits.

In-depth study of the algorithmic and implementation challenges in building large scale distributed applications. Topics include distributed coordination, scheduling, consistency issues, and fault tolerance algorithms. The course will cover how fundamental distributed systems concepts are applied to both high performance computing and cloud computing environments. The course will mix algorithmic concepts and practical implementation concerns; substantial programming experience is recommended. Prerequisite: CSCI 6212, CSCI 3411.

CSCI 6431. Computer Networks. 3 Credits.

Fundamental concepts in the design and implementation of computer communication networks and internet, their protocols, and applications. Layered network architectures, applications, network programming interfaces, transport, routing, data link protocols, local area networks, network management, and network security. Prerequisite: CSCI 6461.

CSCI 6433. Internet Protocols. 3 Credits.

Understanding of the layered protocols for the Internet. Interconnection of networks. The IP protocol and routing algorithms, switches, bridges, and routers. The transmission control protocol (TCP). Addressing and names. Application-specific protocols, FTP, TELNET, SMTP, SNMP, HTTP. Domain name services. Prerequisite: CSCI 6221, CSCI 6431.

CSCI 6434. Design of Internet Protocols. 3 Credits.

Protocol specifications and formal description methods. Finite-state descriptions of Internet protocols. Specification and Description Language. Implementation of protocol specifications. Prerequisite: CSCI 6212, CSCI 6433.

CSCI 6441. Database Management Systems. 3 Credits.

Design and architecture of relational database management systems; query languages, data models, index structures, database application design. Prerequisite: CSCI 6221, CSCI 6461.

CSCI 6442. Database Systems II. 3 Credits.

Concepts in database systems. Relational database design. Editing, report generation, updating, schema refinement, tuning. Construction of database management systems. Conceptual and logical design of a database. Prerequisite: CSCI 6441.

CSCI 6443. Data Mining. 3 Credits.

Fundamental concepts of data mining. Algorithm techniques for data mining, including classification, clustering, association rules mining. Prerequisite: CSCI 6441 or permission of instructor.

CSCI 6448. Scientific Databases and Knowledge Formation. 3 Credits.

Database management and information retrieval. Relational algebra and SQL query language. Advanced retrieval capabilities. Data mining. Rules of inductive inference. Classification, clustering, and machine learning techniques. Confronting the problems of complexity. Prerequisite: CSCI 1311 and either CSCI 1132 or CSCI 1112.

CSCI 6451. Information Retrieval Systems. 3 Credits.

Information organization and retrieval of natural language data by digital computer systems; statistical, syntactic, and logical analysis of natural language; dictionary and thesaurus systems; searching strategies and cataloging. Large-scale file structures. Prerequisite: CSCI 6221, CSCI 6461.

CSCI 6461. Computer System Architecture. 3 Credits.

Concepts in processor, system, and network architectures; architecture of pipeline, superscalar, and VLIW/EPIC processors; multiprocessors and interconnection networks. Cache coherence and memory subsystem design for multiprocessor architectures. Parallel and distributed system architecture; internetworking. Prerequisite: CSCI 1311, CSCI 1112, CSCI 2461.

CSCI 6511. Artificial Intelligence. 3 Credits.

Representation and space search. Heuristic search. Predicate calculus. Knowledge representation and knowledge engineering for expert systems. Rule-based, hybrid, and O-O systems. Semantic nets, frames, and natural language. Theorem provers. Overview of planning, learning, neural nets. Use of AI languages. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6512. Adaptive Learning Systems I. 3 Credits.

Learning as an alternative to rule-based schemes for artificial intelligence. Deterministic and probabilistic simulation of games. Markovian and bounded-context systems. The algedonic process. Introduction to collective learning systems theory. Design, simulation, and evaluation of collective learning automata. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6515. Natural Language Understanding. 3 Credits.

The state of the art of natural language parsing and semantic understanding by computer systems. Review of formal, context-free, and transformational grammars and parsing. Augmented transition networks: problems of complexity, semantics, and context. Deterministic parsing and semantic parsing. Prerequisite: CSCI 6511.

CSCI 6519. Models of Cognition. 3 Credits.

The central nervous system as a natural precedent for AI: structure and function of the neuron and neural networks; sensors and actuators; modular brain function. The cognitive process. Intelligence metrics. Genetics and self-organizing systems. Memory mechanisms. The psychological basis of learning and behavior. Prerequisite: CSCI 4511, CSCI 6212.

CSCI 6521. Introduction to Mobile Robotics. 3 Credits.

Concepts of autonomous mobile robotics with emphasis on algorithmic aspects. Sensing, sensor fusion, localization, calibration, mapping, perception, decision making, planning, behavior-based control, world modeling, and navigation. Development of algorithms that can operate autonomous mobile platforms in complex, real-world environments. Prerequisite: MATH 1232, MATH 2184; CSCI 6362 or CSCI 4341.

CSCI 6525. Autonomous Robotics: Manipulation. 3 Credits.

Manipulation and autonomous operation in dynamic, human-centric environments. Reinforcement learning, perception, optimization algorithms, kinematics, dynamics, control theory. Prerequisite: CSCI 6362, MATH 2184; or permission of instructor.

CSCI 6527. Introduction to Computer Vision. 3 Credits.

Image signal processing and filtering. Saliency, features and feature extraction, tracking, stereo disparity estimation, structure from motion, photogrammetry, optic flow, homography estimation and warping, scene segmentation, place recognition, object recognition, robust estimation, and camera calibration. Current research topics. Prerequisite: MATH 1232, MATH 2184; CSCI 6362 or CSCI 6341.

CSCI 6531. Computer Security. 3 Credits.

Functional description of cryptographic primitives. Risk analysis. Policy models: security, confidentiality, integrity, hybrid. Design principles: access control, information flow, confinement. Assurance: formal methods, evaluation. Malicious logic: security effects of programming languages. Prerequisite: CSCI 6461.

CSCI 6532. Information Policy. 3 Credits.

Roles, issues, and impacts of computer-based information systems in national and international arenas, focusing on privacy, equity, freedom of speech, intellectual property, and access to personal and governmental information. Professional responsibilities, ethics, and common and best practices in information use.

CSCI 6534. Information Security in Government. 3 Credits.**CSCI 6541. Network Security. 3 Credits.**

Security protocols and applications in local, global, and wireless networks; IPSec and packet-level communication security systems; network authentication and key-exchange protocols; intrusion detection systems and firewalls; secure network applications; network worms and denial-of-service attacks. Prerequisite: CSCI 6531.

CSCI 6542. Computer Network Defense. 3 Credits.

Offensive and defensive information warfare operations. Simulation of various attacks on and defenses of computer systems. Laws related to information warfare. History and literature related to information warfare attacks. Prerequisite: CSCI 6541.

CSCI 6545. Software Security. 3 Credits.

Security for software systems. Theory and practice of designing and implementing secure software. Security in the context of software engineering. Practical experience with building a software system and securing it, with emphasis on correctness and robustness. Requires substantial prior programming experience. Prerequisite: CSCI 6461 or CSCI 6411; CSCI 6531 or EMSE 6540 or permission of instructor.

CSCI 6547. Wireless and Mobile Security. 3 Credits.

Mobile Agents, Wireless Web, WAP, WEP, Peer-to-Peer Computing; secure routing; intrusion detection and authentication on wireless networks; security for handheld devices; encryption and cryptographic measures for wireless; real-time wireless security; security measures for embedded devices. Prerequisite: CSCI 6431, CSCI 6531.

CSCI 6548. E-Commerce Security. 3 Credits.

Advanced technical topics in e-commerce security. X.500 registration systems, X.509/PKIX certification systems, secure payment methods, smart cards, authorization models in open distributed environments. Secure web systems, technologies, and applications. Prerequisite: CSCI 6541.

CSCI 6554. Computer Graphics II. 3 Credits.

Curves and surfaces. Spatial sampling and aliasing. Visible surface algorithms. Illumination and shading models, raytracing and radiosity. Image manipulation and texture mapping. Procedural models. Prerequisite: CSCI 4554.

CSCI 6555. Computer Animation. 3 Credits.

Euler angles and quaternions; articulated figure motion; forward and inverse kinematics; kinematic, physics based, and behavioral motion control; rendering problems (temporal aliasing); sound synthesis and synchronization; recording and editing techniques. Prerequisite: CSCI 4554 or permission of instructor.

CSCI 6561. Design of Human-Computer Interface. 3 Credits.

Design of dialogues for interactive systems. Psychological, physiological, linguistic, and perceptual factors. Advantages and disadvantages of various interaction techniques, command language syntaxes, and data presentations. Design methodology and guidelines. Case studies, research readings, and projects. Prerequisite: CSCI 6221.

CSCI 6562. Design of Interactive Multimedia. 3 Credits.

History, theory, and development of multimedia concepts. Hardware components, platforms, and authoring tools. Scientific, technical, and cognitive foundations of various media including text, sound, graphics, and video. Interface design. Use of a media taxonomy as a design and evaluation tool. Completion of a multimedia portfolio required. Prerequisite: CSCI 6221.

CSCI 6572. Computational Biology Algorithms. 3 Credits.

Algorithms and models for DNA and protein sequence alignments, gene finding, identification of gene regulatory regions, sequence evolution and phylogenetics, RNA and protein structure, microarray and/or proteomics data analysis. Prerequisite: CSCI 6212 ; programming experience in C/C or Java.

CSCI 6900. Colloquium. 0 Credits.

Lectures by outstanding authorities in computer science. Topics to be announced each semester. (Fall and spring).

CSCI 6907. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. (Fall and spring).

CSCI 6908. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

CSCI 6998. Thesis Research. 3 Credits.**CSCI 6999. Thesis Research. 3 Credits.****CSCI 8211. Advanced Topics in Algorithms. 3 Credits.**

Graph algorithms, strongly connected components, biconnected components, dominators in acyclic graphs, ordered trees, network flow, planarity testing, bipartite matching, theory of NP completeness, NP-complete problems. Design and analysis of approximation algorithms for NP-complete problems. Prerequisite: CSCI 6212.

CSCI 8231. Advanced Topics in Software Engineering. 3 Credits.

Seminar on current research and developments in software engineering. Students develop a software package with the aid of available software tools such as requirement tool, design tool, code generators, testing tools, measurement tools, cost estimation tools. Prerequisite: CSCI 6232, CSCI 6233.

CSCI 8331. Advanced Cryptography. 3 Credits.

Linear and differential cryptanalysis. Cryptanalysis of AES. Factorization and primality. Computational and information-theoretic secrecy. Theory of secrecy. Zero-knowledge proofs. Secret sharing. Cooperative distributed cryptography. Provable security. Prerequisite: CSCI 6331.

CSCI 8401. Advanced Topics in Systems. 3 Credits.

Seminar on current research and developments in computer operating systems. May be repeated for credit. (Spring, even years).

CSCI 8431. Advanced Topics in Computer Networks and Networked Computing. 3 Credits.

Seminar on current research and developments in computer networks, Internet, networked computing, mobile computing and pervasive computing. May be repeated for credit.

Prerequisites: CSCI 6461, CSCI 6212, CSCI 6433.

CSCI 8440. Advanced Topics in Data Management. 3 Credits.

Seminar on current research and developments in computer database systems and information retrieval. May be repeated for credit. Prerequisite: CSCI 6442 or CSCI 6451.

CSCI 8511. Advanced Topics in Artificial Intelligence. 3 Credits.

Seminar on current research and developments in machine intelligence and cognitive science. May be repeated for credit. Prerequisite: Permission of the instructor.

CSCI 8531. Advanced Topics in Security. 3 Credits.

Seminar on current research and developments in information assurance. May be repeated for credit. Prerequisite: CSCI 6531.

CSCI 8554. Advanced Topics in Computer Graphics. 3 Credits.

Seminar on current research and developments in computer graphics. Spatial and temporal anti-aliasing; hidden-surface algorithms; illumination models, radiosity, textural mapping. May be repeated for credit. Prerequisite: CSCI 6554.

CSCI 8900. Advanced Selected Topics. 3 Credits.

Topics announced in the Schedule of Classes.

CSCI 8901. Research and Evaluation Methods. 3 Credits.

Required for all computer science doctoral candidates.

The scientific method; research/design requirements and objectives: qualitative, quantitative, and case studies; performance metrics; design procedures and control; sources of error and bias; evaluation tools; formal validation methods; documentation standards. Prerequisite: APSC 3115.

CSCI 8998. Computer Science Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy qualifying examination. May be repeated for credit.

CSCI 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

COUNSELING (CNSL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CNSL 0920. Continuing Research - Masters. 1 Credit.**CNSL 0940. Cont Research - Doctoral. 1 Credit.****CNSL 2102. Foundations of Counseling. 3 Credits.****CNSL 2162. Professional and Ethical Orientation to Counseling. 3 Credits.**

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 2163. Psychosocial Adjustment. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children and adolescents.

CNSL 2376. Introduction to Rehabilitation Counseling. 3 Credits.

Overview of rehabilitation profession, including philosophy, history, ethics, theory, legislation, settings, and practice.

CNSL 2378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Case management services for persons with physical, mental, and emotional disabilities.

CNSL 2381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders; rehabilitation and psychosocial implications.

CNSL 6100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

CNSL 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with an instructor.

CNSL 6103. Thesis Research. 3 Credits.**CNSL 6104. Thesis Research. 3 Credits.****CNSL 6130. Vocational Assessment of Individuals with Disabilities. 3 Credits.**

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as SPED 6230.

CNSL 6151. Professional and Ethical Orientation to Counseling. 3 Credits.

The roles and functions of a professional counselor and the ethical standards that govern the profession.

CNSL 6153. Counseling Interview Skills. 3 Credits.

Acquisition of counseling skills common to all theories through lectures, demonstrations by faculty, role playing, and videotaping. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others. Material fee.

CNSL 6154. Theories and Techniques of Counseling. 3 Credits.

An introduction to basic counseling and psychotherapeutic theories and associated techniques. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6155. Career Counseling. 3 Credits.

A consideration of theory, practice, and the body of information related to career counseling, choice, and development over the life span. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6157. Individual Assessment in Counseling. 3 Credits.

Detailed study of individual analysis and appraisal techniques. Development of systematic case study. Prerequisite: CNSL 6153, EDUC 6114 for counseling majors; permission of instructor is required for others. Material fee.

CNSL 6159. Psychosocial Adaptation. 3 Credits.

Mental health problems; emphasis on needs of counselors, teachers, and others working with children, adolescents, and adults.

CNSL 6161. Group Counseling. 3 Credits.

Principles of group dynamics as related to interaction within groups. Techniques and practice in group counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6163. Social/Cultural Dimensions-Cns. 3 Credits.

Basic sociocultural concepts in counseling theory and how they apply to the practice of the counseling profession. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6164. Values, Spiritual, and Religious Issues in Counseling. 3 Credits.

The theoretical and practical intersection of counseling, psychotherapy, and mental health considerations with religion and spirituality. The clinically effective and ethically responsible integration of religion and spirituality into counseling. Prerequisite or concurrent registration: CNSL 6151 (for counseling majors); permission of instructor is required for others.

CNSL 6169. Counseling Substance Abusers. 3 Credits.

Individual, group, family, and self-help counseling applied to substance abusers. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6170. Grief and Loss. 3 Credits.

Exploration and discussion of grief and loss from theoretical, practical, cross-cultural, and personal perspectives; implications for counselors within a multidisciplinary environment.

CNSL 6171. Family Counseling. 3 Credits.

The family as a system: how it affects the client and how the client affects it. Didactic presentations, role playing, and work with simulated families. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6172. Human Sexuality for Counselors. 3 Credits.

Issues of sexuality as related to counseling in contemporary society. Prerequisite or concurrent registration: CNSL 6153 (for counseling majors); permission of instructor is required for others.

CNSL 6173. Diagnosis and Treatment Planning. 3 Credits.

For counselors and mental health practitioners. Symptoms and treatment of various mental disorders. The process of making psychiatric diagnoses. A variety of treatment strategies are covered, along with their application to various disorders. Prerequisite: CNSL 6153.

CNSL 6174. Trauma and Crisis Intervention. 3 Credits.

This course provides the counseling student with an introduction to research, theory, and practices within the field of traumatology. The course will cover the historical evolution of the field; biopsychosocial underpinnings of trauma and trauma spectrum disorders; issues in diagnosis, assessment, and intervention from a culturally diverse framework; and a synthesis of best practices as they are currently evolving. Using a developmental and systemic approach, the course will provide a counseling perspective on the knowledge base from the multiple disciplines that contribute to the field of traumatology.

CNSL 6175. Living and Dying: A Counseling Perspective. 3 Credits.

Survey of fundamental psychosocial issues surrounding grief, loss, and life-threatening illness. Topics include AIDS, suicide, multiple loss, caregiver's grief, spirituality, and cross-cultural issues.

CNSL 6177. Spirituality and Loss. 3 Credits.

Exploration of how spiritual beliefs, faith traditions, and life philosophy affect the process of dying, bereavement, and grieving. Effective counseling approaches.

CNSL 6179. Children and Loss. 3 Credits.

The process of grief, loss, and death as experienced by children and adolescents from theoretical, moral, spiritual, and developmental perspectives. Development of effective and sensitive skills and competencies to meet the needs of children and their families as they face life-challenging transitions.

CNSL 6185. Practicum/Internship in Counseling. 3 Credits.

Part of a two-semester clinical experience for degree and certificate candidates in counseling. Includes 100 hours of supervised practicum in a counseling setting. Material fee.

CNSL 6186. Advanced Internship in Counseling. 3-6 Credits.

Part of a two-semester clinical experience for degree and certificate candidates in counseling. Material fee. Prerequisite: CNSL 6185.

CNSL 6188. Systems in Career Counseling Development. 3 Credits.

The complex role of systems in career counseling and development. Class and work experience in the areas of career assessment, computerized career planning, and the design and evaluation of career counseling systems.

CNSL 6189. Career Development and the Contemporary Workforce. 3 Credits.

Through case studies, simulations, and group work, the demographics and challenges of the workforce in the United States are examined. The knowledge, skills, and competencies necessary to respond to current trends and projected changes in the global workforce.

CNSL 6190. Advanced Career Counseling. 3 Credits.

Expansion of career development theory, concepts, and practice: the helping relationship, delivery systems, current market and economic information, and available resources. Prerequisite: CNSL 6155 (for counseling majors); permission of instructor is required for others. Material fee.

CNSL 6268. Foundations/Practicum: Clinical Mental Health Counseling. 3 Credits.

Description of community counseling settings, problems clients present, and a consideration of appropriate intervention strategies.

CNSL 6376. Foundations/Practicum: Rehabilitation and Case Management. 3 Credits.

Survey of history, philosophy, basic principles, legislation, roles, and services.

CNSL 6378. Disability Management and Psychosocial Rehabilitation. 3 Credits.

Disability management services; psychosocial aspects of disability; rehabilitation services for persons with psychiatric disabilities.

CNSL 6380. Job Placement and Supported Employment. 3 Credits.

Job development and modification: placement of persons with disabilities.

CNSL 6381. Medical and Psychosocial Aspects of Disabilities. 3 Credits.

Chronic and traumatic disorders with rehabilitation and psychosocial implications.

CNSL 6395. Foundations of Forensic Rehabilitation Counseling I. 3 Credits.

Overview of the roles and functions of professionals who provide forensic rehabilitation services in matters of litigation. Vocational assessments, labor market issues, transferable skills analysis, job analyses. Instruments utilized in forensic rehabilitation.

CNSL 6396. Foundations of Forensic Rehabilitation Counseling II. 3 Credits.

Workers' compensation, personal injury, medical/professional malpractice, catastrophic injury, loss of earnings capacity, and life care planning. Ethical standards, practices, federal court rules, and common situations found in the litigation process.

CNSL 6397. Law and the Rehabilitation Consultant. 3 Credits.

Overview of law and court procedures for forensic rehabilitation professionals. Qualification of forensic experts, roles and functions of expert witnesses, discovery, work product, hearsay, direct and cross-examination, admissibility of evidence, and opinions in state and federal venues.

CNSL 6398. Psychopharmacology. 3 Credits.

CNSL 6466. Foundations of School Counseling K-12. 3 Credits.

Study of the environmental and specialty elements for school counseling, with special attention to the principles and practices of school counseling.

CNSL 8100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

CNSL 8101. Research and Independent Study. 1-3 Credits.

CNSL 8244. Advanced Group Counseling. 3-6 Credits.

A post-master's course on interpersonal process groups, with didactic, experiential, and supervisory components. Prerequisite: CNSL 6161 ; permission of instructor is required.

CNSL 8252. Advanced Leadership and Advocacy in Counseling. 3 Credits.

Theory and practice of consultation and administration, with focus on school, community, and rehabilitation settings. Research issues. Admission by permission of instructor.

CNSL 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as HDEV 8253/HOL 8742.

CNSL 8254. Advanced Multicultural Counseling. 3 Credits.

Recent research addressing key aspects of multicultural counseling. Practical knowledge about effective skills practice in the provision of services to clients from different cultural backgrounds, with emphasis on experiential and cognitive/behavioral approaches. Restricted to Admission by permission of instructor. Prerequisites: CNSL6163 Social and Cultural Dimensions of Counseling. Recommended background: PhD degree student in the field of counseling; completed a master's degree in counseling.

CNSL 8255. Advanced Supervision in Counseling. 3 Credits.

Theory and practice of clinical supervision and consultation for preparation to enter supervisory positions in the field of counselor education. Current thinking regarding supervisory theory/models, practice, research, and ethics. Restricted to Admission by permission of instructor. Recommended background: For PhD degree students.

CNSL 8257. Doctoral Practicum in Counseling. 3 Credits.

Experiential learning of advanced counseling and counseling-related competencies through direct, supervised participation in group work, research, teaching, and/or consultation. Admission by permission of instructor.

CNSL 8258. Advanced Theories of Counseling. 3 Credits.

Current research on counseling and psychotherapy process and outcome; critical analysis of theory with applications for practice and research. For Ed.S. and Ph.D. degree candidates in the field of counseling. Admission by permission of instructor.

CNSL 8259. Doctoral Internship in Counseling and Counselor Supervision I. 3 Credits.

CNSL 8260. Doctoral Internship in Counseling and Counselor Supervision II. 3 Credits.

CNSL 8961. Seminar: Counseling. 1-12 Credits.

CNSL 8998. Predissertation Seminar. 3 Credits.

CNSL 8999. Dissertation Research. 3,6 Credits.

Prerequisite: CNSL 8998/ EDUC 8998.

CURRICULUM AND PEDAGOGY (CPED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

CPED 0920. Continuing Research - Masters. 1 Credit.

CPED 0940. Continuing Research - Doctoral. 1 Credit.

CPED 6100. Special Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

CPED 6100W. Special Topics. 1-12 Credits.

CPED 6101. Research and Independent Study. 1-3 Credits.

Individual research under the guidance of a staff member; program and conferences arranged with an instructor.

CPED 6172. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as SPED 6272.

CPED 6175. The Culturally and Linguistically Diverse Student with Special Needs: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Material fee. Same as SPED 6275.

CPED 6176. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Material fee. Same as SPED 6276.

CPED 6199. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as SPED 6299.

CPED 6221. Developmental Reading: Emergent Literacy. 3 Credits.

The components of a balanced literacy program for emergent, beginning, and early-instructional-level readers. Incorporation of phonological awareness, phonics, fluency, reading comprehension, and writing lessons into a balanced reading-literacy program.

CPED 6223. Interdisciplinary Elementary School Literacies. 3 Credits.

Theory and practice of interdisciplinary elementary school studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6224. Diagnostic Teaching of Reading: K-6. 3 Credits.

Collection of diagnostic data; construction of informal traditional and non-traditional reading and writing tests; other instruments of evaluation; selecting and planning activities suitable to specific problems. Prerequisite: at least one previous course in reading.

CPED 6225. Introduction to International Curricula. 3 Credits.

CPED 6229. Current Issues in Elementary Education. 3 Credits.

Identification, definition, and analysis of some of the most important problems facing the contemporary American elementary school.

CPED 6236. Analysis of Teaching. 3 Credits.

Teaching viewed as a system; component aspects are examined with a view toward developing a critical method of analysis. Material fee.

CPED 6239. Practicum in Curriculum and Instruction. 3-6 Credits.

Supervised field experience in curriculum and instruction. Admission by permission of instructor.

CPED 6289. New Literacies Coach and Reading Specialist. 3 Credits.

Contemporary issues and conditions influencing literacy/reading leadership roles and the expanded roles of the new literacy reading coach and reading specialist. Topics include designing and evaluating interdisciplinary literacy education environments. Students work with educators on instructional and professional development activities to meet the literacy education needs of children. Prerequisites: CPED 6224 and departmental approval.

CPED 6292. Practicum 2: Leadership in Interdisciplinary Literacies. 3-6 Credits.

Drawing on prior program experiences in leadership and interdisciplinary literacies, students develop and refine effective interdisciplinary literacy education leadership qualities and skills, facilitate change in school communities, and foster teacher growth and student achievement. Students demonstrate lessons and provide assistance with lesson planning to teachers in, across, and between subject area disciplines and conduct professional development workshops in school settings. Prerequisite: CPED 6289.

CPED 6305. Foundations of Curriculum Theory. 3 Credits.

Examination of the educational ideas of individuals and groups that have influenced American and international curriculum development and practice during the 20th and 21st centuries. Comparisons of the issues, models, and principles that have guided curricular thought, development, and innovation.

CPED 6340. Teacher Leadership in Education. 3 Credits.

From the perspectives of educational theory and practice, the ideals and realities of contemporary public school teaching are viewed within a system of local, state, and federal organizations, with the goal of enhancing the role of teachers as knowledgeable and effective leaders in their profession. Material fee.

CPED 6353. Post-Master's Internship in Curriculum and Instruction. 3-6 Credits.

Supervised professional internship in curriculum, instruction, teaching, research, or policymaking. Internships are individually arranged. (Same as SPED 8353).

CPED 6365. Perspectives and Research in Teaching Computer Science. 3 Credits.

CPED 6366. Perspectives and Research in Teaching English. 3 Credits.

Prerequisite: the appropriate subject content course from CPED 6545 through CPED 6550.

CPED 6367. Perspectives and Research in Teaching Science. 3 Credits.

Significant trends, findings, and perspectives in science education in the United States from the early 19th century to the present.

CPED 6368. Perspectives and Research in Teaching Social Studies. 3 Credits.

Deepens students' understanding of the social studies curriculum through analysis of current research, theory, and practice, and application of this knowledge to instructional planning.

CPED 6370. Perspectives and Research in Teaching Mathematics. 3 Credits.

Survey of the history of mathematics, mathematics education research, instructional design, and the teaching of science, technology, engineering, and mathematics (STEM) curriculum standards. The impact of history in the field and research on teaching.

CPED 6410. Reading Children's Literature across the Curriculum. 2,3 Credits.

Participants read and analyze multicultural children's literature (from folktale to nonfiction) while simultaneously practicing discussion, dramatization, art, and writing response strategies suitable for involving all students and integrating literature across the school curriculum.

CPED 6411. Elementary School Curriculum and Methods. 3 Credits.

A comprehensive block course with subsections in mathematics, science, language arts, and social studies. Integrated with CPED 6635. May be repeated for up to 15 credits; with permission, up to four blocks (to a total of 12 credits) may be taken in one semester. Admission by permission of advisor. Material fee.

CPED 6412. Elementary School Curriculum and Methods. 2 Credits.

A comprehensive block course with sections in mathematics, science, language arts, and social studies. Integrated with CPED 6635. Pre-service teachers taking the four sections learn to be successful teachers of elementary methods in all content areas, including how to incorporate content and pedagogy into practice at their internships. May be repeated for up to 8 credits; with permission, up to four blocks (to a total of 8 credits) may be taken in one semester. Restricted to Admission by permission of advisor.

CPED 6507. Instructional Models and Classroom Management. 3 Credits.

The interconnections between effective instruction and positive classroom management. Through planning, implementing, and evaluating learning activities that apply research-based practices, students link instructional and management strategies to specific content and thinking goals. Microteaching lab. Material fee.

CPED 6530. Assessment in the Secondary Classroom. 3 Credits.

Key concepts and principles in the field of educational assessment, with emphasis on practical applications for classroom teachers. Students design and evaluate a range of assessment tools in their content areas.

CPED 6532. Professional Internship in Middle School Education. 3-6 Credits.

Supervised internship in middle schools; required seminar. Admission by permission of instructor. Material fee.

CPED 6534. Professional Internship in Secondary Education. 3-6 Credits.

Supervised internship; required seminar. Admission by permission of instructor. Material fee.

CPED 6544. Educational Technology and Computer Literacy Methods. 3 Credits.

Computers and related technologies in educational settings. Using national technology standards for teachers as a framework, the course combines discussion of key issues related to technology in education, demonstration of technology-related instructional methods, and hands-on computer use and materials development. Material fee.

CPED 6545. Teaching Computer Science in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Thirty hours of field experience in a secondary classroom is required. Material fee.

CPED 6546. Teaching English in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6547. Teaching Science in Secondary Schools. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6548. Teaching Social Studies in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. 30-hour field experience in a secondary classroom is required. Material fee. Prerequisites: CPED 6606, CPED 6507.

CPED 6549. Teaching Art in Secondary Schools. 3 Credits.

Theoretical, curricular, and practical considerations. Material fee.

CPED 6550. Teaching Mathematics in Secondary Schools. 3 Credits.

Introductory course in mathematics teaching that derives its goals from pedagogy standards for secondary mathematics developed in collaboration with the National Council of Teachers of Mathematics (NCTM). Focus on developing and understanding middle and high school curriculum standards. Material fee.

CPED 6551. Second Language Instruction. 3 Credits.

Offers theoretical, curricular, and practical considerations for teaching the content area concerned. Requires a 30-hour field experience in a secondary classroom. Prerequisite: CPED 6606 and CPED 6507 and the approved certification course work in the content area. Material fee.

CPED 6554. Issues, Study & Practices-ESL. 3 Credits.

A critical review of scholarship and research findings in English as a second language. Major policy issues and implications that relate to ESL practice.

CPED 6555. Educating Language Minorities. 3 Credits.

A study of federal, state, and local policies and issues affecting the education of linguistically diverse populations. Resources for use with specific linguistically diverse groups.

CPED 6556. Linguistic Applications in English as a Second Language. 3 Credits.

A study of the science of language (phonology, morphology, syntax, semantics) and how its different branches (descriptive, social, applied, etc.) may be used for ESL teacher training, classroom instruction, material development, evaluation, research, and policy development.

CPED 6557. Second Language Acquisition. 3 Credits.

The nature of first and second language acquisition and development; emphasis on sociolinguistics and psycholinguistics most pertinent to educational settings.

CPED 6604. Perspectives in American Education. 3 Credits.

Historical and social development of education in the United States; evolution of American education related to the growth of the nation and the changing social order; examination of selected issues in contemporary education.

CPED 6606. Theories of Learning and Development. 3 Credits.

A comprehensive investigation of the complex relationship between teaching and learning. How learning takes place, how it is motivated, and how it is influenced. Material fee.

CPED 6608. Development and Diversity. 3 Credits.

Student diversity in relation to theories of human growth and development. Diverse student strengths and needs; the special needs population; dynamics of inclusion; and intercultural issues related to the teaching/learning process. Material fee.

CPED 6623. Foundations of Reading Development. 2 Credits.

Basic theories and processes of reading acquisition and assessment; linguistic, cognitive, developmental, social, and affective bases of reading; influences of media, instructional strategies, including formal and informal assessment. Design and implementation of instruction in critical literacy.

CPED 6624. Foundations and Research of Literacy and Reading Education. 3 Credits.

Study of the scholarship on foundational and new literacy knowledge, concepts, and practices. Topics include models of literacy, theories and relations of multimodal and printed text reading (e.g., linguistic, psychological, and sociocultural), and the uses of these theories for the teaching and learning of literacies.

CPED 6626. Practicum 1: Reading Diagnosis, Assessment and Solutions. 3 Credits.

Candidates learn advanced diagnostic and assessment procedures to determine specific difficulties associated with printed-text reading, generate diagnostic profiles, and make instructional recommendations. Data are collected from children who struggle with printed texts; and, from those data, case studies are developed with implications for instruction.

CPED 6627. Teaching Second Language Reading and Writing. 3 Credits.

Acquisition and continuing development of content literacy, including integrated methods, media, and teaching demonstrations geared toward second language learning requirements. Material fee.

CPED 6628. Literacies in Informal Learning Environments. 3 Credits.

How culture, language, and out-of-school literacy experiences, particularly those in museums, influence attitude, learning, affective and interdisciplinary knowledge, and teaching practices. New literacy research, curriculum, and literature, and how social and cultural factors contribute to the literacies of everyday life.

CPED 6635. Professional Internship in Elementary Education. 3-6 Credits.

Supervised internship; required seminar. Admission by permission of instructor. Material fee.

CPED 6691. Interdisciplinary Adolescent Literacies. 3 Credits.

Theory and practice of interdisciplinary adolescent literacies studied in the context of the interactions between the domain-specific and strategic processes involved in teaching and learning from printed text and other media in science, literature, mathematics, social studies, and the arts.

CPED 6701. Arts in the STEM Curriculum. 3 Credits.

In-depth coverage of approaches to integrating arts and design into STEM curricula ("STEAM") for student learning; criteria and approaches for assessing student learning in arts-integrated STEM curricula; building a culture of craftsmanship; and collaborating with arts and design professionals.

CPED 6702. Integrating Engineering in the Math and Science Classroom. 3 Credits.

Approaches to integrating engineering and design into K-12 math and science classrooms. Students develop competencies by engaging in various forms of engineering and design, from small "design challenges" to more complex, semester-long engineering projects.

CPED 6703. Advanced STEM Teaching Methods. 3 Credits.

Advanced approaches for integrating science, technology, engineering, and mathematics into the K-12 classroom.

CPED 8100. Special Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

CPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a faculty member. Program and conferences arranged with an instructor.

CPED 8199. Federal Educ Policy Institute. 3 Credits.

CPED 8309. Supervising Preservice Clinical Experience. 1-3 Credits.

.

CPED 8325. Advanced Ideas in Curriculum Theory. 3 Credits.

Examination of reviews and research studies on curriculum theory. Focus on trends, values, interpretations, design systems, and evaluation. Prerequisite: CPED 6305.

CPED 8330. Paradigms of Instruction and Assessment. 3 Credits.

A foundation of theory, models, and variables that have contributed to the fields of instruction and assessment. The major paradigms of instruction and assessment. Material fee.

CPED 8331. Seminar in Instruction. 3 Credits.

Analysis of alternative models of instruction and the factors that influence the instructional process in schools. Connections among learning, instructional theory, research, and practice. Material fee.

CPED 8332. Search of the Literature in Curriculum and Instruction. 3 Credits.

Analysis of types of literature reviews in the field of curriculum and instruction and development of a literature review; the relationship of theory building to review of literature, and how research questions arise from extant theory and related literature. For doctoral students in curriculum and instruction, to precede CPED 8998. Material fee.

CPED 8333. School Reform through Professional Development. 3 Credits.

Fundamental perspectives of school reform through professional development of educators (K-12); evolution of contemporary professional development models and trends: examination of interactive modules using selected professional development activities. Material fee.

CPED 8334. Seminar in Research in Curriculum and Instruction I. 1-3 Credits.

Models of curriculum and instruction research that span various research methods.

CPED 8335. Seminar in Research in Curriculum and Instruction II. 1-3 Credits.

Development of initial research proposal ideas for the dissertation.

CPED 8340. Education Policy, Reform & Teacher Leadership. 3 Credits.

This online course will engage students in the study of education policies and reforms that specifically focus on teaching and teachers. Further, this course will examine teacher leadership as it impacts school reform through professional development initiatives that sustain change efforts. Four areas of study ground the focus of this course: education policy, change theories and school reform, teacher leadership, and professional development. Restricted to Doctoral level course; masters students by permission of instructor. Prerequisites: None.

CPED 8341. Evaluation in Curriculum & Instruction. 3 Credits.

This course will teach doctoral and masters' students about evaluating curriculum and instruction related programs, projects, or policies. This course provides students with the theoretical grounding and practical experiences they need to develop and implement evaluation research. Students in the course are required to: 1) read current literature that covers the breadth of theories and models applied in the field of evaluation, 2) participate in live online discussions and instructor presentations and, 3) design, implement and report on a targeted evaluation of a curriculum and instruction related program, project or policy. Restricted to doctoral students; masters students with approval of instructor.

CPED 8354. Doctoral Internship: Teacher Education. 3-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, policymaking, or private agency function. Admission by permission of advisor.

CPED 8998. Doctoral Seminar in Curriculum and Instruction. 3-6 Credits.

Review of literature; preparation of a dissertation proposal and a manuscript of publishable quality. Admission by permission of instructor and approval of major advisor. Material fee.

CPED 8999. Dissertation Research. 3-6 Credits.

Prerequisite: CPED 8998.

DECISION SCIENCES (DNSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

DNSC 3401. Introduction to Business Analytics. 3 Credits.

Fundamentals of business analytics: what information it provides, how and when that information is used, and how it affects decision making. Working with uncertainty; understanding the dynamic nature of decision making; using data, regardless of its size; and making decisions with incomplete data. The simulation of real-life scenarios to support optimal decision making.

DNSC 3402. Data Mining. 3 Credits.

Introduction to the practice of exploring and discovering actionable business intelligence from large amounts of data. Data mining concepts, methods, and tools with concrete examples from business applications. Overview of various supervised and unsupervised data mining techniques that can be used both to discover relationships in large data sets and build predictive models. Techniques covered include regression models, decision trees, neural networks, clustering, and association analysis. Prerequisites: STAT 1051 and MATH 1052.

DNSC 4403. Decision Models. 3 Credits.

Students learn to design and develop decision models using spreadsheet software with specialized decision support add-ins, and to effectively interpret the models' outputs. Commonly used classes of models including, optimization, Monte Carlo simulation and decision analysis. Models discussed span business disciplines including finance, accounting, marketing, human resources, economics, and operations. Prerequisites: DNSC 3401.

DNSC 4404. Essentials of Project Management. 3 Credits.

Theoretical foundations of and practical insights into project management; the role of project management in contemporary business and government organizations; the link between projects and strategy. Project design and development.

DNSC 4900. Special Topics. 0-3 Credits.**DNSC 6201. Introduction to Business Analytics. 1.5 Credit.**

An introduction to business analytic concepts, methods, and tools with concrete examples from industry applications; Big Data and the opportunities it has created for businesses to store, organize, and analyze vast amounts of information. Completion of a basic course in statistics prior to enrollment is recommended.

DNSC 6202. Mathematics and Statistics for Management. 3 Credits.

Mathematical and statistical concepts employed in the solution of managerial problems. Applications of functions, elements of calculus, and linear algebra. Introduction to probability, frequency distributions, statistical inference, and regression and correlation.

DNSC 6203. Statistics for Analytics I. 1.5 Credit.

The foundations of statistical methodologies used in business analytics; statistical inference and probability models; methods of estimation, hypothesis testing, contingency table analysis, analysis of regression models and logit and probit analysis. Restricted to students in the master of science in business analytics program; departmental approval may be substituted. Prerequisite: DNSC 6206.

DNSC 6206. Stochastic Fndn: Prob Models. 1.5 Credit.**DNSC 6207. Applied Probability Models. 1.5 Credit.****DNSC 6208. Computational Optimization. 3 Credits.****DNSC 6209. Forecasting for Analytics. 1.5 Credit.****DNSC 6210. Decision and Risk Analytics. 1.5 Credit.**

Concepts, methods, and practical tools to analyze managerial decisions involving risk and uncertainty. Decision tree modeling, the strategic value of information, real options valuation, measurement and incorporation of risk preferences, and Monte Carlo simulation. The roles and limitations of judgment and sensitivity and robustness analysis as means to deal with the ambiguities inevitably present in real situations.

DNSC 6211. Programming for Analytics. 3 Credits.

Accessing, preparation, handling, and processing data that differ in variety, volume, and velocity. The ability to handle and process data is a core capability in the context of any analytics position in the industry. Development of a theoretical grounding in emerging paradigms like schema-less data. The programming environments that will be typically employed include Python and R.

DNSC 6212. Optimization Methods and Applications. 3 Credits.

Linear, network, integer, and nonlinear models and their fundamental underlying analytic concepts and solution methods. Emphasis on development of an intuitive understanding of solution methods and their underpinning theoretical paradigms for effective use of optimization models. Model formulation, solutions, and interpretation of results.

DNSC 6213. Statistics for Analytics II. 1.5 Credit.**DNSC 6214. Pricing and Revenue Management. 1.5 Credit.****DNSC 6215. Social Network Analytics. 1.5 Credit.****DNSC 6216. Business Analytics Skills Workshops. 0-1.5 Credits.**

A series of workshops covering project management techniques for analytics projects, team dynamics skills, communicating quantitative information, and ethics, security, and privacy policies in analytics.

DNSC 6217. Business Analytics Practicum. 1.5 Credit.

Working in small teams, students apply their analytics skills to projects sponsored by public or private institutions. Each team is advised by a faculty member, and the practicum sponsor designates a mentor to provide guidance to the team for the duration of the project. Prerequisite: MSBA degree candidacy.

DNSC 6219. Time Series Forecasting for Analytics. 3 Credits.**DNSC 6225. Business Process Simulation. 1.5 Credit.****DNSC 6230. Mgt of Technology Innovation. 3 Credits.****DNSC 6234. Procurement & Contracting. 3 Credits.**

Principles and concepts essential to effecting large procurement programs. Planning, sourcing, and contractual design for diverse acquisitions. Emphasis on federal government policy with comparison of buying at other governmental levels and the private sector.

DNSC 6247. Organization, Management, and Leadership. 3 Credits.

Fundamentals of human resource management for project managers. Tools and techniques for success in managing and leading people in a project environment.

DNSC 6250. Project Management Finance. 3 Credits.**DNSC 6251. Optimization Models for Decision Making. 1.5 Credit.**

Optimization techniques, including linear programming, sensitivity analysis, networks, integer programming and multiple objective optimization, and nonlinear and evolutionary programming. Prerequisites: DNSC 6202 (equivalent to MBAD 6221 and MBAD 6222 or MBAD 6224).

DNSC 6252. Risk Analysis for Decision Making. 1.5 Credit.

Probabilistic modeling techniques, including influence diagrams, utility theory, subjective and empirical probability distribution assessment, simulation models, queuing theory, Markov chains, and game theory. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6254. Risk Management. 1.5 Credit.

Basic principles of risk management practices. Developing a risk management plan, including identifying, analyzing, mitigating, and monitoring projects risks. Prerequisites: DNSC 6202 or MBAD 6224 or MBAD 6221, MBAD 6222.

DNSC 6257. Cost Estimation and Control. 1.5 Credit.

Methods of developing project estimates during the planning stages and updating the estimates throughout the life of the project; monitoring, reporting, controlling, and managing project cost; relationships between project cost and other parameters, including scope, time, quality, reliability and procurement risk. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6258. Executive Decision Making. 1.5 Credit.**DNSC 6259. Project Portfolio Management. 1.5 Credit.**

Management of an organization's portfolio of projects for the overall success of the enterprise; alignment of projects with an organizations strategy and goals and consistency with values and culture. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6261. Introduction to Project and Program Management. 3 Credits.

Practical examination of how projects can be managed from start to finish, including specific emphasis on planning and controlling to avoid common pitfalls. Identifying needs, defining requirements, project costing, scheduling, resource allocation, and project politics.

DNSC 6262. Directed Computational Project Management. 3 Credits.

Practical examination of project management concepts by quantitative application using various software tools. Research in real cost data to support project calculations. Prerequisite: DNSC 6254, DNSC 6257, DNSC 6261, DNSC 6267.

DNSC 6263. Managing External Projects. 3 Credits.

Fundamentals of contract management from a project manager's perspective. The outsourcing process, associated project strategies, and legal elements. Acquisition planning, vendor selection, contract formulation, and performance control.

DNSC 6267. Planning and Scheduling. 3 Credits.

Integrated planning, scheduling, and control systems for planning the scope of a project; optimizing time, cost, and resources; and monitoring and controlling schedules, including those for delayed projects. Prerequisites: DNSC 6202 or MBAD 6221, MBAD 6222 or MBAD 6224.

DNSC 6269. Project Management Application. 3 Credits.

Students will be expected to demonstrate integration of the knowledge accumulated in their study plan and apply integrated knowledge and experience to best practices, a project case history, and a handbook. Prerequisites: M.S.P.M. candidacy or permission of instructor/advisor.

DNSC 6274. Statistical Modeling and Analysis. 3 Credits.

The process of specifying, analyzing, and testing models of human and systemic behavior. Formalization of models; statistical test comparison and selection; computer implementation of univariate, bivariate, and multivariate tests. General linear model: linear regression, analysis of variance, and analysis of covariance. Prerequisite: MBAD 6221 and MBAD 6222 .

DNSC 6275. Advanced Statistical Modeling and Analysis. 3 Credits.

Advanced topics associated with the general linear model. Testing for and remediation of assumption violations. Detection of outliers, influential observations, and multicollinearity. Alternative design strategies in the analysis of variance; latent growth analysis; hierarchical linear modeling; testing for interactions and parallelism. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6276. Exploratory and Multivariate Data Analysis. 3 Credits.

Methods for exploratory and multivariate data analysis. Application and comparison of advanced multivariate analytical procedures. Multivariate and discriminant analysis, LISREL analysis, and canonical correlation. Prerequisite: DNSC 6274 or permission of instructor.

DNSC 6277. Applied Forecasting and Time-Series Analysis for Managers. 3 Credits.

Introduction to various forecasting techniques, including time-series regression models, cyclical trends, exponential smoothing methods, seasonal and nonseasonal ARIMA processes, and the Box-Jenkins approach. Application of forecasting methods in economics, finance, and marketing. Prerequisite: MBAD 6222 or permission of instructor.

DNSC 6279. Data Mining. 3 Credits.

How organizations make better use of the increasing amounts of data they collect and how they convert data into information that is useful for managerial decision making. Examination of several data mining and data analysis methods and tools for exploring and analyzing data sets. State-of-the-art software tools for developing novel applications.

DNSC 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

DNSC 6298. Directed Readings and Research. 0-3 Credits.

DNSC 6300. Thesis Seminar. 3 Credits.

DNSC 8328. Special Topics in Decision Making. 3 Credits.

Special topics and advanced applications, such as catastrophe theory, Markovian decision processes, and Bayesian statistics. May be repeated once for credit.

DNSC 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

DNSC 8397. Advanced Special Topics. 1-3 Credits.

Current research and scholarly issues in management science.

DNSC 8998. Advanced Rdgs & Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

DNSC 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

EAST ASIAN LANGUAGE AND LITERATURE (EALL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EALL 1075. East Asian Calligraphy. 3 Credits.

Writing of Chinese characters with traditional writing implements. No knowledge of the language required. Covers the history, aesthetics, and philosophy of East Asian scripts and calligraphy and their relationships to paintings, seal carving, and literature. Same as FA 1075.

EALL 3811. Confucian Literature in East Asia. 3 Credits.

General introduction to the Confucian traditions of literature, with an emphasis on history, historical writings, popular tales, and drama in China, Japan, and Korea. (Same as REL 2811).

EALL 3814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions, how these traditions evolved over time, and the way each culture assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. (Same as REL 3814, REL 2814).

EALL 3814W. Religion and Philosophy in East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Same as REL 3814.

EALL 3831. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as REL 3831.

EALL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as REL 3831.

EALL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage. Same as REL 3832.

EALL 3881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. (Same as REL 3881, WSTU 3881.).

EALL 4197. Independent Study. 1-3 Credits.

Departmental approval is required to register.

EALL 6832. Myth, Ritual and Popular Religion in China. 3 Credits.

Popular beliefs and practices in the everyday life of China, with consideration of a variety of practices such as ancestor worship, family and communal rituals, spirit possession, fengshui theories, and pilgrimage. (Same as EALL 3832, REL 3832).

EALL 6881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. (Same as REL 3881, EALL 3881, REL 3881, EALL 3881, WSTU 3881).

ECONOMICS (ECON)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ECON 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

ECON 1011. Principles of Economics I. 3 Credits.

Major economic principles, institutions, and problems in contemporary life. Microeconomics—supply and demand, the price system and how it works, competitive and monopolistic markets.

ECON 1012. Principles of Economics II. 3 Credits.

Continuation of ECON 1011. Major economic principles, institutions, and problems in contemporary life. Topics in macroeconomics, including national income concepts, unemployment and inflation, institutions of monetary control. Prerequisite: ECON 1011.

ECON 2101. Intermediate Microeconomic Theory. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions. Analysis of firm behavior, including derivation of supply frameworks. Demand and supply interaction under various market structures and in factor markets. Prerequisites: ECON 1011 and ECON 1012; and MATH 1221 or MATH 1231 or MATH 1252. Same as ECON 2103.

ECON 2102. Intermediate Macroeconomic Theory. 3 Credits.

Investigation of the determinants of national income, inflation, unemployment, and interest rates. Alternative business cycle theories, with emphasis on the role of imperfect information, uncertainty, and expectations. Prerequisites: ECON 1011, ECON 1012; MATH 1221, MATH 1231, or MATH 1252.

ECON 2103. Intermediate Microeconomic Theory: A Mathematical Approach. 3 Credits.

Analysis of household economic behavior, including derivation of demand functions, and of firm behavior, including derivation of supply frameworks. Demand and supply interaction under various market structures and in factor markets. Reliance on constrained and unconstrained optimization techniques when analyzing household and firm behavior. Corequisite: MATH 1232. Recommended for students pursuing the B.S. degree. Prerequisites: ECON 1011, ECON 1012; MATH 1221, MATH 1231, or MATH 1252.

ECON 2104. Intermediate Macroeconomic Theory: A Mathematical Approach. 3 Credits.

Development and application of mathematical models of aggregate economic behavior with a focus on the intertemporal choices made by households, firms, and governments. The use of rigorous economic analysis provides a deeper understanding of the determinants of the economy's performance. Recommended for students pursuing the B.S. degree. Corequisite: MATH 1232. Prerequisites: ECON 1011, ECON 1012; MATH 1221, MATH 1231, or MATH 1252.

ECON 2121. Financial Economics. 3 Credits.

Economic analysis of key financial institutions, markets, and variables. Investigation of the performance of asset markets and the roles of money, credit, interest rates, and exchange rates. Examination of private sector institutions like equity markets and the banking system and the roles of regulators like the Federal Reserve. Prerequisite: ECON 1011- ECON 1012.

ECON 2122. Monetary Theory and Policy. 3 Credits.

Analysis of classic and modern monetary theories and their application to current economic conditions. The links between theory and policy. The altered role of money over time; the new money technology. Prerequisite: ECON 1011- ECON 1012.

ECON 2123. Introduction to Econometrics. 3 Credits.

Joint offering of the Economics and Statistics Departments. Construction and testing of economic models: regression theory, parameter estimation, and statistical techniques applicable to economic models. Prerequisites: MATH 1221 or MATH 1231 or MATH 1252; STAT 1051 or STAT 1053 or STAT 1111. (Same as STAT 2123).

ECON 2136. Environmental and Natural Resource Economics. 3 Credits.

Analysis of a variety of environmental and natural resource problems. The economic causes of these problems, their consequences, and the relative merits of alternative policies for dealing with them. Prerequisite: ECON 1011- ECON 1012.

ECON 2148. Survey of Health Economics. 3 Credits.

Economic analysis of the determinants of demand, supply, output, and distribution in the health care sector, with special emphasis on current policy issues of access, quality, and cost. Credit may not be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 1011 - ECON 1012.

ECON 2151. Economic Development. 3 Credits.

Theories and empirical studies of the economic problems of developing countries. Prerequisite: ECON 1011 and ECON 1012.

ECON 2151W. Economic Development. 3 Credits.

ECON 2157. Urban and Regional Economics. 3 Credits.

Analysis of the determinants of urban growth and development; firm location; the functioning of urban land and housing markets. Prerequisite: ECON 1011- ECON 1012.

ECON 2158. Industrial Organization. 3 Credits.

Analysis of market structure, conduct, and performance of firms in a market economy, with emphasis on case studies of U.S. industries. Prerequisite: ECON 1011- ECON 1012.

ECON 2159. Government Regulation of the Economy. 3 Credits.

Economic analysis of antitrust and regulation in the American economy. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2158.

ECON 2160. Surv:Finance&Engineering Econ. 3 Credits.

ECON 2167. Economics of Crime. 3 Credits.

Analysis of crime, both empirical and theoretical, that examines the links between law and economics, the economics of criminal participation, and the economics of law enforcement. Prerequisite: ECON 1011- ECON 1012.

ECON 2169. Introduction to the Economy of China. 3 Credits.

Background, organization, and operation of the economy. Appraisal of performance and analysis of problems of development. Prerequisite: ECON 1011- ECON 1012.

ECON 2170. Intro to the Economy of Japan. 3 Credits.

Analysis of the structure and growth of the Japanese economy. Prerequisite: ECON 1011- ECON 1012.

ECON 2180. Survey of International Economics. 3 Credits.

Basic concepts of international trade and international finance, with emphasis on policy issues. Prerequisites: ECON 1011 and ECON 1012.

ECON 2181. International Trade Theory and Policy. 3 Credits.

The basis for international trade and the effect of trade on consumers, producers, and workers; the causes and effects of the international movement of factors including foreign direct investment, outsourcing, and migration; and the impacts of trade policies and trade agreements. Credit may not be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 1011- ECON 1012.

ECON 2182. International Macroeconomic Theory and Policy. 3 Credits.

Topics include the balance of payments, the determination of exchange rates and prices in open economies, the interaction of the exchange rate and domestic economic activity, international financial markets, and exchange rate and financial crises. Prerequisites: ECON 1011- ECON 1012.

ECON 2185. Economic History and Problems of Latin America. 3 Credits.

Analysis of present structures and problems of Latin American economies. Prerequisite: ECON 1011- ECON 1012.

ECON 2195W. Special Topics. 3 Credits.

ECON 2198. Special Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011 - ECON 1012.

ECON 2199. Special Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: ECON 1011, ECON 1012.

ECON 3098. Variable Topics-Regional Econ. 1-9 Credits.

ECON 3105. Economic Forecasting. 3 Credits.

Theory and empirical analyses of economic trends and fluctuations; use of economic indicators and simple econometric models. Prerequisites: ECON 1011- ECON 1012; ECON 2102 or ECON 2104; ECON 2123.

ECON 3142. Labor Economics. 3 Credits.

Analysis of labor supply and demand; measurement and theory of unemployment; occupational choice; wage differentials; labor market issues and policies. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

ECON 3148. Health Economics. 3 Credits.

Analysis of economic theories and applications to the demand for and supply of healthcare. Examination of the role of government in health care, public health, and unhealthy behavior (e.g., smoking). Credit may not be earned for both ECON 2148 and ECON 3148. Prerequisites: ECON 2101 or ECON 2103.

ECON 3161. Public Finance: Expenditure Programs. 3 Credits.

Economic analysis of government spending and social regulation programs. Topics include public goods, externalities, income transfer and social insurance programs, and benefit-cost analysis of government programs. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

ECON 3162. Public Finance: Taxation. 3 Credits.

Economic analysis of taxes. Topics include individual and corporate income taxes, payroll taxes, sales and excise taxes, property and wealth taxes, design of tax systems, and effects of taxation on labor and capital markets. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

ECON 3165. Economics of Human Resources. 3 Credits.

Economic analysis of education and training, labor market discrimination, marriage and the family, and social security. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

ECON 3181. International Trade Theory. 3 Credits.

Rigorous examination of theories of international trade that explain why countries trade and their gains from trade. Theories include comparative advantage, the factor-proportions theory of trade, and recent theoretical developments. The course also deals with the theory of trade policies, such as tariffs and quotas. Credit cannot be earned for both ECON 2181 and ECON 3181. Prerequisites: ECON 2101 or ECON 2103; MATH 1221, MATH 1231, or MATH 1252.

ECON 3190. Law and Economics. 3 Credits.

An introduction to the economic analysis of legal systems. How laws alter behavior and how laws might be designed to satisfy efficiency and fairness criteria. Prerequisite: ECON 1011- ECON 1012 and ECON 2101 or ECON 2103.

ECON 3191. Game Theory. 3 Credits.

An introduction to game theory, covering concepts such as Nash equilibrium, evolutionary games, backward induction and subgame perfection, Bayesian-Nash games of imperfect information, adverse selection, and moral hazard. Prerequisites: ECON 1011- ECON 1012 and ECON 2101.

ECON 3198. Advanced Topics in Economics - Regional. 3 Credits.

Topics cover individual countries or regions of the world and vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON (2104) or ECON 2123.

ECON 3199. Advanced Topics in Economics. 3 Credits.

Topics vary depending on current issues of interest and faculty availability. Prerequisites: Depending on the topic: ECON 2101 (or ECON 2103) or ECON 2102 (or ECON (2104) or ECON 2123.

ECON 4198W. Proseminar in Economics. 3 Credits.

Preparation and presentation of a research paper in any field of economics agreed upon by the student and instructor. Restricted to Economics majors in their senior year. Prerequisites: ECON 2101 or ECON 2103 and ECON 2102 or ECON 2104. Recommended background: Prior or concurrent enrollment in ECON 2123 or STAT 2112 or STAT 2118 is recommended.

ECON 4199. Independent Research-Economics. 3 Credits.

Prerequisite: ECON 1011- ECON 1012 and completion of 12 hours of upper-division economics courses, including ECON 2101 or ECON 2103 and ECON 2102 or ECON 2104, with a minimum grade-point average of 3.4; and approval of an independent research project by a faculty member of the Economics Department.

ECON 6217. Survey of Economics I. 3 Credits.

Intermediate-level microeconomic theory for graduate students in fields other than economics.

ECON 6218. Survey of Economics II. 3 Credits.

Continuation of ECON 6217. Intermediate-level macroeconomic theory for graduate students in fields other than economics. (ECON 6217 and ECON 6218—).

ECON 6219. Managerial Economics. 3 Credits.

Intermediate microeconomic theory, with emphasis on production and costs, market structure and pricing, risk analysis, and investment theory and capital budgeting. Credit can be earned for only one of ECON 6217 or ECON 6219.

ECON 6237. Economics of the Environment and Natural Resources. 3 Credits.

Analysis of public policy problems relating to the environment and natural resources development and management. Prerequisite: ECON 6217.

ECON 6239. Economics of Defense. 3 Credits.

Economic analysis applied to national security planning and objectives. Analysis of defense establishment problems, including manpower, the defense industry base, procurement policy.

ECON 6248. Health Economics. 3 Credits.

Demand for medical care; organization of the health care delivery industry; policy issues on regulation, efficiency, and allocation of health care services.

ECON 6249. Industrial Org-TComm Industry. 3 Credits.**ECON 6250. Survey of Economic Development. 3 Credits.**

An introduction to economic problems faced by less developed countries. Emphasis on applications to policymaking and evaluation. Prerequisite: ECON 6217 or ECON 6280 or equivalent.

ECON 6255. Economics of Technological Change. 3 Credits.

Economics of research and development; innovation and growth; the role of government in the development and use of new technology.

ECON 6269. Economy of China I. 3 Credits.

Analysis of organization, operation, policies, and problems. Development of the economy since 1949.

ECON 6270. Economy of China II. 3 Credits.

Continuation of ECON 6269. Examination of critical problems of development. Prerequisite: ECON 6269 or permission of instructor.

ECON 6271. Economy of Japan. 3 Credits.

Analysis of Japanese economic institutions and their contribution to Japan's development.

ECON 6280. Survey of International Economics. 3 Credits.

Introductory international trade and finance, primarily for students in the Elliott School. Topics include the economic effects of trade liberalization and protection, exchange rate determination, and macroeconomic policies in an open economy. Prerequisite: ECON 1011 and ECON 1012.

ECON 6283. Survey of International Trade Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Survey of international economics and policy; application of comparative advantage and other arguments for trade; impact of trade on a domestic economy; new arguments for protectionism; and regional trading blocs.

ECON 6284. Survey of International Macroeconomics and Finance Theory and Policy. 3 Credits.

For graduate students in fields other than economics. Open economy macroeconomics; international finance; balance of payments accounting; exchange markets; alternative models of balance of payments determination and adjustment; behavior of flexible exchange rate systems.

ECON 6285. Economic Development of Latin America. 3 Credits.

Diversity of structures of Latin American economies; import substituting industrialization; inflation; problems of underemployment and income distribution.

ECON 6286. Economic Development of Latin America. 3 Credits.

Continuation of ECON 6285. Structure of trade; protection, exports, and economic development; regional and global economic integration; foreign investment, multinational enterprise, and technology transfer.

ECON 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as GEOG 6290/ SOC 6290/ STAT 6290.

ECON 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as GEOG 6291/ SOC 6291/ STAT 6291.

ECON 6292. Topics in International Trade. 3 Credits.

Topics on international trade issues and policy. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6293. Topics in International Finance. 3 Credits.

Topics on macroeconomic issues and policies in open economies, including exchange rate regimes, determinants of international capital flows, currency crises, financial contagion, current account sustainability and sovereign crises, fiscal problems, and macro-policies in emerging markets and mature economies.

ECON 6294. Topics in Economic Development. 3 Credits.

Topics on economic development issues and policy vary depending on faculty availability and interest. Primarily for master's students in programs other than economics. May be repeated for credit if topic differs.

ECON 6295. Special Topics. 3 Credits.

Topics vary, depending on current issues of interest and faculty availability.

ECON 6298. Reading and Research. 3 Credits.

Limited to master's degree candidates.

ECON 6300. Mathematical Methods for Economics. 3 Credits.

Instruction in the mathematical background required to appreciate and understand the use of mathematics in economic analysis, including multivariable calculus, integral calculus, and linear algebra. Emphasis on techniques for solving systems of equations, unconstrained and constrained optimization, comparative static analysis, difference equations, and analysis of dynamic models and their application to a range of economic problems. Restricted to Graduate applied economics majors only.

ECON 6301. Applied Microeconomic Theory. 3 Credits.

The principal areas of microeconomic theory: consumer demand, decision making under uncertainty, production and costs, game theory, and product markets; both competitive and imperfectly competitive, factor markets, and market failures. Emphasis on the application of theory to microeconomic issues of interest to the private and public sectors, such as product pricing, market entry and deterrence, competition policy, tax policy, and environmental regulation. The level of mathematical rigor is above that in a typical intermediate undergraduate microeconomics course, but below that in a first-year PhD course. Restricted to Graduate applied economics majors only.

ECON 6305. Applied Macroeconomic Theory. 3 Credits.

Development of an integrated framework for analyzing the determination of macroeconomic variables such as total production, unemployment, interest rates and inflation. Interpreting macroeconomic data and macroeconomic policy. A key objective of the course is to provide a link between economic theory and current economic policy. Topics for application may include recent developments in monetary policy and causes of hyperinflation and the national debt. The level of mathematical rigor is above that in a typical intermediate undergraduate macroeconomics course, but below that in a first-year PhD course. Restricted to Graduate applied economics majors only. Prerequisites: ECON 6300 and ECON 6301.

ECON 6374. Probability and Statistics for Economics. 3 Credits.

Focus on specific probability and statistical inference skills required for applied economic problems. Topics include laws of probability, limit laws, random events, independence and dependence, expectations, Bayes theorem, estimation, and hypothesis testing. Discrete and continuous random variables, density, and distribution functions. Various distributional models for observational data. Data manipulation and analysis using both SAS and Stata software. Emphasis on general methods applicable to econometrics. Restricted to graduate applied economics majors only.

ECON 6375. Applied Econometrics. 3 Credits.

An introduction to the skills needed to critically evaluate and conduct econometric analysis. Multiple regression analysis; theoretical underpinnings of the ordinary least squares estimator; interpreting regression results and how to address common issues that arise in regression analysis; econometric methods to estimate and test economic models and to address causal questions using observational data. Students build proficiency in using statistical software to perform basic econometric techniques studied in the course. Restricted to Graduate applied economics majors only. Prerequisites: ECON 6300 and ECON 6374.

ECON 6376. Time Series Analysis. 3 Credits.

The objective of this course is to give students the tools required to understand, implement, and interpret common models used in time series econometrics. Emphasis is placed on intuition and application. The course will both help students understand how to use time series data to test hypotheses and serve as an introduction to the ideas and techniques of forecasting. Topics covered are: time series properties of data (unit roots, near unit roots, stationarity), difference equations, stationary models (autoregressive and moving-average models), models with trends (deterministic and stochastic), multi-equation models (reduced-form and structural VARs), cointegration and error-correction models, models with time-varying coefficients, forecasting models, and basic forecast evaluation. Students will become proficient with performing basic time series analysis and forecasting using time series statistical software. Restricted to applied economics MA students only. Prerequisites: ECON 6374, ECON 6305.

ECON 6997. Independent Research. 1-3 Credits.

This course is limited to master's degree candidates in Economics. Before permission is granted to register for ECON 6997, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. The written plan must also be approved by the program director. This course may be repeated once for credit but to no more than a total of 6 credits.

ECON 6998. Thesis Research. 3 Credits.

ECON 6999. Thesis Research. 3 Credits.

ECON 8301. Microeconomic Theory I. 3 Credits.

Theory of unconstrained optimization; optimization subject to equality and inequality constraints, along with applications. Profit maximization, utility maximization and cost minimization, concave and quasi-concave functions, monotone comparative statics, duality theory, the envelope theorem and Le Chatelier principle, and the Kuhn-Tucker conditions.

ECON 8302. Microeconomic Theory II. 3 Credits.

Expected utility theory, general equilibrium in a pure exchange economy and economy with production, welfare theorems and the core theory of the competitive firm in the short run and long run, monopoly and price discrimination, models of oligopoly. Prerequisite: ECON 8301.

ECON 8303. Microeconomic Theory III. 3 Credits.

Theory of games, including Nash equilibrium and its refinements and comparative statics, evolutionary game theory, multistage games and subgame perfection, repeated games and oligopolistic supergames, static and dynamic Bayesian games, auction theory, and bargaining theory. Prerequisite: ECON 8301 and ECON 8302.

ECON 8305. Macroeconomic Theory I. 3 Credits.

Alternative theories of income, employment, and the price level; impact of monetary and fiscal policy; role of expectations in the economy; and microfoundations of macroeconomic models and dynamic analysis.

ECON 8306. Macroeconomic Theory II. 3 Credits.

Extensions of alternative models of income determination, economic growth, and the application of analytical frameworks to the U.S. and international economies. Prerequisite: ECON 8305.

ECON 8307. Macroeconomic Theory III. 3 Credits.

Extensions to stochastic and dynamic general equilibrium frameworks, with emphasis on economic policy. Prerequisite: ECON 8306.

ECON 8323. Monetary Theory and Policy I. 3 Credits.

Theory of monetary policy within the framework of contemporary American central banking.

ECON 8324. Monetary Theory and Policy II. 3 Credits.

Continuation of ECON 8323. Theory of monetary policy within the framework of contemporary American central banking.

ECON 8337. Environmental Economics. 3 Credits.

ECON 8341. Labor Economics I. 3 Credits.

Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8342. Labor Economics II. 3 Credits.

Continuation of ECON 8341. Theory of wages and employment, analysis of labor supply and demand. Analysis of unemployment; unions; wage regulation.

ECON 8345. Industrial Organization I. 3 Credits.

Economic theory and evidence regarding industrial market structure, conduct, and economic performance.

ECON 8346. Industrial Organization II. 3 Credits.

Continuation of ECON 8345. Economic issues in antitrust and government regulation of the U.S. economy.

ECON 8351. Development Economics I. 3 Credits.

Major analytic concepts, measures, theoretical models, and empirical methods of development economics.

ECON 8352. Development Economics II. 3 Credits.

Continuation of ECON 8351. In-depth examination of special research topics with emphasis on methods in applied microeconomics.

ECON 8357. Regional Economics. 3 Credits.

Study of regional planning and growth models, including input-output, programming, and econometric models used by planning agencies; analysis of interregional production, trade, migration, firm location, and pricing models.

ECON 8358. Urban Economics. 3 Credits.

Analysis of spatial relationships among economic activities within an urban area including the urban land, labor, and housing markets; urban transportation models; fiscal relationships among jurisdictions.

ECON 8363. Public Finance I. 3 Credits.

Theoretical and empirical analysis of the economic role of the public sector and the effects of public expenditures on resource allocation and income distribution. Topics include public goods, externalities, social insurance, and benefit-cost analysis.

ECON 8364. Public Finance II. 3 Credits.

Theoretical and empirical analysis of the effects of taxes and transfers on the allocation of resources and income distribution. Topics include partial and general equilibrium models of tax incidence, effects of taxes on labor supply, saving, and portfolio choices of households and on investment and financing decisions of firms.

ECON 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as STAT 8375.

ECON 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as STAT 8376. Prerequisite: ECON 8375.

ECON 8377. Econometrics III. 3 Credits.

Econometric methods for systems of equations and panel data, with additional topics that may vary from year to year. Prerequisite: ECON 8376.

ECON 8378. Economic Forecasting. 3 Credits.

Introduction to the theoretical and applied aspects of economic forecasting. Topics include the role of forecasting, univariate time-series analysis, single equation models, multiple series models, and evaluation of forecasts. Prerequisite: ECON 8375 or permission of instructor.

ECON 8379. Laboratory in Applied Econometrics. 0-3 Credits.

Application of econometric theory and the use of econometric software; students are required to write an empirical research paper. The course usually deals exclusively with either micro or macroeconomic issues. May be repeated for credit provided the topic differs.

ECON 8381. International Trade Theory. 3 Credits.

International trade theory, including alternative models of the gains from trade and evaluations of the new justifications for protectionism, and analysis of commercial policy, factor flows, and trade and investment with multinational corporations. Prerequisite: most sections require calculus or permission of instructor.

ECON 8382. International Finance and Open-Economy Macroeconomics. 3 Credits.

International finance, including alternative models of balance of payments behavior and adjustment, payments accounting, exchange markets, and alternative exchange-rate regimes.

ECON 8383. International Financial Markets. 3 Credits.

Financial economics and international financial markets. Topics include standard asset pricing theory, uncertainty in open economy macroeconomics models, financial market micro-structure, and incomplete markets.

ECON 8395. Advanced Special Topics. 3 Credits.

Topics vary depending upon current interests and faculty availability. Open to graduate students in economics. May be repeated for credit.

ECON 8397. Dissertation Proposal Seminar. 3 Credits.

Limited to Doctor of Philosophy candidates in Unit II. Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies.

ECON 8997. Independent Research. 3 Credits.

This course is limited to doctoral degree candidates in Economics. Departmental approval required to register. Before permission granted to register for ECON 8997, the student must submit a written plan of study for the approval of both the faculty member of the department who will be directing the research. And the Director of Graduate Studies for the PhD Program or the Department Chair. May be repeated for a total of 6 credits.

ECON 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

ECON 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

EDUCATIONAL LEADERSHIP (EDUC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EDUC 0920. Continuing Research - Masters. 1 Credit.**EDUC 0940. Cont Research: Doctoral. 1 Credit.****EDUC 2701. Museums as Cultural and Educational Resources. 3 Credits.**

A general introduction to museums as institutions, sources of information, and places for enjoyment. Classes take place on campus and at museums in the metropolitan area. Admission by permission of instructor.

EDUC 3002. Special Workshops. 3 Credits.**EDUC 6100. Experimental Courses. 1-12 Credits.**

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 6101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with a program advisor.

EDUC 6112. Foundations of Assessment, Testing, and Measurement in Education. 3 Credits.

Foundations of assessment, testing, and measurement with a focus on basic statistical concepts for assessment data literacy, research design issues for assessments, a review of other educational assessments (IQ and psychological, personality and diagnostic), and other issues with assessment and testing including technology, ethical, and legal issues.

EDUC 6114. Introduction to Quantitative Research. 3 Credits.

Development of a conceptual understanding of research design and quantitative analysis options for the consumer of research. Appropriate use of vocabulary and interpretation of research findings. Critique of research articles and/or development of a small-scale proposal.

EDUC 6116. Introduction to Educational Statistics. 3 Credits.

Fundamentals of descriptive statistics and hypothesis testing; introduction to inferential statistics and research design, distinguishing between nonexperimental, quasi-experimental, and true experimental designs. Designed for those with little preparation in quantitative methods or who are not prepared for Educ 8120.

EDUC 6232. Supervision and Evaluation of Instruction. 3 Credits.

The roles and functions of educational leaders in the areas of curriculum, staff development, instructional supervision, and evaluation of personnel. Theory and practice to increase teacher effectiveness and improve student learning through supervisory strategies.

EDUC 6234. Site-Based Leadership: K-12. 3 Credits.

A general introduction to the principalship. Stresses leadership theory, roles, and management tasks in instruction, curriculum, budget, staff development, supervision, interagency services, student learning, and policy considerations. Site-based management and communication within a changing and diverse school environment.

EDUC 6236. School Law and Policy. 3 Credits.

The legal basis of education and public schools in the United States. Constitutional provisions and federal statutes that guide school law. Legal factors that influence school policy. Consideration of practical school situations for legal implications, development of skills to research legal issues affecting schools, and preventive law measures.

EDUC 6240. Fundamentals of Educational Leadership and the Change Process. 3 Credits.

Current leadership theory and systems behavior in the context of administrative practice in educational settings. Key elements of leadership and management. The impact of context, culture, power, politics, change, communications, and organizational learning on administration.

EDUC 6242. Administrative Issues in Education. 3 Credits.

The impact of major social, political, economic, and education issues on the role of school leaders and the delivery and quality of programs and services.

EDUC 6244. School-Community Relations. 3 Credits.

The purpose, scope, essential elements, and impact of a successful school-community relations program. Community power structures, the roles of policy and leadership, communication techniques for interacting with various audiences and the media, evaluation of public relations and marketing for educational institutions.

EDUC 6246. Seminar: Applied Educational Administration. 3-6 Credits.

Application of the theories and principles of administration to public and private schools. Field experience in a phase of administration and supervision. Admission by permission of instructor.

EDUC 6252. Human Relations Diversity. 3 Credits.

Application of current theory and research findings in human relations to staff motivation, change, conflict management, and communication techniques for working with individuals and groups within organizations.

EDUC 6256. School Business Management. 3 Credits.

Management and control of the business functions of school districts. Assessing, planning, developing, and presenting educational budgets; the legal contexts affecting school business management. Risk management and school-site budgeting.

EDUC 6258. School Finance. 3 Credits.

The financing of public elementary and secondary education in the United States; current revenue sources, distribution decisions, and trends in the fiscal operations of schools. Litigation, finance policies, and equitable investments of public monies.

EDUC 6260. Practicum in Supervision. 3-6 Credits.

Practical experience in supervision of instruction. Admission by permission of instructor.

EDUC 6262. Internship in Supervision and Instructional Leadership. 3-6 Credits.

Service in a school situation directed by the University's faculty and school systems; integration of theory and practice.

EDUC 6264. Problems and Practices in Staff. 3 Credits.

Application of principles and practices concerned with change and evaluation of educational administration.

EDUC 6287. Internship: Administration. 3-6 Credits.

Service in an educational institution or education-related program directed by the University's faculty.

EDUC 6314. History of American Education Reform. 3 Credits.

An examination of how evolving social, economic, and political forces have propelled and opposed American education reform efforts throughout history.

EDUC 6368. Leadership and Education. 3 Credits.

A general introduction to issues of leadership applicable to education settings and to key features of educational organizations; leadership as a process and a set of skills and how its styles interact with organizational contexts.

EDUC 6371. Education Policy. 3 Credits.

An introduction to the development, implementation, and assessment of education policies at national, state, and local levels.

EDUC 6381. Program Evaluation: Theory and Practice. 3 Credits.

Introduction to the theory of social program evaluation, alternative evaluation models and methodologies, and the political and social contexts of evaluation.

EDUC 6388. Analysis of Education Policy Issues. 3 Credits.

Covers a range of education policy options, assessing their advantages and disadvantages based on evidence, and drawing implications for policy formulation. A critical approach is applied to the assigned readings, questioning the sources of evidence, appropriateness of analysis, and validity of the findings. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 6392. Practicum in Educational Policy Program Evaluation. 3-6 Credits.

Supervised practical experience in field placements. Admission by permission of instructor. Prerequisite: EDUC 6381.

EDUC 6401. Applying Educational Media and Technology. 3 Credits.

Theory and practice of educational technology. Key characteristics of different media, principles of application, and issues concerning their appropriate use.

EDUC 6402. Computers in Education and Human Development. 3 Credits.

The research and practice surrounding the use of computers in educational and training settings. Students will acquire the practical knowledge necessary to the development and evaluation of computer-related curricula through projects and case studies.

EDUC 6403. Educational Hardware Systems. 3 Credits.

Design and implementation of educational hardware systems, including computers and computer networks.

EDUC 6404. Managing Computer Applications. 3 Credits.

For managers and prospective managers in education and human services who are concerned with the automation of their operations. Basic principles needed to design, implement, and manage an information system. Admission by permission of instructor.

EDUC 6405. Developing Multimedia Materials. 3 Credits.

The design, development, integration, and use of multimedia resources in education and training settings. Students examine and critique multimedia technologies, develop instructional materials, and create a unit or module that applies instructional design theory.

EDUC 6406. Instructional Design. 3 Credits.

Designing, implementing, and evaluating instructional strategies for learners. Assessing needs, writing objectives, selecting curriculum/content, selecting and implementing methods and techniques, selecting appropriate devices and evaluating instruction.

EDUC 6407. Design and Implementation of Educational Software. 3 Credits.

Theory and practice of creating educational software; psychological basis of using software in learning; instructional programs; authoring tools; artificial intelligence applications; interactive media. Students design and evaluate an educational program. Prerequisite: EDUC 6401 or permission of instructor.

EDUC 6421. Critical Issues in Distance Education. 3 Credits.

Historical, conceptual, theoretical, and practical issues associated with distance education as a foundation for research and practice in the domain of distance education as well as adult learning, educational systems design, and school administration and policy.

EDUC 6422. Instructional Needs Analysis. 3 Credits.

An introduction to the role of instructional needs analysis and assessment. The design and development of instruction. Key elements of the instructional design cycle, including data analysis.

EDUC 6423. Technology and Disabilities. 3 Credits.

Assistive technology as it impacts the lives of people with disabilities, including the performance of tasks related to employment, education, and activities of daily living.

EDUC 6424. Learning Technologies and Organizations. 3 Credits.

The role of learning technology in organizations, learning in the workplace, and knowledge management in corporations, schools, and universities.

EDUC 6425. Developing Effective Training with Technology. 3 Credits.

Development of skills in planning and producing effective technology-rich training that meets institutional and organizational needs.

EDUC 6426. Computer Interface Design for Learning. 3 Credits.

Human-computer interaction, both in general and with emphasis on issues in education. General design aspects; theories, principles, and guidelines related to human-computer interaction.

EDUC 6427. Advanced Instructional Design. 3 Credits.

Development of a prototype instructional design project and documentation report requiring rapid design and development strategies. Prerequisites: EDUC 6406.

EDUC 6428. Developing Digital Professional Portfolios. 3 Credits.

Students create a digital professional portfolio, using advanced skills in the design, development, integration, and use of multimedia resources.

EDUC 6441. Internship in Educational Technology Leadership. 3 Credits.

Students are assigned to a cooperating agency and work in consultation under the guidance of the course instructor. Admission by permission of instructor.

EDUC 6442. Educational Technology Leadership Master's Project. 1-6 Credits.

Students design, develop, implement, and evaluate an individual project. Admission by permission of instructor.

EDUC 6500. Intro Stu Aff & Higher Ed. 3 Credits.

Introduction to the study of higher education and the student affairs profession, including the ways in which broader aspects of higher education research, theory and policy inform the work of student affairs practitioners. Historical and current contexts of American higher education, the academic community, and existing issues and emerging challenges surrounding the practice of student affairs in the current higher education landscape.

EDUC 6510. Administration of Higher Education. 3 Credits.

Government, organization, and administration of colleges and universities; duties of trustees and administrators.

EDUC 6520. Foundations of College Student Development. 3 Credits.

College student development theories, practices, and problems, including historical overview and human development theories related to college students.

EDUC 6525. Managing College Student Services Programs. 3 Credits.

An overview of student affairs administrative practices, including planning models, budgeting, policy development, program development, facility management, and team building. Admission by permission of instructor.

EDUC 6530. Intercultural Campus Ldrshp. 3 Credits.

This course is designed to explore intercultural leadership skills through the lens of understanding group identity differences, multicultural competence, and the foundations of effective advocacy for social justice. Lectures, readings, class discussions, written assignments, and experiential activities are used to promote an understanding of intercultural leadership skills to help create inclusive learning environments. The course will explore how oppression and privilege relate to differences based on gender, race and ethnicity, sexual orientation, and (dis)ability. Students will also study how these identities intersect with each other.

EDUC 6540. Group and Organizational Theories. 3 Credits.

Review of major organizational theories inside and outside higher education, including systems, institutional, cultural, cognitive, environmental, ecological, as well as power and influence.

EDUC 6550. Assessment in Higher Ed. 3 Credits.

Key concepts in the assessment of outcomes in higher education and in student affairs. History of the assessment movement in higher education, strategies and methods for measuring outcomes of the college experience, identifying the limitations of operational processes that can be improved, and current issues in measuring student success in higher education.

EDUC 6555. Higher Education Policy. 3 Credits.

Assessment of policies that impact higher education, including the relationship of K-12 policy to higher education. Policy networks and mechanisms of policymaking. Policy development and assessment.

EDUC 6560. Legal Problems in Higher Education. 3 Credits.

Investigation of legal problems in higher education related to the legal structure of higher education, religious concerns, students, faculty, and academic programs.

EDUC 6565. Financing Higher Education. 3 Credits.

Analysis of private, state, federal, and other revenue sources; strategic planning, program budgets, and financial methods and practices.

EDUC 6570. Educational Planning. 3 Credits.

An examination of the planning movement in education: its historical development and the recent shift in premises, context, and expectations. Different approaches to the planning process; its role in research; and overview of main analytical techniques currently in use.

EDUC 6572. Dynamics of Change. 3 Credits.

An analysis of the process of change, particularly as it relates to educational policy. Comparison of theories; analytical tools; historical precedents; examples of federal education policies.

EDUC 6575. Personnel Administration. 3 Credits.

Human resource management: planning, recruitment, selection, placement and induction, staff development, rewards, and negotiations. Issues and legislation that influence personnel functions and policy; communication skills for human resource leadership.

EDUC 6579. Managing Multicultural Environments. 3 Credits.

Application of multicultural research in identifying key elements for managing diverse environments, communicating with families, planning professional development activities, and increasing student learning.

EDUC 6585. Master's Internship in Higher Education Administration. 3-6 Credits.

Supervised field experience in higher education settings. Admission by permission of instructor.

EDUC 6601. International and Comparative Education. 3 Credits.

Theoretical foundations of comparative and international education; systematic investigation of the structure and practices of selected representative school systems in different parts of the world. Emphasis on development of methodologies for comparative study.

EDUC 6602. Regional Studies in International Education. 3 Credits.

In-depth study of education in a selected region of the world. Structures and issues facing education systems in social, political, economic, cultural, and historical context. Prospects of education for human national development. May be repeated for credit provided the region differs.

EDUC 6610. Programs and Policies in International Education. 3 Credits.

Overview of policies and programmatic responses to issues in international education. Topics include education and development, international higher education and student services, and education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6615. Internationalizing U.S. Schools. 3 Credits.

EDUC 6620. Strategies and Analysis in International Education. 3 Credits.

Strategies for improving education in international contexts. Topics include education and development, international higher education and student services, or education and marginalized people. May be repeated for credit provided the topic differs.

EDUC 6630. International Experiences. 1-6 Credits.

Study and research in a foreign country as part of a group program. Admission by permission of the instructor.

EDUC 6631. Internship: International Education. 1-6 Credits.

Service in an international education institution or related individually designed program planned to enable the student to connect theory to practice. Admission by permission of instructor.

EDUC 6640. Selected Topics in International Education. 3 Credits.

Current trends, themes, and issues in international education. May be repeated for credit provided the topic differs.

EDUC 6650. Education and National Development. 3 Credits.

In terms of the basic assumption that education contributes to national development, the course examines the role education plays in the process of national development in advanced industrial societies and societies moving to industrialism.

EDUC 6660. Capstone in International Education. 3 Credits.

Review of core topics in international education and completion of major supervised project or paper. Taken near the end of the master's program in lieu of the Comprehensive Examination.

EDUC 6701. Museums as Institutions I: Fundamentals. 3 Credits.

An overview of the museum as an environment for learning, considering the influence of institutional history and organizational structure on the museum's mission of serving the public.

EDUC 6702. Facilitating Museum Learning I: Fundamentals. 3 Credits.

Theory of and practice in the development of communication skills in the museum. Educational concepts; teaching strategies and techniques; institutional liaison and group process.

EDUC 6703. Museum Audiences. 3 Credits.

A survey of the museum's diverse audience, emphasizing implications for effective programming, with attention to audience research.

EDUC 6704. Facilitating Museum Learning II: Field Placement and Seminar. 3-6 Credits.

Sixteen-hours per week placement in local educational institutions supervised by GW faculty. On-campus seminar focuses on human development and learning theory.

EDUC 6705. Museums as Institutions II: Field Placement and Seminar. 6 Credits.

Thirty-two hours-per-week supervised placement in education departments in area museums; students carry out projects in cooperation with the site. On-campus seminar includes presentations by leading practitioners.

EDUC 6706. Evaluating Museum Learning. 3 Credits.

Evaluation and research methods appropriate to the museum setting. Review of research on museum audiences; designing exhibition and program evaluations.

EDUC 6707. Museum Proposal Writing. 3 Credits.

Preparation of proposals for museums seeking support from public and private funders. Proposals are developed in cooperation with local museums.

EDUC 6709. Interpretation in the Historic House Museum. 3 Credits.

Seminar integrating advanced practices of museum education with current scholarship in architectural history, material culture, and social history. Extensive use of Washington museum resources. Same as AMST 6709. Admission by permission of instructor.

EDUC 6710. Museums and Technology. 3 Credits.

Applications of technology that link the public with the museum: Internet exhibitions, interactive computer programs, video conferencing, the electronic classroom. Guest lectures, field trips, and group projects.

EDUC 6711. Museum as a Learning Environment. 3 Credits.

Exploration of why visitors frequent museums and how they create personal meaning. Approaches to support the audience's engagement with the museum's resources.

EDUC 6998. Thesis Research. 3 Credits.

Thesis research.

EDUC 6999. Thesis Research. 3 Credits.

EDUC 8100. Experimental Courses. 1-12 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EDUC 8101. Research and Independent Study. 1-3 Credits.

Review of literature. Preparation of a dissertation proposal and a manuscript of publishable quality.

EDUC 8110. Advanced Study: Ideas, Issues, and Practices in Education. 3 Credits.

For precandidates for the Ed.D. Alternative means of responding to the complexities of the educational process. Topics vary but concern education as an individual process and as sociocultural preservation and renewal. May be repeated for credit.

EDUC 8120. Group Comparison Designs and Analyses. 3 Credits.

Designs and analyses to assess differences for more than two groups when compared on one dependent variable. Fixed, random, and mixed effects ANOVA and ANCOVA models within factorial design, multiple comparison tests, and introduction to regression analysis. Prerequisites: EDUC 6116.

EDUC 8122. Qualitative Research Methods. 3 Credits.

A general introduction to several major qualitative research traditions (e.g., biography, grounded theory, ethnography, phenomenology, and case study). Application of qualitative research design and procedures, including preliminary data collection, analysis, and writing.

EDUC 8130. Survey Research Methods. 3 Credits.

Techniques used to collect an array of information from a large number of people through structured interviews and mailed, e-mailed, or web-based questionnaires. Defining the research question and design; sampling, survey development, data collection procedures, pretesting, and data handling. Prerequisite: EDUC 8120, EDUC 8122.

EDUC 8131. Case Study Research Methods. 3 Credits.

Techniques used to examine one or a few complex cases, collecting data from several types of sources and by several methods. The course covers design, data collection, and data analysis/integration. Prerequisite: EDUC 8122.

EDUC 8140. Ethnographic Research Methods. 3 Credits.

Techniques used to examine systematically the contemporary daily life of a given group in its natural setting, focusing on culture—the recurring patterns of thought and social relations. Issues of research design and data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8142. Phenomenological Research Methods. 3 Credits.

Techniques used to elicit and recognize perceptions, interpretations, motives, expectations, and imaginations. The framing of appropriate research questions, data collection and analysis, and the statement of conclusions. Prerequisite: EDUC 8122.

EDUC 8144. Discourse Analysis. 3 Credits.

Techniques used to examine verbal and nonverbal communication to understand identity, beliefs, intentions, relationships, and culture. The framing of appropriate research questions; data collection and analysis. Prerequisite: EDUC 8122.

EDUC 8170. Educational Measurement. 3 Credits.

Classical and modern measurement theory, item response theory, and factor analysis. Educational and psychological instrument development and validation. Interpretation of scale scores and assessment of instrument adequacy. Prerequisites: EDUC 8120. Recommended background: EDUC 6112 or equivalent.

EDUC 8171. Predictive Designs and Analyses. 3 Credits.

Techniques used to assess how independent variables are related to one dependent variable. Multiple linear regression, logistic regression, ordinal regression, and non-linear regression. Appropriate research questions, data interpretation, and design within generalized linear modeling. Prerequisites: EDUC 8120.

EDUC 8172. Multivariate Analysis. 3 Credits.

Techniques for assessment of relationships among multiple independent variables and dependent variables. Multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), discriminant analysis, and exploratory factor analysis. Prerequisite: EDUC 8171.

EDUC 8173. Structural Equation Modeling. 3 Credits.

Multivariate techniques used for assessment of structural (causal) relations among latent (unobserved) variables with multiple observed indicators: observed and latent variable path analysis and confirmatory factor analysis. Latent means analysis and latent growth modeling. Prerequisite: EDUC 8171.

EDUC 8174. Hierarchical Linear Modeling. 3 Credits.

Techniques appropriate for analyses of hierarchically structured data. Theoretical concepts of hierarchical linear models (HLM); social and behavioral research; popular HLM software such as HLMwin; and large scale datasets. Prerequisites: EDUC 8171.

EDUC 8175. Item Response Theory. 3 Credits.

Conceptual, mathematical, and applied issues in item response theory. Dichotomous models, item response theory software used for estimation and model fit, test construction, differential item functioning, and item response theory equating. Prerequisites: EDUC 8170.

EDUC 8177. Assessment Engineering. 3 Credits.

In-depth coverage of topics related to assessment engineering, including cognitive model development using cognitive diagnostic assessment and formative assessment modeling, item model development using auto item generation, and automated test assembly and psychometric model development using computer adaptive testing. Introduction to current assessment engineering and educational big-data analytic applications. Prerequisites: EDUC 8170.

EDUC 8179. Capstone Project in Assessment, Testing, and Measurement in Education. 3,6 Credits.

Multifaceted assessment that serves as a culminating academic and intellectual experience for students during the end of their academic program. The capstone project is similar to a thesis or dissertation but may take a variety of forms. Restricted to Permission of instructor. Prerequisites: EDUC 8170.

EDUC 8276. Seminar: Administration and Supervision. 1-12 Credits.

EDUC 8277. Advanced Instructional Leadership for School Improvement. 3 Credits.

Introduction to the role of the instructional leader from school and district perspectives. Students gain theoretical and practical skills and knowledge in areas including instructional improvement; education reform; accountability; conditions for improvement; and planning and sustaining change.

EDUC 8280. Critical Review of Educational Leadership Literature. 1,3 Credit.

The techniques, tools, and presentation of critical reviews and syntheses of educational literature used to inform forthcoming research. Systematic mapping of what is known and deriving research questions, conceptual frameworks, and applicable methods. Prerequisite: an approved dissertation topic or permission of instructor.

EDUC 8320. The Politics of Education. 3 Credits.

Examination of the contextual factors (political, economic, and historical) and the nature of political decision making on education issues, primarily at the state and local level. Prerequisite: EDUC 6371.

EDUC 8321. Economics of Education. 3 Credits.

Application of economic theory and analysis to education problems and policies. Contemporary education reforms that are adopted to improve educational outcomes are analyzed with emphasis on their complexities. Prerequisites: EDUC 6371, EDUC 8120.

EDUC 8322. Education Policy Implementation. 3 Credits.

The evolution and implementation of education policies. Analysis of policy implementation at varying governance levels and types of educational systems. Policy is analyzed as a process and as it interacts with organizational, social, economic, and political factors. Prerequisites: EDUC 6371.

EDUC 8323. Policies of Education Equity. 3 Credits.

Analysis of the development, implementation, and evaluation of education equity policies, with consideration of their context, formulation, and application. Prerequisite: EDUC 6371.

EDUC 8325. Policy Design: Accountability in Education. 3 Credits.

Issues of policy design that underlie the push for greater accountability in education. Students review research articles and conceptual argument, discuss evidence on actual practice, and identify strengths and weaknesses of a range of policy tools. Prerequisite: EDUC 6371.

EDUC 8329. Seminar in Program Evaluation. 3 Credits.

Contemporary problems and issues in evaluation of social programs: design, implementation, analysis, and utilization. Prerequisite: EDUC 6381 and approval of instructor.

EDUC 8334. Doctoral Internship in Educational Policy. 3-6 Credits.

Methods of analysis used in the study of educational policy issues. Case studies on a range of policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 8340. Methods of Policy Analysis in Education. 3 Credits.

Methods of analysis used in the study of educational policy issues. Case studies on a range of policy issues and trends, including testing and accountability, school finance, school choice, and the federal role. Prerequisite: EDUC 6371, EDUC 6114, or permission of instructor.

EDUC 8345. Advanced Studies in Educational Policy Analysis. 1-12 Credits.

The process by which education policies are designed, adopted, and implemented by education systems. Case studies of specific policies, examining their assumptions and objectives, the criteria for assessing their effectiveness, and their governance at federal, state, and local levels. Prerequisite: EDUC 6371, EDUC 8120, or permission of instructor.

EDUC 8505. Seminar: Higher Education Administration. 1-12 Credits.

EDUC 8525. College and University Curriculum. 3 Credits.

Development, patterns, creative design, issues, problems, evaluation, and trends in the higher education curriculum.

EDUC 8530. Leadership in Higher Education. 3 Credits.

Cognitive leadership theory as articulated in higher education: what leadership is, how it works, how it is practiced, how it is considered by scholars and practitioners, and how it is researched.

EDUC 8540. History of Higher Ed. 3 Credits.

History, philosophy, scope, purpose, present status, programs, and trends in higher education in the United States.

EDUC 8560. Case Studies in Higher Education Administration. 3 Credits.

An analysis of case studies related to administrative functions in colleges and universities.

EDUC 8565. College and University Governance. 3 Credits.

Organizational and administrative structures, patterns, and relationships in higher education.

EDUC 8580. The Community/Junior College. 3 Credits.

The two-year college as it relates to secondary education, four-year colleges, and universities. Objectives, curricula, students, faculty, legal concerns, and special problems of two-year colleges.

EDUC 8582. Administration and Governance of Two-Year Colleges. 3 Credits.

A study of the community/junior college, focusing on administrative and governance patterns and national, regional, state, and local influences, as well as the theory and structure of two-year college organization.

EDUC 8585. Doctoral Internship in Higher Education Administration. 3-6 Credits.

Service in a higher education situation directed by the University and the cooperating institution to integrate theory and practice. Admission by permission of instructor.

EDUC 8594. Current Issues in Higher Education. 3 Credits.

Analysis of contemporary issues in higher education practice and scholarship.

EDUC 8998. Pre-Dissertation Seminar. 3-6 Credits.

Required of all departmental Ed.D. degree candidates. Approval of the dissertation research proposal by the dissertation committee is necessary for successful completion of the seminar. Admission by permission of instructor.

EDUC 8999. Dissertation Research. 3,6 Credits.

Prerequisite: EDUC 8998.

ELECTRICAL & COMPUTER ENGINEERING (ECE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ECE 1010. Introduction to Electrical, Computer, and Biomedical Engineering. 1 Credit.

Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills.

ECE 1020. Introduction to Electrical, Computer, and Biomedical Engineering. 1 Credit.

Continuation of ECE 1010. Basic and emerging concepts in electrical, computer, and biomedical engineering. Hands-on experiments and projects. Introduction to the professional literature and available resources and to technical writing, speaking, and presentation skills.

ECE 1120. C Programming for ECE. 3 Credits.

Basic programming concepts including algorithmic thinking and structured programming, control flow, data types, pointers, functions, algorithms, I/Os, threads, and performance evaluation and optimization. Concurrency and multicore programming using threads, processes as well as parallel C programming paradigms. Controlling hardware devices and fine control via interfacing with assembly language.

ECE 1125. Data Structures&Algorithms ECE. 3 Credits.

Fundamentals of algorithms and data structures for electrical and computer engineering. Topics include techniques to solve problems through programming in C/C++ languages, linked lists, stacks, queues and trees; searching methods such as binary trees, hashing, and multi-way trees; design and analysis of algorithms and their space and time complexity. (Fall).

ECE 2110. Circuit Theory. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Circuit elements, techniques of circuit analysis; circuit theorems; operational amplifiers; RLC circuits; natural and step responses; series, parallel and resonant circuits; sinusoidal steady-state analysis; phasers; power calculations; transformers; two-port circuits. CAD tools used in circuit projects. Corequisite: APSC 2113, PHYS 1022.

ECE 2115. Engineering Electronics. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Solid-state devices used in electronic engineering. Physics of their operation. Application to electronic circuits. Primary emphasis on application of these elements in power supplies and in linear amplifiers. Design concepts through use of SPICE and graphical techniques. Prerequisite: ECE 2110.

ECE 2120. Engineering Seminar. 0-1 Credits.

This seminar course provides electrical and computer engineering students with a detailed view of the electrical and computer engineering professions. Speakers from within and outside of the department discuss facets of ECE, engineering education, and other important department, college, or university topics of interest. (Fall).

ECE 2140. Design of Logic Systems I. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Boolean algebra; combinational and sequential circuits; minimization techniques; design-and-build logic subsystems, such as decoders, multiplexers, adders, and multipliers; use of CAD tools. Corequisite: ECE 2115.

ECE 2210. Circuits, Signals, and Systems. 3 Credits.

Circuit analysis using Laplace transforms; transfer functions; poles and zeroes; Bode diagrams; effects of feedback on circuits; convolution; Fourier series and Fourier transforms; design of filters; CAD tools used in design of projects. Prerequisite: ECE 2110.

ECE 3125. Analog Electronics Design. 4 Credits.

Design, testing, and measurement of analog electronic circuits. Differential and multistage amplifiers. Output stages and power amplifiers. Frequency response of amplifiers, high-frequency models of FETs and BJTs. Introduction to feedback circuit topologies. Use of electronic CAD tools, such as P-SPICE. Prerequisite: ECE 2115.

ECE 3130. Digital Electronics and Design. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Design and testing of logic gates, regenerative logic circuits, and semiconductor memory circuits. Implementation of such circuits with NMOS, CMOS, TTL, and other integrated circuit technologies. Use of electronic CAD tools, such as SPICE. Prerequisite: ECE 2140.

ECE 3135. Design of Logic Systems II. 4 Credits.

Lecture (3 hours), laboratory (3 hours). Introduction of ASIC design techniques; design and programming of FPGAs using CAD tools; timing in sequential circuits; essential hazards; races in sequential circuits; design-and-build FPGA project. Prerequisite: ECE 2140.

ECE 3220. Intro to Digital Signal Proces. 3 Credits.

Signal representation, sampling and quantization, discrete-time signals, z-transforms and spectra, difference equations. Fourier analysis. Discrete Fourier transform, IIR and FIR filter design. Prerequisite: ECE 2210.

ECE 3225. Signal and Image Analysis. 3 Credits.

Introduction and clinical applications; characteristics of biomedical problems, time- and frequency-domain techniques for signal feature analysis; spectral estimation and analysis; autoregressive modeling; detection and estimation of periodicity; digital images as two-dimensional signals; 2-D Fourier transform. Corequisite: ECE 2210, ApSc 3115.

ECE 3310. Introduction to Electromagnetics. 3 Credits.

Maxwell's equations, pulse propagation in one dimension, transmission line equations, reflection coefficient, capacitance and inductance calculations, Smith chart, plane waves, reflection from a dielectric of fiber and integrated optics. Prerequisite: APSC 2113, PHYS 1022.

ECE 3315. Fields and Waves I. 3 Credits.

Complex phasor notation, uniform transmission lines, standing wave ratio, power, reflection coefficient, impedance matching. Review of vector analysis and numerical methods. Electrostatics, generalizations of Coulomb's law, Gauss's law, potential, conductors, dielectrics, capacitance, energy. Prerequisite: APSC 2113; PHYS 1022.

ECE 3410. Communications Engineering. 3 Credits.

Fourier series and Fourier transform in relation to signal analysis. Convolution and linear filtering. Signal bandwidth and sampling theorem. Analog modulation. Random variables and stochastic processes; power spectrum. Digital modulation: BPSK, QPSK, MSK. Pulse code modulation, DPCM and delta modulation. Prerequisite: APSC 3115, ECE 2210.

ECE 3420. Communications Laboratory. 1 Credit.

Experiments supporting communications systems. Fourier analysis and Fourier transform. Sampling theorem, filtering, and aliasing. Amplitude modulation (AM), frequency modulation (FM), quantization, and pulse code modulation (PCM). Delta modulation. Binary phase shift keying (BPSK). Quadrature phase shift keying (PSK). Prerequisite or corequisite: ECE 3410.

ECE 3515. Computer Organization. 3 Credits.

Structure and operation of a digital computer. Design of computer arithmetic units, data and instruction paths. Microprogramming; memory technology; virtual memory; caches; pipelined computer organization; characteristics of secondary storage; I/O interfacing. May be taken for graduate credit. Prerequisites: ECE 3135; corequisite: ECE 3525. (Spring).

ECE 3520. Microprocessors: Software, Hardware, and Interfacing. 3 Credits.

Microprocessor architecture, assembly language, address decoding, hardware interrupt, parallel and serial interfacing with various circuits, timer/counters, direct memory access, microprocessor-based system. Hands-on laboratory experience is an integral part of this course. Prerequisite: ECE 2140.

ECE 3525. Introduction to Embedded Systems. 3 Credits.

Microcontrollers and their application in embedded systems. Topics include assembly and C for microcontroller programming, serial and parallel I/O interfacing, and multimedia interfacing. Students perform laboratory experiments and a final project to develop a microcontroller-based embedded system. Prerequisite: CSCI 1121, ECE 3520.

ECE 3530. Introduction to Parallel and Distributed Computer Systems. 3 Credits.

Shared and distributed memory computer systems. Parallel computation. Interprocess communication and synchronization. Terminal, file transfer, and message handling protocols. Algorithms for deadlock detection, concurrency control, and synchronization in distributed systems. Network security and privacy. Resource control and management. Prerequisite: ECE 3515.

ECE 3915W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab I. 1 Credit.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4140. VLSI Design and Simulation. 3 Credits.

Study of VLSI circuit design including PMOS and NMOS transistor analysis, switch and gate logic design, understanding of semiconductor fabrication processes and design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, and designing with highly variable process parameters. Each student will design a VLSI chip, simulate the design and submit a GDS II file for chip fabrication. Prerequisites: ECE 3130, ECE 3135. Same as ECE 6240. (Fall).

ECE 4145. Micro & Nano Fabrication Tech. 3 Credits.

Modern process technologies associated with various types of processing. Silicon fabrication process, micro- and nanofabrications. Limitation at nano-scale, and other available technologies. Alternatives approach. May be taken for graduate credit.

ECE 4150. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed in ECE 4140 and of nano-scale circuits. May be taken for graduate credit. Prerequisite: ECE 4140.

ECE 4155. Modern Measurements and Sensors. 3 Credits.

Measurement of dc, ac, and high-frequency signals. Interface electronic circuits. Sensors for measurement of mechanical, optical, magnetic, electromagnetic, thermal, chemical, and biochemical signals. Prerequisite: ECE 4320, ECE 3125, ECE 2140. May be taken for graduate credit.

ECE 4160. Introduction to Nano-electronics. 3 Credits.

Technology development beyond CMOS; trends in nano-fabrication and nano-metrology. Current flow in 1-D, 2-D, and 3-D electronic structures and their energy levels. Nano-structures such as nano-wire (Silicon or other material), Carbon Nano Tube (CNT), and Graphene. Nano-scale transistors. May be taken for graduate credit. Prerequisites: ECE 2115. (Fall).

ECE 4320. Fields and Waves II. 3 Credits.

Magneto-stationary fields, Lorentz force torques, Biot-Savart law, Ampere's law, magnetic materials, inductance, energy. Maxwell's equations, Faraday's law, charge-current continuity, vector potential. Time-harmonic fields, plane waves, polarization, skin effect, dielectric boundaries, and fiber optics. Radiation, dipole, gain, effective area. Prerequisite: APSC 2114, ECE 3315.

ECE 4325. Microwave and Optics Laboratory. 1 Credit.

Experiments in transmission lines, network analyzer measurements of scattering parameters, microwave systems, fiber-optic systems and antennas. Introduction to the characteristics of laser and optical systems. Prerequisite: ECE 4320.

ECE 4435. Fiber Optical Communications. 3 Credits.

Lightwave fundamentals. Integrated optics. Optical fiber waveguides. Light sources and detectors. Distribution networks and fiber components. Modulation. Noise and detection. System design. Prerequisite: APSC 2114; ECE 3310 or ECE 4320.

ECE 4535. Computer Architecture and Design. 3 Credits.

Design of bus-based digital computer systems, memory subsystems, caches, and multiple processors. Comparison of RISC and CISC processors and standard buses. Bus transfer and control signals. Performance, memory management, architectural support for protection, task switching, exception handling, instruction pipelines. Prerequisite: ECE 3515.

ECE 4610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. May be taken for graduate credit by students in fields other than electrical engineering. Prerequisite: ECE 2210, ECE 3315.

ECE 4615. Electrical Power Laboratory. 1 Credit.

Experiments in support of the analysis and design of electrical power systems. Measurements of the characteristics of devices to generate electric power. Rectification and inversion processes for power systems and drives. Prerequisite or corequisite: ECE 4610.

ECE 4620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency and power flow control. Voltage, current and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 6620) (Fall).

ECE 4710. Control Systems Design. 3 Credits.

Mathematical models of linear systems; steady-state and transient analyses; root locus and frequency response methods; synthesis of linear feedback control systems. Prerequisite: APSC 2114, ECE 2210 or MAE 3134.

ECE 4715. Control Systems Laboratory. 1 Credit.

Experiments in support of control theory, involving the use of the digital computer for process control in real time. Design of feedback and compensation with computer implementation. Digital simulation of linear and nonlinear systems. Prerequisite or corequisite: ECE 4710.

ECE 4730. Robotic Systems. 3 Credits.

Modeling and analysis of robot designs. Kinematics of mechanical linkages, structures, actuators, transmissions, and sensors. Design of robot control systems, computer programming, and vision systems. Use of artificial intelligence. Current industrial applications and limitations of robotic systems. Same as MAE 3197. Prerequisite: computer programming, APSC 2058, ECE 4710.

ECE 4735. Robotics Laboratory. 1 Credit.

Experiments illustrating basic principles and programming of robots and other automated machinery. Design and writing of computer programs to use a robot's arm, vision, and data files to accomplish tasks. Prerequisite or corequisite: ECE 4730/MAE 3197.

ECE 4920W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab II. 3 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4925W. Electrical, Computer, and Biomedical Engineering Capstone Project Lab III. 2 Credits.

ECE 3915, ECE 4920, and ECE 4925 are taken in sequence by departmental majors beginning in the second semester of the junior year. After an introduction to the formal design process, the student plans, refines, designs, and constructs a one-year project.

ECE 4980. Special Topics. 1-3 Credits.

Topic to be announced in the Schedule of Classes. (Fall and spring).

ECE 4990. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

ECE 6005. Microcomputer Systems Architecture. 3 Credits.

Advanced microprocessor-based systems CISC and RISC. Buses, timing, and system interface protocols. Advanced memory designs. Multilevel cache designs. Architectural support for memory management, protection, task switching, and exception handling. Multiprocessor systems. Prerequisite: ECE 3515.

ECE 6010. Linear Systems Theory. 3 Credits.

Introduction to linear systems theory. Topics include linear vector spaces and linear operators, mathematical representation of dynamic linear systems, concept of state and solution of the state equation, controllability and observability, canonical forms of the state equation, state feedback, and state estimation. Prerequisite: ECE 2210.

ECE 6015. Stochastic Processes in Engineering. 3 Credits.

Basic concepts of modeling of random phenomena in electrical and computer systems: probability framework, stationarity, linear filtering. Optimization of discrete and continuous stochastic processes. Elements of performance analysis. Prerequisite: ECE 2210, APSC 3115.

ECE 6020. Applied Electromagnetics. 3 Credits.

Review of Maxwell's equations; electromagnetics of circuits, plane wave propagation; transmission lines; waveguides; radiating systems; receiving antennas and pattern reciprocity, array antennas; electromagnetic properties of materials: conductors, crystals, devices; optical transmission. Prerequisite: ECE 4320.

ECE 6025. Signals and Transforms in Engineering. 3 Credits.

Representation of discrete and analog signals as sums of canonical elementary functions; normal equations and the LMS approximation theory, singular value decomposition for discrete and continuous signals; application of classical transform theory to the study of linear systems. Prerequisite: ECE 2210; APSC 2114.

ECE 6030. Device Electronics. 3 Credits.

Semiconductor device concepts; doping, drift diffusion, recombination. Analysis of Schottky and Ohmic contacts, pn junctions, MOS systems. Modeling and analysis of semiconductor devices such as MOSFET and bipolar transistors. Hot electron and short and narrow channel effects. Prerequisite: ECE 6221.

ECE 6035. Introduction to Computer Networks. 3 Credits.

Layered protocol architectures. Digital transmission, fundamental limits. Error detection and ARQ protocols. Data link layer and control. Multiple access protocols. Circuit and packet switching. Multiplexing. Routing. Flow and congestion control, queue management. LAN standards. TCP/IP. Next-generation Internet. May not be taken for credit by students who have taken ECE 3415. Prerequisite: APSC 3115.

ECE 6045. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. (Fall and spring).

ECE 6050. Research. 1-12 Credits.

Applied research and experimentation projects, as arranged. May be repeated for credit.

ECE 6060. Electric Power Generation. 3 Credits.

Overview of primary traditional and alternative energy sources and storage. Analysis of machinery employed in energy conversion processes. Effect of independent power producers on long-term and short-term stability of large grids. Prerequisite: ECE 4620 or permission of course director.

ECE 6065. Colloquium. 0 Credits.

Lectures by outstanding authorities in electrical and computer engineering. Topics to be announced each semester. (Fall and spring).

ECE 6105. Introduction to High-Performance Computing. 3 Credits.

Taxonomy and classifications of computers and parallel computers. Parallel thinking and parallel algorithms. Domain decomposition and load balancing. Programming parallel computers using the message passing, global address space, and partitioned global address space paradigms. Prerequisite: graduate standing in science or engineering or consent of instructor.

ECE 6120. High-Performance Processors. 3 Credits.

Processor microarchitecture and instruction-level parallelism. Superpipelines and superscalar processors. Multiple-instruction fetching, aligning, merging, and issuing. Hardware and software solutions to structural and data and control hazards. Branch prediction and static and dynamic speculation. Register renaming, Tomasulo's algorithm. VLIWs. Prerequisite: ECE 6005.

ECE 6125. Parallel Computer Architecture. 3 Credits.

Architectural classifications and taxonomies of parallel computers; enabling technologies, including advanced processor concepts, interconnection networks, high-speed memory architectures and protocols; parallel performance and scalability; and introduction to parallel algorithms and parallel programming. Prerequisite: ECE 6005 or ECE 6105.

ECE 6130. Grid and Cloud Computing. 3 Credits.

Introduction to grid, cloud, and distributed computing. Large-scale computing and storage systems. Network protocols, quality-of-service and security issues. Hardware infrastructure and middleware. Distributed algorithms, programming tools, operating and file systems. Prerequisite: ECE 6105.

ECE 6140. Embedded Systems. 3 Credits.

Architectural advances and instruction sets for embedded microprocessors. Real-time operating systems and real-time scheduling, use of pre-designed software and hardware cores. Sensors, actuators, and data acquisition. System-on-chip (SoC). Design case studies. Prerequisite: ECE 6005.

ECE 6213. Design of Vlsi Circuits. 3 Credits.

Top-down ASIC-FPGA design methodology. Modeling of VLSI circuits using HDL. Behavioral, structural, and RTL modeling techniques; validation and verification techniques. Introduction to logic synthesis. Intellectual property usage. Students design and simulate a project using state-of-the-art commercial VLSI CAD tools. Prerequisite: ECE 4140.

ECE 6214. High-Level VLSI Design Methodology. 3 Credits.

High-level ASIC-FPGA design methodology. RTL modeling of VLSI circuits, using HDL for synthesis. Detailed discussion of logic synthesis. Architectural tradeoff for large VLSI circuits. Advanced optimization techniques. VLSI design flow, using the state-of-the-art, front-end design entry and simulation tools and back-end logic synthesis. Prerequisite: ECE 6213.

ECE 6215. Introduction to MEMS. 3 Credits.

MicroElectroMechanical Systems. Micro/nano fabrication techniques, bulk micromachining, surface micromachining. Examples of mechanical sensors and actuators, examples of microsystems, interface circuits and MEMS applications. Use of the CAD tools to design MEMS devices. May be taken by undergraduates. Prerequisite: ECE 4140.

ECE 6216. RF/VLSI Circuit Design. 3 Credits.

Introduction to radio frequency systems: RF design, noise, amplifiers, specifications, matching concepts, mixers, oscillators, system-level design. Prerequisite: ECE 4140.

ECE 6218. Advanced Analog VLSI Circuit Design. 3 Credits.

MOS technology: building blocks, devices, capacitors, limitations. Operational amplifiers and other analog systems. Layout examples and design principles. Mixed-signal A/D and D/A. Students use the CAD VLSI laboratory to design and simulate circuits. Prerequisite: ECE 4140.

ECE 6221. Introduction to Physical Electronics. 3 Credits.

Theoretical principles underlying the operation of electronic devices. Postulates of quantum mechanics: wave-particle duality, uncertainty relations, electronic band structure. Free-carrier statistics; electron-photon interaction. Physical principles of semiconductor and optoelectronic devices. Prerequisite: ECE 4320.

ECE 6240. VLSI Design and Simulation. 3 Credits.

Study of VLSI circuit design including PMOS and NMOS transistor analysis, switch and gate logic design, understanding of semiconductor fabrication processes and design rules, CAD system, speed and power considerations, scaling of transistors to the nano-scale, and designing with highly variable process parameters. Each student will design a VLSI chip, simulate the design and submit a GDS II file for Chip fabrication. (Same as ECE 4140) (Fall).

ECE 6250. ASIC Design and Testing of VLSI Circuits. 3 Credits.

ASIC and mixed-signal design methodology, use of ASIC design CAD tools. Logic synthesis, styles of synthesis, power/area/speed constraints. MIPS CPU HDL implementation/verification/testing. VLSI testing, fault models, design for testability techniques, scan path, built-in self-test. Testing of chips designed and fabricated in ECE 4140 or equivalent chips. (Same as ECE 4150) (Spring).

ECE 6260. Introduction to Nanoelectronics. 3 Credits.

Nanoscience and technology and nanoelectronics. Basic nanofabrication steps; techniques to build devices such as carbon nanotubes, graphene device, and other 2D nanoelectronic devices. Tools for performing design and characterizations of nanodevices, including scanning electron microscopy (SEM), atomic force microscopy (AFM), and transmission electron microscope (TEM). (Same as ECE 4160) (Fall).

ECE 6500. Information Theory. 3 Credits.

The concepts of source and channel. Measure of information, entropy, mutual information. The noiseless coding theorem. The noisy coding theorem. Channel capacity: symmetric and nonsymmetric channels, Gaussian and binary symmetric channels. Rate-distortion theory. Basics of multiple-user information theory. Prerequisite: ECE 6015.

ECE 6505. Error Control Coding. 3 Credits.

Algebraic coding theory: finite fields, linear block codes, cyclic and Reed-Solomon codes. Error detection using CRC codes. Convolutional codes and trellis-coded modulations: structure, properties, performance bounds. Capacity achieving codes; soft-input-soft-output decoding; computationally efficient decoding algorithms. Prerequisite: ECE 6015.

ECE 6510. Communication Theory I. 3 Credits.

Principles of digital communications. Channels, digital modulation; optimum receivers and algorithms in the AWGN; coherent, non-coherent, and fading channels. Correlation detectors, matched filters; diversity. Bounds on performance of communications, comparison of communications systems and implementation issues. Prerequisite: ECE 6015.

ECE 6520. Mobile & Wireless Comm Systems. 3 Credits.

Mobile channel characterization. Modulation and coding techniques. Code division multiple access. Fading countermeasures; coding, equalization, and multiple transmit/receive antennas. Power control. Capacity of cellular and ad hoc networks. Structure and evolution of mobile communications networks. Evolving technologies and standards. Prerequisite: ECE 6510.

ECE 6525. Satellite Communication Systems. 3 Credits.

Low earth orbit and geostationary satellite systems. Transmission systems. RF link budgets. Modulation and multiplexing. Multiple access techniques: FDMA, TDMA, CDMA. Satellite transponders, antennas, and earth stations. Prerequisite: ECE 6510.

ECE 6530. Electronic Warfare. 3 Credits.

Electronic attack and protection of information. Countermeasures and counter-countermeasures. Electronic attacks on ranging and tracking radar systems, jamming and jamming defense. Electronic attack on communications systems. Defensive techniques, signal design, spread spectrum. Attack and defense of optical and high-energy systems. Prerequisite: ECE 6510.

ECE 6550. Advanced Network Architectures. 3 Credits.

Review of packet and circuit switching. Introduction to the Internet architecture. High-speed, wide-area networks: Frame Relay, ATM. High-speed switched LANs: Gigabit Ethernet. Switching architectures. Blocking and nonblocking switches. Quality-of-service and traffic engineering, MPLS. Overview of wireless and optical networks. Prerequisite: ECE 3415 or ECE 6035.

ECE 6555. Networks Protocols. 3 Credits.

Layering, OSI, and Internet architectures. Link-layer protocols: PPP, HDLC, SONET. Cell-switching, ATM, and adaptation protocols. MAC layer protocols: Ethernet, 802.11. IP addressing, routing protocols: RIP, OSPF. Multi-domain routing: CIDR, BGP. End-to-end protocols: UDP, TCP. TCP congestion control. Application layer protocols: DNS, HTTP, SMTP, FTP. Prerequisite: ECE 3415 or ECE 6035.

ECE 6560. Network Performance Analysis. 3 Credits.

Telecommunications traffic models: arrival and service time distributions, Poisson and Erlang formulas. Topological design algorithms. Delay and blocking models and probabilities for packet switched networks. Routing, relaying, and flow control algorithms: delay and cost minimization, throughput optimization. Prerequisite: ECE 6015 and any of ECE 6035, ECE 6545, or ECE 6555.

ECE 6565. Telecommunications Security. 3 Credits.

Speech and data scrambling. Linear and nonlinear transformations. Cryptographic techniques. Block and stream ciphers. The Data Encryption Standard (DES). Key management, digital signatures, message authentication, hash functions. Public key algorithms. Prerequisite: graduate standing in science or engineering or consent of instructor.

ECE 6570. Telecommunications Security Protocols. 3 Credits.

The OSI security architecture: services and mechanisms, risk analysis. Internet protocol mechanisms. Ipv4 and Ipv6 security, security associations, authentication, MD5. Encapsulating security payload. E-mail security: PGP, S/MIME, PEM, MSP. Secure voice communications algorithms. Security in Internet commerce: SSL, SET. Prerequisite: ECE 6565, ECE 6555.

ECE 6575. Optical Communication Networks. 3 Credits.

Wave propagation through fiber, dispersion, polarization. Multiplexing techniques, WDM. Optical networking components. Optical transmission systems design. All-optical networking, broadcast star and wavelength routing networks. Performance analysis, survivability, control and management. Optical access networks. Prerequisite: APSC 3115.

ECE 6580. Wireless Networks. 3 Credits.

Wireless channels and transmission fundamentals. Wide area networks: CDMA (UMTS/cdma2000) and OFDMA-based networks. Physical, MAC, and link layer protocols for wireless networks. Satellite systems. Broadcast systems. Wireless LANs, sensor and ad-hoc networks. Mobility support: handoffs and Mobile IP. Prerequisite: ECE 3415.

ECE 6610. Electrical Energy Conversion. 3 Credits.

Three-phase and single-phase AC rotating machines and transformers, DC machines, rotating machines as circuit elements, power semiconductor converters. Renewable generation, utility grid integration, smart grid applications. May be taken for graduate credit by students in fields other than electrical engineering. Prerequisites: ECE 2210 and ECE 3315. (Same as ECE 4610) (Spring).

ECE 6620. Electrical Power Systems. 3 Credits.

AC power grids, transmission line parameters, load flow, economic dispatch voltage, frequency, and power flow control. Voltage, current, and power limitations. Fault analysis and stability considerations. Effect of independent power producers and variable energy sources and energy storage. (Same as ECE 4620) (Fall).

ECE 6662. Power Electronics. 3 Credits.

Power semiconductors and applications to power supply, frequency control, uninterruptibility, and the design of HVDC power transmission. Multiphase power electronic circuits for AC and DC machines and industrial processes. Role of power electronics for renewable energy sources interconnected to distribution grids. Prerequisite: ECE 4625.

ECE 6666. Power System Transmission, Control, and Security. 3 Credits.

Analysis of AC networks, load flow, economic dispatch, voltage and frequency control. N-1 contingency and its role in assessing and maintaining system integrity. Analysis of loss of critical generating units and transmission capabilities under severe threats. Rapid restoration techniques based on historical data and heuristic approaches. Prerequisite: ECE 4620 or permission of course director.

ECE 6667. Nuclear Power Generation. 3 Credits.

Review of Nuclear Reactor Engineering, traditional and developing reactor design, issues regarding the safe operation of nuclear plant, control and regulatory aspects of nuclear power generation. Prerequisites: ECE 4620 or permission of course director. (Fall, even years).

ECE 6668. Power Distribution Grids. 3 Credits.

Equipment for power distribution for industrial, commercial, and residential applications. Switching and safety at the distribution voltage level. Bulk insulation level and insulation coordination principles. Smart grid innovations. Remote metering. Prerequisites: ECE 4620 or permission of course director. (Fall, odd years).

ECE 6669. Developing Trends in Electrical Power Networks. 3 Credits.

Planning and operating efficient electric utility power systems. Economics, finance, and regulation; industrial power economics; load demand and management. Reliability of the generation system, capacity and transmission planning. Prerequisites: ECE 4620 or permission of course director. (Spring, odd years).

ECE 6670. Power System Protection. 3 Credits.

Main philosophy for protection of power systems. Protection systems and approaches. Reliability and Security of Protection Systems. Protection of Generators, Transformers, Motors and Transmission Lines. Requirements for Distributed Source Generation (DSG's). Requirements for system protection, to prevent grid blackouts and to enhance power system security. Prerequisites: ECE 4620 or permission of course director. (Spring, even years).

ECE 6690. Power Systems Economics. 3 Credits.

Overview of electrical power market economics and market participants. Production pricing and market clearing pricing. Market ancillary service pricing. Location marginal pricing and zonal pricing schemes. New electrical generation entrant impact. Investing in generation and in transmission. Independent power producers and independent transmission owners. Prerequisites: ECE 6060 or permission of course director. (Fall).

ECE 6691. Power Systems Reliability. 3 Credits.

Overview of probability theory and basic power market reliability modeling and evaluation. Generation supply reliability techniques. Reliability of transmission system and delivery of supply. Loss of load probability evaluation. Forced and maintenance outages. Load forecasting and probability of interconnected systems. Risk evaluation and operating reserves. Prerequisites: ECE 4620 or permission of course director. (Spring, even years).

ECE 6699. Energy and Sustainability. 3 Credits.

Energy sources, consumption, and the societal and environmental impacts. Energy generation and harvesting technology. Thermodynamics and efficiency limits. Nanotechnology for sustainability. Emission and pollution. Growth models; learning curves. Life-cycle analysis. Energy in an international perspective: origins, crises, and solutions. Recommended background: Basic understanding of energy and thermodynamics, such as ECE 4620, MAE 2131, or with permission from the course director. (Fall, even years).

ECE 6705. Introduction to Microwave Engineering I. 3 Credits.

Transmission lines, scattering parameters, microwave networks, resonators. Modes in uniform waveguides, general characteristics of waveguide junctions. Transfer representations, filters, couplers, symmetrical waveguide junctions. Prerequisite: ECE 6020.

ECE 6710. Introduction to Microwave Engineering II. 3 Credits.

Active microwave components, amplifiers, oscillators, and mixers. Design of microwave amplifiers and oscillators, microwave transmitters and receivers. Introduction to microwave systems: radar, wireless communication systems, and radiometer systems. Prerequisite: ECE 6705.

ECE 6715. Antennas. 3 Credits.

Antenna circuits, radiation pattern, reciprocity, gain, receiving cross-section, scattering by antennas, mutual coupling, arrays. Polarization. Radiation from current distributions, equivalent aperture currents, dipoles, patch antennas, large phased arrays. Prerequisite: ECE 6020.

ECE 6720. Remote Sensing. 3 Credits.

Active and passive remote-sensing systems: scatterometers, real-aperture imaging, and synthetic-aperture radars. Sensing of surface, subsurface, and atmospheric parameters at microwave, infrared, and optical frequencies. Analysis of radiometric techniques using radiative transport theory, inverse scattering methods, profile inversion. Prerequisite: ECE 6020.

ECE 6725. Electromagnetic Radiation and Scattering. 3 Credits.

Alternative representations of solutions to Maxwell equations, Fourier transforms and spherical mode representations, field equivalence principles, dyadic Green's functions, radiation and scattering by simple shapes, geometrical theory of diffraction, integral equations and the moment method. Prerequisite: ECE 6020, ECE 6025.

ECE 6730. Waves in Random Media. 3 Credits.

Propagation and scattering of electromagnetic, optical, and acoustic waves in random media, scattering from rough surfaces and randomly distributed particles, turbulence. Applications to propagation through rain and fog. Laser beam scintillations, remote sensing, and communications channel modeling. Monte Carlo simulation. Prerequisite: ECE 6015, ECE 6725.

ECE 6735. Numerical Electromagnetics. 3 Credits.

Numerical methods for the solution of electromagnetic scattering and radiation problems. Major techniques: method of moments, T-matrix and finite element methods, geometrical theory of diffraction and hybrid approaches to solve scattering and radiation by wire structures, surfaces, and composite bodies. Prerequisite: ECE 6020, ECE 6025, ECE 6800.

ECE 6745. Analysis of Nonlinear and Multivalued Devices. 3 Credits.

Numerical techniques for modeling semiconductor and magnetic devices. Modeling multivalued behavior of memory materials. Optimization of geometry. Prerequisite: ECE 6020.

ECE 6750. Introduction to Radar Systems. 3 Credits.

The radar range equation. Radar cross section of targets, target detection and parameter estimation, detection in clutter. Resolution, ambiguities, and signal design. Moving-target indicators. Pulse Doppler radar. Radar antennas, phased arrays. Synthetic aperture and space-based radar. Prerequisite: ECE 4320, ECE 6015.

ECE 6760. Propagation Modeling in Wireless Communications. 3 Credits.

Wireless communication channel modeling, propagation mechanisms, terrestrial fixed links, satellite fixed links, macrocells, fading models, micro-cells, picocells, diversity, equalizers. Prerequisite: ECE 6020 or permission of instructor.

ECE 6765. Photonics and Fiber Optics. 3 Credits.

Propagation of light in optical fibers and planar waveguides, absorption and material dispersion effects, polarization, birefringence, spatial and temporal coherence. Components in fiber optic networks: directional couplers, power splitters, tunable filters and diffraction gratings. Prerequisite: ECE 6020.

ECE 6770. Applied Magnetism. 3 Credits.

Classification of magnetic materials. Magnetic measurements. Soft and hard magnetic materials. Applications to microwave, magnetic recording, permanent magnets, magneto-optics, magnetostrictive devices. Magnetic sensors. Electric power. Superconducting devices. Prerequisite: ECE 6020.

ECE 6800. Computational Techniques in Electrical Engineering. 3 Credits.

Introduction to linear algebra and vector spaces as applied to networks and electrical systems. Orthogonal bases, projections, and least squares. Fast Fourier transforms. Eigenvalues and eigenvectors with applications. Computations with matrices. Constrained optimization in electrical systems. Network models and applications. Prerequisite: ECE 2210, APSC 2114.

ECE 6810. Speech and Audio Processing by Computer. 3 Credits.

Acoustic sensor technologies and characteristics. Speech coding: waveform coding, voice source coding. Speech enhancement and noise reduction. Speech analysis and synthesis, audio formats and compression standards. Speech recognition: isolated word recognition, continuous speech recognition, language identification. Models for speech and audio. Prerequisite: graduate standing.

ECE 6815. Microarchitect/Multimedia Proc. 3 Credits.

Introduction to multimedia. Multimedia formats, conversion, and combinations. Delivery and trends. Servers and networks. Hardware and architecture. End-user devices. Digital libraries, video conferencing and collaboration. Educational and health applications. Case studies and trials. Prerequisite: ECE 6005.

ECE 6820. Real Time DSP. 3 Credits.

Digital signals, binary number representation, fixed-point and floating-point DSP architectures. Q-format for data representation, bit allocation and arithmetic. Portability of arithmetic expressions: floating point vs. fixed point. Applications to signal parameter estimation, signal generation, filtering, signal correlation, spectral estimation (FFT). Prerequisite: ECE 6005.

ECE 6825. Computer Control Systems. 3 Credits.

Analysis of automatic control systems in which the control procedure uses on-line digital computation. Topics include single- and multirate sampling, z-transforms, responses of discrete systems, stability criteria, and discrete control design. Prerequisite or concurrent registration: ECE 6010.

ECE 6830. System Optimization. 3 Credits.

Parameter optimization problems, theory of minima and maxima. Optimization problems for dynamic systems, calculus of variations, the maximum principle and the Hamilton-Jacobi equation. Optimization problems with constraints, optimal feedback systems. Numerical solution of optimal problems. Prerequisite: ECE 6010.

ECE 6835. Nonlinear Systems. 3 Credits.

Definition of linear and nonlinear systems; introduction to approximate analysis of nonlinear systems—describing functions, Krylov and Bogoliubov asymptotical method, and Tsytkin locus. Forced oscillations—jump resonance. Stability analysis—Liapunov criterion. Lur  problem and Popov method. Prerequisite: ECE 6010.

ECE 6840. Digital Image Processing. 3 Credits.

Properties of images and visual systems. Image acquisition, sampling, quantization. One- and two-dimensional image transform techniques; enhancement and restoration. Image coding and data compression. Segmentation, representation, boundary and shape, texture, matching. Image understanding. Prerequisite: ECE 6800.

ECE 6842. Image Engineering. 3 Credits.

Sensor/camera design and analysis as a system. Detection and noise processes underlying the sensing of optical radiation; the engineering and physics of image formation. Topics covered include radiometry/photometry, optics and image formation, device and camera characterization, and image quality metrics and system design trades. Prerequisites: ECE 6010, ECE 6015. (Fall, even years).

ECE 6845. Image Synthesis. 3 Credits.

Image synthesis techniques, mathematical image models, image reconstruction techniques, color texture synthesis, synthesis of three-dimensional scenes. Prerequisite: ECE 6015.

ECE 6850. Pattern Recognition. 3 Credits.

Random vectors, transformations. Hypothesis testing, error probability, sequential methods. Bayes, other linear classifiers. Discriminant functions, parameter estimation, learning, and dimensionality reduction. Nonparametric methods; clustering; feature selection and ordering. Computer applications and projects. Prerequisite: ECE 6015.

ECE 6855. Digital Signal Processing Techniques. 3 Credits.

Signal and system representation, sampling and quantization, transform techniques. Recursive and nonrecursive digital filter design, recursive estimation, linear predictive filtering. Fast algorithms for signal processing. Current topics. Prerequisite: ECE 3220 or ECE 6025, and ECE 6015.

ECE 6860. Compression Techniques for Data, Speech, and Video. 3 Credits.

Lossless and lossy coding theorems, rate distortion bound. Data compression algorithms: Huffman coding, run-length coding. Differential coding. Transform coding. Voice, audio, image and video coding techniques: CELP, JPEG, MPEG, MP3. Data coding standards: G.722, G.726, G.728, H.261, H.323. Prerequisite: ECE 6015, ECE 6025.

ECE 6865. Signal Detection & Estimation. 3 Credits.

Minimum variance unbiased estimation. Cramer-Rao bound, statistical modeling, sufficient statistics, maximum likelihood estimation, efficient estimators, least squares. Bayesian estimators. Wiener and Kalman filters, complex data and parameters. Applications to radar, speech, image, biomedicine, communications, control. Prerequisite: ECE 6010, ECE 6015, ECE 6025.

ECE 6875. Wavelets and Their Applications. 3 Credits.

Time-frequency analysis. Continuous, discrete, and discrete-time wavelet transform. Multirate filter banks. Multiband wavelets, two-dimensional wavelets. Wavelet packets and matching pursuit. Wavelets in noise filtering, compression, modeling of fractals, communications, detection, adaptive systems, neural networks, and fast computation. Prerequisite: ECE 6025, ECE 6855.

ECE 6880. Adaptive Signal Processing. 3 Credits.

Adaptation criteria. On-line adaptive filtering algorithms: least mean square and recursive least square. Adaptation in transform domain. Convergence of adaptive algorithms and tracking. Applications in system identification, adaptive channel equalization, interference cancellation and suppression, and adaptive antenna arrays. Blind deconvolution. Prerequisite: ECE 6865.

ECE 6885. Computer Vision. 3 Credits.

Image processing; edge detection, segmentation, local features, shape and region description in 2D and 3D. Insights from human vision studies. Representation for vision: object models, synthetic images, matching, gaps, algorithms. Interference, production system, syntactic networks. Planning spatial reasoning for robot vision. Prerequisite: CSCI 6511; ECE 6850.

ECE 6998. Thesis Research. 3 Credits.**ECE 6999. Thesis Research. 3 Credits.****ECE 8150. Advanced Topics in Computer Architecture. 3 Credits.**

Examples of topics are interconnection networks, fault tolerance, load balancing, workload characterization, and performance modeling of advanced computer systems. Prerequisite: ECE 6120, ECE 6125.

ECE 8999. Dissertation Research. 0-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

EMERGENCY HEALTH SERVICES (EHS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EHS 1002. CPR & First Aid. 1 Credit.

Development of the proper techniques of cardiopulmonary resuscitation and first aid. Nationally recognized certification provided.

EHS 1040. Emergency Medical Tech-Basic. 3 Credits.

EMT-Basic knowledge and skills. Includes basic life support, patient assessment, bleeding control, bandaging and splinting. Successful completion makes student eligible to sit for National Registry certification exam.

EHS 1041. EMT - Basic Lab. 1 Credit.

Application and practice of EMT-Basic skills.

EHS 1044. EMT-Basic Recertification. 3 Credits.

Prepares students to recertify as a National Registry EMT-Basic. Includes an "EMT Refresher" class and continuing education program. Laboratory fee.

EHS 1058. EMT Instructor Development. 2 Credits.

Students develop and deliver didactic and skill instruction. Students participate in the day-to-day teaching and management in an EMT-Basic program.

EHS 2104. Legal Aspects/Emergency Mgmt. 3 Credits.

Legal issues in the delivery of emergency medical services, including abandonment, malpractice, negligence, patient consent, the Freedom of Information and Privacy Acts, the Good Samaritan law, protocol deviation, record keeping, patient refusal of services, and medical control. Emergency medicine legislation and recent court decisions. Prerequisite: HSci 2103.

EHS 2107. Theory&Prac of Rsch/ClinclSetng. 4 Credits.

Fundamentals of clinical research methods, design, and analysis related to emergency medicine.

EHS 2108. Emergency Med Clinical Scribe. 3 Credits.

Fundamentals of emergency medicine clinical practice through documentation and management of clinical information. Students participate as members of an emergency medicine team and explore topics related to emergency health care, e.g., practical human anatomy, medical terminology, diagnosis, patient care, medical records, and practice management.

EHS 2109. Emerg.Infections&Bioterrorism. 3 Credits.

Principles of the epidemiology of outbreaks, the rise of emerging infectious diseases, and strategies for emergency preparedness from a national and international perspective that includes biosecurity.

EHS 2110. EmergDeptCritCareAsses&Proced.. 4 Credits.

Expansion of EMT-Basic knowledge and skills for independent performance as a hospital technician; emphasis on the Emergency Department and Intensive Care Units.

EHS 2160. Disastr Respnse Planng & Mgmt. 3 Credits.

Planning for and management of multiple-casualty incidents in the prehospital and hospital environment, including development of response plans, triage, medical evacuation procedures, communications, roles of government and the private sector, terrorism, and medical care for mass gatherings. Prerequisite: permission of program director.

EHS 2161. Medical Mgmt/Hasmat Incidents. 3 Credits.

Hazardous materials and their risks. Identification of hazardous materials and related problems, precautions in approaching the contaminated patient, protective clothing, decontamination, and management of selected hazards.

EHS 2162. Intro Princpls/Tactical Med. 4 Credits.

The basics of tactical emergency medicine, such as acute care in tactical combat situations and medical operations support of tactical teams.

EHS 2166. Current Topics. 1 Credit.

Review of the current literature to identify clinical, operational, educational, and administrative issues important in the leadership of EMS.

EHS 2174. Foundations of Emergency Health Services Systems. 3 Credits.

An overview of the design and operation of Emergency Health Services (EHS) systems, delivery of services, and the echelons of care. The history of Emergency Medical Services (EMS), the interface of public and private organizations and review of the various personnel who comprise these systems will be examined in relation to their impact on the health care delivery system.

EHS 2175. Community Risk Management and Safety in EHS. 3 Credits.

This course introduces the EHS professional to the benefits of community information and community relations. Students analyze strategies for introducing risk reduction programs and apply these concepts in the development of such programs.

EHS 2211. Intro to Telemedicine. 3 Credits.

An introduction to the ethical, legal, and technical aspects of telemedicine, including, but not limited to, emerging technologies, planning and operational considerations. Students will complete a number of practical exercises requiring direct application and utilization of Internet, video, audio, and other technologies.

EHS 4101. Humanitarian Relief Ops. 3 Credits.

An integrative approach to humanitarian relief operations, including factors that can influence relief delivery, field planning considerations, and the roles and limitations of non-governmental organizations, international organizations, local government, and various federal and civilian and military agencies. Emphasis on medical aspects of working with particular populations such as women, children, the elderly, and culturally underrepresented or persecuted population subsets.

EHS 4110. Operations Mgt in EHS Systems. 3 Credits.

This course applies principles of general management that contribute to the effectiveness of day to day operations within an Emergency Health Services Organization.

EHS 4111. Leadership Concepts in EHS. 3 Credits.

This course is designed to provide a basic introduction to leadership by focusing on what it means to be a good leader. Emphasis in the course is on the practice of leadership in the Emergency Health Services setting. The course will examine topics such as: the nature of leadership, recognizing leadership traits, developing leadership skills, creating a vision, setting the tone, listening to out-group members, handling conflict, overcoming obstacles, and addressing ethics in leadership. The course provides a special focus on facilitating students' understanding of their own leadership vision.

EHS 4112. Special Ops and Disaster Mgt. 3 Credits.

This course is an introduction to Emergency Health Services (EHS) Special Operations. The student will develop and apply a general understanding of what constitutes special operations and resources needed to mitigate special operations incidents, both small and large, in the 21st century. The student will be able to evaluate local special operations incidents, major multi-agency operations, scheduled and unscheduled mass casualty events, terrorism and natural disaster.

EHS 4144. Seminar in EHS Leadership. 3 Credits.

A senior capstone course, integrating the theories and concepts covered in previous work, with a focus on the identification and resolution of problems and opportunities encountered by the health sciences manager. To be taken in the final semester of study or with the program director approval.

EHS 4197. Clinical Internship. 1-6 Credits.

EHS 4198. Administrative Internship. 1-12 Credits.

EHS 4199. Independent Study. 1-3 Credits.

EHS 6201. Response /High Impact Emergenc. 3 Credits.

Strategies for an effective response to large-scale and high-impact emergencies examined as the managerial foundation for development of a response policy.

EHS 6203. Legal&RegltryOblig/Emer Svcs. 3 Credits.

Laws, regulations, and standards pertaining to emergency services. Implications for organizational policy and response requirements for executives, managers, and supervisors.

EHS 6204. Publ Info Mgt fr Emergency Svcs. 3 Credits.

Public information management for emergency services executives, managers, and supervisors.

EHS 6205. Strategic Emergency Response. 3 Credits.

Strategic analysis of counterterrorism response requirements for the emergency service organization. Determination of vulnerabilities and trends; development of operational doctrine.

EHS 6210. EMS Systems Design and Analysis. 3 Credits.

System design characteristics of high-performance EMS systems based on excellence in emergency care, response-time reliability, economic efficiency, and customer service from a strategic perspective.

EHS 6211. Innovations in Telemedicine. 3 Credits.

Consideration of telemedicine in a multidisciplinary format toward innovation and entrepreneurship in the fields of medicine, public health, engineering, and business.

EHS 6227. Intro to Human Health in Space. 3 Credits.

Introduction of aerospace concepts in an interdisciplinary context for those interested in human spaceflight. Elements of physiology, medicine, law, policy, engineering, and history are incorporated.

EHS 6274. Health Economics and Finance. 3 Credits.

Issues of health care economics, financial management, and budgeting that relate to managerial decision making. Applied financial management, management control systems, budgeting, staffing, and cost accounting. (Same as CML 6274).

EHS 6275. Ldrshp&Change/EmergSvcsMgt. 3 Credits.

The concept of leadership within the context of health professions, health systems, and health policy.

ENGINEERING MANAGEMENT AND SYSTEMS ENGINEERING (EMSE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EMSE 1001. Introduction to Systems Engineering. 1 Credit.

An introduction to core concepts in systems engineering. Exploration of the processes of system decomposition and integration through a sequence of participatory activities; demonstration of the value of upfront conceptual design, rapid prototyping, structured testing, balanced work, lean processes, and design for manufacturability. (Fall).

EMSE 2705. Mathematics in Operations Research. 3 Credits.

Mathematical foundations of optimization theory; linear algebra, advanced calculus, convexity theory. Geometrical interpretations and use of software. Prerequisite: MATH 2233.

EMSE 2801. Fundamentals of Systems Engineering. 3 Credits.

General introduction to systems engineering processes applied to designing, building, and operating complex engineering systems. Case studies and methodologies used for government and industry projects.

EMSE 3701. Operations Research Methods. 3 Credits.

Deterministic and stochastic methods. Optimization algorithms: Simplex method, Branch and Bound, combinatorial algorithms, heuristic methods. Optimization theory: convexity, duality, sensitivity analysis. Stochastic optimization: marginal analysis, Markov chains, Markov decision processes. Prerequisite: APSC 3115 and EMSE 2705, or permission of instructor.

EMSE 3740W. Sys Thinking/Policy Modeling. 3 Credits.

EMSE 3760. Discrete Systems Simulation. 3 Credits.

Simulation of discrete stochastic models. Simulation languages. Random-number/random-variate generation. Statistical design and analysis of experiments, terminating/nonterminating simulations; comparison of system designs. Input distributions, variance reduction, validation of models. Prerequisite: APSC 3115; CSCI 1121, CSCI 1041, or CSCI 1111; or permission of instructor.

EMSE 3815. Requirements Analysis and Elicitation. 3 Credits.

The process of translating and decomposing systems engineering objectives into measurable and tractable requirements. How requirements analysis supports general processes and standards through elicitation methods, requirements decomposition, traceability matrices, and systems requirements specifications.

EMSE 3850. Quantitative Models in Systems Engineering. 3 Credits.

Quantitative modeling techniques and their application to decision making in systems engineering. Linear, integer, and nonlinear optimization models. Stochastic models: inventory control, queuing systems, and regression analysis. Elements of Monte Carlo and discrete event system simulation. Prerequisite: APSC 3115.

EMSE 3855W. Critical Infrastruct. Systems. 3 Credits.

EMSE 4190. Senior Project in Systems Engineering I. 3 Credits.

First phase of a two-semester senior project experience in systems engineering that involves identifying real world problems and assessing applicable systems engineering methodologies. Topics vary, but often relate to DC-area problems in public infrastructure or the private sector, including transportation, energy, environment, healthcare, telecommunications. Activities may involve site visits to operations facilities, interviews with engineering managers and policy makers. By the end of fall semester students must complete 1) an systems engineering team project using the systems methods acquired in their prior coursework, 2) an individual research literature review which complements their assigned team project. This initial project experience will be the foundation for their final project in the spring semester of their senior year.

EMSE 4191. Senior Project in Systems Engineering II. 3 Credits.

Field experience in systems engineering on a team basis. Each small group confronts an actual problem and formulates a solution using systems engineering methods and models. Oral and written reports. Prerequisite or corequisite: EMSE 4710, EMSE 4765, EMSE 3760, EMSE 4755.

EMSE 4197. Special Topics. 0-3 Credits.

May be repeated for credit provided the topic differs.

EMSE 4198. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

EMSE 4410. Survey of Finance and Engineering Economics. 3 Credits.

Survey of material relevant to financial decision-making for engineering activity. Includes traditional engineering economy topics; fundamentals of accounting; and financial planning, budgeting, and estimating applicable to the management of technical organizations.

EMSE 4710. Applied Optimization Modeling. 3 Credits.

Analysis of linear, integer, and nonlinear optimization models of decision problems that arise in industry, business, and government. Modeling techniques and applications; use of optimization software to solve models. Prerequisite: EMSE 3850 or permission of instructor.

EMSE 4755. Quality Control and Acceptance Sampling. 3 Credits.

Statistical approaches to quality assurance. Single and multivariate control charts, acceptance sampling by attributes and variables, process capability and design of experiments. Prerequisite: APSC 3115 or permission of instructor.

EMSE 4765. Data Analysis for Engineers and Scientists. 3 Credits.

Design of experiments and data collection. Regression, correlation, and prediction. Multivariate analysis, data pooling, and data compression. Model validation. Prerequisite: APSC 3115.

EMSE 4770. Techniques of Risk Analysis and Management. 3 Credits.

Topics and models in current risk analysis. Use of quantitative and qualitative methods in risk analysis. Modern applications of risk based planning and risk management. Restricted to Restricted to undergraduates majoring in Systems Engineering. Exceptions may be permitted with the permission of the instructor. Prerequisites: APSC 3115. (Spring).

EMSE 6001. The Management of Technical Organizations. 3 Credits.

The practice of management as applied within technical organizations. Includes history of the tradition and current effective practices, research findings, and case studies, with objectives of enhanced understanding of external and internal factors influencing organizational performance and leadership requirements. (Fall, spring, and summer).

EMSE 6005. Organizational Behavior for the Engineering Manager. 3 Credits.

The behavior of individuals and groups in the context of technical organizations, focusing on relationships and interactions within the organization's operating activities. Individual and group development and motivation. Organizational structures and cultures. (Fall and spring).

EMSE 6014. Management of Engineering Contracts. 3 Credits.

Study of the total contracting process (including initial budget preparation and justification, execution of a contract, and administration of the contract to completion) considered from the viewpoints of the industrial and government buyer and the seller of technical materials and services. (Fall).

EMSE 6018. Engineering Law. 3 Credits.

Legal principles and procedures of interest to engineers. The American legal system, contracts and specifications, liability of professional engineers, product liability, agency relationships, patent and proprietary rights, special problems in research and development contracts. (As required).

EMSE 6020. Decision Making with Uncertainty. 3 Credits.

Problem formulation. Concepts and techniques used in analyzing complex decision problems. Modeling decision problems using decision trees, probability models, multi-objective models and utility theory. (Fall, spring, and summer).

EMSE 6023. Technology Issue Analysis. 3 Credits.

Contextual background and intellectual basis for addressing technology issues in the public and private sectors. Technology impact assessment, forecasting, and innovation; principles and practices of technology transfer as elements of a systematic approach to making technology decisions. (Fall, odd years).

EMSE 6026. Technical Enterprises. 3 Credits.

Essential features of technology-based companies from the entrepreneur's point of view. Team preparation of a simulated business plan for a technology-based company. Designed for those working in technical firms and for government personnel who depend on technical firms as suppliers. (Spring, odd years).

EMSE 6030. Technological Forecasting and Management. 3 Credits.

Concepts and methods for understanding the dynamics of technological change. Issues in technology assessment, technology transfer, and strategic management of technology. (Spring, even years).

EMSE 6035. Marketing of Technology. 3 Credits.

Analysis of industrial marketing process and functions, providing concepts and tools for engineering managers to market high technology products and services. (Fall, odd years).

EMSE 6070. Management of Research and Development. 3 Credits.

Seminar on readings and classic and contemporary case studies in the strategic management of innovation and technology. (Fall and spring).

EMSE 6099. Problems in Engineering Management and Systems Engineering. 3 Credits.

Capstone project providing the opportunity to apply concepts and tools previously studied to the solution of a real-world problem. Students work in small groups, on a problem proposed by students and approved by the instructor. Open only to master's candidates in the department, preferably during the last semester of their program.

EMSE 6115. Uncertainty Analysis for Engineers. 3 Credits.

Basics of probability theory and statistics, with a focus on engineering applications, particularly in the realm of systems. Topics include simulation, uncertainty analysis, central limit theorem, systems examination and analysis, and application to systems design and management. Prerequisite: MATH 1231.

EMSE 6200. Policy Factors in Environmental and Energy Management. 3 Credits.

Exploration of the policy development process from several different but integrated perspectives. Focus on areas of environmental and energy management and use of current case studies to develop a framework of understanding to support decisions in a broad variety of management settings. (Fall, odd years).

EMSE 6220. Environmental Management. 3 Credits.

Technical, economic, political, administrative, and social forces influencing the quality of the environment and the use of resources. Government and industrial programs to combat pollution of the air, soil, and water; existing and pending pertinent legislation; theoretical aspects of specific management problems. (Fall).

EMSE 6225. Air Quality Management. 3 Credits.

The nature of critical local, regional, continental, and global problems associated with air pollution and the historical evolution of such problems. The complex regulatory and institutional framework controlling air quality management in the U.S. Current air quality management concepts and processes. (Spring).

EMSE 6230. Hazardous Waste Management and Cleanup. 3 Credits.

Hazardous waste management and cleanup processes used in the U.S. and around the world. The roles of the relevant federal, state, and local government agencies; major hazardous waste laws and regulations. Planning, assessment, investigation, design, and construction phases of hazardous waste remediation projects. (Spring, even years).

EMSE 6235. Water Quality Management. 3 Credits.

The nature of point and non-point sources of surface and ground water pollution and the statutory, regulatory, and institutional framework controlling water quality management activities in the U.S. Current approaches to water quality protection and enhancement. The role of engineered treatment processes in water quality management. (Fall).

EMSE 6240. Environmental Hazard Management. 3 Credits.

Geological, meteorological, radiological, chemical, and biological hazards facing the United States and international communities. Organizational responsibilities for hazard identification and risk management. Communication and perceptions of vulnerability and risk. Challenges to local governments and communities. (Spring, even years).

EMSE 6245. Analytical Tools for Environmental Management. 3 Credits.

A survey course in environmental management, focusing on tools to assess the environment: quantitative risk assessment, environmental valuation methodologies, Congressional activities, and environmental laws. The regulatory process as it relates to environmental management. Risk assessment and modeling approaches to solving environmental problems. (Spring, odd years).

EMSE 6260. Energy Management. 3 Credits.

Examination of the range of available energy resources, trends in their use, the programs and organizations that have developed and evolved to address problems associated with energy resource use. (Spring).

EMSE 6285. Analytical Tools for Energy Management. 3 Credits.

Analytical tools needed to manage energy resources at the facility level. Energy technologies: instrumentation, measurement, and control. Energy auditing; conservation techniques, financial and economic analysis, and maintenance of energy budgets. Functions of an energy management office of a large organization. (Fall, even years).

EMSE 6290. Climate Change: Policy, Impact. 3 Credits.

What is known and unknown in climate change science. Strategies and technologies for mitigation of and adaptation to the impact of climate change. International issues related to avoidance, challenges posed by as yet undefined effects, and responsibilities mandated by existing and proposed laws, executive orders, regulations, and court rulings. (Fall, odd years).

EMSE 6291. Greenhouse Gas Measurement and Reporting. 3 Credits.

Study of existing methodologies and standards for measuring and reporting greenhouse gas (GHG) emissions with particular emphasis on accepted environmental accounting frameworks for the business sector and regulatory schemes. (Spring, even years).

EMSE 6292. Greenhouse Gas Mitigation. 3 Credits.

Conducting mitigation analyses, identifying, and analyzing projects to reduce greenhouse gas emissions with a focus on energy efficiency and renewable energy. Monitoring and reporting emission reductions using accepted methodologies. Use of carbon markets as a tool for cost-effective mitigation. (Fall, even years).

EMSE 6293. Greenhouse Gas Management Assurance and Information Systems Design. 3 Credits.

Design of information systems for management of greenhouse gas emissions. Assurance of greenhouse gas emissions assertions. (Spring, odd years).

EMSE 6295. Environmental Security. 3 Credits.

Overview of potential terrorist attack vectors on government-owned and private sector assets most directly tied to environmental health and safety. Homeland security requirements for environmental infrastructure, water supplies, energy sources, nuclear waste, and other programs vulnerable to targeting. Courses of action designed to prevent attacks. (Fall).

EMSE 6300. Homeland Security: The National Challenge. 3 Credits.

The evolution of homeland security as a concept, legal framework, and redirection of national policies and priorities. Issues and problems of implementation. The terrorist threat and U.S. responses. Fundamental policy legislation and documents, such as national security strategies, homeland security decision directives, the NRF, and NIMS. (Spring).

EMSE 6305. Crisis and Emergency Management. 3 Credits.

Defining crises, emergencies, and disasters. Developing crisis, business continuity, and incident management plans. The National Response Framework, National Incident Management System, organizing for response, managing the response organization, managing in a turbulent environment, crisis decision making and communication. (Fall).

EMSE 6310. Information Technology in Crisis and Emergency Management. 3 Credits.

The role of information in crisis and response management; determining disaster and crisis information requirements; information technologies applied to crisis, disaster, and emergency management; causes and effects of information breakdowns during crises and disasters.

EMSE 6315. Management of Risk and Vulnerability for Hazards and Terrorism. 3 Credits.

Development of concepts required for risk-based planning and risk management. Objectives and methods for vulnerability assessment for natural disaster, technological hazards, and terrorist threats. Risk analysis, risk perception, risk communication, risk mitigation. (Fall).

EMSE 6320. International Disaster Management. 3 Credits.

Guiding principles, key institutions, operational requirements, policy issues, and broad fundamentals associated with international disaster risk reduction and humanitarian response to natural and man-made disasters and complex emergencies. (Fall).

EMSE 6325. Medical and Public Health Emergency Management. 3 Credits.

Medical and public health management issues encountered in crises, emergencies, and disasters for non-medical emergency managers. The spectrum of medical, public health, psychological and behavioral problems; incident management organization and processes that address these concerns and integrate medical and public health assets into the response. (Spring).

EMSE 6330. Management of Terrorism Preparedness and Response. 3 Credits.

Terrorism, terrorist methods, and human/infrastructure vulnerability. Current preparedness and response programs. Mitigation, preparedness, and response requirements to manage mass terrorism incidents within the context of all-hazard emergency management. Case studies. (Fall).

EMSE 6345. Disaster Recovery and Organizational Continuity. 3 Credits.

Disaster recovery planning and business continuity. Recovery of information and communication systems. The role of the private sector in mitigation and recovery. Public/private partnerships in community reconstruction and recovery. (Spring).

EMSE 6350. Hazard Mitigation in Disaster Management. 3 Credits.

Hazard mitigation and its role in disaster management; analysis of past and current government and private-sector programs; examination of new approaches; structural versus nonstructural actions; mitigation of terrorist attacks. (Fall).

EMSE 6410. Survey of Finance and Engineering Economics. 3 Credits.

Survey of material relevant to financial decision making for engineering activity. Includes traditional engineering economy topics; fundamentals of accounting; and financial planning, budgeting, and estimating applicable to the management of technical organizations. (Fall, spring, and summer).

EMSE 6420. Economic Analysis in Engineering Planning. 3 Credits.

Case studies in engineering economic analysis, capital budgeting, benefit-cost analysis, and other cost-related methodologies relevant to engineering managers.

Prerequisite: EMSE 6410 or permission of instructor.

EMSE 6430. Finance for Engineers. 3 Credits.

Financial analysis and concepts useful to engineers: sources and uses of funds, management of working capital, leverage, valuation, forecasting, investment decisions. Prerequisite: EMSE 6410.

EMSE 6450. Quantitative Methods in Cost Engineering. 3 Credits.

Fitting exponential growth curves using cost data for forecasting; multiperiod capital budgeting using the analytical hierarchy process and optimization; and project network risk analysis. Case studies highlight theoretical complexities in solving problems. (Spring).

EMSE 6505. Knowledge Management I. 3 Credits.

The foundations of knowledge management, including cultural issues, technology applications, organizational concepts and processes, management aspects, and decision support systems. Case studies. (Fall).

EMSE 6506. Knowledge Management II. 3 Credits.

A capstone course. Students work in teams, applying principles and processes of systems thinking, systems engineering, and integrative management in the design and implementation of a knowledge management system. Prerequisite: EMSE 6505.

EMSE 6510. Decision Support Systems and Models. 3 Credits.

Theory of decision making—a cognitive view. Modeling decision maker heuristics and processes. Design, implementation, and evaluation of state-of-the-art DSS (hands-on). Assess impact of behavioral, situational, and organizational variables. (Fall).

EMSE 6537. Information Operations. 3 Credits.

National security concerns of governments and business about attacks across national borders and through physical protective mechanisms. The emergence of information technologies, from casual to full-fledged operational scale, to advance causes. Specific examples (e.g., attacks on Estonia, Palestinian conflict). (On demand).

EMSE 6540. Management of Information and Systems Security. 3 Credits.

Development and management of effective security systems. Includes information, personnel, and physical security.

Emphasis on risk analysis for information protection. (Fall and summer).

EMSE 6543. Managing the Protection of Information Assets and Systems. 3 Credits.

Advanced topics in protection of information assets and systems, including authentication, asset control, security models and kernels, physical security, personnel security, operational security, administrative security, security configuration management, and resource control. Prerequisite: EMSE 6540.

EMSE 6544. Auditing, Monitoring, and Intrusion Detection for Information Security Managers. 3 Credits.

Methods for detecting problems with unauthorized activity in information systems and management challenges associated with those activities. Prerequisite: EMSE 6540.

EMSE 6545. Internet and On-Line Law for Security Managers. 3 Credits.

Legal issues regarding control of behavior, information security mechanisms, and information systems engineering in connected enterprises. Specific laws and regulations governing Internet and on-line activity, jurisdictional challenges associated with networked computing, and business law in cyberspace.

EMSE 6546. Cybercrime for Info Secur Mgrs. 3 Credits.

Legal issues regarding information security actions related to and in response to criminal activity, including industrial espionage, back-hacking, cracking, and cyberterrorism. Transnational issues, cybercrime treaties and conventions, and cyberwar issues. Prerequisite: EMSE 6545.

EMSE 6549. Business and Competitive Intelligence. 3 Credits.

Discovery and analysis of competitive information from open-source intelligence. Sources and methods for data collection; legal issues and constraints; analysis processes; longitudinal aspects; inference. (Spring).

EMSE 6570. Information Management and Information Systems. 3 Credits.

The use of information in organizations, the management of the information resource; the impact of information and communication technology. (Spring).

EMSE 6573. Managing E-Commerce Technologies. 3 Credits.

Principles of good e-business management. Methods of conducting e-commerce—major opportunities, limitations, issues, and risks. Popular technologies for building e-businesses, security authentication, privacy, acceptable use policies, and legal limits. (Fall, odd years).

EMSE 6579. Applied Data Mining in Engineering Management. 3 Credits.

Methods and techniques for discovering patterns and relationships in aggregated data, with practical focus on engineering problems. Tools, techniques, and methods explored in the context of their application. Prerequisite: EMSE 6020, EMSE 6586.

EMSE 6580. Information and Software Engineering. 3 Credits.

Introduction to analysis and design of information systems including requirements analysis, project management, and software architectures. Introduction to CASE tools. Prerequisite: EMSE 6570 or permission of instructor.

EMSE 6582. Object-Oriented Analysis and Design. 3 Credits.

The object-relationship model and the object-behavior model. Managing complexity with views and high-level modeling in object-oriented systems analysis. The concepts, the method, and applications, including object-based and object-oriented languages. Prerequisite: EMSE 6580.

EMSE 6584. Fundamentals of Artificial Intelligence. 3 Credits.

History of AI, expert systems, knowledge representation, search and control techniques, natural language processing, computer vision, computer speech, knowledge-based systems, and evidential reasoning. Hands-on experience with a knowledge-based shell. (Spring).

EMSE 6586. Database Design and Database Management Systems. 3 Credits.

Concepts, strategies, and features of database design and management. Analysis, design, and implementation of database systems for micro and mainframe applications. Development of a microcomputer database system. (Spring).

EMSE 6588. Software Project Development with CASE. 3 Credits.

Evaluation and selection of CASE tools, use of CASE tools in software design/project. Graphical user interface and re-engineering tools. Open only to master's candidates in the department during the last semester of their program. Prerequisite: EMSE 6580.

EMSE 6589. Data Communications and Networks. 3 Credits.

Technical and managerial aspects of data communications, with emphasis on communication networks. Methodologies used in data communications, communication networks, and distributed data processing. (On demand).

EMSE 6701. Operations Research Methods. 3 Credits.

Deterministic and stochastic methods. Optimization algorithms: Simplex method, Branch and Bound, combinatorial algorithms, heuristic methods. Optimization theory: convexity, duality, sensitivity analysis. Stochastic optimization: marginal analysis, Markov chains, Markov decision processes. Prerequisite: APSC 3115 or EMSE 6020, MATH 2233, or permission of instructor.

EMSE 6705. Mathematics in Operations Research. 3 Credits.

Mathematical foundations of optimization theory: linear algebra, advanced calculus, convexity theory. Geometrical interpretations and use of software. Prerequisite: MATH 2233.

EMSE 6710. Applied Optimization Modeling. 3 Credits.

Analysis of linear, integer, and nonlinear optimization models of decision problems that arise in industry, business, and government. Modeling techniques and applications; use of optimization software to solve models. Prerequisite: EMSE 6850 or permission of instructor.

EMSE 6715. Theory of Games. 3 Credits.

Mathematical models of conflict and cooperation with applications in economics, business, defense, transportation, and societal issues (voting schemes, fair division, auctions). Concept and computation of equilibrium in n-person games. Prerequisite: MATH 2233 or permission of instructor.

EMSE 6720. Topics in Optimization. 3 Credits.

Selected topics from the fields of linear programming, nonlinear programming, dynamic programming, heuristics, and constraint programming. May be repeated for credit provided the topic differs. Prerequisite: EMSE 6701 or permission of instructor.

EMSE 6730. Integer and Network Programming. 3 Credits.

Combinatorial optimization problems: algorithms and applications. Network problems: minimum spanning tree, shortest path, maximum flows, minimum cost flows, optimal matchings, routing problems. Complexity theory. Enumeration and cutting plane methods for solving integer programs. Prerequisite: EMSE 6701 or permission of instructor.

EMSE 6740. Systems Thinking and Policy Modeling I. 3 Credits.

Introduction to systems thinking and the system dynamics approach to policy analysis, with applications to business management and public policy. Causal-loop and stock and flow models of business growth, technology adoption, and marketing. Use of role-based games to explain key principles of systems. Use of simulation software to model problems and case studies.

EMSE 6745. Systems Thinking and Policy Modeling II. 3 Credits.

Case studies in dynamic policy analysis. Use of microcomputers in simulation. The class collectively models and simulates a social system to explore policy options. Prerequisite: EMSE 6740.

EMSE 6750. Stochastic Foundations of Operations Research. 3 Credits.

Topics in probability theory, stochastic processes, and statistical inference. Foundations of probability, conditional probability and expectation, Poisson processes, Markov chains, and Brownian motion. Prerequisite: APSC 3116 or permission of instructor.

EMSE 6755. Quality Control and Acceptance Sampling. 3 Credits.

Statistical approaches to quality assurance. Single and multivariate control charts, acceptance sampling by attributes and variables, process capability and design of experiments. Prerequisite: APSC 3115 or permission of instructor.

EMSE 6760. Discrete Systems Simulation. 3 Credits.

Simulation of discrete stochastic models. Simulation languages. Random-number/ random-variate generation. Statistical design and analysis of experiments, terminating/nonterminating simulations; comparison of system designs. Input distributions, variance reduction, validation of models. Same as STAT 4173. Prerequisite: APSC 3115; CSCI 1121, CSCI 1041, or CSCI 1111; or permission of instructor.

EMSE 6765. Data Analysis for Engineers and Scientists. 3 Credits.

Design of experiments and data collection. Regression, correlation, and prediction. Multivariate analysis, data pooling, data compression. Model validation. Prerequisite: APSC 3115.

EMSE 6770. Techniques of Risk Analysis and Management. 3 Credits.

Topics and models in current risk analysis; modern applications of risk-based planning and risk management; use of quantitative methods in risk analysis. (Spring).

EMSE 6790. Logistics Planning. 3 Credits.

Quantitative methods in model building for logistics systems, including organization, procurement, transportation, inventory, maintenance, and their interrelationships. Stresses applications. Prerequisite: APSC 3115, MATH 1232.

EMSE 6801. Systems Engineering I. 3 Credits.

Systems approach to the architecting and engineering of large-scale systems; elements of systems engineering; methods and standards; computer tools that support systems and software engineering; trends and directions; the integrative nature of systems engineering. (Fall, spring, and summer).

EMSE 6805. Systems Engineering II. 3 Credits.

Application of systems engineering tools to provide hands-on experience with essential elements of practice. Processes of requirements engineering, functional analysis and allocation, risk management, architecting; architectural heuristics, axiomatic design, analytical assessment of alternative architectures. Prerequisite: EMSE 6801.

EMSE 6807. Advanced Systems Engineering. 3 Credits.

Analysis of advanced systems engineering topics: system lifecycle models, INCOSE Vision 2025, requirements types and processes, architectural design processes and frameworks, DoDAF artifacts, enterprise architecture and enterprise systems engineering, complex adaptive systems (CAS), modeling languages and SysML, Model Based Systems Engineering (MBSE). Readings from professional journals. Applications of systems engineering tools and techniques; course project. (Fall, spring, and summer).

EMSE 6810. Systems Analysis and Management. 3 Credits.

The systems or holistic approach as a methodology for making decisions and allocating resources. Analysis by means of objectives, alternatives, models, criteria, and feedback. Prerequisite: EMSE 6020.

EMSE 6815. Requirements Engineering. 3 Credits.

Requirements in systems engineering, including requirement types, quality factors, elicitation methods, analysis, derivation of implicit requirements, management, traceability, verification, cross-requirement assessments, and validation. Focus on writing and managing quality requirements in complex systems. Prerequisite: EMSE 6801.

EMSE 6820. Program and Project Management. 3 Credits.

Problems in managing projects; project management as planning, organizing, directing, and monitoring; project and corporate organizations; duties and responsibilities; the project plan; schedule, cost, earned-value and situation analysis; leadership; team building; conflict management; meetings, presentations, and proposals. (Fall).

EMSE 6825. Project Cost and Quality Management. 3 Credits.

Developing project cost and resource estimates during the planning stages. Monitoring, forecasting, and controlling cost throughout the project life cycle. Project quality planning, assurance, and control. Relationships among project scope, time, cost, quality, human resources, communications, procurement, and risk. Preparation for the Project Management Professional examination. Prerequisite: EMSE 6820.

EMSE 6830. Human Factors Engineering. 3 Credits.

Study of the human-machine interface applied to system design, job design, and technology management. Human sensory-motor, perceptual, and cognitive functions; task analysis and allocation; contextual aspects of human factors engineering. Modeling, design, and evaluation methodologies. Applications to user-centered industrial and information systems. (As required).

EMSE 6840. Applied Enterprise Systems Engineering. 3 Credits.

Applications of systems engineering in the DoD, other parts of the federal government, and commercial sectors. Architectural frameworks and enterprise architecting concepts and practices, including JCIDS/DODAF, Federal Enterprise Architecture Framework, and Zachman™ Framework. Enterprise architecting and advanced modeling tools. Prerequisite: EMSE 6805.

EMSE 6850. Quantitative Models in Systems Engineering. 3 Credits.

Quantitative modeling techniques and their application to decision making in systems engineering. Linear, integer, and nonlinear optimization models. Stochastic models: inventory control, queuing systems, and regression analysis. Elements of Monte Carlo and discrete event system simulation. Prerequisite: APSC 3115 or EMSE 6020.

EMSE 6855. Reliability Analysis and Infrastructure Systems. 3 Credits.

Modeling basic variables and defining the limit-state surface. Computing the reliability index of an infrastructure system by approximating the limit-state surface—FORM and SORM. Modeling an infrastructure system. Reliability analysis using branch and bound, failure paths and failure modes, identification of dominant failure paths. Case studies. (Fall).

EMSE 6991. Project for Professional Degree. 3 Credits.

Limited to students in the Applied Scientist or Engineer degree program.

EMSE 6992. Special Topics. 3 Credits.

Selected topics in engineering management and systems engineering, as arranged. May be repeated for credit. Prerequisite: permission of instructor.

EMSE 6995. Research. 1-12 Credits.

Basic or applied research in engineering management or systems engineering. Open to master's degree candidates in the department. May be repeated for credit.

EMSE 6997. Advanced Topics in Operations Research. 3 Credits.

Advanced topics from the literature of operations research for analysis, presentation, and discussion. Reading assignments from professional journals selected by the instructor and the student. May be repeated for credit. Prerequisite: permission of instructor.

EMSE 6998. Thesis Research. 3 Credits.

EMSE 6999. Thesis Research. 3 Credits.

EMSE 8000. Research Methods for the Engineering Manager. 3 Credits.

Advanced course in research, experimental, and statistical methods for engineering management. Restricted to EMSE Ph.D. students. Prerequisite: EMSE 6020 or permission of instructor.

EMSE 8001. Research Methods for Engineering Management and Systems Engineering. 3 Credits.

Second in a two-course sequence introducing doctoral students to the fundamentals of research design and methods. Introduction to a range of research methods relevant to the study of engineering management and systems engineering, reading, writing, and critiquing the elements of a research proposal. Prerequisite: EMSE 8000. Restricted to Doctor of Engineering in the Field of Engineering Management degree candidates. (Fall).

EMSE 8010. Advanced Topics in Optimization. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisite: EMSE 6701, EMSE 6705 or permission of instructor.

EMSE 8020. Advanced Stochastic Models in Operations Research. 3 Credits.

Applied probability models, including the Poisson process, continuous-time, denumerable-state Markov processes, renewal theory, semi-Markov regenerative processes. Applications to queues, inventories, and other operations research systems. Prerequisite: permission of instructor.

EMSE 8998. Adv Reading & Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

EMSE 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

ENGLISH (ENGL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ENGL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details.

ENGL 1050. Introduction to Literary Studies. 3 Credits.

How to read and interpret literature at the college level and beyond. Close readings of poetry, fiction, and drama, emphasizing genre and form.

ENGL 1210. Introduction to Creative Writing. 3 Credits.

An exploration of genres of creative writing (fiction, poetry, and/or playwriting). Basic problems and techniques; examples of modern approaches; weekly writing assignments; workshop and/or conference discussion of student writing.

ENGL 1305. Colonial/Post-Colonial British Literature. 3 Credits.

ENGL 1315. Literature and the Financial Imagination. 3 Credits.

Literary studies focused broadly on representations of business, finance, or commerce; the economics of literary production; and/or theories of economic class as they pertain to literary works. Topic, genre, and time period vary by instructor.

ENGL 1320. Literature of the Americas. 3 Credits.

American literature considered in a transhemispheric framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe.

ENGL 1320W. Literature of the Americas. 3 Credits.

American literature considered in a transhemispheric framework as writing that probes and spans the boundaries of the nation, connecting the United States to the rest of the Americas and to other parts of the globe.

ENGL 1330. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor.

ENGL 1330W. Myths of Britain. 3 Credits.

Why much great English literature turns out not to be so English after all. The literature of the island within a transnational frame. Readings generally range from Beowulf to Arthurian myths to Shakespeare. Topic, genre, and time period vary by instructor.

ENGL 1340. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world?.

ENGL 1340W. Essential Shakespeare. 3 Credits.

Links between Shakespeare's geographical and theatrical "Globes." How did Shakespeare and his company represent racial, cultural, and linguistic difference in the Globe? What place did they imagine for England and Europe in this newly globalized world?.

ENGL 1351. Shakespeare Seminar. 3 Credits.

Seminar course for first-year students in the Dean's Scholars in Shakespeare Program. Literary study of Shakespeare's poems and plays along with those of his contemporaries. Topic, genre, and time period vary by instructor.

ENGL 1410. Introduction to English Literature I. 3 Credits.

Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. Middle Ages through the 18th century.

ENGL 1410W. Introduction to English Literature I. 3 Credits.

Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. Middle Ages through the 18th century.

ENGL 1411. Introduction to English Literature II. 3 Credits.

Continuation of ENGL 1410. Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. 19th and 20th centuries.

ENGL 1411W. Introduction to English Literature II. 3 Credits.

Continuation of ENGL 1410. Representative works by major British authors studied in their historical context; discussion of recurrent themes and introduction to various types and forms of imaginative literature. 19th and 20th centuries.

ENGL 1510. Introduction to American Literature I. 3 Credits.

Historical survey. From early American writing through Melville, Whitman, and Dickinson.

ENGL 1510W. Introduction to American Literature I. 3 Credits.

Historical survey. From early American writing through Melville, Whitman, and Dickinson.

ENGL 1511. Introduction to American Literature II. 3 Credits.

Continuation of ENGL 1510. Historical survey. From Twain, James, and Crane to the present.

ENGL 1511W. Introduction to American Literature II. 3 Credits.

Continuation of ENGL 1510. Historical survey. From Twain, James, and Crane to the present.

ENGL 1610. Introduction to Black American Literature I. 3 Credits.

Survey of several genres of African American literature. From the 18th through the late 19th centuries, in such cultural contexts as the developing concept of "race."

ENGL 1610W. Introduction to Black American Literature I. 3 Credits.

Survey of several genres of African American literature. From the 18th through the late 19th centuries, in such cultural contexts as the developing concept of "race."

ENGL 1611. Introduction to Black American Literature II. 3 Credits.

Continuation of ENGL 1610. Survey of several genres of African American literature. From the early 20th century to the present day, in such cultural contexts as the "new Negro" Renaissance and the civil rights and Black Power movements.

ENGL 1611W. Introduction to Black American Literature II. 3 Credits.

Continuation of ENGL 1610. Survey of several genres of African American literature. From the early 20th century to the present day, in such cultural contexts as the "new Negro" Renaissance and the civil rights and Black Power movements.

ENGL 1710. Introduction to Postcolonial Literature and Film I. 3 Credits.

Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

ENGL 1710W. Introduction to Postcolonial Literature and Film I. 3 Credits.

Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

ENGL 1711. Introduction to Postcolonial Literature and Film II. 3 Credits.

Continuation of ENGL 1710. Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

ENGL 1711W. Introduction to Postcolonial Literature and Film II. 3 Credits.

Continuation of ENGL 1710. Introduction to postcolonial literature from the perspectives of colonizer and colonized in Great Britain, India, Pakistan, Bangladesh, Sri Lanka, Australia, New Zealand, Canada, Anglophone Africa, and the Caribbean region; literature written on the wing, in diaspora.

ENGL 1830. Tragedy. 3 Credits.

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett.

ENGL 1830W. Tragedy. 3 Credits.

Modes of tragedy as developed in drama, nondramatic verse, and prose fiction in literature from ancient to modern times—Book of Job to Beckett.

ENGL 1840. Comedy. 3 Credits.

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges.

ENGL 1840W. Comedy. 3 Credits.

Modes of comedy as developed in drama, nondramatic verse, and prose fiction—Chaucer to Borges.

ENGL 2210. Techniques in Creative Writing. 3 Credits.

The craft and technique of creative writing and/or theories of creative writing. Topics vary by semester. Consult the Schedule of Classes for more information.

ENGL 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as TRDA 2240.

ENGL 2250. Dramatic Writing. 3 Credits.

A workshop in playwriting and screenwriting, with emphasis on dramatic structure. Same as TRDA 2250. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2460. Fiction Writing. 3 Credits.

The writing of fiction. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2470. Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2560. Intermediate Fiction Writing. 3 Credits.

The writing of fiction. Prerequisite: ENGL 2460 .

ENGL 2570. Intermediate Poetry Writing. 3 Credits.

The writing of poetry. Recommended preparation: ENGL 1210 and two semesters of literature courses.

ENGL 2800. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies.

ENGL 2800W. Introduction to Critical Theory. 3 Credits.

Topics and techniques of literary and cultural analysis. Introduction to major schools of critical theory, including psychoanalysis, Marxism, feminism, queer theory, and disability studies.

ENGL 3240. Introduction to Dramaturgy. 3 Credits.

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as TRDA 3240.

ENGL 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as TRDA 3250. Prerequisite: ENGL 2250 . May be repeated for credit with departmental approval.

ENGL 3360. Advanced Fiction Writing. 3 Credits.

Further workshop study of the writing of fiction. Prerequisite: ENGL 2560 . May be repeated for credit with departmental approval.

ENGL 3370. Advanced Poetry Writing. 3 Credits.

Further workshop study of the writing of poetry. Prerequisite: ENGL 2570 . May be repeated for credit with departmental approval.

ENGL 3380. Creative Writing Workshop. 3 Credits.

Taught by the Jenny McKean Moore Writer in Washington; for undergraduates and graduate students. May be repeated for credit if taught by a different instructor. Prerequisites: One of the following upper-level creative writing courses: ENGL 2210, ENGL 2240, ENGL 2250, ENGL 2460, ENGL 2470, ENGL 2560, ENGL 2570, ENGL 3210, ENGL 3240, ENGL 3250, ENGL 3360, ENGL 3370, or ENGL 3390.

ENGL 3390. Topics in Creative Writing. 3 Credits.

Topics announced prior to the registration period; may be repeated for credit provided the topic differs. Topics may include poetry and poetics; forms and methods in fiction; forms and methods in poetry; memoir and personal narratives; creative nonfiction; "Literature, Live"; avant-garde and experimental writing.

ENGL 3400. Topics in Literature and Finance. 3 Credits.

Capstone course for English minors in the School of Business. Analysis of economic theories as they pertain to literary works. Topics may vary.

ENGL 3410. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late 14th century. Focus on *The Canterbury Tales*, read in the original Middle English.

ENGL 3410W. Chaucer. 3 Credits.

Chaucer's major works seen as exciting, lively texts from the modern perspective and as products of specific economic, social, and cultural trends of the late 14th century. Focus on *The Canterbury Tales*, read in the original Middle English.

ENGL 3420. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own.

ENGL 3420W. Medieval Literature. 3 Credits.

Readings from a wide range of medieval genres, including romances, saints' legends, mystical narratives, lyrics, civic drama, and social satires. How these texts responded to and shaped changing patterns of medieval culture, as the clergy, the aristocracy, and the urban bourgeoisie attempted to define a culture of their own.

ENGL 3430. The English Renaissance. 3 Credits.

Verse and prose written in the period 1515-1625, examined in relation to cultural practices and social institutions that shaped English life. More, Sidney, Spenser, Shakespeare, Donne, Jonson, Bacon, Herbert, many others.

ENGL 3440. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3440W. Shakespeare I. 3 Credits.

Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3441. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays each semester, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3441W. Shakespeare II. 3 Credits.

Continuation of ENGL 3440. Close study of six or seven plays, with emphasis on the texts in history and ideology. Attention to current critical practices (feminist, materialist, psychoanalytic), modern performance practice, and Shakespeare as a cultural institution.

ENGL 3445. Shakespeare on Film. 3 Credits.

Students will learn in detail the history of a small but significant subset of American and European film production: adaptations of Shakespeare's plays using the original language.

ENGL 3446. Shakespearean London. 3 Credits.

Early modern London's emergence as a global capital and its influence on Shakespeare's plays. Instructor permission required.

ENGL 3450. Topics in Shakespeare Studies. 3 Credits.

Critical study of a particular aspect of Shakespeare's work, or of a distinctive approach to the plays. Projected topics: Shakespeare on film, the history plays and Elizabethan England, 18th-century rewritings of Shakespeare, Shakespeare as poet, cultural materialist readings of Shakespeare.

ENGL 3460. Milton. 3 Credits.

Study of the major works in verse and prose, following the course of Milton's career.

ENGL 3470. English Drama I. 3 Credits.

Shakespeare's contemporaries.

ENGL 3471. English Drama II. 3 Credits.

Continuation of ENGL 3470. Historical survey, 1660 to present.

ENGL 3480. The Eighteenth Century I. 3 Credits.

Readings in significant 18th-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies.

ENGL 3480W. The Eighteenth Century I. 3 Credits.

Readings in significant 18th-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies.

ENGL 3481. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant 18th-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies.

ENGL 3481W. The Eighteenth Century II. 3 Credits.

Continuation of ENGL 3480. Readings in significant 18th-century English and Continental writers—Dryden, Swift, Pope, Johnson, Montesquieu, Voltaire, and others—with emphasis on tracing the ways in which literary texts contain, perpetuate, and subvert social and political ideologies.

ENGL 3490. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others.

ENGL 3490W. Early American Literature and Culture. 3 Credits.

The shaping of America's early literary and cultural traditions as shown by significant writers of the colonial and early national periods: Bradstreet, Cotton Mather, Edwards, Franklin, Crèvecoeur, and others.

ENGL 3510. Children's Literature. 3 Credits.

Nineteenth- and twentieth-century children's texts that illuminate the several worlds of childhood: the "small world" of childhood perception, the larger world of social and historical forces, and the "secondary world" of fantasy.

ENGL 3520. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others.

ENGL 3520W. American Romanticism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Romantic era: Poe, Emerson, Hawthorne, Melville, Thoreau, Whitman, Dickinson, and others.

ENGL 3530. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others.

ENGL 3530W. The British Romantic Period. 3 Credits.

Major figures and topics in English and Continental romanticism: Blake, Wordsworth, Coleridge, Lamb, Byron, Shelley, Keats, Hazlitt, DeQuincey, and others.

ENGL 3540. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens; Tennyson, Browning, Arnold; Darwin, Carlyle, Ruskin.

ENGL 3540W. Victorian Literature I. 3 Credits.

Major writers between 1830 and 1865: E. Brontë, Dickens, Tennyson, Browning, Arnold, Darwin, Carlyle, Ruskin.

ENGL 3541. Victorian Literature II. 3 Credits.

Major writers between 1865 and 1900: Eliot, Hardy, Conrad, Swinburne, the Rossettis, Morris, Pater, and Wilde.

ENGL 3550. The English Novel I. 3 Credits.

The 18th century—Defoe, Richardson, Fielding, Sterne, and others.

ENGL 3551. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The 19th century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others.

ENGL 3551W. The English Novel II. 3 Credits.

Continuation of ENGL 3550. The 19th century—Austen, the Brontës, Dickens, George Eliot, Hardy, and others.

ENGL 3560. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others.

ENGL 3560W. American Realism. 3 Credits.

The shaping of America's literary and cultural traditions as shown by significant writers of the Realist school: Twain, James, Crane, Howells, Wharton, Chopin, Robinson, and others.

ENGL 3570. 19th-Century Black Literature. 3 Credits.

Studies in 19th-century black literature of the Americas and the transatlantic. Writing from the United States, Latin America, the Caribbean, Britain, and Africa may be included. Topics and emphasis may vary.

ENGL 3610. Modernism. 3 Credits.

The emergence of modernist experimentation (and the sense of epistemological and moral crisis it expressed) in the poetry and prose of Pound, T.S. Eliot, Woolf, Kafka, and others.

ENGL 3620. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early 20th century: Poe, Emerson, Whitman, Dickinson, and others.

ENGL 3620W. American Poetry I. 3 Credits.

Close examination of major American poems from the beginnings to the early 20th century: Poe, Emerson, Whitman, Dickinson, and others.

ENGL 3621. American Poetry II. 3 Credits.

Close examination of major American poems since the early 20th century: Frost, Eliot, Stevens, Bishop, Hughes, Ashbery, and others.

ENGL 3621W. American Poetry II. 3 Credits.

Close examination of major American poems since the early 20th century: Frost, Eliot, Stevens, Bishop, Hughes, Ashbery, and others.

ENGL 3630. American Drama I. 3 Credits.

19th-century melodrama and the emergence of realism; works by O'Neill and other dramatists of the early 20th century.

ENGL 3631. American Drama II. 3 Credits.

Continuation of ENGL 3630. Developments in modern American drama since World War II, including works by Williams, Miller, Albee, Shepard, Rabe, Guare, Mamet, Henley, Wasserstein, Shange, Hwang, Wilson, and others.

ENGL 3640. The American Novel I. 3 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the 19th century: Hawthorne, Melville, James, Twain, Dreiser, and others.

ENGL 3640W. The American Novel I. 3 Credits.

Historical and critical study of major works in the American novelistic tradition. From the beginnings through the 19th century: Hawthorne, Melville, James, Twain, Dreiser, and others.

ENGL 3641. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The 20th century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others.

ENGL 3641W. The American Novel II. 3 Credits.

Continuation of ENGL 3640. Historical and critical study of major works in the American novelistic tradition. The 20th century: Wharton, Cather, Anderson, Hemingway, Fitzgerald, Faulkner, Wright, R.P. Warren, Nabokov, and others.

ENGL 3650. The Short Story. 3 Credits.

An extensive survey of short fiction by a wide variety of writers of the 19th and 20th centuries, about half of them American; readings on the art of the short story by writers and literary critics.

ENGL 3660. 20th-Century Irish Literature I. 3 Credits.

Irish writers from the time of the literary revival in the late 19th century to the present. Yeats and other Irish poets and playwrights of his time and after—Synge, O'Casey, Kavanagh, Heaney, and others.

ENGL 3661. 20th-Century Irish Literature II. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late 19th century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others.

ENGL 3661W. 20th-Century Irish Literature I. 3 Credits.

Continuation of ENGL 3660. Irish writers from the time of the literary revival in the late 19th century to the present. Joyce through Ulysses and other fiction writers of later generations—O'Brien, Beckett, and others.

ENGL 3710. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience.

ENGL 3710W. Contemporary Drama. 3 Credits.

Examines drama written since 1960 in the light of postmodernism as both a literary and a theatrical theory. Explores the ways contemporary playwrights and directors challenge the perceptions and assumptions of today's audience.

ENGL 3720. Contemporary American Literature. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres.

ENGL 3720W. Contemporary American Literature I. 3 Credits.

Historical, critical, and theoretical study of American literature since the 1960s. Various authors and genres.

ENGL 3730. Topics in Postcolonial Literature and Film. 3 Credits.

Representations of empire and culture in modern, global Anglophone literature and cinema; cross-cultural encounter, migration, identity, orientalism, gender, environment, conflict, and globalization. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

ENGL 3730W. Topics in Postcolonial Literature. 3 Credits.

Historical, critical, and theoretical study of post-colonial literatures—African, Asian, Commonwealth—written in English. Topics vary with instructor; may be repeated for credit provided the topic differs.

ENGL 3810. Selected Topics in Literature. 3 Credits.

Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs. Topics may include the Bloomsbury group; southern literature; the picaresque; literature of the Holocaust; literature and politics; Freud, Dostoevsky, and Shakespeare.

ENGL 3810W. Selected Topics in Literature. 3 Credits.

Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs. Topics may include the Bloomsbury group; southern literature; the picaresque; literature of the Holocaust; literature and politics; Freud, Dostoevsky, and Shakespeare.

ENGL 3820. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs.

ENGL 3820W. Major Authors. 3 Credits.

In-depth studies of a single figure or two or three authors (of British, American, or other nationality) who have written in English. Topics announced in the Schedule of Classes; may be repeated for credit provided the topic differs.

ENGL 3826. Toni Morrison and William Faulkner. 3 Credits.

Commonalities between the fictional and discursive practices of Toni Morrison and William Faulkner; specifically, how their texts reenact and resist racism and patriarchal structures, explore the ways in which memory and the past construct identity, experiment with style.

ENGL 3830. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided that topic differs.

ENGL 3830W. Topics in Literary Theory and Cultural Studies. 3 Credits.

Selected topics in the diverse theoretical methodologies and interdisciplinary studies that characterize contemporary English and American literary studies. May be repeated for credit provided the topic differs.

ENGL 3840. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs.

ENGL 3840W. Gender and Literature. 3 Credits.

Symbolic representations of culturally defined roles and assumptions in literature. Male and female gender roles as fundamental to culture; the representation of culture, in literature especially and in the arts and humanities generally. May be repeated for credit provided the topic differs.

ENGL 3850. Ethnicity and Place in American Literature. 3 Credits.

The relationships among ethnic identity, authorship, regional setting, and national consciousness. Differences in the literary culture of ethnically, racially, and regionally diverse American populations, and how considerations of ethnicity and place have been reshaping the American literary canon. Texts and emphases vary by instructor.

ENGL 3860. Topics in the History of the English Language. 3 Credits.

The cultural and literary functions of English across time and space. Scope and methodology vary by instructor. Topics may include language and identity, theoretical and linguistic approaches to language, multilingualism, diasporic writing, or history and periodization.

ENGL 3910. Disability Studies. 3 Credits.

Consideration of cultural texts that illustrate or illuminate issues of ability and disability—terms that extend the prism through which human experience may be understood.

ENGL 3920. U.S. Latina/o Literature and Culture. 3 Credits.

Introduction to the basic texts in the Chicana/o, Cuban-American, Dominican-American, and Puerto Rican literary and cultural traditions. Works by U.S. writers of Central American origin are discussed as well.

ENGL 3930. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness, and latinidad.

ENGL 3930W. Topics in U.S. Latina/o Literature and Culture. 3 Credits.

In-depth exploration of a critical issue in the field of Latina/o literary and cultural studies. Topics may include ideologies of literary recovery, transnationalism and diaspora, blackness and latinidad.

ENGL 3940. Topics in African American Literary Studies. 3 Credits.

Intensive study of a single aspect of African American literature: major authors, genre, theme, movement. Substantial attention to the critical tradition.

ENGL 3945. African American Poetry. 3 Credits.

African American poetry from the Black Atlantic through contemporary spoken word and web-based experiments in hypertext composition. Topics vary and may include Langston Hughes, Gwendolyn Brooks, poetry manifestoes, poetry and social justice, or eco-poetics of the black experience.

ENGL 3950. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers.

ENGL 3950W. Cultural Theory and Black Studies. 3 Credits.

Selected topics in critical and cultural theories—often interdisciplinary—as used in understanding African American literature and culture. Topics may include genre, medium, period, social change, and leading contemporary African American thinkers/writers.

ENGL 3960. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn.

ENGL 3960W. Asian American Literature. 3 Credits.

How Asian American writers construct their identities in dialogue with shifting ideas of “America.” Asian American history, gendering subjects, orientalism and postcolonial subjectivity, interracial relations, canonization. Representative writers: Kingston, Hwang, Jen, Chang-rae Lee, Ondaatje, Lahiri, Bulosan, Hagedorn.

ENGL 3965. Topics in Asian American Cultural Studies. 3 Credits.

Consideration of Asian American literature as a tradition that questions mainstream constructions of Asian American race and ethnicities, provides alternative accounts of Asian American experiences, and examines how Asian American literature is becoming a global literature with global concerns.

ENGL 3970. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing including fiction, nonfiction, autobiography, poetry, and drama. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition.

ENGL 3970W. Jewish American Literature. 3 Credits.

One hundred years of Jewish American writing in fiction, autobiography, poetry, drama, and non-fictional prose. The immigrant experience, American philosemitism and antisemitism, the Holocaust and after, the New York intellectuals, Jewish feminism, and the patriarchal tradition.

ENGL 3980. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs.

ENGL 3980W. Queer Studies. 3 Credits.

Examination of literature and culture in the context of the history and experience of lesbian, gay, bisexual, and transgendered people, with consideration of sexual identity as a core component of human experience. May be repeated once for credit provided the topic differs.

ENGL 3990. Literary Studies Workshop. 1 Credit.

Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated once for credit provided the topic differs.

ENGL 4020. Studies in Contemporary Literature. 1-3 Credits.

Theme-based studies of specific issues or figures in 21st-century literature.

ENGL 4040. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches—ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English.

ENGL 4040W. Honors Seminar. 3 Credits.

Genre and genre theory; literature as cultural artifact and as instrument of cultural criticism; various critical approaches—ideological, historical, and ahistorical. Open only to first-semester senior honors candidates in English.

ENGL 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as HIST 4135/ FREN 4135.

ENGL 4220. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major.

ENGL 4220W. Creative Writing Senior Thesis. 3 Credits.

Under the guidance of an instructor, the student composes an original manuscript of poetry or short fiction accompanied by an essay situating the student's work in the contemporary context. Open only to seniors admitted to the English and creative writing major.

ENGL 4250. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English.

ENGL 4250W. Honors Thesis. 3 Credits.

Under the guidance of an instructor, the student writes a thesis on an approved topic. Open only to senior honors candidates in English.

ENGL 4360. Independent Study. 1-4 Credits.

For exceptional students, typically majors, whose academic objectives are not accommodated in regular courses. Students must obtain departmental approval and arrange for supervision by an appropriate member of the faculty.

ENGL 4470. Internship. 1-3 Credits.

Position of responsibility with a publication, educational project, firm, or cultural organization offering practical experience in research, writing, editing, etc. Restricted to junior and senior English majors; approval of supervising faculty required for registration. May be repeated for credit; a maximum of 3 credits may be counted toward the English major. P/NP grading only.

ENGL 6100. Introduction to Literary Theory. 3 Credits.

An overview of methodologies for examining texts as linguistic and cultural productions. Methodologies explored may include structuralism, formalism, deconstruction, cultural materialism, postcolonial theory, feminism, gender studies, and queer theory.

ENGL 6120. Advanced Literary Theory. 3 Credits.

The course focuses on a major figure or topic in theory (e.g., Foucault, Lacan, Barthes, Kristeva, Bakhtin, post-Marxist theory, language and power, the canon).

ENGL 6130. Selected Topics in Criticism. 3 Credits.

Topics may include cultural studies, film, gay/lesbian studies, others.

ENGL 6220. Topics in Medieval and Early Modern Studies. 3 Credits.

Topics may include gender and body; postcolonial approaches to the period; surveys of poetry and/or prose with a special thematic coherence.

ENGL 6240. Literature of the British Archipelago. 3 Credits.

The literary and historical texts of early modern and medieval Britain within a pan-insular framework: England in conflict and coexistence with Ireland, Wales, Scotland.

ENGL 6250. Transnational England. 3 Credits.

The early literature of England within a global framework: England, Spain, France, Italy, Turkey, the Levant, the Americas, Africa, India, the Caribbean.

ENGL 6260. Seminar in Medieval and Early Modern Studies. 3 Credits.

Trends and cutting-edge research in medieval and early modern studies.

ENGL 6350. Nineteenth Century I. 3 Credits.

Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6351. Nineteenth Century II. 3 Credits.

Continuation of ENGL 6350. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6352. Nineteenth Century III. 3 Credits.

Continuation of ENGL 6351. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6353. Nineteenth Century IV. 3 Credits.

Continuation of ENGL 6352. Topics in British and American nineteenth-century writing and culture, exploring national traditions and international movements and issues, such as Romanticism, Realism, and others.

ENGL 6450. Twentieth Century I. 3 Credits.

Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6451. Twentieth Century II. 3 Credits.

Continuation of ENGL 6450. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6452. Twentieth Century III. 3 Credits.

Continuation of ENGL 6451. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6453. Twentieth Century IV. 3 Credits.

Continuation of ENGL 6452. Topics in twentieth-century British and American writing and culture, exploring national traditions and international movements and issues, such as literary modernism, anti-modernist and post-modernist currents, others.

ENGL 6510. Writing, Race and Nation. 3 Credits.

Literary culture as a basis for exploration of intersections of origins and evolution of racial and ethnic identities and national myths and political objectives.

ENGL 6520. Ethnicity and Identity. 3 Credits.

Literary culture is used to explore how individuals, communities, and societies construct self-awareness and knowledge about others for cultural exchange.

ENGL 6530. Conceptualizing Genders. 3 Credits.

Structures of sex and gender difference considered historically and theoretically, including masculinity/femininity, sexualities, and their textual representations.

ENGL 6540. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as WSTU 6251.

ENGL 6550. Studies in Genre I. 3 Credits.

Questions of genre, considered theoretically and practically. Content varies.

ENGL 6551. Studies in Genre II. 3 Credits.

Continuation of ENGL 6550. Questions of genre, considered theoretically and practically. Content varies.

ENGL 6560. Postcolonialism. 3 Credits.

Postcolonial theory and texts by representative writers.

ENGL 6620. Medicine and Society. 3 Credits.

The interaction of medicine and society in ways that touch on philosophy, economics, sociology, and public policy, but that cannot be fully understood in terms of any single perspective. Society's effect on medicine and medicine's effect on society.

ENGL 6630. Literature and Medicine. 3 Credits.

Methods of critical theory applied to issues concerning the practice of medicine. The polar constructs of illness and health, life and death, and life's worth or its waste.

ENGL 6720. Independent Research. 3 Credits.

Written permission of instructor required. May be repeated for credit to a maximum of 9 hours.

ENGL 6740. Mastering the Canon. 3 Credits.

Independent reading under a faculty member.

ENGL 6810. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6811. Folger Institute Seminars II. 3 Credits.

Continuation of ENGL 6810. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the graduate advisor before registration.

ENGL 6998. Thesis Research. 3 Credits.**ENGL 6999. Thesis Research. 3 Credits.****ENGL 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

ENGL 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit. ENGL 8999 must be taken as the final 12 credit hours of the degree.

ENGLISH FOR ACADEMIC PURPOSES (EAP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EAP 1010. Academic Communication. 3 Credits.

Develops international students' oral academic English skills to prepare them for success in U.S. higher educational settings. Focus on listening and note-taking, leading and participating in class discussions, managing a variety of authentic academic literacy tasks, and delivering presentations. Additional emphasis on developing multi-literacy through intercultural, multimedia, and visual communication. Restricted to international students.

EAP 1015. American Multicultural Perspectives in Washington, D.C.. 3 Credits.

Designed to prepare international undergraduate students for university-level writing expectations. A structured academic writing course that explores the capital's rich multicultural heritage. Focus on the development of academic literacy skills, drafting and revising, and research-based writing. Upon successful completion of EAP 1015, students take UW 1020.

EAP 1016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree.

EAP 1046. Independent Study. 1-4 Credits.

Individualized instruction in specific skill areas. Program director approval required. Credit for this course cannot be applied toward a degree.

EAP 6000. Academic Communication. 3 Credits.

Acclimation to the oral communication expectations of graduate school through developing listening and note-taking skills, expanding communicative vocabulary, leading and participating in class discussions, and preparing and delivering informal and formal presentations. Classroom activities directed toward scholarly and professional communication in students' fields of study whenever possible. Credit does not apply to any degree or certificate offered by GW.

EAP 6016. Academic Skills Workshop. 1 Credit.

Development of critical academic skills for international students. Workshop topics may include grammar for academic writing, critical reading, listening and note-taking, academic vocabulary development, and discussion and presentation skills. Credit for this course cannot be applied to a degree. (Same as EAP 1016).

EAP 6110. Academic Writing and Research for International Graduate Students I. 3 Credits.

The process of researching, planning, writing, and revising for academic purposes. Focus on key writing skills and critical thinking. Practice in reading and analyzing university-level materials and completing graduate-level academic exercises. Credit for this course does not apply toward any degree or certificate offered by GW.

EAP 6111. Academic Writing and Research for International Graduate Students II. 3 Credits.

An academic writing and research course for international students who demonstrate high proficiency in English. Focus on research paper writing, analysis of academic discourse, small-group work, and oral presentations on research. Credit for this course does not apply toward any degree or certificate offered by GW.

ENVIRONMENTAL RESOURCE POLICY (ENRP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ENRP 6085. Topics in Environmental Resource Policy. 1-3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

ENRP 6101. Environmental Sciences I: Physical Sciences. 3 Credits.

Basic physical sciences crucial to environmental issues, including chemistry, geology, hydrology, climate science, and cross-media interactions; land, air, and water pollution, climate change, production and consumption of energy, sea level rise, and anthropogenic changes in the cryosphere. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6102. Environmental Sciences II: Life Sciences. 3 Credits.

Basic life sciences crucial to environmental issues, including biology, ecology, environmental health and toxicology, epidemiology, and agriculture; biodiversity, ecosystem services, habitat preservation, deforestation, conservation biology, nutrient cycling, and the impacts of climate change on living systems. Restricted to students in the MA in environmental resource policy; graduate certificate in contexts of environmental policy; and BA/MA in environmental studies and environmental resource policy programs; permission of the instructor may be substituted.

ENRP 6140. Environmental Impact Statement Procedures and Environmental Law. 3 Credits.

The rationale for environmental impact statements from the viewpoint of the nature and origins of environmental concerns. Government agencies responsible for environmental impact statements; current statutes and regulations pertaining to the environment.

ENRP 6145. Global Environmental Justice and Policy. 3 Credits.

Environmental justice, considered as both a movement and a public policy. Examination of environmental injustices—both perceived and actual—affecting individuals, communities, and populations. Adherence to, and enforcement of, environmental laws and regulations that affect the allocation of environmental benefits and the distribution of sources of toxic pollution and other hazards.

ENRP 6295. Research Topics in Environmental Resource Policy. 1-3 Credits.

May be repeated for credit to a maximum of 6 credits.

ENRP 6298. Seminar in Environmental Resource Policy. 3 Credits.

The capstone seminar involves team development of a project sponsored by an external entity, such as a government agency or non-governmental organization, or participation in an aspect of a research project directed by a faculty member. The student team functions as an external consultant tasked with analysis of the chosen issue.

EPIDEMIOLOGY (EPID)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EPID 6295. Reading and Research. 1-12 Credits.

May be repeated for credit.

EPID 6998. Thesis Research. 3 Credits.**EPID 6999. Thesis Research. 3 Credits.****EPID 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

EPID 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

EXERCISE AND NUTRITION SCIENCES (EXNS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

EXNS 1103. Professional Foundations in Exercise Science. 3 Credits.

Introduction to the science and practice of exercise and human movement as they relate to public health. Emphasis on the various sub-disciplines of exercise science, research related to the field, and professional and career development.

EXNS 1110. Applied Anatomy and Physiology I. 4 Credits.

Fundamentals of human anatomy and physiology for students preparing for health sciences professions. Emphasis on bones, joints, muscles, innervation, and blood supply. Laboratory fee.

EXNS 1111. Applied Anatomy and Physiology II. 4 Credits.

Continuation of EXNS 1110. Fundamentals of human anatomy and physiology for students preparing for health sciences professions. Emphasis on muscles, sensory and motor integration of the nervous system, function of the special senses, and the autonomic system. Laboratory fee. Prerequisites: EXNS 1110.

EXNS 1112. Current Issues in Coaching. 3 Credits.

Examination of current trends and issues in athletics, sport, and coaching from theoretical and applied perspectives. Study of a variety of timely topics using presentations, readings, videos, internet activities, and discussions.

EXNS 1114. Community Nutrition. 3 Credits.

Introduction to community nutrition and public health programs offered on the local, state, national, and international levels, targeting both individuals and groups. Topics include health policies, nutrition programs, nutrition assessment, and principles of nutrition education.

EXNS 1117. Principles of Coaching. 3 Credits.

Study of coach/athlete behavioral patterns and interactions, coaching methods, and interdisciplinary principles applicable to coaching.

EXNS 1118. Sport and Nutrition. 3 Credits.

Nutritional needs for recreational exercise and sports; skills in assessing nutritional needs; development of individual nutrition programs that are sport/activity-specific; and identification and correction of nutrition problems affecting sports performance. Prerequisites: EXNS 2119 or HLWL 1116.

EXNS 1119W. Children and Sport. 3 Credits.

Psychomotor, psychosocial, and physiological factors of children's participation in sports. The importance of sport to children, readiness to compete, adaptations to training, participation motives, social factors, fundamentals of training, nutrition, stress, and child protection. Theoretical aspects applied in a variety of sports settings.

EXNS 1199. Topics in Exercise and Nutrition Sciences. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

EXNS 2110. Injury Prevention and Control. 3 Credits.

Information and practical experience in the prevention, recognition, and/or treatment of injury, illness, and health conditions; anatomy review, injury recognition skills, and prevention, first aid, and treatment techniques. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 2111. Exercise Physiology I. 4 Credits.

Function of the human body under the influence of physical activity. Nutrition as a foundation for human performance, energy for physical activity, and comprehensive weight management. Laboratory fee. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 2112. Exercise Physiology II. 4 Credits.

Response of physiological systems of the body to acute and chronic exercise and neuromuscular adaptations to exercise. Exercise training program design, training in extreme environmental conditions, and training considerations for special populations. Laboratory fee. Prerequisites: EXNS 2111.

EXNS 2113. Kinesiology. 4 Credits.

How the human body functions as a mechanical movement generator; the design and function of joints and muscles and principles of mechanics applied to human movement. Common injuries to the musculoskeletal system, how these injuries might occur, and what effect they have on movement patterns. Laboratory methods including techniques for palpation and evaluation of movement. Laboratory Fees. Prerequisites: ANAT 2181 or BICS 2581 or EXNS 1110.

EXNS 2114. Nutrition Sciences I. 3 Credits.

Study of macronutrients (carbohydrate, fat, and protein) and how they are digested, absorbed, and metabolized by the human body. The unique functions and dietary applications of each macronutrient and its requirements, as well as how macronutrients are implicated in disease pathology, prevention, and management. Hormonal control of blood sugar levels, appetite, and satiety. Other topics include weight management, meal planning, fat and carbohydrate substitutes, alcohol metabolism, dietary guidelines, food labeling, and sports nutrition. Prerequisites: BISC 1111, BISC 1112, EXNS 1110, and EXNS 1111.

EXNS 2115. Nutrition Sciences II. 3 Credits.

Advanced study of how micronutrients (e.g. vitamins and minerals) are digested, absorbed, and metabolized by the human body. The unique functions of each essential micronutrient and nutrient-nutrient interactions supporting organ systems and metabolism. Other topics include hydration, functional ingredients, food additives, dietary supplements, food safety, lifecycle nutrition, and global micronutrient initiatives. Prerequisites: EXNS 2114.

EXNS 2116. Exercise and Health Psychology. 3 Credits.

The psychological, social, and environmental factors that influence the adoption and maintenance of physical activity/exercise and other health behaviors. The role of physical activity/exercise in the prevention of chronic disease. Emphasis on prominent theories used to understand and predict behavior change towards the initiation and maintenance of health behaviors. Issues specific to public health and diversity such as race/ethnicity, socioeconomic status, and gender are also addressed. Restricted to majors only. Prerequisites: PSYC 1001.

EXNS 2117. Sport Psychology. 3 Credits.

Introduction to current research and theoretical perspectives on psychological and psychosocial components of sport participation and competition. Participation motives, motivation, confidence, anxiety, aggression, and other factors that influence individuals and teams or groups. Prerequisites: PSYC 1001.

EXNS 2117W. Sport Psychology. 3 Credits.

Introduction to current research and theoretical perspectives on psychological and psychosocial components of sport participation and competition. Participation motives, motivation, confidence, anxiety, aggression, and other factors that influence individuals and teams or groups. Students complete written assignments to hone writing skills and apply course material. Prerequisites: PSYC 1001.

EXNS 2119. Basic Nutrition. 3 Credits.

Introduction to nutrition science as it relates to human growth and development, dietary guidelines, digestion and absorption of nutrients, appetite, body weight, and chronic disease. How the body uses energy provided by fats, carbohydrates, and proteins, and how it uses vitamins and minerals. Discussions include how nutritional status is assessed and nutrition on an individual and population level. Analysis of popular nutrition topics covered by the media. Prerequisites: BISC 1111.

EXNS 2121. Orthopaedic Taping and Bracing. 1 Credit.

Advanced practical application of skills learned in EXNS 2110, including first aid techniques, injury recognition skills, taping, and treatment of injuries. Concurrent enrollment in EXNS 2110 is required for students in the Pre-athletic Training/Sports Medicine track.

EXNS 2122. Food Systems in Public Health. 3 Credits.

This course will explore systems thinking as it pertains to agriculture and food, attempt to define sustainability within the context of the global food system, examine the current state of the global food system from farm to fork, and analyze its impacts on health. The course will also examine several policies, programs, and proposals aimed at creating a healthier, more sustainable global food system.

EXNS 3101. Independent Study. 3 Credits.

Outline of intended project must be approved prior to course registration. Restricted to For departmental majors only.

EXNS 3102. Applied Sport Psychology. 3 Credits.

Theoretical perspectives and practical aspects of applied sport psychology. Psychological skills and peak mental performance. Development and practical application of mental skills programs for athletes and methods of assessing psychological skills in sports settings. Qualifications and training routes for becoming a sport psychologist and professional and ethical issues. Prerequisites: EXNS 2117.

EXNS 3110. Field Experience- Exercise & Nutrition Sciences. 1-9 Credits.

For undergraduate exercise and nutrition sciences majors. Application of classroom-based knowledge to practical experience within a professional setting. Restricted to undergraduate majors in exercise and nutrition sciences. Prerequisites: EXNS 2112 and permission of the instructor.

EXNS 3117. Injury Assessment. 4 Credits.

Students gain skills and practical experience in the assessment of injuries. Includes anatomy review, evaluation techniques and procedures, referral skills, and appropriate documentation. Prerequisites: EXNS 2110.

EXNS 3118. Therapeutic Modalities in Sports Medicine. 4 Credits.

Explanation and demonstration of the use of therapeutic modalities on the healing process, including discussion of the use of therapeutic modalities to enhance the rehabilitation process after athletic injury. Laboratory fee. Prerequisites: EXNS 3117 or permission of instructor.

EXNS 3119. Therapeutic Exercise in Sports Medicine. 4 Credits.

Explanation and demonstration of the use of therapeutic exercise on the rehabilitation process. Discussion and development of practical skills in techniques of therapeutic exercise and equipment to enhance the exercise routine after athletic injury. Prerequisites: EXNS 3117 or permission of instructor.

EXNS 3121. Medical Issues in Sports Medicine. 3 Credits.

Topics in general medical issues and pharmacology as they relate to the athletic training profession. Prerequisites: EXNS 1110 and EXNS 1111.

EXNS 3123W. Psychology of Injury and Rehabilitation. 3 Credits.

Injury and rehabilitation psychology and its application to working with athletic and general population clients. The psychological, social, and environmental factors that influence injury susceptibility, reaction to injury, and adherence to rehabilitation; basic assessment and intervention techniques to promote and facilitate adherence to rehabilitation in a variety of professional settings. Strong emphasis on writing, writing development, and use of scientific literature obtained through library resources throughout the course. Restricted to Exercise & Nutrition Sciences majors only.

EXNS 3125. Athletic Training Practicum. 3 Credits.

Students gain practical/clinical experience in athletic training and medical skills.

EXNS 4110. Current Issues in Exercise Science. 3 Credits.

Capstone course for senior exercise science majors in their final spring semester. Students are required to understand and apply identified competencies from the core exercise science curriculum. Restricted to Senior exercise science majors in their final spring semester.

EXNS 6202. Advanced Exercise Physiology I. 3 Credits.

Examination of acute and chronic cardiovascular and pulmonary adaptations to exercise training. Focus on mechanisms that affect oxygen delivery and utilization during aerobic exercise. Responses to exercise in extreme environmental conditions.

EXNS 6203. Advanced Exercise Physiology II. 3 Credits.

Metabolic and neuromuscular adaptations that occur in response to acute and chronic exercise. Biochemical pathways responsible for energy production during rest and exercise, and how these pathways adapt with chronic training. Neural, hormonal, and nutritional factors that influence exercise performance. Laboratory fees. Prerequisites: EXNS 6202 or permission of instructor.

EXNS 6204. Biostatistical Methods and Research Design. 3 Credits.

Basic principles, concepts, and procedures of research, sampling, and statistical design. Probability, hypothesis testing, and application of basic statistical techniques using calculators and statistical software packages.

EXNS 6207. Psychological Aspects of Sport & Exercise. 3 Credits.

Psychological, sociological, and environmental factors related to the adoption of exercise behavior and maintenance and achieving peak sport performance. The influence of psychology on exercise and sport behaviors, and techniques for changing and/or optimizing such behaviors using a person-centered, individual approach. Issues specific to public health and diversity including race, socioeconomic status, ethnicity, and gender are emphasized throughout the course.

EXNS 6208. Physical Activity: Physiology and Epidemiology. 2 Credits.

Introduction to health issues resulting from physical inactivity (or disuse). Basic principles of energy metabolism and both basic and leading edge methods for physical activity assessment. Topics include major physiological systems' adaptation to exercise training and to de-training and how this adaptation may vary by age and sex; the relationship between disuse and major chronic diseases across the age spectrum; and individual and community-based intervention strategies to modify behavior and ameliorate the putative effects of a sedentary lifestyle. Study of the role of the built environment as an environmental "toxin" using the basic principles of environmental health risk assessment. Prerequisites: EXNS 2111.

EXNS 6209. Advanced Concepts in Nutrition Science. 3 Credits.

Topics in nutrition and public health. Emerging issues, challenges, and controversies in nutrition science; the role of diet composition and physical activity in the maintenance of health and the development of chronic disease; and effectively communicating scientific findings and identifying key knowledge gaps in nutrition science literature.

EXNS 6210. Cardiac Rehabilitation. 3 Credits.

Overview of a wide range of clinical, public health, and healthcare topics associated with heart disease with an emphasis on coronary artery disease. Cardiac rehabilitation programming and services, secondary prevention, patient education, and current clinical guidelines, scientific statements, and selected regulations related to cardiac rehabilitation.

EXNS 6211. Assessments, Prescription, and Electrocardiogram. 3 Credits.

Information, techniques, and laboratory experiences related to accurate blood pressure determinations, clinical exercise testing and prescription, and other clinical assessments. Basic medications for cardiovascular disease and fundamentals of the electrocardiogram. Prerequisites: EXNS 6210 or permission.

EXNS 6212. Exercise in Selected Chronic Diseases. 3 Credits.

Basic pathophysiology in select chronic diseases. Application of clinical exercise testing and assessment and effects of acute and chronic exercise and exercise prescription on affected patients. Patient groups include children and the elderly, and individuals with pulmonary diseases, diabetes mellitus, hypertension, peripheral artery disease, stroke, obesity, spinal cord injury, cancer.

EXNS 6213. Clinical Internship I. 3 Credits.

Students work directly with a multidisciplinary health care or research team and patients and apply the knowledge and skills acquired from coursework in a clinical environment. Internships take place at pre-approved clinical sites, usually in the Washington, D.C., metropolitan area, and students are supervised by an on-site clinical instructor.

EXNS 6214. Clinical Internship II. 3 Credits.

Students work directly with a multidisciplinary health care or research team and patients and apply the knowledge and skills acquired from coursework in a clinical environment. Internships take place at pre-approved clinical sites, usually in the Washington, D.C., metropolitan area, and students are supervised by an on-site clinical instructor.

EXNS 6215. Clinical Exercise Physiology Rotations. 3 Credits.

Supervised clinical experience for students in the Clinical Exercise Physiology program. Working with clinical patient populations in hospitals in the Washington, D.C., metropolitan area, students observe and participate in the assessment and treatment of patients with a variety of chronic diseases.

EXNS 6216. Organization and Management of Clinical Programs. 1 Credit.

Administrative organization of programs providing clinical exercise services. Budgeting and staffing; equipment and supplies; policies, protocols, and program forms; Medicare regulations and coding; and safety issues. While cardiac rehabilitation is the program model for the majority of this topic, the information can be used in other types of clinical exercise physiology programs. Combination of classroom and online sessions.

EXNS 6220. Power Training for Sports Performance. 2 Credits.

Effective training programs for sports that require explosive performance. Emphasis on training methods that develop speed and power, such as plyometrics and Olympic weightlifting. Provides information on specific competencies for students interested in pursuing certification as a strength and conditioning specialist. Prerequisites: EXNS 2111 or equivalent.

EXNS 6221. Science & Theory of Training. 3 Credits.

Physiological adaptations to resistance training, with a primary focus given to the neuromuscular system. Functional and structural changes that occur in skeletal muscle following strength and power training. Programmatic concerns when developing a resistance training regimen for an athletic population.

EXNS 6222. Current Topics in Strength and Conditioning. 1-2 Credits.

Current scientific findings related to the field of strength and conditioning. Examination of how resistance training programs affect athletic performance in terms of increased strength, power, endurance, and resistance to injury. The health benefits of resistance training in non-athletic populations. Prerequisites: EXNS 6202 or permission of the instructor.

EXNS 6223. Biomechanical Analysis. 3 Credits.

Application of mechanical analysis techniques to the human body in motion. Statics and dynamics with emphasis on the link segment model, incorporating angular velocity and angular acceleration. Motion analysis systems and computer systems. Prerequisites: (EXNS 1110 or BISC 2581) and EXNS 2113. Recommended background: PHYS 1011.

EXNS 6232. Independent Study. 1-3 Credits.

Students gain or enhance public health knowledge and explore an area of interest related to public health research or the delivery and/or administration of health services. Permission of instructor or advisor required. Restricted to For MS degree candidates enrolled in the department.

EXNS 6233. Graduate Internship. 1-6 Credits.

Fieldwork, internship, and/or instructional practice related to the field of study as pre-approved by the advisor. May be repeated for credit up to a maximum of 6 credits with prior permission of the advisor. Restricted to Master's degree in Exercise Science students only.

EXNS 6242. Nutrition Throughout the Life Cycle. 2 Credits.

The science of nutrition as it relates to health throughout the human life cycle. Changes in human metabolic processes and nutrient needs during the course of the aging process. Nutrition-related disorders. Prerequisites: EXNS 2119 or permission of the instructor.

EXNS 6261. Thesis Seminar. 3 Credits.

Required for students planning to write a thesis. Principles, concepts, and procedures of research design, including interpreting the scientific literature, designing a statistical plan, applying basic statistical techniques, and communicating scientific findings to professional and general audiences. Students develop a research protocol.

EXNS 6299. Topics in Exercise Science. 1-3 Credits.

Topic to be announced in the Schedule of Classes.

EXNS 6998. Thesis Research. 3 Credits.

Students work independently to conduct research under the oversight of a faculty research committee. Restricted to MS in exercise science degree candidates.

FILM STUDIES (FILM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FILM 2151. Film Theory. 3 Credits.

A reading-intensive immersion in classical film aesthetics and a survey of the theoretical and critical canon of cinema literature. Laboratory fee.

FILM 2152. Genres of Film. 3 Credits.

An exploration of the relationship between cinematic structure and narrative content in various types of film. Laboratory fee.

FILM 2153. History of World Cinema I. 3 Credits.

A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2154. History of World Cinema II. 3 Credits.

Continuation of FILM 2153. A two-semester sequence covering 100 years of international cinematic history from an aesthetic and political point of view. Laboratory fee.

FILM 2155. Screen Writing. 3 Credits.

Introduction to the art and craft of screenwriting—concept, genre, character, structure, dialogue, scene/sequence construction, and, ultimately, the preparation of scripts and treatments for a variety of screen formats.

FILM 2156. Advanced Screenwriting. 3 Credits.

Advanced phases of screenwriting culminating in the preparation of a full-length screenplay, with contextual study of contemporary, international, and classical films toward a fuller appreciation of movies as a cultural whole.

FILM 3390. Screen Writing. 3 Credits.

FINANCE (FINA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FINA 3001. Intermediate Finance. 3 Credits.

Theory and practice of acquiring and using funds. Simulations of business decisions by cases and/or models to assess the risk/return interaction of investment, financing, and dividend decisions. Prerequisite: BADM 3501.

FINA 3101. Investment and Portfolio Management. 3 Credits.

Theory and principles of security analysis and portfolio management, including analysis of the national economy, industry, company, and security markets. Risk-reward and computer-aided analysis. Prerequisite: BADM 3501.

FINA 3201W. Exploring Finance w/Simulation. 3 Credits.

Corporate financial analysis as explored through the FINGAME financial simulation software. Focus on intertemporal decision making for capital budgeting and financing of a simulated firm. Prerequisite: BADM 3501.

FINA 3301. Money and Capital Markets. 3 Credits.

The process of capital formation in a free enterprise economy, with special emphasis on factors affecting the level and structure of interest rates. Money market, capital market, and derivative contracts (futures and swaps) are evaluated from both investment and financing perspectives. Prerequisite: BADM 3501.

FINA 4001. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4001W. Advanced Financial Management. 3 Credits.

Analysis and readings covering applications of theory to financial management. Case studies for decision making involving working capital, capital budgeting, financing, dividend policy, and valuation. Prerequisite or concurrent registration: BADM 3501 and FINA 3301 or FINA 3001.

FINA 4101. Applied Financial Securities Analysis. 3 Credits.

Practical security analysis techniques and investing approaches employed by professional investment managers. Prerequisite: BADM 3501.

FINA 4121W. Exploring Finance w/Simulation. 3 Credits.

FINA 4201. Real Estate Investment. 3 Credits.

Principles of real estate investment, including valuation, appraisal, financing, and development, in addition to a discussion of the mortgage market and its institutions. Prerequisite: BADM 3501.

FINA 4301. Financial Derivatives. 3 Credits.

The defining properties of and uses for financial derivatives. Institutional features; forward and futures contracts, option contracts, and swap agreements; and valuation methodologies. The proper use of financial derivatives and the potential for unintended consequences. Prerequisites: BADM 3501. Recommended background: undergraduate students in finance with exposure to another discipline such as mathematics, physics, computer science, economics, or statistics.

FINA 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: BADM 3501.

FINA 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods.

FINA 4995. Independent Study. 1-15 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3501.

FINA 6220. Business Financial Management. 3 Credits.

FINA 6221. Financial Decision Making. 3 Credits.

Theory and practice of business finance, emphasizing the impacts of long- and short-term uses and sources of funds on the firm's market value. Prerequisite: MBAD 6234 or MBAD 6235.

FINA 6222. Capital Formation. 3 Credits.

Determinants of saving and investment and resultant funds flow are evaluated. Special emphasis on the level and risk structure and term structure of interest rates. The role and management of financial institutions is stressed. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6223. Investment Analysis and Portfolio Management. 3 Credits.

Risk-reward analysis of security investments, including analysis of national economy, industry, company, and market; introduction to portfolio management; emphasis on theory and computer methods. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6224. Financial Management. 3 Credits.

Advanced case studies in domestic and international financial management; working capital policy, capital budgeting, financing with debt and equity, dividend policy, valuation, project finance, venture capital, and mergers and acquisitions. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6230. Urban Development Economics. 3 Credits.

FINA 6231. Sem:Investment & Portfolio Mgt. 3 Credits.

FINA 6234. New Venture Financing: Due Diligence and Valuation Issues. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Prerequisites: MBAD 6234 or MBAD 6235. (Same as MGT 6293).

FINA 6235. Futures Markets: Trading and Hedging. 3 Credits.

Organization and regulation of futures markets. Alternative strategies for trading of futures contracts for possible hedging uses. High risk-high return investment alternatives. The use of futures markets to manage risks. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6236. Options. 3 Credits.

Pricing of options on financial instruments. Role of options in risk management, trading strategies, hedging implications for national and international investors, financial engineering, and structure and regulation of option markets. Recommended: FINA 6221. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6237. Private Wealth Management and Personal Financial Advising. 3 Credits.

Income and estate taxation, retirement plans and pensions, life and disability insurance, investment portfolio management, and personal finances. Prerequisites: MBAD 6234 or MBAD 6235. Recommended background: ACCY 6401 and knowledge of Excel.

FINA 6238. Financial Engineering. 3 Credits.

Valuation and risk management theory for bonds, forward contracts, swaps, options, exotic options, and interest rate options. Development of financial software, including Monte Carlo simulation modeling. Case studies of innovative solutions to investment, corporate finance, and financial institution management problems. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6239. Applied Portfolio Management. 3 Credits.

Synthesis of the theoretical concepts of securities analysis and portfolio management with the application of analyzing securities and building an actual portfolio. Prerequisites: (MBAD 6234 or MBAD 6235) and permission of instructor.

FINA 6240. Real Estate Development. 3 Credits.

Examination of the forces that shape real estate development; market analysis methods and techniques to evaluate project feasibility; the institutional and legal framework within which real estate development occurs and that influences controls, land value, and development potential. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6241. Financing Real Estate. 3 Credits.

Principles of real estate finance; evaluating different methods of financing real estate; sources of real estate funding with emphasis on securitization. Incentives provided by governments. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6242. Real Estate Valuation and Investment. 3 Credits.

Understanding the valuation of different types of real estate from different viewpoints. Analysis of the risks and opportunities of investing. Solid theoretical framework is augmented with practical examples and applications. Prerequisites: MBAD 6234 or MBAD 6235.

FINA 6245. Land Development Law. 3 Credits.

FINA 6247. Urban Development Economics. 3 Credits.

FINA 6248. Real Estate Development Cases. 3 Credits.

Case study analysis of large-scale commercial real estate developments to gain comprehension of financial, political, legal, and technical complexities and constraints inherent in the real estate development process. Prerequisite: FINA 6221 or permission of instructor.

FINA 6250. Securities Regulation and Financial Scandals. 3 Credits.

Philosophy and framework of laws governing the sale of securities, including stocks, bonds, and investment contracts; financial scandals and the role that changes in securities law and housing policy has played in such events.

FINA 6271. Financial Modeling and Econometrics. 4 Credits.

Applied statistical and econometric analysis and modeling in finance. Methodologies include descriptive and inferential statistics, multivariate regression, and time series analysis. Empirical studies are reviewed, and a series of research projects are undertaken. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6272. Global Financial Markets. 4 Credits.

Theories explaining domestic and international interest rate and exchange rate structures. Roles of financial institutions and markets are investigated and forecasting methodologies are applied. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6273. Cases in Financial Management and Investment Banking. 4 Credits.

Computer modeling for analysis and forecasting of a firm's financial statements to reflect possible future performance. Application and integration of financial accounting and financial analysis, using a different case study each week. Financial issues faced by companies and their commercial and investment bankers as tactical and strategic decisions are made about organic growth, growth through merger and acquisition, and corporate reorganization. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6274. Corporate Financial Management and Modeling. 4 Credits.

Causal connections between decisions made by business firms, their expected performance, and the resulting current valuation of the firm's common stock. Factors affecting the level and structure of interest rates, which are incorporated by many financial models, theories, and decisions. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6275. Investment Analysis and Global Portfolio Management. 4 Credits.

Financial markets and instruments viewed from the investor's perspective. Analysis of the value of equity and fixed-income securities and the construction of efficient portfolios in a global financial market. Issues of market efficiency, tax structures, and investment funds; computer-based models. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6276. Financial Engineering and Derivative Securities. 4 Credits.

Mathematical and theoretical foundations to value-derivative securities, including options, futures, and swaps; hedging and trading applications of these contracts. Arbitrage trading across cash and derivative markets and its role in maintaining equilibrium prices. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6277. Comparative Financial Market Regulation and Development. 4 Credits.

Theory and current status of comparative regulation of domestic and international financial institutions and markets. Effects on country economic development and international trade. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6278. Financial Theory and Research. 4 Credits.

Theoretical constructs of business investment and financing decisions and of financial asset pricing structures in domestic and international environments. Analytical and numerical models are developed, and empirical studies are evaluated. Prerequisite: Master of Science in Finance degree candidacy.

FINA 6279. Real Estate Finance and Fixed-Income Security Valuation. 4 Credits.

Application of financial theory to real estate investment: the housing market, mortgage valuation and securitization, commercial properties, CMBS, and REITs. Fixed-income security valuation with focus on theory and data applications on interest rate movements, fixed-income security and derivative pricing, and credit risk. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6280. Financial Institution Management and Modeling. 4 Credits.

Analysis of the financial performance and condition of a bank, toward understanding of the financial environment in which banks operate and regulation of the banking system. Application of asset/liability management principles and statistical and mathematical models employed in bank risk management. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6281. Cases in Financial Modeling and Engineering. 4 Credits.

Through the use of real-world examples from various aspects of finance, students are exposed to the modeling of complex financial instruments and techniques used in market and credit risk management. Underlying mathematics and theoretical constructs are explored and solidified through modeling exercises that make use of analytical solutions and numerical methods. As a practical course, students are asked to implement models. Examples may be motivated by corporate finance, corporate and investment banking, asset management, or other activities. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6282. Advanced Financial Econometrics and Modeling. 0-4 Credits.

Testing of several types of applied financial econometric models typically used in practice. Advanced quantitative techniques applied to aspects of financial markets, the behavior of agents, and market and credit risk management. Various software packages used to implement and program models. Prerequisites: Master of Science in Finance degree candidacy.

FINA 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

FINA 6297. International Management Experience. 3 Credits.

Same as IBUS 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

FINA 6298. Directed Readings and Research. 2-4 Credits.

FINA 6299. Thesis Seminar. 3 Credits.

FINA 6999. Thesis Research. 3 Credits.

FINA 8311. Seminar: Public/Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

FINA 8321. Seminar: Financial Markets Research. 3 Credits.

Market efficiency, utility testing, the capital asset pricing model, the arbitrage pricing theory, the option pricing model, and aggregate market volatility.

FINA 8322. Seminar: Corporate Finance Research. 3 Credits.

Capital budgeting, capital structure issues, dividend policy, microeconomic foundations, mergers, and agency theory.

FINA 8323. Seminar: Continuous-Time Finance. 3 Credits.

Review of the stochastic calculus methods needed for continuous-time pricing models. The most important continuous-time models, including pricing of derivative securities, consumption-portfolio selection models, continuous-time capital asset pricing models, consumption-based capital asset pricing models, continuous-time arbitrage pricing theory, and different yield curve models.

FINA 8324. Seminar: Financial Markets and Institutions. 3 Credits.

Multi-period asset pricing, term structure of interest rates, market imperfections and institutional factors, auctions, manipulation, derivative markets, market microstructure, and financial institutions.

FINA 8397. Doctoral Seminar. 1-3 Credits.**FINA 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

FINA 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

FINE ARTS (FA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Laboratory fee. Restricted to first-year students in CCAS.

FA 1014. Handbuilt Ceramics. 3 Credits.

Working with clay as an art form. Pinch, coil, slab, hump and press mold, paddling, and hollowing techniques. Sketch studies, clay and glaze making, reduction and oxidation kiln firings.

FA 1015. Wheelthrown Ceramics. 3 Credits.

Development of cylindrical and open forms. Sketch studies, trimming, clay and glaze making, reduction and oxidation kiln firings.

FA 1017. Sculpture I. 3 Credits.

Beginning study of design and fabrication of sculpture. Basic sculptural techniques for various media, including clay, plaster, stone, and wood.

FA 1018. Sculpture II. 3 Credits.

Continuation of FA 1017. Beginning study of design and fabrication of sculpture. Basic sculptural techniques for various media, including clay, plaster, stone, and wood.

FA 1021. Drawing I. 3 Credits.

Development of a fundamental understanding of line, shape, value, contrast, composition, and mark making. Emphasis on working directly from life, along with a variety of conceptual issues. Consideration of traditional and contemporary strategies and skills toward development of technique, process, and meaning.

FA 1022. Drawing II. 3 Credits.

Continuation of FA 1021. Development of a fundamental understanding of line, shape, value, contrast, composition, and mark making. Emphasis on working directly from life, along with a variety of conceptual issues. Consideration of traditional and contemporary strategies and skills toward development of technique, process, and meaning. FA 1021 is prerequisite to FA 1022.

FA 1026. Painting: Visual Thinking. 3 Credits.

Development of technical and perceptual skills that are the foundation of visual expression. Beginning projects start with a simple introduction to the mechanics of paint handling: how to begin a painting, apply paint, and model form. Value, line, color, and abstraction.

FA 1028. Painting: Watercolor. 3 Credits.

Working with basic issues of light, color, and paint quality, students learn a variety of techniques, including working transparently, wet-on-wet, wet-on-dry, lifting, masking, and drybrush. Exploration of the medium's inherent qualities as well as those it shares with other painting media.

FA 1041. Black & White Photography. 3 Credits.

Introduction to the materials and processes of black-and-white photography. Camera operations, film processing, printing, and presentation methods. Gaining technical skills. Issues concerned with the visual language of photography.

FA 1042. Color Photography. 3 Credits.

Introduction to the materials and processes of color photography. Color theory, exposure techniques, film scanning, digital color correcting, and printing. The use of color as a means of visual communication and creative expression.

FA 1071. New Media: Digital Art. 3 Credits.

A survey of the computer as a creative art tool. Topics covered include bit-mapped and vector graphics, digital sound and imaging, basic time-based media, and digital text, integrated with fundamental design principles of concept development, composition, color theory and presentation.

FA 1075. East Asian Calligraphy. 3 Credits.

Writing of Chinese characters with traditional writing implements. No knowledge of the language required. Covers the history, aesthetics, and philosophy of East Asian scripts and calligraphy and their relationships to paintings, seal carving, and literature. Same as EALL 1075.

FA 1201. Sculpture: Material Investigations. 3 Credits.

Beginning study of design and fabrication of sculpture. Introduction to sculptural techniques across multiple media, with a focus in hand-built processes including textile, wood, and found object techniques. Materials fee.

FA 1301. Drawing Fundamentals. 3 Credits.

Fundamentals of line, shape, value, contrast, composition, and mark making. Emphasis on working directly from life. Traditional and contemporary strategies and skills for developing technique, process, and meaning. Conceptual issues. Materials fee.

FA 1401. Painting: Visual Thinking. 3 Credits.

Development of technical and perceptual skills that are the foundation of visual expression. Beginning projects start with a simple introduction to the mechanics of paint handling: how to begin a painting, apply paint, and model form. Value, line, color, and abstraction.

FA 1501. Black & White Photography. 3 Credits.

Introduction to the materials and processes of black-and-white photography. Camera operations, film processing, printing, and presentation methods. Technical skills. The visual language of photography. Materials fee.

FA 1502. Color Photography. 3 Credits.

Introduction to the materials and processes of color photography. Color theory, exposure techniques, film scanning, digital color correcting, and printing. The use of color as a means of visual communication and creative expression. Materials fee.

FA 1601. New Media: Digital Art. 3 Credits.

Introduction to the tools and processes of digital, electronic, and time-based arts. Development of technical skills necessary for using the computer as a creative tool. The history and current role of digital representation and distribution in art, ideas, and relationships. Materials fee.

FA 2125. Ceramics: Wheelthrown Functional Forms. 3 Credits.

Aesthetic and technical development of wheelthrown ceramic forms. Exploration of attachments: lids, spouts, handles, and footing devices. Sketches and technical drawings, clay and glaze-making tests, varied temperature firings in reduction and oxidation atmospheres. Prerequisite FA 1015.

FA 2127. Ceramic Design in Handbuilding. 3 Credits.

Handbuilding techniques of pinch, coil, slab, hump and press mold, paddling, and hollowing. Sketch studies, clay and glaze tests. Orientation to studio operations and maintenance.

FA 2131. Ceramic Sculpture. 3 Credits.

Developing an understanding of the sculptural ceramic form that integrates both quality and creativity. Techniques in hollow and solid construction. Varied temperature firings in reduction and oxidation atmospheres.

FA 2139. Special Topics: Ceramics. 3 Credits.

Prerequisite: FA 1014 or FA 1015 or permission of instructor.

FA 2140. Sculpture III. 3 Credits.

Advanced techniques in a variety of media. Prerequisite: FA 1017 or FA 1018.

FA 2149. Special Topics: Sculpture. 3 Credits.

Prerequisite: FA 1017 or FA 1018 or permission of instructor.

FA 2151. Advanced Drawing Techniques. 3 Credits.

Investigation of the common concerns and creative processes that have dissolved boundaries between drawing and painting in the late 20th century. Prerequisite: FA 2150.

FA 2159. Special Topics: Drawing. 3 Credits.

Prerequisite: FA 1021 or FA 1022 or permission of instructor.

FA 2160. Figure Painting: Observation and Gesture. 3 Credits.

Consideration of the process of vision as mediated through manipulation of paint to form an image. Development of solutions to clarity, articulation, energy, and finish. Prerequisite: FA 1026 or FA 1027.

FA 2161. Problems in Color. 3 Credits.

Exploration of the objective rationale and subjective experience of color through the execution of problems in color contrast and color scales. Prerequisite: FA 1026 or FA 1027.

FA 2162. Painting: Contemporary Issues. 3 Credits.

Examples from contemporary art serve as starting points for discussion of the creative process. Postmodern strategies to rethink and challenge various hierarchies of subject, style and medium. Prerequisite: FA 1026 or FA 1027.

FA 2169. Special Topics: Painting. 3 Credits.

Prerequisite: FA 1026 or FA 1027 or permission of instructor.

FA 2172. Photography: Contemporary Issues. 3 Credits.

Emphasis on the incorporation of contemporary strategies, trends, and approaches into the student's personal practice. The work of contemporary artists who use photography will inform the work produced. Prerequisite: FA 1041 or FA 1042.

FA 2179. Special Topics: Photography. 3 Credits.

Prerequisite: FA 1041 or FA 1042 or permission of instructor.

FA 2189. Special Topics: New Media. 3 Credits.

Prerequisite: FA 1071 or permission of instructor.

FA 2190. Special Topics: Fine Arts. 3 Credits.**FA 2193. Professional Practices. 3 Credits.**

A wide overview of the contemporary art world, including how artists promote their work to galleries, public art organizations, and museums; writing successful grant proposals, artist statements, essays, and reviews; and comparing the quality of venues for art and art journalism.

FA 2211. Sculpture Fabrication. 3 Credits.

Intermediate to advanced fabrication techniques including woodworking, metal fabrication, mold-making, and textiles. Focus on developing safe and creative uses of more advanced sculptural techniques and tools in the context of site-specific projects. Materials fee. Prerequisites: FA 1017 or FA 1201 or permission of the instructor.

FA 2312. Advanced Drawing Techniques. 3 Credits.

Investigation of drawing as an organizing tool for thought, analysis, and personal imagery. Drawing as a method to integrate complex ideas and concepts into the visual field. Materials fee. Prerequisites: FA 1021 or FA 1301 or permission of the instructor. Same as FA 2151.

FA 2613. Site and Sound. 3 Credits.

An overview of contemporary sonic art practice and audio production. Audio storytelling, spatialized sound, and site-based sonic artwork. Critical perspectives on sound and audio practice. Prerequisites: One of FA 1042, FA 1071, FA 1502 or FA 1601 or permission of the instructor.

FA 3901. Special Topics: Fine Arts. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Laboratory fee. Prerequisites: FA 1014 or FA 1015 or FA 1017 or FA 1021 or FA 1026 or FA 1041 or FA 1042 or FA 1071 or FA 1101 or FA 1102 or FA 1201 or FA 1301 or FA 1401 or FA 1501 or FA 1502 or FA 1601 or permission of the instructor.

FA 4195. Critical Practices. 3 Credits.

This structured independent study consists of weekly group critiques that bring together students working in a variety of media. Discussions, which range from practical to aesthetic issues, challenge students to focus and articulate their visual knowledge. Prerequisite: permission of instructor.

FA 4199. Internship. 3 Credits.

Open only to candidates for the B.A. in fine arts with approval of the advisor in fine arts. May not be repeated for credit toward the degree. May be taken P/NP only.

FA 6231. Ceramic Sculpture. 3 Credits.

Developing an understanding of the sculptural ceramic form that integrates both quality and creativity. Techniques in hollow and solid construction. Varied temperature firings in reduction and oxidation atmospheres.

FA 6233. Architectural Ceramics. 3 Credits.

Advanced studies in ceramic murals and sculptures designed for indoor and outdoor architectural concepts. Laboratory tests and activities.

FA 6239. Special Topics: Ceramics. 3 Credits.**FA 6249. Special Topics: Sculpture. 3 Credits.****FA 6250. Drawing III. 3 Credits.**

Advanced investigation of drawing as an organizing tool for thought, analysis, and personal imagery. Traditional and contemporary approaches to topics related to perceptual and conceptual concerns.

FA 6251. Advanced Drawing Techniques. 3 Credits.

Investigation of the common concerns and creative processes that have dissolved boundaries between drawing and painting in the late 20th century.

FA 6259. Special Topics: Drawing. 3 Credits.**FA 6260. Figure Painting: Observation and Gesture. 3 Credits.**

Consideration of the process of vision as mediated through manipulation of paint to form an image. Development of solutions to clarity, articulation, energy, and finish.

FA 6261. Problems in Color. 3 Credits.

Exploration of the objective rationale and subjective experience of color through the execution of problems in color contrast and color scales.

FA 6262. Painting: Contemporary Issues. 3 Credits.

Examples from contemporary art serve as starting points for discussion of the creative process. Postmodern strategies to rethink and challenge various hierarchies of subject, style and medium.

FA 6269. Special Topics: Painting. 3 Credits.**FA 6270. Advanced Photography: Exposure and Printing Techniques. 3 Credits.**

Pre-visualization, accurate exposure and development, and the craft of black-and-white printmaking. Techniques and strategies for creation of a portfolio that is aesthetically and conceptually engaging.

FA 6271. Advanced Photography: Digital Color Printing. 3 Credits.

Further development of color theory and the technical skills to make high-quality inkjet prints. Critiques and discussion of contemporary artistic practice.

FA 6272. Photography: Contemporary Issues. 3 Credits.

Emphasis on the incorporation of contemporary strategies, trends, and approaches into the student's personal practice. The work of contemporary artists who use photography will inform the work produced.

FA 6279. Special Topics: Photography. 3 Credits.**FA 6280. New Media: Digital Illustration. 3 Credits.**

Advanced investigation of two- and three-dimensional drawing and illustration techniques. Print and/or digital portfolio preparation. Prerequisite: FA 1071 or permission of instructor.

FA 6281. New Media: Digital Imaging. 3 Credits.

Advanced examination of bit-mapped imaging techniques. Methods of electronic dissemination of visual information. Prerequisite: FA 1071 or permission of instructor.

FA 6282. New Media: Time-based Visual Expression. 3 Credits.

An examination of contemporary two-dimensional animation, video, and multimedia systems and applications, including individual portfolio projects. Prerequisite: FA 1071 or permission of instructor.

FA 6289. Special Topics: New Media. 3 Credits.

Prerequisite: FA 1071 or permission of instructor.

FA 6290. Special Topics: Fine Arts. 3 Credits.

May be repeated for credit provided the topic differs. Restricted to graduate students only. (Same as FA 2190).

FA 6291. Contemporary Art and Theory for Artists I. 3 Credits.

Part I of a two-semester course that addresses a detailed and thematic history of contemporary art since the late 1960s, along with an introduction to key theoretical ideas shaping contemporary philosophy, art practices, and art history. Restricted to MFA in Fine Arts students or departmental permission only.

FA 6292. Contemporary Art and Theory for Artists II. 3 Credits.

Part II of a two-semester course that addresses a detailed and thematic history of contemporary art since the late 1960s, along with an introduction to key theoretical ideas shaping contemporary philosophy, art practices, and art history. Restricted to MFA in Fine Arts students or departmental permission only. Recommended background: FA 6291.

FA 6293. Professional Practices. 3 Credits.

A critical guide for understanding the infrastructure of the art world through analysis of various sustainable models of contemporary art practice for young artists. Establishing practical modes of criticism, promotion, fundraising and entrepreneurship in relation to exhibiting one's work, seeking venues, conducting studio visits, managing budgets, and writing grants, press releases, and artist statements. Restricted to Graduate students only. (Same as FA 2193).

FA 6294. Writing in Practice. 3 Credits.

Consideration of a wide variety of key artists' writings and the ways in which artists incorporate writing into their overall artistic practices. Issues and methods discussed may include questions of intention, the reciprocity of an artwork, agency and locational identity, defining a public/audience, and perceptions of care and engagement. Writing exercises in observation, concepts, and medium/genre. Restricted to Graduate students only.

FA 6295. Critical Practices. 3-7 Credits.

This structured independent study consists of weekly group critiques that bring together students working in a variety of media. Discussions, which range from practical to aesthetic issues, challenge students to focus and articulate their visual knowledge.

FA 6296. Studio Visits. 3 Credits.

Ongoing critical discourse about each student's creative work through regular studio visits with the instructor, as well as one-time visits by international, national, and regional artists. This course will challenge students to interrogate and more fully articulate their individual practices. Restricted to MFA in fine arts students only.

FA 6298. Internship. 3-6 Credits.

Open only to M.F.A. candidates with the approval of the advisor in fine arts. May be repeated to a maximum of credits.

FA 6998. Thesis Research. 3 Credits.**FA 6999. Thesis Research. 3 Credits.**

FORENSIC PSYCHOLOGY (FORP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FORP 6101. Psychology and the Legal System I. 3 Credits.

Focuses on the paradigm differences in the mental health and legal systems and the challenges associated with integrating the two. Provides the students with an overview of the American legal system and the American mental health system. Discusses various areas of the intersection of the two systems in criminal, civil, juvenile, and family law settings. The role and ethics of the mental health professional in legal settings is addressed.

FORP 6102. Psychology and the Legal System II. 3 Credits.

Students will be introduced to basic legal research with an emphasis on developing an ability to read and understand primary legal materials. Legal concepts of criminal competence and legal insanity are discussed. Constitutional notions of due process and fair treatment as they pertain to the mentally ill, developmentally disabled and children are reviewed with an emphasis on their evolution and current trends. The concept of dangerousness as it applies in both criminal civil commitment and sex offender commitment proceedings is reviewed. Prerequisites: FORP 6101.

FORP 6103. Theories of Criminal Behavior. 3 Credits.

Theories of criminal behavior are discussed from the standpoint of psychodynamic theories, theories of cognition, biological and genetic theories, social learning and behavioral theories. Developmental and cultural issues in criminal behavior are reviewed. The interrelationship between these and other more sociological theories is discussed. Specific attention is given to particular areas of concern surrounding violence and aggression, sex offenses and the role of substance abuse in criminal behavior.

FORP 6104. Psychopathology. 3 Credits.

This course explores the etiology and classification of mental disorders. Manifestations, symptoms, and basic treatment issues are discussed within the framework of the DSM-5 diagnostic manual. Emphasis is given to those disorders and categories that are a primary focus in forensic settings.

FORP 6105. Basics of Psychological Assessment. 3 Credits.

This course is designed to provide an introduction to the field of psychological assessment, including familiarizing the student with test design, methodology, psychometrics, and report design. Includes a survey of frequently used objective and projective measures in the areas of cognitive, personality, and emotional functioning and their forensic application.

FORP 6106. Ethics in Forensic Psychology. 3 Credits.

Professional, ethical, and legal issues are explored within the context of forensic psychology practice. Expectations for professional and ethical behavior as it relates to forensic psychological services are presented, as defined by the applicable ethical codes (APA, ACA and ABA). Ethical dilemmas or conflicts between psychology and the law are presented and discussed from the vantage points of psychology and the law.

FORP 6107. Research and Statistics. 3 Credits.

An overview of research methods, techniques, and implementation. The basic descriptive and inferential statistics in psychology. Emphasis will be given to training the student in the interpretation of published studies and normative data in assessments. Restricted to Forensic Psychology students.

FORP 6108. Consultation and Testimony. 3 Credits.

The role of the forensic practitioner will be explored in the context of providing services within the legal system and other related organizations, including evidentiary issues with regard to expert testimony as well as a discussion of techniques for successfully presenting psychological testimony. A practical approach to effective consultation with other disciplines, including attorneys, mental health providers, and criminal justice personnel will be presented. A review of research in the area of jury selection will be discussed.

FORP 6109. Evaluation and Treatment of Offenders. 3 Credits.

This course will review approaches to classification of offenders, particularly around concepts of dangerousness and psychopathy, and review treatment approaches in different settings within the criminal justice system. The course will discuss the history of offender treatment and the relative merits of different treatment models commonly used in offender rehabilitation. It will also review ongoing research into new and emerging treatment models.

FORP 6110. Forensic Psychological Assessment. 3 Credits.

An examination of forensic evaluations, including competency to stand trial, criminal insanity defenses, pre-sentencing and risk of dangerousness evaluations. Communication of assessment results to the courts or other referral sources will be addressed. Students will also develop a theoretical understanding and practical experience selecting and administering specialized forensic assessment instruments. Issues related to the forensic evaluator's role and their legal and ethical responsibilities are included. Prerequisites: FORP 6105.

FORP 6111. Evaluation and Treatment of Sex Offenders. 3 Credits.

The focus of this course will be on measures utilized in assessing sex offenders with a focus on predicting dangerousness and recidivism. Theories about the interpersonal and intrapsychic presentations of this type of offender will be examined in such areas as deviant arousal and cognitive distortions. Treatment modalities will be discussed. Legal and ethical difficulties arising from mandatory treatment and long term commitment for dangerous sex offenders will be discussed.

FORP 6112. Substance Abuse Evaluation and Treatment. 3 Credits.

This course will examine some underlying ideas of the pathology of addiction including psychodynamic theories, genetic and biological theories and those involving more environmental focus. Current assessment and intervention techniques will be reviewed along with current trends in treatment including psychopharmacological, psychodynamic and cognitive-behavioral approaches.

FORP 6113. Victimology. 3 Credits.

The goal is to familiarize the student with an understanding of the psychology of the victim within social and cultural contexts. Violent, sexual, and psychological victimization will be explored as well as the relationship between prior victimization as a precursor in criminal behavior. Prevention, intervention, and policy issues will also be addressed.

FORP 6114. Issues in Family Law. 3 Credits.

The psycho-legal issues concerning divorce, child custody, guardianship, and intrafamily violence and sex offending. Dispute resolution methods as an alternative to litigation with a particular emphasis on divorce mediation. Child custody evaluation and the evaluation of the elderly. Ethical and legal difficulties in this area will be discussed.

FORP 6115. Children and Adolescents in the Legal System. 3 Credits.

The focus of this course will be on the differences in the treatment of underage offenders from adults in the legal system. The history and role of the juvenile justice system from both legal and mental health perspectives will be reviewed. Developmental aspects of the minor's offending, including status offenses will be discussed as well as the role of the psychologist in court proceedings involving juvenile offenders. Recent trends dealing with ideas of the increasing criminalization of juvenile conduct and the waivers of juveniles to the adult system will be explored.

FORP 6117. Interrogation and Interviewing. 3 Credits.

Techniques of interrogation and interviewing in both criminal- and terrorism-related investigations. Cultural aspects of interviewing, the problem of false confessions, and the use of the polygraph. Legal and ethical issues surrounding interrogations, including the use of coercive techniques. Restricted to students in the forensic psychology program. Prerequisites: FORP 6101, FORP 6103 and FORP 6104.

FORP 6118. Psychological Profiling. 3 Credits.

The strengths and limitations of psychological profiling in criminal investigations. The main psychological principles upon which criminal profiling is based and crime scene analysis and its relationships to both the demographic and psychological characteristics of a pool of unknown offender suspects. Methods to identify potential serial offenses will be examined. Legal and ethical issues with regard to the use of profiling will be explored. Restricted to Forensic Psychology students. Prerequisites: FORP 6101, FORP 6103, and FORP 6104.

FORP 6119. Police Psychology. 3 Credits.

The focus of this course is on the psychological aspects of working within or for police agencies. Areas to be covered include personality assessment as to suitable candidates for police work, the stress involved in the work with attendant adverse psychological consequences (including aspects of legal liability) and continuing assessment of police officers after critical incidents. Ethical and practical problems for the mental health professional when working within or for a police organization will be discussed as will services available for troubled officers.

FORP 6120. Counterintelligence. 3 Credits.

Counterintelligence considered from the perspectives of intelligence agencies, terrorist groups, and industry. The interconnection of psychological factors, motivations, strategic intent, and defense measures. Current and potential threats are assessed, including cybersecurity and cognition security. Restricted to students enrolled in the forensic psychology program.

FORP 6121. Theories of Counseling. 3 Credits.

An introduction to basic counseling and psychotherapeutic theories, from individual, group, and systems perspectives (e.g., Psychodynamic, Existential, Gestalt, Person-Centered, Behavioral, Cognitive, Multicultural Theories). Relevant research is discussed and the application of these theories in a variety of therapeutic settings with an emphasis on forensic populations is explored.

FORP 6122. Counseling Techniques. 3 Credits.

This course provides an integration of counseling methods and strategies, as well as developing the student's practical skills in basic interviewing and counseling. Central topics include the goals of each phase of treatment, development of a therapeutic alliance, and techniques and interventions in short- and long-term treatment with a variety of forensic populations. Prerequisite: FORP 6121.

FORP 6123. Human Development. 3 Credits.

Provides an understanding of the theories of individual and family development and transitions across the life span, as well as theories of personality development and the role of cultural, environmental, and social factors. Course also provides an integration of the interplay between development and other factors to help explain criminal behavior. A survey of counseling strategies for facilitating development over the life span is included.

FORP 6124. Group Therapy. 3 Credits.

Theoretical and experiential understanding of group therapy and group counseling methods and skills with an emphasis on correctional and other forensic populations. Examines the principles of group dynamics, therapeutic factors, member roles and behaviors, leadership styles and approaches, selection criteria, and short- and long-term group process.

FORP 6125. Career Counseling. 3 Credits.

A consideration of theory, practice, and the body of information related to career counseling, choice, and development over the life span. Covers assessment instruments and techniques relevant to career counseling. This course will offer the theoretical foundation and practical experience necessary to understand and support career development needs for diverse individual clients and groups, with an emphasis on the special issues and challenges facing pre-release and recently released offenders.

FORP 6126. Multicultural Counseling. 3 Credits.

Course focuses on developing an understanding of the role of cultural, ethnic, and racial differences in mental health treatment in order to work effectively with diverse individuals and groups. The impact of the therapist's own identity and values is also explored. Emphasis is given to individual, family and group counseling strategies tailored toward diverse populations in a variety of forensic settings.

FORP 6127. Marriage & Family Counseling. 3 Credits.

Principles of work with couples and families, including an overview of systems theories and strategies of family life cycle development. Explores the use of family dynamics and counseling techniques for evaluation and treatment. The usefulness and application of marital and family therapy with forensic populations is also covered. Intervention strategies will address cultural issues and ethical considerations.

FORP 6128. Terrorism and Counterterrorism. 3 Credits.

Examination of the history and current status of terrorism and counterterrorism; psychological constructs motivating terrorist activity and countering the terror of terrorism; current scientific studies of the interplay between psychological factors, cultural norms, and religious ideations; and potential and future threats related to internet crime. Restricted to students in the forensic psychology program.

FORP 6130. Practicum/Externship. 0-1 Credits.

This one-credit course is comprised of 250 hours of externship training tailored to a student's professional interest and can be completed over multiple semesters. Students should enroll in the one (1) credit option in the semester in which they will complete the required 250 training hours. Students should enroll for zero (0) credits for all other semesters in which they will participate in the externship but not complete all of the required training hours. Prerequisites: FORP 6101, FORP 6103, FORP 6104.

FORP 6150. Advanced Topics in Forensic Psychology. 0-12 Credits.

Current topics in forensic psychology. Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisites: FORP 6101, FORP 6103, and FORP 6104.

FORENSIC SCIENCES (FORS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FORS 2104. Introduction to Forensic Sciences. 3 Credits.

Topics in the application of science to the criminal justice system, including personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology. Prerequisites: two semesters of a laboratory science other than astronomy and permission of instructor.

FORS 2104W. Introduction to Forensic Sciences. 3 Credits.

Topics in the application of science to the criminal justice system, including personal identification, analysis of drugs, forms of trace evidence, identification of biological fluids, forensic pathology, and forensic toxicology.

FORS 2118. Introduction to Computer Systems for Security Professionals. 3 Credits.

Aspects of computer systems and software that directly relate to media analysis, i.e., storage, memory, the structure of file systems, and system peripherals that may contain evidence. Laboratory fee.

FORS 2119. Introduction to Network Systems for Security Professionals. 3 Credits.

Aspects of network tools, administrative tools, network protocols, and fundamentals of TCP/IP that can be used to carry out a network-based attack. Development of a working knowledge of how information is processed and can be intercepted on the Internet/Intranet. Laboratory fee.

FORS 2190. Topics in Forensic Science. 3 Credits.

Prerequisite: Any combination of two courses from BISC 1005- BISC 1006 or CHEM 1003- CHEM 1004 and junior standing.

FORS 6004. Fundamentals of Forensic Science I. 3 Credits.

This course will survey crime scene investigation techniques, medicolegal death investigation, and patterned evidence examination. This will satisfy the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of crime scene investigation, physical evidence concepts, and pattern evidence. This course will help students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of firearms and toolmarks, fingerprints, and questioned documents. Lectures will be given by faculty members and guest lecturers who are subject matter experts on the topic presented. This course includes a four hour laboratory (fingerprints). This is a required course for MFS and CSI students. This course, along with FORS 6005 Fundamentals of Forensic Science II, replaces FORS 6213, Elements of Forensic Science (3 Credits). Prerequisites: None.

FORS 6005. Fundamentals of Forensic Science II. 3 Credits.

This course will survey the traditional crime laboratory (criminalistics) disciplines—specifically forensic drug chemistry, forensic toxicology, trace evidence, fire debris, explosives, and forensic molecular biology. This will satisfy the 10 hours instruction for a FEPAC accredited MFS degree in the core topics of analytical chemistry and instrumental methods of analysis, drug chemistry/toxicology, microscopy and materials analysis, and forensic biology. This course will help students prepare for the American Board of Criminalistics ("ABC") examination in the disciplines of forensic biology, trace evidence, fire debris, controlled substances, and toxicology/blood alcohol determinations. Lectures will be given by faculty members and guest lecturers who are subject matter experts on the topic presented. This course includes three four hour laboratories (mass spectrometry, microscopy, DNA). This is a required course for MFS and CSI students. This course, along with FORS 6004 Fundamentals of Forensic Science I, replaces FORS 6213, Elements of Forensic Science (3 Credits). Restricted to None.

FORS 6020. Ethics, Professional Responsibility, and Quality Assurance. 2 Credits.

Issues of forensic science laboratory professional responsibility, including ethics, public policy, and quality assurance. Satisfies 10 hours of instruction for a Forensic Science Education Programs Accreditation Commission (FEPAC) accredited M.F.S. degree in the core topics of ethics and professional responsibility and quality assurance; also assists in preparation for the American Board of Criminalistics examination in the area of ethics. Taken online during the summer session.

FORS 6201. Forensic Biology. 3 Credits.

Principles of the forensic analysis of blood and other biological materials. Specific procedures and techniques used in forensic biology and serology. Laboratory fee.

FORS 6202. Instrumental Analysis. 3 Credits.

Principles and application of various instrumental methods to the examination of physical evidence, including chromatographic and spectroscopic techniques and mass spectrometry. Laboratory fee.

FORS 6203. Examination of Questioned Documents. 3 Credits.

Theory and principles of handwriting and handprinting, duplicating processes, paper manufacture and fiber analysis; studies of paper and methods of examining questioned documents. Laboratory fee.

FORS 6204. Firearms and Toolmark Identification. 3 Credits.

Methods for identifying firearms, bullet cartridge casings, toolmarks, gunshot residue, obliterated serial numbers, tire marks, and footprints. Laboratory fee.

FORS 6206. Trace Evidence Analysis. 3 Credits.

Principles that govern the analysis of trace evidence, including recovery, transference, interpretation, and comparison. Assessment of evidentiary value, reporting, and court testimony. Laboratory fee.

FORS 6207. Photography in the Forensic Sciences. 3 Credits.

Basic use of forensic photography, including selection and use of equipment, photographs as evidence, close-up work, and common misconceptions. Laboratory fee.

FORS 6210. Advanced Instrumental Analysis. 3 Credits.

Theory and practice of modern instrumental methods used in forensic laboratories, including mass spectrometry, optical spectroscopy, microscopy, chromatographic and electrophoretic separations. It is a required course for MFS students with concentration in Forensic Chemistry and Forensic Toxicology. Recommended background: undergraduate analytical methods.

FORS 6213. Elements of Forensic Sciences. 3 Credits.

FORS 6215. Science of Fingerprints. 3 Credits.

A general overview of the history and biology of and principles underlying the science of fingerprints. Latent print development methods, recording, classification, and methodology of comparison of fingerprints and palm prints to include latent prints. Subject matter is covered at an introductory level; additional study is required to develop expertise as a latent fingerprint examiner. Restricted to None. Prerequisites: None.

FORS 6216. Development of Latent Prints. 3 Credits.

This Advanced Fingerprint Science Course will provide the students an increased understanding of the main principles of fingerprint identification: uniqueness and persistence. The course is broken down into three main sections, which will address the chemistry behind processing fingerprints, the anatomy and physiology of friction ridge skin and the extensive research that has been conducted in the field of fingerprint science. The students will be required to complete a skills processing exam to assess their understanding and ability to develop latent prints on items of evidence. In addition, there will be a written examination covering the topics of biology and development of friction ridge skin and a final comprehensive exam. Upon conclusion of this course, each student should have a firm grasp of why friction ridge skin can be used as a means of identification. Recommended background: FORS 6215.

FORS 6217. Fingerprint Comparisons. 3 Credits.

In-depth study of analysis, comparison, evaluation, and verification (ACE-V) methodology; assessing the quality and quantity of information and establishing a tolerance for comparison using the effects of distortion; uniqueness and persistence; anatomy and embryology of friction ridge skin. Laboratory fee. Prerequisites: FORS 6215.

FORS 6219. Digital Image Processing. 3 Credits.

FORS 6224. Criminal Law for Forensic Scientists. 3 Credits.

This course will provide an overview of criminal law offenses, criminal law procedures, issues of evidence recovery, admissibility of scientific evidence, and expert testimony, with an emphasis on the interaction between the criminal process and forensic science. A moot court experience is integral to this course. (This course combines and replaces Crim Law I and III.).

FORS 6225. Statistics for Forensic Scientists. 3 Credits.

Statistics with a focus on forensic applications. Emphasis on the Bayesian approach. Logical, probabilistic statistical reasoning skills, and R software skills. Course content is the basis for an examination question on the comprehensive examination. Students must have taken an undergraduate statistics course before registering. Restricted to None. Prerequisites: An undergraduate statistics course.

FORS 6231. Principles of Toxicology. 3 Credits.

Concepts of toxicology, including its historical development and modern applications, drug disposition, mechanisms of toxicity; factors that influence toxicity and toxicity evaluation.

FORS 6232. Analytical Toxicology. 3 Credits.

Principles and procedures used in the isolation, identification, and quantitation of drugs of abuse from human samples. Prerequisite: FORS 6202 or permission of instructor.

FORS 6234. Medicinal Chemistry I. 3 Credits.

Theory and principles of classification, synthesis, and structure activity relationships of drugs. Discussion of the complex chemical events that take place between administration of a drug and its action on the user, with emphasis on drugs of abuse.

FORS 6235. Medicinal Chemistry II. 3 Credits.

Chemical, pharmacological, toxicological, and pathological characteristics of commonly abused drugs, including ethanol, barbiturates, narcotics, stimulants, and hallucinogens.

FORS 6236. Forensic Toxicology I. 3 Credits.

Biological, chemical, and pharmacological principles that underlie forensic toxicology. Prerequisite: FORS 6235 or permission of instructor.

FORS 6237. Forensic Toxicology II. 3 Credits.

Lectures, student seminars, and projects dealing with topics of current interest in forensic toxicology. Prerequisite: FORS 6236 or permission of instructor.

FORS 6238. Forensic Chemistry I. 3 Credits.

Examination of glass and soils. Laboratory exercises include refractive index measurements using immersion methods; polarized light observations of minerals; x-ray diffraction analysis of minerals; and classical chemical and physical methods of analysis. Prerequisite: FORS 6202 or permission of instructor. Laboratory fee.

FORS 6239. Forensic Chemistry II. 3 Credits.

Examination of arson accelerants, textile fibers, plastics, and paints. Laboratory exercises include infrared spectrometry and pyrolysis-gas-liquid chromatography of polymeric materials, as well as classical chemical and physical methods of analysis. Prerequisite: FORS 6238 or permission of instructor. Laboratory fee.

FORS 6240. Forensic Drug Analysis. 3 Credits.

Examination of dosage forms of drugs. Laboratory exercises include color spot tests, crystal tests, infrared spectrometry and gas chromatography-mass spectrometry. Laboratory fee.

FORS 6241. Forensic Molecular Biology I. 3 Credits.

Techniques of molecular biology applied to the collection, examination, analysis, and interpretation of biological evidence.

FORS 6242. Forensic Molecular Biology II. 3 Credits.

Advanced methods of forensic molecular biology. Laboratory examinations and classifications of dried blood and other biological materials through a variety of nuclear and mitochondrial markers. Laboratory fee. Prerequisite: FORS 6241 and permission of instructor.

FORS 6243. Forensic Molecular Biology III. 3 Credits.**FORS 6246. Human Genetic Variation. 3 Credits.**

The genetic variation in human populations as a framework for measurement and analysis of genetic diversity and evolutionary process. Consideration of the possible roles of cultural change leading to adaptive/selective events. Same as ANTH 6406.

FORS 6247. Population Genetics. 3 Credits.

Origin, maintenance, and possible significance of genetic variation in populations. Selection, genetic drift, and population structure are emphasized. Both theoretical and applied aspects of population genetics are discussed. Same as BISC 6228.

FORS 6250. Crime Scene Investigation for Lab Personnel. 3 Credits.

A condensed offering of the subject matter of FORS 6251-FORS 6252. FORS 6250 cannot be taken for credit toward the crime scene investigation concentration. Laboratory fee.

FORS 6251. Crime Scene Investigation I. 3 Credits.

Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6252. Crime Scene Investigation II. 3 Credits.

Continuation of FORS 6251. Examination, analysis, and reconstruction of crime scenes. Principles from biology, chemistry, and physics applied to identification, documentation, preservation, and collection of physical evidence. Laboratory fee.

FORS 6254. Forensic Psychiatry. 3 Credits.

Introduction to the constructs of dynamic psychiatry, psychiatric treatment, and the nomenclature of mental disorders. Consideration of expert testimony, direct examination, and cross-examination in hospitalization and criminal cases.

FORS 6255. Investigation of Child Abuse. 3 Credits.

This course integrates medical, scientific, psychological, sociological and legal information for investigators and professionals involved in the field of child abuse. Special emphasis will be placed on the application of research-supported data to situations involving the murder, abuse and exploitation of children.

FORS 6256. Forensic Pathology. 3 Credits.

Terminology and scientific techniques used in medico-legal investigations, sudden or unexpected deaths, homicides, suicides, accidental deaths, and trauma.

FORS 6257. Medicolegal Death Investigation. 3 Credits.

Medical, scientific, sociological, and legal methodologies applied to forensic investigations. Aspects of death scene analysis by a medical examiner, including autopsy procedures, unidentified remains, child death investigations, and mass disaster investigations. Prerequisite: FORS 6256 and permission of instructor. Laboratory fee.

FORS 6258. The Investigation of Sexual Assault and Other Sex Crimes. 3 Credits.

This course integrates medical, psychological, sociological and legal information for investigators and professionals involved in the field of sex crime investigation. Special emphasis will be placed on the application of research-supported data to situations involving the sexual exploitation and victimization of adults.

FORS 6259. Computer Related Law. 3 Credits.

A problem-oriented course that focuses on applying the holdings of cases and analysis of statutes to different criminal fact patterns. The course is designed to examine criminal law, criminal procedures, and evidence as it relates to computer crime and the collection/analysis of digital evidence. Open only to students enrolled in off-campus forensic sciences programs.

FORS 6260. Security Case Law. 3 Credits.

Negligence and liability, international torts, compensatory and punitive damages, and contract law. The exercise of security functions by private individuals and organizations.

FORS 6261. Security Management. 3 Credits.

An overview of the factors that shape modern security management: technology, law, ethics and societal changes. The course focuses on risk assessment and the necessity to identify, analyze, and counter threat.

FORS 6264. Computer Network Defense. 3 Credits.

Identification of common threats to enterprise information systems and the tools, techniques, and strategies for mitigating those threats. Access control concepts, methodologies, and implementation within centralized and decentralized environments across an enterprise's computer systems; common methods of cyber-attacks; principles, means, and methods for ensuring system integrity, confidentiality, and availability; auditing and monitoring technologies for preventative, detective, and corrective measures.

FORS 6271. Cyberpsychology. 3 Credits.

How cyberpsychology can be used in the conduct of digital forensic investigations; the role of the psychologist in and methods used for investigating cybercrime cases.

FORS 6273. Research Methods for Security Professionals. 3 Credits.**FORS 6277. Computer Forensics I: File System Analysis. 3 Credits.**

An introduction to the tools and procedures used for digital investigations. Analysis of the FAT, NTFS, EXT, and HFS file systems. How data is stored at the file system level. Laboratory fee. Restricted to students enrolled in the department or with approval of the program director.

FORS 6278. Computer Forensics II: Applied Computer Forensics. 3 Credits.

Application of the tools and techniques learned in FORS 6277. Digital forensics as it relates to both civil and criminal investigations; best practices in securing, processing, acquiring, examining, and reporting on digital evidence. Prerequisite: FORS 6277.

FORS 6279. Incident Response: Understanding and Identifying Network-Based Attacks. 3 Credits.

Computer network operations and network-based computer crime. Fraud schemes related to electronic commerce, theft of sensitive computer information, compromise of computer networks, and identity theft. Elements of proof of network-based crime are discussed. Prerequisite: FORS 6277 or approval of program director. Laboratory fee.

FORS 6280. Advanced Incident Response: Investigating Network-Based Attacks. 3 Credits.

Detecting and responding to network- and host-based intruders, integrating intrusion detection systems into network topologies, identifying methods hackers use to break into network systems, analyzing network traffic and detecting attacks, and creating an effective response strategy. Prerequisite: FORS 6279. Laboratory fee.

FORS 6283. Steganography and Electronic Watermarking. 3 Credits.

Digital data hiding techniques. Investigation of data hiding and labeling techniques, attacks against steganography and watermarked information; countermeasures to such attacks. Open only to students enrolled in the department or by approval of the program director. Laboratory fee. Prerequisite: FORS 6277, FORS 6278.

FORS 6284. Security Mgt Capstone Course. 3 Credits.**FORS 6285. High-Technology Crime Investigation Capstone Course. 3 Credits.**

For students in the final semester of the high-technology crime investigation program only. Simulation of a computer forensic investigation: developing an investigation plan, securing the crime scene, analyzing evidence, preparing the case for court, and testifying in a moot court situation. Laboratory fee.

FORS 6287. Project Management for Security Professionals. 3 Credits.**FORS 6288. The Investigative Process for Computer Forensics. 3 Credits.**

In-depth examination of the investigative process for computer-related crime in both criminal and civil sectors. Topics include identification and validation of information sources, development and handling of informants, interview and interrogation techniques, and managing the investigative process.

FORS 6290. Selected Topics. 3 Credits.

Current issues in research, investigation, and law.

FORS 6291. Computer Forensics III: Advanced Techniques. 3 Credits.

Further examination of methods and techniques used to conduct and report high-technology crime investigations. Open only to students enrolled in the department or by approval of the program director. Laboratory fee. Prerequisite: FORS 6278.

FORS 6292. Graduate Seminar. 1 Credit.

Students in designated forensic sciences degree programs must register for this course in their first semester and again after completion of the required independent research project.

FORS 6295. Research. 1-12 Credits.

Research on problems approved by the department, under the supervision of an appropriate member of the program faculty. Admission by permission only.

FORS 6298. Forensic Sciences Practicum. 1-3 Credits.

Internship experience in a forensic science laboratory or criminal justice agency, under the supervision of an appropriate member of the program faculty. Students must preregister for this course. Admission by permission only.

FORS 6998. Thesis Research. 3 Credits.**FORS 6999. Thesis Research. 3 Credits.**

FRENCH (FREN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

FREN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

FREN 1001. Basic French I. 4 Credits.

Handling the immediate context of daily experience in spoken and written French: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

FREN 1002. Basic French II. 4 Credits.

Speaking and writing in French about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Prerequisite: FREN 1001 . Laboratory fee.

FREN 1003. Intermediate French I. 3 Credits.

Increasing active vocabulary, reinforcing mastery of basic grammar, dealing with more complex structures (verbal phrases, subordinate clauses), and using some patterns of indirect speech (e.g., repeating or relaying messages, giving reports, summarizing). Prerequisite: FREN 1002 . Laboratory fee.

FREN 1004. Intermediate French II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: FREN 1003 . Laboratory fee.

FREN 1006. French Language & Culture I. 3 Credits.

Offered through the GW Paris Business Studies Program.

FREN 1007. French Language & Cultures II. 3 Credits.

Continuation of FREN 1006. Offered through the GW Paris Business Studies Program.

FREN 2005. Language, Culture & Society I. 3 Credits.

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Prerequisite: FREN 1004. Laboratory fee.

FREN 2006. Language, Culture & Society II. 3 Credits.

Continued expansion of the range and complexity of conversational skills and further development of the writing of effective expository prose on a broad range of contemporary subjects. Short texts serve as the basis for oral discussion, analytical reading, and writing brief critical essays. Prerequisite: FREN 2005. Laboratory fee.

FREN 2049. French for Graduate Students. 0 Credits.

For graduate students preparing for reading examinations. No academic credit. Tuition is charged at the rate of 3 credit hours.

FREN 3010W. Advanced French Grammar and Style. 3 Credits.

Composition, drills, dictations. Translations into French. Study of vocabulary and syntax, with emphasis on stylistic devices. Prerequisite: FREN 2006.

FREN 3020. Contemporary France. 3 Credits.

Emphasis on advanced oral work. Discussion of French culture and civilization, based on contemporary writings and video documents. Prerequisite: FREN 2006. Laboratory fee.

FREN 3030. Business & Commercial French. 3 Credits.

Structure and language of French economic institutions. Discussion of legal, financial, and administrative documents. Oral and written reports. Preparation for the certificate of the Paris Chamber of Commerce. Prerequisite: FREN 2006.

FREN 3100. Introduction to French Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods. French and Francophone literatures in their cultural contexts. Close reading approach and introduction to literary vocabulary. Prerequisite: FREN 2006.

FREN 3100W. Introduction to French Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods. French and Francophone literatures in their cultural contexts. Close reading approach and introduction to literary vocabulary. Prerequisite: FREN 2006.

FREN 3210. Medieval and Early Modern French Literature in Context. 3 Credits.

Texts of the Middle Ages to the 17th century studied in their historical, social, and cultural contexts. Topics may include feudal society and the literature of courtly love; humanism, Rabelais, and Renaissance poetry; women and salon writing; Versailles, absolutism, and classical theater.

FREN 3220. Modern French Literature. 3 Credits.

Texts of the 18th century to the present in historical, social, and cultural contexts. Topics may include philosophes and the rise of social consciousness; the French Revolution and Romanticism; dada and surrealism; existentialism and World War II; decolonization and francophone literature.

FREN 3290. Textual Analysis. 3 Credits.

Methodology and vocabulary of literary criticism. Application of various principles of textual analysis and critical approaches to literature.

FREN 3300. Topics in French and Francophone Literatures and Cultures in Translation. 3 Credits.

Dynamics of French-speaking societies and their cultures studied through literature, art, or film. Topics vary. Readings and lectures in English. The course may be repeated for credit. A laboratory fee may be required.

FREN 3400. Studies in Genre. 3 Credits.

Study in narrative, dramatic, or lyric form. Topics vary. May be repeated for credit.

FREN 3520. The Age of Classicism. 3 Credits.

Drama, philosophy, criticism, poetry, and fiction of the 17th century. Topics may include préciosité, baroque, Jansenism, classicism, and rationalism in the context of the major social, political, and religious movements of the period.

FREN 3530. The Age of Enlightenment. 3 Credits.

The major novelists, dramatists, and philosophes of the 18th century. The works of Montesquieu, Voltaire, Rousseau, and Diderot and their relationship to the social, political, and philosophical thought of the period.

FREN 3550. Studies in 20th-Century French Literature. 3 Credits.

Major literary movements of the 20th century: avant-garde, surrealism, existentialism, nouveau roman, and nouveau théâtre.

FREN 3560. Topics in 20th-Century Francophone Literature and Cinema. 3 Credits.

Analysis of relations between France and its former colonies as manifested in the literature and cinema of France and the Francophone world. Race and gender relations; exile; nationalism; and identity and place as seen through various literary and cinematic responses to the discourses of metropolitan France by its former colonies. Laboratory fee.

FREN 3600. Special Topics in French Literature. 3 Credits.

May be repeated for credit provided the topic differs.

FREN 3600W. Special Topics in French Literature and Culture. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Laboratory fee. Prerequisites: French 3100.

FREN 3700. History of French Cinema. 3 Credits.

French cinema from its inception to the "New Wave." The relationship of filmmaking and audience reception to the evolution of French society and political institutions. The language of cinema as it evolves according to periods and genres and as critics and filmmakers create a theoretical discourse specific to film. Laboratory fee.

FREN 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ HIST 4135.

FREN 4470. Writing Women. 3 Credits.

Dynamics of gender in French literature and culture with emphasis on women as agents and objects of representation. Gender roles in the formation of social biases, norms, and power structures. Texts range from the Middle Ages to the present.

FREN 4500. Studies in Medieval French Literature. 3 Credits.

Readings and analysis of the major literary texts from the 11th through 15th centuries. Chansons de geste, courtly literature, fabliaux, drama, lyric and didactic poetry.

FREN 4510. French Literature of the Renaissance. 3 Credits.

Sixteenth-century prose and poetry in the context of cultural and historical movements. Topics may include humanism; concepts of self and subjectivity; the wars of religion; the discovery of the New World; court and city life; the private and public spheres; religious and secular love.

FREN 4540. 19th-Century French Literature and Culture. 3 Credits.

Key aspects of 19th-century French literature in its historical, cultural, and political context. Major authors and literary movements are studied through the lens of a particular theme, which varies from year to year.

FREN 4600. Special Topics in French Literature. 3 Credits.

May be repeated for credit provided the topic differs.

FREN 4650. Lustful Women in French Medieval Literature. 3 Credits.

The representation of lustful women in French medieval texts and arts. We will read some of the most important novels and short stories of the Middle Ages, such as *La Châtelaine de Vergy*, *Tristan et Yseut*, and *Les Lais de Marie de France*. Prerequisite: FREN 3100W.

FREN 4700. Race Matters: Literature, Culture and Identity in Contemporary France. 3 Credits.

An interdisciplinary examination of cultural, political, and economic realities for Black populations in France. Prerequisites: FREN 3100W.

FREN 4800. Independent Study. 1-4 Credits.

Admission by permission of department chair and instructor. May be repeated for credit.

FREN 4910. Proseminar: Rdgs for the Major. 3 Credits.

Required of all majors; preparation of the senior essay. The specified topic in the history of French literature varies by year.

FREN 4920W. Proseminar II. 3 Credits.

Continuation of FREN 4910. Required of all majors; preparation of the senior essay. The specified topic in the history of French literature varies by year.

GEOGRAPHY (GEOG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOG 1000. Dean's Seminar. 3 Credits.**GEOG 1001. Introduction to Human Geography. 0-3 Credits.**

A systematic survey of human geography; spatial perspectives on demographic, social, cultural, economic, and political changes around the world.

GEOG 1002. Introduction to Physical Geography. 4 Credits.

A systematic survey of environmental geography; perspectives on environments and human ecology, including ecosystems and their use, and resource geography. Laboratory fee.

GEOG 1003. Society and Environment. 0-3 Credits.

An introduction to the dynamic relationship between society and the physical environment, with focus on population, natural resources, environmental degradation, pollution, and conservation.

GEOG 2104. Introduction to Cartography and GIS. 3 Credits.

Fundamentals of cartography; geographic data structure and information systems. Laboratory fee.

GEOG 2105. Techniques of Spatial Analysis. 3 Credits.

Nature of geographical inquiry and analytical methods used in the study of spatial processes and patterns. Laboratory fee.

GEOG 2107. Introduction to Remote Sensing. 3 Credits.

Remote-sensing techniques using digital satellite imagery and aerial photography. Application to rural and urban settings, vegetation, and environmental monitoring. Laboratory fee. Prerequisite: GEOG 2105 or permission of instructor.

GEOG 2108. Weather and Climate. 3 Credits.

The elements and controls of weather and climate. Topics include energy and water balances, atmospheric general circulation, and severe weather events. Prerequisite: GEOG 1002.

GEOG 2110. Climate and Human Ecology. 3 Credits.

Interrelationships between human activities and the climatic environment. Emphasis on global climatic change. Prerequisite: GEOG 1002.

GEOG 2120. World Regional Geography. 3 Credits.

Practical approach to the themes, concepts, and tools appropriate for in-depth examination of the geography of the world's. Historical and physical regional geographies; contemporary regional issues; and intra- and interregional issues.

GEOG 2124. Urban Transportation. 3 Credits.

The relationship between freight and passenger transportation systems and urban land use patterns and structure. Prerequisite: GEOG 1001.

GEOG 2125. Transportation Systems and Networks. 3 Credits.

The structure and evolution of transportation networks and their impact on regional development.

GEOG 2127. Population Geography. 3 Credits.

Patterns of world population; factors contributing to population pressures, growth, and migrations.

GEOG 2128. Geomorphology. 3 Credits.

Understanding the nature, origin, and development of landforms in the field and through the use of maps and aerial photos. Prerequisite: GEOG 1002.

GEOG 2133. People, Land, and Food. 3 Credits.

Domestication and dispersal of plants and animals; development of agricultural systems; spatial disparities in world food production, demand, and distribution.

GEOG 2134. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations. Prerequisite: GEOG 1002.

GEOG 2134W. Energy Resources. 3 Credits.

Analysis of regional patterns and trends in consumption and production of energy resources. Examination of international energy linkages and energy policies of selected nations. Prerequisite: GEOG 1002.

GEOG 2136. Water Resources. 3 Credits.

Analysis of the global spatial patterns, development, use, and quality of water resources. Prerequisite: GEOG 1002.

GEOG 2137. Environmental Hazards. 3 Credits.

Examination of environmental hazards with emphasis on the use of geographic information systems.

GEOG 2140. Cities and Societies. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change. Prerequisite: GEOG 1001.

GEOG 2140W. Urban Geography. 3 Credits.

The design and function of cities in the United States; contemporary, economic, political, and social change. Prerequisite: Geog 1001.

GEOG 2141. Cities in the Developing World. 3 Credits.

Urbanization processes, problems, and management in the developing world. Focus on urban location, politics, housing, services, employment, and environmental issues. Prerequisite: GEOG 1001.

GEOG 2144. Explorations in Historical Geography. 3 Credits.

Examination of selected themes in the cultural geography of the United States over the course of its history, in relation to an overview of the historical geography of the country. Same as AMST 2144.

GEOG 2145. The Cultural Landscape. 3 Credits.

The distribution and dynamics of cultural patterns around the world; analysis of culture as a process.

GEOG 2145W. Cultural Geography. 3 Credits.

The distribution and dynamics of cultural patterns around the world; analysis of culture as a process.

GEOG 2146. Political Geography. 3-4 Credits.

Interrelationships among the human and physical environment and political systems; the organization of political territories.

GEOG 2147. Military Geography. 3 Credits.

An examination of environmental and locational factors and their impact on military planning and operations.

GEOG 2148. Economic Geography. 3 Credits.

Locational influences on and spatial variation of the development of manufacturing, services, trade, and finance. Prerequisite: GEOG 1001.

GEOG 2196. Field Methods in Geography. 3 Credits.

For geography and environmental studies majors in their junior or senior year. Field research in human and physical geography. Students participate in several field exercises and develop their skills of observation, field mapping, repeat photography, and surveys. Laboratory fee.

GEOG 3106. Intermediate Geographic Information Systems. 3 Credits.

Principles of geographic information systems and their use in spatial analysis and information management. Laboratory fee. Prerequisite: GEOG 2104 and GEOG 2105.

GEOG 3132. Environmental Quality and Management. 3 Credits.

The evolution of environmental management philosophies and tools. The global distribution, utilization, and degradation of natural resources. Prerequisite: GEOG 1002.

GEOG 3143. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Prerequisite: GEOG 1001.

GEOG 3143W. Urban Sustainability. 3 Credits.

Relationship between urban spaces and the environment through the lens of sustainability. Prerequisite: GEOG 1001.

GEOG 3154. Geography of the Middle East and North Africa. 3 Credits.

Cultural and physical regional patterns of the Middle East and North Africa. Prerequisite: Geog 1001 or GEOG 1002.

GEOG 3161. Geography of Latin America. 3 Credits.

Examination of spatial characteristics of physical and cultural phenomena in Latin America.

GEOG 3164. The Geography of Africa. 3 Credits.

Cultural and physical patterns of Africa. Prerequisite: GEOG 1001 or GEOG 1002.

GEOG 3165. Geography of South Asia. 3 Credits.

An examination of the complex interplay of environmental, economic, sociocultural, and political factors in South Asia and their effects at the local and regional levels.

GEOG 3189. Readings in Geography I. 1-12 Credits.

Prerequisite: 12 credit hours of geography and permission of instructor.

GEOG 3190. Readings in Geography II. 1-12 Credits.

Continuation of GEOG 3189. Prerequisite: 12 credit hours of geography and permission of instructor.

GEOG 3193. Environmental Law and Policy. 3 Credits.

An introduction to selected pieces of major environmental legislation. The role of the courts and bureaucracy in implementing and interpreting legislation and their impacts on decision making. Designed for students with no training in law. Prerequisites: None.

GEOG 3198. Special Topics. 3 Credits.

Consideration of geographic aspects of topical and future problems of society. May be repeated for credit provided that the topic differs. Prerequisite: GEOG 1001 or GEOG 1002.

GEOG 3810. Planning Cities. 3 Credits.

An examination of historical and contemporary trends and dynamics in urban planning in the United States and abroad. Same as AMST 3810. Prerequisite: GEOG 1001.

GEOG 4195. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Prerequisite: permission of the advisor.

GEOG 4195W. Proseminar in Geographic Thought. 3 Credits.

For students completing the major in geography. Development of geographic thought, theories, and methodologies; geographic curricula. Prerequisite: permission of the advisor.

GEOG 4199. Internship. 1-3 Credits.

Fieldwork, internship, or other controlled assignment with an agency or organization engaged in work in applied geography. Prerequisite: 12 credit hours of geography courses and permission of instructor. May be repeated for credit to a maximum of 6 credits.

GEOG 4309. GIS for Emergency Management. 3 Credits.

Introduction to the theoretical principles of geographic information systems and examination of its history, current uses, and potential for emergency management through case studies, guest lectures, and hands-on training on various GIS products. Prerequisites: GEOG 3106.

GEOG 6201. Geographic Thought. 3 Credits.

For first-year master's students, a survey of geographic thought and theories. Emphasis on contemporary issues in geography and on the development of research.

GEOG 6207. Urban Planning and Development. 3 Credits.

Selected problems in urban and regional planning: applications of zoning, environmental controls, and other techniques for achieving sustainable urban development.

GEOG 6208. Land Use and Urban Transportation Planning. 3 Credits.

Relationships between land use and the movement of goods and people. Examination of land use and transportation planning principles, issues, and techniques. Roles of public and private interests in land use and transportation planning and management.

GEOG 6219. Seminar: Climatology. 3 Credits.

Inadvertent climate modification due to urbanization and impacts on environmental and human health.

GEOG 6220. Seminar: Climatic Change. 3 Credits.

Examination of natural and human-induced climatic change, at global, regional, and local scales.

GEOG 6222. Seminar: Resources and the Environment. 3 Credits.

Topics related to the spatial variations and interrelationships of resources and the environment; applications of geographic information systems and remote sensing. Prerequisite: permission of instructor.

GEOG 6223. Seminar: Population and Health. 3 Credits.

Interrelationships between population characteristics and dynamics and impacts on human health.

GEOG 6224. Seminar: Political Geography. 3 Credits.

Examination of political factors in location theory and analysis of the nature of political territories and conflict.

GEOG 6225. Seminar: Transportation and Development. 3 Credits.

Transportation and communication in the organization of space.

GEOG 6230. Seminar: Environmental Issues in Development. 3 Credits.

A consideration of the geographical dimensions of the links between development and the environment.

GEOG 6232. Migration and Development. 3 Credits.**GEOG 6243. Seminar: Urban Geography. 3 Credits.**

Topics concerning social, political, economic, and environmental issues in U.S. cities.

GEOG 6244. Urban Sustainability. 3 Credits.

Urban sustainability and environmental issues in developed and developing cities.

GEOG 6245. Water Resources Policy and Management. 3 Credits.

In this course, we will examine the history and practice of water resources policy and management in the context of integrated water resource management. Thus, we will address management issues and policy responses to such topics as the impacts of urban and agricultural runoff on water quality; provision of wastewater and water quality services; water supply, water allocation and scarcity; and modification of waterbodies for the purposes of flood control, hydropower, navigation, and recreation. In addition, non-human water requirements: e.g. for fish and wildlife, as well as the need to preserve the natural ecosystems that provide and sustain water resources will be central to each discussion. We will examine management and policy issues in the United States and worldwide at a range of scales: local, state, federal and international. In the course of these examinations, students will gain an understanding of how current issues such as growing populations, increasing affluence, and climate change may impact water resource policy and management.

GEOG 6250. Geographical Perspectives on Development. 3 Credits.

Theory and debates surrounding economic development in a globalizing world, with case studies.

GEOG 6261. Geographical Perspectives on Latin America. 3 Credits.

Natural resources, the environment, and population dynamics through time.

GEOG 6262. Geographical Perspectives on the Middle East. 3 Credits.

Examination of selected topics related to political, economic, social, cultural, and geographic patterns and processes in the region.

GEOG 6265. Geography of Russia and Its Neighbors. 3 Credits.

A deeper understanding of Post-Soviet geography with a focus on the physical and environmental characteristics of the region, geography of natural and human resources, ethnic, cultural and religious diversity, characteristics of economic and political regions, and recent geopolitical developments.

GEOG 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ SOC 6290/ STAT 6290.

GEOG 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ SOC 6291/ STAT 6291.

GEOG 6293. Special Topics. 3 Credits.

Consideration of geographic aspects of topical social or environmental problems. May be repeated for credit provided the topic differs.

GEOG 6295. Research. 1-12 Credits.

May be repeated for credit.

GEOG 6299. Internship. 1-3 Credits.**GEOG 6300. Geography Capstone Internship. 3 Credits.**

This course will provide hands-on experiential learning in a local government agency, NGO, or corporation while allowing the candidate to use his/her geographical skills in a real world setting. Restricted to Geography graduate students only. Prerequisites: GEOG 6201.

GEOG 6304. Geographical Information Systems I. 3 Credits.

Fundamentals of cartography; geographic data structure and geographic information systems.

GEOG 6305. Geospatial Statistics. 3 Credits.

Nature of geographical inquiry and the analytical and statistical methods used in the study of spatial processes and patterns.

GEOG 6306. Geographical Information Systems II. 3 Credits.**GEOG 6307. Digital Image Processing. 3 Credits.**

This course introduces students to the theoretical, technical and applied aspects of remote sensing as a tool for monitoring and managing earth resources. This course will provide students with the knowledge for analyzing and applying remotely sensed data for problem solving as it applies to land cover. Prerequisite GEOG 6304.

GEOG 6309. GIS for Emergency Management. 3 Credits.

This course will introduce students to the theoretical principles of geographic information systems and will examine its history, current uses and potential for emergency management through case studies, guest lectures and hands-on training on various GIS products. Prerequisites: GEOG 6304.

GEOG 6998. Thesis Research. 3 Credits.**GEOG 6999. Thesis Research. 3 Credits.**

GEOLOGY (GEOL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GEOL 1001. Physical Geology. 3 Credits.

Lecture, laboratory. An introduction to the principal features of the composition and structure of the earth. Topics include the nature of minerals and rocks, surface and deep earth processes, mineral and energy resources, and plate tectonics. Laboratory fee. Credit will not be given for both GEOL 1001 and GEOL 1005.

GEOL 1002. Historical Geology. 3 Credits.

Lecture, laboratory. An introduction to the history of the earth. Topics include sedimentary environments, plate tectonics, origin of life, and evolution. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

GEOL 1005. Environmental Geology. 3 Credits.

Lecture, laboratory. An introduction to the impact of geology on the environment, with emphasis on the relation of people and society to natural environments; population evolution, natural hazards, and mineral resources. Laboratory fee. Credit will not be given for both GEOL 1001 and GEOL 1005.

GEOL 1006. Science & the Environment. 3 Credits.

The large-scale processes operating within the atmosphere, oceans, and solid Earth. Prerequisite: GEOL 1001 or GEOL 1005.

GEOL 2106. Oceanography. 3 Credits.

The ocean with its many environments represents the last largely unexplored frontier on earth. Origin of the ocean systems and plate tectonics, ocean habitats and their biota, marine hydrology and ocean currents; air-sea interaction and climate control; ocean mapping techniques; environmental regulations covering marine resources. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005.

GEOL 2111. Mineralogy. 4 Credits.

Lecture and laboratory. Introduction to the crystallography and chemical systematics of rock-forming and ore minerals. Exercises emphasize the analysis of mineralogic data and the paragenesis of mineral assemblages. Prerequisite: GEOL 1001 or GEOL 1005 or permission of instructor. Laboratory fee.

GEOL 2112. Igneous and Metamorphic Petrology. 4 Credits.

Lecture and laboratory. Introduction to basic light theory and the identification and characterization of minerals through optical properties. Laboratory exercises provide an introduction to petrologic analysis of igneous and metamorphic mineral systems. Prerequisite: GEOL 2111 or permission of the instructor. Laboratory fee.

GEOL 2122. Structural Geology. 3 Credits.

Lecture and laboratory. Study of natural and experimental rock deformation and the relationships between stress and strain as recorded by geologic structures. Prerequisite: GEOL 1001 or GEOL 1005. Laboratory fee.

GEOL 2151. History of Life. 3 Credits.

A review of the origin of life, the geologic record, and the evolutionary history of the major groups of organisms, including the origin of life and evolution of invertebrates, vertebrates, and plants. Prerequisite: GEOL 1001 or GEOL 1002 or BISC 1111- BISC 1112. Laboratory fee. Same as BISC 2451.

GEOL 2159. Geobotanical Ecology of the Central Appalachians. 4 Credits.

A multidisciplinary approach to Appalachian ecology involving application of scientific principles from both geology and botany, stressing interrelationships between geological, geochemical, and biological processes. Field trips. Laboratory fee. Prerequisite: GEOL 1001 or GEOL 1005 and BISC 1111- BISC 1112; with permission of instructor.

GEOL 2190. Special Topics in Geology. 1-3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

GEOL 2333. Evol/Extinction of Dinosaurs. 3 Credits.

The 165-million-year history of dinosaurs; different groups and their evolution, end-Cretaceous extinction event, the origin of birds, and the biology of the group. Prerequisites: BISC 1111 and BISC 1112; or GEOL 1001 and GEOL 1002 or GEOL 1002 and GEOL 1005. Same as BISC 2333.

GEOL 3118. Volcanology. 3 Credits.

Fundamental principles and geologic processes associated with volcanism. Eruptive styles, processes leading to magma production and transport, triggering mechanisms, plate tectonic settings, volcanic hazards, and disaster mitigation. Case histories of selected volcanic eruptions examined in detail. Prerequisite: GEOL 2111 or permission of instructor. Laboratory fee.

GEOL 3119. Field Experience in Volcanology. 1 Credit.

Week-long field exercise at a major volcanic center in the western United States. Field-based interpretation and analysis of volcanic and related rocks. The geology of each site and the processes responsible for volcanism discussed in detail. Corequisite: GEOL 3118. Deposit for expenses is required.

GEOL 3123. Crustal Dynamics. 0-3 Credits.

Basic plate tectonic processes and features; the plate tectonic paradigm in historical evolutionary framework. Students present an original research project orally and in writing. Prerequisite: GEOL 2122. Laboratory fee.

GEOL 3126. Sedimentology and Stratigraphy. 4 Credits.

Lecture and laboratory. Introduction to sedimentation and stratigraphy; origin and classification of sediments and sedimentary rocks; introduction to clastic and carbonate depositional environments and stratigraphic principles. Prerequisite: GEOL 1002, GEOL 2111. Laboratory fee.

GEOL 3131. Global Climate Change. 3 Credits.

Fundamental causes and patterns of climate change. Methods of reconstruction of past climates; modeling and predicting climate change.

GEOL 3138. Hydrogeology. 3 Credits.

Principles and theory of basic and applied hydrology: surface water hydrology, geology of groundwater systems, groundwater flow, surface water-groundwater interactions, contamination and remediation technologies, conservation, management, and regulations. Prerequisite: GEOL 2111, GEOL 2122; MATH 1221 or MATH 1231; or permission of instructor. Laboratory fee.

GEOL 3140. Geochemistry. 3 Credits.

Chemical systems and processes on the planet Earth; origins and interactions among and within the Earth's lithosphere, oceans, and atmosphere; origin, distribution, and behavior of the elements; radioactive and stable isotope systems. Aqueous geochemistry; geochemical cycles. Same as CHEM 3140. Prerequisite: GEOL 1001 or GEOL 1005; CHEM 1111- CHEM 1112 .

GEOL 3189. Geophysics. 3 Credits.

Principles of magnetic, gravity, seismic and electrical methods applied to geological problem-solving. Prerequisite: GEOL 2122 or permission of instructor.

GEOL 3191. Geology of Energy Resources. 3 Credits.

Principles of geology applied in energy exploration, exploitation, and production; the geology of energy resources in ocean basins; borehole and surface geophysical applications and reconnaissance mapping techniques; management and regulation of energy resources; sustainability, efficiency, and conservation issues. Prerequisite: GEOL 2122 or permission of instructor. Laboratory fee.

GEOL 4195. Geological Field Methods. 4 Credits.

Weekend field trips. Methods of outcrop analysis, geologic mapping, and data interpretation. The geological evolution of the central Appalachian mountains and the plate tectonic processes responsible for their formation emphasized. Prerequisite: GEOL 2111, GEOL 2122. Field trip fee.

GEOL 4195W. Geological Field Methods. 4 Credits.**GEOL 4199. Undergraduate Research or Reading. 1-12 Credits.**

Problems approved by the staff. May be repeated for credit.

GERMANIC LANGUAGE AND LITERATURE (GER)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GER 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

GER 1001. First-Year German I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing German. Laboratory fee.

GER 1002. First-Year German II. 4 Credits.

Continuation of GER 1001. Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1001. Laboratory fee.

GER 1003. Second-Year German I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1002 . Laboratory fee.

GER 1004. Second-Year German II. 4 Credits.

Continuation of GER 1003. Fundamentals of speaking, understanding, reading, and writing German. Prerequisite: GER 1003. Laboratory fee.

GER 1005. Intensive Beginning German I. 8 Credits.

Intensive course in fundamentals of speaking, understanding, reading, and writing German (equivalent to GER 1001- GER 1002). Recommended for majors. Laboratory fee.

GER 1006. Intensive Beginning German II. 8 Credits.

Continuation of GER 1005. Intensive course in fundamentals of speaking, understanding, reading, and writing German (equivalent to GER 1003- GER 1004). Prerequisite: GER 1002 or GER 1005. Recommended for majors. Laboratory fee.

GER 2009. Intermediate German I. 3 Credits.

Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisite: GER 1004 or GER 1006 or permission of instructor.

GER 2010. Intermediate German II. 3 Credits.

Continuation of GER 2009. Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisite: GER 1004 or GER 1006 or permission of instructor.

GER 2091. Introduction to German Literature—in English I. 3 Credits.

Survey of German literature 1700–1830, including the Enlightenment through Sturm und Drang, classicism, and romanticism.

GER 2092. Introduction to German Literature—in English II. 3 Credits.

Continuation of GER 2091. Survey of German literature 1830–1950, including Young Germany through realism, naturalism, expressionism, and the literature of the Third Reich years (exile literature and inner emigration).

GER 2101. Readings in Contemporary German I. 3 Credits.

Analysis of representative readings of expository prose from German newspapers, periodicals, and other publications. Prerequisite: for GER 2101, GER 1004 or GER 1006 .

GER 2102. Readings in Contemporary German II. 3 Credits.

Continuation of GER 2101. Analysis of representative readings of expository prose from German newspapers, periodicals, and other publications. Prerequisite: GER 2101.

GER 2109. Introduction to German Studies I. 3 Credits.

An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisite: GER 2010 or permission of instructor.

GER 2109W. Introduction to German Studies I. 3 Credits.

An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisite: GER 2010 or permission of instructor.

GER 2110. Introduction to German Studies II. 3 Credits.

Continuation of GER 2109. An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisite: GER 2010 or permission of instructor.

GER 2110W. Introduction to German Studies II. 3 Credits.

Continuation of GER 2109. An introduction to approaches, concepts, and analytical tools for study in the field, complemented by advanced practice in speaking, listening, reading, and writing. Prerequisite: GER 2010 or permission of instructor.

GER 2111. Business German. 3 Credits.

Introductory course preparing students to function in business-related communicative situations, with an emphasis on language skills necessary for work in areas such as marketing and finance. Prerequisite: GER 2010 or permission of instructor.

GER 2161. German Culture—in English I. 3 Credits.

The central problems, issues, and events that have shaped the development of German culture from antiquity to the present. Emphasis on products and processes of German culture in social, historical, and political contexts.

GER 2162. German Culture—in English II. 3 Credits.

Continuation of GER 2161. The central problems, issues, and events that have shaped the development of German culture from antiquity to the present. Emphasis on products and processes of German culture in social, historical, and political contexts.

GER 2165. 20th-Century German Literature—in English. 3 Credits.

Survey of the major trends in the works by modernist, exile, postwar, and contemporary German writers such as Kafka, Thomas Mann, Duerrenmatt, and Grass.

GER 3181. History of German Cinema—in English. 3 Credits.

A detailed historical and cultural survey of German cinema from the first moving picture devices (1895) to the expressionistic classics of the 1920s and the collapse of the Nazi film industry in 1945. All films are subtitled.

GER 3182. The Fairy Tale from the Grimms to Disney—in English. 3 Credits.

Survey of the changing form, structure, and meaning of the fairy tale in its traditional contexts, modern transformations and critical interpretations, with readings by 19th-century European collectors and 20th-century critics.

GER 3183. Berlin Before & After the Wall. 3 Credits.

The political, social, and cultural developments in Berlin from 1945 to the present through a reading of selected primary documents, historical analyses, and short literary texts.

GER 3184. German Thought - in English. 3 Credits.

An overview of German ideas about culture, religion, society, and politics from the 16th century to the present. Readings from such writers as Luther, Leibniz, Kant, Schiller, Hegel, Marx, Nietzsche, Freud, Weber, Heidegger, Adorno, and Habermas.

GER 3185. Literary Voices and the Fascist Experience—in English. 3 Credits.

A survey of writers anticipating as well as reflecting on Germany's plunge into the totalitarian abyss of fascist politics, including H. Mann, Kafka, Juenger, Brecht, Werfel, Thomas Mann, Lenz, Frisch, Duerrenmatt, and various forms of Holocaust poetry.

GER 3186. German Women Writers of the 19th and 20th Centuries. 3 Credits.

The changing literary and social roles of German women of the 19th and 20th centuries, examined through selected readings of women's literary production and culture.

GER 3187. German Cinema after 1945. 3 Credits.

The evolution of German cinema, from postwar examinations of the Nazi period through the social and political developments in the two German states. National and international influences; filmic treatments of the two German pasts since unification.

GER 3188. The Lives of East Germans. 3 Credits.

Consideration of what it meant to grow up and live in the German Democratic Republic and the changes and challenges to East German identity since unification. The course draws upon historical, political, and sociological studies as well as literary and filmic representations of East German experience.

GER 3189. Dealing with the Communist Past in Germany and Eastern Europe. 3 Credits.

GER 4171. The Age of Goethe-in German. 3 Credits.

Readings of major works of Weimar classicism in their historical and cultural context.

GER 4172. From Romanticism to Realism. 3 Credits.

Readings in German romanticism, literature of the "young Germany" movement (Heine), and realism (Fontane, Storm).

GER 4173. Naturalism to Expressionism. 3 Credits.

Study of various literary movements between 1880 and 1914: naturalism, impressionism, symbolism, and expressionism (Hauptmann, Hesse, Thomas Mann, Kafka).

GER 4174. Inside/Outside the Third Reich. 3 Credits.

Analysis of literary developments inside the Nazi state (propaganda literature, literature of resistance, and inner immigration) and the literature of exile (Seghers, Remarque).

GER 4175. Literature of two Germanies. 3 Credits.

Evolution of East and West German literatures after World War II, their separate developments and ultimate unification.

GER 4176. Contemporary German Literature. 3 Credits.

Analysis of works by former East and West German writers after unification as well as the generation of young German writers, who came of age after or around the time of unification. Emphasis on memoirs, family narratives, essays, and films examining Germany's transition from fascism and socialism to democracy.

GER 4195. Special Topics. 1-3 Credits.

May be repeated for credit provided the topic differs.

GER 4197. Senior Honors Thesis I. 3 Credits.

Senior honors thesis on a topic related to German language, literature, or culture. Required of and open only to honors candidates in the department.

GER 4198. Senior Honors Thesis II. 3 Credits.

Continuation of GER 4197. Senior honors thesis on a topic related to German language, literature, or culture. Required of and open only to honors candidates in the department.

GREEK (GREK)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

GREK 1001. Beginning Classical Greek I. 4 Credits.

Study of the grammar, vocabulary, and structure of ancient Greek. Reading of selected ancient authors.

GREK 1002. Beginning Classical Greek II. 4 Credits.

Continuation of GREK 1001. Study of the grammar, vocabulary, and structure of ancient Greek. Reading of selected ancient authors. Prerequisite: GREK 1001 .

GREK 2001. Intermediate Classical Greek I. 3 Credits.

Reading of ancient Greek prose or poetic works (e.g., selections from Homer, Plato, Euripides). Review of grammar. Prerequisite: GREK 1002 .

GREK 2002. Intermediate Classical Greek II. 3 Credits.

Continuation of GREK 2001. Reading of ancient Greek prose or poetic works (e.g., selections from Homer, Plato, Euripides). Review of grammar. Prerequisite: GREK 2001 .

GREK 2002W. Intermediate Classical Greek II. 3 Credits.

Continuation of GREK 2001. Reading of ancient Greek prose or poetic works (e.g., selections from Homer, Plato, Euripides). Review of grammar. Prerequisite: GREK 1001–GREK 1002 .

GREK 3001. Major Greek Authors I. 3 Credits.

Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 .

GREK 3001W. Major Greek Authors II. 3 Credits.

Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 .

GREK 3002. Major Greek Authors II. 3 Credits.

Continuation of GREK 3001. Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 .

GREK 3002W. Intermediate Classical Greek II. 3 Credits.

Continuation of GREK 3001. Selections from a wide variety of Greek prose, drama, and poetry, suited to the needs of the class. May be repeated for credit with permission of instructor. Prerequisite: GREK 2002 .

HEALTH CARE QUALITY (HCQ)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HCQ 6200. Introduction to Health Care Quality. 3 Credits.

An overview of the US health care system and the influence of health policy development and implementation on health care quality. Introduction to fundamental concepts of health care quality, patient safety, leadership, and change management.

HCQ 6201. Building a Quality Culture. 3 Credits.

Application of leadership and organizational change theories and principles to the implementation of quality and patient safety initiatives. Focus on strategies for developing the culture and infrastructure needed to support patient safety and continuous quality improvement.

HCQ 6202. Health Care Quality Landscape. 3 Credits.

Analysis of quality and patient safety challenges in US health care with a focus on political and environmental influences.

HCQ 6203. Quality Improvement Science. 3 Credits.

An introduction to quality improvement and patient safety theories, models, methods and tools and their application to quality and safety improvement challenges in health care.

HCQ 6204. Health Care Quality Analysis. 3 Credits.

Application of measurement, data management and statistical analysis principles to quality improvement and patient safety challenges. Focus on the importance and design of effective measures and the selection of appropriate analysis tools.

HCQ 6205. Patient Safety Systems. 3 Credits.

An examination of the epidemiology and sources of error in health care, risk assessment, and the design of processes and systems to improve patient safety. Focus on the application of process and technology-based systems to reduce the incidence of error.

HCQ 6275. Leadership and Change. 3 Credits.

A capstone course focusing on the concept of leading change within the contexts of health professionals, health systems, and health policy. Organizational, management, and change theories as well as characteristics of personal and professional change leadership are explored in relation to expectations for successful executive leadership and performance in today's dynamic health care environments.

HEALTH CARE SCIENCE (HCS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HCS 0982. Continuous Enrollment. 3 Credits.

HCS 0985. GWU/GMU Joint NP/MSN Program. 1-12 Credits.

HCS 1011. Applied Anatomy & Physiology. 4 Credits.

HCS 1012. Mathematics-Health Providers. 2 Credits.

HCS 2100. Clinical Medicine Review. 5 Credits.

HCS 2101. Environmental Biostatistics. 3 Credits.

HCS 2102. Food and Water Sanitation. 3 Credits.

HCS 2103. Academic Curriculum Tutorial. 1-12 Credits.

HCS 2135. Clinical Assessment II. 4 Credits.

HCS 2140. Clinical Decision Making. 2 Credits.

HCS 2153. Gynecology Outpatient: NP's. 1-12 Credits.

HCS 2154. Clinical Geriatrics. 1-12 Credits.

HCS 2158. Cardiothoracic Med Elect-PA's. 4 Credits.

HCS 2159. Dermatology Elective for PA's. 4 Credits.

HCS 2160. Medical Inpatient. 5 Credits.

HCS 2161. Sports Medicine for PA's. 1-12 Credits.

HCS 2163. Medical Outpatient. 1-12 Credits.

HCS 2166. Surgical Inpatient. 1-12 Credits.

HCS 2168. Urology. 2 Credits.

HCS 2169. Obstetrics and Gynecology. 1-12 Credits.

HCS 2172. Pediatric Outpatient. 1-12 Credits.

HCS 2173. Spec Proj Elect-PA/MPH Studnts. 4 Credits.

HCS 2175. Primary Care Preceptorship. 1-12 Credits.

HCS 2176. EMed Elective For PA's. 4 Credits.

HCS 2177. General Med Elective for PA's. 4-6 Credits.

HCS 2178. Emergency Medicine. 1-12 Credits.

HCS 2180. Practicum-Environmental Health. 7 Credits.

HCS 2186. Orthopaedics Elective for PA's. 4 Credits.

HCS 2187. Radiology Elective for PA's. 4 Credits.

HCS 2188. Shock Trauma Elective for PA's. 4 Credits.

HCS 2189. Alcohol Rehabilitation Unit. 2 Credits.

HCS 2190. Dermatology. 1,2 Credit.

HCS 2191. Eye, Ear, Nose, and Throat. 4 Credits.

HCS 2192. Orthopaedics. 4 Credits.

HCS 2194. Pract-Gerontlgy/Geriatric Care. 1-12 Credits.

HCS 2195. Ophthalmology. 4 Credits.

HCS 2197. Current Topics in Bioethics. 1 Credit.

HCS 2198. Psychiatry. 4 Credits.

HCS 4199. Independent Study. 1-12 Credits.

HCS 6201. Practicum in Geriatric Care. 1 Credit.

HCS 6202. Introduction to Health Policy. 1 Credit.

HCS 6203. Spirituality,Healing,Art-Med. 1 Credit.

HCS 6208. Clinical Exp-Urban Health Care. 1 Credit.

HCS 6228. Preclin Prim Care Apprenticshp. 2 Credits.

HCS 6230. Stat Applctns for Health Prof. 3 Credits.

HCS 6231. Research Design. 3 Credits.

HCS 6232. Methods-Reading Medical Lit. 1 Credit.

HEALTH SCIENCES PROGRAMS (HSCI)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSCI 2100. Writing and Composition in the Health Sciences. 3 Credits.

Basic writing mechanics and methods for developing paragraphs and essays; conceptualizing papers, such as crafting outlines and assessing sources; and basics of APA style. Students practice analyzing writing through peer review exercises.

HSCI 2101. Psychosocial Aspects of Health and Illness. 3 Credits.

Comprehensive introduction to the psychological and social aspects of health and wellness. Emphasis on the development of communication skills and the establishment of caring relationships. Discussions of special situations such as working with dying patients and patients with self-destructive behaviors.

HSCI 2102. Pathophysiology. 3 Credits.

Biomedical and scientific framework for the understanding of human disease mechanisms and biologic processes. Overview of infectious, immunologic, cardiovascular, genetic, respiratory, gastrointestinal, neoplastic, reproductive, renal, hematologic, neurologic, and musculoskeletal diseases.

HSCI 2103. Health Policy and the Health Care System. 3 Credits.

Incorporates economic theory and policy analysis methodology to analyze the impact of changes in the health care system on the practice of health sciences professionals and the quality and process of health care. Development of critical thinking skills through review of current medical literature.

HSCI 2104. Management of Health Science Services. 3 Credits.

Application of management and organizational principles to the delivery of services provided by health sciences disciplines. Issues addressed include information systems, leadership, team building, fiscal management, human resources management, quality improvement, and management of conflict and change.

HSCI 2105. Current Issues in Bioethics. 3 Credits.

Basic issues, approaches, and requirements of ethically acceptable decision making with patients, including patient confidentiality, conflicts of interest, allocation of scarce resources, occupational risks in health care, and professional responsibility for overall quality of care.

HSCI 2107. Health Care in Literature. 3 Credits.**HSCI 2108. Quality Improvement/HealthCare. 3 Credits.**

Analysis of the structures in place to enhance the quality of health care delivery and political and economic influences that affect quality improvement programs. Assessment of specific interventions to enhance health care from the perspectives of providers and patients.

HSCI 2109. Trends&Innovations/HealthCare. 3 Credits.

Examination of new technologies, health care delivery models, and the phenomenon of sophisticated consumers. Assessment of the impact of science, technology, ethics, and government on the provision of health care.

HSCI 2110. Disease Prev/Health Promotion. 3 Credits.

An overview of basic public health concepts for health sciences students, including epidemiology, health promotion, and disease prevention. Review of current issues in health promotion. Completion of a public health project in a clinical site.

HSCI 2111. Dev/Health Care Professions. 3 Credits.

Students will analyze the history and evolution of health care professions, and compare them to general changes in science and culture. Students will compare and contrast how the evolution of health care professions has changed practice and informed how we may view clinical practice in the future.

HSCI 2112. Writing in the Health Sciences. 3 Credits.

Introduction to the health sciences literature. Emphasis is on construction, evaluation and organization of written communication of health sciences information.

HSCI 2112W. Writing in the Health Sciences. 3 Credits.**HSCI 2113. Informatics in the HSci. 3 Credits.**

Introduction to healthcare informatics, including management and clinical information systems and their role in administration, clinical, and research arenas in health care.

HSCI 2114. Healthcare/Developing Nations. 3 Credits.

An introduction to health concerns in the developing world. Students will explore interventional approaches for such issues as malaria, HIV/AIDS, clean water, maternal and women's health, and childhood mortality.

HSCI 2115. Intro Biostatistics-Health Sci. 3 Credits.

Basic concepts of biostatistics with application to the health sciences professions. Research design, frequency distributions, descriptive measures, probability, sampling, regression and correlation, analysis of variance, hypothesis development/testing and data organization/analysis options are covered.

HSCI 2117. Introduction to Statistics for Health Sciences. 3 Credits.

Foundational concepts in descriptive and inferential statistics, including probability, sampling distribution, estimation, correlation, t-Test, simple linear regression, and chi-square. Application of statistical concepts and methods within the health sciences.

HSCI 2130. Primary Care Skills Practicum. 2 Credits.**HSCI 2131. Adult Primary Care Practicum. 2 Credits.**

Clinical course on caring for adults with common primary care problems and understanding concepts of health promotion and disease prevention. Students conduct in-depth examinations of specific primary care problems; review current pathophysiology literature; explore pharmacologic and non-pharmacologic treatment modalities; and diagnose and manage acute and chronic problems prominent in ambulatory health clinics serving the general adult population. A minimum of 80 clinical hours is required.

HSCI 2132. Primary Care Mental Hlth Pract. 2 Credits.**HSCI 2133. Specialized Clinical Experience. 2 Credits.****HSCI 2190. Independent Study-Clin Hlth Sci. 1-12 Credits.**

Independent study and special projects involving student-defined learning objectives. Students must get permission of the faculty member who will direct the study.

HSCI 2195. Special Topics in Health Sci.. 1-3 Credits.**HSCI 3101. General Chemistry I. 4 Credits.**

Introduction to physical and inorganic chemistry. Topics include atomic structure, chemical bonding, common types of reactions, stoichiometry, thermochemistry and the properties of gases, liquids, and solids. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3102. General Chemistry II. 4 Credits.

Continuation of HSCI 3101 General Chemistry I. Topics include kinetics, equilibrium, acid-base chemistry, precipitation reactions, coordination chemistry, thermodynamics, and electrochemistry. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3103. Organic Chemistry I. 4 Credits.

Introduction to synthetic organic chemistry through exploration of the reactivity and potential biological activity of chemicals with different functional groups. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3104. Organic Chemistry II. 4 Credits.

Continuation of HSCI 3103 Organic Chemistry I. Reactions combined in a step-wise process, enabling creation of complex and interesting organic molecules. Spectroscopic methods used to determine organic structures; combined with chemical observations, allowing the deduction of structures of increasingly complex substances. Examination of the chemistry of biologically important macromolecules. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3105. Biochemistry. 3 Credits.

The chemical properties of low molecular weight biochemical molecules, macromolecules and supermolecular complexes essential for life are explained in addition to basic reaction mechanisms and the integration and regulation of biochemical processes. Prerequisites: Organic Chemistry I Organic Chemistry II.

HSCI 3106. Microbiology for Health Sciences. 3 Credits.

Principles of microbiology with emphasis on microorganisms that impact health and cause human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Restricted to students who have taken at least one course in biology, or chemistry, or anatomy and physiology, or MLS 2000, or MLS 2001.

HSCI 3117. Principles of Biostatistics for Health Sciences. 3 Credits.

Biostatistics for health science professionals. Concepts and methods, including confidence intervals, ANOVA, multiple and logistic regression, and non-parametric analyses. Scientific literature is used to provide a comprehensive context in which analytical evidence is employed to support practices in the health sciences. Prerequisites: HSCI 2117 or permission of the instructor.

HSCI 3201. Biology I. 4 Credits.

A foundation in biological chemistry, cell biology, and genetics. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3202. Biology II. 4 Credits.

Biological evolution, biological diversity (microbes, plants, and animals), animal physiology, and ecology. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3301. Physics I. 4 Credits.

Classical physics, including mechanics, Newton's laws of motion, force, gravitation, equilibrium, work and energy, momentum, and rotational motion; periodic motion, waves, and sound; heat and thermodynamics. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 3302. Physics II. 4 Credits.

Continuation of HSCI 3301 Physics I, including electrostatics, electromagnetism, direct and alternating current circuits, and electromagnetic radiation; geometrical and physical optics; special relativity; quantum theory; atomic physics; nuclear physics; particle physics; astrophysics and cosmology. Didactic lectures augmented by a corresponding hands-on laboratory component.

HSCI 4102. Human Physiology/Extreme Enviro. 3 Credits.

The course examines human physiology and the pathophysiology of acute illnesses and injuries, and evaluates appropriate mitigation strategies associated with living and working in extreme environments.

HSCI 4103. Health Care Law/Regulation. 3 Credits.**HSCI 4105. Case Studies in Health Care. 3 Credits.****HSCI 4106. Intro to Epidemiology for HS. 3 Credits.**

An introduction to epidemiological methods and their applications in the prevention and control of illness, community and clinical interventions, and health services.

HSCI 4112. Rsrch/Wrtng in Health Sciences. 3 Credits.**HSCI 4112W. Rsrch/Wrtng in Health Sciences. 3 Credits.****HSCI 4198. Mentored Res. I. 3 Credits.****HSCI 4199. Mentored Res. II. 3 Credits.****HSCI 6212. Teaching Strategies in the Health Professions. 3 Credits.**

Teaching skills pertinent to the delivery of education in health professions. Course design illustrates teaching and learning practices grounded in andragogy, contributing to curriculum program objectives of enhancing teaching skills. (Same as EHS 6212, OT 8212).

HSCI 6213. Curriculum Development in the Health Professions. 3 Credits.

Curriculum development and assessment skills in the health professions. Variables that affect the manner in which individuals learn and interact within professions and organizations. (Same as EHS 6213).

HSCI 6223. Topics -Health Care Leadership. 3 Credits.

Theories and styles of leadership, including organizational management and values, strategic planning, communication strategies, managing change, and negotiating conflict in the context of the health care delivery system.

HSCI 6231. Advanced Pediatric Hlth Needs. 3 Credits.

Service delivery to children with disabilities from infancy through early schooling. Emphasis on learning disabilities, ADHD, sensory processing disabilities, and intellectual disabilities with co-occurring developmental and emotional disorders. Special e.

HSCI 6233. Pathology-Hlth Sci Students I. 1 Credit.**HSCI 6234. Pathology-Hlth Sci Students II. 3 Credits.**

Basic concepts and language of pathology, infectious diseases, and fundamental disease processes. Emphasis on pathogenesis and dynamics of disease. Causation, evolution, and morphology of pathological changes in the principal diseases of each organ system.

HSCI 6240. Issues & Trends in Health Syst. 3 Credits.

Analysis of key contemporary issues in U.S. health and social policy that affect the design and structure of the health care system. The health policy process and initiatives that shape care delivery.

HSCI 6241. The Health Care Enterprise. 3 Credits.

An overview of global business principles related to health care systems: the management of patient-centered care delivery, marketing, finance and fiscal management principles, information technology, and quality improvement.

HSCI 6261. Fdtn in Clinical/Trans.Rsrch. 3 Credits.

Overview and analysis of the translational research principles and practice through the application of basic, clinical, community health and health services research concepts.

HSCI 6262. Transdisciplinary Sem/Pract.. 3 Credits.

Transdisciplinary analysis of key translational research concepts delivered in a practicum and workshop framework. Individualized experiential practicum to address educational and experiential gaps.

HSCI 6263. Biostatistics Transl Research. 3 Credits.

Basic concepts and methods of biostatistics applied to translational research. Topics include distributions, populations and sample selection, variables, interaction and confounding, hypothesis formulation, correlation, t-tests, ANOVA, regression, and ch.

HSCI 6264. Epidemiology Translational Res. 3 Credits.

Basic concepts and methods of epidemiology and their application in measuring, studying and improving the health of populations applied to applications for translational research.

HSCI 6265. Grantsmanship in Trans Res. 3 Credits.

Writing grant proposals to fund clinical research, with an emphasis on translational research proposals. Emphasis is on persuasive communication, conceptually based hypotheses and research methods and the grant application process, including communicating.

HSCI 6270. Resear Meth Hlth Prof I. 3 Credits.

Methodological issues of basic, applied, and clinical research. Students develop the knowledge and skills to critically appraise and synthesize research results, analyze qualitative and quantitative data, evaluate evidence-based methods, develop research questions, and identify appropriate inquiry methodologies. Students become familiar with all elements of a research proposal, including those relating to the use of human subjects and informed consent.

HSCI 6271. Rsch Meth Hlth Prof II. 3 Credits.

Methodological issues of basic, applied, and clinical research. Students develop the knowledge and skills to critically appraise and synthesize research results, analyze qualitative and quantitative data, evaluate evidence-based methods, develop research questions, and identify appropriate inquiry methodologies. Students become familiar with all elements of a research proposal, including those relating to the use of human subjects and informed consent.

HSCI 6273. Bioinformatics for Genomics. 3 Credits.

The bioinformatics tools for different analytical situations. Strengths and limitations of the most common bioinformatics strategies. Principally limited to analysis of genomic data, the course is planned to enable students to generalize the acquired knowledge and its underlying principles and techniques to other types of 'big data' applications for the purpose of interpretation of results.

HSCI 6275. Transdisciplinary Rsrch Prop.. 3 Credits.

The integration of competencies acquired throughout the program. The development and submission of a transdisciplinary research proposal that responds to a Call for Proposals from an external sponsor, such as the National Institutes of Health.

HSCI 6285. Collaboration and Team Science in Practice and Research. 3 Credits.

Foundations of cross-disciplinary, collaborative scientific pursuit to produce high impact research outcomes that address health, technology, social, and environmental issues.

HSCI 6287. Biology of HIV/AIDS. 3 Credits.

The basic science, pathogenesis, natural history, and laboratory identification of the human immunodeficiency virus.

HSCI 6291. Advncd Topics/Health Sciences. 1-3 Credits.

Topics vary depending on current issues of interest and faculty availability. Open to undergraduates with permission of the instructor.

HSCI 6297. Independnt Study/Health Profess. 1-5 Credits.

Independent study involving analysis of a clinical topic, a patient education project, or an on-site mentored clinical research practicum.

HEALTH SERVICES MANAGEMENT AND LEADERSHIP (HSML)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSML 6202. Intro/Health Services Delivery. 2 Credits.

Introduction to the systems that define and shape delivery of health services in the United States. Case studies and presentations on major issues develop an appreciation of dilemmas confronting policymakers, providers, and patients: balancing cost, quality and access. Access and disparity, health care professions, facilities, managed care organizations and government health care programs. Policy changes that have had major impact on American health care in the past century. Fall.

HSML 6203. Introduction to Health Management. 2 Credits.

Introduction to management theory essential for those seeking management positions in organizations providing healthcare or public health services. Application of the problem-solving method; extensive use of cases.

HSML 6204. Quality&PerformanceImprovement. 2 Credits.

Theory of quality and performance improvement in health services organizations and systems. Emphasis on the Deming method of continuous quality improvement (CQI); Six Sigma; International Organization for Standardization (ISO) standards; Baldrige criteria; accreditation programs. Prerequisites: HSML 6203.

HSML 6206. QuanMethds&Epid/HealthServices. 3 Credits.

Application of epidemiology and analytical methods to improve population health, enhance decision-making, and introduce operations management. The concepts and procedures complement HSML courses for information management and finance. Prerequisites: 2 or 3 semester hours in introductory statistics.

HSML 6207. HealthServicesInfoApplications. 2 Credits.

Organization and management of information technology in modern healthcare organizations with an emphasis on the acute care hospital. Use of information technology in hospital clinical, support, and administrative departments.

HSML 6208. Medical Informatics. 2 Credits.

Comprehensive study of the role and impact of IT in health services organizations. Specific emphasis on the role IT plays from managerial and clinical perspectives. Topics include ROI, privacy, error reduction, change management, and decision support systems. Prerequisite: HSML 6207.

HSML 6209. Health Services Finance. 2 Credits.

Application of health finance theory to health services organizations and systems. Budgeting process, understanding profit and loss, managing resources including accounts receivable, labor and supplies. The budget as a tool for analyzing operational changes. Prerequisites: HSML 6209.

HSML 6210. Hlth Serv Financl Applications. 2 Credits.

Application of health finance theory to health services organizations and systems. Budgeting process, understanding profit and loss, managing resources including accounts receivable, labor and supplies. The budget as a tool for analyzing operational changes. Prerequisites: HSML 6209.

HSML 6211. Health Economics. 2 Credits.

Economics of the health care sector. An economic analysis of public policy alternatives in the health industry. Roles of the physician, hospital, insurance, and other health care markets are examined.

HSML 6212. CommunityHealth Mgt & Advocacy. 2 Credits.

Concepts and techniques to planning, managing, and advocating for community health programs and services. Focus on social contract, the Precede-Proceed Model and principles of community-oriented primary care. Students will study or conduct a community health promotion project. Prerequisites: HSML 6202 and 6203.

HSML 6213. Health Services, Marketing & Planning. 2 Credits.

Concepts of strategic planning and marketing as they apply to health services organizations. Particular emphasis on uses of planning and marketing techniques in managing departments and individual health services programs. Prerequisites: HSML 6202 and 6203.

HSML 6215. Health Law for Managers. 2 Credits.

Sources of law and legal processes affecting health services. Administrative law and agency processes. Legal aspects of torts and contracts for physicians, staff, patients, and health services organizations and systems. Trends in health services law. Prerequisites: HSML 6202 and 6203.

HSML 6216. HumanResourcesMgt&OrgBehavior. 2 Credits.

Theory and application of human behavior, human resource management, and labor relations policies, concepts and practices as they affect health services organizations. Primary focus is on managing people at work and developing management skills. Prerequisites: HSML 6202 and 6203.

HSML 6218. Sem-HlthServicesMgt&Leadership. 2 Credits.

Intensive qualitative and quantitative analyses of major problem areas in health system administration and planning using the case study method. Cases cover the broad spectrum of health policy, planning and management of the health services system. Serves as the capstone course for health services students. Taken in the last semester on campus.

HSML 6221. TransLdrshp/HealthServDelivery. 2 Credits.

Current leadership thought and competencies focusing on leadership styles, motivation, change management, innovation, creativity, emotional intelligence, organizational learning, and corporate culture. Prerequisite: HSML 6203.

HSML 6222. GroupLdrshp&TeamFacilitation. 2 Credits.

Applies management and leadership theory to small groups, e.g. committees, patient care teams, process improvement groups, task forces, etc. Methods to establish, organize, develop, and manage teams for problem-solving. Students are assigned to interdisciplinary teams as facilitators and receive feedback on their performance. Part of medical Center's service learning program—ISCOPES (Interdisciplinary Student Community-Oriented Prevention Enhancement Service). Prerequisites: HSML 6204, 6212 or equivalent.

HSML 6231. Management-Acute Care Hospital. 2 Credits.

Organizing and managing acute care hospitals. Relationships and procedures of clinical, support, and administrative departments. Process analyses and applications of the Deming method of continuous quality improvement. Requirements of the Joint Commission on Accreditation of Healthcare Organizations. Prerequisite: HSML 6202, 6204, and 6209 or instructor's permission.

HSML 6232. Institution & Systems Mgt Apps. 2 Credits.

Readings and guest speakers. Focus on management theory applied in freestanding and multi-institutional health services units. Lessons learned by health services executives are shown through vignettes and presentation of experiences. Seminar Format. Prerequisites: HSML 6202 and 6203, or instructor's permission.

HSML 6233. Delivery-Behav Health Services. 2 Credits.

Study of the organizations and systems to deliver behavioral health services; emphasis on organizing, managing, and financing treatment and rehabilitation facilities. Prerequisites: HSML 6202, 6204, and 6209.

HSML 6234. Physician Practice Management. 2 Credits.

Theory and principles of practice management. Emphasis on the fundamentals of organizing, staffing, and controlling a physician practice. Financial applications and resource consumption. Prerequisites: HSML 6202, 6204, and 6209.

HSML 6236. Aging&Disability:Needs&Srvcs. 3 Credits.

Problems of aging and disabilities including social, psychological, biological, economic, and health services needs. Theory and research explore attitudes and behaviors based on contact with older and/or disabled persons. Delivery of informal and social services to aged and disabled persons.

HSML 6237. Managing/SkilledNursngFacility. 3 Credits.

Organizing, financing, and managing the skilled nursing facility. Determining residents' needs and developing appropriate services. Accreditation Standards. Government regulations and licensing requirements. Prerequisites: HSML 6202, 6204, 6209, and 6236.

HSML 6238. Ambulatory Care Management. 2 Credits.

Organizing and managing ambulatory care. Models, financing, institutional affiliations, estimating and planning for ambulatory care, and using medical group practice as part of comprehensive services delivery. Prerequisites: HSML 6202, 6204, and 6209.

HSML 6239. Managed Care. 2 Credits.

Health maintenance organizations (HMOs), preferred provider organizations (PPOs), and utilization management (UM) in fee-for-service plans. Formation, organization, contractual arrangements, and medical management of managed care regarding costs, utilization, quality, and access are analyzed from the perspectives of managed care organizations, employers, providers, and public policy. Role of government in managed care, competition and marketing of managed care plans, and relationships between plans and providers. Efficacy of managed care in public and private sectors is explored. Prerequisites: HSML 6202, 6204, and 6209.

HSML 6241. Cmpl&RiskMgt/HlthSrvcsDelivery. 2 Credits.

Application of concepts and techniques for organizing and implementing compliance, risk management, and patient safety programs within the context of quality and performance improvement. Emphasis on organizational values as a condition to success. Recent compliance requirements will be addressed (e.g., HIPAA). Prerequisites: HSML 6202 and 6203, or equivalent.

HSML 6244. SupplyChainMgt/HealthServices. 2 Credits.

Theory and application of distribution management of materials, services, and information in health services organizations. Suppliers, inventory control, negotiating and managing contracts, joint and shared purchasing. Prerequisites: HSML 6204 and 6206.

HSML 6245. Disaster Management for Healthcare Organizations. 2 Credits.

The role and importance of healthcare organizations in all four phases of the disaster management life cycle (i.e., preparedness, mitigations, response, and recovery).

HSML 6246. Service Line & Project Mgt. 2 Credits.

Theory and application of management science techniques to manage and improve effectiveness of service lines, programs, and projects in health services. Business case development, planning, project management tools, and program evaluation. Prerequisite: HSML 6204.

HSML 6247. Consulting in Health Care. 2 Credits.

Theory and practice of healthcare consulting - what it is, how it is practiced, how it operates as a business, and concepts of "best practices." Prerequisites: HSML 6202 and 6203, or permission of the instructor.

HSML 6254. Sem:Ethics-Health Services Mgt. 5 Credits.

Managerial implications of ethical issues in health services delivery: administrative and institutional ethics; professional codes; conflicts of interest, impaired professionals, end-of-life decisions, experimentation, and new technology; resource allocation.

HSML 6255. Leadership and Ethics I. 1.5 Credit.

Using the Myers-Briggs Type Indicator (MBTI), students determine their leadership style and practice the skills of effective leadership. Consideration of ethical principles and practices and how those practices are used by leaders. Restricted to Executive Master of Health Administration degree candidates.

HSML 6258. Health System Analysis. 3 Credits.

For MHA@GW students, a concentrated on-site study of either an exemplary health system in the United States or the national health system of another country. The objective is to use critical analysis to examine and assess the structure, function, and operations of the system. Restricted to For students in the Executive Master of Health Administration degree program. Prerequisites: HSML 6255.

HSML 6263. Health Services Financial Mgt. 2 Credits.

Economic concepts and the role of government and public health programs. Areas of focus include health services financing, reimbursement, and current issues related to changes in the health care system.

HSML 6264. Healthcare Mgmt & Strategy. 5 Credits.

This course provides a detailed examination of the core principles of management and strategy that are required by persons holding management and leadership roles in healthcare delivery organizations.

HSML 6265. Medical Informatics and Decision Management. 5 Credits.

Fundamental principles and concepts of healthcare informatics and decision management, with a primary focus on clinical applications within the framework of improving quality, productivity, and satisfaction. Taught online. Restricted to Students in the Executive MHA Cohort only. Prerequisites: HSML 6264.

HSML 6266. Healthcare Financial Management. 5 Credits.

The financial operations of health care organizations, including financial reporting, cost management, sources of revenue, and budgeting. Restricted to Executive Master of Health Administration candidates.

HSML 6267. Community Engagement. 5 Credits.

Examination of how healthcare organizations engage with, affect, and are affected by their surrounding communities; complex relationships of community health, public health, and population health. Application of analytical frameworks to research and performance of practical tasks. Restricted to Restricted to Degree 149, Major 1243.

HSML 6268. Health Economics & Quantitative Methods. 5 Credits.

A multidisciplinary course designed around two important and closely related components: quantitative methods; and the key health economics concepts, applications, and tools relevant to health care managers who are seeking to better understand, respond to, and influence a constantly evolving health care marketplace. Restricted to For students in the executive MHA program. Prerequisites: HSML 6264, HSML 6265, HSML 6266, HSML 6267.

HSML 6269. Quality and Performance Improvement. 5 Credits.

Theory of quality and performance improvement in health services organizations and systems. Emphasis on the Deming method of continuous quality improvement (CQI). Lean; Six Sigma; IHI quality improvement program; Baldrige criteria; patient safety; and quality tools Restricted to Limited to Master of Health Administration degree students. Prerequisites: HSML 6268.

HSML 6270. Research-Health Services Admin. 2,3 Credits.

Field research. Primarily for advanced students; open to others with consent of instructor. May be repeated for credit.

HSML 6271. Field Problem Studies. 3 Credits.

Work experience guided by a qualified preceptor on selected management and planning issues and problems occurring in health services facilities, programs, and agencies. Primarily for advanced master's and doctoral students; open to other students by arrangement. May be repeated for credit.

HSML 6273. Residency. 3 Credits.

Work experience guided by a qualified preceptor; periodic written progress reports and a written major report or selected field projects as required.

HSML 6274. Residency. 3 Credits.

Work experience guided by a qualified preceptor; periodic written progress reports and a written major report or selected field projects as required.

HSML 6275. Residency. 3 Credits.

Work experience guided by a qualified preceptor; periodic written progress reports and a written major report or selected field projects as required.

HSML 6282. MHA@GW Research Proj 1. 1 Credit.**HSML 6283. MHA@GW Research Project 2. 1 Credit.****HSML 6285. Readings-Health Services Mgt. 3 Credits.**

Supervised readings in special areas of health services management. Primarily for advanced students; open to others by arrangement. May be repeated for credit.

HSML 6286. Readings-Health Services Mgt. 3 Credits.

Supervised readings in special areas of health services management. Primarily for advanced students; open to others by arrangement. May be repeated for credit.

HSML 6299. Topics in HSML. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated for credit.

HEALTH AND WELLNESS (HLWL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HLWL 1101. Special Topics. 1-3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

HLWL 1102. Stress Management. 3 Credits.

A holistic view of stress management, including mind, body, spirit, and emotions. The dominant stressors and how they affect health and wellness.

HLWL 1103. Issues in Men's Health. 3 Credits.

Issues in men's health ranging from the physical and emotional to the spiritual and occupational.

HLWL 1104. Outdoor and Environmental Education. 3 Credits.

A conceptual and experiential introduction to outdoor education, environmental education, wilderness travel, and outdoor leadership. Materials fee.

HLWL 1105. Yoga & the Meaning of Life. 3 Credits.

The historical teachings that have contributed to the physical, psychological, and spiritual practices of yoga.

HLWL 1106. Drug Awareness. 3 Credits.

Analysis of the complex role that drugs play in contemporary society and the ethical, legal, socioeconomic, and health issues that surround their therapeutic and recreational use.

HLWL 1108. Weight and Society. 3 Credits.

Background and concepts of body dissatisfaction, disordered eating, food preoccupation, and exercise obsession.

HLWL 1108W. Weight and Society. 3 Credits.

Background and concepts of body dissatisfaction, disordered eating, food preoccupation, and exercise obsession.

HLWL 1109. Human Sexuality. 3 Credits.

Biological and developmental aspects of human sexuality; psychological and emotional aspects of sexual behavior; sexual identity; social forces affecting sexual issues; and research trends in the area of human sexuality.

HLWL 1110. Issues in Alternative Medicine. 3 Credits.

Various modalities of alternative/complementary/integrative therapy. Critical analysis and evaluation of the many dimensions of these approaches.

HLWL 1112. Issues in Women's Health. 3 Credits.

An introduction to health promotion and disease prevention pertaining especially to diseases, disorders, and conditions that are more prevalent among or unique to women or for which risk factors or interventions may differ for women and men. Topics are covered from epidemiological, sociocultural, historical, and behavioral perspectives.

HLWL 1114. Personal Health and Wellness. 3 Credits.

A survey of the various components involved in personal health and wellness, such as personal fitness, sexuality, mental health, and environmental health. Emphasis is on application of knowledge through the use of decision-making and behavior modification skills.

HLWL 1116. Lifestyle Nutrition. 3 Credits.

An introduction to nutrition that enables the student to make healthful food choices to enhance quality of life and prevention of chronic disease. Topics may include label reading, vegetarian diets, eating for exercise, and interpreting nutrient recommendations.

HLWL 1117. Functional Fitness. 3 Credits.

Core elements of personal fitness as applied to daily life. Emphasis on the development of functional fitness skills that can be practiced both in and out of the classroom.

HEBREW (HEBR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HEBR 1001. Beginning Hebrew I. 4 Credits.

An active presentation of Hebrew as it is spoken and written today. Comprehension, speaking, reading, and writing skills are stressed. Laboratory fee.

HEBR 1002. Beginning Hebrew II. 4 Credits.

Continuation of HEBR 1001. An active presentation of Hebrew as it is spoken and written today. Comprehension, speaking, reading, and writing skills are stressed. Laboratory fee.

HEBR 2001. Intermediate Hebrew I. 4 Credits.

Further development of skills in speaking, reading, writing, and comprehension of modern Hebrew. Texts range from Israeli newspaper items to selections from classical materials. Prerequisite: HEBR 1001- HEBR 1002 . Laboratory fee.

HEBR 2002. Intermediate Hebrew II. 4 Credits.

Continuation of HEBR 2001. Further development of skills in speaking, reading, writing, and comprehension of modern Hebrew. Texts range from Israeli newspaper items to selections from classical materials. Prerequisite: HEBR 1001- HEBR 1002 . Laboratory fee.

HEBR 3001. Hebrew Conversation and Writing. 3 Credits.

Reading and writing at the intermediate to mid-high level, with stress on conversation and oral comprehension. Contemporary cultural and social aspects presented through selections from nonfiction and short fiction, films, and TV programs. Prerequisite: HEBR 2002 or permission of instructor.

HEBR 3101. Modern Hebrew Literary Classics. 3 Credits.

Prose and poetry of a century of writing from the beginning of the Hebrew literary renaissance to contemporary Israeli literature, including works of Bialik, Agnon, Hazaz, Amichai, Oz, and Yehoshua. Discussions stress historical development and authors' treatments of tradition and modernity.

HEBR 3102. Israeli Society and Culture: Literary Perspectives. 3 Credits.

A study of literature reflecting such contemporary issues as the conflict between the “builders’ generation” and their children; the cultural contacts of Ashkenazim and Sefardim; image of the Arab; impact of the Holocaust; Zionist ideals and current realities.

HEBR 3103. Israeli Cinema (in English). 3 Credits.

Film considered as both an artistic and a historical medium that reflects and comments on the history, politics, and culture of Israel. The kinds of issues that Israeli films raise and the cinematic style that distinguishes them.

HEBR 3105. Special Topics. 3 Credits.

HEBR 3301. Modern Hebrew Fiction. 3 Credits.

Study of selected modern Israeli short stories and poems.

Prerequisite: HEBR 3001 or permission of instructor.

HEBR 3301W. Modern Hebrew Fiction. 3 Credits.

Study of selected modern Israeli short stories and poems.

Prerequisite: HEBR 3001 or permission of instructor.

HEBR 3302. The Israeli Media. 3 Credits.

Explores the Israeli press, television and radio news broadcasts in Hebrew; focuses on developing increasing proficiency in reading and aural comprehension through class discussions and written assignments in Hebrew. Prerequisite: HEBR 3001 or permission of instructor.

HEBR 3302W. The Israeli Media. 3 Credits.

Explores the Israeli press, television and radio news broadcasts in Hebrew; focuses on developing increasing proficiency in reading and aural comprehension through class discussions and written assignments in Hebrew. Prerequisite: HEBR 3001 or permission of instructor.

HEBR 3901. Directed Project. 1-3 Credits.

Individual advanced reading or research, to be arranged with a member of the faculty. May be repeated for credit. Enrollment by permission of the instructor and department.

HEBR 4001. Advanced Hebrew Literature I. 3 Credits.

Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Prerequisite: HEBR 3301 or permission of instructor.

HEBR 4001W. Advanced Hebrew Literature I. 3 Credits.

Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Prerequisite: HEBR 3301 or permission of instructor.

HEBR 4002. Advanced Hebrew Literature II. 3 Credits.

Continuation of HEBR 4001. Selections from Hebrew literature throughout the ages: Bible, Rabbinics, medieval Hebrew literature; classical motifs in modern Israeli literature. Literary analysis (writing and discussion) in Hebrew. Prerequisite: HEBR 3301 or permission of instructor.

HISTORY (HIST)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HIST 1000. Dean's Seminar. 3 Credits.

The Dean’s Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

HIST 1011. World History, 1500-Present. 3 Credits.

An introduction to world history over the past half millennium, stressing themes of exchange and integration, tracing the ways various peoples of the world became bound together in a common system.

HIST 1020. Approaches to Women's History. 3 Credits.

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as WSTU 1020.

HIST 1110. European Civilization in Its World Context. 3 Credits.

Introduction to the history of Europe, emphasizing primary sources and their interpretation. From the beginning of written culture through 1715.

HIST 1120. European Civilization in Its World Context. 3 Credits.

Continuation of HIST 1110. Introduction to the history of Europe, emphasizing primary sources and their interpretation. From 1715 to the present.

HIST 1120W. European Civ in World Context. 3 Credits.

HIST 1121. The War of Ideas in European and International History, 1750-Present. 0-3 Credits.

The ideas that made people fight, from the French Revolution to the worldwide uprisings of the 1960s and beyond. Key texts whose ideas of freedom and slavery, tradition and progress, state authority and revolutionary violence changed the world. The political, economic, and social contexts and effects of these texts.

HIST 1310. Introduction to American History. 3 Credits.

The political, social, economic, and cultural history of the United States. From the earliest settlements to 1876.

HIST 1311. Introduction to American History. 3 Credits.

Continuation of HIST 1310. The political, social, economic, and cultural history of the United States. From 1876 to present.

HIST 2005. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

HIST 2005W. Majors' Introductory Seminar. 3 Credits.

Introduction to the analytical and writing expectations of the history major. Topics vary by semester. Consult the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

HIST 2010. Early American Cultural History. 3 Credits.

How culture was important in the creation of the United States—in its origins as a colonial outpost and its expansion across the continent; in its hierarchies and expressions of power, especially as organized by race, class, ethnicity, or gender; in the creation of democracy and the valuing of free expression; and in the development of cities and the varied uses of the countryside. Same as AMST 2010.

HIST 2011. Modern American Cultural History. 3 Credits.

The effects of culture in the shaping of the United States since 1876. The role of the mass media; effects of cultural conceptions on the physical landscape; changing ideas of race, ethnicity, gender, and sexuality; and the political meanings of cultural conflict. Transnational influences on U.S. culture and effects of U.S. culture abroad. Same as AMST 2011.

HIST 2020. Washington, D.C.: History, Culture, and Politics. 0-3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same as AMST 2020.

HIST 2020W. Washington, D.C.: History, Culture, and Politics. 0-3 Credits.

Introduction to interdisciplinary methods of studying the contemporary city. Major problems of metropolitan life, past and present, analyzed by faculty and community leaders. Emphasis on experiential team projects. Same as AMST 2020.

HIST 2050. History of Jewish Civilization: From the Bible to Modernity. 3 Credits.

Introduction to the richness and diversity of Jewish civilization from antiquity to the present. Examination of evolving notions of "who" or "what" is Jewish. Key concepts including "chosenness," community, peoplehood, diaspora, redemption, and Torah. How the boundaries of Jewishness have been formed, contested, and revised over time; how Jews managed to retain their identity throughout their millennial history of migration, dispersion, and persecution; what unites Jewish civilization; and whether a unified Jewish history over centuries and continents can be traced, as distinct from multiple "histories" of the Jews in the myriad times and places in which they lived. Emphasis on analysis of primary texts and cultural objects along with contextual understanding of Jews and Judaism.

HIST 2105. Majors' Introductory Seminar: Europe. 0-3 Credits.**HIST 2105W. Majors' Introductory Seminar: Europe. 0-3 Credits.****HIST 2112. History of Ancient Greece. 3 Credits.**

A political and social survey of Bronze Age Minoan and Mycenaean civilizations, the Iron Age, Archaic Period, Classical Greece through Alexander the Great. (Same as CLAS 2112).

HIST 2113. The Roman World to 337 A.D.. 3 Credits.

Prehistoric Italy; rise and decline of the Roman Empire and Latin civilization; cultural, social, and political developments in the Greek world under Roman rule. Same as CLAS 2113.

HIST 2124. 19th-Century Europe. 3 Credits.

Exploration of primary source documents and works of professional historians to introduce important issues of 19th-century European history.

HIST 2125. 20th-Century Europe. 3 Credits.

Diplomatic, political, and cultural developments from the turn of the century to the present.

HIST 2131. History of England Since 1689. 3 Credits.

Development of English civilization and its impact on Western culture.

HIST 2141. History of France Since 1814. 3 Credits.

Breaks and continuities in the succession of regimes; the interplay between revolution and tradition; the weakened international position of France; Gaullism and the survival of France; European Unity.

HIST 2160. History of Germany. 3 Credits.

Political, social, and cultural development.

HIST 2305. Majors' Introductory Seminar: United States. 0-3 Credits.

HIST 2305W. Majors' Introductory Seminar: United States. 0-3 Credits.

HIST 2312. The American Civil War and Reconstruction, 1850-1877. 3 Credits.

Examination of the political crises of the 1850s to determine how and why the issue of slavery led to the American Civil War; the war's important battles, including how generals and common soldiers shaped outcomes; Reconstruction and the aftermath of the war, including how it shapes politics and race relations to the present day.

HIST 2313. History of the American West. 3 Credits.

A history of the Trans-Mississippi West from first settlement by American Indians to the present. Topics include the pre-contact West, the coming of the Spanish, American settlement, the Indian Wars, women in the West, labor and racial conflict, and the West in the twentieth century.

HIST 2320. U.S. Media and Cultural History. 3 Credits.

History and analysis of 20th-century U.S. media and culture, including the rise of consumer culture, film, and television. Racial, gendered, and national identities in the context of modernism, mass culture, and globalization. Same as AMST 2320.

HIST 2321. U.S. History, 1890-1945. 3 Credits.

A survey of modern U.S. history from the late nineteenth century to the end of WWII. Emphasis on politics, public policy, and culture. Basic readings include biography, autobiography, and contemporary novels.

HIST 2322. U.S. History since 1945. 3 Credits.

Political, social, diplomatic, and intellectual developments, with particular emphasis on the Cold War, "silent" '50s, and disrupted '60s.

HIST 2340. US Diplomatic History. 3 Credits.

American foreign relations in the 20th century.

HIST 2340W. US Diplomatic History. 3 Credits.

American foreign relations in the 20th century.

HIST 2341. History of FBI Counterintelligence. 3 Credits.

The issues, controversies, and personalities that have played critical roles in the history of FBI foreign counterintelligence development. Prerequisites: None.

HIST 2350. U.S. Religion and Politics. 3 Credits.

How religion and politics have influenced each other in the United States and how Americans have understood those influences. Religious violence; conflicts between faith and science; religious factors in racial and gender politics; and the separation of church and state. Same as AMST 2350.

HIST 2380. Sexuality in US Cultural Hist. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ WSTU 2380.

HIST 2410. 20th-Century U.S. Immigration. 3 Credits.

Survey of immigration policy and immigrants' lives. How immigrants have changed the United States and how the United States has changed immigrants. Same as AMST 2410.

HIST 2440. 202. 3 Credits.

An interdisciplinary introduction to the ethnic, cultural, political, and architectural landscape of the American city. Urban theory, race and ethnicity, urban history, planning and architecture, city politics, and cultural representations of the city. Same as AMST 2440.

HIST 2490. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Same as AMST 2490.

HIST 2490W. Themes in U.S. Cultural History. 3 Credits.

Topical examination of the ideas, values, and modes of expression that have made American life distinctive, as revealed through a cross-cultural or global perspective. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. (Same as AMST 2490W, AMST 2490W).

HIST 2505. Majors' Introductory Seminar: Africa. 0-3 Credits.

HIST 2605. Majors' Introductory Seminar: Asia. 0-3 Credits.

HIST 2605W. Majors' Introductory Seminar: Asia. 0-3 Credits.

HIST 2705. Majors' Introductory Seminar: Latin America. 0-3 Credits.

HIST 2705W. Majors' Introductory Seminar: Latin America. 0-3 Credits.

HIST 2710. The United States in Global Context, 1898-Present. 0-3 Credits.

How the 20th- and 21st-century U.S. has been engaged globally, both politically and culturally, with attention to global culture, transnational ideas and social movements, foreign policy, and economic transformations. Same as AMST 2710.

HIST 2730. World War II in History and Memory. 0-3 Credits.

Examination of Americans' histories and memories of World War II. Same as AMST 2730.

HIST 2730W. World War II History & Memory. 0-3 Credits.

Examination of Americans' histories and memories of World War II. Same as AMST 2730.

HIST 2803. The Ancient Near East and Egypt to 322 B.C.. 3 Credits.

Survey of Egyptian, Mesopotamian, Anatolian, West Semitic, and Iranian civilizations from the Neolithic period to Alexander's conquest. Same as Clas 2803.

HIST 2804. History of Ancient Israel. 3 Credits.

The history of ancient Israel from the Patriarchs through the Romans. Topics include historical, archeological, political, social, cultural, religious, diplomatic, military, economic, and intellectual events, movements, and relationships. Same as CLAS 2804.

HIST 2805. Majors' Introductory Seminar: Middle East. 0-3 Credits.**HIST 2805W. Majors' Introductory Seminar: Middle East. 3 Credits.****HIST 3001. Special Topics. 0-4 Credits.**

May be repeated for credit provided the topic differs.

HIST 3001W. Special Topics. 0-4 Credits.

May be repeated for credit provided the topic differs.

HIST 3030. Military History to 1860. 3 Credits.

The causes, conduct, and consequences of conflict in the ancient, medieval, renaissance, and early modern world. Examination of the Anglo-Dutch and Anglo-French wars leading to the Seven Years' War, American Revolution (including a "virtual staff ride" of the Saratoga Campaign), French Revolution, and Napoleonic Wars.

HIST 3031. Military History since 1860. 3 Credits.

Causes, conduct, and consequences of conflict from the American Civil War through the Austro- and Franco-Prussian Wars, Spanish-American War, Sino- and Russo-Japanese Wars, World Wars I and II (including a "virtual staff ride" of the Normandy Campaign), Korea, Vietnam, and modern "small wars".

HIST 3033. War and the Military in American Society from the Revolution to the Gulf War. 3 Credits.

Social and psychological dimensions of war and military service.

HIST 3035. The United States and the Wars in Indochina, 1945-1975. 3 Credits.

The American role in the Indochina Wars, emphasizing the period 1961-1975, and from the perspectives of the Vietnamese, French, and Americans in Vietnam. Related intellectual and political developments in the United States; Cold War relationships with China and the Soviet Union.

HIST 3038. Naval History to 1815. 3 Credits.

Causes, conduct, and consequences of war at sea from the Age of Reconnaissance and Conquest through the War of 1812 (including a "virtual staff ride" of the Battle of Trafalgar). Consideration of issues including technology, the impact of the environment, and theories of warfare associated with each period.

HIST 3039. Naval History since 1815. 3 Credits.

Causes, conduct, and consequences of war at sea in the Civil War, counterinsurgency operations of so-called small wars, World Wars I and II, and the post-Cold War period. The transition from sail to steam, asymmetric warfare, and the role of sea power in modern geopolitics. Students participate in a virtual staff ride of the Battle of Leyte Gulf.

HIST 3044W. The Price of Freedom: Normandy 1944. 4 Credits.

The causes, conduct, and consequences of warfare, considered through examination of the campaign in Normandy that began with the allied landings on D-Day. Assignments include researching and writing a biography of a member of the military who died in the campaign and presenting a eulogy at the soldier's graveside during a "staff ride" exploration of the battlefield conducted over spring break. The biography paper is to be submitted to and retained in the archives of the American Cemetery in Normandy. Restricted to Students must be approved by the Study Abroad Office and interviewed by the instructor.

HIST 3045. International History of the Cold War. 3 Credits.

Key events and themes of the Cold War, drawing on new evidence from U.S., Soviet, Chinese, German, East European, Vietnamese, Cuban, and other sources. Related historiographical controversies from multiple national perspectives. Why the Cold War began, why it lasted for 45 years, and why it ended.

HIST 3046. The Cold War in the Third World. 3 Credits.

The evolution of the Cold War in Asia, Africa, and Latin America. Decolonization and the response of the Great Powers, the political economy of the Third World, and American and Soviet interventions.

HIST 3047. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War.

HIST 3047W. Writing Cold War History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of the Cold War.

HIST 3060. Modern Jewish History. 3 Credits.

Survey of Jewish history from the 17th century to the present, focusing on Europe, America, and the Middle East. The myriad political, economic, and intellectual challenges of modernity to Jewish life and how Jews responded to these challenges through various religious and secular movements and with new concepts of identity and community.

HIST 3061. The Holocaust. 3 Credits.

The origins, causes, and significance of the Nazi attempt to destroy European Jewry, within the context of European and Jewish history. Related themes include the behavior of perpetrators, victims, and bystanders; literary responses; contemporary implications of the Holocaust for religion and politics.

HIST 3062. War Crimes Trials. 3 Credits.

The Nuremberg trial and its legacy in subsequent international and hybrid tribunals. The need for judicial accountability for genocide, crimes against humanity, and war crimes.

HIST 3095. Internship. 1-3 Credits.

Study of history through internships in museums, libraries, Congress, or other appropriate institutions and agencies. Prerequisite: approval of a departmental faculty member.

HIST 3097. Independent Study. 1-3 Credits.

Permission of instructor required.

HIST 3101. Topics: Europe. 0-3 Credits.**HIST 3101W. Topics: Europe. 3 Credits.****HIST 3103. European Intellectual History I. 3 Credits.**

The "Century of Genius" and the Enlightenment; God, nature, man, and society, from Descartes to the French Revolution.

HIST 3104. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy.

HIST 3104W. European Intellectual History II. 3 Credits.

Continuation of HIST 3103. Responses to the French Revolution and the Enlightenment; historicism, evolution; nihilism, psychoanalysis; communism; fascism; existentialism, structuralism, postmodernism, and neo-orthodoxy.

HIST 3111. Topics in Ancient History. 3 Credits.

May be repeated for credit provided the topic differs. Same as CLAS 3111.

HIST 3118. The Middle Ages: 500-1500. 3 Credits.

The evolution of European society from the end of the Roman Empire to the Renaissance. The nature of political power, role of religion, place of gender, cultural production, and changing social structures.

HIST 3126. European Integration: A History. 3 Credits.

An examination of the origins and development of the European Union.

HIST 3130. History of England I. 3 Credits.

Development of English civilization and its impact on Western culture. To 1689.

HIST 3132. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485-1603.

HIST 3132W. Tudor England. 3 Credits.

Aspects of the constitutional, social, intellectual, economic, and religious development of England, 1485-1603.

HIST 3134. Stuart England. 3 Credits.

The civil wars, Restoration, and Glorious Revolution. Political, religious, socioeconomic, and intellectual developments in England, 1603-1714.

HIST 3135. Victorian Britain. 3 Credits.

Major themes in 19th-century British history: industrialism, democratization, urbanization, imperial expansion, class and gender schisms.

HIST 3137. The British Empire. 3 Credits.

The British Empire from its rise in the 17th century to its demise in the 20th century.

HIST 3139. Twentieth Century Britain. 3 Credits.

Major themes of 20th-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe.

HIST 3139W. 20th-Century Britain. 3 Credits.

Major themes of 20th-century British history: industrial decline, imperialism and decolonization, the making of a welfare state, the cataclysm of global war, integration with Europe.

HIST 3140. History of France I. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon.

HIST 3140W. History of France to 1814. 3 Credits.

Old Regime: monarchy and social classes; the Church; the Enlightenment; the 1789 revolution; Napoleon.

HIST 3145. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789-1799. Attention to its structural consequences in France and in Europe at large.

HIST 3145W. The French Revolution. 3 Credits.

Social, political, economic, and cultural history of the decade of revolution, 1789-1799. Attention to its structural consequences in France and in Europe at large.

HIST 3148. El Camino de Santiago. 3 Credits.

Walking the Camino de Santiago is a cultural phenomenon that has lasted over a thousand years. An important part of Spain's cultural and political history, the Camino has affected the structures that form Spain's political and institutional systems, society, economy, and ideology as well as artistic forms of expression. Students may earn their Pilgrim's passport by walking the last 100 kilometers of the Camino after the formal classes have ended. Offered at GW Madrid Study Center.

HIST 3150. Spain and Its Empire, 1492-1700. 3 Credits.

Major transformations of the period: from cultural pluralism to ethnic homogeneity, from medieval fragmentation to imperial expansion in Europe and America; from religious reform to Catholic Reformation, from global dominance to decline.

HIST 3168. Divided and United Germany Since 1945. 3 Credits.

Why was Germany divided after World War II? Why did it stay divided for 45 years? How was it reunited in 1990? This course examines developments in East and West Germany, relations between the two Germanys during the Cold War, their foreign policies, and how other countries treated them.

HIST 3173. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I.

HIST 3173W. The Habsburgs in East Central Europe. 3 Credits.

History of the Habsburg monarchy in its East Central European context. Reformation and Counter-Reformation; conflict with the Ottoman Empire; great-power competition in Europe; response to the Enlightenment and the French Revolution; the rise of nationalism; and final dissolution in World War I.

HIST 3178. The Making of the Modern Balkans. 3 Credits.

States of the Balkan peninsula—Slovenia, Croatia, Serbia and Montenegro, Bosnia, Albania, Macedonia, Greece, Bulgaria, and Romania—including developments since the decline of the Ottoman Empire and the emergence of Balkan nationalist movements, and continuing through the collapse of the Soviet bloc.

HIST 3180. Russia to 1801. 3 Credits.

Survey of Russian history from the rise of the Kievan confederation in the ninth century to the establishment of Imperial Russia as a European great power. Attention will be given to the political, socioeconomic, and cultural history of the East Slavs, especially the Russians.

HIST 3181. Russia Since 1801. 3 Credits.

Survey of Russian and Soviet history from the reign of Alexander I to the Stalin era. Attention will be given to the contending forces of revolution, reform, and conservatism; diplomatic relations; economic development; and social change.

HIST 3301. Topics: U.S. History. 0-3 Credits.

HIST 3301W. Topics: U.S. History. 3 Credits.

HIST 3302. America before 1764. 3 Credits.

An examination of prehistory, colonization, and the shifting dynamics among European Americans, African Americans, and Native Americans before 1764.

HIST 3303. Revolutionary America. 3 Credits.

The American revolutionary era from the movement for independence through the establishment of the new federal government under the Constitution. Emphasis on changes to the inhabitants of North America, including Native Americans, African Americans, and European Americans, as well as to the broader Atlantic world.

HIST 3304. George Washington and His World. 3 Credits.

George Washington's life as soldier, politician, entrepreneur, slave holder, and national icon. Emphasis on the interpretation of original sources, including historical documents and the material culture of Washington's Mount Vernon estate, with tours and lectures by curators and historians. Departmental permission is required for registration.

HIST 3311. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Focus on 1824–1950 as a crucial era in American history. Popular impact of social and political changes caused by the growth of the market economy; emergence of two national political parties; and new reforms focused increasingly on slavery as the country's greatest problem.

HIST 3311W. The Jacksonian Era and the Rise of Mass Politics. 3 Credits.

Study of 1824–1850 as an era in American history marked by widespread change. Impact of social and political reforms caused by the growth of the market economy; emergence of two national political parties; and new reforms increasingly focused on slavery as America's greatest problem.

HIST 3322. The Modern American Presidency. 3 Credits.

Development of the modern American presidency from Theodore Roosevelt to Barack Obama. Examination of the lives of the presidents, revealing the intersection of personal and impersonal forces in the creation of modern politics and modern America.

HIST 3324. US Urban History. 3 Credits.

History of American urban life and culture from the colonial era to the present, focusing on transitions from pre-industrial to industrial and post-industrial forms. The social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as AMST 3324.

HIST 3332. History of American Foreign Policy Since World War II. 3 Credits.

Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. World War II to the Vietnam .

HIST 3333. History of American Foreign Policy Since World War II. 3 Credits.

Continuation of HIST 3332. Emphasis on American and Soviet strategy and foreign policy in the era of the Cold War. Vietnam to the "New World Order."

HIST 3334. The Nuclear Arms Race. 3 Credits.

Political, military, diplomatic, scientific, and cultural consequences of the advent of nuclear weapons. The development and uses of the atomic bomb during World War II and the course and legacy of the U.S.-Soviet nuclear arms race during the Cold War.

HIST 3351. U.S. Social History. 3 Credits.

Survey of American society and social change from the Civil War to the present. Gender, sexuality, race, ethnicity, and class perspectives. (Same as AMST 3351).

HIST 3352. Women in the United States to 1865. 3 Credits.

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3352, WSTU 3352).

HIST 3352W. Women in the United States I. 3 Credits.

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. Same as AMST 3352/ WSTU 3352.

HIST 3353. Women in the United States II. 3 Credits.

Continuation of HIST 3352. Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3353, WSTU 3353).

HIST 3356. Epidemics in American History. 3 Credits.

Epidemics in American history.

HIST 3360. African American History to 1865. 3 Credits.

Major themes and concepts emerging from the early history of the African presence in the Americas and black experiences in the new nation of the United States. Focus on the emergence and evolution of the concept of race, the ways race evolved in concert with Atlantic slavery, and how race intersected with gender, economics, religion, and nationality. (Same as AMST 3360).

HIST 3361. African American History Since 1865. 3 Credits.

African American efforts to realize full freedom after emancipation from slavery. Gender politics, cultural expression, labor organizing, and radicalisms; dynamics of racism within major eras of African American activity from Reconstruction through the Great Migration; and the history of civil rights, Black Power, and black feminism. (Same as AMST 3361).

HIST 3362. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as AMST 3362, WSTU 3362).

HIST 3362W. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as WSTU 3362W, AMST 3362W).

HIST 3363. Race, Medicine & Public Health. 3 Credits.

Issues of race, medicine, and public health.

HIST 3366. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present. Focus on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree.

HIST 3366W. Immigration, Ethnicity, and the American Experience. 3 Credits.

Immigrant life in America from 1607 to the present, focusing on the urban immigrant experience from 1840 to 1924, the ironic persistence of nativism in a "nation of immigrants," the origins of modern immigration law, and the similarities between today's immigrants and those from the past. Students write research papers on an immigrant found in their family tree.

HIST 3367. The American Jewish Experience. 3 Credits.

The study of the Jewish minority in America from colonial times to the present. Emphasis on the interaction between a powerful majority culture and that of protean minority people.

HIST 3370. US Constitutional History. 3 Credits.

Examination of the text and interpretation of the document that is the foundation of the American government, with special attention to the changing character of race and gender as constitutional classes.

HIST 3501. Topics: Africa. 0-3 Credits.

A survey of African history from 1880 to the present.

HIST 3510. African History to 1880. 3 Credits.

Survey of the history of the African continent with emphasis on the history of sub-Saharan Africa.

HIST 3520. Africans in the Making of the Atlantic World. 3 Credits.

The role of Africa and Africans in the Atlantic world with emphasis on links between Africa, Europe, and the Americas.

HIST 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as WSTU 3530.

HIST 3530W. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as WSTU 3530.

HIST 3540. West Africa to Independence. 3 Credits.

A thematic survey of West African history, focusing on the diversity of African culture, West African kingdoms and empires, Islam, the trans-Saharan trade, African contact with Europe, slavery and the slave trade, and the colonization of Africa.

HIST 3601. Topics: Asian History. 0-3 Credits.**HIST 3610. China to 1800. 3 Credits.**

Survey of Chinese civilization from its ancient beginnings to the last imperial dynasty.

HIST 3611. History of Modern China. 3 Credits.

China since 1840, with particular attention to political developments.

HIST 3614. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China.

HIST 3614W. Writing Modern Chinese History. 3 Credits.

Seminar. Students prepare a research paper on selected topics in the history of modern China.

HIST 3615. History of Chinese Communism. 3 Credits.

Survey of the leadership, ideology, structure, and foreign and domestic policies of the Chinese Communist Party from its inception to the present.

HIST 3621. History of Modern Japan. 3 Credits.

Japan's dramatic transformation from an isolated island country to Asia's only modern colonial empire, from unprecedented defeat to postwar "economic miracle." Emphasis on historical, political, economic, and cultural trends.

HIST 3630. History of Korea. 3 Credits.

An introduction to the history and culture of Korea from antiquity to the present.

HIST 3631. History of Modern Korea. 3 Credits.

Modern Korean history from 1876 to contemporary society. Emphasis on colonialism, nationalism, the division of peninsula, the Cold War, and globalization.

HIST 3640. History of Southeast Asia. 3 Credits.

An examination of Vietnam and its neighbors from the pre-colonial period to the present.

HIST 3650. Modern South Asia, 1750-Present. 3 Credits.

The South Asian subcontinent, including Afghanistan, Pakistan, India, and Bangladesh, since the mid-18th century. The period of British rule, from the late 18th to the mid-20th century. The different trajectories of the independent nation-states of South Asia following decolonization.

HIST 3701. Topics in Latin American History. 0-3 Credits.**HIST 3710. History of Latin America I. 3 Credits.**

Analysis of Spanish and Portuguese imperialism in the New World, 1492-1820.

HIST 3711. History of Latin America II. 3 Credits.

Continuation of HIST 3710. A problems approach to Latin America, 1820 to the present; thematic emphasis on neocolonialism, corporatism, liberalism, caudillismo, modernization, populism, and revolution.

HIST 3801. Topics in Middle Eastern History. 0-3 Credits.**HIST 3810. History of the Middle East to 1800. 3 Credits.**

Byzantine, Arab, Persian, and Islamic backgrounds; rise and decline of the Ottoman Empire; action of European powers in the area; Ottoman breakup into the Turkish Republic and other states.

HIST 3811. The Middle East in the 20th Century. 0-3 Credits.

The state system established after World War I. Effects of colonialism, the rise of nationalism, the Cold War, and the oil industry. The modes of identification that accompanied these processes, including pan-Arabism and Islamism.

HIST 3811W. Middle East in 20th Century. 0-3 Credits.

The state system established after World War I. Effects of colonialism, the rise of nationalism, the Cold War, and the oil industry. The modes of identification that accompanied these processes, including pan-Arabism and Islamism.

HIST 3820. The History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present. Topics include Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state.

HIST 3820W. The History of Israel. 3 Credits.

Survey of the history of Israel from the origins of Zionism to the present. Topics include Zionism as an ideology and movement in the pre-state period; the relationship between state and religion; the impact of 1948 and 1967; immigration, colonization, and Israeli society; the Arab-Israeli conflict; and Israel's national identity as a Jewish and democratic state.

HIST 3830. History of Iraq. 3 Credits.

Modern Iraq's Ottoman background; its incorporation into a world market dominated by Europe, British influence and preconceptions in the creation of Iraq, and the emergence and survival of the Ba'ath dictatorship. Reforms in economic, political, and educational spheres.

HIST 3840. History of Central Asia. 3 Credits.

Introduction to the political, cultural, religious, and social history of the region, including Afghanistan, Kazakhstan, Tajikistan, Turkmenistan, and Uzbekistan.

HIST 3850. Modern Iran. 3 Credits.

Political, diplomatic, religious, and other developments in Iran from about 1800 to 1989.

HIST 4098. Thesis Seminar. 3 Credits.

For history majors only. Preparation of a research paper using primary sources.

HIST 4098W. Thesis Seminar. 3 Credits.

History majors identify an original research topic in an area of their interest and complete a major research paper based largely on primary sources.

HIST 4099. Senior Honors Thesis Tutorial. 3 Credits.

Required of and open only to undergraduate honors candidates in history. Restricted to Instructor approval required. Prerequisites: HIST 4098W.

HIST 4099W. Senior Honors Thesis Tutorial. 3 Credits.

Required of and open only to undergraduate honors candidates in history. Restricted to Open only to undergraduate honors candidates in history. Prerequisites: HIST 4098 or HIST 4098W.

HIST 4135. Folger Seminar. 3 Credits.

The history of books and early modern culture. Use of the archive at the Folger Shakespeare Library. Students must obtain departmental approval in the preceding semester. Same as ENGL 4135/ FREN 4135.

HIST 6001. Special Topics. 3-9 Credits.

Open to doctoral and master's candidates and qualified undergraduates. May be repeated for credit provided the topic differs.

HIST 6005. History and Historians. 3 Credits.

Historiography and historical method for graduate students. Readings and discussions on major trends in history; selections from classics of historical literature.

HIST 6006. Teaching History. 3 Credits.

Pedagogic techniques and strategies particular to the discipline. Admission by permission of instructor.

HIST 6011. Reading and Research in History and Public Policy. 3 Credits.

The use of historical insights and methods in policymaking, with emphasis on domestic issues.

HIST 6012. Internship in History and Public Policy. 3,6 Credits.

Supervised participation in an office or agency concerned with the formulation of public policy; terms of the internship are arranged with the director of the history and public policy program. Enrollment restricted to students in the history and public policy program.

HIST 6030. History and Its Uses in International Affairs. 3 Credits.

The multiple interconnections among history, politics, and international affairs, including how policymakers use or misuse "lessons" of history and how countries attempt to deal with difficult aspects of their past. Specific cases may vary.

HIST 6031. History of International Economic Systems. 3 Credits.

Development of arrangements and institutions designed to manage the international economy since the 19th century, with a focus on the period since World War II.

HIST 6032. Rdg/Rsch Sem:Strategy & Policy. 3 Credits.

A study of the historical development of strategy and the relationship of military thought to national policy.

HIST 6040. Topics in Modern Military and Naval History. 3 Credits.

Discussion, readings, and research in 20th-century European and American military and naval history.

HIST 6041. The Age of the Battleship: An Introduction to Modern Naval History. 3 Credits.

The rich and varied literature of naval history, with emphasis on interactions among technology, nationalism, and domestic political/social developments in the late 19th and early 20th century. The social history of navies is included.

HIST 6042. Seminar: World War II. 3 Credits.

Examination of statecraft and the management of force before, during, and after World War II. Special attention to broad aspects of military policy and strategy and their interaction with international politics and diplomacy.

HIST 6050. Modernization, Imperialism, Globalization. 3 Credits.

Readings seminar in classic and recent theories of modernization, imperialism, and globalization.

HIST 6051. Re-thinking Cold War History. 3 Credits.

A reading and research course that relies heavily on documents from formerly closed communist archives and recently declassified Western materials. Various issues and events of the Cold War; old and new historiographical controversies. Students write a primary-source research paper to elucidate one of the many aspects of the Cold War about which new evidence is available.

HIST 6097. Independent Readings/Research. 3 Credits.

Written permission of instructor required. May be repeated for credit with permission.

HIST 6101. Topics: Europe. 3 Credits.**HIST 6105. Sem:European Intellectual Hist. 3 Credits.**

Topics in 18th- and 19th-century European thought, with an emphasis on France. Specific topic announced in the Schedule of Classes.

HIST 6120. Sem:Early Modern European Hist. 3 Credits.

Topics selected from Western European history of the 14th through 17th centuries.

HIST 6121. Rdg/Rsch Sem:Mod European Hist. 3 Credits.**HIST 6122. Rdg/Rsrch Sem:20th C History. 3 Credits.**

Research or readings on selected topics.

HIST 6128. Europe and the World, 1500-Present. 3 Credits.

An introduction to some of the key debates and scholarship concerning European imperialism.

HIST 6130. Early Modern Britain. 3 Credits.

Analysis of some current issues in early modern historiography; contextualization of recent works in the field; consideration of different methodologies and the types of evidence on which they rely or that they illuminate.

HIST 6133. English People and Institutions. 3 Credits.

Selected topics in the political, social, intellectual, and economic history of England. Focus upon one time period and special area of interest. May be taken for research credit with instructor's approval.

HIST 6135. British Imperialism. 3 Credits.

Research seminar. Major debates and schools of thought on the history of British imperialism.

HIST 6138. Folger Institute Seminars I. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6139. Folger Institute Seminars II. 3 Credits.

Continuation of HIST 6138. Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Consult the chair of the department before registration.

HIST 6170. Eastern European History I. 3 Credits.
1772-1918.**HIST 6171. Eastern European History II. 3 Credits.**

Continuation of HIST 6170. 1919-1945.

HIST 6180. History of Modern Russia and the Soviet Union. 3 Credits.

Selected topics in the domestic history of modern Russia and Soviet Union. May be taken as a readings seminar or, with instructor's approval, as a research seminar.

HIST 6181. Research Seminar: Russian and Soviet Empires. 3 Credits.

HIST 6185. Sem: Russian & Soviet Thought. 3 Credits.

Selected topics in the intellectual and cultural history of 18th- to 20th-century Russia and Soviet Union. May be taken as a readings seminar or, with instructor's approval, as a research seminar. Admission by permission of instructor.

HIST 6188. The Soviet Union and the World, 1917-1991. 3 Credits.

Concepts and perceptions guiding Soviet relations with the outside world. From the blockade and intervention, through years of isolation, World War II, the Cold War, to "peaceful coexistence."

HIST 6301. Topics: U.S. History. 3 Credits.

HIST 6302. Colonial North America. 3 Credits.

The complex and turbulent world of colonial North America from the late 16th to the late 18th century. Inter-cultural negotiations, Atlantic world connections, imperial conflict, gender construction, and race consciousness.

HIST 6303. Revolutionary America. 3 Credits.

The political and social conditions of the revolutionary era: the spiral of events that led to the American independence movement, the various meanings of the war to its participants, and the consequences of victory for the nation, its various subgroups, and other peoples of the colonial Atlantic world.

HIST 6304. American Indian History to 1890. 3 Credits.

North American Indian history from indigenous societies on the eve of first contact with Europeans until the conclusion of the Great Plains Wars of the late 19th century.

HIST 6310. Readings in 19th-Century American History. 3 Credits.

Important trends in historical writing about 19th-century America.

HIST 6311. The Era of the Civil War, 1850-1877. 3 Credits.

Consideration of how and why the issue of slavery led to the American Civil War. Conflict on the battlefield and the political and social impact of the war in both the North and the South. Examination of the Reconstruction period as a means of understanding how the conflict and its aftermath continue to shape American politics and race relations to the present.

HIST 6312. The Law of Race and Slavery. 3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Admission by permission of instructor. Same as SOC 6286 and LAW 6596.

HIST 6320. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Prerequisite: 6 credit hours of upper-level undergraduate American history courses. Research or readings, depending on students' interests and curricular needs.

HIST 6321. Readings/Research Seminar: Recent U.S. History. 3 Credits.

Continuation of HIST 6320. Prerequisite: 6 credit hours of upper-level undergraduate American history courses. Research or readings, depending on students' interests and curricular needs.

HIST 6322. American Business History. 3 Credits.

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention will be given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. Same as SMPP 6293.

HIST 6330. Modern U.S. Foreign Policy. 3 Credits.

Readings, lectures, discussion on major developments in the conduct of American diplomacy from 1898 to 9/11.

HIST 6350. American Social Thought Since World War II. 3 Credits.

Consideration of C. Wright Mills, Daniel Bell, Abraham Maslow, Christopher Lasch, Paul Goodman, Martin Luther King, Jr., Barbara Ehrenreich, and other major social critics.

HIST 6360. Immigration and Ethnicity in the United States. 3 Credits.

The history of immigrant life in the United States with a focus on the mass migration from Europe that began with the Irish Potato Famine of the 1840s and ended with the immigration restrictions of the 1920s that created the concept of the "illegal immigrant."

HIST 6370. US Legal History. 3 Credits.

The legal history of the United States from the 17th century to the present. The course examines legal change within the broader context of political, social, and economic change. Admission by permission of instructor. Same as LAW 6591.

HIST 6410. Readings in American Cultural History. 3 Credits.

Studies in the cultural history of the United States, focusing on major historiographic debates and interventions. Examples of possible topics include cultural contact, the public sphere, and systems of religious and political belief. Same as AmSt 6410.

HIST 6420. Religion & American Culture. 3 Credits.

Interdisciplinary analysis of religious beliefs, practices, and representations in the United States, as well as intersections of the religious and the secular. Relationships of religion to race, gender, capitalism, science, mass media, and material culture. Same as AMST 6420.

HIST 6430. Gender, Sexuality, and American Culture. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-Columbian settlement to 1876. Same as AMST 6430/ WSTU 6430.

HIST 6431. Gender, Sexuality, and American Culture. 3 Credits.

Continuation of HIST 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/WSTU 6431.

HIST 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST 6435/WSTU 6435.

HIST 6450. Race in America. 3 Credits.

Interdisciplinary analysis of the history of race and its changing political, social, and cultural meanings in the United States. Transnational racial formations, struggles for and against civil rights, multiracialism, and interracialism. Same as AMST 6450.

HIST 6455. American Social Movements. 3 Credits.

The history of social movements in the United States, with emphasis on civil rights, feminism, conservatism, and labor in local, national, and transnational contexts; the historical rise and fall of these movements and their larger impact on American life. Same as AMST 6455.

HIST 6470. Cityscapes. 3 Credits.

Interdisciplinary examination of the American city, including urban theory, history, planning, architecture, urban politics, and cultural representations of the city. Same as AMST 6470.

HIST 6475. US Urban History. 3 Credits.

History of American urban life and culture from the Colonial era to the present, focusing on the transitions from pre-industrial to industrial and post-industrial forms, the social and spatial configuration of U.S. cities, and the urban politics of race, class, and gender. Same as AMST 6475.

HIST 6480. Theory and Practice of Public History. 3 Credits.

Theoretical and practical dimensions of public history, as illustrated by recent controversies surrounding public exhibitions and debates on revisionist history as well as more traditional means of presenting the past in public forums. Same as AMST 6480.

HIST 6495. Historic Preservation: Principles and Methods. 3 Credits.

The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6495.

HIST 6496. Historic Preservation: Principles and Methods. 3 Credits.

Continuation of HIST 6495. The scope and purpose of the preservation movement in the United States, with focus on developments since the 1960s. Preservation theories, attitudes toward the past and toward design, the intent and impact of legislation, approaches to documentation, the concept of significance, and preservation as an instrument of change. Same as AMST 6496.

HIST 6501. Topics: Africa. 3 Credits.

HIST 6502. Western Representations of Africa. 3 Credits.

Representations of Africa by non-Africans from the earliest contact to more recent encounters.

HIST 6601. Topics: Asian History. 3 Credits.

HIST 6602. Asia: History, Memory, and Violence. 3 Credits.

Violence has been a defining experience for many of the populations and polities of Asia over the past century and a half. Focusing on the themes of violence and historical memory, the course takes a comparative approach, looking at how these issues have played out in different arenas throughout East, Southeast, and South Asia.

HIST 6610. Readings Seminar: Late Imperial China. 3 Credits.

Selected topics in the history of modern China in the late imperial period, with a particular focus on the internal and external challenges to the last Chinese dynasty in the 19th century.

HIST 6611. Readings Seminar: 20th-Century China. 3 Credits.

Selected topics in the history of modern China from the 1911 Revolution to the Cultural Revolution.

HIST 6621. Readings Seminar: Modern Japanese History. 3 Credits.

Selected topics in modern Japanese history from the Meiji Restoration of 1868 to the present. Research or readings depending on students' interests. Emphasis on how interpretations of the past are shaped by the present.

HIST 6625. Japan's Empire and Its Legacies. 3 Credits.

History of modern Japan's overseas expansion and empire building. Focus on issues including colonial modernity, resistance and collaboration, and postwar legacies such as politics of memory and prospects of reconciliation.

HIST 6630. Spec Topics in Korean History. 3 Credits.

Intensive exploration of the history of Korea in modern times (1850–present). Korean identity and the challenges of foreign imperialism, industrialization, modernization, and globalization.

HIST 6641. Modern Southeast Asia. 3 Credits.

The modern history of Southeast Asia from the 1800s to 1975. Colonialism, rise of postcolonial states, revolutions and persistence of the past.

HIST 6701. Topics in Latin American History. 3 Credits.

HIST 6801. Topics in Middle Eastern History. 3 Credits.

HIST 6811. Research Sem: Modern Middle East. 3 Credits.

Readings, discussion, and research in selected political, economic, social, cultural, and intellectual trends.

HIST 6821. Islam and Social Movements. 3 Credits.

An examination of the relationship of religion and religious symbols to social and political movements in the Islamic world.

HIST 6822. Nationalism in the Middle East. 3 Credits.

Different interpretations of nationalism and their applicability to nationalism in the Middle East.

HIST 6823. Imperialism in the Middle East. 3 Credits.

An exploration of the process of European and American expansion in the Middle East.

HIST 6824. Rdg/RsrchSem: Modern Iran. 3 Credits.

HIST 6998. Thesis Research. 3 Credits.

HIST 6999. Thesis Research. 3 Credits.

HIST 8998. Advanced Reading & Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

HIST 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

HOMINID PALEOBIOLOGY (HOMP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HOMP 6201. Hominid Paleobiology. 3 Credits.

Study of human evolution through investigation of the fossil record; current research in reconstructing paleobiology. Adaptation, phylogeny and behavior reconstruction, site formation, and the taxonomy, site context, anatomy, behavior, and major issues surrounding each hominin taxon.

HOMP 6202. Lab Techniques: Paleoanthro. 1-3 Credits.

HOMP 6203. Ethics & Professnl Practice I. 1 Credit.

HOMP 6204. Ethics & Professnl Practice II. 1 Credit.

HOMP 6995. Research. 1-9 Credits.

Research on problems approved by the director of the program. Open to qualified students with advanced training. May be repeated for credit.

HOMP 6998. Thesis Research. 3 Credits.

HOMP 6999. Thesis Research. 3 Credits.

HOMP 8301. Problem-Based Learning Seminar. 1-3 Credits.

Problem-based tutorial in hominid paleobiology. Development of research skills through problem-solving tasks in a small group. May be repeated for credit.

HOMP 8302. Public Understand Of Scie Intrn. 3 Credits.

Supervised participation in an institution that presents science to the public. Opportunity to participate in procedures and gain practical experience in disseminating scientific information to non-scientists.

HOMP 8303. Paleobiology Lab Rotation. 2-3 Credits.

Supervised participation in a relevant laboratory. Students learn analytical techniques, handle diverse types of data, and encounter a range of disciplines as preparation for later participation in interdisciplinary research projects. Admission by permission of the program chair. May be repeated for credit.

HOMP 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

HOMP 8999. Dissertation Research. 3-24 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

HONORS (HONR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HONR 1015. Honors Proseminar: UW 1020: Origins and Evolution of Modern Thought. 4 Credits.

Exploration of significant exemplars, milestones, and developments of human thought; foundational and representative thinkers and texts from Western and Eastern traditions provide an indication of the diversity and complexity of attempts to articulate responses to universal questions, problems, and aspirations.

HONR 1016. Honors Proseminar: Origins and Evolution of Modern Thought. 3 Credits.

Continuation of HONR 1015. Key developments and trajectories in human thought and inquiry into modern times.

HONR 1033. Honors Proseminar: Scientific Reasoning and Discovery. 4 Credits.

Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 1034. Honors Proseminar: Scientific Reasoning and Discovery. 4 Credits.

Continuation of HONR 1033. Using an inquiry-based approach, students learn to identify hidden regularities and patterns in nature that may indicate fundamental unifying principles and laws. The scientific method; evaluation of scientific information; limitations of the scientific process; development of a scientific hypothesis. Tools and methodologies of geology, chemistry, physics, biology, anthropology, and other disciplines.

HONR 2016. Enlightenment East & West. 4 Credits.

This course replaces HONR 1016 for students who enter the Honors Program as sophomores.

HONR 2043. Honors Microeconomics. 3 Credits.

An introductory microeconomics course that considers both the philosophical basis of economics as well as its methods and applications. Same as ECON 1011.

HONR 2044. Honors Macroeconomics. 3 Credits.

An accelerated introductory macroeconomics course that includes the study of special topics.

HONR 2047. Honors Proseminar: Social and Behavioral Sciences. 3 Credits.

Using the tools and modes of inquiry of the social and behavioral sciences, students find ways to understand significant social and political phenomena. Relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture.

HONR 2047W. Prosem:Soc & Behav Sci. 3 Credits.

HONR 2048. Honors Proseminar: Social and Behavioral Sciences. 3 Credits.

Continuation of HONR 2047. Using the tools and modes of inquiry of the social and behavioral sciences, students find ways to understand significant social and political phenomena. Relationships among individuals, collectivities, families, and communities; interactions of psychological, social, political, economic, and historical forces at work in a given culture.

HONR 2048W. Proseminar: Soc. & Behav. Sci.. 3 Credits.

HONR 2053. Honors Proseminar: Arts and Humanities. 3 Credits.

Using an array of artistic forms (poetry, prose literature, drama, film, painting, sculpture, architecture, dance, and music), students explore the ways cultures are defined and understood through artistic expression, and the ways in which particular cultures value and critique these forms of personal and social expression.

HONR 2053W. Arts & World Cultures Prosem. 3 Credits.

HONR 2054. Honors Proseminar: Arts and Humanities. 3 Credits.

Continuation of HONR 2053. Using an array of artistic forms (poetry, prose literature, drama, film, painting, sculpture, architecture, dance, and music), students explore the ways cultures are defined and understood through artistic expression, and the ways in which particular cultures value and critique these forms of personal and social expression.

HONR 2054W. Arts & World Cultures Prosem. 3 Credits.

HONR 2175W. Honors Special Topics. 0-6 Credits.

HONR 2182. Honors Internship. 0-4 Credits.

The Honors Program allows credit to Honors students for academic work that puts an internship in a broader scholastic context. Each student must have a GW faculty member oversee his or her project. The Honors internship faculty member determines the student's grade.

HONR 2184. Honors Undergraduate Research. 0-4 Credits.

Independent or faculty-mentored research resulting in a significant written or other product.

HONR 2185. Honors Research Assistantship. 0-4 Credits.

Students provide substantive assistance to a faculty member engaged in scholarly or scientific research.

HONR 4198. Honors Senior Thesis. 3-4 Credits.

One- or two-semester thesis under faculty guidance. May be repeated for credit.

HONR 4199. Honors Capstone Experience. 1 Credit.

Students re-engage with core questions and issues related to the Honors Program curriculum, reflecting on their learning in relation to enduring questions and challenges of our world.

HUMAN DEVELOPMENT (HDEV)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HDEV 6108. Life Span Human Development. 3 Credits.

Continuity and change in developmental attributes. The developing person in relation to social norms, roles, and stage-graded expectations from birth to death. Interaction between biogenetics and environment.

HDEV 6109. Child Development. 3 Credits.

Typical development and the familial and social antecedents of developmental risk. Environments that foster competent children and developmental sequelae of childhood vulnerability and trauma. For graduate students in counseling, psychology, and related disciplines.

HDEV 6110. Adolescent Development. 3 Credits.

Key attributes and problems in adolescent development. Typical adolescent development and contemporary social problems in relation to stress, risk, and resilience. For graduate students in counseling, psychology, and related areas.

HDEV 6129. Cultural Effects on Human Development. 3 Credits.

Effects of culture on the experience and expression of self, others, space, time, faith systems, norms, and other attributes. Egocentric and sociocentric effects, primitive and technological effects. Group immersion as the basis for prejudice. Developmental consequences as a consequence of cultural context.

HDEV 6161. Practicum in Human Development. 3 Credits.

Admission by permission of instructor.

HDEV 6162. Internship in Human Development. 3 Credits.

Admission by permission of instructor.

HDEV 6701. Adult Learning. 3 Credits.

Same as HOL 6701.

HDEV 8100. Issues and Special Topics in Human Development. 3-6 Credits.

Issues and special contemporary topics related to child, adolescent, and adult development. Applications for professional roles.

HDEV 8241. Emotional and Cognitive Dev. 3 Credits.

Emotional and cognitive development as related to self-esteem, social cognition, and interpersonal skills. Relationships among cognitive development, intellectual reasoning, insight, and social development.

HDEV 8244. Adult and Aging Development. 3 Credits.

Theories and research on personality and intelligence in adulthood. Research designs and methods. Implications of developmental data for counseling and selected professional roles.

HDEV 8253. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/ HOL 8742.

HUMAN ORGANIZATIONAL LEARNING (HOL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HOL 0920. Continuing Research - Master's. 1 Credit.

HOL 0940. Cont. Res. - Doctoral. 1 Credit.

HOL 6100. Special Workshop. 1-12 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 6101. Research and Independent Study. 1-3 Credits.

Preparation of an in-depth project under the guidance of a faculty member. The course is arranged individually with the program advisor.

HOL 6700. Human Behavior and Learning in Organizations. 3 Credits.

How individuals and groups learn and interact within organizations and how organizations function and learn. Motivation, group dynamics, leadership, systems theory, organizational culture, and change.

HOL 6701. Adult Learning. 3 Credits.

Premises and theories used to meet learning needs of adults. Overview of various learning theories and the impact of various stages of adult development on learners. Topics including self-directed learning, accommodating individual learning needs, and creation of effective learning techniques. Same as HDEV 6701.

HOL 6702. Organizational Change I. 3 Credits.

The assessment of organizational conditions, including collection and interpretation of information, operations, and problems (human, structural, and systemic). Course participants collect and analyze data to provide solutions to enhance organizational effectiveness.

HOL 6703. Organizational Change II. 3 Credits.

Introduction to the concepts, methods, and skills required for effective consultation in organizations, as either an internal or an external consultant. Meeting the human needs in organizations, while improving performance and productivity. Students undertake a consulting project in an organization.

HOL 6704. Leadership in Organizations. 3 Credits.

Developments in theory and research centered on organizational leadership. Emphasis on various types of leadership including transformational, responsible, authentic, and ethical.

HOL 6705. Strategic Change. 3 Credits.

Overview of best practices for organizing and managing people and organizations to compete successfully. Leading an organization through a process of self-examination, redesign, and change that results in sustained effectiveness, learning, and high performance.

HOL 6706. Current Issues in Organizational Leadership. 3 Credits.

Current issues and future trends in organizational leadership. Students gather data and analyze key topics associated with areas such as talent management, leading through demographic shifts, leadership in a globalized world, leading global change, and developing new forms of leadership, ethics, and sustainability.

HOL 6707. Organizational Learning. 3 Credits.

Learning in an organizational context. Processes through which the organization as a system learns, unlearns, changes, and disseminates information. Organizational learning theories address the processes and barriers of gathering, using, developing, and retaining knowledge in organizations.

HOL 6708. Global Leadership. 3 Credits.

The changes taking place in organizations due to the process of globalization and the requirements for leadership. The changing global environment, how those changes influence operational and strategic issues within global organizations, and how a leader can better understand the global environment to help organizations meet these new challenges.

HOL 6709. Leadership Development. 3 Credits.

The processes employed to develop leaders/leadership and how individuals change as a result of the process. Examination of the context within which leadership is developed. Prerequisites: HOL 6704.

HOL 6710. Globalization, Change, and Learning. 3 Credits.

With learning as the coping strategy, focus on how policymakers and global leaders can be helped to take advantage of the opportunities and address the challenges that globalization presents.

HOL 6720. Advanced Strategies for Adult Learning. 3 Credits.

Theoretical and practical strategies of adult learning in various settings, including corporate environments. Learning strategies, such as creative thinking and self-directed learning. Critical adult learning issues.

HOL 6721. Assessing the Impact of Organizational Change. 3 Credits.

Knowledge and skills needed to evaluate the impact and return on investment of change efforts. Focus on how to plan and conduct systematic evaluations of change efforts, including the choice, development, and use of various tools for measuring individual, group, and organizational change. Assessing the success of the planned change.

HOL 6724. Increasing the Capacity to Learn. 3 Credits.

Identification of actions that can help increase the capacity to learn. Emphasis on experimental learning and critical reflection.

HOL 6725. Internship in Human Resource Development. 3-6 Credits.

Supervised experience in selected areas of human resource development and adult education. Admission by permission of the program advisor.

HOL 6742. Design of Adult Learning Interventions. 3 Credits.

Designing and implementing adult learning programs. Topics include instructional design techniques, designing effective programs, program planning and marketing techniques, and conducting needs assessments and evaluations of adult learning programs.

HOL 6743. Action Learning. 3 Credits.

Processes, principles, and skills necessary to participate in and lead both single- and multiple-problem action learning sets. The six dimensions of action learning; educational psychological, political, sociological, and management theories underlying action learning.

HOL 6744. Meaningful Workplaces. 3 Credits.

Characteristics of the humane organization and of meaningful work. Intrinsic motivation, work-life balance, and the workplace community.

HOL 6745. Technology and Human Resource Development. 3 Credits.

How technology can best be utilized in the HRD environment. Discussion of CBT, use of the Internet for instruction, and distance learning techniques.

HOL 6746. Work Groups and Teams in Organizations. 3 Credits.

Exploration of the nature of work groups and teams as they are utilized in organizational settings. Group and team dynamics, facilitating and leading skills, and group roles and culture.

HOL 6747. International and Multicultural Issues in Organizations. 3 Credits.

The impact of culture and globalization on U.S. and international human and organizational learning programs and practices. Adult learning and organizational change approaches that develop and utilize the synergy of a global workforce.

HOL 6998. Thesis Research. 3 Credits.

Thesis research.

HOL 6999. Thesis Research. 3 Credits.

Thesis research.

HOL 8100. Special Topics in Human and Organizational Learning - Doctoral Studies. 3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit.

HOL 8101. Research and Independent Study. 1-3 Credits.

HOL 8700. Foundations of Human and Organizational Learning. 3 Credits.

The study of individuals and their interactions within an organizational context. Overview of key theories in leadership, systems theory, group dynamics, learning, organizational culture, and motivational theory. The use of research in human and organizational learning.

HOL 8701. Theory, Research, and Practice in Adult Learning and Development. 3 Credits.

Learning theories as applied to adults in individual and group learning transactions; effect of age on learning; psychological, physical, and social environments in adult education situations.

HOL 8702. Theory and Design of Organizational Diagnosis and Development. 3 Credits.

Focus on various paradigms through which organizations and their functions may be viewed; a variety of analytical models of organizations; techniques for assessing systems; application of analysis techniques.

HOL 8703. Human Systems Change. 3 Credits.

The classical and contemporary ideas related to social systems change; the relation of these ideas to current issues in organizations.

HOL 8704. Leadership Theory, Research, and Practice. 3 Credits.

Leadership in organizations with a focus on transformational leadership. Historical review of leadership theory and research; current developments in understanding leadership. Students examine their own leadership style and plan for continued development as a leader.

HOL 8705. Organizational Culture. 3 Credits.

Theory and research on organizational culture, from the multidisciplinary seminal works in anthropology, psychology, sociology, and management to current day theorizing and empirical research on culture. The rituals, values, and behaviors that differentiate cultural groups and the way cultural identities manifest themselves in organizational practices; and how organizational culture evolves and its relationship to other organizational phenomena such as innovation, strategy, sensemaking, and performance. Current trends in organizational culture theorizing.

HOL 8706. Interdisciplinary Readings in Human and Organizational Learning. 3 Credits.

Seminal works from various disciplines related to current research and practice.

HOL 8707. Advanced Organizational Learning. 3 Credits.

The psychological and sociological paradigms associated with the learning of a collective whole.

HOL 8708. Intro to Doctoral Research. 3 Credits.

HOL 8720. Seminar: Applied Research in Human and Organizational Learning. 3 Credits.

Identification of initial constructs and theories that support the identified research interest, with a problem statement and critical analysis of research reports and review of research literature.

HOL 8721. Practicum in Human and Organizational Learning. 3-6 Credits.

HOL 8722. Seminar: Advanced Issues in Human and Organizational Learning. 1-12 Credits.

Forum in which candidates critically examine relevant classic and contemporary literature, with analysis and synthesis to defend their research questions and conceptual frameworks.

HOL 8723. Organizations and Strategy in Human Resource Systems. 3 Credits.

Overview of paradigms, theories, models, and constructs of organizations and strategy to understand organizations and their environments.

HOL 8741. Managerial and Organizational Cognition. 3 Credits.

The emerging field of collective cognition in organizations, including theoretical foundations and seminal and current literature on knowledge structures and their role in strategy formation, organizational change, and sensemaking.

HOL 8742. Work, Identity, and Adult Development. 3 Credits.

The influence of work on identity, intellectual and personality development, and other developmental attributes. Same as CNSL 8253/HDEV 8253.

HOL 8746. Work Groups and Teams in Organizations. 3 Credits.

Theoretical understanding and practical considerations of working with groups and teams. Group dynamics, facilitating and leading groups, and member roles. Group facilitation techniques across different group settings and environments.

HOL 8997. Preparation and Delivery of Doctoral Research. 3 Credits.

Students develop and present a mock dissertation proposal, receiving feedback from faculty and colleagues in order to refine their proposal. Prerequisites: none. Recommended background: Students are expected to have developed a literature review, conceptual framework, and research question for their dissertation research prior to enrolling in this class.

HOL 8998. Predissertation Seminar. 3-6 Credits.

Platform for further development of the dissertation proposal.

HOL 8999. Dissertation Research. 3,6 Credits.

Prerequisite: HOL 8998.

HUMAN SERVICES & SOCIAL JUSTICE (HSSJ)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

HSSJ 1100. Introduction to Human Services and Social Justice. 3 Credits.

Human services and social justice theory, research, and practice; historical and intellectual development, community-based scholarship, and the context of Washington, D.C.

HSSJ 1150. NonProfit Management. 3 Credits.

Since the 1950s, there has been enormous expansion of non-profit organizations around the world that shows no signs of slowing down any time soon. Currently, around 12 billion USD are given globally to non-profits from international entities (such as the United Nations and the European Union), national and local governments, foundations, and private donors. NGOs, large and small, are becoming premiere providers for the delivery of social services, health care, education, and other service-oriented endeavors, especially in hard to reach communities. Thus understanding how NGOs are formed and managed is crucial for anyone planning on working in the field, or even in government where services are contracted out to NGOs. We will begin the class by reviewing the structure of NGOs and their organizational culture before delving into how NGOs are managed by focusing on case studies and on-site field experiences with NGOs.

HSSJ 1177. Organizing for Social Justice in Human Services. 3 Credits.

Theory in community organizing and social justice is connected with an opportunity to explore how it is applied directly in the field. Methods used by non-profit organizations and campaigns to address issues in human services.

HSSJ 2160. Role of NGOs in International Humanitarian Assistance. 3 Credits.

The increasing role of nongovernmental organizations (NGOs) as providers of service and care for vulnerable individuals and communities in need; development of NGOs, the place they hold in international interventions, and the types of services they provide.

HSSJ 2170. Interpersonal Relationships in Human Services. 3 Credits.

Exploration of the theories, principles, and practices of ethically sound professional interpersonal relationships in the context of human services. Topics include forming, bounding, maintaining, and ending relationships; basic helping skills; working in, through, and with difference; working with groups or teams; and self care. May involve fieldwork. Restricted to majors and minors in the field or with permission of the instructor.

HSSJ 2171. Human Interactions: Child and Adolescent Development. 3 Credits.

Human development from infancy to young adulthood. Dominant psychosocial, cognitive, and physical competencies; motivational changes; coping styles; and normative and non-normative behaviors. Three hours per week of service learning in an appropriate agency setting are required in addition to lectures.

HSSJ 2172. Human Interactions: Adult Development. 3 Credits.

Human development from young adulthood to old age. Dominant psychosocial, cognitive, and physical competencies; motivational changes; coping styles; and normative and non-normative behaviors. Three hours per week of service learning in an appropriate agency setting are required in addition to lectures.

HSSJ 2200. Principles of Ethical Leadership. 3 Credits.

The practices and commitments of ethical leaders to enhance organizational effectiveness, engage diverse perspectives, clarify values and mission, and promote commitment to shared purposes.

HSSJ 3100. Program Planning and Evaluation. 3 Credits.

Program planning and development as essential aspects of human service agencies. Agency needs assessment and program planning are examined using case study analysis and on-site field experience. Community-based research. Restricted to HMSR or HSSJ majors or minors or permission of the instructor. Prerequisites: PSC 2101 OR PSYC 2101 OR SOC 2101. Same as HSSJ 3100W.

HSSJ 3100W. Program Planning & Evaluation. 3 Credits.

Program planning and development as essential aspects of human services agencies. Analysis through case studies and on-site field experience of processes by which agency needs are assessed and programs planned. Community-based research. Restricted to HMSR or HSSJ majors or minors or permission of the instructor. Prerequisites: PSC 2101 OR PSYC 2101 OR SOC 2101. Same as HSSJ 3100.

HSSJ 3110. Nonprofit and Organizational Management. 3 Credits.

Organizational theory and program administration in community agencies; staff recruitment and development; fiscal operations including funding; facilities; and effective community relations. Community-based research. Restricted to human services major or minors. Recommended background SOC 2101. Same as HSSJ 3110W.

HSSJ 3110W. Nonprofit and Organizational Management. 3 Credits.

Organizational theory and program administration in community agencies; staff recruitment and development; fiscal operations including funding; facilities; and effective community relations. Community-based research. Restricted to human services majors or minors. Recommended background: SOC 2101.

HSSJ 3152. Fact/Field/Fiction: Intersections in HSSJ. 1-6 Credits.

Integration of theoretical, empirical, and practical knowledge with real-world issues in human services through socially just practices. Students conduct community-based research and complete a significant service-learning experience at an approved not-for-profit organization (approximately 16 hours per week).

HSSJ 4133. Supervised Experience in HSSJ. 3-6 Credits.

Supervised independent work on an issue within the field of human services for approximately 100 hours. Research paper. Limited to majors and minors who have taken at least one HSSJ course beyond HSSJ 1100. Admission by permission of program director and supervising instructor.

HSSJ 4193. Research and Independent Study. 1-6 Credits.

Students explore a topic relevant to human services in depth by designing, conducting, evaluating, and presenting original research.

HSSJ 4195. Capstone Seminar in Human Services and Social Justice. 3 Credits.

Culminating experience synthesizing the knowledge, skills, abilities, and attitudes needed to address complex real-world issues in socially just ways; integration and reflection on the key theories, research, practices, issues, and policies addressed throughout the program. Restricted to program majors in their final spring semester.

HSSJ 4198. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit provided topic differs.

INFORMATION SYSTEMS TECHNOLOGY MANAGEMENT (ISTM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ISTM 3119. Introduction to Programming. 3 Credits.

For students already familiar with basic computer concepts, who will learn a programming language, such as Visual Basic, useful for business applications. Emphasis on computer applications in accounting and management information systems through hands-on programming. Prerequisite: BADM 2301.

ISTM 4120. Business Systems Development. 3 Credits.

Analysis, design, and implementation of management information systems (MIS). Structured methodologies and techniques for various stages of the MIS development process. Computer-aided software engineering tools. May be taken for graduate credit with permission of program director and instructor. Prerequisites: CS 1111 or ISTM 3119 or permission of instructor.

ISTM 4121. Database Design and Applications. 3 Credits.

Theory, architecture, and implementation of database management systems in corporate and organization information systems. Fundamental concepts of database management and processing. Hands-on experience with database management packages. Prerequisites: CS 1111 or ISTM 3119 or permission of instructor.

ISTM 4123. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

ISTM 4123W. Business Data Communications. 3 Credits.

A technical overview of data communication concepts that are useful in the design and management of local and wide area networks. Internet technologies and their business applications are emphasized. Prerequisite: BADM 2301.

ISTM 4130W. Writing On The Ethics of Technology. 3 Credits.

Complex ethical dilemmas inherent in the introduction of new technologies and the influence human behavior asserts on these problems. Students write stories to explore and evaluate specific ethical problems relative to technology from various perspectives.

ISTM 4215. Human-Computer Interaction. 3 Credits.

An introduction to and overview of the field of human-computer interaction (HCI), an interdisciplinary field that integrates theories and methodologies from computer science, cognitive psychology, design, and other areas. Readings cover current theory and practice in interface specification, design, and evaluation, and include current and classic research papers in the field.

ISTM 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 4995. Independent Study. 3 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

ISTM 6201. Information Systems Development and Applications. 3 Credits.

The information systems life cycle evaluated in terms of technologies, impact, and management. Structured and object-oriented analysis, prototyping, software reuse, testing, life-cycle costs, software development environments, and organizational and behavioral aspects of development projects. Prerequisite: ISTM 4120 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6202. Relational Databases. 3 Credits.

Introduces the theory of relational databases and commences an in-depth discussion of Relational database theory and design at the conceptual, logical, and physical levels. Structured query language (SQL) is covered in depth. Prerequisite: ISTM 4121 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6203. Telecommunications and Enterprise Networks. 3 Credits.

The technologies and applications of telecommunication systems in the commercial and public sectors with emphasis on wireless, mobile, and Internet communication protocols. Systems technology and configurations to support business application requirements are evaluated. Functional characteristics of network technologies. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6204. Information Technology Project Management. 3 Credits.

Project and program management practices with an emphasis on information technology projects. The basic tools of project management: work breakdown structure, cost, schedule and performance goal setting, and risk analysis. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6205. Internet Computing. 3 Credits.

Concepts, architectures, frameworks, and technology of web application development. The Internet as hardware and software architecture for creating business applications. Web and web application servers, system development methods and techniques, client-side and server-side scripting. Prerequisite: ISTM 3119 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6206. Information Systems Security. 3 Credits.

Comprehensive examination of computer security issues from the design, management, and business information system ownership perspectives. System security concepts, methods, and policies from the design and planning stages to multi-level system implementation. Design of risk assessment strategies to achieve security goals. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6207. Information Resources Management. 3 Credits.

Information resources management strategically assesses and exploits information technology assets for competitive advantage. The CIO role in information resources management, planning, security, information integration, enterprise model development, and data administration. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6210. Integrated Information Systems Capstone. 3 Credits.

Capstone project course in which students apply conceptual and technical knowledge in analyzing, planning, and designing an on-line information system. Culminates with system proposal/design presentations. Restricted to eligible students in their final semester. Prerequisite: ISTM 6201–ISTM 6207 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6211. Data Warehousing and Online Analytical Processing. 3 Credits.

Introduction to the theory of data warehousing, dimensional data modeling, and online analytical processing (OLAP) through case studies, technology, and a design project. Prerequisite: ISTM 6202 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6212. Data Management for Analytics. 3 Credits.

ISTM 6213. Enterprise Web and Database Applications. 3 Credits.

Enterprise applications concepts, architecture, and technologies for emerging technologies and IT frameworks. The Internet as a major resource for globally distributed applications using grid and utility computing. Web servers, development methods and techniques, data stores for massively distributed applications, and client/server side scripting. Prerequisite: ISTM 6202, ISTM 6205 and M.S.I.S.T. candidacy or departmental approval.

ISTM 6214. Advanced Programming and Business Applications. 3 Credits.

Advanced programming design, development, and analysis topics with an emphasis on business applications. Problem modeling and development of algorithm solutions. Basic data structures and algorithms, such as linked list, stack and tree, graph theory, sorting and searching. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6215. Human-Computer Interaction. 3 Credits.

Human-computer interaction as an interdisciplinary endeavor integrating theories and methodologies from computer science, cognitive psychology, design, and many other areas. Theory and practice in interface specification design and evaluation, and research. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6221. Management Perspectives in Electronic Commerce. 3 Credits.

The tools, skills, and business concepts surrounding the emergence of E-commerce and its information technologies from operational and strategic perspectives. E-commerce security, privacy, content selection and rating, authentication, encryption, acceptable use policies, intellectual property rights, and legal liabilities. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6222. IS/IT Strategy and Implementation. 3 Credits.

The development and implementation of information systems and technology strategies designed to align with and maximize business strategy applications and approaches in a challenging and increasingly global business environment. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6223. Technology Entrepreneurship. 3 Credits.

Case studies on the innovation-entrepreneurship processes used to launch and build new ventures based on information technology and on technology more broadly. Organizing for innovation, raising venture capital, managing the small technology-based venture, marketing technology products and services, intellectual property considerations, and new venture proposal development. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6224. Management of Technology and Innovation. 3 Credits.

Business, technological, economic, and political factors that influence the development and deployment of new technology products, processes, and services. Concepts and practices useful in managing technology and enhancing corporate innovation, corporate organizational alternatives, new approaches, and sources of competitive advantages. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6225. Enterprise Architecture. 3 Credits.

Concepts of enterprise architecture as a management tool for organizations to align their information technology assets, people, operations, and projects with operational characteristics. Service-oriented architectures, performance reference models, configuration management, system development life cycles, and tiered application architectures. Prerequisite: M.S.I.S.T. candidacy or departmental approval.

ISTM 6226. Principles of Information Systems. 3 Credits.

Overview of all information systems, including integration of management, information, and systems concepts into a unified framework. Management information systems development, design, implementation, evaluation strategies.

ISTM 6232. ISTM6242201303. 3 Credits.

Technology transfer among advanced countries and LDCs. Comparative science and technology policies and capabilities of countries. Technology basis for international trade, licensing, patenting, and joint ventures. Global transfer of military technologies and export controls. Technology in economic development.

ISTM 6233. Emerging Technologies. 3 Credits.

Exploration of new developments in scientific and technological innovation, including automation, energy, medicine, bioengineering, social science, information technology, and space. Emphasis on forecasting these technological advances and assessing their economic and social effects. The role of advancing technology in driving social change.

ISTM 6234. New Venture Financing. 3 Credits.

Fundamentals and practice of due diligence and screening of early-stage investment opportunities. Same as FINA 6234.

ISTM 6239. Sem:Competitiveness/Technology. 3 Credits.

Capstone course integrating the field of management of science, technology, and innovation. Commercialization of technology in the private sector and the impact on competitiveness. Implementation of technology in the public sector. Technology development, from new product concept to utilization. Prerequisite: ISTM 6224 or MBAD 6253; ISTM 6232 or ISTM 6233 or permission of instructor.

ISTM 6243. Human Factors in Information Systems. 3 Credits.

The user-computer interaction, human factors of on-line dialogues, interfacing, and various approaches to user-system interaction. Emphasis on the development and evaluation of user-computer interfaces using software such as Visual BASIC and Windows.

ISTM 6251. Info Systems Applications. 1.5 Credit.**ISTM 6290. Special Topics. 1-3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

ISTM 6298. Directed Readings and Research. 1-3 Credits.**ISTM 8300. Thesis Seminar. 3 Credits.****ISTM 8333. Seminar: Management of Science, Technology, and Innovation. 3 Credits.****ISTM 8340. Philosophical Issues in Information Systems. 3 Credits.**

Seminar for doctoral students interested in information systems. Various philosophical traditions and insights from those traditions applied to problems in information systems.

ISTM 8341. Advanced Topics in MIS Rsrch. 3 Credits.

For information systems doctoral students. Seminal papers and leading methods and instruments as applied to MIS research.

ISTM 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

ISTM 8390. Philosophical Foundations of Administrative Research. 3 Credits.

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

ISTM 8391. Advanced Problems in Research Methodology. 3 Credits.

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. For doctoral candidates who have completed the general examination and all courses and are preparing for their dissertation.

ISTM 8397. Doctoral Seminar. 1-3 Credits.

Current research and scholarly issues in management science.

ISTM 8398. Advanced Rdgs and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

ISTM 8399. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

INTEGRATED INFORMATION, SCIENCE, AND TECHNOLOGY (PSIS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSIS 2101. Writing & Comm & Med Rel - I. 4 Credits.

The fundamentals of reading and writing with a clear sense of purpose and audience. How academic writing in virtually any subject area and on virtually any topic represents a formal engagement with larger scholarly debates. The writing process, including prewriting, drafting, and revision as well as basic research methods. Making clear oral presentations.

PSIS 2102. Writing & Comm & Med Rel - II. 4 Credits.**PSIS 2103. Found Math & Stat Sci - I. 4 Credits.****PSIS 2104. Found Math & Stat Sci - II. 4 Credits.****PSIS 2105. Found Info Tech & Comp - I. 4 Credits.****PSIS 2106. Found Info Tech & Comp - II. 4 Credits.****PSIS 3122. Ethics in Sci & Tech Policy. 4 Credits.****PSIS 3123. Legislative Aff & Gov Proc. 4 Credits.****PSIS 4131. Molecular Bio for Biotech. 4 Credits.****PSIS 4132. Phys Principles of Biotech. 4 Credits.****PSIS 4133. Bioinformatics. 4 Credits.****PSIS 4134. Biophysics in Life Sciences. 4 Credits.****PSIS 4135. Computational Modeling. 4 Credits.****PSIS 4136. Intro Biomed Instrumentation. 4 Credits.****PSIS 4137. Alternative Energy Sources. 4 Credits.****PSIS 4138. Introduction to Health IT. 4 Credits.**

Current and emerging healthcare information technologies, the policies involved in the delivery of healthcare and health IT, and the people and the processes that support the delivery of healthcare. Restricted to Majors only.

PSIS 4141. Comp & Telecom Networks. 4 Credits.

PSIS 4142. Rel Databases & Design. 4 Credits.

PSIS 4143. Systems Integration. 4 Credits.

PSIS 4144. Info & Network Security. 4 Credits.

PSIS 4145. Software Sys Dev Processes. 4 Credits.

PSIS 4151. Entrepreneurship & Comm Tech. 4 Credits.

PSIS 4152. Entrprnrshp/Tech Venture Cr. 4 Credits.

PSIS 4190. Capstone Proj & Senior Thesis. 4 Credits.

PSIS 4191. Capstone Project and Senior Thesis I. 2 Credits.

The capstone project allows either the conduct of significant independent research or the design and implementation of a real-world project. Either choice is a means for students to use the knowledge and skills they have acquired throughout the program. For most students, the capstone project can showcase their skills via a comprehensive written report or a portfolio that can be presented to future employers.

PSIS 4192. Caps Proj & Senior Thesis- II. 2 Credits.

PSIS 4195. Undergraduate Research. 1-4 Credits.

PSIS 4199. Special Topics. 2-4 Credits.

INTERIOR ARCHITECTURE AND DESIGN (IAD)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IAD 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

IAD 2200. Studio 1. 6 Credits.

Introduction to the design process through consideration of the theory and application of design principles and elements to specific studies of the built environment. Restricted to Major: 1206 - Interior Architecture and Design, Level: 01- Undergraduate. (Same as IAD 6200).

IAD 2210. Sketching Architecture and Interiors. 3 Credits.

Free-hand sketching developed and applied as a tool in all phases of the creative design process. Restricted to Major: 1206- Interior Architecture and Design, Level: 01- Undergraduate. Recommended background: FA 1021.

IAD 2987. Internship. 0 Credits.

Candidates for the B.F.A. in Interior Architecture and Design degree enroll in this course in order to complete the program's 120-hour internship requirement. The internship must be pre-approved by the departmental undergraduate advisor and must be completed while the student remains enrolled in the degree program.

IAD 3300. Studio 2. 6 Credits.

All phases of design, beginning with development of a concept through producing a complete presentation. How a project evolves from program requirements to a creative and functional interior. Prerequisites: IAD 2200. Restricted to majors only.

IAD 3304. Interior Materials. 3 Credits.

All phases of textile production, including standards, testing, and specifications. Properties, regulations, and installation of interior finish materials. Restricted to Major: 1206 - Interior Architecture and Design, Level: 01- Undergraduate. Prerequisites: IAD 2200. (Same as IAD 6304).

IAD 3304W. Interior Materials. 3 Credits.

All phases of textile production, including standards, testing, and specifications. Properties, regulations, and installation of interior finish materials. Restricted to Major: 1206- Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: IAD 2200. (Same as IAD 6304).

IAD 3305. Graphic Communications. 3 Credits.

Development of multimedia techniques in rendering. Advanced three-dimensional drawing using rapid visualization techniques, sketching, and constructed drawings. Prerequisites: IAD 2200. Restricted to Major: Interior Architecture and Design, Level: 01- Undergraduate.

IAD 3310. Digital Drafting & Modeling. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate.

IAD 3400. Studio 3. 6 Credits.

Multifaceted and complex problems in commercial design, including codes and regulations pertaining to commercial interiors; development of collaborative learning. Prerequisites: IAD 3300. Restricted to majors only.

IAD 3405. History of Modern Architecture and Design. 3 Credits.

Overview of 20th and 21st century architecture, interiors, and furniture of significant and unique houses and smaller commercial buildings. Students may not earn credit for both IAD 3405 and IAD 1000 if similar material is covered. Restricted to Major: Interior Architecture and Design, Level: 01- undergraduate. Prerequisites: IAD 3300. (Same as IAD 6405).

IAD 3410. Sustainability and LEED for Architecture and Design. 3 Credits.

Consideration of the process by which structures and spaces can be awarded LEED (Leadership in Energy and Environmental Design) certification and the examination that enables individuals to become LEED-accredited professionals. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: Studio 2 IAD 3300.

IAD 4500. Studio 4. 6 Credits.

Continuation and refinement of the design process to further advance conceptual thinking for development of larger-scaled and more complex design problems. Prerequisites: IAD 3400. Restricted to majors only.

IAD 4505. Lighting & Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design. Light and energy, incandescent and gaseous discharge lamps, luminaries, task requirements, measurement and calculations, human factors, and design applications. Acoustic principles as they relate to building design. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: IAD 3400.

IAD 4510. Pre-Design for Studio 5. 3 Credits.

Application of advanced topics in design theory; research methodology applied to development of the senior project. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: IAD 3400.

IAD 4600. Studio 5. 6 Credits.

Culmination of skills and knowledge accumulated through the program as demonstrated by development of an interior design project covering all aspects from conception through presentation. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: IAD 4500.

IAD 4605. Professional Practice. 3 Credits.

A service-learning course that combines classroom instruction with practical learning. Students work with interior designers, architects, or industry-related professionals to provide a creative and realistic solution to the challenges of a pro-bono design project within the local community. Course concepts cover issues related to the practice of a professional interior designer, including business procedures, legal implications, ethics, trade relations, and designer-client-contractor relations. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: IAD 4500.

IAD 4605W. Professional Practice. 3 Credits.

A service-learning course that combines classroom instruction with practical learning. Students work with interior designers, architects, or industry-related professionals to provide a creative and realistic solution to the challenges of a pro-bono design project within the local community. Course concepts cover issues related to the practice of a professional interior designer, including business procedures, legal implications, ethics, trade relations, and designer-client-contractor relations. Prerequisite: IAD 4500. Restricted to majors only.

IAD 4610. Structures & Building Systems. 3 Credits.

Organization and preparation of construction documents; methods and materials; and application of codes. Building systems (mechanical, electrical, plumbing) as related to function and design of interior spaces. Restricted to Major: Interior Architecture and Design, Level: 01-Undergraduate. Prerequisites: Studio IAD 4500.

IAD 6200. Studio I. 6 Credits.

Introduction to the theory and application of design principles and elements in the built environment while establishing a thorough understanding of the design process. Restricted to Graduate level Interior Architecture and Design majors.

IAD 6204. Graphic Communications. 3 Credits.

Development of multimedia and digital techniques to express design concepts and intent. Restricted to Major: 1206- Interior Architecture and Design, Level: 02 - Graduate.

IAD 6210. Sketching Architecture and Interiors. 3 Credits.

Free-hand sketching developed and applied as a tool in all phases of the creative design process. Restricted to majors only.

IAD 6300. Studio 2. 6 Credits.

Applying design fundamentals from Studio 1 to small-scale interior architectural spaces. Prerequisites: IAD 6200. Restricted to Major: 1206 - Interior Architecture and Design, Level: 02- Graduate.

IAD 6304. Interior Materials. 3 Credits.

Introduction to building materials with an emphasis on detailing and construction. Restricted to Major: 1206 - Interior Architecture and Design, Level: 02- Graduate. Prerequisites: IAD 6200.

IAD 6310. Digital Drafting & Modeling. 3 Credits.

Introduction to CAD technology, two-dimensional drawings, plotting and enhancement of presentations. Use of CAD for the production of construction drawings. Prerequisites: IAD 6200. Restricted to Major: 1206-Interior Architecture and Design, Level: 02- Graduate.

IAD 6400. Studio 3. 6 Credits.

Continued exploration of the design process as applied to medium scale projects. Prerequisites: IAD 6300. Restricted to Major: 1206 - Interior Architecture and Design, Level: 02- Graduate.

IAD 6405. History of Modern Architecture and Design. 3 Credits.

Overview of 20th and 21st Century architecture, interiors, and furniture. Prerequisites: IAD 6300. Restricted to Major: 1206- Interior Architecture and Design, Level: 02- Graduate.

IAD 6410. Sustainability/LEED: Arch&Des. 3 Credits.

Application of sustainable design as well as introduction to the United States Green Building Council's LEED Rating System. Prerequisites: IAD 6300. Restricted to Major: 1206-Interior Architecture and Design, Level: 02-Graduate.

IAD 6500. Studio 4. 6 Credits.

Continuation and refinement of the design process to further advance conceptual Thinking for development of larger-scaled and more complex design problems. Prerequisites: IAD 6400. Restricted to Major: 1206 - Interior Architecture and Design, Level: 02-Graduate.

IAD 6505. Lighting & Acoustics. 3 Credits.

Terminology, concepts, and principles of lighting design; acoustic principles as they relate to building design. Prerequisites: IAD 6400. Restricted to Major: 1206 - Interior Architecture and Design, Level: 02-Graduate.

IAD 6510. Pre-Design for Studio 5. 3 Credits.

Investigation and research of several topics to inform capstone project in Studio 5. Prerequisites: IAD 6400. Restricted to Major: 1206-Interior Architecture and Design, Level: 02-Graduate.

IAD 6600. Studio 5. 6 Credits.

Culmination of skills and knowledge from the program in the development of a capstone project specific to each student. Prerequisites: IAD 6500. Restricted to Major: 1206- Interior Architecture and Design, Level: 02- Graduate.

IAD 6605. Professional Practice. 3 Credits.

Students work with professional interior designers, architects, or related professionals as they participate in a project-based setting. Roles and responsibilities of the professional interior designer: business procedures, legal implications, ethics, trade relations, designer-client-contractor relations. Students select a pro-bono design project within the local community and work together to provide a creative and realistic solution. The 150-hour internship must be completed and approved by the instructor by the end of the course. Prerequisites: IAD 6500. Restricted to majors only.

IAD 6610. Structures and Building Systems. 3 Credits.

Organization and preparation of construction documents; methods and materials; and application of codes. Mechanical, electrical, and plumbing building systems as related to function and design of interior spaces. Restricted to Major: 1206-Interior Architecture and Design, Level: 02-Graduate. Prerequisites: IAD 6500.

IAD 6987. Internship. 0 Credits.

Candidates for the M.F.A. in Interior Architecture and Design degree enroll in this course in order to complete the program's 120-hour internship requirement. The internship must be pre-approved by the departmental graduate advisor and must be completed while the student remains enrolled in the degree program. Restricted to students in the M.F.A. in IAD program.

INTERIOR DESIGN (INTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

INTD 3141. Color Theory. 3 Credits.

Intensive exploration of the objective rationale and subjective experience of color in interiors through execution of problems in color contrast and color scales.

INTD 3150. Special Topics. 3 Credits.

A theoretical and practical in-depth exploration of a specific area of interior design. Topic to be announced in the Schedule of Classes.

INTD 3160. Individual Problems & Research. 1-6 Credits.

Independent research on selected topic. Research proposal must be approved by program advisor prior to registration. May be repeated for credit with permission.

INTD 3160W. Individual Problems & Research. 1-6 Credits.**INTD 4104. Studio III: Institutional. 3 Credits.**

Application of theories of human behavior and design in large-scale institutional settings, including public and private facilities serving medical, educational, and extended-care needs. Prerequisite: IntD 4103, 4113, and 2121.

INTD 4123. Methods&Materials-Bldg Const.. 3 Credits.

Study of building systems as they relate to design and function of interior spaces: mechanical, electrical, HVAC systems. Environmental concerns: energy, daylighting, acoustics. Prerequisite: IntD 4103.

INTD 4133. Textiles & Finish Materials. 3 Credits.

Textiles and finish materials for commercial and residential interiors. Physical properties, application, testing, regulations, and specification.

INTD 4133W. Textiles & Finish Materials. 3 Credits.**INTD 4134. Internship. 3 Credits.**

Application of knowledge and skills in project-based setting for a local firm. Appropriate placement and sponsor participation required prior to registration. Topics include business procedure and practice, legal and ethical issues, and designer-client-contractor relations. Prerequisite: IntD 4103 and permission of instructor.

INTD 4134W. Internship. 3 Credits.**INTD 4140. Adv. Computer-Aided Drafting. 3 Credits.**

Application of advanced computer graphics using 3-D geometric modeling application programs to examine form and space in a practical in-depth exploration. Prerequisite: IntD 4113.

INTD 6104. Grad Studio III: Institutional. 3 Credits.

Multifaceted and complex problems in healthcare and institutional design. Further exploration of design theory, practical application and guidelines, and development of advanced studio work. Prerequisite: IntD 6103, 6113, and 6121.

INTD 6105. Graduate Project. 3 Credits.

Capstone studio. Application of design skills and knowledge, individual development of the design process, problem-solving skills, and evaluation and defense of the project. Admission by permission of instructor.

INTD 6112. Presentation Techniques. 3 Credits.

Development of multimedia techniques in rendering. Advanced three-dimensional drawing using rapid visualization techniques, sketching, and constructed drawings. Prerequisite: IntD 6101, 6111.

INTD 6124. Research Seminar. 1-3 Credits.

Application of advanced topics in design theory; research methodology applied to development of the graduate project. Prerequisite: IntD 6123.

INTD 6150. Special Topics. 3 Credits.

A theoretical and practical in-depth exploration of a specific area of interior design. Topic to be announced in the Schedule of Classes. Prerequisite: permission of instructor.

INTD 6160. Individual Problems & Research. 1-6 Credits.

Independent research on selected topic. Research proposal must be approved by faculty prior to registration. May be repeated for credit with permission. Admission by permission of instructor.

INTERNATIONAL AFFAIRS (IAFF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IAFF 1005. Introduction to International Affairs: A Washington Perspective. 4 Credits.

Open only to first-year students in the Elliott School. An introduction to the study of international affairs, integrating material designed to orient students to the Elliott School, the University, and the city of Washington. Students who have transferred into the Elliott School should take PSC 1003 instead of this course. Credit may not be earned for both IAFF 1005 and PSC 1003.

IAFF 2040. Basic Topics in International Affairs. 0-3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Primarily for Elliott School freshmen and sophomores.

IAFF 2090. Latin America: Problems and Promise. 3 Credits.

An interdisciplinary course in Latin American studies designed to introduce undergraduates to the diverse, rich, and complex history, politics, economy, culture, and society of Latin America.

IAFF 2091. East Asia-Past and Present. 3 Credits.

An interdisciplinary course offering a comprehensive and integrated introduction to the civilizations and present problems of East Asia.

IAFF 2092. Russia and Eastern Europe: An Introduction. 3 Credits.

A multidisciplinary introduction to the lands and cultures of the former Soviet Union and Central and Eastern Europe. The main emphasis is on history and politics, with attention also given to economics, trade, geography, military matters, literature, and the media.

IAFF 2093. Africa: Problems and Prospects. 3 Credits.

Aspects of the environment, culture, and politics as they affect the present and anticipated future of Africa.

IAFF 2094. Europe: International and Domestic Interactions. 3 Credits.

A multidisciplinary view of contemporary Europe, including the E.U. states, other states of Eastern Europe, and Turkey. The widening processes of political, judicial, economic, cultural, and security integration. Prerequisite: IAFF 1005, PSC 1001.

IAFF 2190. Special Topics. 3 Credits.**IAFF 2190W. Special Topics. 3 Credits.****IAFF 3155. Spain in the Modern World. 3 Credits.****IAFF 3171. U.S. Foreign Policy Summer Program. 3-4 Credits.**

The institutions and ideas that shape U.S. foreign policy, including the U.S. Congress and administration, foreign embassies, international organizations, think tanks, interest groups, and media outlets. A separate section of the course covers issues of reporting on foreign policy issues. The program has special admission criteria.

IAFF 3179. Special Topics in Science and Technology Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3180. Special Topics in Security Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3180W. Spec Topics in Security Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3181. Special Topics in Conflict Resolution. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3182. Special Topics in Foreign Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3183. Special Topics in Development Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3184. Special Topics in Trade and International Economic Policy. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3185. Special Topics in European and Eurasian Studies. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3186. Special Topics in Asian Studies. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3186W. Special Topics in Asian Studies. 0-3 Credits.

IAFF 3187. Special Topics in Latin American and Hemispheric Studies. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3188. Special Topics in Middle East Studies. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3189. Special Topics in African Studies. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3190. Special Topics in International Affairs. 0-3 Credits.

The course may be repeated for credit provided the topic differs. Prerequisite: IAFF 1005 or PSC 1003; junior or senior standing.

IAFF 3190W. Special Topics. 0-3 Credits.

IAFF 3192. ESIA Undergraduate Scholars Workshop. 1 Credit.

For Elliott School juniors and seniors who have applied to and been accepted into the ESIA Undergraduate Scholars Program. Students fine-tune their research questions, conduct the bulk of their research, draft abstracts, and outline their papers. See <http://elliott.gwu.edu/academics/ugrad/scholars/index.cfm> for more information.

IAFF 3193W. ESIA UG Scholars Course. 3 Credits.

IAFF 3195. Internship. 0-3 Credits.

Internships in public, private, and nonprofit organizations concerned with international affairs. Students must meet selection criteria, find a sponsoring faculty member, and receive approval from the Elliott School Office of Academic Advising and Student Services. May be repeated for up to 6 credits with permission.

IAFF 3198. Independent Study and Research. 1-3 Credits.

For juniors and seniors with a minimum grade-point average of 3.0. Students must find a sponsoring faculty member and receive approval from the Elliott School Office of Academic Advising and Student Services. May be repeated for credit with permission of the dean.

IAFF 4191. Research Seminar. 3 Credits.

Intensive readings, discussion, research, and writing. Students must meet selection criteria and receive advisor approval. For Elliott School juniors and seniors only. Restricted to For Elliott School juniors and seniors only.

IAFF 4191W. Research Seminar. 3 Credits.

Intensive readings, discussion, research, and writing. Students must meet selection criteria and receive advisor approval. For Elliott School juniors and seniors only.

IAFF 4199. Senior Thesis. 3 Credits.

For Elliott School seniors only. Students must meet selection criteria, find a sponsoring faculty member, and receive approval from the Elliott School Office of Academic Advising and Student Services.

IAFF 5700. Special Topics. 3 Credits.

IAFF 6101. IA Cornerstone. 3 Credits.

Political, economic, and social theories of international relations and their applications to practice.

IAFF 6102. Global Gender Policy. 3 Credits.

An interdisciplinary and comparative approach to examination of policies targeted at achieving gender equality and of the costs of policies that are not gender-specific. Topics include poverty reduction, environmental sustainability, social justice, global and personal security, and prevention of and responses to extreme calamities and crises. How global gender policies are rationalized, adopted, implemented, and assessed. Focus on "what works" and why it works; gaps that remain in achieving global gender equality.

IAFF 6106. Nuclear Weapons. 3 Credits.

The technology and politics associated with nuclear weapons. Strategy and deterrence, force planning and operations, and the prospect of nuclear terrorism.

IAFF 6118. Special Topics in International Affairs. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6121. International Development Studies Cornerstone. 3 Credits.

Introduction to the concepts and methods of international development. Open only to M.A. candidates in international development studies.

IAFF 6122. Development Policy and Practice. 3 Credits.

An overview of economic development in developing countries; key challenges of economic growth, poverty alleviation, and development.

IAFF 6136. Gender and Development. 3 Credits.

Theoretical approaches to gender and development and debates over how to promote gender equity and rights across the gender spectrum. Key issues in gender and development and the range of actors who are involved in promoting gender equality. General patterns, lessons with broader applications, and challenges and differences within and between societies.

IAFF 6137. Development Studies Pre-Capstone Workshop. 1 Credit.

Students work in teams to find a suitable client and negotiate a project, with detailed terms of reference and a work plan to be carried out in the spring semester. Open only to M.A. candidates in international development studies.

IAFF 6138. Special Topics in International Development Studies. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6139. International Development Studies Capstone. 3 Credits.

A project-oriented development course abroad, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in international development studies.

IAFF 6141. International Science and Technology Policy Cornerstone. 3 Credits.

Introduction to the study of international science and technology policy; focus on policy issues that arise from interactions between scientific and technological developments and government activity.

IAFF 6142. Technology Creation/Diffusion. 3 Credits.

Examination of the relationship between invention (inception), innovation (first application), and dissemination (diffusion) of technological knowledge; focus on the technological environment prevailing in the major developed market economies.

IAFF 6145. U.S. Space Policy. 3 Credits.

Origins, evolution, current status, and future prospects of U.S. space policies and programs. U.S. civilian, military, and national security space programs and space activities of the U.S. private sector.

IAFF 6146. Space Law. 3 Credits.

The underlying principles of international space law, with emphasis on issues of particular concern as the uses of space increase for exploration, commerce, and security.

IAFF 6148. Special Topics in Space Policy. 3 Credits.

Topic announced in the Schedule of Classes.

IAFF 6151. Environmental Policy. 3 Credits.

Examination of public policies designed to protect the human and physical environment; focus on the ways science and technology can simultaneously create new environmental problems and contribute to their mitigation and prevention.

IAFF 6153. Science, Technology, and National Security. 3 Credits.

The contributions of science and technology to U.S. security in military, intelligence, and homeland security activities.

IAFF 6158. Special Topics in International Science and Technology Policy. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6159. ISTP Capstone Project. 3 Credits.

A seminar designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in science and technology policy.

IAFF 6160. Defense Policy and Program Analysis. 3 Credits.

Examination of how national security policy is formulated and translated into a defense budget, program priorities, and force structure. Focus on nuclear forces.

IAFF 6163. Transnational Security. 3 Credits.

Overview of security concerns that transcend state borders, including terrorism, drug trafficking, organized crime, weapons proliferation, migration, and environmental degradation.

IAFF 6165. Fundamentals of Intelligence. 3 Credits.

The institutional structure of the intelligence community; the intelligence production cycle, including tasking, collection, analysis, covert action, and counterintelligence; and relations between the intelligence and policy communities.

IAFF 6167. Defense Policy & Program Analysis II. 3 Credits.

Analysis of the development of national security policy and analytic techniques to derive a defense program and force structure from it. Special attention to general-purpose forces.

IAFF 6169. Homeland Security. 3 Credits.

The central missions of a homeland security agency: domestic security, emergency preparedness, technology policy, timely intelligence, counterintelligence, and preemptive actions. How the U.S. has dealt historically with internal security matters; contemporary approaches to security problems.

IAFF 6171. Introduction to Conflict Resolution. 3 Credits.

Interstate disputes, contemporary civil wars, complex political emergencies, and other forms of organized violence.

IAFF 6173. Security and Development. 3 Credits.

Consideration of the relationship between security and development reflecting the growing interest from the security field in issues that have traditionally been the purview of development, and vice versa.

IAFF 6186. Special Topics in Security Policy Studies. 3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6189. Security Policy Studies Capstone. 3 Credits.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in security policy studies.

IAFF 6198. Special Topics in International Trade and Investment Policy. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6199. International Trade and Investment Policy Capstone. 1 Credit.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in international trade and investment policy.

IAFF 6208. Special Topics in Global Communication. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6209. Global Communication Capstone. 3 Credits.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in global communication.

IAFF 6211. MIPP Practicum. 3 Credits.

For Master of International Policy and Practice degree candidates only.

IAFF 6302. Taiwan: Internal Development and Foreign Policy. 3 Credits.

The social, political, and economic development in Taiwan since World War II; Taiwan's foreign affairs.

IAFF 6305. U.S.-South Asia Relations. 3 Credits.

The nature of challenges and opportunities facing the South Asia region and the U.S. policy response. The rise of India as a global actor; relations between India and Pakistan; political transformation in the countries of the region, including Nepal and Sri Lanka.

IAFF 6308. Intl Relations of South Asia. 3 Credits.**IAFF 6318. Special Topics in Asian Studies. 0-3 Credits.**

Topics announced in Schedule of Classes.

IAFF 6321. European and Eurasian Studies Cornerstone. 3 Credits.

Survey of current research on Europe and Eurasia. Research paper required. Required of M.A. candidates in European and Eurasian studies; open to others with permission of the instructor.

IAFF 6338. Special Topics in European and Eurasian Studies. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6339. European and Eurasian Studies Capstone. 3 Credits.

Survey of current research on Europe and Eurasia. Research paper required. Required of M.A. candidates in European and Eurasian studies; open to others with permission of the instructor.

IAFF 6341. Latin American and Hemispheric Studies Cornerstone. 3 Credits.

Multidisciplinary foundation course for the Latin American and hemispheric studies program.

IAFF 6342. Drug Trafficking in the Americas. 3 Credits.

A historical, comparative, and contemporary picture of drug trafficking in the Americas and the anti-narcotics policies to combat this trade.

IAFF 6343. Indigenous Social Movements. 3 Credits.**IAFF 6357. Pre-Capstone Workshop. 1 Credit.****IAFF 6358. Special Topics in Latin American and Hemispheric Studies. 0-3 Credits.**

Topics announced in the Schedule of Classes.

IAFF 6359. Latin American and Hemispheric Studies Capstone. 3 Credits.

A project-oriented course, designed to apply the skills and synthesize the knowledge that students have acquired in their graduate study. Open only to M.A. candidates in Latin American and hemispheric studies.

IAFF 6361. Middle East Studies Cornerstone. 1 Credit.

Multidisciplinary foundation course for the Middle East studies program. Introduction to key issues.

IAFF 6362. Regional Security in Middle East. 3 Credits.

The nature, elements, and future of security in the Middle East region. Various analytical frameworks are examined to consider the interplay of national interests, ideology, and regionalism. Issues in regional security.

IAFF 6363. Political Economy/Middle East. 3 Credits.

Current political economy of the Middle East, including an overview of Islamic economic concepts and political organizations.

IAFF 6364. Religion and Society in the Modern Middle East. 3 Credits.

Comparative overview, both historical and current, of religious and social trends in the Middle East.

IAFF 6378. Special Topics in Middle East Studies. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6379. Middle East Studies Capstone. 3 Credits.

A project-oriented course, designed to synthesize the skills and knowledge that students have acquired in their graduate study. Open only to M.A. candidates in Middle East studies.

IAFF 6501. Quant Analysis Int'l Aff Prac. 3 Credits.

Overview of quantitative measurement, data summary, statistical inference, and elementary modeling such as linear regression.

IAFF 6502. Professional Skills I. 1 Credit.

Short courses that focus on developing specialized skills for international affairs professionals. Topics announced in the Schedule of Classes.

IAFF 6503. Professional Skills II. 1 Credit.

Continuation of IAFF 6502. Short courses that focus on developing specialized skills for international affairs professionals. Topics announced in the Schedule of Classes.

IAFF 6504. Intermediate Conversation. 1 Credit.

Short courses designed to develop professional language skills for international affairs students. Specific languages announced in the Schedule of Classes.

IAFF 6505. Elliott School Seminars. 0-3 Credits.

Topics announced in the Schedule of Classes.

IAFF 6515. Graduate Internship in International Affairs. 0 Credits.

Limited to Elliott School M.A. degree candidates. Internship and research paper involving experience at an international organization or with international issues.

IAFF 6516. Independent Study and Research. 1-3 Credits.

Limited to Elliott School M.A. degree candidates. Written permission of instructor required.

IAFF 6517. Independent Study and Research. 1-3 Credits.

IAFF 6521. U.S. Foreign Policy Summer Program. 3-4 Credits.

The institutions and ideas that shape U.S. foreign policy, including the U.S. Congress and administration, foreign embassies, international organizations, think tanks, interest groups, and media outlets. A separate section of the course covers issues of reporting on foreign policy issues.

IAFF 6898. Capstone Workshop. 1 Credit.

The first part of a two-semester project that addresses a concrete policy problem or issue in international affairs. In small teams, students refine the policy question of the capstone project, develop a research strategy, select appropriate research methods, and begin research.

IAFF 6899. Capstone Course. 3 Credits.

Completion of the capstone sequence by conduct of the group's research, completion of the capstone report, and oral presentation of research findings and recommendations. Prerequisites: IAFF 6898.

IAFF 6998. Thesis. 3 Credits.

Open to Elliott School M.A. candidates who have selected the thesis option.

IAFF 6999. Thesis. 3 Credits.

Open to Elliott School M.A. candidates who have selected the thesis option.

INTERNATIONAL BUSINESS (IBUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

IBUS 3001. Introduction to International Business. 3 Credits.

The international business environment, including social, cultural, political, technological, and institutional domains. Multinational corporation strategic imperatives and organizational challenges, including financial, marketing, human resources, and other aspects of management. Prerequisite: ECON 1011 and ECON 1012.

IBUS 3001W. Intro-International Business. 3 Credits.

The international business environment, including social, cultural, political, technological, and institutional domains. Multinational corporation strategic imperatives and organizational challenges, including financial, marketing, human resources, and other aspects of management.

IBUS 3101. Global Financial Environment. 3 Credits.

The international economic, trade, and financial environment in which global business operates and how developments in these areas affect business activity. Prerequisites: ECON 1011 and ECON 1012.

IBUS 3201. International Marketing Management. 3 Credits.

Introduction to international marketing analysis and strategy, and the dynamic nature of international markets. Analysis of different types of international markets and formulation of strategies at the entry and global stages. Prerequisites: IBUS 3001 or IBUS 3002, except by permission of instructor.

IBUS 3301. International Business Finance. 3 Credits.

Analysis of the international economic environment and its influence on corporate financial management of international operations. Prerequisite: IBUS 3001, except by permission of instructor, and BADM 3501.

IBUS 4202. Regional Strategy for Multinationals. 3 Credits.

The business, economic, investment, and market environments in different world regions. A regional strategy framework for responding to business opportunities in regional markets. Prerequisites: IBUS 3001 or IBUS 3002, except by permission of instructor.

IBUS 4203. Foreign Market Analysis. 3 Credits.

Project course involving market research for target market selection, market entry strategy, in-country marketing plan, and recommendations for strategy implementation in the target country. Focus on consulting process as ancillary component. Prerequisite: IBUS 3001, except by permission of instructor, and IBUS 3201.

IBUS 4302. International Banking. 3 Credits.

Theory and practice of international banking; analysis of international commercial and investment banking from a management perspective; subjects include current international monetary and financial environment, money and capital markets, and topical problems of international banking from a management perspective. Prerequisite: IBUS 3001, except by permission of instructor, and IBUS 3301.

IBUS 4303. International Monetary and Financial Issues. 3 Credits.

Theory and practice of international banking; analysis of international commercial and investment banking from a management perspective; subjects include current international monetary and financial environment, money and capital markets, and topical problems of international banking from a management perspective. Prerequisite: IBUS 3001, except by permission of instructor, and IBUS 3301.

IBUS 4401. Managing the Multinational Enterprise. 3 Credits.

The changing nature of the international environment and the resulting effects on strategy of U.S. and foreign multinational corporations. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 4402. Managing in Developing Countries. 3 Credits.

Challenges of operating in developing countries. Cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 4402W. Managing-Developing Countries. 3 Credits.

Challenges of operating in developing countries. Cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Prerequisites: IBUS 3001 or IBUS 3002, or permission of instructor.

IBUS 4900. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 4995. Independent Study. 1-12 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: IBUS 3001, except by permission of instructor.

IBUS 6201. International Marketing. 3 Credits.

International marketing strategy formulation, including market entry, local market development, and global market integration; strategic challenge of global marketing formulation and local market adaptation, with attention to market conditions in mature, new growth, and emerging market environments; emerging trends. Prerequisites: MBAD 6242 and MBAD 6243; or ECON 6283; or ECON 6284.

IBUS 6202. Regional Strategy for Multinationals. 0-3 Credits.

Development of a framework to understand dynamic business, cultural, and economic environments in Asia and Latin America. Regional business strategies of multinational companies from outside and within Asia and Latin America that respond to business opportunities and challenges in these regions.

IBUS 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6297. International Management Experience. 1-6 Credits.

Same as FINA 6297/ MGT 6297/ MKTG 6297/ SMPP 6297. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284. May be repeated for credit.

IBUS 6301. International Business Finance. 3 Credits.

Analysis of major issues and developments in the international financial environment and their impact on multinational corporations and financial institutions. Prerequisite: MBAD 6234 and MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6302. Seminar: International Banking. 3 Credits.

Evolution in international banking and other international financial institutions. Functioning of international banking operations, public policy issues and regulatory issues in international banking, and the effect of international banks on national monetary policies. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6303. External Development Financing. 3 Credits.

Institutions, instruments, and theory of external development financing; financial flows to developing countries; development finance and the role of international and regional development banks; policies, methods, and practices of the World Bank, the IMF, and others; technical assistance, training, capacity building, and role of institutions in sustained development. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6304. Currency and Banking Crises in Emerging Markets. 3 Credits.

Public policy issues surrounding financial crises in emerging market economies. Comparison of the economic reasons for the crises as well as the responses of various governments and international financial institutions. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6305. Global Investment Banking. 3 Credits.

Examination of investment banking as practiced in a global context from a strategic perspective using case studies and readings. Topics covered include securities underwriting and derivatives instruments, risk management, and business development strategies. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6306. Seminar: International Financial Markets. 3 Credits.

Survey of international financial markets, focusing on structure, operations, and pricing. Primary emphasis on markets for foreign exchange, Eurocurrency, international bonds, and commodities. Derivatives markets, especially swaps and options embedded in international securities issues. Prerequisite: IBUS 6301 and MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6307. International Portfolio Management. 3 Credits.

Theory and practice of international investment. Portfolio construction and optimization. Effects of exchange rate changes on portfolio risk and return. International asset pricing models and trading institutions. Prerequisite: MBAD 6234; either MBAD 6243 or ECON 6284.

IBUS 6308. Intl Reporting and Contrl. 1.5 Credit.

IBUS 6309. International Accounting. 1.5 Credit.

IBUS 6310. Intl Fin. Reporting Standards. 1.5 Credit.

IBUS 6400. Oil: Industry, Economy, and Society. 3 Credits.

Multidisciplinary approach to the study of oil and its effects on business, nation-states, and the world economy, based primarily on political economy and management perspectives. Topics include the oil industry, the global oil environment, and the potential effects of oil on a society. (Same as IAFF 6378).

IBUS 6401. International Business Strategy. 3 Credits.

Discussion of the changing nature of the international environment and the resulting impact on strategy of both U.S. and foreign multinational corporations. Various aspects of strategy are considered, including marketing, production, and financial strategy. The focus of discussion is at the company level. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6402. Managing in Developing Countries. 3 Credits.

Challenges of operating in developing countries. Cross-country experience and case studies exploring issues of institutions, corruption, infrastructure, private-public partnerships, competition, regulation, and global standards. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6403. International Business Negotiations. 3 Credits.

Theories and application in International Business Negotiations (IBN). Formulation of concepts and frameworks; development of systematic approaches to planning for and conducting IBN. Integration of functional, environmental, and institutional contexts facing negotiators internationally. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6404. New Global Competitive Framework. 3 Credits.

How industries develop sustained competitive advantages within the global framework. The European Union's "single market" and the Economic-Monetary Union; the transformation of formerly centrally planned economies; the changing Japanese economy and emerging Pacific Basin, with implications for the U.S. economy, industries, and firms. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6405. Legal Aspects of International and Multinational Business. 3 Credits.

Legal environment of international and multinational business including legal systems, antitrust laws, regulation of direct investment, international arbitration and expropriation; topics of current interest. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6995. Directed Readings and Research. 3 Credits.

Supervised readings or research in selected fields within business administration. Admission by prior permission of instructor. May be repeated once for credit. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 6999. Thesis Seminar. 3 Credits.

Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 8311. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311.

IBUS 8361. Colloquium on International Business. 3 Credits.

Examination of selected topics in international business, with emphasis on major new theoretical and empirical developments. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 8397. Doctoral Seminar. 1-3 Credits.

Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 8900. Thesis Research. 3 Credits.

Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 8998. Advanced Readings and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

IBUS 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit. Prerequisite: MBAD 6242 and MBAD 6243 or ECON 6283 or ECON 6284.

ITALIAN (ITAL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ITAL 1001. Basic Italian I. 4 Credits.

Handling the immediate context of daily experience in spoken and written Italian: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

ITAL 1002. Basic Italian 2. 4 Credits.

Speaking and writing in Italian about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Prerequisite: ITAL 1001 . Laboratory fee.

ITAL 1003. Intermediate Italian I. 3 Credits.

Increasing active vocabulary, reinforcing mastery of basic grammar, dealing with more complex structures (verbal phrases, subordinate clauses), and using some patterns of indirect speech (repeating or relaying messages, giving reports, summarizing). Prerequisite: ITAL 1002 . Laboratory fee.

ITAL 1004. Intermediate Italian II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: ITAL 1003 . Laboratory fee.

ITAL 2005. Language, Culture & Society I. 3 Credits.

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Prerequisite: ITAL 1004. Laboratory fee.

ITAL 2006. Language, Culture & Society II. 3 Credits.

Continued expansion of the range and complexity of conversational skills and further development of the writing of effective expository prose on a broad range of subjects. Short literary texts serve as the basis for oral discussion, analytical reading, and writing brief critical essays. Prerequisite: ITAL 2005. Laboratory fee.

ITAL 3010. Advanced Italian Grammar and Style. 3 Credits.

Compositions, drills, dictations. Translations into Italian. Study of vocabulary and syntax with emphasis on stylistic devices. Prerequisite: ITAL 2006.

ITAL 3100. Introduction to Italian Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods. Emphasis on study of Italian literature in its cultural context. Close reading approach and introduction to literary vocabulary. Prerequisite: ITAL 2006 .

ITAL 3100W. Introduction to Italian Literature. 3 Credits.**ITAL 3201. History of Italian Literature from the Middle Ages Through the 17th Century. 3 Credits.**

Lecture and discussion in Italian. Development of genre and movements. Selected readings across these periods plus reading of complete texts of epics, essays, novels, and plays. Prerequisite: ITAL 2006 .

ITAL 3202. History of Italian Literature from the 18th Through the 20th Century. 3 Credits.

Lecture and discussion in Italian. Philosophical and literary movements of the modern period. Selected readings across the period plus the reading of complete texts of novels and drama. Prerequisite: ITAL 2006 .

ITAL 3202W. History of Italian Literature from the 18th Through the 20th Century. 3 Credits.**ITAL 3290. Textual Analysis. 3 Credits.**

Close examination of critical methods and vocabulary used in literary study as applied to Italian Literature. Attention to linguistic and stylistic difficulties in textual analysis. Prerequisite: ITAL 3100 .

ITAL 3300. Italian Literature and Culture in Translation. 3 Credits.

Dynamics of Italian-speaking societies and their cultures studied through literature, art, or film. Topics vary. Readings and lectures in English. The course may be repeated for credit. A laboratory fee may be required.

ITAL 3600. Special Topics in Italian Literature and Culture. 3 Credits.

May be repeated for credit provided the topic differs.

ITAL 4183. History of Italian Film. 3 Credits.

Study of Italian films, directors, and styles, with films examined as aesthetic objects in their own right and in relation to the wider social and cultural environment. The verbal and visual language necessary for decoding and describing film. The course is conducted in English.

ITAL 4380. Italian Journeys Medieval to Postmodern. 3 Credits.

Italy's dual role as the home of legendary travelers and the destination for an endless stream of tourists. The reality and metaphor of travel viewed through travel diaries, ship logs, letters to patrons, maps, travel guides, poetry, and film. The course is conducted in English.

ITAL 4500. Studies in Medieval and Early Renaissance Literature. 3 Credits.

Works by Dante, Petrarca, and Boccaccio. Emphasis on structure, rhetorical features, and problems of narrative organization. Specific attention to historical and ideological aspects of the works as well as to cultural influence.

Prerequisite: ITAL 3290 .

ITAL 4560. Modern Italian Novel. 3 Credits.

A reading of the most important Italian novelists of the 19th and the 20th centuries: Manzoni, Verga, Bassani, Calvino, Eco, Sanguinetti. Study of the relations of each work to its social and cultural context and to the novel as a genre. Prerequisite: ITAL 3290 .

ITAL 4800. Independent Study. 1-4 Credits.

Admission by permission of department chair and instructor. May be repeated for credit.

JAPANESE (JAPN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

JAPN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

JAPN 1001. Beginning Japanese I. 4 Credits.

Fundamentals of grammar and pronunciation, with graded reading and practice in writing. Laboratory fee.

JAPN 1002. Beginning Japanese II. 4 Credits.

Continuation of JAPN 1001. Fundamentals of grammar and pronunciation, with graded reading and practice in writing. Laboratory fee.

JAPN 1005. Intensive Beginning Japanese. 8 Credits.

Intensive beginning course equivalent to JAPN 1001- JAPN 1002. Laboratory fee.

JAPN 2003. Intermediate Japanese I. 4 Credits.

Continuation of grammar, with emphasis on speaking, reading, and writing. Prerequisite: JAPN 1002 or JAPN 1005, or approval of instructor. Laboratory fee.

JAPN 2004. Intermediate Japanese II. 4 Credits.

Continuation of JAPN 2003. Continuation of grammar, with emphasis on speaking, reading, and writing. Prerequisite: JAPN 2003, or approval of instructor. Laboratory fee.

JAPN 2006. Intensive Intermediate Japanese. 8 Credits.

Intensive intermediate course equivalent to JAPN 2003- JAPN 2004. Prerequisite: Japn 1002 or JAPN 1005. Laboratory fee.

JAPN 3105. Intermediate Japanese III. 3 Credits.

Continuation of reading of texts, writing of short pieces, conversation, systematic review of grammar. Prerequisite: JAPN 2004 or JAPN 2006; or approval of instructor. Laboratory fee.

JAPN 3106. Intermediate Japanese IV. 3 Credits.

Continuation of JAPN 3105. Continuation of reading of texts, writing of short pieces, conversation, systematic review of grammar. Prerequisite: Japn 3105; or approval of instructor. Laboratory fee.

JAPN 3111. Japanese Literature in Translation. 3 Credits.

An introductory survey of Japanese literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The pre-modern period.

JAPN 3112. Japanese Literature in Translation. 3 Credits.

Continuation of JAPN 3111. An introductory survey of Japanese literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The modern period.

JAPN 3123. Introduction to Japanese Linguistics I. 3 Credits.

The structure of the Japanese language with focus on modern Japanese phonology, grammar, and pragmatics. Course is conducted in English.

JAPN 3124. Introduction to Japanese Linguistics II. 3 Credits.

Continuation of JAPN 3123. Focus on grammatical analysis of modern Japanese, the history of the Japanese language, and linguistic universals. Course is conducted in English.

JAPN 3132. Tale of Genji: Love and Politics. 3 Credits.

Social and aesthetic topics in Japanese culture and literature revealed in the story The Tale of Genji and examined in selected secondary sources.

JAPN 3162. Japanese Culture Through Film. 3 Credits.

Survey of the Japanese cultural heritage presented through films. Topics include literature, philosophy, art, religion, and social history from premodern times to the modern era. Lectures and discussion in English. (Same as ANTH 3709).

JAPN 4107. Readings in Modern Japanese I. 3 Credits.

Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: JAPN 3106 or approval of instructor.

JAPN 4108. Readings in Modern Japanese II. 3 Credits.

Continuation of JAPN 4107. Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: JAPN 3106 or approval of instructor.

JAPN 4109. Introduction to Bungo, Literary Japanese. 3 Credits.

Introduction to Bungo, the literary Japanese used in official government documents up to World War II, newspapers and journals through the Meiji period, and literature from the prose of the Tales of Ise to the poetry of Tawara Machi. Prerequisite: JAPN 3106 or approval of instructor.

JAPN 4110. Readings in Classical Japanese. 3 Credits.

Readings in premodern texts in Japanese literature, history, and philosophy. Prerequisite: JAPN 4109 or approval of instructor.

JAPN 4121W. Advanced Conversation and Composition I. 3 Credits.

Productive skills at the advanced discourse level, topic-specific practice of commonly used speech patterns and writing formats. Prerequisite: JAPN 3106 to JAPN 4121.

JAPN 4122W. Advanced Conversation and Composition II. 3 Credits.

Continuation of JAPN 4121. Productive skills at the advanced discourse level, topic-specific practice of commonly used speech patterns and writing formats. Prerequisite: JAPN 4121.

JAPN 4185. Directed Reading I. 3 Credits.

Reading of material in the student's field of interest. Admission by permission of instructor.

JAPN 4186. Directed Reading II. 3 Credits.

Continuation of JAPN 4185. Reading of material in the student's field of interest. Admission by permission of instructor.

JAPN 4198. Proseminar: Readings for the Major in Japanese Language and Literature. 3 Credits.

Recommended for all majors. Preparation for advanced research in Japanese sources. Practice in consulting Japanese reference material and translating sources for writing in English. Seminars on advanced reading, translation, and critical methodology. Prerequisite: JAPN 3106.

JAPN 4199. Proseminar: Readings for the Major in Japanese Language and Literature. 3 Credits.

Continuation of JAPN 4198. Recommended for all majors. Preparation for advanced research in Japanese sources. Practice in consulting Japanese reference material and translating sources for writing in English. Seminars on advanced reading, translation, and critical methodology. Prerequisite: JAPN 4198.

JUDAIC STUDIES (JSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

JSTD 2001. Topics in Judaic Studies: Pre-modern. 3 Credits.

Focus on the pre-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 2002. Topics in Judaic Studies: Modern. 3 Credits.

Focus on the post-1650 period. Topics vary by semester. See the Schedule of Classes for details.

JSTD 4018. Senior Thesis. 1 Credit.

For Judaic studies majors. Students choose a topic in any major subfield of Judaic studies, select a faculty advisor who specializes in the subfield, conduct research, and produce an annotated bibliography and a proposal that previews the main arguments of the thesis.

JSTD 4019. Senior Thesis. 3 Credits.

Continuation of JSTD 4018. For Judaic studies majors. Completion of the thesis and oral presentation before Judaic studies students and faculty.

JSTD 6001. Topics in Judaic Studies. 3 Credits.**JSTD 6097. Independent Readings/Research. 1-3 Credits.**

Written permission of instructor required. May be repeated for credit with permission.

JSTD 6154. Internship. 1-6 Credits.

Elective internship in areas related to Jewish cultural study.

JSTD 6201. Jewish Life in Contemporary America. 3 Credits.**JSTD 6211. Displaying Jewish Culture: Landmark Exhibitions on Judaism and the Jewish Experience. 3 Credits.****JSTD 6298. Capstone: Behind the Scenes. 3 Credits.**

KOREAN (KOR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

KOR 1001. Beginning Korean I. 4 Credits.

Fundamentals of grammar and pronunciation, with graded speaking, reading, and writing practice. Laboratory fee.

KOR 1002. Beginning Korean II. 4 Credits.

Continuation of KOR 1001. Fundamentals of grammar and pronunciation, with graded speaking, reading, and writing practice. Laboratory fee.

KOR 2003. Intermediate Korean I. 4 Credits.

Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee.

KOR 2004. Intermediate Korean II. 4 Credits.

Continuation of KOR 2003. Continuation of grammar, with emphasis on speaking, reading, and writing. Laboratory fee.

KOR 3105. Intermediate Korean III. 3 Credits.

Continuation of reading of texts, writing of short pieces, conversation, and systematic review of grammar, focusing on business Korean. Prerequisite: KOR 2004. Laboratory fee.

KOR 3106. Intermediate Korean IV. 3 Credits.

Continuation of KOR 3105. Continuation of reading of texts, writing of short pieces, conversation, and systematic review of grammar, focusing on business Korean. Prerequisite: Kor 3105. Laboratory fee.

KOR 3111. Korean Literature in Translation. 3 Credits.

An introductory survey of Korean literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The pre-modern period.

KOR 3112. Korean Literature in Translation. 3 Credits.

Continuation of KOR 3111. An introductory survey of Korean literature read in English translation, including fiction, poetry, drama, essays, diaries, testimonials. The modern period.

KOR 3123. Introduction to Korean Linguistics. 3 Credits.

The structure of the Korean language, including such topics as the structure of sounds and words, sentence meaning and structure, the writing system, adaptation of foreign vocabulary, pragmatics, variation, and change. Course conducted in English.

KOR 3124. Introduction to Korean Linguistics. 3 Credits.

Continuation of KOR 3123. The structure of the Korean language, including such topics as the structure of sounds and words, sentence meaning and structure, the writing system, adaptation of foreign vocabulary, pragmatics, variation, and change. Course conducted in English.

KOR 3162. Korean Culture through Film. 3 Credits.

The intersection of gender, class, and nation in contemporary society through the lens of Korean film. English subtitles; lectures and discussion in English.

KOR 4107. Readings in Modern Korean I. 3 Credits.

Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: KOR 3106 .

KOR 4108. Readings in Modern Korean II. 3 Credits.

Continuation of KOR 4107. Readings in selected modern literary works, social science materials, and documentary materials. Prerequisite: KOR 3106 .

LATIN (LATN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LATN 1001. Beginning Latin I. 4 Credits.

Grammatical essentials of Latin, appropriate reading selections, development of English derivatives, introduction to Roman life and literature.

LATN 1002. Beginning Latin II. 4 Credits.

Continuation of LATN 1001. Grammatical essentials of Latin, appropriate reading selections, development of English derivatives, introduction to Roman life and literature.

LATN 2001. Intermediate Latin. 3 Credits.

Development of ability to read and understand Latin literature of moderate difficulty. Prerequisite: LATN 1001- LATN 1002 .

LATN 2002. Vergil's Aeneid. 3 Credits.

Significant passages of Vergil's famous epic in Latin; reading and discussion of the entire poem in translation. Prerequisite: LATN 2001 or permission of instructor.

LATN 2002W. Vergil's Aeneid. 3 Credits.

Significant passages of Vergil's famous epic in Latin; reading and discussion of the entire poem in translation. Prerequisite: LATN 2001 or permission of instructor.

LATN 3001. Major Latin Authors I. 3 Credits.

Selections from one or two major authors will be read each semester. May be repeated for credit. Prerequisite: LATN 2001, LATN 2002; or permission of instructor.

LATN 3001W. Major Latin Authors I. 3 Credits.

Selections from one or two major authors will be read each semester. May be repeated for credit. Prerequisite: LATN 2001, LATN 2002; or permission of instructor.

LATN 3002. Major Latin Authors II. 3 Credits.

Continuation of LATN 3001. Selections from one or two major authors will be read each semester. May be repeated for credit. Prerequisite: LATN 2001, LATN 2002; or permission of instructor.

LATN 3002W. Major Latin Authors II. 3 Credits.

Continuation of LATN 3001. Selections from one or two major authors will be read each semester. May be repeated for credit. Prerequisite: LATN 2001, LATN 2002; or permission of instructor.

LAW (LAW)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LAW 6202. Contracts I. 3,4 Credits.

Legal remedies of contracting parties, including damages in contract and quasicontract, specific performance, reformation, rescission, remedies in tort; acts creating and terminating contractual rights, including offer and acceptance, mistake, problems of proof; function of consideration; conditions; assignments; third-party beneficiaries; effect of changed circumstances; protection of the client's interests upon breach or threat of breach by the other party. Emphasis on problems of analysis, draftsmanship, adversary method. (Examination).

LAW 6203. Contracts II. 2,3 Credits.

Legal remedies of contracting parties, including damages in contract and quasicontract, specific performance, reformation, rescission, remedies in tort; acts creating and terminating contractual rights, including offer and acceptance, mistake, problems of proof; function of consideration; conditions; assignments; third-party beneficiaries; effect of changed circumstances; protection of the client's interests upon breach or threat of breach by the other party. Emphasis on problems of analysis, draftsmanship, adversary method. (Examination).

LAW 6206. Torts. 2-4 Credits.

Liability for harm to person or property. Intentional torts, negligence, nuisance, products liability, defamation, and invasion of privacy; fault and other bases for shifting losses; causation; damages; effects of liability insurance; problems under Federal Tort Claims Act. (Examination).

LAW 6208. Property. 4 Credits.

Basic concepts of personal property. Real property: historical background of the law of estates and conveyancing, types of estates, dower and curtesy, landlord and tenant relationship, concurrent estates, future interest at common law and after the Statute of Uses; introduction to modern conveyancing—the real estate contract, the deed, the recording system, methods of title assurance. (Examination).

LAW 6210. Criminal Law. 3 Credits.

An overview of the criminal justice system; dimensions of the problem of crime and goals of penal sanctions. An examination of what conduct should be made criminal and what sanctions should be applied. The theoretical anatomy of a criminal offense (elements of mens rea and actus reus), the general principles of criminal liability, and the various defenses. Special problems, such as conspiracy, inchoate crimes, causation, insanity, and complicity, are subjected to detailed analysis. (Examination).

LAW 6212. Civil Procedure I. 3-4 Credits.

The theory and practice of civil litigation. Analysis of the goals, values, costs, and tensions of an evolving adversarial system of adjudication. Examination of the rules and statutes that govern the process by which substantive rights and duties are enforced in our federal and state courts. Topics include the relationship of procedure to substantive law, the proper reach of judicial authority, pleading, motions practice, joinder of parties and claims, class actions, pretrial discovery, trial by jury, remedies, post-trial procedure, appeals, claim and issue preclusion, and alternative dispute resolution. (Examination).

LAW 6213. Civil Procedure II. 2-3 Credits.

The theory and practice of civil litigation. Analysis of the goals, values, costs, and tensions of an evolving adversarial system of adjudication. Examination of the rules and statutes that govern the process by which substantive rights and duties are enforced in our federal and state courts. Topics include the relationship of procedure to substantive law, the proper reach of judicial authority, pleading, motions practice, joinder of parties and claims, class actions, pretrial discovery, trial by jury, remedies, post-trial procedure, appeals, claim and issue preclusion, and alternative dispute resolution. (Examination).

LAW 6214. Constitutional Law I. 3 Credits.

Basic principles of U.S. constitutional law, with a focus on governmental powers and the role of the Supreme Court in interpreting and enforcing constitutional norms. The nature and scope of judicial review. The case and controversy requirement and other limitations on constitutional adjudication. Powers of the president and Congress; the separation of powers doctrine. Relationship of the national government to state governments and principles of federalism. The state action doctrine. (Examination).

LAW 6216. Legal Research and Writing. 2 Credits.

Introduction to use of a law library; research experience in primary, secondary, and specialized sources of law; practice in proper legal citation form. Instruction and practice in legal writing and analysis, with primary emphasis on legal memoranda. This course is graded on a letter-grade basis. Failure to complete the work in this course may result in a grade of F.

LAW 6217. Introduction to Advocacy. 2 Credits.

Instruction and experience in the research and writing of pretrial motions and appellate briefs, with emphasis on preparing and presenting arguments persuasively. Also instruction and practice in preparing and presenting oral arguments. This course is graded on a letter-grade basis. Failure to complete the work for this course may result in a grade of F.

LAW 6218. Professional Responsibility/Ethic. 2,3 Credits.

Ethical problems involved in civil and criminal counseling and litigation. Rules of Professional Conduct and legal discipline; roles of bar associations and courts in regulating lawyer conduct. Credit may not be earned for both Law 6218 and Law 6343. (Examination).

LAW 6230. Evidence. 3,4 Credits.

Policies, principles, standards, and rules governing the trial of civil and criminal cases in federal and state courts. Topics may include relevancy, the hearsay rule, direct and cross examination of witnesses, opinion, scientific evidence, impeachment, privileges, writings, real and demonstrative evidence, judicial notice, confrontation and compulsory process, and burdens of proof and presumptions. (Examination; Pierce—skills).

LAW 6231. Advanced Evidence Seminar. 2 Credits.

Advanced issues of evidence law, including jury decision making, eyewitness identification, predictions of future dangerousness, polygraph evidence, hypnotically refreshed testimony, recovered memory, syndrome and profile evidence, and complex issues of evidentiary privilege. (Research paper).

LAW 6232. Federal Courts. 3-4 Credits.

The relationship of the federal courts to Congress and to the states. Topics may include judicial review; standing and justiciability; congressional power to regulate jurisdiction; legislative courts; federal question, diversity, removal, civil rights, and habeas corpus jurisdiction; state sovereign immunity; Supreme Court appellate jurisdiction; abstention; federalism doctrines; and federal common law. (Examination).

LAW 6234. Conflict of Laws. 3 Credits.

Legal problems arising from occurrences transcending state or national boundaries; jurisdiction; foreign judgments; constitutional influences; theoretical bases of choice of law principles and their application to specific fields, including torts, contracts, property, family law, administration of estates, business associations. (Examination).

LAW 6236. Complex Litigation. 3 Credits.

Analysis and critique of complex civil litigation in the state and federal courts. Examination of complex joinder, the management of factually related claims in multiple venues, modern class-action practice, and current developments in the law of claim and issue preclusion. Other topics covered in some years include judicial supervision of plaintiff and defendant class actions; discovery and judicial control of large cases; the role of juries, magistrates, and masters in complex cases; and problems attending complex remedies such as the use of structural injunctions to reform public schools, hospitals, and prisons. (Examination).

LAW 6238. Remedies. 3 Credits.

The types and forms of relief that judges can award in civil litigation: decisional and statutory damages in contract, quasi contract, and tort, including tort reform and wrongful death; overcoming limitations of actions and releases; injunctions as provisional and final relief; equitable remedies, such as specific performance, rescission, and reformation; relief from fiduciaries; and tracing, constructive trusts, and equitable liens. (Examination).

LAW 6240. Litigation w/ Fed Govt.. 2-3 Credits.

Major substantive aspects of litigation with the federal government. Topics include analysis of statutory schemes that permit and limit judicial remedies against federal agencies and officials; nonstatutory remedies; judicial review; monetary recoveries from the United States; special rules, including those pertaining to discovery and application of equitable principles; and consideration of the continued vitality of federal sovereign immunity. (Take-home examination).

LAW 6246. Appellate Practice. 2 Credits.

This course will: (1) examine the vital role of federal and state appellate courts in our legal system; (2) explore the substantive and procedural elements of appellate litigation; and (3) engage students in the study of appellate practice through assignments involving research, writing, analysis, advocacy, and advice. (Writing assignments and oral argument) (Skills).

LAW 6247. Selected Topics in Civil Procedure. 1-3 Credits.

Selected topics in civil procedure to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take-home examination, research paper, or writing assignments).

LAW 6248. Scientific Evidence Seminar. 2 Credits.

The use of scientific methods and the reliability of scientific principles in litigation. Topics include statistical proof, surveys, and epidemiological principles. Exploration of the admissibility and sufficiency of expert scientific testimony and evidence in light of recent Supreme Court cases, and application of these principles to lower court cases. Prerequisite: Law 6230. (Research paper).

LAW 6249. Civil Procedure Seminar. 2 Credits.

Selected topics in civil procedure to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6250. Corporations. 4 Credits.

Corporate law, with emphasis on operations and financing of corporations. Control of corporations, action by corporate directors, officers, shareholders. Control devices. Directors' and shareholders' duties of care and loyalty, insiders' transactions in shares of the corporation. Derivative suits, kinds of shares, dividends, corporate distributions. (Examination).

LAW 6252. Securities Regulation. 3 Credits.

Survey of federal and state laws governing the offering, distribution, and trading of securities. Focus on federal laws and regulations, in particular the Securities Act of 1933, the Securities Exchange Act of 1934, and the enforcement of these laws by the SEC and private parties. Prerequisite: Law 6250. (Examination or take-home examination at the instructor's discretion) 6254 General introduction to finance theory; problems in the issuance and reacquisition of corporate securities; analysis of various types of securities; problems involved in the use of debt and payment of corporate dividends; and financial analysis of mergers, acquisitions, recapitalizations, dissolutions, and liquidations. Prerequisite: Law 6250. (Examination) 6256 Federal and state regulation of corporate takeover bids and tender offers, including theories of corporate acquisitions, the Williams Act, and regulation of takeover tactics and defenses. Prerequisite: Law 6250. (Examination) 6259 Theoretical and practical perspectives on the venture capital and buyout marketplace. Legal, business, economic, and financial issues that are part of the legal documentation supporting venture capital and buyout transactions. Dynamics of organizing a venture capital or buyout fund; organizing, structuring, financing, managing, and exiting venture capital-backed companies. (Class projects and take-home examination).

LAW 6254. Corporate Finance. 2,3 Credits.**LAW 6256. Takeovers and Tender Offers. 2 Credits.****LAW 6258. Reg-Securities Mkts/Professnls. 2 Credits.****LAW 6259. Venture Capital Law. 2 Credits.****LAW 6260. Reg-MutFunds&InvestAdvisers. 2 Credits.**

Applicability of the Investment Company Act of 1940 to particular business activities that may bring an entity within the statutory definition of investment company; litigation as to fees; policy considerations relating to front-end loads; SEC regulations regarding advertising and promotion; restrictions on activities by affiliates; and current SEC disclosure requirements. Applicability of the Investment Advisers Act of 1940 to activities of individuals and entities; procedures for compliance; First Amendment issues raised by SEC enforcement actions; and civil liability under the antifraud provisions of the securities laws. Recommended: prior or concurrent enrollment in Law 6250 and 6252. (Examination or research paper with permission of the instructor).

LAW 6261. Regulation of Derivatives. 2 Credits.

Laws and regulations affecting derivatives trading, primarily financial futures and options markets. Jurisdiction of the Commodity Futures Trading Commission. Securities and commodities statutes and regulations; registration and regulation of commodity market participants; administrative and injunctive enforcement powers involving violations of the Commodity Exchange Act. Developments in self-regulation, and foreign market access. (Examination).

LAW 6262. Corporation Law Seminar. 2 Credits.

Analysis of the nature and role of the business corporation in the U.S. and transnational political economy; evolution of the corporation and the political economy; impact of technological change; reasons for and consequences of the growth of large corporate enterprises; role of entrepreneurs in the political economy; relationship of corporations to government and other centers of power. (Research paper).

LAW 6263. Selected Topics in Corporate Law. 1-3 Credits.

Selected topics in corporate law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6264. Securities Law Seminar. 2 Credits.

Selected topics in corporate and securities law practice and theory to be announced at the time of registration. Enrollment is limited. Prerequisite: Law 6250. (Research paper).

LAW 6266. Labor Law. 2,3 Credits.

Law governing labor-management relations, organizations and representation of employees, regulation of economic weapons, enforcement of collective bargaining agreements, inter-union and intra-union relations. (Examination).

LAW 6267. Selected Topics in Securities Law. 1-3 Credits.

Selected topics in securities law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6268. Employment Law. 2,3 Credits.

Individual rights and obligations in employment; survey of common law and statutory regulation of the individual employment relationship from its inception to its termination; emphasis on current developments such as wrongful discharge, medical screening, employer-provided health insurance and child care, occupational safety and health, workers' compensation, and retirement issues. (Examination or take-home examination).

LAW 6270. Labor & Emplmnt Abtrtn & Med. 2 Credits.**LAW 6272. Employee Benefit Plans. 2 Credits.**

Pre-ERISA benefit plans, the federal labor law governing those plans, and the conditions which led to the passage of ERISA and its effect on Taft-Hartley plans. Practical realities of collectively bargained benefit plans; preemption of state law and interplay of various federal laws; roles played by union and employer both in the context of individual bargaining of employee benefits and in the context of the employer and the union as trustee of a benefit plan; rights of participants and beneficiaries under the plan and under the collective bargaining agreement; rights and obligations of contributing employers; and termination and withdrawal issues, including plant shutdowns and bankruptcies. (Take-home examination).

LAW 6274. Labor Standards. 2 Credits.**LAW 6276. Labor/Employment Law Seminar. 2 Credits.****LAW 6280. Secured Transactions. 2,3 Credits.**

Introduction to arrangements that improve access to credit for individuals, businesses, and governments. Traditional credit transactions, including signature loans and sales on general credit, loans supported by collateral, secured credit sales and floor plan financing, leases, consignments, and credit card transactions. More complex transactions involving the securitization of mortgages, credit card receivables and automobile paper (structured finance), as well as loans supported by stock, bonds, and deposit accounts. The structure of transactions consistent with Article 8 and 9 of the Uniform Commercial Code and the benefits and risks inherent in these arrangements. (Examination).

LAW 6281. Sec Trans & Comm Paper. 4 Credits.**LAW 6282. Commercial Paper-Payment Systm. 2,3 Credits.**

Classic view of negotiable instruments as codified by Article III of the Uniform Commercial Code. Check collection: the system in theory as expressed in Article IV of the Uniform Commercial Code and the system in practice; Federal Reserve regulations, Clearinghouse agreements, and automation systems. The dual banking system, work of the comptroller general and the Federal Reserve Board. Legal problems concerning interest and the checkless society. (Examination).

LAW 6283. E-Commerce. 2 Credits.

U.S. law affecting electronic commerce. Formation and terms of electronic contracts; voluntary compliance with regulations by e-merchants; mass marketing and consumer protection; payment on the Internet and cybercash; the jurisdiction of private parties to sue and of public authorities to regulate e-merchants; privacy; and intellectual property and taxation issues. (Examination).

LAW 6284. Creditor Rights/Debtor Protect. 3,4 Credits.

Creditors' remedies and debtors' protections under state law: writs of attachment, garnishment and execution, acquisition of liens and forced sales of property, self-help arrangements, and security agreements. Bankruptcy under federal law: who may file, the creation and administration of the bankruptcy estate, powers of the trustee, discharge of debt; rehabilitation plans for individuals under Chapter 13. (Examination).

LAW 6285. Business Bankruptcy & Reorg.. 3 Credits.

Legal and financial aspects of business reorganization under Chapter 11 of the Bankruptcy Code. Topics include, but are not limited to, the rights of secured and unsecured creditors, automatic stay, treatment of executory contracts, avoidance of pre-bankruptcy transactions (e.g., fraudulent conveyances and preferences), alternatives to reorganization, and the financial restructuring of businesses in Chapter 11. Prerequisite: Law 6250. (Examination or take-home examination and writing assignments).

LAW 6286. Consumer Protection Law. 3 Credits.

Common law doctrines and Federal Trade Commission case law and a variety of federal and state statutes and regulations thereunder. Statutes to be considered include Truth in Lending, Fair Credit Billing, Equal Credit Opportunity, Fair Debt Collection Practices, Magnuson-Moss Warranty Acts, Uniform Commercial Code provisions applicable to consumer sales and transactions, unfair trade practice laws, usury laws, and automobile "lemon" laws. Comparison of regulatory and remedial techniques available through case law, general statutory provisions, and specifically targeted technical statutes; public and private enforcement mechanisms, including litigation and alternative dispute resolution. (Examination or research paper with permission of the instructor).

LAW 6288. Commercial Law Seminar. 2 Credits.**LAW 6289. Selected Topics in Banking Law. 1-3 Credits.**

Selected topics in banking law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6290. Banking Law. 2,3 Credits.

Federal regulation of the financial services industry, especially commercial banks. Includes an analysis of the Federal Deposit Insurance Corporation as insurer of deposits, receiver, and liquidator of troubled banks; the role of the Comptroller of the Currency as the primary federal regulator of national banks, including the chartering function, bank examinations, analysis of classified loans, capital adequacy, and enforcement of substantive federal legislation; operation of the Federal Reserve System under the Bank Holding Company Act and the various substantive regulations such as Reg. B (equal credit opportunity), Reg. J (check collection), Reg. M (consumer leasing), Reg. Q (deposit rate regulation), Reg. O (insider loan limits), Reg. E (electronic funds transfer), and Reg. Z (truth in lending); geographic deregulation and the trend toward interstate banking; and an analysis of financial services product deregulation and unification of the industry along functional lines. (Examination; research paper or take-home examination, at the instructor's discretion).

LAW 6291. Money, Banking and Commerce. 2 Credits.**LAW 6292. Banking Law Seminar. 2 Credits.**

Selected topics in banking law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6293. Admiralty. 2-3 Credits.

The maritime law applied in federal and state courts; admiralty jurisdiction and practice; litigation and arbitration; making uniform law by international convention. The U.S. law of seamen, shoreside workers, and personal injury and death in navigable waters; maritime liens and ship mortgages; carriage of goods by water; collisions at sea; salvage, general average, and limiting liability for private damage and environmental harms. (Examination).

LAW 6294. Uninc. Bus. Orgs. & Agency Law. 2-3 Credits.

Nature, formation, financing, operation, and termination of general partnerships, limited partnerships, limited liability partnerships (LLPs), and limited liability companies (LLCs). Major agency law issues, including the nature of an agency relation, fiduciary rights and duties, and the potential contractual and tort liability of principals to third parties for the actions and inactions of their agents and independent contractors. (Examination).

LAW 6295. Sports and the Law. 2,3 Credits.

Survey of sports regulation as it affects amateur and professional athletes. Topics include the NCAA regulatory structure; agent regulation; and legal representation of professional athletes in contract negotiation with sports franchises and in other contexts. (Research paper and class projects or examination).

LAW 6296. Business Planning. 2,3 Credits.

Integrated study of corporate, tax, accounting, and securities law aspects of the following: choice and formation of a closely-held business entity; structure of equity and control of a corporate entity; providing for changes in stock ownership; providing for the mid-life of a corporation, including buy-outs and recapitalizations; and analysis formulation of planning for a corporate acquisition. Analysis of hypothetical problems and practical solutions and insights into the practice of the business lawyer. Prerequisite: Law 6250 and 6300. Law 6302 or equivalent is recommended. Enrollment is limited. (Problem assignments) (Skills).

LAW 6298. Insurance. 2-3 Credits.

General liability, product liability, property, business interruption, fidelity, and coverage of directors and officers. The duty of insurance companies to defend their insureds and to settle cases brought against them. Mass tort liabilities and other severe liability exposure. General principles of law applicable to property-casualty insurance, insurance regulation, insurance bad faith, and reinsurance. (Examination).

LAW 6300. Federal Income Taxation. 3,4 Credits.

Survey of substantive provisions of federal income tax law, including concept of gross income, provisions affecting taxation of family and individual transactions, limitations on allowable deductions, sales and dispositions of property, problems of capital gains taxation, nontaxable exchanges. (Examination).

LAW 6302. Corporate Taxation. 3 Credits.

Continuation of Law 6300. Primary emphasis on corporate-shareholder relationships. Corporate dividends, redemptions of stock, stock dividends, bailouts, and dividends-in-kind. Federal income tax concerns involved in the formation of corporations, the sale of corporate businesses, mergers and acquisitions, and corporate divisions. Prerequisite: Law 6300. (Examination).

LAW 6303. Advanced Corporate Taxation. 2-3 Credits.**LAW 6304. Partnership Taxation. 2,3 Credits.**

Federal income tax consequences of operating businesses taxed as flow-through entities, including partnerships, limited liability companies, and S corporations. Allocation of partnership income and deductions among partners. Issues related to contributions to partnerships, distributions from partnerships, and acquisitions and dispositions of partnership interests. Overview of the taxation of S corporations. Prerequisite: Law 6300. Law 6302 is recommended. (Examination).

LAW 6306. Wealth Transfer Taxation. 2-3 Credits.

Survey of substantive provisions of wealth transfer taxation reflecting the changing climate of federal taxation in the area of estate, gift, and income taxation, including transfers to trusts; individual, joint, and entity ownership of property; the consequences of powers of appointment or retained interest in gifted property; inter-spousal and intrafamily transfers; and the application of credits and deductions to the tax picture. Prerequisite or concurrent registration: Law 6300. (Drafting assignments).

LAW 6307. Pension Law and Taxation. 2 Credits.**LAW 6308. Real Estate & Income Taxation. 2 Credits.****LAW 6310. Natural Resources Taxation. 2 Credits.****LAW 6312. International Taxation I. 2,3 Credits.**

Federal income tax law and policy regarding foreign persons with business and investment activities in the United States ("inbound foreign investment"). Topics include jurisdiction to tax, status as foreign or U.S. taxpayer, source of income and deduction apportionment rules, withholding taxes, tax treaties and anti-treaty-shopping rules, disposition of U.S. real property by foreign taxpayers, branch profits tax, and an introduction to foreign tax credit issues. This course may also cover foreign tax credit issues, anti-income deferral rules, tax havens, and special foreign earned income rules. Prerequisite: Law 6300 or permission of the instructor. (Examination).

LAW 6313. International Taxation II. 2 Credits.**LAW 6314. Nonprofit Org: Law & Taxation. 2 Credits.****LAW 6316. State and Local Taxation. 2-3 Credits.**

Taxation by state and local governments with particular emphasis on constitutional limitations, political and economic influences on policy, and the effects of globalization and technology. Legal and policy issues of sales and use, corporate income, property, and excise taxes. (Take-home examination or research paper with permission of the instructor).

LAW 6317. Selected Topics in Tax Policy. 1-3 Credits.

Selected topics in tax policy to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6318. Tax Policy Seminar. 2 Credits.

Intensive study of selected aspects of the tax structure with primary attention given to the federal income tax. Problem areas are reviewed primarily from the standpoint of tax policy, including legal, economic, social, and practical considerations. Alternative solutions, including current legislative proposals, are examined. Enrollment is limited. Prerequisite: Law 6300. Recommended: Law 6302. (Research paper).

LAW 6330. Modern Real Estate Transaction. 2-3 Credits.

Basic course in conveyancing. Current problems in purchase and sale of residential real estate; legal and equitable rights, responsibilities, liabilities, and remedies of buyer, seller, broker, escrow agent, conveyancing attorney, title examiner, abstractor, and lender; interim and permanent mortgage finance, discounts, points, "subject-to" and "assumptions," remedies on default, including foreclosure processes; process of examination and assurance of title and other interests in realty, including recording and title insurance systems; settlements and closings, warranties of title, encumbrances on title, and clearing of title; emerging problems related to cooperatives, condominiums, and property owners associations. (Examination).

LAW 6332. Land Use Law. 2 Credits.

Problems, solutions, emerging concepts, and constitutionality of land use regulations, including zoning, subdivisions, historic preservation, exactions, vested rights, transfer of development rights, growth management, and urban and regional planning. (Writing assignments and take-home examination).

LAW 6334. Law of Real Estate Financing. 2 Credits.

Types of lenders, choice of entity, construction loans, permanent financing; lenders' obligations, remedies, and liabilities; title insurance, survey, and liens; ground lease and commercial lease/leasehold mortgage; joint ventures; alternate capital formation; opinion letters. (Examination).

LAW 6336. Land Development Law. 4 Credits.**LAW 6338. Housing Law and Policy. 2 Credits.**

Federal, state, and local laws that in effect constitute housing policy in the United States. Judicial interpretation of such laws. The roles the various levels of government play in the housing industry. Political and policy implications of various housing programs and how they affect communities across the country. (Research paper and writing assignments).

LAW 6339. Housing & Commun Develop Law. 2 Credits.**LAW 6340. Property & Real Estate Seminar. 2 Credits.**

Selected topics in property and real estate law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6341. Selected Topics in Property and Real Estate Law. 1-3 Credits.

Selected topics in property and real estate law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6342. Trusts and Estates. 3,4 Credits.

Noncommercial transfers of wealth at death or during life; essential elements and formalities for creation of trusts and execution of wills, revocation and alteration, grounds for contest, limits on property owner's power to control, intestate succession. Credit may not be earned for both Law 6342 and 6343. (Examination and problem assignments or drafting projects).

LAW 6343. Trusts, Estates & Prof. Resp.. 4 Credits.**LAW 6346. Estate Planning. 2,3 Credits.**

Effective acquisition, management, and disposition of wealth by lifetime transactions and testamentary transfer. Emphasis on federal income, estate, gift, and generationskipping transfer taxation. Problem assignments address probate avoidance, interspousal transfers, jointly owned assets, transfers to minors, irrevocable trusts, closely held family and business interests, post-mortem estate planning, retirement planning, and charitable giving. Enrollment is limited. Prerequisite: Law 6342. (Drafting assignments) (Skills).

LAW 6347. Selected Topics in Family Law. 1-3 Credits.

Selected topics in family law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6348. Family Law. 3-4 Credits.

Survey of family law, including statutory law of domestic relations and constitutional restraint on state regulation of the family. Topics include marriage, divorce (including child custody, property division, alimony, and child support), domestic violence, reproductive rights, and family privacy. The course draws on historical and interdisciplinary materials and involves discussion of public policy issues as well as current law. (Examination).

LAW 6349. Child, Family, State. 2,3 Credits.

The allocation of power and responsibility among parent, child, and state. Freedoms under the First Amendment, education, health care including procreation, child abuse and neglect, custody, adoption, and juvenile delinquency. Sociological/psychological perspectives on the parent-child relationship. Enrollment is limited. (Take-home examination).

LAW 6350. Domestic Violence Law. 2,3 Credits.

Historical perspective on legal and public policy approaches to domestic violence; contemporary civil and criminal justice systems approaches to domestic violence; and analysis of relevant federal and state laws. (Research paper).

LAW 6351. Reading Group. 1 Credit.**LAW 6352. Family Law Seminar. 2 Credits.**

Historical and contemporary problems in the theory and practice of family law. Specific topics to be announced. Enrollment is limited. Prerequisite: Law 6348 or 6349. (Examination or research paper with permission of the instructor).

LAW 6353. Elder Law. 2-3 Credits.

Topics may include Medicare and Medicaid, financing health care, and related policy issues; health care decision making, including informed consent and advance health care directives; issues related to the right to die, including euthanasia and doctor-assisted suicide; long-term health care issues, including nursing homes and other alternatives, insurance, monitoring, and quality of services; guardianships and other procedures in the event of age-related disabilities; Social Security and Supplemental Security Income; housing issues, including tax incentives, retirement communities, and continuing care facilities. (Examination).

LAW 6354. Products Liability. 2,3 Credits.

Theory and practice of product liability litigation. Compensatory and punitive damages; competing strategies pursued by plaintiffs and defendants. Affirmative defenses and defense strategies. Failure-to-warn and defective design cases. Discovery techniques. Settlement strategy and mediation of product liability cases. Class actions and multidistrict litigation involving defective products. Differences between U.S. product liability litigation and other countries' systems. (Examination or research paper with permission of the instructor).

LAW 6358. Advanced Torts Seminar. 2 Credits.**LAW 6360. Criminal Procedure. 3,4 Credits.**

Comprehensive presentation of major issues in criminal process, with emphasis on Supreme Court cases interpreting the Constitution. The course proceeds through the criminal justice system, from first police contact, search interrogation, and other investigation, through the prosecution, preliminary proceedings, and trial. Problems of federalism, the exclusionary rule, and sentencing. (Examination).

LAW 6362. Adjudicatory Criminal Procedure. 2,3 Credits.

Constitutional and statutory regulation of the criminal adjudication process. How the Constitution and the Federal Rules of Criminal Procedure govern various stages of the criminal process. Bail and detention pending trial; the prosecutor's decision to charge; grand jury procedures; right to a speedy trial, to a jury trial, other trial rights; discovery; plea bargaining; double jeopardy; sentencing; appeals; and collateral remedies. (Examination).

LAW 6363. Role of the Federal Prosecutor. 2 Credits.

Exploration of the responsibilities and powers of the federal prosecutor. The effect of legal, ethical, policy, and practical considerations on the prosecutor's decision making throughout various stages of the criminal justice system. The potentially competing interests of federal, state, and foreign jurisdictions in investigation and prosecution of criminal activity. Classes are held at the Department of Justice. Enrollment is limited and includes students from other area law schools. (Take-home examination).

LAW 6364. White Collar Crime. 2,3 Credits.

Definition, investigation, prosecution, defense, and punishment of federal white collar crime and the characteristics and issues that distinguish white collar crime from other kinds of criminal activity. Examination of the primary federal white collar offenses, including mail and wire fraud, conspiracy, bribery, perjury, obstruction of justice, money laundering, and RICO. Federal grand jury investigations, corporate criminal liability, plea bargaining and immunity, and sentencing under the federal sentencing guidelines. (Examination).

LAW 6365. Criminal Tax Litigation. 2-4 Credits.

Legal, evidentiary, and procedural challenges presented in the prosecution of criminal tax cases. U.S. Code Title 26, Bank Secrecy Act of 1986, Title III of the USA PATRIOT Act, and selected provisions of the Sarbanes-Oxley Corporate Fraud and Accountability Act of 2002. Practices and procedures of the Internal Revenue Service and the Tax Division of the Department of Justice; the protections of the Fourth and Fifth Amendments; grand jury investigations, motions practice; terrorism financing cases; trials and parallel proceedings; and Federal Sentencing Guidelines. (Examination).

LAW 6366. Law and Criminology. 2 Credits.**LAW 6368. Law of Criminal Corrections. 2 Credits.****LAW 6369. Computer Crimes. 0-3 Credits.**

The legal issues that judges, legislators, and prosecutors confront in response to computer-related crime. How computer crimes challenge traditional approaches to the prohibition, investigation, and prosecution of criminal activity. Topics include computer hacking, computer viruses, Internet gambling, encryption, online undercover operations, the Fourth Amendment in cyberspace, the law of Internet surveillance, laws governing access to e-mail, and federal-state relations and international cooperation in the enforcement of computer crime laws. (Examination).

LAW 6370. Forensic Science. 2 Credits.

Designed to acquaint the student with the operations of a modern crime laboratory and the courtroom acceptability of testimony of forensic scientists and other evidence on laboratory test results. Identification of individuals (fingerprints, palmprints, footprints, voiceprints, anthropological reconstruction, hair identification, and serology), identification of objects (ballistics, handwriting, typewriting, fiber identification, paints, varnishes, glass, wood, and paper), toxicology, pathology, forensic use of the microscope and the camera, the coroner and the medical examiner systems, and drug law enforcement. Crime laboratory guest lecturers. (Examination or research paper with permission of the instructor).

LAW 6372. Drugs and the Law. 2 Credits.

A study of federal and state laws controlling illicit drugs, including the historical evolution of these laws, current offenses and penalties, constitutional limits on the criminal sanction, enforcement practices, and sentencing considerations. Alternative models for controlling drugs, including decriminalization and legalization will also be studied. Several class sessions will be devoted to mock criminal trials at which student conduct direct and cross-examination of guest expert witnesses in the field. Students are graded on the basis of their involvement as advocates in the mock hearings or on the basis of research papers submitted to the instructor on a topic involving drugs and the law. (Skills) or (Research paper).

LAW 6374. Federal Sentencing Seminar. 2 Credits.

Federal sentencing law and policy, with an emphasis on recent Supreme Court decisions. Purposes of punishment, guideline and non-guideline sentencing, judicial and prosecutorial discretion, plea bargaining, constitutional limitations, business crime, white collar versus violent crime, and alternative sanctions. (Research paper).

LAW 6376. Prisoners Project. 1-3 Credits.

Open to second- and third-year students. A clinical project concerned with the legal status of older prisoners (over 55 years of age). The project works for the release of high-cost, low-risk prisoners into stable environments. Students work on either individual cases or research. Case workers interview prisoners to evaluate and prepare cases for pardon, parole, or possible habeas appeals. Research projects will cover subjects ranging from overcrowding to health care to risk assessment. Some legislative work is also possible. Students may enroll concurrently in this course and Law 6633 only with permission of both instructors. This course is graded on a CR/NC basis. (Skills).

LAW 6378. Selected Topics in Criminal Law and Procedure. 1-3 Credits.

Selected topics in criminal law and procedure to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6379. Criminal Law/Procedure Seminar. 2 Credits.

Selected topics in criminal law and procedure to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6380. Constitutional Law II. 3,4 Credits.

Individual rights and liberties in the U.S. constitutional scheme and the different judicial methods of reconciling majoritarian governance with individual freedom. Privileges and immunities of national citizenship, due process of law, equal protection guarantees, freedom of expression and of religion, rights of privacy and association. (Examination or take-home examination at the instructor's discretion).

LAW 6382. First Amendment: Speech and Press Clauses. 3 Credits.

The rights of expression, association, and religious freedom recognized by the First Amendment to the U.S. Constitution. Categories of unprotected expression (e.g., obscenity) and less-protected expression (e.g., commercial speech). Issues of time/place/manner regulation, speech in public for a, regulation of political campaigns. Constitutional burdens and benefits unique to religion. Material includes Supreme Court decisions and secondary literature on these subjects. (Examination).

LAW 6384. Law of Separation of Powers. 3 Credits.

An examination of the law that governs the interrelations of the three branches of the federal government. Topics include the constitutional history of our governmental structure, the immunities of members of Congress and of executive officers, impeachment, congressional power over federal jurisdiction, executive orders and the limits of presidential "lawmaking," presidential and legislative vetoes, executive privilege, executive and congressional oversight of policy through supervision of the bureaucracy, controls on spending including impoundment, limits on presidential discretion to enforce the laws (e.g., special prosecutors), Congress's and the president's roles in foreign affairs (executive agreements, claims settlements, treaty powers), and congressional and presidential war powers. Emphasis will be placed on the role of the lawyer as government adviser, a role performed by many attorneys at all levels of government. (Examination).

LAW 6387. Voting Rights Law. 2 Credits.

Cases and materials on the right to vote in the United States. Major decisions on apportionment, political participation, and race as an issue in representation. Emphasis on the Voting Rights Act of 1965, including minority vote dilution litigation under Section 2, federal review of voting procedures under Section 5, and recent constitutional challenges to voting rights remedies. Other topics include partisan gerrymandering, the initiative and referendum processes, alternative election systems, the changing law of redistricting, the impact of shifts in census policy, and the litigation over the 2000 presidential election. (Examination or take-home examination at the instructor's discretion).

LAW 6388. Civil Rights Legislation. 3 Credits.

Examination of federal legislation protecting individual rights and liberties as well as the administrative and judicial implementation of that legislation. Remedial provisions for the enforcement of federal constitutional and statutory rights (e.g., 42 U.S.C. §§1983, 1985) and federal statutes prohibiting discrimination in housing, contractual relations, voting, education, and federally funded programs. Prerequisite: Law 6380 or 6878. (Examination or take-home examination).

LAW 6389. Higher Education Law. 2 Credits.

LAW 6390. Employment Discrimination Law. 2,3 Credits.

Federal laws and executive orders relating to various types of discrimination in employment, including Title VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, the Equal Pay Act, the Age Discrimination in Employment Act, the Rehabilitation Act, the Americans with Disabilities Act, the Civil Rights Act of 1866, the Fourteenth Amendment, the National Labor Relations Act, and Executive Orders 11,246 and 11,375 relating to government contractors; substantive rights, exemptions, and burdens of proof under the various laws and regulations. (Examination).

LAW 6391. Asian Americans & the Law. 2 Credits.

LAW 6392. Gender Discrimination & Law. 2 Credits.

An examination of the treatment of women in all areas of the law and legal remedies for sex discrimination. Emphasis on constitutional law, family law, and discrimination in employment. Enrollment limited to 30 students. (Examination or research paper).

LAW 6393. First Amendment: Religion Clauses. 3 Credits.

Primary focus on the Religion Clauses of the First Amendment. Individual and institutional claims of religious liberty, including the constitutional status of legislative or judicial accommodations, exemptions for religiously motivated conduct, and the definition of particular acts and institutions as "religious." Government funding of religious institutions and activities, including current controversies about aid to faith-based social welfare providers, indirect funding of religious education, and extraterritorial funding of religious institutions (such as moderate Islamic schools). Government expression or endorsement of religious messages, including religious exercises and instruction in public schools, public displays of religious images, and private religious speech on public property. (Examination or take-home examination).

LAW 6394. Sexuality and the Law. 2,3 Credits.

Examination of the relationship between sexuality and the law, focusing primarily on the treatment of lesbians, gay men, bisexuals, and transgendered persons in the areas of constitutional law, criminal law, and employment law. Topics include how the legal system regulates and affects lesbian, gay, bisexual, and transgender relationships and sexual behaviors; open expressions of lesbian, gay, bisexual, and transgender identity; workplace effects; and issues in public school settings, such as Title IX discrimination, sexual harassment, and free speech. (Examination).

LAW 6395. Constitutional Law/Supreme Crt. 2 Credits.

Analysis of selected cases currently pending before the Supreme Court. Students read briefs and related materials (such as lower court decisions and controlling cases) in cases scheduled for oral argument, discuss the cases in class, vote on how they would decide the cases, and then draft opinions for class circulation and review. Each student will be required to draft two lengthy majority opinions, a concurrence, and a dissent. The course will also focus on how the Supreme Court works both as an institutional and practical matter. (Writing assignments).

LAW 6397. Federal Indian Law. 2 Credits.

Basic legal principles that govern the relationship between American Indian tribes, the federal government, and the state governments. Focus on jurisdictional disputes between those governments, the source and scope of Indian sovereignty, and recognition and enforcement of Indian land and treaty rights. (Take-home examination or research paper with permission of the instructor).

LAW 6398. The Law of Democracy. 3 Credits.

Consideration of the law that governs electoral processes. Topics include constitutional and statutory protection of voting rights, the legal status of political parties, the relationship between race and representation, judicial control of legislative apportionment and elections, and regulation of campaign finance. Credit may not be earned for both Law 6398 and either Law 6387 or Law 6419. (Examination).

LAW 6399. Constitutional Law Seminar. 2 Credits.

Selected topics in constitutional law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6400. Administrative Law. 3 Credits.

Study of the administrative processes of government in executive and independent agencies. The federal Administrative Procedure Act is emphasized, with particular attention to adjudication, rulemaking, judicial review, investigatory powers, and enforcement. Study may include comparative state administrative law. Constitutional topics include separation of powers and due process. (Examination).

LAW 6401. Selected Topics in Constitutional Law. 1-3 Credits.

Selected topics in constitutional law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6402. Antitrust Law. 3 Credits.

Federal antitrust law and policy under the Sherman, Clayton, and FTC Acts; basic economic theory of free-market operation; the Rule of Reason and per se offenses; price fixing, market division, and boycotts; trade association activities; monopolization and attempts to monopolize; mergers and joint ventures; resale price maintenance and other vertical restraints; exclusive dealing and tie-in agreements; selected exemptions from antitrust liability. (Examination).

LAW 6403. Advanced Antitrust Law Seminar. 2 Credits.

Procedural and substantive overview of merger enforcement and analysis. Enforcement by federal authorities in the United States and merger procedures and standards in other jurisdictions, including the European Union. Appropriate welfare standard for merger analysis; the role of various types of evidence in examining mergers, including econometric and customer evidences; biases inherent in the institutional design of federal merger review; remedies; the effect of overlapping merger reviews by antitrust and industry-specific regulatory agencies; and comparisons of the U.S. merger review system with those used elsewhere. Prerequisite: Law 6402 or permission of the instructor. (Research paper).

LAW 6404. Regulatory Theory and Policy. 2 Credits.**LAW 6405. Selected Topics in Advanced Antitrust Law. 1-3 Credits.**

Selected topics in advanced antitrust law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6406. Regulated Industries. 2,3 Credits.**LAW 6408. Food and Drug Law. 2 Credits.**

Regulation of foods, drugs, and medical devices under the federal Food, Drug, and Cosmetic Act. Historical development of the law and how it is interpreted and enforced by the Food and Drug Administration and the courts. Statutory interpretation, administrative law, judicial enforcement, and the underlying roles of politics and science. (Examination).

LAW 6409. Selected Topics in Health Care Law. 1-3 Credits.

Selected topics in health care law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6410. Health Care Law. 4 Credits.

Survey of the history, structure, and operation of the health care delivery system and related legal and policy issues. Emphasis on public and private health care financing, antitrust, fraud and abuse, managed care, tort liability of medical professionals and institutions, tort reform, and definition and regulation of the quality of health care. Concepts and terms of health care delivery, particularly the design, finance, and administration of current and proposed arrangements. (Take-home examination).

LAW 6411. Health Care Law Seminar. 2 Credits.

Intensive study of the health care industry, focusing on one or more of the following topics: liability arising out of managed care, ERISA preemption of state health laws, and various federal antitrust statutes as they pertain to health care. (Research paper).

LAW 6412. Communications Law. 2,3 Credits.

Study of the text, historical origin, and theoretical foundation of the Press Clause and of the role played by the mass media in modern society. Examination of the common law and constitutional protection accorded mass media publishing in areas such as libel law, the law of privacy, and liability for physical, emotional, or economic harm. The legal status of newsgathering, including journalist's privilege and access to information possessed by government. Problems of reconciling freedom of the press with guarantee of a fair trial. Government regulation of commercial speech, including advertising and promotion. Prior or concurrent enrollment in Law 6380 is recommended. (Examination).

LAW 6413. Federal Comm. Law Journal. 1,2 Credit.

Limited to third-year members of the student staff of the Federal Communications Law Journal. Second-year students must have enrolled in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive credit for this course.

LAW 6414. Developmnt in Telecomm Law. 2 Credits.

Legal and regulatory treatment of communications services and service providers, including telephone companies, cable operators, broadcast stations, wireless carriers, satellite providers, and new IP-based and next-generation networks. Regulatory challenges created by the delivery of content and services over multiple platforms employing different technologies. Rules, policies, and processes of the Federal Communications Commission and the statutory and judicial constraints on the FCC's authority to regulate existing and developing business models. (Take-home examination).

LAW 6416. Legislation. 2,3 Credits.

Legislative process and the construction and legal effect of statutes. Topics that may be considered include representational structures, lobbying, judicial review, direct democracy, legislative fact-finding and drafting, and the preparation and significance of legislative history. This course is a prerequisite to several advanced public law courses. (Examination).

LAW 6418. Legislative Analysis/Drafting. 2 Credits.

Instruction in the basic skills necessary for translating the specifications of the policymaker into legislation. Topics include determining policy objectives and an appropriate legislative scheme for their achievement; an overview of the legislative process; typical provisions in legislation; organizational issues in drafting; and the structural component of legislation. Enrollment is limited. (Take-home examination and drafting assignments) (Skills).

LAW 6419. Campaign Finance Law. 2-3 Credits.

The history, structure, application, and constitutionality of campaign finance laws. Topics include disclosure, regulation of corporations and unions, contribution limits, the role of issue advocacy in election campaigns, political party activities, public funding of campaigns, the role of the FEC, criminal enforcement of finance laws, and campaign finance reform. Focus on the Federal Election Campaign Act of 1971 and the Bipartisan Campaign Reform Act of 2002. (Take-home examination or research paper with permission of the instructor).

LAW 6420. Congressional Investigtñ Smnr. 2 Credits.

Congressional powers to conduct oversight and investigations of the executive branch. Topics include the scope of Congressional inquiries and investigations; subpoena, grant-of-immunity, hearing, and rule-making powers; the use of select committees, the Government Accounting Office, and other special investigative techniques; pre-hearing depositions; the rights and preparations of witnesses; the role of the press; and the interaction between Congress and prosecutorial functions, including investigations conducted pursuant to the Independent Counsel Statute. (Writing assignments).

LAW 6421. Lawyers,Lobbying, and the Law. 2 Credits.

The role of the lawyer in business-government relations. Topics include an overview of government policymaking processes; how lawyers participate in influencing government decisions; the various types of lobbying (grassroots, direct, etc.); ethics and lobbying; lobbying regulatory agencies; and attorney-media relations. (Examination).

LAW 6422. Local Government Law. 2 Credits.

Survey of the legal authority of city, county, and special-district local government units. Topics include the relationship of municipal governments with state and federal agencies; recent U.S. Supreme Court decisions affecting local governments; organizational structure and internal decision-making processes in metropolitan and other municipal-level governments; procedures for changing the form and function of local governments (e.g., annexation); local legislative and administrative authority and processes (e.g., municipal police powers); municipal finance; responsibility in tort and insurance issues; community and regional land use planning; and joint power agreements and intergovernmental compacts. (Research paper).

LAW 6423. Veterans Law. 2 Credits.

Because of its isolation from judicial review for more than 20 years, the uniquely proclaiamt veterans benefits system has procedures with no direct analogies to other legal areas and has different approaches to familiar legal issues. The history and politics of veterans benefits. The system's ideals and the burden of processing more than one million claims per year. (Take-home examination).

LAW 6424. Animal Law Seminar. 2 Credits.

Survey of the treatment of animals in state, federal, and international law. Topics include the historical status of animals; federal statutes such as the Animal Welfare Act, the Endangered Species Act, and the Marine Mammal Protection Act; international conventions, free trade, and comparative animal protection laws; state laws concerning animal cruelty, hunting, animal fighting, and performing animals; free speech, religion, and other constitutional issues; litigation in state and federal courts; citizen initiatives and referenda; and the movement to obtain legal recognition of the rights of animals. (Research paper).

LAW 6426. Public Law Seminar. 2,3 Credits.

Selected topics in public law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6427. Selected Topics in Public Law. 1-3 Credits.

Selected topics in public law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6430. Environmental Law. 2,3 Credits.

Philosophical foundations, common law roots, and constitutional framework of U.S. environmental law. Major statutes dealing with endangered species, clean air, clean water, environmental impact assessment, and hazardous waste cleanup. Statutory objectives and regulatory strategies of these efforts and their relative effectiveness. Decision making in the face of scientific uncertainty, the role of cost-benefit analysis, and the relative distribution of environmental burdens and pursuit of environmental justice. Alternatives to conventional regulatory approaches. Not for credit toward an LL.M. in environmental law. (Examination or take-home examination).

LAW 6431. Wildlife and Ecosystems Law. 2-3 Credits.

In-depth study of the complex body of laws that protect or regulate wildlife, including laws that protect ecosystems and the habitats in which wild animals live. The course addresses more than two dozen wildlife-specific federal laws and their accompanying regulations, similarly intricate state law schemes, federal and state civil and criminal enforcement, constitutional and tribal issues that arise in wildlife cases, and a vivid common law history that stretches across several centuries. (Examination).

LAW 6432. Air Pollution Control. 2,3 Credits.

An in-depth analysis of the Clean Air Act. Topics include the history of air pollution control, air quality planning, standard setting, technology-based controls, incineration, indoor air pollution, permitting, and control of electrical utilities. (Examination or takehome examination).

LAW 6433. Environmental Law Enforcement. 2,3 Credits.**LAW 6434. Water Pollution Control. 2 Credits.**

Introduction to water pollution control and the Clean Water Act, with emphasis on water quality requirements and policies affecting industrial, municipal, and agricultural/ development interests. Related federal laws and policies involving wetlands, watersheds, coastal pollution, oil spills, groundwater, and safe drinking water. (Examination).

LAW 6435. Trade&SustainableDevelpmnt Law. 2 Credits.

Overview of the major environmental treaties and other legal and institutional frameworks at the intersection of international trade issues and sustainable development efforts. Examination of the frequently conflicting views of judicial and quasi-judicial bodies, policymakers, and issue advocates. Emphasis on developing the theoretical bases and practical skills to address issues of trade and sustainable development that arise in governmental, private sector, and NGO practice, and effective legal strategies for addressing those issues on behalf of a wide range of clients. (Research paper).

LAW 6436. Water Resources Law. 2 Credits.**LAW 6437. Coastal,Navigatn,Wetlands Resr. 2 Credits.**

Federal statutory and constitutional law governing the development, regulation, and protection of the waters of the United States, including wetlands. Focus on federal and state regulation and protection of wetlands and other aquatic resources, with special emphasis on Clean Water Act Section 404. Other topics include the evolution of federal authority over the navigable waters of the United States; legal issues involved in the planning, construction, and operation of federal water resource development projects by federal and state agencies (i.e., for navigation, flood control, hydropower, water supply, etc.); the federal navigation servitude; the Coastal Zone Management Act; the Marine Protection, Research, and Sanctuaries Act (i.e., the "Ocean Dumping Act"); the London Dumping Convention; and Fifth Amendment "regulatory takings." (Examination).

LAW 6438. Energy Law and Regulation. 2-3 Credits.

Survey of the law and regulation of energy production, distribution, and use. Topics include fuel production, electricity and natural gas utility regulation, nuclear and hydroelectric facility regulation, renewable energy, energy efficiency, and energy tax policy and financial incentives. Legislation and regulations developed in response to climate change concerns. (Examination, take-home examination, or writing assignments and class participation).

LAW 6439. Environmental Issues/EnergyLaw. 2 Credits.

Legal and policy issues at the intersection of energy and environmental law. Petroleum consumption, energy efficiency, clean air, renewable energy, nuclear energy, facility siting, and project finance. (Class presentation and research paper).

LAW 6440. Natural Resources Law. 2-3 Credits.

Introduction to federal public lands (BLM lands, national forests, national parks, and national wildlife refuges) and the legal issues related to their multiple resource uses— forestry, mining, water, recreation, wildlife, endangered species, and wilderness. Principles of federal and state authority over these lands. Administrative law and practice governing land-management agency decision making and litigation challenging such decisions. Focus on topical case studies, statutory materials, and case law. (Take-home examination).

LAW 6441. Energy Law Seminar. 2 Credits.

Selected topics in energy law to be announced at the time of registration. May be repeated for credit provided the topic differs. Enrollment is limited. (Research paper).

LAW 6442. Control-Solid/Hazardous Waste. 2,3 Credits.

Principal federal statutes governing the management and cleanup of hazardous substances and waste. Site and remedy selection processes, liability regime, and government and private enforcement rights under the Superfund statute. Rules for identifying industrial and commercial waste as hazardous; treatment, storage, and disposal standards; regulation of recycling; and operation of underground storage tanks. (Take-home examination).

LAW 6443. Oil and Gas Law. 2 Credits.**LAW 6444. Regulatn/ToxicSubstancesRisk. 2-3 Credits.**

Government regulation of the production and use of toxic substances and the management of hazardous waste. The basic analytical processes of risk assessment and risk management; common law approaches to reducing risks from management of toxic substances; and precautionary legislation. Emphasis on federal legislation, including the Toxic Substances Control Act; the Federal Insecticide, Fungicide, and Rodenticide Act; the Safe Drinking Water Act; provisions of the Federal Food, Drug, and Cosmetic Act; the Resource Conservation and Recovery Act; and selected aspects of the Comprehensive Environmental Response, Compensation, and Liability Act. (Take-home examination).

LAW 6446. Nuclear Energy Law. 2 Credits.**LAW 6448. Occupational Health/Safety Leg. 2 Credits.****LAW 6449. Environmental & Toxic Torts. 2 Credits.**

The use of common law and statutory remedies to compensate those experiencing personal injuries or economic harm caused by exposure to toxic products or toxins in the environment. Topics covered include novel and emerging theories of recovery (e.g., medical monitoring), class actions/mass torts, preemption, and methods of proving scientific causation. (Research paper or take-home examination).

LAW 6450. Federal Facilities Environ Law. 2 Credits.

Analysis of the legal framework governing environmental law compliance at federal facilities. Review of a wide range of environmental, fiscal, and other laws that uniquely regulate federal installations and operations. Topics include the National Environmental Policy Act, statutes governing management and conservation of federal property, expenditure of federal funds, public involvement in federal environmental decision making, federal-state sovereignty issues, federal agency litigation, and professional responsibility issues. Prerequisite or concurrent enrollment: Law 6432, 6434, and 6442. (Problem assignments).

LAW 6452. Environmental Issues-Bus Trans. 2,3 Credits.

Focus on applied environmental law. Emphasis on environmental compliance counseling, identifying environmental issues in business and real estate transactions, and drafting techniques to avoid environmental problems. Topics include environmental audits, securities disclosure issues, green advertising, criminal liability for officers, environmental liability for purchase of stock and corporate assets, lender liability, and partnership liability. Prerequisite: any environmental law course. (Take-home examination).

LAW 6454. International Environmentl Law. 2-3 Credits.

The treaty negotiation process, role of international institutions in developing and implementing environmental agreements, relationship between environmental law and international issues, developing countries' perspectives on environmental issues, and social and cultural changes that affect the implementation of environmental law. Issues covered include climate change, export of hazardous waste, deforestation and biodiversity, Antarctica, and environmental concerns in war, human rights, and development financing. (Examination).

LAW 6455. Int'l Climate Change Law. 2-3 Credits.

Analysis of the legal regimes created by the United Nations Framework Convention on Climate Change (UNFCCC) and by the Kyoto Protocol. Carbon finance and trading mechanisms created by Kyoto and national and regional schemes to assist parties to the treaty in meeting their obligations. Forest carbon sequestration schemes, structure and legal aspects of carbon finance transactions, and the drafting of carbon agreements. Proposals for federal legislation and emerging state and voluntary carbon credit schemes in the United States. Potential conflicts with WTO law and proposals for a successor regime to Kyoto post-2012. (Take-home examination).

LAW 6456. Environmental Planning. 2 Credits.**LAW 6457. Sustainable Communities Law and Policy Seminar. 2 Credits.**

Focus on the emerging field of smart growth—regional development that takes into account economic, environmental, and social considerations. Factors influencing sprawl; urban trends in the U.S. and abroad; and new legal and interdisciplinary approaches to promote comprehensive planning, urban redevelopment, and regional competitiveness. (Research paper).

LAW 6458. Enviro Negot & Dispute Resol. 2 Credits.

Negotiation and alternative dispute resolution theories and processes, focusing on complex environmental disputes and transactions involving multiple parties and scientific or technical issues. Students participate in negotiation and mediation exercises both in and outside of class, using diagnostic and other tools useful for pre-negotiation preparation, mid-negotiation analysis, and post-negotiation evaluation of proposed agreements or deadlock. Prerequisite: completion of at least 6 credits of environmental law courses or permission of the instructor. Credit may not be earned for both Law 6458 and 6648. (Simulation and short papers)(Skills).

LAW 6459. Atomic Energy Law. 2 Credits.

The evolution of the Atomic Energy Act, the regulatory structure for non-military nuclear materials, federal and state law related to nuclear waste; waste transportation; the contrasting stories of two deep geologic permanent waste repositories (Waste Isolation Pilot Plant [WIPP] and Yucca Mountain); the dilemma posed by nuclear wastes having no disposal pathway; the law and policies to avert nuclear terrorism; and compensation when the unexpected happens. (Class presentation and research paper).

LAW 6460. Envir&Energy Policy Practicum. 2 Credits.

Students conduct in-depth law and policy development work on behalf of environmental or energy nonprofit organizations or government agencies, working closely with the client organization or agency to research one, or perhaps two substantial policy issues during the semester. The research is expected to lead to rule comments, a white paper, policy recommendations, draft legislation, revised organization procedures, or other similar policy outcomes. Students regularly meet with faculty supervisors to discuss project developments. Corequisite: Law 6469. Students are evaluated with a letter grade based on the written work product for the client organization or agency. Enrollment is limited. (Skills).

LAW 6461. Selected Topics in Environmental Law. 1-3 Credits.

Selected topics in environmental law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6462. Law,Science,Technology Seminar. 2 Credits.**LAW 6463. Intl Environmental Compliance. 2 Credits.****LAW 6464. Environmental Crimes. 2 Credits.**

Focus on crimes under various federal environmental statutes, including the interplay of statutory and regulatory provisions that define such crimes, development of investigations and prosecutions, the rationale for criminal sanctions for certain environmental violations, and salient policies and issues associated with environmental crimes. Prior experience with environmental law from either an academic or practical perspective is recommended. (Examination).

LAW 6465. Environmental Crimes Project. 1,2 Credit.

Focus on litigation and legislative projects relating to environmental crime. Students work on federal or state legislation to enhance both the existing environmental criminal laws and the resources available for their enforcement. Students also work with the instructor on developing environmental criminal cases around the country. Prerequisite: Law 6430. The instructor's approval is required for enrollment. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. This course is graded on a CR/NC basis. (Writing and project assignments) (Skills).

LAW 6466. Environmental Law Seminar. 2 Credits.

Selected topics in environmental law to be announced at the time of registration. May be repeated for credit provided the topic differs. Enrollment is limited. (Research paper).

LAW 6467. Environmental Legislation Proj. 1-4 Credits.

Open to second-, third-, and fourth-year students with permission of the instructor. Legislative research and drafting projects related to environmental issues. Students work under supervision of the instructor in conjunction with federal and state legislators and committees to draft specific bills or background papers for congressional committees or state bodies. Enrollment is limited. The grade of H, P, LP, or NC is given for this course. Prerequisite or concurrent registration: Law 6430. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6468. Graduate Enviromental Placemnt. 1-4 Credits.

The student works on a project in the environmental law field under the supervision of both the faculty director of the program and a lawyer practicing environmental law. The project may involve working with a government agency, a congressional committee, a private practitioner, or a nonprofit public-interest environmental organization. Admission to the course is limited to LL.M. students with permission of the environmental law program director. Students may earn no more than a total of 4 credit hours for this course. This course is graded on a CR/NC basis. Five hours of work per week are required for each credit.

LAW 6469. Environmental Lawyering. 1,2 Credit.

The role of the lawyer in representing government agencies and nonprofit organizations in the fields of environmental and energy law, with specific emphasis on public policy formation and interactions with regulated entities and the public. Environmental regulation, advanced environmental legal research, ethical concerns related to the practice of public interest law, client counseling and negotiations skills, the art of commenting on regulations and legislative drafting, the role of state and local governments in environmental protection, and the basics of environmental transactions. This course is corequisite for students enrolled in Law 6668 who have an environmental placement, as determined by the assistant dean for field placement; it is also corequisite for students enrolled in 6460. (Writing assignments).

LAW 6470. Intellectual Property. 3 Credits.

Survey of the different legal mechanisms for protecting intellectual property, including patent, trademark, copyright, and related state-law doctrines. This course is intended for students who desire a general exposure to intellectual property law but who do not plan to specialize in the field; taking this course as a foundation for more specific intellectual property courses is not recommended. Credit may not be earned for both Law 6470 and 6472 if 6472 is taken with Schechter. Not for credit toward an LL.M. in intellectual property law. (Examination).

LAW 6471. Patent Law. 2,3 Credits.

An overview of patent law designed for students without a patent background, including those without a technical background. Analysis of the goals and costs of the patent law system. Topics include patentability requirements, infringement, remedies, patent prosecution issues, and patent transactions. (Examination).

LAW 6472. Copyright Law. 2,3 Credits.

Historical background and general survey; how copyright is secured and maintained; subject matter of copyright; scope of protection; duration, renewal, and termination of transfers; jurisdiction and remedies; contracts and combinations, including compulsory licenses and performing rights societies; other doctrines neighboring on copyright; international aspects of copyright, including the Berne convention and other treaties on copyright and related subjects. Credit may not be earned for both Law 6472 and 6470 if 6472 is taken with Schechter. (Examination).

LAW 6473. International Copyright Law. 1-2 Credits.

Survey of the international law of copyright, including the application of key international law principles such as territoriality, national treatment and reciprocity, jurisdiction, and choice of law in copyright case law. International instruments for the protection of copyright and related rights; special problems such as P2P file sharing and technological protection measures; multilateral and bilateral enforcement issues; and unilateral approaches to combating piracy. Credit may not be earned for both Law 6473 and 6491. (Examination).

LAW 6474. Trademark & Unfair Compet Law. 2-3 Credits.

Consideration of how trademark rights are acquired at common law and under the Lanham Act; permissible and impermissible types of marks and the problem of "genericness"; protection of trade dress; trademark infringement and dilution; permissible uses of other firms' marks; trademark licensing and remedies; the right of publicity; and competitor and consumer remedies for false advertising under the Lanham Act and state statutes. When offered for 3 credits the course also addresses interference with contractual relationships and prospective economic advantage; the misappropriation doctrine; theft of business ideas and trade secrets; and prohibitions against unfair and deceptive practices under the Federal Trade Commission Act. (Examination or take-home examination).

LAW 6475. Entertainment Law. 2 Credits.

Overview of legal problems in film, theater, television, music, and publishing industries. Topics include the role of agents and managers, contractual provisions in different entertainment industries, protection for ideas and stories, right of publicity, and advanced copyright issues. Prerequisite: Law 6472 or permission of the instructor. (Examination and negotiation and drafting exercises).

LAW 6476. Patent Strategies and Practice. 2 Credits.

Patent practice and issues, with emphasis on strategic considerations. Focus on claim craftsmanship and consequences. Prerequisite: Law 6471 or permission of the instructor. (Examination).

LAW 6477. The Federal Circuit. 1-2 Credits.

The unique role of the U.S. Court of Appeals for the Federal Circuit as the only national court of appeals organized on the basis of subject matter rather than geography. Topics include the creation of the Federal Circuit and an overview of its varied jurisdictions (e.g., government contracts, constitutional takings, and international trade). Emphasis on the contributions of the Federal Circuit to patent law, and in particular its administration of eligibility, bars, "nonobviousness," equivalents, and other modern patent law problems. Comparative study of the patent jurisprudence of the Federal Circuit and other nations' courts. (Examination).

LAW 6478. Licensing-Intell Property Rght. 2 Credits.

Legal and business issues in the licensing of patents and other forms of intellectual property. Drafting of license agreements and the relationship between licensing of intellectual property and competition laws, including comparative regulations in Europe and Asia. License agreements involving governments and universities; tax and bankruptcy considerations; and multimedia licensing. (Examination and drafting exercises) (Skills).

LAW 6479. Intellectual Asset Management. 2 Credits.

Theoretical and practical aspects of managing such assets as intellectual property, technologies, knowledge, and human capital within business, economic, financial, and legal contexts. Intellectual assets recognized under domestic and international intellectual property and business laws; the limits of protection; claims for relief; the extent of damages that may be recovered; and identification, optimization, and strategic deployment of such assets within enterprises of varying sizes and in a variety of industries. Prerequisite: Law 6470, 6471, 6472, or 6474 or permission of the instructors. (Take-home examination).

LAW 6480. Chemical/Biotech Patent Law. 2 Credits.

Public policy and practice considerations relating to patenting biotechnology and chemical inventions with in-depth treatment of unique practice areas. Open to LL.M. students; J.D. students may enroll only with permission of the instructor. (Examination).

LAW 6481. Design Law. 2 Credits.**LAW 6482. Patent Enforcement. 1,2 Credit.**

Patent litigation for those who may wish to specialize in general litigation with occasional handling of patent cases, as well as for those interested in a patent solicitation career. Focuses on a rounded understanding of policy and practice considerations in the enforcement of patents. (Examination or take-home examination at the instructor's discretion).

LAW 6483. Patent Appellate Practice. 2 Credits.

Comprehensive study of the Court of Appeals for the Federal Circuit and its jurisdiction over patent cases from the perspective of an appellate practitioner. Litigation strategies and the process of guiding a client through an appeal. (Examination).

LAW 6484. Computer Law. 2 Credits.

Intellectual property rights in computer software and in cyberspace. Public policy issues relating to software and computer-related inventions and works; patent vs. copyright vs. sui generis protection debate. Patent or copyright background and some knowledge of computer technology is helpful. In even-numbered years focus is on copyright; in odd-numbered years focus is on patents. Open to LL.M. students; J.D. students may enroll only with permission of the instructor. (Research paper).

LAW 6485. Law in Cyberspace. 2-3 Credits.

Survey of theoretical and practical aspects of legal issues concerning cyberspace, including First Amendment free speech rights, commerce, computer crime, privacy, political participation, and jurisdiction. Computer background is not a prerequisite. (Examination).

LAW 6486. Information Privacy Law. 3 Credits.

Information privacy law, including the development of constitutional, tort, contract, property, and statutory law to address emerging threats to privacy. Privacy and the media, privacy and law enforcement, workplace privacy, privacy and online transactions, medical and genetic privacy, and privacy and personal records and information. (Examination).

LAW 6488. Art Cultural Heritage & the Law. 2 Credits.

Legal and policy implications at the intersection of art and the law, including intellectual property, First Amendment, and international law issues. Legal relationships between artists, dealers, auction houses, collectors, and museums. The international framework for the trade and protection of cultural property and heritage. Prior course work in intellectual property law and international law is recommended. (Research paper).

LAW 6489. Enforcement of IP Rights/ITC. 2 Credits.

In-depth examination of the U.S. International Trade Commission (ITC). The full scope of the ITC's unique jurisdiction, with primary focus on its role with respect to the adjudication and enforcement of intellectual property rights. The enactment of Section 337 of the Tariff Act of 1930 and important amendments that enable the ITC's authority over unfair trade practices relating to intellectual property matters, including patents, copyrights, trademarks, trade dress, gray market, and trade secrets. Organization of the ITC, including its commissioners, administrative law judges, and the Office of Unfair Import Investigations. All aspects of litigation, from the institution of an investigation under Section 337 to post-hearing phases. The unique requirements in Section 337 cases of importation, domestic industry, and injury. The scope of available remedies in Section 337 cases, the role of U.S. Customs in enforcing ITC exclusion orders, and review of ITC decisions and the Federal Circuit's jurisprudence relating to ITC matters. (Examination).

LAW 6490. Intrntl/Comparative Patent Law. 2 Credits.

A study of patent reform issues including domestic patent reform legislation and ongoing harmonization treaty discussions under WIPO; review of selected topics with comparative study from viewpoint of Japan, the United States, and Europe. (Research paper).

LAW 6491. Int'l Intellectual Property. 3 Credits.

Examination of international protection of intellectual property, surveying various international agreements and treaties for copyrights, patents, trademarks, and trade secrets, with focus on the agreement on Trade Related Aspects of Intellectual Property (TRIPs) of the World Trade Organization. Consideration of the basic concept of territoriality, national treatment, minimum standards, and political and policy concerns related to efforts to secure and strengthen protection of intellectual property internationally. Credit may not be earned for both Law 6491 and Law 6473. (Examination).

LAW 6492. Advanced Trademark Law. 2 Credits.

In-depth analysis of developing issues in trademark and unfair competition law, including legal, economic, and moral rationales for protection of trademarks, trade dress, domain names, celebrity persona, and related intellectual property rights; the nebulous concept of trademark dilution; tensions among trademark protection on the one hand and parody, fair use, and free speech on the other; the trademark functionality doctrine; regulation of comparative, misleading, and deceptive advertising; trademark and advertising surveys; the international dispute resolution system for challenges to domain name registrations; use and abuse of trademarks on the Internet; and trademarks in international trade, including the extraterritorial effect of U.S. trademark law, protection of well-known marks not used in the United States, restrictions on parallel imports, and use of geographic trademarks and indications. In-class practical exercises include challenging domain names using the Uniform Domain Name Dispute Resolution Policy, reviewing a mock website for a new consumer product; and seeking provisional relief based on consumer perception surveys in a trade dress litigation. (Take-home examination or research paper with permission of the instructor).

LAW 6493. Internet Law. 0-2 Credits.

Focus on speech on the Internet, including governmental attempts to control or filter speech, intermediary liability for third-party speech, digital rights management and other copyright issues, and domain names as speech. The rules and institutions that permit or disallow governance of these issues. GW degree candidates may not receive credit for both Law 6493 and 6485. (Examination).

LAW 6494. Intellectual Property Antitrust. 2 Credits.

Domestic and international concerns relating to antitrust and fair trade, with emphasis on U.S., European, and Japanese models. Consideration of basic intellectual property principles in patents, trademarks, and copyrights necessary for application of antitrust principles. Advanced understanding of antitrust law is a prerequisite unless waived by the instructor. Enrollment is limited. Prerequisite: Law 6402 or permission of the instructor. (Research paper).

LAW 6496. Intellectual Property Law Sem. 0-2 Credits.

Selected topics in intellectual property law to be announced at the time of registration. Open to LL.M. students; J.D. students may enroll only with permission of the instructor. (Research paper).

LAW 6497. Selected Topics in Intellectual Property Law. 1-3 Credits.

Selected topics in intellectual property law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take-home examination, research paper, or writing assignments) Prerequisites: Law 6471.

LAW 6498. Intell Property Issues Shrt Sm. 1 Credit.**LAW 6500. Government Contracts. 3 Credits.**

Survey of the basic principles of government procurement, including the powers and limitations on government instrumentalities entering into contracts, the respective roles of the three branches of government in the process, the processes of contract formation and administration, the resolution of disputes arising out of both processes, and the various forums available for dispute resolution. Although the focus of this course is primarily on federal government procurement, there will be some consideration of state and local government contracting and may be some coverage of procurement by other nations or inter-national organizations. This course covers some of the material covered in Law 6502 and 6503, but at an introductory level. Not open to students in the LL.M. program in government procurement law. (Examination and problem assignments).

LAW 6501. MSGC Capstone Research and Writing Project. 3 Credits.

Research and writing project under the supervision of the government procurement law faculty. Integration and demonstration of cumulative learning experiences in the Master of Science in Government Contracts program offered by the GW School of Business. Taken in the student's final semester in the program and in conjunction with LAW 6504. (Research paper) Restricted to Master of Science in Government Contracts (MSGC) students in the GW School of Business.

LAW 6502. Formation-Government Contracts. 3-4 Credits.

Survey of the law pertaining to government procurement, including an analysis of the unique features of government contracting and a discussion of the functions of Congress, the executive branch, and the courts in the procurement process. The course focuses on the contract formation process, including techniques for awarding contracts and litigation and protests involving awards. (Examination and problem assignments).

LAW 6503. Selected Topics in Government Contracts. 1-3 Credits.

Selected topics in government contracts to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6504. MSGC Capstone Scholarly Writing. 1 Credit.

Topic selection, specialized research, and the process of organizing and writing for students in the Master of Science in Government Contracts program offered by the GW School of Business. Taken in the student's final semester in the program and in conjunction with LAW 6501. Restricted to Master of Science in Government Contracts students in the GW School of Business.

LAW 6505. Government Contracts Advocacy. 2-3 Credits.

Categories of federal government contract litigation, including bid protests, contract claims, qui tam suits, and administrative suspension and debarment proceedings. Substantive and procedural problems and emerging legal and policy issues involving the Government Accountability Office, the U.S. Court of Federal Claims, and the agency boards of contracts appeals. Students draft pleadings and briefs and participate in simulations, including depositions and settlement negotiations. Enrollment is limited. (Writing assignments) (Skills).

LAW 6506. Govt Contracts Cost & Pricing. 2 Credits.

Legal aspects of government contract accounting principles and allowability of costs. Cost accounting standards and cost allocation issues. Negotiation of cost, profit, and price. Disclosure of cost accounting data. (Problem assignments).

LAW 6507. Gov Procuremnt,Contrct,Env Law. 2 Credits.**LAW 6508. Comparative Public Procurement. 2-3 Credits.**

Comparative study of laws, regulations, and procedures dealing with public procurement. Differences between national and international procurement practices, and common principles that span many procurement systems across the world. Contract formation, performance, and dispute resolution processes. The influence of international organizations such as the European Union, United Nations Commission on International Trade Law, World Trade Organization, financing institutions, and professional organizations. Prerequisite or concurrent registration: Law 6500, 6502, 6503, or permission of instructor. (Research paper).

LAW 6509. Government Contracts Seminar. 2 Credits.

Selected topics in government procurement law to be announced at the time of registration. (Research paper).

LAW 6510. Graduate Gov Contracts Placemt. 1-4 Credits.

Students work on a project in the government contracts field under the supervision of the faculty directors of the program and a lawyer practicing government contract law. The project may involve working with a government agency, a congressional committee, a private practitioner, or a nonprofit public-interest organization. Admission to the course is limited to LL.M. students and requires approval of one of the faculty directors of the program. This course is graded on a CR/NC basis. Five hours of work per week are required for each credit.

LAW 6511. Anti-Corruption and Compliance. 2 Credits.

This course will cover domestic and international anti-corruption laws. Domestically, this course will examine traditional U.S. bribery and gratuity laws, the U.S. Foreign Corrupt Practices Act, the Procurement Integrity Act, fraud actions under the False Claims Act, contractor compliance programs, mandatory disclosure rules, the suspension & debarment regime - and the implementation and enforcement of these laws and programs. The course will also cover international anti-corruption efforts both in enforcement and through international instruments, such as the Organization for Economic Cooperation and Development Anti-Bribery Convention, the UK Bribery Act, and other emerging anti-corruption regimes. (Take-home examination and exercises).

LAW 6512. Gov.Procurement-Itel. Property. 2 Credits.

Intellectual property law in terms of its challenges to federal government procurement rules. Competing policy demands for innovation, transparency, and sound public investment in the intersection of intellectual property law and federal procurement rules. (Problem assignments) International Law.

LAW 6513. Selected Topics in Government Contracts. 1-3 Credits.

Selected topics in government contracts to be announced at the time of registration. May be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper, or writing assignments).

LAW 6520. International Law. 3,4 Credits.

Introductory survey of the legal system governing relations among states and its expansion to non-state actors, such as international organizations, natural and juridical individuals, indigenous groups, and proto-states. Analysis of the sources of international law, including the formation of customary norms and techniques of treaty interpretation; the application and enforcement of international law in domestic courts, international tribunals, organizations, and diplomacy; doctrines of jurisdiction and immunities; the impact of emerging states and new technologies on doctrine; the use of force; human rights; constitutional aspects of international law; and recurring political and jurisprudential issues. (Examination).

LAW 6521. Int'l Money Laundering. 3 Credits.

Interrelationships among money laundering, corruption, and terrorism, their threat to global peace and prosperity, and the convergence of international law efforts to confront them. Because the detection of concealed assets is essential to deterring these crimes, students will learn the fundamentals of financial investigation and "mutual legal assistance" between countries through a five-week computerized gaming exercise. (Paper and examination or take-home examination at the instructor's discretion).

LAW 6522. Internatl Business Transaction. 3 Credits.

U.S. law and practice relating to characteristic forms of international transactions, including the transnational sale of goods (the law governing the documentary sale, various forms of letters of credit, commercial terms and insurance); the export of technology through franchising, distributorship, and licensing contracts; and the export of capital through the establishment, operation, and withdrawal of foreign direct investment. The impact of relevant international organizations and/or emerging substantive international commercial law (e.g., the United Nations Convention on Contracts for the International Sale of Goods). Specialized problems in the negotiation and structure of international transactions. (Examination).

LAW 6523. Int'l Competition Law Regime. 2 Credits.

Anti-monopoly laws and their national and international enforcement. Competition policy and key national, bilateral, and multinational elements of the emerging international competition regime. Recommended: Law 6402. (Research paper).

LAW 6524. International Commerce Law. 2 Credits.

The study of international transactions for the purchase, sale, payment for, and financing of goods, as governed by the U.N. Convention on Contracts for the International Sale of Goods and other multilateral treaties on international lease financing, factoring, commercial paper, and fund transfers. The substantive provisions of these treaties, the process by which they are developed, and the various interpretive approaches available under different legal regimes will be considered. (Examination or research paper with permission of the instructor).

LAW 6526. International Trade Law. 2,3 Credits.

Study of domestic and international laws and institutions governing foreign trade. Legal aspects of U.S. participation in the World Trade Organization, NAFTA, and other international forums; laws regulating customs and tariffs, most-favored nation treatment, subsidies, dumping, unfair trade practices, and disruptive imports under the escape clause. Specialized problems in regulating exports under the Export Administration Act, boycotts, corrupt practices, and restrictive business practices may be covered. (Examination).

LAW 6527. Adv International Trade Law. 2-3 Credits.

In-depth study of the World Trade Organization rules and its dispute settlement system. Each year the course examines some of the most recent developments in trade law, with a close reading of recent WTO adjudicatory decisions on issues such as subsidies, regulation of goods, regulation of services, sanitary restrictions, product standards, investment measures, and intellectual property. Issues of U.S. trade law and the relationship of international trade law to other fields of international law may also be addressed. Prerequisite: Law 6526 or permission of the instructor. (Take-home examination or research paper with permission of the instructor).

LAW 6528. International Civil Litigation. 2-3 Credits.

Analysis of the law relevant to the trial of cases having international elements in U.S. domestic courts, including the problems of establishing jurisdiction over foreign defendants, obtaining transnational discovery and service of process, enforcing foreign judgments, drafting and defending choice of forum and choice of law clauses, determining the extraterritorial reach of U.S. law, proving foreign law, and assessing the role of U.S. courts in deciding cases with potential consequences for U.S. foreign relations. The impact of international issues on actual litigation as well as the initial structuring of a transaction in light of the client's potential litigation interests. Prerequisite or concurrent registration: Law 6520; for post-J.D. students, permission of instructor may be substituted. (Examination).

LAW 6530. International Organizations. 2,3 Credits.

Analysis of characteristic legal issues arising out of the creation and operation of organizations of nation states. Included are issues of legal personality, treaty making and norm creation, law making, privileges and immunities, membership, dispute settlement, and withdrawal. Emphasis on the United Nations and its activities, including those relating to peace, security, and human rights. Exemplary problems in organizations such as the International Labour Organization, the World Health Organization, and the World Trade Organization. (Examination).

LAW 6532. Comparative Law. 2,3 Credits.

Study of legal systems in the civil law tradition (France, Germany, Italy, Spain, Latin America, Japan). Comparison with the common law system. Consideration of the history and sources of the civil law, the major public and private law institutions in civil law countries, civil and criminal procedure, the role of civil law lawyers (and of international lawyers working with them), and selected substantive legal issues. Several sessions are devoted to Islamic law as an example of a sophisticated non-European system. (Examination).

LAW 6533. International Family Law. 2-3 Credits.

Comparative study of domestic and international laws and institutions affecting family law. The role of the state and religion in family decision making, marriage, divorce, child custody, property distribution, alimony, adoption, and inheritance rights. Treaties affecting substantive rights and international recognition of domestic decisions. Recommended: Law 6520 or 6532. (Examination or research paper with permission of the instructor).

LAW 6534. Law of the European Union. 2-4 Credits.

Study of the legal nature and structure of the European Union. Topics include the roles of the Court and the other institutions, the question of sovereignty, the "four freedoms," competition, company law and labor relations, agriculture, and the EU in international law. (Examination).

LAW 6535. Islamic Law. 2 Credits.

Overview of the origins of Islamic law and development of schools of Islamic jurisprudence. Foundations of Islamic constitutional law, separations of powers, civil rights, the law of obligations, formation and dissolution of contracts, remedies, business contracts, banking law, and family law including marriage, divorce, child custody, and the law of property and inheritance. Crimes and punishments. Islamic law as it pertains to international issues. (Take-home examination or research paper with permission of instructor).

LAW 6536. Law of Japan. 2,3 Credits.

Introduction to the Japanese legal system and comparative analysis of U.S. and Japanese law. Constitutional law, separation of powers (including political institutions and the judicial system), corporate law, equality law, religious freedom, administrative law, civil and criminal procedure, and the legal profession. (Examination or research paper with permission of the instructor).

LAW 6537. Traditional Jewish Civil Law. 2 Credits.**LAW 6538. Immigration Law I. 2-3 Credits.**

Theory and application of the Immigration and Nationality Act and 8 Code of Federal Regulations. Examination of practice before the Executive Office for Immigration Review, Citizenship and Immigration Services, Immigration and Customs Enforcement, Customs and Border Protection, Department of State, and Department of Labor. Removal, political asylum, adjustment of status, naturalization, and other issues. Enrollment is limited. (Examination).

LAW 6539. Immigration Law II. 2 Credits.

Family- and employment-based immigration practice. Regulations, case law, and procedural aspects concerning employment-based, nonimmigrant visa admission into the United States and lawful permanent resident status in the United States through employment and/or family preferences categories. Prior enrollment in an immigration law course is not required. (Take-home examination).

LAW 6540. Refugee and Asylum Law. 2 Credits.

Selected topics from the areas of international law pertaining to the protection of refugees and domestic law of political asylum. Enrollment is limited. (Take-home examination).

LAW 6541. International Finance. 3 Credits.**LAW 6542. Int'l Banking&Investment Law. 2 Credits.**

Study of the legal aspects of international banking and finance, including international laws and regulations concerning the structure and transactions of international banks and institutions. Topics include the institutional, legal, and regulatory frame work for international commercial banking and development finance; the emerging rules regarding international trade in financial services; international supervision of banking activities and regulation of banking transactions; contractual instruments for international financial transactions; and international debt and development crisis. Credit may not be earned for both Law 6542 and 6541. (Examination).

LAW 6543. Law of the People's Repub/Chin. 2-3 Credits.

Introduction to the basic institutions and processes of the legal system of the People's Republic of China. Focus on the contemporary system and its role in political, economic, and social developments. (Take-home examination).

LAW 6544. Foreign Direct Investment. 2 Credits.

An examination of the legal, business, and financial problems involved in investing across national borders. Focuses on the strategies and techniques for structuring such investments and on the framework of regulation that affects them. The analysis includes U.S. regulation of foreign investors, different types of foreign regulation of U.S. investments, and international controls on domestic regulation of foreign investment through treaties and conventions. Model international transactions and sample documents are used to illustrate basic issues. (Examination).

LAW 6545. International Project Finance. 2 Credits.

The use of contracts to shift and mitigate risks inherent in the acquisition, construction, and development of capital-intensive infrastructure projects (e.g., power generation, oil and gas production and distribution, industrial processes, telecommunications networks). Structural and risk allocation issues. Project finance in an international context with a focus on emerging markets. Prior enrollment in Law 6280 is recommended. (Examination).

LAW 6546. International Law-Human Rights. 3,4 Credits.

An overview of international and regional human rights instruments and institutions, focusing on the manner in which the United Nations, Inter-American, European, and African human rights systems seek to protect individual and group rights. Examination of the problems these systems have encountered in discharging their mandate and exploration of ways to strengthen international and regional governmental and nongovernmental efforts in the human rights field. Prerequisite or concurrent registration: Law 6520; for post-J.D. students, permission of instructor may be substituted. (Examination).

LAW 6547. RegionalProtection/HumanRights. 3 Credits.

Advantages and disadvantages of addressing human rights issues regionally rather than at the national or global levels. The jurisprudence and procedures of the European, Inter-American, and African human rights systems. The potential for developing a regional system in parts of Asia. Prerequisite: Law 6520. (Research paper).

LAW 6548. Air and Space Law. 2 Credits.

International law related to the use of outer space. Analysis of space treaties in force, the role of intergovernmental and nongovernmental international organizations, and space laws and regulations of various nations. The relationship of space law to air law. Issues of liability resulting from space activities, military use of space, pollution and contamination of outer space, and earth observations and remote sensing. Enrollment is limited. Prerequisite: Law 6520 or permission of the instructor. (Research paper).

LAW 6549. Chinese Business Law. 2 Credits.

Introduction to the regulatory regime governing business activity in China. Issues of concern to foreign traders and investors. Specific regulations and their implementation in practice. (Take-home examination).

LAW 6550. Law of the Sea. 2 Credits.

International law related to the use of ocean space. Development of international law concerning internal waters, territorial sea, contiguous zone, high seas, continental shelf, fisheries, exclusive economic zone, maritime boundaries, marine environment, marine scientific research, deep seabed, and settlement of disputes. Current legal and policy issues associated with these areas. Prerequisite or concurrent registration: Law 6520; for post-J.D. students, permission of instructor may be substituted. (Examination).

LAW 6551. Intl Law/Territory&TerritDispu. 2,3 Credits.**LAW 6552. Law of War. 2 Credits.**

Human rights law in international and internal armed conflict, examining the origins of the law of war, the 1949 Geneva Conventions for the Protection of War Victims, the Geneva Protocols of 1977, the 1980 Geneva Conventional Weapons Convention, other treaties and customary international law relating to means and methods of warfare, the role of the International Committee of the Red Cross, war crimes and enforcement mechanisms, and current problems in the regulation of hostilities. Prerequisite: Law 6520. (Research paper).

LAW 6553. Export Ctrl Law & Reg. 2 Credits.

Study of U.S. laws and regulations that govern the export of defense products and dualuse civilian technologies. Examination of international export control treaties and case studies. Students participate in team exercises involving export transactions. (Takehome examination).

LAW 6554. International Criminal Law. 2 Credits.

Prosecution of international crimes and application of national criminal law across international boundaries. The use of criminal sanctions to serve the objectives of the international community, particularly with respect to peace, national security, and human rights. Prior enrollment in Law 6520 is recommended. (Examination).

LAW 6555. Comparative Constitutional Law. 2-3 Credits.

Comparative study of U.S. and non-U.S. legal systems. Structural issues including federalism and separation of powers; individual rights issues including affirmative action, abortion, and freedom of speech. (Take-home examination).

LAW 6556. International Arbitration. 2 Credits.

Survey of arbitration and related mechanisms of dispute resolution in the international legal system that arise out of commercial, financial, and governmental transactions. Analysis of the arbitration agreement, the process of arbitration, and the enforcement of arbitral awards as well as the common principles governing the disposition of claims. Review of the various arbitral tribunals and their rules. Prerequisite or concurrent registration: Law 6520 or 6522; for post-J.D. students, permission of instructor may be substituted. (Examination or take-home examination at the instructor's discretion).

LAW 6557. Intro. to Trans. Islamic Law. 1-2 Credits.

Examination of the principles of Islamic finance, Shari'a investment criteria, and the means to structure Shari'a-compliant transactions and products. Focus on Islamic law as applied to cross-border transactions, regardless of the nature and identity of the players. Case studies analyze underlying investment principles and agreements and the legal environment in which they operate, including the role of Islamic banking and finance in addressing global challenges in such sectors as the development of renewable energy, infrastructure, and technology transfer. (Take-home examination).

LAW 6558. International Negotiations. 2 Credits.

International negotiations from a practitioner's perspective, with a focus on privatesector negotiations. The roles and interests of each of the parties to a negotiation (including private actors, lending institutions, governments and government agencies, and multinational nonprofit organizations); political and other domestic issues affecting international negotiations; practical exercises in negotiations; and multilateral negotiations. Prerequisite or concurrent registration: Law 6520 or 6522; for post-J.D. students, permission of instructor may be substituted. (Research paper).

LAW 6559. Nation Building & Rule of Law. 2 Credits.

Legal norms and techniques used to help stabilize and rebuild societies emerging from violent conflict. Clarifying and reforming laws, reconstructing and staffing judicial and law enforcement institutions, and establishing mechanisms to deal with past atrocities. Prior enrollment in Law 6520 or 6532 is recommended. (Research paper).

LAW 6561. Selected Topics in Public Interest Law. 1-3 Credits.

Selected topics in public interest law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6562. Public International Law Sem. 2 Credits.

Selected topics in the theory and practice of international law to be announced at the time of registration. Enrollment is limited. May be repeated for credit if topic differs. Prerequisite: Law 6520 or permission of instructor. (Research paper).

LAW 6563. Trade Remedy Law. 2 Credits.

Remedies for U.S. businesses facing competition from imports, including U.S. laws concerning antidumping, countervailing duties, and safeguards. (Take-home examination).

LAW 6564. Intrntl Business Transactions. 2 Credits.

Selected topics in international business law and practice to be announced at the time of registration. Enrollment is limited. Prerequisite: Law 6522 or permission of instructor. (Research paper).

LAW 6565. Comparative Law Seminar. 2,3 Credits.

Selected topics in comparative law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6566. Selected Topics in International Business Transactions. 1-3 Credits.

Selected topics in international business transactions to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6567. Human Rights Advocacy. 2 Credits.**LAW 6568. Human Rights Lawyering. 2,3 Credits.**

Human rights lawyering from the perspective of victims' advocates and governmental and inter-governmental officials. Overview of international human rights law and key domestic legal principles. Methods of investigation and fact-finding, interpretation and application of law, and choice of remedies. Role playing and other class exercises using the United Nations and Inter-American systems as models. (Take-home examination).

LAW 6569. Selected Topics in Comparative Law. 1-3 Credits.

Selected topics in comparative law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6570. Int'l Human Rights of Women. 2 Credits.

Theoretical and practical challenges to reinforcing international human rights of women. Major international and regional treaties and instruments; standards to determine sex discrimination as developed by international tribunals and domestic courts; interaction of international and domestic law in the context of women's rights; and feminist/ activist theories and critiques on topics such as state responsibility for violence against women and conflicts between women's rights and religious or cultural rights. (Research paper).

LAW 6571. Human Rights&Enviro Protection. 2-3 Credits.

The intersection of national and international law on human rights and environmental protection, with focus on rights-based approaches to environmental protection and how environmental deterioration may limit or infringe the enjoyment of guaranteed rights. The current state of the law concerning a claimed right to a safe and healthy environment, corporate social responsibility, land and resource rights of indigenous peoples, the role of international financial institutions, and human rights litigation linked to environmental harm. Prerequisite: Law 6520. (Research paper).

LAW 6573. Tax-Timing of Income/Deduction. 2 Credits.**LAW 6576. Human Rights and Women. 2 Credits.****LAW 6577. Special Corporate Tax Problems. 2 Credits.****LAW 6578. Human Rights Advocacy/Dissemnt. 2 Credits.****LAW 6584. Human Rts & Mil Resp/Terrorism. 2 Credits.****LAW 6585. Fundamentals/Intl Trade Law. 1 Credit.****LAW 6588. Tax Practice/Procedure Seminar. 2 Credits.****LAW 6589. Women, Money and Law. 2-3 Credits.**

Historical, theoretical, and practical approaches to issues involving the relationship between gender and financial power with an introduction to basics of financial planning. Recommended prerequisite or corequisite: Law 6300 and either Law 6250, 6342, or 6343. (Research paper).

LAW 6590. Jurisprudence. 2,3 Credits.

Basic jurisprudential concepts; nature of law; development of legal institutions; jurisprudential schools—natural law, analytical, historical, sociological, functional; law and logic; law and justice; the judicial process; legislative, executive, administrative decision making; impact of politics, economics, and scientific advance on legal systems; contemporary trends in jurisprudential thought. (Take-home examination).

LAW 6591. Survey of US Legal History. 2-3 Credits.

Examination of the history of U.S. law from the seventeenth century to the present. Topics include Anglo-American constitutionalism, the reception and transformation of the common law, slavery and the law, race and gender in U.S. law, corporations, labor and the rise of the regulatory state, and legal education and the legal profession in U.S. history. (Research paper).

LAW 6592. Jurisprudence Seminar. 2,3 Credits.

Selected topics in legal theory to be announced at the time of registration. Enrollment is limited. (Research paper or examination).

LAW 6593. Introduction to Legal Theory. 1 Credit.

Introduction to different schools of legal thought and theory, including but not limited to Lockean, Hegelian, utilitarian, economic, feminist, critical legal, public choice, and sociobiological theory. Principles and policies that motivate changes in legal doctrine and how concepts of morality, personal autonomy, collective action, tripartite government, equity, and efficiency affect the legal process. The objective is to offer law students a foundation to be conversant in different concepts that relate to their legal training, particularly in the first-year curriculum. Enrollment is restricted to first-year J.D. students assigned to this course. (Examination).

LAW 6594. History of the US Constitution. 2,3 Credits.

Examination of the philosophical and historical background of the U.S. Constitution, including the writings of Locke and Montesquieu, with particular attention to social contract theory, natural law, and separation of powers principles. Consideration of the relevance of these concepts to the debates surrounding the drafting and ratification of the Constitution and the original Bill of Rights, and the degree to which these concepts have been reflected in decisions of the Supreme Court, including selected decisions of the Marshall Court and several more recent decisions. (Take-home examination or research paper with permission of the instructor).

LAW 6595. Race, Racism, & American Law. 2-3 Credits.

Examination of the influence of race and racism on the development of law in the United States. The use of law by legislatures and judges, both to enforce and to remedy racism in selected contexts, possibly including criminal justice, voting rights, public accommodations, education, employment, housing, free speech, and family law. The course will also consider the utility of critical race theory as a method of legal analysis. (Examination or take-home examination).

LAW 6596. Law of Race and Slavery. 2,3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Application of themes and methods from comparative and historical sociology to the study of legal history. Topics include the legal origins of slavery in the Americas, law and racial classifications, social and economic consequences of legal discrimination, and legal remedies and the undoing of systems of discrimination. Comparative study of the history of race relations in the United States, Latin America, and South Africa. Enrollment is limited. (Research paper).

LAW 6597. Legal History Seminar. 2,3 Credits.

Selected topics in legal history to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6598. Law and Economics. 2,3 Credits.

An introduction to the main features of the Law and Economics movement, with particular attention to the content, application, and criticisms of the Coase theorem. Topics include a brief review of essential aspects of price theory (including the concept of a competitive price equilibrium), an introduction to the principal notions of welfare optimality (including Pareto and Hicks-Kaldor efficiency), and the problems posed by externalities and public goods. Emphasis on some of the classical works in this field and applications to specific decisions. (Examination).

LAW 6599. Prof. Resp. & Ethics Seminar. 2 Credits.

Selected topics in professional responsibility and ethics. Intensive study of questions of lawyer responsibility and ethics raised by professional codes and moral philosophy. This course does not satisfy the professional responsibility requirement. Prerequisite: Law 6218. Enrollment is limited. (Research paper).

LAW 6600. Public Economic Policy & Law. 2 Credits.**LAW 6601. History of the Common Law. 3 Credits.**

The history of legal procedure and institutions in England and the United States, in particular the relationships among judges, juries, and lawyers in civil and criminal cases. Development of rules of evidence; links between law and equity. How changes in politics, society, and economics affect legal procedures and courts. Origins of the adversarial legal system and comparisons with the inquisitorial system on the European continent and elsewhere. (Examination or research paper with permission of the instructor).

LAW 6602. Law and Accounting. 2,3 Credits.

Study of fundamental accounting principles with emphasis on corporation accounting; legal and accounting implications of specific items in financial statements of corporations; inventory adjustments; corporate transactions, distributions, capital adjustments. No accounting background required; students who majored (or the equivalent) in accounting or who hold certifications as Certified Public Accountants (CPA) may not enroll. (Quizzes and problem assignments or examination with the permission of the instructor).

LAW 6603. Selected Topics in Professional Responsibility and Ethics. 1-3 Credits.

Selected topics in professional responsibility and ethics to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take home examination, research paper or writing assignments).

LAW 6604. Quantitative Analysis-Lawyers. 2,3 Credits.

Introductory course for lawyers that does not assume or require advanced mathematical skills. Application of non-legal methods of analysis in public policy problems with attendant evidentiary requirements, including the effective use of experts. Principal nonlegal methods of policy analysis, including micro-economic analysis (basic price theory and industrial organization), financial analysis (including the roles of financial institutions), and statistical analysis. Introduction to basic analytic concepts and terminology/ jargon, common applications of the analysis in the law, and practical problems of expert witnesses. (Examination or research paper with permission of the instructor).

LAW 6605. Selected Topics in Legal History. 1-3 Credits.

Selected topics in legal history to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take-home examination, research paper or writing assignments).

LAW 6606. Law and Literature. 2-3 Credits.

The ways in which the law is depicted in literature, and how literary interpretation can be applied to legal texts. Literary and philosophical works of short to moderate length by Melville, Kafka, Shakespeare, Capote, Morrison, Garcia Marquez, and Faulkner, among others. (Research paper and oral presentations).

LAW 6607. The Law& Regulation of Science. 2 Credits.

The ways in which scientific reasoning and the scientific method have been applied, and misapplied, to legal and policy decisions. The differing standards for scientific and legal inquiry and whether these standards have proven to be compatible. Analysis of pivotal science-based legal decisions, beginning with the trial of Galileo and including evolving standards for scientific evidence in the courtroom, the difficulty of proving causation in toxic torts, regulation of hazardous substances, balancing of personal liberty and public health, determining when a drug is safe enough to market, attempts to define fundamental aspects of the human condition, the debate over evolution in public schools and the legal and ethical issues arising from mapping and patenting the human genome. The means by which scientific inquiry itself is fostered and regulated in the United States and abroad, including the recent policy debates over human cloning and embryonic stem cell research, as well as scientific misconduct, fraud, bias, and the politicization of scientific debate. Prerequisite: Law 6230. (Examination or research paper).

LAW 6608. Feminist Legal Theory. 2-3 Credits.

Law and society studied from the point of view of women. The course focuses on feminist jurisprudential treatment of gender and examines the prospects for sex equality under the law. Enrollment is limited. (Research paper).

LAW 6609. Selected Topics in Jurisprudence. 1-3 Credits.

Selected topics in jurisprudence to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take-home examination, research paper, or writing assignments).

LAW 6610. Cult Hist & the Lawyer Sem. 2 Credits.**LAW 6612. Law and Anthropology. 2 Credits.**

Cultural aspects of law in the context of various societies. Traditional African dispute resolution and the changes brought about by colonialism; Native American political structures; Gypsy courts; the relative legal rights of insiders and outsiders in small-scale European communities; non-legal resolution of disputes in urban neighborhoods in the United States. Legal rules and cultural traditions of these and other societies compared in terms of economic efficiency, personal responsibility and freedom, and ethical balance. (Research paper).

LAW 6614. Law and Psychiatry. 2 Credits.

The problems and legal issues raised by the interface of psychiatry and the law: informed consent, privacy, the insanity defense, civil and criminal commitment under questions of legal competency, forced medication, and disability law with reference to the mentally ill. Evolving trends in professional standards, constitutional rights, legislative rights, ethics, licensing, contracts, and torts in the relationships among the psychiatric profession, the law, and the mentally ill. The role of psychiatric experts, standards of admissibility, and weight of evidence and their impacts on the relationship between the law and the mentally ill. (Take-home examination).

LAW 6615. Law and Psychology. 2 Credits.**LAW 6616. Genetics and the Law. 2,3 Credits.**

Examination of the legal and ethical issues that genetics research and technology present. Topics include eugenics; the Human Genome Project; ethical, legal, and regulatory issues associated with clinical genetics and various types of genetic testing; possible discriminatory uses of genetic information by employers, insurers, and others; legislative attempts to protect the privacy and confidentiality of genetic information; ownership of genetic samples and information; patent law issues; forensic uses of genetic information; gene therapy; and cloning. (Examination).

LAW 6617. Law and Medicine. 2,3 Credits.

Examination of legal and ethical issues that arise in the doctor-patient relationship and medical decision making. Topics include informed consent; human experimentation; personhood; reproduction, including advanced technologies and prevention; patients' rights; death, dying, and limits on intervention; hard choices; and public policy issues. (Examination).

LAW 6620. Consumer Mediation Clinic. 1-5 Credits.**LAW 6621. Small Bus & Comm Dev Clinic. 4-6 Credits.**

Under faculty supervision students assume substantial responsibility for advising small businesses and nonprofit organizations. Students interview and counsel clients; draft incorporation, limited liability company, and partnership documents (such as articles of incorporation, bylaws, articles of organization, operating agreements, and partnership agreements); research local licensing requirements and zoning laws; review and draft contracts and leases; and advise on basic intellectual property issues, tax problems, and related matters. Prerequisites: Law 6250 and 6300 and permission of instructor. Law 6472 and 6474 are recommended. The grade of H, P, LP, or NC is given for this course. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6622. Public Justice Advocacy Clinic. 4-6 Credits.

Under faculty supervision, students represent clients in federal and local courts before administrative agencies in public interest litigation on behalf of low-income clients. Student responsibilities include client interviewing, factual development, legal analysis, drafting of pleadings, discovery, motions, briefs, oral advocacy, and negotiating settlements in cases. Students may also work with nonprofit and community organizations to present positions before the City Council and administrative agencies. Open to second and third-year students. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6623. Neighborhood Law & Policy Clinic. 4-6 Credits.

Students represent indigent clients in a range of civil matters, including welfare, disability, and housing benefits, as well as matters pertaining to offender re-entry. Student responsibilities include interviewing, fact investigation, negotiations, and conducting hearings at administrative tribunals and in D.C. Superior Court. Students may have the opportunity to participate in policy advocacy before the D.C. Council and administrative rule-making bodies. Open to second-year and third-year students. (Skills).

LAW 6624. Family Justice Litig. Clinic. 4-6 Credits.

Under faculty supervision, students represent indigent litigants in D.C. Superior Court. Students undertake a range of cases in the Family Court (divorce, custody, child support, alimony) and the Domestic Violence Unit (civil protection orders, modification and extension of civil protection orders, and contempt). While representing domestic violence litigants, students also have an opportunity to gain experience in criminal practice by collaborating with the U.S. Attorney's Office in related prosecutions of accused batterers. Students are responsible for every phase of litigation, drafting of initial pleadings, motions, conducting discovery, settlement negotiations, and taking the case to trial. In the weekly two-hour seminar, students study the substantive and procedural law relevant to their cases, including the local domestic violence and family law statutes, criminal law, evidentiary principles, and procedural rules. The seminar also focuses on litigation skills exercises, including performing direct and cross examinations, arguing motions, and conducting negotiations. Permission of the clinic director is required prior to registration. Prerequisites: Law 6230 and 6360. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6625. Fed. Criminal, Appellate Clinic. 4-6 Credits.

Under supervision of the instructor, third-year students litigate appellate cases, primarily direct appeals from criminal convictions in area courts of appeal. Student responsibilities include development of the lawyer/client relationship, record review and selection of issues, briefing, and oral argument. A weekly seminar addresses the lawyer's role, ethical and procedural problems, litigation strategy, and criminal justice issues through role-playing, simulation, and written exercises. Enrollment is by permission of the instructor. Prerequisite: Law 6230 and 6360; Law 6650 is recommended. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6626. Vaccine Injury Clinic. 4-6 Credits.

This clinic allows second- and third-year students, under faculty supervision, to represent individuals who may have suffered serious vaccine-related injuries and who are seeking damages in trial and appellate proceedings before the U.S. Court of Federal Claims. A weekly two-hour seminar focuses on multidisciplinary (medical/legal) training in vaccine injury issues, and on lawyering skills such as client interviewing and counseling and cross examination of medical experts. Students also evaluate the Vaccine Injury Compensation Program as a model for tort reform. Students must register for this clinic for both the fall and spring semesters. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6627. Environmental Law Clinic. 2,3 Credits.

Second-, third-, and fourth-year students participate in the J.B. and Maurice C. Shapiro Environmental Law Clinic, representing clients in environmental litigation in both the federal and state systems. Students work under faculty supervision in administrative, trial, or appellate actions, particularly citizen suit actions. This work includes actions under the Clean Air Act, the Clean Water Act, the Comprehensive Environmental Response, Compensation and Liability Act, the Endangered Species Act, the Resource Recovery and Conservation Act, and the Federal Facilities Compliance Act. Permission of the instructor is required prior to registration. Two or 3 hours of graded credit are given for this course. Prerequisite or concurrent registration: Law 6430. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6628. Clinic Teaching & Scholarship I. 1-4 Credits.

Exploration of the multiple goals of clinical education, with an intensive orientation to clinical methods and a historical and philosophical overview of clinical education. Students examine, use, and evaluate clinical pedagogies designed to meet these multiple goals and submit regular journals throughout the year. Other areas of inquiry include: the role of clinical education in legal education; the role of law school clinics in social justice issues and in communities; pedagogies for teaching and supervising lawyering in a public service context; the nature of reflective learning and the value of journals as pedagogy; and types of clinical scholarship. Enrollment limited. Open to LL.M. students serving in clinical fellowships. Law 6628 is prerequisite to Law 6629. (Writing assignments).

LAW 6629. Clinic Teaching & Scholarship 2. 1-4 Credits.

Exploration of the multiple goals of clinical education, with an intensive orientation to clinical methods and a historical and philosophical overview of clinical education. Students examine, use, and evaluate clinical pedagogies designed to meet these multiple goals and submit regular journals throughout the year. Other areas of inquiry include: the role of clinical education in legal education; the role of law school clinics in social justice issues and in communities; pedagogies for teaching and supervising lawyering in a public service context; the nature of reflective learning and the value of journals as pedagogy; and types of clinical scholarship. Enrollment limited. Open to LL.M. students serving in clinical fellowships. Law 6628 is prerequisite to Law 6629. (Writing assignments).

LAW 6630. Immigration Clinic. 4-6 Credits.

Students assume substantial responsibility for handling a range of immigration law matters, including determining what benefits or forms of relief, if any, are available to their clients, and, in appropriate circumstances, representing their clients in removal proceedings. Because the Clinic's clients come from all over the world, cultural sensitivity is essential and foreign language skills are welcome. A minimum of 210 hours of work per semester and attendance at a two-hour weekly seminar are required. Permission of the instructor is required prior to registration. Prerequisite: Law 6538. Students may enroll in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6631. Health Law Rights Clinic. 4-6 Credits.

Second-year and third-year students counsel clients of the Health Insurance Counseling Project, a legal services organization that responds to more than 3,000 requests for assistance each year. Students advocate for clients who have unpaid medical bills; or who need medical care that an insurer, public or private, is unwilling to provide; or who must choose among various types of health insurance. Students learn about Medicare, Medicaid, and other health insurance law and procedures in the weekly two-hour seminar; simulation exercises hone interviewing, counseling, and advocacy skills. Students can expect to work with at least five to six clients in one semester, and should plan to devote to the course four hours per week per credit. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6632. Administrative Advocacy Clinic. 2-3 Credits.**LAW 6633. Int'l Human Rights Clinic. 4-6 Credits.**

Under faculty supervision, students work in a clinical setting in partnership with experienced attorneys and specialized institutions engaged in human rights activism on case projects drawn primarily from one of two main areas: (1) litigation and advocacy before international human rights tribunals and treaty bodies, primarily in the Inter-American and United Nations human rights systems; or (2) human rights litigation and advocacy in the United States, especially in relation to the Alien Tort Claims Act and the Torture Victims Protection Act. Prerequisite: Law 6520. Recommended courses include: 6546, 6547 and/or completion of the GW-Oxford International Human Rights Law Program. (Skills).

LAW 6634. Law Students in Court: Criminal Division. 4-6 Credits.

This is a clinical program in pre-trial and trial litigation that offers students the opportunity to develop skills as litigators while representing persons in the Superior Court of the District of Columbia. Students who participate in the criminal division represent persons charged with misdemeanor offenses, but may also handle some juvenile cases. Under the supervision of clinical instructors, students are responsible for all aspects of litigation: interviewing clients and witnesses, conducting investigations, preparing pleadings, engaging in plea bargaining, and conducting all motions hearings and trials pursuant to the Superior Court's student practice rule. Only third-year students who have completed LAW 6230 and LAW 6360 may participate in the clinic. Students must participate in the program for two consecutive semesters. Seminars are held in the evening. Students must have one day per week available for court appearances and plan to devote approximately 25 hours to the clinic each week. Students may enroll concurrently in this course and LAW 6668 only with permission of both instructors. This course is graded CR/NC for the Fall semester and with letter grades for the Spring semester. (Skills).

LAW 6635. Disabled People and the Law. 2 Credits.

Examination of those areas in which persons with disabilities have traditionally been denied some right or benefit afforded other persons in our society and have resorted to legal action; introduction to statutes and agencies designed to protect people with disabilities. Students may choose to prepare a research paper (and receive legal writing credit and a numerical grade) or to gain practical experience doing a clinical project (on a CR/NC basis). Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. (Skills).

LAW 6636. Law and the Deaf. 1-3 Credits.**LAW 6637. Legal Activism. 2,3 Credits.****LAW 6638. Intensive Clinical Placement. 1-12 Credits.**

Projects involving litigation, research, or public interest activities of a legal nature (including aid to indigents, support of public interest nonprofit corporations, and support of governmental agencies or courts) may be initiated and will be supervised by a faculty member. Projects must be approved in advance by the Law School Supervisory Committee (three members) both as to whether the project is appropriate and as to the number of credit hours to be granted. A maximum of 10 credit hours may be taken in one or two semesters. This course is open to a limited number of third-year students. This course is graded on a CR/NC basis. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors.

LAW 6639. Law Students in Court: Civil Division. 4-6 Credits.

This is a clinical program in pre-trial and trial litigation that offers students the opportunity to develop skills as litigators while representing persons in the Superior Court of the District of Columbia. Students who participate in the civil division represent tenants in landlord-tenant actions, but may also handle some consumer cases, negligence cases, and other civil matters. Under the supervision of clinical instructors, students are responsible for all aspects of litigation: interviewing clients and witnesses, conducting investigations, preparing pleadings, engaging in settlement negotiations, and conducting all motions hearings and trials pursuant to the Superior Court's student practice rule. Only third-year students who have completed Law 6230 and 6360 may participate in the clinic. This is a one-semester clinic. Seminars are held in the evening. Students must have one day per week available for court appearances and plan to devote approximately 25 hours to the clinic each week. Students may enroll concurrently in this course and Law 6668 only with permission of both instructors. Enrollment is limited. (Skills) Prerequisites: LAW 6230, LAW 6360.

LAW 6640. Trial Advocacy. 3 Credits.

Pretrial and trial techniques with emphasis on procedural, evidentiary, tactical, and ethical problems experienced by trial lawyers in actual cases. Complaint drafting, pretrial motions, depositions and other discovery methods, preparation of witnesses, jury selection, the use of experts, direct and cross-examination, introduction of documents, courtroom techniques, and opening and closing arguments. Role playing in simulated courtroom situations. Once registered, no student may drop this course without permission of the dean of students. Prerequisite: Law 6230; Saltzburg—students may be enrolled concurrently in Law 6230. Enrollment is limited. (Short papers and exercises) (Skills).

LAW 6641. Other Student Competitions. 1 Credit.

An 'Other Student Competition' is typically a non-adjudicative competition which does not fall under the definitions of competitions listed as Law 6642, 6644, or 6645. To qualify as an Other Student Competition for credit (1) the competition must be sponsored by the ABA or an ABA-accredited law school, and (2) a faculty member must serve as coach for the competing students and certify that they have earned the course credit. Presently, qualifying Other Student Competitions include, but are not limited to, the ABA Section of Taxation Law Student Tax Challenge, the Drexel University School of Law's Transactional LawMeet, the Georgetown University Law Center's National Security Crisis Law Invitational, the National Animal Law Legislative Drafting & Lobbying Competition, and the University of Maryland School of Law's Health Law Regulatory & Compliance Competition. This is a restricted class. In no event may a student receive more than a total of 3 credits for intra- and interscholastic competitions under Law 6641, 6642, 6644, or 6645. This course is graded on a CR/NC basis.

LAW 6642. ADR Competition. 1 Credit.

Participants in intrascholastic and interscholastic ADR competitions may register for this course and receive 1 credit for each competition in which they participate. A student successfully advancing from a regional to a national competition must register for this course again to receive 1 additional credit for participation in the national. All students competing must complete and submit an Intent to Compete form available in the Dean of Students Office. In no event may a student receive more than a total of 3 credits for intra- and interscholastic competitions under Law 6642, 6644, and/or 6645, nor may a student participate in more than one such competition in any given semester. Once registered, no student may drop this course without permission of the dean of students. This course is graded on a CR/NC basis.

LAW 6643. Pre-Trial Advocacy. 2-3 Credits.

Pre-trial and trial techniques of civil discovery and motions practice by role-playing in simulated cases. The class is divided into "law firms" that represent clients in cases at the pre-trial stage. Students are required to attend pre-trial conferences and conduct extensive discovery, including conduct of depositions, argument on discovery motions to compel or sanctions, preparation and service of interrogatories, requests for production, requests for admissions, and motions for physical and mental examinations. The course ends with a five-hour mock trial by jury. (Simulation and paper) (Skills).

LAW 6644. Moot Court. 1 Credit.

The Moot Court Board sponsors four upper-level, intrascholastic competitions each year: the Van Vleck Constitutional Law Moot Court Competition, the Jessup International Law Moot Court Competition, the Giles Sutherland Rich Intellectual Property Law Moot Court Competition, and the Government Contracts Moot Court Competition. Participants earn 1 credit for each competition in which they participate, regardless of how they finish. Participants in the Jessup Competition and the Giles Sutherland Rich Competition who compete in the regional rounds must register for this course again, and receive 1 credit in addition to the credit earned for participating in the inhouse competition. All students competing must complete and submit an Intent to Compete form available in the Dean of Students Office. Only current members of the Moot Court Board may petition to receive Moot Court Board funds to attend external competitions, unless approval is otherwise granted by the dean of students. In no event may a student receive more than a total of 3 credits for intra- and interscholastic competitions under Law 6642, 6644, and/or 6645, nor may a student participate in more than one such competition in any given semester. Once registered, no student may drop this course without permission of the dean of students. This course is graded on a CR/NC basis.

LAW 6645. Mock Trial Competition. 1 Credit.

The Mock Trial Board sponsors the intrascholastic Cohen & Cohen Mock Trial Competition in the fall semester. The competition offers students an opportunity to practice trial skills and serves as a basis for selection of teams to represent the Law School at various interscholastic trial competitions. The competition requires a two-person team to prepare a written trial brief and argue its case before a judge and jury. The competition also provides a seminar on trial advocacy skills, strategies, and techniques. Students who participate in the fall competition receive 1 credit. Those students attending interscholastic trial competitions must register for this course again, and receive 1 credit for each competition in which they participate. All students competing must complete and submit an Intent to Compete form available in the Dean of Students Office. In no event may a student receive more than a total of 3 credits for intra- and interscholastic competitions under Law 6642, 6644, and/or 6645, nor may a student participate in more than one such competition in any given semester. Once registered, no student may drop this course without permission of the dean of students. This course is graded on a CR/NC basis.

LAW 6646. Mediation. 2 Credits.

Consideration of the growing use of mediation to resolve disputes and comparison with other dispute resolution processes. Taking the roles of mediators and disputants, students participate in a number of simulations. Mock mediations are conducted individually and with a co-mediator. Examination of practical and ethical issues; applicability to various substantive areas including contract, tort, consumer, family, criminal, discrimination, and landlord/tenant. Students are expected to fill out role-playing evaluations of themselves and classmates on a regular basis and to prepare written assignments as directed by the instructor. Enrollment is limited. Students may take both Law 6646 and 6647 from the same instructor only with the instructor's permission. (Skills).

LAW 6647. Alternative Dispute Resolution. 2,3 Credits.

Theoretical and practical aspects of negotiating and mediating transactions and disputes. Techniques studied include neutral evaluation, regulatory negotiations, minitrials, settlement judge approaches, arbitration, and other "hybrids." Students participate in a number of simulated disputes related to various practice areas, both in and outside of class. Enrollment is limited. Students may take Law 6647 and either 6646 or 6648 from the same instructor only with the instructor's permission. (Role playing and written assignments) (Skills).

LAW 6648. Negotiations. 1-3 Credits.

Examination of the negotiation process employed by legal practitioners. The assigned text considers the negotiation process, negotiating techniques, verbal and nonverbal communication, and other factors that influence these interpersonal transactions. Students engage in negotiation exercises that enable them to practice the art of negotiating and to examine their personal strengths and weaknesses. Grades are determined in meaningful part by the results obtained, vis-a-vis other class members, from these exercises. Students are also required to prepare a short paper on a topic pertaining to the negotiation process. Enrollment is limited. Students may take both Law 6648 and 6647 from the same instructor only with the instructor's permission. Credit may not be earned for both Law 6648 and 6458. (Skills).

LAW 6650. Client Interviewing/Counseling. 2 Credits.

Practice with gathering and evaluating facts supplied by clients, followed by presentations of advice based on consideration of facts and applicable law. Discussion of interpersonal aspects of client relations and ethical problems that may arise in the context of client interviews. Students participate in simulated interviews, portraying both clients and attorneys. A paper discussing some aspect of the interviewing and counseling process is required. Enrollment is limited. (Simulation and paper) (Skills).

LAW 6652. Legal Drafting. 2,3 Credits.

Students learn the fundamental skills necessary to draft litigation and transactional documents. Practical application of the drafting process to the preparation of litigation documents, such as pleadings and motions, and transactional documents, such as contracts, deeds, wills, or other agreements. Topics include planning and structuring a document, legal research strategies, the role of procedural rules, plain language initiatives, and ethical principles that affect the drafting process. (Drafting projects and short writing exercises) (Skills).

LAW 6653. Advanced Appellate Advocacy. 2 Credits.

Intensive study of appellate process, brief writing, and argumentation. Focus on techniques for creating and structuring an appellate brief and developing effective arguments to support a client's position and refute an opposing party's position on appeal. Topics include developing a theory of the case and developing arguments based on precedent. Strategic considerations of appellate briefs and effective oral argument. (Appellate briefs and oral argument) (Skills).

LAW 6654. Law and Rhetoric. 2,3 Credits.**LAW 6655. Advanced Legal Research. 2 Credits.**

Intensive review of legal research tools and methods involving both digital and print resources. This course reviews general categories of materials, including reporters, codes, and secondary sources, and their place in contemporary law practice. Students will explore methods of conducting research in specific areas of the law. (Research exercises and paper) (Skills).

LAW 6656. Independent Legal Writing. 1,2 Credit.

Preparation of a research paper under the supervision of a member of the faculty who will determine, prior to registration, whether the work required for the topic justifies 1 or 2 credit hours. If elected for 1 credit hour, this course may be repeated for 2 credit hours to meet the legal writing requirement for the J.D. degree. Approval by the faculty supervisor is required prior to registration; if the faculty supervisor is a member of the part-time faculty, approval is also required from the senior associate dean for academic affairs or associate dean for academic affairs. Compliance with the legal writing requirement as outlined in this Bulletin is necessary if the course is used to satisfy that requirement. Students may not take more than a total of 2 credits in this course under the supervision of part-time faculty members. (Research paper).

LAW 6657. Scholarly Writing. 1-2 Credits.

Introduction to writing for scholarly legal journals. Topic selection, research strategies, organization, style, grammar, usage, and the editing process. This course reflects journal participation for second-year students on all journals. Satisfactory completion of Law 6658, 6659, 6660, 6661, 6662, 6663, 6664, or 6667 in the third year is required to receive credit for this course. The grade of H, P, LP, or NC is given for this course.

LAW 6658. Law Review. 1-4 Credits.

Limited to third-year members of the student staff of the Law Review. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6659. International Law Review. 1-4 Credits.

Limited to third-year members of the student staff of the International Law Review. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6660. Federal Circuit Bar Journal. 1-2 Credits.

Limited to third-year members of the student staff of the Federal Circuit Bar Journal. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6661. Public Contract Law Journal. 1-4 Credits.

Limited to third-year members of the student staff of the Public Contract Law Journal. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6662. Intellectual Property Law Jnl. 1-4 Credits.

Limited to third-year members of the student staff of the American Intellectual Property Law Association Quarterly Journal. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6663. IntlLawInDomesticCourtsJournal. 1-4 Credits.

Limited to members of the student staff of the International Law in Domestic Courts Project. A maximum of 4 credits may be earned in this course. Second-year students must enroll concurrently in Law 6520 and 6657. This course is graded on a CR/NC basis.

LAW 6664. JournalEnergy/EnvironmentalLaw. 1-2 Credits.

Limited to third-year members of the student staff of the Journal of Energy and Environmental Law. A maximum of 2 credit hours may be earned in this course. Second-year students must enroll in Law 6657 to reflect journal participation. This course is graded on a CR/NC basis. Satisfactory completion of Law 6657 in the second year and satisfactory completion of all journal work in the third year is required to receive CR for this course.

LAW 6665. Upper-Level Writing. 1 Credit.

This course is an elective corequisite to seminar courses that require or permit a research paper or Law 6656, Independent Legal Writing, for students who intend to seek publication. Instruction on legal research strategies and structural techniques; individual and small-group feedback on interim writing assignments; and guidance on seeking publications. Credit may not be earned for both this course and Law 6657. Permission of the instructor of the course for which the research paper is to be written is required. Enrollment is limited. This course is graded on a CR/NC basis. (Writing Assignments).

LAW 6666. Research and Writing Fellow. 1-3 Credits.

Limited to students selected to assist in teaching first-year Legal Research and Writing (Law 6216) and Introduction to Advocacy (Law 6217). Two credit hours may be earned in both the fall and spring semesters. This course is graded on a CR/NC basis.

LAW 6667. Advanced Field Placement. 0 Credits.

The Advanced Field Placement Program provides students who have previously participate in the Field Placement Program with the opportunity to maximize their externship experiences through contemporaneous guided reflection and faculty supervision. Students who have already taken a corequisite course in conjunction with a previous placement (for which they earned Field Placement credit) may be eligible to waive the corequisite course requirement and participate in Advanced Field Placement. Students will receive no additional credit(s) beyond those awarded for their externship (see Law 6668). All waiver requests must be approved by the assistant dean for field placement. Students participating in Advanced Field Placement are required to complete reflective learning exercises under the supervision of a designated faculty member. Advanced Field Placement is not available to students seeking credit for international externships, regardless of any previous corequisite course(s) taken. Concurrent registration: Law 6668. Pre-Requisite: Law 6469, 6669, 6670, 6671, 6672, 6674, or another Law School course along with Law 6673, as determined by the assistant dean. (Reflective Assignments).

LAW 6668. Field Placement. 0-4 Credits.

Students earn academic credit for externships with qualifying judicial, public interest, government, and nonprofit organizations. The placement must be at a qualifying judicial, government, or non-profit organization. During the fall and spring semesters, the placement must be located in the Washington, D.C. metropolitan area. Students may earn credit for internships outside of the D.C. metropolitan area, including international internships, during the summer session only. In order to enroll in the summer distance classes, students must have completed at least 28 credits toward the J.D. degree. During the fall and spring semesters, the placement must be located in the Washington, DC metropolitan area. Students may earn credit for externships outside of the DC metropolitan area, including international externships, during the summer session only. A list of pre-approved placements is available on the Law School portal and from the Field Placement Program Office. If a placement has not been previously approved, the assistant dean for field placement must approve the placement for registration to be completed. Students enrolled in this course must fulfill a classroom component requirement by enrolling concurrently in Law 6469, 6669, 6670, 6671, 6672, 6674, or in another Law School course along with Law 6673, as determined by the assistant dean. Students who have already taken a corequisite course in conjunction with a previous placement may be eligible to waive the corequisite course requirement and participate in the Advanced Field Placement Program. All waiver requests must be approved by the assistant dean for field placement. Students participating in the Advanced Field Placement Program are required to complete reflective learning exercises under the supervision of a program faculty member. Corequisite course waivers are not available to students seeking credit for their first judicial externship or for international externships, regardless of any previous corequisite course(s) taken. Students may enroll concurrently in this course and any other clinical course only with the permission of both instructors. This course is graded on a CR/NC basis and requires students to complete 60 hours of work and 5 pages of substantive legal or legislative writing per credit. Students may earn up to 4 field placement credits per semester for a total of no more than 8 credits for this course in their degree program. Students participating in the Domestic Violence Project must register for this course for 2 to 4 credits and enroll concurrently in Law 6674. Students participating in Environmental Lawyering must register for this course for 2 to 4 credits and enroll concurrently in Law 6469. Permission of the assistant dean for field placement is required prior to registration in this course and any corequisite courses. Additional information about the program, including a detailed description of program requirements, its registration process, and other policies and procedures is located in the Field Placement Student Handbook. Students are responsible for reading the handbook and complying with all program policies and procedures.

LAW 6669. The Craft of Judging. 2 Credits.

Current issues in judicial ethics, judicial administration, and the trial and appellate process. Topics include standard of review, statutory interpretation, the role of precedent, and judicial activism. This course is corequisite for students enrolled in Law 6668 in a judicial placement, as determined by the assistant dean for field placement. Students not concurrently enrolled in Law 6668 may take this course only with the permission of the instructor. Enrollment is limited. This course is graded on a letter-grade basis. (Writing assignments).

LAW 6670. Public Interest Lawyering. 2 Credits.

Examination of the role of the public interest lawyer. The lawyer's role and responsibilities in different branches of government and in public affairs, both historically and currently; ethical issues; identification of public interest clients and the potential for conflicts of interest among them; organizational settings; and the politics of public interest lawyering. This course is corequisite for students enrolled in Law 6668 in a public interest placement, as determined by the assistant dean for field placement. Students not concurrently enrolled in Law 6668 may take this course only with the permission of the instructor. Enrollment is limited. This course is graded on a letter-grade basis. (Writing assignments).

LAW 6671. Government Lawyering. 2,3 Credits.

The role of the lawyer in federal government agencies. Agency adjudication and rulemaking; judicial review; enforcement; regulatory reform; the role of the office of general counsel; alternative dispute resolution; the Freedom of Information Act; and congressional relations. This course is corequisite for students enrolled in Law 6668 in a government agency placement, as determined by the assistant dean for field placement. Students not concurrently enrolled in Law 6668 may take this course only with the permission of the assistant dean for field placement. Enrollment is limited. This course is graded on a letter-grade basis. (Research paper).

LAW 6672. The Art of Lawyering. 2 Credits.

Issues concerning the nature of the legal profession, its institutions, and its members in the international context. Topics include the diverse organizations in which law is practiced, ethical dilemmas, workplace culture, supervision, and career expectations. This course is corequisite for students enrolled in 6668, as determined by the assistant dean for field placement. Students not concurrently enrolled in Law 6668 may take this course only with the permission of the instructor. Enrollment is limited. (Writing assignments).

LAW 6673. Field Placement Tutorial. 1 Credit.

This course is corequisite to Law 6668, Field Placement, for students whose classroom component is fulfilled by a course designated by the assistant dean for field placement other than Law 6469, 6669, 6670, 6671, 6672 or 6674. Requirements of this course include writing a 10-page research paper under the supervision of the instructor of the approved course and meeting with the instructor at least twice during the semester to discuss the paper and the externship experience. This course is graded on a letter-grade basis. Registration is permissible only with the prior express approval of the assistant dean for field placement. (Writing Assignments).

LAW 6674. Domestic Violence Project. 2 Credits.

Social change lawyering in the battered women's movement. The role of lawyers in the development of the movement, and, major legal reforms of the past three decades, domestic violence lawyering skills, the challenges of work in this field, and students' professional development. This course is corequisite to Law 6668 for students enrolled in a placement consisting of trial work with a local legal service provider on domestic violence cases, policy or legislative work on domestic violence issues with a national organization, or appellate work with attorneys in law firms conducting pro bono domestic violence appeals. Students not concurrently enrolled in Law 6668 must have the instructor's permission to register for this course. (Writing assignments) (Skills) Graduate Courses in Litigation and Dispute Resolution.

LAW 6675. Advanced Trial Advocacy. 3 Credits.

Conduct of a simulated civil, criminal, or administrative trial before a jury or judge. Students learn to present persuasive opening statements and closing arguments and to conduct forceful direct and cross-examination of fact witnesses and experts. Ethical, evidentiary, procedural, and substantive aspects of litigation. Practical solutions to typical problems litigators encounter in the presentation of a case. At the conclusion of the course, students undertake the trial of a simulated case from opening statement through jury deliberation before a judge or very experienced litigator. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6676. Mediation/Alternative Dispute Res. 3 Credits.

An introduction to alternative dispute resolution, with a focus on the many ways in which ADR can be used effectively by the advocate. Issues include determining whether ADR is appropriate in a given case, the timing of an ADR process, and the type of process that should be used. The role of the advocate during a mediation or other dispute resolution process, e.g., the selection of the neutral, preparing for a mediation, and the advocate's participation in the mediation itself. Emphasis on the mediation of civil cases, with a briefer discussion of the use of ADR in the criminal justice context. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6677. Pretrial Practice-Civil/Criminal. 3 Credits.

Students are divided into simulated law firms and assigned roles that correspond to the pre-trial tasks lawyers routinely are called upon to perform in civil cases. The exercises begin with discovery, and students attend a Fed.R.Civ.P.26(f) meeting, dealing with required disclosures and other preliminary discovery matters. Students prepare discovery motions and responses, take and defend depositions, file dispositive motions, attend a pretrial conference, and prepare a joint pretrial memorandum. By the end of the course, each student will have simulated moving a case from the filing of a complaint to the eve of trial. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6678. Ethics-Adjustment/Settlement. 3 Credits.

Ethical issues that come into play once disputes have arisen and litigation has either commenced or been threatened. The ethical rules that govern threats to sue and responses to such threats, and the rules that are important once litigation has commenced. Each class focuses on a hypothetical problem involving an ethical issue or set of issues. In each hypothetical, the lawyer's duty to the client and to the court through role playing. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6679. Advanced Evidence. 3 Credits.

How the rules of evidence can be used to build and present a case more effectively. Theory and philosophy of the rules of evidence; scope of attorney-client privilege in corporate and government litigation; joint defense agreements; vicarious admissions in civil and criminal litigation; hearsay; expert evidence; character evidence rules; motions in limine; impeaching witnesses; laying foundations; exhibits and charts; and the evidentiary difference between bench and jury trials. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6680. The American Jury. 3 Credits.

Focus on a variety of issues that arise in civil and criminal jury trials in federal and state courts. Topics include separating judicial from jury functions; the jury pool; the grand jury; jury voir dire; challenges for cause and peremptory challenges; scientific jury selection: jury instructions; verdict forms; presentation of evidence; jury nullification; improving juror participation; impeaching verdicts; and high-publicity trials. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6681. Negotiation/Conflict Mgt System. 3 Credits.

Analysis of negotiation techniques, verbal and nonverbal communication, and other factors that influence interpersonal communication in a typical negotiation. Introduction to the theories, principles, and practices of organizational development and dispute systems design. Focus on strategies for designing systemic approaches to resolve a cluster or stream of disputes in particular organizations or institutions, including government agencies, educational and health care settings, corporations, and nonprofit organizations. The concept of "negotiating" with clients in order to develop effective conflict management systems. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6682. International Dispute Resolutn. 3 Credits.

Development of complex dispute cases involving multiple parties. International case law and conventions, including jurisdiction, forum selection, comity, enforcement, and application and proof of foreign law. Students work in teams to prepare motions, gather evidence, interview and depose fact and expert witnesses, interview clients, develop and present opening and closing arguments, and conduct direct and cross examination of lay and expert witnesses. Simulation exercises include adjudication of disputes through role playing and preparation and participation in a mock trial. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6683. College of Trial Advocacy. 3 Credits.

An intensive, six-day course focusing on trial simulation and role playing. A varying panel of experienced lawyers and judges discuss and demonstrate trial skills and ethics, and oversee and critique small-group simulations by students in making opening and closing statements and in conducting direct and cross-examination of experts and other witnesses. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6684. Pre-Trial Pract-Criminal Cases. 3 Credits.

Students in this course are assigned alternating roles as prosecutor and defense counsel in order to simulate the pre-trial tasks lawyers routinely perform in criminal cases. Simulation exercises begin after the arrest of the suspect, with student-prosecutors conducting a preliminary investigation and student-defense counsels interviewing the defendant. Thereafter, students conduct and attend grand jury proceeding, arraignments, bail hearings, preliminary hearings, suppression hearings, plea bargaining sessions, and plea hearings before the trial judge. Students conduct discovery and file pre-trial motions and responses. By the end of the course, each student will have simulated moving a case from arrest to the eve of trial. Enrollment is limited. Open only to LL.M. students. (Simulation).

LAW 6685. Arbitration. 3 Credits.

The arbitration process from making arbitration agreements to making and enforcing awards. Arbitration versus traditional civil litigation. Types of arbitrators and their selection. Procedural, evidentiary, and ethical rules in arbitration practice. Enrollment is limited. Open only to LL.M. students. (Writing assignments and oral exercises) Special Courses for Graduate Law Students.

LAW 6690. Thesis. 2 Credits.

Students must register for two consecutive semesters and cannot register for both courses in one semester. In addition to identifying a member of the full-time faculty to serve as thesis adviser, students are required to attend scheduled class sessions, which cover issues such as topic selection, specialized research, and the process of organizing and writing the thesis.

LAW 6691. Thesis. 2 Credits.

Students must register for two consecutive semesters and cannot register for both courses in one semester. In addition to identifying a member of the full-time faculty to serve as thesis adviser, students are required to attend scheduled class sessions, which cover issues such as topic selection, specialized research, and the process of organizing and writing the thesis.

LAW 6692. LRW for Int'l LLM Students I. 1 Credit.

Required for LL.M. students who do not hold a J.D. degree from a U.S. law school. Topics include research in primary, secondary, and specialized sources of law; legal citation; the structure of a legal memorandum; writing style; and plagiarism. Students prepare legal memoranda and perform specific research and writing assignments. The director of the International and Comparative Law Program may waive the requirement of this course for students who have taken a similar course at another U.S. law school.

LAW 6693. LLR for Int'l LLM Students II. 1 Credit.

Required for LL.M. students who do not hold a J.D. degree from a U.S. law school and who intend to sit for a bar examination in the United States. The course provides an advanced focus on legal research, writing, and analysis. Students prepare short legal writing assignments and legal memoranda.

LAW 6694. Fundamental Issues in US Law. 2 Credits.

Required for LL.M. students who do not hold a J.D. degree from a U.S. law school. The course covers fundamental topics in U.S. law (e.g., constitutional law, contracts, civil procedure, federal courts, conflicts of law, torts, corporations) and introduces students to U.S. legal methods. The director of the International and Comparative Law Program may waive the requirement of this course for students who have taken a similar course at another U.S. law school and who successfully pass a test administered by the director that demonstrates knowledge of the subject matter. (Examination).

LAW 6695. Legal Practicum. 0 Credits.

Students independently arrange paid positions with outside organizations in order to obtain in-depth practical experience. The placement should provide on-the-job practical training for career preparation or advancement. Prior approval must be obtained from the associate dean for international and comparative legal studies. No academic credit is given for this course.

LAW 6696. Graduate Indep Legal Writing. 1,2 Credit.

Students enrolled in this course must prepare a research paper under the supervision of a member of the faculty who will determine, prior to registration, whether the work required for the topic justifies 1 or 2 credit hours. The course is limited to graduate students who have had a seminar or comparable course in the field of proposed research. Students are responsible for obtaining an adviser from the full- or part-time faculty who is willing to sponsor their research. Written approval by the faculty supervisor, the graduate program director, and either the senior associate dean for academic affairs or associate dean for academic affairs is required prior to registration. Work must be completed within the semester. Students may repeat this course once for credit with the approval of the dean of students, but students may not take more than a total of 2 credits in this course under supervision of part-time faculty members. The availability or nonavailability of this course to particular students does not preclude any students from enrolling in Law 6656. (Research paper).

LAW 6697. Graduate Outside Placement. 1-4 Credits.

Limited to LL.M. candidates. Practical experience in the student's area of specialization or interest. The student may work with a government agency, congressional committee, court, or other such entity performing tasks normally assigned to an attorney. Course approval must be obtained from the student's faculty adviser and/or the dean. Students enrolled in either the Environmental Law or Government Contracts program should refer to Law 6468 and Law 6510. A maximum of 4 credit hours may be applied toward graduation. Five hours of work per week are required for each credit. This course is graded on a CR/NC basis.

LAW 6698. S.J.D. Dissertation Research. 0 Credits.

Candidates for the Doctor of Juridical Science degree must register for this course in four consecutive semesters (excluding the summer session), beginning with the semester of matriculation. No academic credit is given for this course. 6824 Examination of the protection of refugees, asylum seekers, and the internally displaced under the UN Refugee Convention and other international instruments, regional accords, and national law. Emphasis is placed on considering the various conceptions of "refugee," defining persecution, and understanding the rights of asylum and nonexpulsion. Regional developments in Europe, Southeast Asia, and Africa are covered. The predicament of populations at risk, especially women and victims of war or conflict, is discussed. The consequences for the human rights of forced migrants of humanitarian intervention, safe havens, and economic sanctions are analyzed. (Class participation and examination).

LAW 6701. THE U.N. & THE MAINTENANCE OF. 2 Credits.**LAW 6820. Hmn Rts & Intl Crimnl Process. 2 Credits.****LAW 6822. Comparatv Hmn Rts Institutions. 2 Credits.****LAW 6824. Int'l Human Rights&Refugee Law. 2 Credits.****LAW 6825. Econ/Soc/CultrlRghtsLaw & Prac. 2 Credits.**

Legal and practical challenges that arise from a state's obligation to protect economic, social, and cultural rights (ESCR), and the conceptual framework for those rights. Mechanisms and tools for implementation of ESCR, including the right to housing, health, food, water, education, and work. Obligations of states for human rights beyond their borders. (Class participation and examination).

LAW 6826. Human Rights in theMarketplace. 2 Credits.

The impact of international human rights standards on global trade, corporate governance and competition, international finance, and economic development. Basic principles and institutions; market-based initiatives toward corporate responsibility (i.e., efforts by companies to attract consumers and investors by voluntarily adopting human rights codes of conduct or social accountability standards); domestic regulation (directives and legislation in various countries that, through human rights conditionality, attempt to recruit the transnational corporation as an instrument of foreign policy); civil liability (the enforcement of standards against corporations through private lawsuits in domestic courts); and international regulation (under which intergovernmental organizations attempt to channel corporate conduct in ways that are thought to be socially responsible). (Examination).

LAW 6827. Gender,Sexuality&Int'l HR Law. 2 Credits.

Application of the international human rights framework to constructions of gender and sexuality. The politics of gender and sexual diversity within the universality of human rights, legal pluralism, and cultural relativism. Relevance of international human rights law to the global response to the HIV/AIDS epidemic. (Class participation and examination).

LAW 6828. International Rights of Women. 2 Credits.

Major treaties and international instruments (both U.N. and regional) relating to women's rights; standards of sex discrimination as developed by international tribunals and domestic courts; interaction of international and domestic law in the context of women's human rights; feminist and activist theories and critiques of state responsibility for violence against women; conflicts between women's rights and religious or cultural rights.

LAW 6830. Hmn Rts Advocacy & Disseminatn. 2,3 Credits.

This course offers students the opportunity to develop skills in human rights advocacy and dissemination. Through the use of simulation exercises, such as the preparation of petitions to regional and international human rights bodies, country condition reports in support of litigation in national courts, and applications for refugee status, students engage in critical analysis of the methods and strategies for human rights advocacy at the local, national, regional, and international levels. Emphasis is also placed on the training of officials in human rights standards and the dissemination of such information to the general public. Students who receive credit for Law 6570 may not enroll in this course. (Simulation exercises and class participation).

LAW 6831. Human Rights in a Digital Age. 2 Credits.

There is perhaps no greater example of the double-edged sword than the Internet. It is, on the one hand, the greatest tool (or set of tools) for access to information in human history, a great democratizing force in media, a source of connection for vulnerable communities and individuals. And yet it provides governments and corporate actors with profound access to our opinions, curiosities, desires and relationships, a tool for surveillance and attack, propaganda and censorship. The UN General Assembly and Human Rights Council have repeatedly noted that offline rights apply online, but how? In what ways in digital space different from the physical world for human rights purposes? This course will introduce students to the variety of human rights issues at stake in a digital age. It will focus on the right to freedom of expression found in Article 19 of the Universal Declaration of Human Rights and the International Covenant on Civil and Political Rights. Students will spend the first week addressing general issues of freedom of expression in order to set the scene for the more detailed discussion of the most salient issues of freedom online, to which the subsequent weeks will be devoted. While the course is "about" human rights online, its secondary but nonetheless critical aim is to highlight for students the ways in which human rights mechanisms at international and regional levels are shaping the norms pertaining to freedom on line and how they may be used for purposes of advocacy and scholarship. (Class participation and examination).

LAW 6832. Rts/Minor/Grps/Indigns Peoples. 2 Credits.**LAW 6834. HmntarianLaw & Popultns atRisk. 2 Credits.****LAW 6836. Hmn Rts & Milit Rspns/Terrorism. 2 Credits.**

Examination of international human rights issues that arise when governments use military force, instead of traditional civilian law enforcement methods, to respond to terrorism or the threat of terrorism. Topics include definitions of terrorism and military force; basic authority of governments to use military force against suspected terrorists; and human rights questions posed by military actions such as surveillance of civilian populations to detect terrorist activity, targeted killings and destruction of property of suspected terrorists, and the detention, interrogation, trial, and other punishment of persons accused of terrorism. Consideration of the duty of governments to use military force to provide security against terrorism and the rights of persons injured by military responses to terrorism to receive compensation. (Examination).

LAW 6838. War, Peace & Human Rights. 2 Credits.

The international legal regime applicable during times of armed conflict. Protection and promotion of international human rights law in post-conflict situations, with emphasis on the role of United Nations peacekeeping operations. (Examination).

LAW 6839. Advanced Seminar/Human Rights. 2 Credits.**LAW 6840. Cross-Brdr Trade/Intellct Prop. 1 Credit.**

Issues raised by international trade in goods protected by copyright, patent, or trademark law, and the response of the United States, the European Union, and other legal systems to those issues. Exploration of various doctrines that regulate the importation of goods protected by intellectual property rights, such as those forbidding parallel importation and those dealing with the first-sale doctrine and exhaustion of intellectual property rights. The economic and social policy considerations underlying these doctrines. (Examination).

LAW 6841. International Patent Law. 0-2 Credits.

Introduction to the techniques of international patent regulation and consideration of the effects and desirability of such regulation. International agreements concerning patents, including the Paris Convention, the Patent Cooperation Treaty, the European Patent Convention, and the Trade Related Aspects of Intellectual Property (TRIPs) Agreement. GW degree candidates may not receive credit for both Law 6841 and LAW 6490. (Examination).

LAW 6842. Internet Law I. 0-2 Credits.

LAW 6843. Internet Law II. 1 Credit.

LAW 6844. Patents, Technology & Society. 1 Credit.

LAW 6845. Tech Protectn/Author's Rights. 0-2 Credits.

Technologies used to protect authors' rights (such as encryption, flags, degradation schemes, and watermarking) and the law that protects and regulates them, including the U.S. Digital Millennium Copyright Act, the European Copyright Directive, the World Intellectual Property Organization (WIPO) Copyright Treaty, and the WIPO Performance and Phonograms Treaty. Consideration of the impact of these technologies. (Examination).

LAW 6846. Philosophical Foundations/IP. 1 Credit.

Selected themes in the history and theory of intellectual property, including philosophical rationales for intellectual property rights, the debate over the limits to intellectual property protection from the 18th through the 20th centuries, and historical accounts of the intellectual property system. (Writing assignment).

LAW 6847. IP & Indigenous Heritage. 1 Credit.

Conflicts of customary law claims of indigenous peoples with industries operating under Western intellectual property systems over the use of natural resources, traditional knowledge, and folklore. National and regional legislation and efforts to develop international norms and standards. (Examination).

LAW 6848. Technology Licensing in EC. 1 Credit.

Legal issues arising from technology licensing in the European Community, including antitrust considerations in the framework of Art. 81 of the EC Treaty and the legal means of securing and enforcing technology license contracts. The Technology Transfer Block Exemption Regulation (EC) No. 139/2004 and the secured transactions laws of England and Germany. (Examination).

LAW 6849. Trademarks & Geographical Indications. 0-2 Credits.

Regulation of terms that indicate or once indicated the geographic origin of goods or services (e.g., champagne, California Pizza Kitchen). Comparative study of U.S. and European Community approaches; the impact of international treaties, including the U.S.-EC dispute before the World Trade Organization; implications for affected industries; and broader cultural implications. (Examination).

LAW 6850. Law of Software Contracts. 1 Credit.

Contract and copyright issues arising out of software contracts. Contractual attempts to authorize or restrict copying and use of software; the proper legal characterization of software and software contracts; copyright limitations on contractual terms; formation of software contracts and potential remedies for their breach. (Examination).

LAW 6851. Copyright & Role of the Copy. 1 Credit.

Consideration of the changing role of the copy in copyright law and in cultural dissemination, using materials drawn from law, cultural history, sociology, and art theory. Articulation of features of traditional dissemination through discrete copies and the alteration of those features through digital network distribution and typical rights management permission bundles. The effect of audio and video recording and computer technologies on our understanding of the copy, and proposals for reform of the statutory exclusive rights. (Examination).

LAW 6852. European IP Law. 1 Credit.

LAW 6853. Chinese IP Law. 1 Credit.

LAW 6854. Artistic Freedom & Control. 1 Credit.

LAW 6869. Selected Topics in National Security Law. 1-3 Credits.

Selected topics in national security law to be announced at the time of registration. This course may be repeated for credit provided the topic differs. Enrollment may be limited. (Examination, take-home examination, research paper or writing assignments).

LAW 6870. National Security Law. 3 Credits.

U.S. law (and incorporated international law) affecting national security. Topics may include the use of armed force abroad (general war, defensive war and reprisal, peace and stabilization operations); intelligence operations abroad (history, organization and oversight, legal issues in the field); selected issues of counterterrorism; and access to and protection of classified information (classification, FOIA, state secrets privilege, leak control, prior restraints on publication). Students who have previously taken or are concurrently enrolled in Law 6875 must have the instructor's permission to enroll in this course. (Examination).

LAW 6871. U.S. Foreign Relations Law. 2-3 Credits.

The nature and origins of the federal government's foreign relations powers; cooperation and competition between the executive and legislative branches; the role of the courts in foreign affairs; limitations on state powers touching on foreign affairs; treaties, executive agreements, and customary international law and their relationship to U.S. domestic law; the extraterritorial application of U.S. law; and sovereign and official immunities. (Examination).

LAW 6872. Nat'l Security Law Seminar. 2 Credits.

Selected Topics in national security law to be announced at the time of registration. Enrollment is limited. (Research paper).

LAW 6873. Military Justice. 2-3 Credits.

The military justice system as a separate criminal justice system established by Congress due to the unique nature and mission of the U.S. Armed Forces. Policies, principles, standards, and rules governing the military justice process from investigation through trial and the appellate process. Review of the commander's role throughout the system. Detailed review of substantive military criminal law and peculiarly military offenses. Analysis of military criminal procedure as well as alternate actions available to dispose of criminal misconduct cases, including administrative separations from the Armed Forces. LL.M. students with prior military law experience may enroll only with the permission of the instructor. (Examination).

LAW 6874. Comparative Military Law. 2 Credits.

Analysis and critique of the broad concept of a separate military justice system; similarities between rules of evidence and rules of criminal procedure in the military and civilian systems; the role of Congress in overseeing the military criminal system; application of the First, Fourth, Fifth, and Sixth Amendments to service members; and broad policy issues such as the systemic challenges to the military justice system. (Examination or research paper with permission of the instructor).

LAW 6875. Counterterrorism Law. 2,3 Credits.

Analysis of legal mechanisms in the fields of criminal, civil, military, immigration, and administrative law used by the U.S. government to combat domestic and international terrorism. The effectiveness of government actions and alternatives for achieving public safety goals; the effect of such actions on U.S. citizens and citizens of other countries; and the reaction of federal courts and Congress to executive branch actions. Students who have previously taken or are concurrently enrolled in Law 6870 must have the instructor's permission to enroll in this course. (Take-home examination).

LAW 6876. Homeland Security Law & Policy. 2 Credits.

Legal issues related to homeland security before September 11, 2001, and the adoption of the Homeland Security Act of 2002. Protection of critical infrastructure; information sharing; liability for terrorist attacks; risk insurance; attempts to prevent the use of weapons of mass destruction; threats to electronic infrastructure; and combating the financing of terrorism. (Examination or take-home examination).

LAW 6877. Nuclear Nonprolif Law & Policy. 2-3 Credits.

The use of international agreements, legislation, and regulations to deter acts of nuclear terrorism. Major international agreements, programs, and efforts to stop nuclear proliferation. (Research paper).

LAW 6878. Intelligence Law. 2 Credits.

Identification and analysis of current legal questions that face intelligence practitioners. Constitutional, statutory, and executive authorities that govern the intelligence community; intelligence structures of other countries; the natural tension between law enforcement and intelligence activities. U.S. person protections, covert action, FISA, and data mining. The course may include application of intelligence law to hypothetical scenarios and student-generated legislative approaches to intelligence law problems. Recommended: Law 6870 or 6875. (Class presentation and research paper).

LAW 6879. Cybersecurity Law & Policy. 2 Credits.

Issues relating to the organization of the Internet and the federal government's response to cyberthreats. Legal concepts relating to the private sector and civilian government engagement in cyberspace. Application of traditional laws of armed conflict in the new cyberdomain. (Research paper or take-home examination with permission of the instructor).

LAW 6880. Disaster Law. 2 Credits.

The U.S. law applicable to natural and man-made catastrophes, including those caused by terrorist attacks and public health emergencies. Topics may include the role of federalism; pre-disaster mitigation and prevention programs; the National Response Framework; the role of the military; the tension between individual rights and government action in emergencies; disaster resistance, compensation, and insurance; long-term recovery; and international disasters. (Research paper).

LEGISLATIVE AFFAIRS (LGAF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LGAF 6201. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis. Topics include political and policy decision making, actors, and process.

LGAF 6202. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

LGAF 6203. Executive-Legislative Relations. 3 Credits.

Political and institutional relationships between the executive and legislative branches of the federal government.

LGAF 6204. Research Methods for Legislative Affairs Specialists. 3 Credits.

Approaches to political analysis. Construction of research designs and problems of measurement.

LGAF 6210. Legislative Procedure. 3 Credits.**LGAF 6211. Congressional Leadership. 3 Credits.****LGAF 6212. Congressional Committees. 3 Credits.****LGAF 6217. Budgetary Politics. 3 Credits.**

Examination of federal budget policymaking and politics.

LGAF 6218. Judicial Politics. 3 Credits.

Role of the judiciary in policy formulation; emphasis on Congress and the Supreme Court.

LGAF 6219. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with emphasis on the politics of contemporary policymaking.

LGAF 6221. Executive Branch Decision Making. 3 Credits.**LGAF 6222. Parties and Elections. 3 Credits.**

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

LGAF 6223. Public Opinion/Political Socialization. 3 Credits.

Sources and dynamics of public opinion and political socialization.

LGAF 6224. Interest Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

LGAF 6228. Media and Congressional Politics. 3 Credits.

Role of the media in American politics, with emphasis on news coverage, political debates, and political advertising, with their impact on the electorate.

LGAF 6233. Comparative Legislatures. 3 Credits.

Selected problems of legislative theory and behavior from a comparative perspective, with particular reference to the parliamentary systems of Germany, France, and Britain.

LGAF 6234. PACs and Congress. 3 Credits.

Examination of the structure and function of political action committees in the United States in the context of wider arenas of campaign finance, elections, and issue management.

LGAF 6240. Special Topics in Legislative Affairs. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics.

LGAF 6246. Congress & Foreign Policy. 3 Credits.

The role of Congress in setting foreign policy.

LGAF 6249. Congress and National Security Policy. 3 Credits.

The role of Congress in setting defense policy.

LGAF 6251. Budgetary Policy. 3 Credits.

Analysis of U.S. monetary and fiscal policy.

LGAF 6260. Special Topics: Domestic Policy. 3 Credits.

Analysis of U.S. policy on selected domestic problems.

LGAF 6270. Special Topics: Congress and Foreign Policy. 3 Credits.

Analysis of U.S. policy on selected issues, challenges, or world regions.

LGAF 6290. Independent Study. 1-3 Credits.

Directed readings in a topic related to Congress and public policymaking. Limited to Legislative Affairs degree candidates. Written permission of program director required.

LGAF 6299. Thesis. 3 Credits.**LGAF 6300. Thesis. 3 Credits.****LGAF 6998. Thesis. 3 Credits.****LGAF 6999. Thesis. 3 Credits.**

LIFESTYLE, SPORT, AND PHYSICAL ACTIVITY (LSPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LSPA 1011. Hiking. 1 Credit.**LSPA 1012. Dance Conditioning. 1 Credit.****LSPA 1013. Latin Dance Conditioning. 1 Credit.****LSPA 1014. Meditation. 1 Credit.****LSPA 1016. Running. 1 Credit.****LSPA 1017. Walking for Health. 1 Credit.****LSPA 1018. Trail Running. 1 Credit.****LSPA 1019. Outdoor Adventure. 1 Credit.****LSPA 1020. Beginning/Intermediate Golf. 1 Credit.**

Course fee.

LSPA 1021. Foil Fencing. 1 Credit.

LSPA 1022. Basketball. 1 Credit.

LSPA 1023. Jow Ga Kung Fu. 1 Credit.

LSPA 1024. Volleyball. 1 Credit.

LSPA 1025. Thai Massage. 1 Credit.

LSPA 1026. Karate. 1 Credit.

LSPA 1027. Tennis. 1 Credit.

LSPA 1029. Yoga. 1 Credit.

LSPA 1030. Fitness. 1 Credit.

LSPA 1031. Conditioning with Weights. 1 Credit.

LSPA 1033. Swimming. 1 Credit.

LSPA 1035. Rock Climbing. 1 Credit.

LSPA 1036. Triathlon. 1 Credit.

LSPA 1037. Indoor Soccer. 1 Credit.

LSPA 1038. Racquetball. 1 Credit.

LSPA 1039. Cardio-Kick-Boxing. 1 Credit.

LSPA 1040. Self-Defense and Personal Safety. 1 Credit.

LSPA 1041. Mat Pilates. 1 Credit.

LSPA 1042. Cardio Conditioning. 1 Credit.

LSPA 1043. Tai Chi. 1 Credit.

LSPA 1044. Aikido. 1 Credit.

LSPA 1045. Experimental Activities. 1 Credit.

Topic and laboratory fee (if charged) announced in Schedule of Classes.

LSPA 1046. Taekwondo. 1 Credit.

LSPA 1048. Horseback Riding. 1 Credit.

Course fee.

LSPA 1049. Boxing. 1 Credit.

LSPA 1050. Backpacking. 1 Credit.

LSPA 1052. Cross Training. 1 Credit.

Instruction in and practical application of general fitness principles and techniques. Focus on improving overall fitness through activities that cover the five components of physical fitness—cardio-respiratory endurance, muscular strength, muscular endurance, flexibility, and body composition. The components of fitness are met through structured, individually paced aerobic activities as well as strength and endurance conditioning exercises. A variety of health and wellness issues are also addressed.

LSPA 1053. Squash. 1 Credit.

Equipment fee.

LSPA 1054. Metabolic Effect. 1 Credit.

Emphasis on resistance and cardiovascular training. Sessions follow a high intensity, rest-based interval training format. The goal of each session is to push the student's body outside of his or her normal level of exertion by coming close to anaerobic threshold, recovering, and engaging in exercise again. Each workout lasts approximately 30 minutes, comprising a 5 minute warm-up, 20 minute exercise session, and 5 minute cool down.

LSPA 1055. Barre. 1 Credit.

Barre cardio and Garuda-barre movement repertoire.

Instruction focuses on precision in movement and spectrum of movement from simple to compound and complex patterns. The semester begins with breaking down barre choreography and movement patterns so that the student builds strength and competence at the barre. Barre cardio revolves around the Lotte Berke method.

LSPA 1056. Scuba Diving Certification Course. 2 Credits.

This is an entry-level PADI (Professional Association of Diving Instructors) course, leading to international diver certification. Course fee.

LSPA 1057. Zumba. 1 Credit.

ZUMBA® is a Latin-inspired dance fitness class that uses Latin and international music and dance movements to create a dynamic, exciting, exhilarating, and effective cardio workout.

LSPA 1059. Cycling. 1 Credit.

A high intensity cardio class performed on stationary bikes. Various training techniques and motivational strategies to simulate real cycling experiences. Students can adjust their own resistance and cadence so that beginners and experienced cyclists are challenged in the same class.

LSPA 1065. Introduction to Therapeutic Massage. 1 Credit.

Instruction to basic Swedish massage techniques. Draping, basic muscle anatomy, body mechanics, and the holistic benefits of therapeutic touch.

LSPA 1066. Sports Massage. 1 Credit.

Course fee.

LSPA 1067. Group Fitness Instructor Training. 1 Credit.

LSPA 1068. Sports Clinic and Workshops. 1-3 Credits.

LSPA 1081. Kendo I. 1 Credit.

LSPA 1082. Kendo II. 1 Credit.

LSPA 1083. Iaido I. 1 Credit.

LSPA 1102. Personal Trainer Preparation. 1 Credit.

LSPA 2001. Special Topics. 1-3 Credits.

LINGUISTICS (LING)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

LING 3601. Language, Culture, and Cognition. 3 Credits.

The role of language and culture in the organization of human experience. Beginning with debates about linguistic relativity, the course explores the way language use shapes cognition and practice in a variety of cultures and social contexts.

Prerequisites: ANTH 1004. (Same as ANTH 3601).

LING 3602. Ethnographic Analysis of Speech. 3 Credits.

Linguistic variation and change in discourse practices; social and political correlates of linguistic interaction; recording, transcription, and analysis of verbal interaction. Same as ANTH 3602. Prerequisite: ANTH 1004. Laboratory fee.

LING 3603. Psycholinguistics. 3 Credits.

Language as species-specific property of the human mind. Psychological processes involved in the encoding and decoding of language; first and second language acquisition and bilingualism. Same as ANTH 3603.

LING 3691. Special Topics in Linguistic Anthropology. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Same as ANTH 3691.

Prerequisite: ANTH 1004 or permission of instructor.

MANAGEMENT (MGT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MGT 3201. Leadership in Action. 3 Credits.

Leadership in organizations and society. Consideration of whether leadership is a personal trait or a structured behavior and whether it is universal across domains or situation-specific. Modern and historical examples; issues of leadership in popular contexts.

MGT 3202. Managerial Negotiations. 3 Credits.

Negotiation concepts, strategies, and tactics as applied to managerial situations. The nature of interdependencies; competitive and collaborative negotiations; negotiations involving third-party dynamics, such as mediation and arbitration. Employee relations, including employee rights; the impact of unions and collective bargaining on management practices.

MGT 3203. Advanced Human Resource Management. 3 Credits.

The labor force and labor markets. The legal environment of human resource management. Human resource planning; employee recruiting, selection, training, development, compensation, motivation, discipline, health and safety. Prerequisite: BADM 3101.

MGT 3204. Contemporary Topics in Management. 3 Credits.

Contemporary practice in human resource planning, recruitment and selection, training and development, performance management, compensation and benefits, employee relations, and international human resource management. Interaction with practitioners through actual situations, case analyses, and presentations. Prerequisite: BADM 3101.

MGT 3300. Entrepreneurship. 3 Credits.

Students develop the knowledge and ability to launch their own venture. The entrepreneur and the process of entrepreneurship; key aspects of entrepreneurial success, from idea generation and development to launching a firm. Practical skills applicable to real-world scenarios.

MGT 3300W. Entrepreneurship. 3 Credits.

Students develop the knowledge and ability to launch their own venture. The entrepreneur and the process of entrepreneurship; key aspects of entrepreneurial success, from idea generation and development to launching a firm. Practical skills applicable to real-world scenarios.

MGT 3301. Small Business Management. 3 Credits.

Theory and practice of entrepreneurship. How to start or acquire a new business; effective management, including the essentials of planning, organizing, financing, marketing, and controlling the smaller enterprise. Students consult with a small D.C.-area company as part of a team research project. Prerequisite: MGT 3300W or permission of instructor.

MGT 3302. e-Entrepreneurship. 3 Credits.

The process of turning a web, mobile, or wearable business idea into a validated, repeatable, and scalable business model using lean startup methodologies. Topics include testing and user feedback, technology basics, promotions, and tracking core metrics.

MGT 3303. Women's Entrepreneurial Leadership. 3 Credits.

Students create and execute a business plan while developing essential skills, mentoring relationships, and self-confidence and self-insight.

MGT 3305. Human Capital Sustainability. 3 Credits.

Managerial challenges associated with employment, economic efficiency, employee equity, and employee voice. How market forces, public policy, negotiations, and globalization affect sustainable employment relationships.

MGT 4002. Product Development and Venturing. 3 Credits.

Students form entrepreneur teams to develop new products. Prerequisite: MGT 4101 or permission of instructor.

MGT 4003. Management of the Growing Entrepreneurial Venture. 3 Credits.

Examination of the data, dilemmas, and decisions that can confront leaders of post-startup entrepreneurial ventures.

MGT 4102. Entrepreneurship. 3 Credits.

Key aspects of entrepreneurial success, from idea to development to launch, including opportunity identification, feasibility analysis, industry analysis, business models, venture funding, and mentor relationships.

MGT 4102W. Entrepreneurship. 3 Credits.**MGT 4900. Special Topics. 3 Credits.**

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

MGT 4900W. Special Topics. 3 Credits.**MGT 4995. Independent Research. 1-6 Credits.**

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

MGT 6210. Leading Teams. 3 Credits.

Knowledge and skills for effectively leading teams, including setting teams up for success, promoting effective team dynamics, and other leadership issues for contemporary teams that operate in a global, digital environment.

MGT 6213. Orgnztnl Factors/Pro of Change. 3 Credits.

Behavioral and organizational components of individual, team, and firm-wide change. The dynamics that often accompany the change process.

MGT 6214. Consultative Processes. 3 Credits.

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process. Same as SMPP 6214/ TSTD 6214.

MGT 6215. Conflict Management and Negotiations. 3 Credits.

The nature and sources of conflict and interdependence in social and organizational dynamics. Various means of resolving conflict, including the use of competitive and collaborative negotiations and mediation. Case discussion, exercises, role-playing, and simulation. Managers as mediators and negotiators.

MGT 6216. Cross-Cultural Management. 3 Credits.

The cultural foundations of organizations and institutions, with an emphasis on managerial behavior. Cross-cultural differences as they affect work-related behaviors, such as communication, attitude, teamwork, negotiation, and decision making.

MGT 6252. Global Human Resource Management. 3 Credits.

International applications of human resource management functions. Selection, preparation, and compensation of U.S. managers and executives for service abroad. Adaptation of human resource management policies to conform to specific cultural environments.

MGT 6253. Leadership and Executive Development. 3 Credits.

The required skills, knowledge, and abilities for effective executive leadership in organizations. Contemporary and classical leadership theories and research approaches.

MGT 6254. Negotiations and Labor Relations. 3 Credits.

Negotiation theory and practice in the context of labor-management relations in both union and nonunion settings. Emphasis on negotiation and conflict resolution skills, arbitration and grievance procedures, public-sector labor relations, labor laws and public policy, and global labor relations issues.

MGT 6257. Performance Management and Development. 3 Credits.

Comprehensive review of performance appraisal and training and development. Students learn to develop customized training programs that relate to the performance appraisal process.

MGT 6258. Applied Organization Leadership. 3 Credits.

In-depth studies of theories of leadership. Legal and ethical obligations of leadership. The leader in the process of assuming responsibility. Experiential exercises designed to develop the students' interpersonal abilities and leadership capacities.

MGT 6259. Employment Law and Ethics. 3 Credits.

An examination of the interaction of legal requirements and personal ethics and their influence on managerial decisions affecting the employment exchange. Special emphasis on equal employment opportunity and civil rights, workers' compensation, occupational health and safety, collective bargaining, and wrongful discharge.

MGT 6280. Entrepreneurship. 3 Credits.

In exploring the "entrepreneur as a phenomenon," students will be exposed to the theory and experiences associated with entrepreneurs, entrepreneurial acts, and entrepreneurship in all organizational settings—large, small, public, and private.

MGT 6281. Small Business Management. 3 Credits.

The start-up process and management of small firms. Field projects involve student teams as consultants to local businesses. Case studies. Emphasis on total customer service, international opportunities, and minority and women's issues.

MGT 6282. New Venture Initiation. 3 Credits.

Essentials of planning a new business venture. Sources of financing, evaluation of alternative new business ventures, and analysis of business functions. Creating and analyzing the business plan.

MGT 6283. Strategic Entrepreneurship. 3 Credits.

Capstone course for the small business/entrepreneurship concentration. Student teams assist companies in upgrading strategies. Prerequisites: MBAD 6265, MGT 6281, MGT 6282 and/or permission of instructor.

MGT 6284. Family Business Management. 3 Credits.

Challenges of managing a family business: risk strategies; successor development and succession planning; stages of family business growth; family motivations and goals. Field projects provide hands-on experience.

MGT 6285. Social Entrepreneurship. 3 Credits.

Theory and practice of social entrepreneurship. The power and limits of social entrepreneurship as a tool for creating sustainable and scalable social impact.

MGT 6286. Creativity and Innovation. 3 Credits.

How organizational culture encourages or discourages creativity in individuals and teams and how organizational policies support or undercut innovation. Methods for developing and strengthening creative ideas and innovative action. Factors such as breakthrough design that encourage creativity and support innovation. Students examine and assess, on both personal and organizational levels, the bases of and propensity for creativity and innovation.

MGT 6290. Special Topics. 0-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

MGT 6297. International Mgt Experience. 3 Credits.

Same as FINA 6297/ IBUS 6297/ MKTG 6297/ SMPP 6297. May be repeated for credit.

MGT 6298. Directed Readings & Research. 1-6 Credits.**MGT 6299. Thesis Seminar. 3 Credits.****MGT 6999. Thesis Research. 3 Credits.****MGT 8382. Fndtns/OrgnznlBehavr&Devlpmnt. 3 Credits.**

The individuals and institutions central to the field of organizational behavior and development. Students read about, meet with, and discuss the work of persons central to the development of the field. Prerequisite: Doctoral candidate status with organizational behavior and development as a major or supporting field, or consent of instructor.

MGT 8383. Field Research in Organizational Settings. 3 Credits.

Applications of field research techniques in formal organizational settings. Examination of the logic of inquiry and techniques of qualitative data collection. Intensive interviewing and participant observation in field settings are emphasized.

MGT 8385. Special Topics in Research Methods. 3 Credits.

Research problems and issues related to student dissertations form topics for readings, group discussions, and assigned papers.

MGT 8386. Management Ideas in Progress. 3 Credits.

Doctoral students work with a variety of faculty members as they develop new ideas, research projects, and engage in seminal inquiry. The content and structure of the course will depend upon the instructor. Prerequisites: Doctoral candidate status with organizational behavior and development as a major or supporting field, or consent of instructor.

MGT 8390. Philosophy of Science-Adm Resrch. 3 Credits.

Philosophy of science as applied to research in administration. Topics include the nature and current problems of epistemology, the development and role of theories, and the relationship between theory, methodology, and empirical data.

MGT 8391. Adv Prob-Research Methodology. 3 Credits.

Use of models and theoretical frameworks in research; formulation of research questions, hypotheses, operational definitions, research designs, sampling and data analysis approaches. For doctoral candidates who have completed the general examination and all courses and are preparing for their dissertation.

MGT 8397. Advanced Special Topics. 1-3 Credits.

Current research and scholarly issues in management science.

MGT 8998. Advanced Reading and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

MGT 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

MARKETING (MKTG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MKTG 3142. Consumer Behavior. 3 Credits.

Social, cultural, and psychological factors influencing the behavior of consumers. Models of buyer behavior, consumption patterns, market segmentation, attitude formation and change, brand loyalty, adoption of innovations, and store choice decisions. Marketing management and public policy implications of consumer research. Prerequisite: BADM 3401.

MKTG 3143. Marketing Research. 3 Credits.

Basic methods and techniques of market research. Designing a marketing research project: research questions, secondary and syndicated data, primary data collection approaches, data analysis and report presentation. Focus group interviews, questionnaire construction, statistical software packages. Prerequisite: BADM 3401 and STAT 2112 or STAT 2118.

MKTG 4148. Advertising and Marketing Communications. 3 Credits.

Planning an advertising campaign. Consumer and market information, message appeals, media selection and scheduling, measuring effectiveness. Current criticism and regulation of the advertising function. Other major marketing communication tools, including personal selling and sales promotion. Prerequisite: BADM 3401, MKTG 3142, and MKTG 3143.

MKTG 4149. Advanced Advertising Campaigns. 3 Credits.

Participation in the National Student Advertising Competition. Research, media planning, copywriting, layout/design. Travel to competition site. Prerequisite: BADM 3401 and MKTG 4148 and permission of instructor; corequisite: MKTG 4151.

MKTG 4149W. Advanced Advertising Campaigns. 3 Credits.

Experiential learning prepares students to execute an advertising campaign for entry in the American Advertising Federation's National Student Advertising Competition. Research, media planning, copywriting, and layout and design. Students travel to the competition site. Prerequisites: BADM 3401 and MKTG 4148 and permission of the instructor.

MKTG 4150. Salesmanship and Sales Management. 3 Credits.

Development of personal selling and presentation skills; examination of types of selling situations. Organization of sales department, sales planning and forecasting, quotas, territories, performance standards, and analysis and control of distribution costs. Prerequisite: BADM 3401; MKTG 3142.

MKTG 4151. Marketing Communications Planning. 3 Credits.

Components of a marketing communications plan. Writing a professional proposal, plans book, executive summary, and speech. Prerequisite: BADM 3401 and MKTG 4148; corequisite: MKTG 4149.

MKTG 4151W. Mktg Communications Planning. 3 Credits.

Components of a marketing communications plan. Writing a professional proposal, plans book, executive summary, and speech. Restricted to Permission of instructor required. Prerequisites: BADM 3401; MKTG 4148.

MKTG 4152. Retailing Management. 3 Credits.

A study of retailing management and strategy covering the current environment of retailing, retail market and financial analysis, store location and design, inventory management, and non-store and service retailing. Industry executive and student presentations; case analyses. Prerequisites: BADM 3401; MKTG 3142; MKTG 3143.

MKTG 4154. Digital Marketing. 3 Credits.**MKTG 4156. Integrated Marketing Communications. 3 Credits.****MKTG 4159. Marketing Strategy. 3 Credits.**

The capstone course for marketing majors. Analytical integration of material covered in previous marketing courses. Marketing strategy literature, financial dimensions of marketing decisions, and comprehensive cases. Prerequisites: BADM 3401 or BADM 3401W; MKTG 3142; MKTG 3143.

MKTG 4900. Special Topics. 0-3 Credits.

Experimental offering: new course topics and teaching methods. Prerequisites: BADM 3401; MKTG 3142; MKTG 3143.

MKTG 4900W. Special Topics. 3 Credits.

Experimental offering; new course topics and teaching methods. Prerequisites: BADM 3401; MKTG 3142; MKTG 3143.

MKTG 4995. Independent Study. 1-12 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit. Prerequisite: BADM 3401.

MKTG 6241. Advanced Marketing Management. 3 Credits.**MKTG 6242. Buyer Behavior. 3 Credits.****MKTG 6243. Marketing Research. 3 Credits.**

The marketing research process: designing, conducting, and using market research studies. Managing the market research project; qualitative research; survey and experimental designs; data analysis with statistical software packages. Prerequisite: MBAD 6221.

MKTG 6246. Marketing of Services. 3 Credits.**MKTG 6248. Advertising and Sales Promotion. 3 Credits.****MKTG 6250. Selling/Sales Management. 3 Credits.****MKTG 6251. Product Management. 3 Credits.****MKTG 6252. Digital Marketing. 3 Credits.**

The impact of technology on sales and marketing strategy. Areas explored include e-branding, customer relationship management, permission e-mail, sales force technology enhancement, mobile commerce, online marketing research, and electronic channels of distributions.

MKTG 6255. Strategic Brand Management. 3 Credits.**MKTG 6259. Marketing Strategy. 3 Credits.**

Required capstone course for marketing students. Analysis of complex marketing problems involving policy and operational decisions; emphasis on creative marketing strategy.

MKTG 6290. Special Topics. 0-3 Credits.**MKTG 6297. International Management Experience. 3 Credits.**

Same as FINA 6297/ IBUS 6297/ MGT 6297/ SMPP 6297. May be repeated for credit.

MKTG 6298. Directed Readings and Research. 1-3 Credits.

MKTG 6299. Thesis Seminar. 3 Credits.

MKTG 6999. Thesis Research. 3 Credits.

MKTG 8341. Seminar: Marketing. 3 Credits.

MKTG 8397. Doctoral Seminar. 0-3 Credits.

MKTG 8998. Advanced Reading/Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

MKTG 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

MASTER OF BUSINESS ADMINISTRATION (MBAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MBAD 6211. Financial Accounting. 3 Credits.

The basic concepts and methods for understanding the content and context of financial reports. Income statement, balance sheet, and statement of cash flows. Detailed accounting procedures and choices. How the most important accounting procedures are calculated and how different choices impact financial statements. Prerequisites: None. (Same as ACCY 6101).

MBAD 6213. Managerial Accounting. 1.5 Credit.

Effective use of accounting information in decision making and control of organizations. (Same as ACCY 6201).

MBAD 6221. Judgment, Uncertainty, and Decisions. 1.5 Credit.

Classical theories of decision making; recent findings on human cognitive limitations and biases. Analytical approaches useful in cases involving uncertainty, multiple objectives, and multiple stakeholders.

MBAD 6222. Data Analysis and Decisions. 1.5 Credit.

Statistical analysis—how it is used, when it should be used, and what can be learned from it. Statistical inference, hypothesis testing, and regression analysis. Prerequisite: MBAD 6221.

MBAD 6223. Operations Management. 1.5 Credit.

Concepts and techniques related to manufacturing and service operations. Process mapping, capacity analysis, production control, quality management, and supply chains. Integration of operations with a firm's overall business strategy as a powerful competitive weapon. Prerequisites: MBAD 6221 and MBAD 6222, or MBAD 6224, or DNSC 6202.

MBAD 6224. Decision Making and Data Analysis. 3 Credits.

Elements of decision making that enable managers to characterize their strengths, assess the competition, and forecast the future. Deterministic and probabilistic decision models. Analytical approaches involving uncertainty, multiple objectives, and multiple stakeholders. Probability concepts are used to develop and apply statistical models, with both exploratory and inferential statistical techniques used, including sampling, estimation, and hypothesis testing.

MBAD 6233. Financial Markets. 1.5 Credit.

Sources of managerial information provided by money and capital markets, primary and secondary markets, and cash and futures markets. Money and capital market instruments, relevant return measures, risk metrics for bonds and equities. Prerequisites: MBAD 6222 or MBAD 6224; AND MBAD 6211; AND MBAD 6242.

MBAD 6234. Financial Management. 1.5 Credit.

Theory, policy, and practice in financial management. Financial analysis, sources of funds, investing, capital planning and budgeting, dividend policy, and working capital management.

MBAD 6235. Finance. 3 Credits.

Sources of managerial information that are provided by money and capital markets, primary and secondary markets, and cash and futures markets. Money and capital market instruments, relevant return measures, risk metrics for bonds and equities. Theory, policy, and practice of financial management are examined through the elements of financial analysis, sources of funds, investing, capital planning and budgeting, dividend policy, and working capital management. Prerequisites: MBAD 6211, MBAD 6242 and MBAD 6224; or MBAD 6211, MBAD 6242, MBAD 6221 and MBAD 6222; or MBAD 6211 and MBAD 6242 and DNSC 6202.

MBAD 6241. Global Perspectives. 1.5 Credit.

Differences between the domestic and international environments and their implications for management. Differences in the organization of institutions of capitalism across countries.

MBAD 6242. Microeconomics for the World Economy. 1.5 Credit.

The economics of supply and demand in product markets. Theory of the firm (production and cost structure) and its competitive environment (perfect competition, monopoly, oligopoly, and monopolistic competition).

MBAD 6243. Macroeconomics for the World Economy. 1.5 Credit.

How firms are affected by the performance of the macro economy and the macroeconomic variables that should be factored into managers' decision-making processes. The behavior of output, employment, interest rates, inflation, and exchange rates.

MBAD 6244. International Management. 1.5 Credit.

The challenges of operating in different cultures, implications of cross-national differences in institutional environments, and difficulties of designing effective organizational structures for coordination and control in multinational operations.

Prerequisite: MBAD 6241.

MBAD 6245. Global Perspectives. 3 Credits.

How decisions and processes are modified for the complex global arena. Differences between the domestic and international environments and the implications for management; variations in the organization of institutions of capitalism across countries. Challenges of operating in different cultures, effects of national differences in institutional environments, and design of organizational structures for coordination and control in multinational operations.

MBAD 6246. Global Economy. 1.5 Credit.

Linkages within the global economy. International macro and micro economic and financial developments and trends in developed, emerging, and developing economies. Focus on understanding macroeconomic data, sources of long-term growth, critical global issues that impact long-term development, mega trends, globalization and technological advances, and cyber security issues. Restricted to Limited to World Executive MBA students.

MBAD 6247. Consulting Practicum and International Residency. 3 Credits.

Students gain consulting experience with an actual company in areas including global economics, finance, and cyber-security. Combination of on-campus coursework and overseas travel. Restricted to limited to WEMBA candidates.

MBAD 6252. Mgmt of Information Systems. 1.5 Credit.

An introduction to bridging the gap between the decision-making needs of managers and the terminology of technical personnel within an organization. The transformation of organizations in the digital economy.

MBAD 6253. Mgmt of Tech & Innovation. 1.5 Credit.

Business, technological, economic, and political factors that influence the development and adoption of new technology. Management concepts and practices useful in enhancing corporate innovation. Corporate venture divisions and organizational alternatives.

MBAD 6254. Database & Data Warehousing. 1.5 Credit.

An introduction to the model, design, and use of database and data warehousing systems for identifying, understanding, and designing database-centric solutions for business and organizations.

MBAD 6261. Organizations and Leadership. 1.5 Credit.

A behavioral perspective on core leadership concepts at the individual, team, and organizational level. Students apply these concepts to examine their own leadership qualities in organizations. Experiential exercises and participation in team projects.

MBAD 6262. Managing Human Capital. 1.5 Credit.

Issues of corporate culture, strategy implementation, growth management, employee recruitment and retention, organizational behavior, diversity, ethics, and legal aspects of business. How human resource policies and practices can become a source of competitive advantage.

MBAD 6263. Organizations and Human Capital. 3 Credits.

Formal and informal organizational dynamics related to leading and managing human capital. Motivation and compensation, managing diversity, power and employee relations, organizational culture and change, leadership and decision making, and staffing and performance management.

MBAD 6265. Entrepreneurship. 1.5 Credit.

The "entrepreneur as a phenomenon." The theory as well as the experiences associated with entrepreneurs, entrepreneurial acts, and entrepreneurship in all organizational settings—large and small, public and private.

MBAD 6272. Nature of Markets. 1.5 Credit.

Marketing as an organizational function as well as a set of processes for creating, communicating, and delivering value to customers and for managing customer relationships in ways that benefit the organization and its stakeholders.

MBAD 6273. Marketing Decisions. 1.5 Credit.

Formulation and implementation of marketing strategy, applying the analytic perspectives, decision tools, and concepts of marketing to the elements of marketing strategy. Prerequisite: MBAD 6272.

MBAD 6274. Marketing. 3 Credits.

Marketing as an organizational function creating, communicating, and delivering value to customers while managing customer relationships in ways that benefit both the organization and its stakeholders. Formulation and implementation of the elements of marketing strategy through the application of concepts of marketing, analytic perspectives, and decision tools.

MBAD 6281. Business Ethics. 1.5 Credit.

Businesses are experiencing increasing challenges and opportunities to ensure that they demonstrate integrity in all of their activities, both internal and external to their operations. Perspectives, information, and skill development in advancing the value of integrity in business organizations.

MBAD 6284. Business and Public Policy. 1.5 Credit.

The theory and practice of managing organizations in the context of a rapidly changing global environment. Structure, design, and operation of organizations as interrelated systems and integration of internal and external environments.

MBAD 6285. Business Law. 1.5 Credit.

The legal environment of business, with particular attention to the liability of organizations and their managers for contracts, torts, and crimes. Strategies for avoiding litigation, including the development of clear, concise, and accurate writing.

MBAD 6286. Strategy Formulation and Implementation. 1.5 Credit.

An integrative approach to strategic management, stressing the general manager's perspective, strategy formulation, implementation of strategy and policy, and evaluation and control of strategy in various types of organizations. A capstone course to be taken after completion of all core requirements. Prerequisite: All other MBA core courses.

MBAD 6287. Strategy Fundamentals. 1.5 Credit.

An introductory approach to strategic management, stressing the general concepts and methodologies used in strategic management and providing a foundation for the MBA learning experience.

MBAD 6288. Strategic Management. 3 Credits.

An integrative approach to strategic management; general manager's perspective, strategy formulation, implementation of strategy and policy, and evaluation and control of strategy in various types of organizations. To be taken after completion of all M.B.A. core requirements. Prerequisites: MBAD 6211, 6213, 6223, 6224, 6235, 6242, 6245, 6263, 6274, and 6289.

MBAD 6289. Business Ethics & Public Policy. 3 Credits.

Political, legal, social, economic, and ethical forces acting upon business. Interaction of the market system and public policy process in the development of law and regulation.

MBAD 6290. Special Topics. 0-3 Credits.

May be repeated to a maximum of 3 times.

MBAD 6291. Business Communications. 0-1.5 Credits.

Practical and effective written and oral communication skills for the business environment. Focus on developing and delivering messages clearly, concisely, and effectively, and on learning to write in plain English. The purpose and mechanics of different forms of business communications. Strategies for routine communications challenges.

MBAD 6294. Consulting Abroad Project. 3 Credits.

A real-life experience in the global environment, projects are provided by international or foreign companies. A representative of the company visits GW to work with students during the associated practicum. Students work on projects during the seven-week practicum prior to the international residency. Corequisite: MBAD 6245.

MBAD 6295. Interdisciplinary Projects. 1-6 Credits.

Project and experiential studies of an interdisciplinary nature involving student teams and faculty from more than one field of study. May be repeated for credit. M.B.A. Program Director approval is required.

MBAD 6296. Business Challenge. 1.5 Credit.

Students identify a business challenge in their own organization and formulate a proposal to address the challenge within the organization's social, political, and technical contexts. The problem and proposal are formally presented at the end of the course. Restricted to Limited to World Executive MBA students.

MBAD 6297. Business and Innovation. 1.5 Credit.

Innovation as a core business process involving technological, market, and organizational change. Strategic decisions, capabilities, and moves made or developed in established firms to create, deliver, and capture value. Restricted to Limited to World Executive MBA students.

MBAD 6298. Grad Intrnshp/Business & Mgt. 0 Credits.

Structured practical experience. Permission of instructor required.

MATHEMATICS (MATH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MATH 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

MATH 1007. Mathematics and Politics. 3 Credits.

A mathematical treatment of fair representation, voting systems, power, and conflict. The impossibility theorems of Balinsky and Young and of Arrow. The electoral college. The prisoner's dilemma.

MATH 1008. History of Mathematics. 3 Credits.

The history of mathematics, with emphasis on its importance in the evolution of human thought. Students learn some useful mathematics from areas such as geometry, number theory, and probability and develop an appreciation of the mathematical endeavor.

MATH 1009. Mathematical Ideas I. 3 Credits.

Elementary mathematical models of growth and decay, scaling, chaos, and fractals.

MATH 1010. Mathematical Ideas II. 3 Credits.

Continuation of MATH 1009. Elementary graph theory, scheduling, probability theory.

MATH 1051. Finite Mathematics for the Social and Management Sciences. 3 Credits.

Systems of linear equations, matrix algebra, linear programming, probability theory, and mathematics of finance. Prerequisite: the placement examination or a score of 560 or above on the SAT II in mathematics.

MATH 1220. Calculus with Precalculus I. 3 Credits.

An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisite: the placement examination or a score of 560 or above on the SAT II in mathematics.

MATH 1221. Calculus with Precalculus II. 3 Credits.

Continuation of MATH 1220. An introduction to single-variable calculus (differentiation and integration of algebraic and trigonometric functions with applications), with the concepts and techniques of precalculus developed as needed. Prerequisites: MATH 1220.

MATH 1231. Single-Variable Calculus I. 3 Credits.

Limits and continuity. Differentiation and integration of algebraic and trigonometric functions with applications. Prerequisite: the placement examination or a score of 720 or above on the SAT II in mathematics.

MATH 1232. Single-Variable Calculus II. 3 Credits.

The calculus of exponential and logarithmic functions. L'Hopital's rule. Techniques of integration. Infinite series and Taylor series. Polar coordinates. Prerequisite: MATH 1221 or MATH 1231.

MATH 1252. Calculus for the Social and Management Sciences. 3 Credits.

Differential and integral calculus of functions of one variable; applications to business and economics. Prerequisite: the placement examination or a score of 560 or above on the SAT II in mathematics.

MATH 2020. Joint Math and Physics Seminar. 1 Credit.

MATH 2184. Linear Algebra I. 3 Credits.

Linear equations, matrices, inverses, and determinants. Vector spaces, rank, eigenvalues, and diagonalization. Applications to geometry and ordinary differential equations.

MATH 2185. Linear Algebra I for Math Majors. 3 Credits.

For current or prospective math majors. Introduction to theory and computations involving linear equations, matrices, inverses, determinants, vector spaces, rank, eigenvalues, diagonalization, inner products, norms, and orthogonality. Reading and writing proofs is required. Credit may not be earned for both Math 2184 and 2185. Prerequisites: MATH 1221 or MATH 1231 or permission of instructor; prerequisite or corequisite: MATH 2971.

MATH 2233. Multivariable Calculus. 3 Credits.

Partial derivatives and multiple integrals. Vector-valued functions. Topics in vector calculus, including line and surface integrals and the theorems of Gauss, Green, and Stokes. Prerequisite: MATH 1232.

MATH 2971. Introduction to Mathematical Reasoning. 3 Credits.

An introduction to the fundamental abstract concepts of modern mathematics as well as various proof techniques demonstrated on numerous examples taken from within discrete and continuous mathematics. Prerequisite or concurrent registration: Math 1232. Open to majors and to others with permission of instructor or the departmental undergraduate advisor.

MATH 2971W. Introduction to Mathematical Reasoning. 3 Credits.

MATH 2991. Introductory Special Topics. 1-3 Credits.

Admission by permission of instructor. May be repeated for credit.

MATH 3120. Elementary Number Theory. 3 Credits.

Divisibility of integers, prime numbers, greatest common divisor, the Euclidean algorithm, congruence, the Chinese remainder theorem, number theoretic functions, Möbius inversion, Euler's phi function, and applications to cryptography and primality testing. Prerequisite: MATH 2971 or permission of instructor.

MATH 3125. Linear Algebra II. 3 Credits.

Advanced topics in linear algebra such as duality of vector spaces, normal and self-adjoint operators, the singular value decomposition theorem, the spectral theorem, bilinear and quadratic forms, the geometry of orthogonal operators, the Jordan canonical form, and minimal polynomials. Prerequisites: MATH 2971 and MATH 2184; or MATH 2185; or permission of instructor.

MATH 3257. Introduction to Complex Variables. 3 Credits.

Analytic functions and power series. Contour integration and the calculus of residues. Conformal mapping. Physical applications. Prerequisites: MATH 2233, MATH 2971, and MATH 2184 or 2185 or permission of instructor.

MATH 3342. Ordinary Differential Equations. 3 Credits.

A first course in ordinary differential equations with an emphasis on mathematical modeling: solution curves, direction fields, existence and uniqueness, approximate solutions, first and second order linear equations, linear systems and phase portraits. Prerequisites: MATH 2233 and MATH 2184 or MATH 2185 or permission of the instructor.

MATH 3343. Partial Differential Equations. 3 Credits.

A first course in partial differential equations: Fourier series and separation of variables, vibrations of a string, Sturm-Liouville problems, series solutions, Bessel's equation, linear partial differential equations, wave and heat equations, separation of variables. Prerequisites: MATH 3342 or permission of instructor.

MATH 3359. Introduction to Mathematical Modeling. 3 Credits.

An introduction to the fundamental modeling ideas of dimensional analysis, scaling, and elementary approximations of curves and functions. Applications to development of models from science and engineering. Prerequisite: MATH 2572 and MATH 3342.

MATH 3410. Mathematics of Finance. 3 Credits.

A mathematical development and analysis of realistic models for financial option pricing. Mathematical underpinnings and financial concepts will be developed in parallel. Prerequisites: MATH 2233 and MATH 2971 or permission of instructor.

MATH 3411. Stochastic Calculus Methods in Finance. 3 Credits.

Review of probability theory. Brownian motion; Ito integrals; Ito's formula; martingales; stochastic differential equations; boundary value problems; the Dirichlet problem; the Black-Scholes equation; optimal stopping; and American options. Prerequisites: MATH 2184 or MATH 2185, MATH 2971, MATH 3410, or permission of instructor.

MATH 3553. Introduction to Numerical Analysis. 3 Credits.

Accuracy and precision. Linear systems and matrices. Direct and iterative methods for solution of linear equations. Sparse matrices. Solution of nonlinear equations. Interpolation and approximate representation of functions, splines. Prerequisites: MATH 2185 or MATH 2233 and MATH 2184 or MATH 2572 or permission of instructor.

MATH 3613. Introduction to Combinatorics. 3 Credits.

Introduction to combinatorial enumeration. Basic counting techniques, inclusion-exclusion principle, recurrence relations, generating functions, pigeonhole principle, bijective correspondences. Prerequisite: MATH 2971 or permission of instructor.

MATH 3632. Introduction to Graph Theory. 3 Credits.

Fundamental concepts, techniques, and results of graph theory. Topics include trees, connectivity, traversability, matchings, coverings, colorability, planarity, networks, and Polya enumeration. Prerequisite: MATH 2971 or permission of instructor.

MATH 3710. Introduction to Mathematical Logic. 3 Credits.

Symbolic logic as a precise formalization of deductive thought. Logical correctness of reasoning. Formal languages, interpretations, and truth. Propositional logic and first-order quantifier logic suited to deductions encountered in mathematics. Goedel's completeness theorem; compactness. Prerequisite: MATH 2971 or permission of instructor.

MATH 3720. Axiomatic Set Theory. 3 Credits.

Cantor's theory of sets. Russell's paradox. Axiomatization of set theory as a framework for a contradiction-free mathematics. The Zermelo-Fraenkel axioms and the axiom of choice. Finite, countable, and uncountable sets; ordinal and cardinal arithmetic. The continuum hypothesis. Prerequisite: MATH 2971 or permission of instructor.

MATH 3730. Computability Theory. 3 Credits.

The unlimited register machine as a model of an idealized computer. Computable and partial computable functions; Church-Turing thesis. Kleene's recursion theorem. Algorithmic enumerability. Unsolvability of the halting problem and other theoretical limitations on what computers can do. Discussion of Goedel's incompleteness theorem. Prerequisite: MATH 2971 or permission of instructor.

MATH 3740. Computational Complexity. 3 Credits.

Automata and languages. Deterministic and nondeterministic Turing machines. Space and time complexity measures and classes. The P versus NP problem. The traveling salesman problem and other NP-complete problems. Intractability. Circuit complexity. Introduction to probabilistic and quantum algorithms. Prerequisite: MATH 2971 or permission of instructor.

MATH 3806. Introduction to Topology. 3 Credits.

Metric spaces: completeness, compactness, continuity. Topological spaces: continuity, bases, subbases, separation axioms, compactness, local compactness, connectedness, product and quotient spaces. Prerequisite: MATH 2971 or permission of instructor.

MATH 3848. Differential Geometry. 3 Credits.

Curves in space, regular surfaces, tensors, fundamental forms of a surface, Gauss-Bonnet theory, minimal surfaces. The geometry of the Gauss map. Prerequisites: MATH 2184 or MATH 2185, MATH 2233, MATH 2971, or permission of instructor.

MATH 4121. Introduction to Abstract Algebra I. 3 Credits.

Study of groups and associated concepts, including Lagrange's theorem, Cayley's theorem, the fundamental theorem of homomorphisms, and applications to counting. Prerequisites: MATH 2971 and MATH 2184 or MATH 2185 or permission of instructor.

MATH 4122. Introduction to Abstract Algebra II. 3 Credits.

Study of rings, through maximal and prime ideals, and the study of fields, through Galois theory. Prerequisite: MATH 4121 or permission of instructor.

MATH 4239. Real Analysis I. 3 Credits.

A rigorous study of differentiation, integration, and convergence. Topics include sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Prerequisites: MATH 1232 and MATH 2971 or permission of instructor.

MATH 4239W. Real Analysis I. 3 Credits.

A rigorous study of differentiation, integration, and convergence. Topics include sequences and series, continuity and differentiability of real-valued functions of a real variable, the Riemann integral, sequences of functions, and power series. Prerequisite: MATH 1232 and MATH 2971 or permission of the instructor.

MATH 4240. Real Analysis II. 3 Credits.

Continuation of MATH 4239. Topics include: topology of \mathbb{R}^n , derivatives of functions of several variables, inverse and implicit function theorems, multiple integrals, generalized Stokes's theorem. Prerequisites: MATH 2233, MATH 2184 or MATH 2185, and MATH 4239; or permission of instructor.

MATH 4981. Seminar: Topics in Mathematics. 3 Credits.

Past topics have included computational mathematics, fractals, network flows and combinatorial optimization, information theory and coding theory, dynamical systems, queuing theory, wavelets and Fourier analysis, complex networks, classical and quantum complexity. Prerequisites: MATH 2233 and either MATH 2184 or 2185, or permission of instructor.

MATH 4991. Special Topics. 1-12 Credits.

Admission by permission of instructor. May be repeated for credit.

MATH 4995. Reading and Research. 1-6 Credits.

Under the personal direction of an instructor. Limited to majors with demonstrated capability. Prior approval of instructor required. May be repeated for credit.

MATH 6101. Algebra I. 3 Credits.

Group theory including symmetric groups, free abelian groups, finitely generated abelian groups, group actions, Sylow theorems, solvable groups. Ring theory including factorization in commutative rings, rings of polynomials, chain conditions.

MATH 6102. Algebra II. 3 Credits.

Continuation of MATH 6101. Theory of modules, including modules over a principal ideal domain and tensor product of modules. Theory of fields, including finite fields and Galois theory.

MATH 6120. Topics in Algebra. 3 Credits.

Topics chosen from Lie groups and Lie algebras, non-associative algebras, abelian groups, classical groups, algebraic number theory, representation theory, algebraic geometry, and ring theory. Prerequisite: MATH 6101- MATH 6102. May be repeated for credit with permission.

MATH 6201. Real Analysis I. 3 Credits.

A rigorous study of the real number system, metric spaces, topological spaces, product topology, convergence, continuity and differentiation. Topics include Dedekind's cuts, Tychonoff's theorem, sequences and series, Abel's theorem, continuity and differentiability of real-valued functions of a real variable. Credit may not be earned for both MATH 6201 and MATH 4239.

MATH 6202. Real Analysis II. 3 Credits.

Continuation of MATH 6201. Topics include Riemann-Stieltjes integrals, equicontinuity, Arzela-Ascoli theorem, Stone-Weierstrass theorem, derivatives of functions of several variables, contraction mapping theorem, inverse and implicit function theorems, differential forms, exterior differentiation, Stoke's theorem, differentiable manifolds. Credit may not be earned for both MATH 6202 and MATH 4240.

MATH 6214. Measure and Integration Theory. 3 Credits.

Lebesgue measure and integration in abstract spaces. Probability measures. Absolute continuity, the Radon-Nikodym theorem, measures on product spaces, and the Fubini theorem. LP spaces and their properties. Prerequisite: MATH 4239 .

MATH 6215. Introduction to Functional Analysis. 3 Credits.

Topological and metric spaces; Tychonoff theorem; Banach spaces; linear functionals and operators; Hahn-Banach, closed graph, and open-mapping theorems; uniform boundedness; Hilbert spaces; eigenvalues, projections. Prerequisite: MATH 6214 .

MATH 6225. Ergodic Theory. 3 Credits.

Ergodicity, mixing, the K-property and the Bernoulli property. Poincaré recurrence, the Rohlin lemma, the ergodic theorem, and entropy theory. Additional topics from isomorphism theory, spectral theory, the theory of joinings, and coding theory. Prerequisite: MATH 6214 or permission of instructor.

MATH 6226. Dynamical Systems and Chaos. 3 Credits.

Linear and nonlinear systems, flows, Poincaré maps, structural stability. Examples of chaotic systems in the physical sciences. Local bifurcations, center manifold theory, normal forms, the averaging theorem. Hyperbolic invariant sets, strange attractors, the Smale horseshoe, symbolic dynamics. Prerequisite: MATH 2184 and MATH 4240 or permission of instructor.

MATH 6230. Complex Analysis. 3 Credits.

Topology of the complex plane; complex differentiation and integration; Cauchy's theorem and its consequences; Taylor and Laurent series; classification of singularities; residue theory; conformal mapping; the Riemann mapping theorem. Prerequisite: Math 4239 .

MATH 6240. Topics in Real and Functional Analysis. 3 Credits.

Possible topics include Banach algebras, function algebras, spectral theory for bounded and unbounded operators, harmonic analysis on topological groups and semigroups, topological vector spaces and operator algebras. Prerequisite: permission of instructor. May be repeated for credit with permission.

MATH 6318. Applied Mathematics I. 3 Credits.

Dimensional analysis, perturbation methods, calculus of variations, boundary value problems in one dimension, eigenvalue problems, stability and bifurcation in nonlinear problems. Related numerical techniques. Prerequisite: MATH 2184 .

MATH 6319. Applied Mathematics II. 3 Credits.

Method of characteristics, shock waves, wave and heat equation, Laplace operator on a bounded region, maximum principles, Green's functions, Schrödinger's equation, spherical harmonics. Numerical methods for partial differential equations. Prerequisite: MATH 2184 .

MATH 6330. Ordinary Differential Equations. 3 Credits.

Existence and uniqueness of solutions, continuity and differentiability of solutions with respect to initial conditions. Properties of linear systems, phase portraits, planar systems and Poincaré-Bendixson theory. Prerequisite: MATH 4240.

MATH 6340. Modern Partial Differential Equations. 3 Credits.

Emphasis on modern theory and analytical techniques applied to the solution of partial differential equations. Topics include Sobolev spaces, generalized solutions, strong solutions and regularity; Sobolev imbedding theorem; Rellich-Kondrachov theorem; Leray-Schauder fixed-point theorems; nonlinear eigenvalue problems. Prerequisite: MATH 6319 or permission of instructor.

MATH 6350. Topics in Applied Mathematics. 3 Credits.

Possible topics include, but are not limited to, the calculus of variations, control theory, nonlinear partial differential equations, and mathematical programming. May be repeated for credit with permission.

MATH 6441. Introduction to Financial Mathematics. 3 Credits.

Elementary finance. Basic probability. Discrete random variables. Forwards, futures, and options. Options and arbitrage. The binomial model. Cox-Ross-Rubenstein formula. Martingales. Continuous random variables. The continuous model as a limit of the binomial model. Prerequisite: MATH 2184, MATH 2233.

MATH 6442. Stochastic Calculus Methods in Finance. 3 Credits.

Review of finance and probability theory. Brownian motion. Ito's formula. Martingales. Stochastic differential equations. The Black-Scholes equation. Optimal stopping. American options. Prerequisites: MATH 2184, MATH 2233.

MATH 6522. Introduction to Numerical Analysis. 3 Credits.

Computer arithmetic and round-off errors. Solution of linear and nonlinear systems. Interpolation and approximations. Numerical differentiation and integration. Eigenvalues and eigenvectors. Prerequisite: MATH 1232 and MATH 2184 and knowledge of a programming language.

MATH 6523. Numerical Solution of Ordinary and Partial Differential Equations. 3 Credits.

Initial and boundary value problems for ordinary differential equations. Error propagation, convergence and stability. Finite difference and finite element methods for partial differential equations. Prerequisite: MATH 3342 and knowledge of a programming language.

MATH 6540. Topics in Numerical Analysis. 3 Credits.

Numerical methods and software. Introductions to the methods, tools, and ideas of numerical computation. Problem solving using standard mathematical software. Interpolation; linear and nonlinear equations. Differential equations. Prerequisite: MATH 3342; knowledge of a programming language.

MATH 6610. Combinatorics. 3 Credits.

An introduction to fundamental methods and current research problems in partially ordered sets and enumeration. Prerequisite: undergraduate modern algebra and linear algebra or permission of instructor.

MATH 6620. Graph Theory. 3 Credits.

Graphical enumeration, factors, planarity and graph coloring, algebraic graph theory, extremal graph theory, applications. Prerequisite: undergraduate modern algebra and linear algebra or permission of instructor.

MATH 6630. Topics in Combinatorial Mathematics. 3 Credits.

Topics selected from a wide range of research subjects in combinatorics, its relations with other areas of mathematics, and applications. Recent selections have included matroid theory, topological methods in ordered sets, algebraic methods in combinatorics, fractional graph theory, combinatorics of polytopes, the symmetric group. May be repeated for credit with permission.

MATH 6710. Mathematical Logic. 3 Credits.

Model theory: the relation between a formal language (syntax) and its interpretations (semantics). Consistency, completeness, and compactness. Tarski's theorem on the inexpressibility of truth. Godel's incompleteness theorem and its impact on mathematics.

MATH 6720. Topics in Logic. 3 Credits.

Topics selected from a broad spectrum of areas of logic and applications, based on students' suggestions and interests. Recent selections have included computable mathematics, computable model theory, computability theory, set theory, and algorithmic learning theory. May be repeated for credit with permission.

MATH 6810. General Topology. 3 Credits.

Topological spaces, bases and subbases, open sets and closed sets; continuous maps and homeomorphisms; connectedness and compactness; metric topology, product topology, and quotient topology; separation axioms; finite topological spaces, covering spaces, and fundamental groups.

MATH 6820. Algebraic Topology. 3 Credits.

Fundamental groups and the Van Kampen theorem; simplicial complexes, simplicial homology, and Euler characteristic; singular homology, Mayer-Vietoris sequences. Topics may include cohomology, cup products, and Poincaré duality; classification of surfaces; knots and their fundamental groups. Prerequisite: MATH 6810 or permission of instructor.

MATH 6850. Knot Theory and Low Dimensional Topology. 3 Credits.

Introduction to fundamental methods and current research in knot theory and 3-dimensional topology. Topics include Reidemeister moves, Alexander invariants, Jones-type invariants, skein modules, Khovanov homology, incompressible surfaces, and torus decomposition. Prerequisite: MATH 6810 or permission of instructor.

MATH 6860. Topics in Knot Theory and Low Dimensional Topology. 3 Credits.

Possible topics include, but are not limited to, topology of 3-manifolds and work of Perelman, quantum invariants and their categorizations, topology of 4-manifolds after Freedman and Donaldson, computational complexity in topology, and applications in biology, chemistry, and physics. Prerequisite: MATH 6850 or permission of instructor. May be repeated for credit with permission.

MATH 6890. Topics in Topology. 3 Credits.

Topics may include hyperbolic structures on surfaces and 3-manifolds; knot theory; topology of 3-manifolds; topology of 4-manifolds. Prerequisite: MATH 6820 or permission of the instructor. May be repeated for credit with permission.

MATH 6991. Graduate Student Experience. 0 Credits.

Introduction to the experience of studying mathematics as a graduate student at GW. Topics include understanding University rules and regulations, handling the literature in the subject, conducting research and delivering presentations, and pursuing a successful career as a mathematician. Restricted to graduate students in the Department of Mathematics.

MATH 6995. Reading and Research. 0-12 Credits.

May be repeated for credit.

MATH 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

MECHANICAL AND AEROSPACE ENGINEERING (MAE)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MAE 1001. Introduction to Mechanical and Aerospace Engineering. 1 Credit.

Careers in mechanical and aerospace engineering and the necessary academic program. Teamworking and problem-solving skills for solution of design problems. Analytical and design problems and correlations between academic skills and the mechanical and aerospace engineering professions. Basic aspects of engineering ethics. (Fall).

MAE 1004. Engineering Drawing and Computer Graphics. 0-3 Credits.

Introduction to technical drawing, including use of instruments, lettering, geometric construction, sketching, orthographic projection, section view, dimensioning, tolerancing, and pictorial drawing. Introduction to computer graphics, including topics covered in manual drawing and computer-aided drafting. (Fall and spring).

MAE 2117. Engineering Computations. 3 Credits.

Numerical methods for engineering applications. Round-off errors and discretization errors. Methods for solving systems of linear equations, root finding, curve fitting, numerical Fourier transform, and data approximation. Numerical differentiation and integration and numerical solution of differential equations. Computer applications. Prerequisite: CSCI 1121 or CSCI 1041.

MAE 2124. Linear Systems Analysis for Robotics. 3 Credits.

Properties of linear systems. Mathematical modeling of dynamic systems. State space, state variables, and their selection. Linearization of non-linear behavior. Matrix functions. Solution of state equations in the time domain and using transformations. System stability and frequency response.

MAE 2131. Thermodynamics. 3 Credits.

Fundamentals of equilibrium thermodynamics; Zeroth, First, and Second Laws. Work, heat, internal energy, enthalpy, thermodynamic potential functions; heat transfer mechanisms, phase diagrams, equations of state and property tables, power systems, refrigeration, heat pump systems. Reversible and irreversible processes, Carnot cycle, entropy, exergy. Prerequisite: PHYS 1021.

MAE 2170. History and Impact of the U.S. Patent System. 3 Credits.

Economic systems and emergence of the free market; role of the patent system in the industrial development of the United States; constitutional foundations; evolution of the U.S. patent system; landmark litigation; impact on future innovation; international aspects; the likely future of the patent system.

MAE 3120. Methods of Engineering Experimentation. 0-3 Credits.

Acquisition and analysis of experimental data. Laws of modeling and simulation. Report formulation and presentation. Basic principles of measuring instruments and sensors. Fundamentals of digital data acquisition and use of computer-based data systems. Strain gages, oscilloscopes, transducers, and computerized data systems. Prerequisite: MAE 2117.

MAE 3126. Fluid Mechanics I. 0-3 Credits.

Fluid properties, fluid statics, integral and differential formulations of conservation of mass, momentum, and energy. Bernoulli's equation. Dimensional analysis and similitude. Inviscid flow. Viscous flow. Experimental and computational methods in fluid mechanics. Prerequisite: APSC 2058.

MAE 3128. Biomechanics I. 3 Credits.

Mechanical analysis of biological systems. Characterization of living tissue. Applications of statics, solid mechanics, kinematics, and elementary dynamics to the human musculoskeletal system. May be taken for graduate credit with approval of department. Prerequisite: APSC 2057, CE 2220.

MAE 3134. Linear System Dynamics. 3 Credits.

Modeling of linear mechanical, electrical, and fluid systems as transfer functions and in state space. Linearization, discretization. Laplace and z-transforms. Natural frequencies and damping, free vibration, forced vibration. Measurement techniques, parameter estimation, and computer simulation. Time and frequency domain analysis. Prerequisite: APSC 2113; corequisite: APSC 2058.

MAE 3145. Orbital Mechanics and Spacecraft Dynamics. 3 Credits.

Coordinate systems and transformations, rocket equation, two-body problem, orbit transfers, orbit perturbations, attitude dynamics and stability of symmetric spacecraft, environmental and control torques. Prerequisite: APSC 2058. (Fall).

MAE 3155. Aerodynamics. 3 Credits.

Subsonic and supersonic aerodynamics: potential flow, lift and form drag, viscous effects, compressible flow. Prerequisite: MAE 3126.

MAE 3162. Aerospace Structures. 3 Credits.

Basic structural theory of lightweight aerospace structures. Development of shear and bending moment diagrams and stresses. Analysis of typical monocoque structures. External airloads and their distribution. Mechanical properties of metal and advanced composite structures. Design of members in tension, bending or torsion, and design of webs in shear. Prerequisite: APSC 2057 and CE 2220. (Spring).

MAE 3166W. Materials Science and Enginrg. 3 Credits.

Mechanical properties, plastic deformation dislocation theory, yielding, strengthening mechanisms, microstructure and properties, heat treatment of steel, composites, amorphous materials, viscoelastic deformation, creep, fracture, fatigue, fatigue crack propagation. Prerequisite or concurrent registration: CHEM 1111, PHYS 1022.

MAE 3167W. Mechanics of Materials Lab. 1 Credit.

Measurement of strains and study of failure resulting from applied forces in ductile, brittle, anisotropic, elastomeric, plastic, and composite materials. Tension, compression, bending, impact, and shear failures. Prerequisites: MAE 3166W. (Spring).

MAE 3171. Patent Law for Engineers. 3 Credits.

Types of patents; international patents; inventorship; prosecution process; basic references for patents; detailed structure of a patent; patentability requirements; reexamination and reissue; litigation; infringement and invalidity; copyrights, trademarks, and trade dress. May be taken for graduate credit with approval of department.

MAE 3184. Robotics Lab. 1 Credit.

Forward and inverse kinematics modeling of robots, control design, trajectory planning, and force rendering. Corequisite: MAE 3197.

MAE 3187. Heat Transfer. 3 Credits.

Steady- and unsteady-state heat conduction problems. Analytical and numerical solution methods. Convective heat transfer, boundary-layer approach, analogy between heat and momentum transfer. Thermal radiation; fundamental concepts and laws. Heat-exchanger design. Prerequisite: MAE 3126, MAE 2131.

MAE 3190. Analysis and Synthesis of Mechanisms. 3 Credits.

Kinematics and dynamics of mechanisms. Displacements, velocities, and accelerations in linkage, cam, and gear systems by analytical, graphical, and computer methods. Synthesis of linkages to meet prescribed performance requirements. Prerequisite: APSC 2058. (Fall).

MAE 3191. Mechanical Design. 3 Credits.

Integration of knowledge of strength of materials in a design context. Stresses and deflections in engineering structures. Theories of failure. Introduction to the design of mechanical components, such as fasteners, shafts, springs. Introduction to the use of computers in mechanical engineering design. Prerequisite: CE 2220, MAE 2117.

MAE 3192. Manufacturing Processes and Systems. 3 Credits.

Introduction to manufacturing techniques for metals, polymers, ceramics, and composites. Relationships between properties of materials and techniques for processing them. Process selection, design, control, and integration. Computer-integrated manufacturing, robotics and assembly automation. Prerequisite or concurrent registration: MAE 1004.

MAE 3195. Computer-Aided Engineering of Mechanical Systems. 3 Credits.

Presentation of the major elements of computer-aided engineering systems: interactive computer graphics, finite element analysis, and design optimization. Consideration of economics, safety, and reliability factors. Prerequisite: MAE 4193; concurrent registration: MAE 3196.

MAE 3196. Computer-Aided Engineering Laboratory. 1 Credit.

Instruction and hands-on applications of computer-aided engineering systems to the design, analysis, and optimization of mechanical engineering components and systems. Concurrent registration: MAE 3195.

MAE 3197. Robotic Systems Design and Applications. 3 Credits.

Modeling and analysis of robot designs. Kinematics, statics, and dynamics of linkages. Design and selection of mechanical structures, actuators, transmissions, and sensors. Design of robotic control systems. Relevant computer hardware and software. Industrial applications and limitations of robot systems. Lab experiments. Same as ECE 4730. Prerequisite: MAE 3134.

MAE 4129. Biomechanics II. 3 Credits.

Mechanical analysis of physiological fluid dynamics. Application of fluid flow analysis techniques to cardiovascular, pulmonary, respiratory, and phonatory flows. Introduction to biomedical devices that manipulate physiological flows. May be taken for graduate credit with approval of department. Prerequisite: MAE 3128.

MAE 4149. Thermal Systems Design. 3 Credits.

Completion of a thermal systems design project that requires integration of engineering science, economics, reliability, safety, ethics, professional responsibility, and social considerations. Development and use of design methodology, optimization, feasibility considerations, detailed system descriptions, and presentation of results. Prerequisite: MAE 3187.

MAE 4152W. Mechanical Engineering Laboratory. 3 Credits.

Project-oriented course. Simulates working environment of professional engineers. Projects are assigned in student's areas of interest; student is expected to design and assemble own experiments. Extensive use of instrumentation and computing facilities. Project proposal, progress reports, final report, and periodic oral presentations required. (Spring).

MAE 4157. Aerodynamics Laboratory. 1 Credit.

Subsonic and supersonic wind tunnel experiments and simulations. Prerequisite: MAE 3155. (Fall).

MAE 4163. Airplane Performance. 3 Credits.

Lift and drag estimation methods. Airplane performance measures, such as range and endurance, turning flight, specific excess power and acceleration, takeoff and landing performance. Longitudinal and lateral-direction static and dynamic stability. Control surface effectiveness. Prerequisites: MAE 3134. (Fall).

MAE 4168. Intro. to Biomaterials. 3 Credits.

Fundamentals of materials science and engineering applied to artificial materials in the human body. Topics include biocompatibility, techniques to minimize corrosion or other degradation of implant materials, and the use of artificial materials in various tissues and organs. Prerequisite: Approval of department. Course not open to MAE students.

MAE 4172. Engineering Design and the Patent System. 3 Credits.

Design experience in group projects involving following precisely the teachings of a licensed patent; or avoiding infringement of a provided patent while offering a competitive alternative; or evaluating a provided patent in light of prior art or by attempting to design a competitive product. May be taken for graduate credit with approval of department. Prerequisite: MAE 3171 and senior status.

MAE 4182. Electromechanical Control System Design. 3 Credits.

Application of control theory to the design of electromechanical systems. Transducers, valves, and other control components. Mathematical models of open- and closed-loop electromechanical systems. Root locus and frequency response methods; application to the synthesis of feedback systems by both manual and computer-aided techniques. Prerequisite: MAE 2117, MAE 3134.

MAE 4183. Controls Lab. 1 Credit.

Modeling, control design, simulation, implementation, tuning, and operation of a control system. Corequisite: MAE 4182.

MAE 4193. Engineering Systems Design. 3 Credits.

Creative engineering design, problem definition, and concept generation. Design of journal and roller element bearings, fasteners and permanent joints, and springs. Design project incorporating design selection, and optimization. Project presentation using graphical and computer resources. Prerequisite: MAE 3191.

MAE 4194. Mechatronics Design. 3 Credits.

Data acquisition and digital signal processing. Sensors and their characteristics—displacement, position/velocity, force/pressure, piezoelectric. Actuators—mechanical, electrical, pneumatic, hydraulic. Modeling and simulation of dynamic systems. Mechanism design. Digital control systems. Microprocessors, digital logic/circuits, motor drives. Lab experiments. Prerequisite: MAE 4182.

MAE 4195. Mechatronics Lab. 1 Credit.

Corequisite: MAE 4194.

MAE 4198. Research. 1-3 Credits.

Applied research and experimentation projects, as arranged. Prerequisite: junior or senior status.

MAE 4199. Student Design Project. 1-3 Credits.

Special student projects involving extensive design of various mechanical engineering systems. Examples include the solar car, mini-Baja, or other design competitions that typically are national in scope. May be taken for graduate credit by graduate students.

MAE 6201. Intro to Manufacturing. 3 Credits.

Fundamentals of modern manufacturing. Processes for manufacturing mechanical and electronic components from metals, polymers, ceramics, and silicon. Manufacturing systems, CAD, robotics, and design for assembly. Current capabilities, technological needs, and competitiveness. Examples from high-tech industries. Prerequisite: approval of department.

MAE 6203. Adv Experimentation Tech. 3 Credits.

Sensors; measurement of displacement, temperature, pressure and velocity. Optical methods. Signal conditioning. Computer data acquisition. Uncertainty analysis. Case studies of instrumentation systems such as hot-wire anemometers, laser-doppler anemometers, shlieren/shadowgraph and interferometers. Laboratory projects. (As arranged).

MAE 6204. Tissue Engineering. 3 Credits.**MAE 6207. Theory of Elasticity I. 3 Credits.**

Introduction to Cartesian tensors; deformation, stress, constitutive relations for linear elasticity; formulation of boundary value problems, variational principles, torsion and bending of prismatic rods, plane problems. Prerequisite: approval of department. Same as CE 6207.

MAE 6210. Continuum Mechanics. 3 Credits.

Tensor analysis; fundamental concepts of continuum mechanics; kinematics of continuum; derivation of balance laws of mass, linear momentum, angular momentum, energy and entropy; axioms of constitutive theory; formulation of constitutive theories; Onsager's principle; objectivity; representation theorem for isotropic functions; plasticity, including concepts of internal variables, yield surface, return mapping algorithm. Prerequisite: approval of department.

MAE 6220. Applied Computational Fluid Dynamics. 3 Credits.

Basic principles of fluid dynamics and aerodynamics. Finite difference and finite volume methods. Fluid flow and heat transfer analysis of thermo-fluid mechanical systems. Computational aerodynamics codes. Individual hands-on experience with a commercial CFD code such as FLUENT. Prerequisite: approval of department.

MAE 6221. Fluid Mechanics. 3 Credits.

Continuum, kinematics of fluids; stress and strain rate tensors; fundamental equations of viscous compressible flows. Irrotational flows; sources, sinks, doublets, and vortices. Laminar flow of viscous incompressible fluids; boundary-layer concept. Prerequisite: approval of department.

MAE 6222. Applied Aerodynamics. 3 Credits.

Introduction to practical and computational methods for solving two-dimensional and three-dimensional aerodynamics problems. Linear methods, nonlinear potential methods, coordinate transforms, and boundary-layer methods. Prerequisite: MAE 6221, MAE 6286.

MAE 6223. Turbomachinery. 3 Credits.

Turbine, compressor, and pump types and uses; dimensional analysis of turbomachines; cycle analysis of gas and steam turbines; energy interchange in fluid machinery; design, characteristics, and performance of turbines, compressors, and pumps; comparison of types of turbines, compressors, and pumps. Prerequisite: MAE 6221.

MAE 6224. Viscous Flow. 3 Credits.

Exact solutions of Navier-Stokes equations; the laminar boundary-layer theory. Reynolds stresses and turbulence; internal, boundary-layer, and mixing flows. Applications to heat and mass transfer and to reacting flows. Prerequisite: APSC 6213, MAE 6221, .

MAE 6225. Computational Fluid Dynamics. 3 Credits.

Theory of discrete methods for solving the governing equations of fluid dynamics. Potential flow, Euler equations, Navier-Stokes equations. Emphasis on algorithm development appropriate to modern supercomputers. Prerequisite: MAE 6221, MAE 6286.

MAE 6226. Aero/Hydrodynamics. 3 Credits.

Inviscid flows in two and three dimensions and irrotational flow theory; conformal mapping and applications. Helmholtz theorems and vorticity dynamics. Applications such as airfoil theory, finite wing theory, panel methods, instabilities, free surface flow. Prerequisite: MAE 6221 .

MAE 6227. Aeroelasticity. 3 Credits.

Static and dynamic structural deformations; static aeroelasticity (structural deformation, divergence, control effectiveness, and reversal); dynamic aeroelasticity (flutter, response to gusts and turbulence); unsteady aerodynamics for 2-D wings; strip theory for 3-D lifting surfaces; piston and Newtonian-flow theories. Prerequisite: MAE 6221, MAE 6257.

MAE 6228. Compressible Flow. 3 Credits.

Thermodynamics and equations of compressible inviscid flow. One-dimensional flow. Isentropic flow. Normal and oblique shock waves. Quasi-one-dimensional flow. Unsteady one-dimensional and steady two-dimensional flow. Introduction to transonic flow. Prerequisite: APSC 6213, MAE 6221 .

MAE 6229. Propulsion. 3 Credits.

Basic concepts of propulsion: energy transformations in propulsive flows, gas dynamics of combustion. Thermal and propulsive efficiencies. Cycle and engine component analysis. Intake, nozzle performance. Drag and thrust generation. Augmentation. Propellers, turbojets, turbofans, ramjets, and rockets. Prerequisite: Graduate Standing or MAE 2131 and MAE 3126. (Spring).

MAE 6230. Space Propulsion. 3 Credits.

Advanced chemical propulsion: dynamic combustion and instabilities in solid propellants. Injection, atomization, mixing in liquid propellant engine performance. Plasma propulsion: electrostatic, electromagnetic, and electrothermal instabilities (laser and microwave). Nuclear propulsion. Prerequisite: MAE 6229.

MAE 6231. Structure and Transformations in Materials. 3 Credits.

Structure of crystals, crystal binding, crystal defects, dislocations, solid solutions, phases, diffusion, phase transformations, deformation twinning, and martensite. Prerequisite: APSC 2130.

MAE 6232. Fracture Mechanics. 3 Credits.

Concepts, history, and recent developments of fracture mechanics. Singularity at the crack tip; solutions around crack tip; stress intensity factors; energy release rate; J-integral; direction of crack extension; Plasticity and slow crack growth; dynamic crack propagation; molecular dynamics simulation of fracture. Prerequisite: approval of department.

MAE 6233. Mechanics of Composite Materials. 3 Credits.

Stress-strain relationship for orthotropic materials, invariant properties of an orthotropic lamina, biaxial strength theory for an orthotropic lamina. Mechanics of materials approach to stiffness, elasticity approach to stiffness. Classical lamination theory, strength of laminates. Statistical theory of fatigue damage. Same as CE 6209. Prerequisite: approval of department.

MAE 6234. Composite Materials. 3 Credits.

Principles of composites and composite reinforcement. Micromechanics and failure, interface reactions in various composites, reinforcing materials. Structure of composites: fiber-reinforced polymers, filler-reinforced polymers, fiber-reinforced metals, directionally solidified alloys, dispersion-strengthened metals. Prerequisite: approval of department.

MAE 6235. Deformation and Failure of Materials. 3 Credits.

Elastic and plastic deformation, yield, dislocation theory, strengthening mechanisms, creep, polymers, fracture, transition temperature, microstructure, fatigue. (Spring, odd years).

MAE 6237. Applied Electrochemistry. 3 Credits.

Charged interfaces, electrochemical cells, corrosion thermodynamics, electrode kinetics, general corrosion, crevice corrosion, pitting, stress-corrosion cracking, corrosion protection, batteries and fuel cells, energy storage. May include current and potential distribution in electrochemical cells and scaling effects in modeling. Prerequisite: approval of department.

MAE 6238. Biomaterials. 3 Credits.

Applications of materials science and engineering to artificial materials in the human body with the objective of detailed understanding of synthetic materials and biopolymers. Biocompatibility and its consequences on tissue-implant interfaces. Design and development of new implant materials, drug delivery systems, and biosensors. Prerequisite: MAE 3166 or MAE 4168.

MAE 6239. Computational Nanosciences. 3 Credits.

Introduction to surface force measurements in nanosciences; continuum contact mechanics in nanoscience research; intermolecular forces; empirical potentials for transition metals; surface forces in liquids; large-scale atomic/molecular massively parallel simulator; force field development from quantum mechanical density-functional theory for organic/metal molecular systems. Prerequisite: approval of department.

MAE 6240. Kinematic Synthesis. 3 Credits.

Techniques for the analysis and synthesis of function, path, and motion generating mechanisms. Methods for the dimensional design of mechanisms. Computer-aided techniques for the optimal design of planar linkages. Review of recent developments and current research. Term project. Prerequisite: MAE 3190 .

MAE 6241. Computer Models of Physical and Engineering Systems. 3 Credits.

Reduction of physical and engineering systems to simplified physical and mathematical models. Manipulation of models using C/C programming. Numerical algorithms for optimization, graph identification, mini-sum arithmetic, and searching. Styles of problem solving. Prerequisite: MAE 2117.

MAE 6242. Advanced Mechanisms. 3 Credits.

Emphasis on spatial kinematics. Analysis and synthesis of mechanisms. Analytical techniques using matrices, dual numbers, quaternion algebra, finite and instantaneous screws, theory of envelopes. Applications to design of linkages, cams, gears. Use of digital computers in mechanism analysis and design. (Spring, even years).

MAE 6243. Advanced Mechanical Engineering Design. 3 Credits.

Design of mechanical engineering components and systems emphasizing computer-aided engineering (CAE), including interactive computer graphics, finite element analysis, and design optimization. Creation of a complete design on an engineering workstation. Prerequisite: approval of department.

MAE 6244. Computer-Integrated Engineering Design. 3 Credits.

Design of engineering components and systems on engineering workstations using I-DEAS. Interactive computer graphics, finite element analysis, computer-based design optimization, and other relevant computer-based tools. Students apply design concepts in a computer-aided engineering environment to a selected project. Prerequisite: approval of department.

MAE 6245. Robotic Systems. 3 Credits.

Classification, features, and applications of industrial robots. Spatial descriptions and transformations, forward and inverse kinematics. Jacobian matrix, velocities and static forces, manipulator dynamics and controls. Robot actuators, transmissions, sensors, end effectors, and programming. Prerequisite: MAE 4182 .

MAE 6246. Electromechanical Control Systems. 3 Credits.

State-space representations of dynamic systems; dynamics of linear systems; controllability and observability; linear observers; compensator design by separation principle; linear-quadratic optimal control; Riccati equations; random processes; Kalman filter; applications of optimal stochastic control theory to robotics and earthquake engineering. Prerequisite: approval of department.

MAE 6247. Aircraft Design I. 3 Credits.

Conceptual design methods used in response to prescribed mission and performance requirements, alternate configuration concepts. Configuration general arrangement and empennage sizing. Estimation of aircraft size, weight, and balance; lift, thrust and drag; system level tradeoff and sensitivity studies. Prerequisite: Graduate Standing or MAE 4163. (Spring).

MAE 6249. Spacecraft Design. 3 Credits.

Computer-aided design of spacecraft and satellites to meet specific mission requirements. Environment, propulsion, structure, heat transfer, orbital mechanics, control considerations. Use of modern computer codes for design studies. Prerequisite: Graduate Standing or MAE 3145. (Fall).

MAE 6251. Computer-Integrated Manufacturing. 3 Credits.

Automation techniques for processing metals, polymers, and composites. Use of sensing and process modeling in process control. Numerical control and robot applications and limitations. Integration, scheduling, and tool management in the computer-integrated factory. Quality control. Social and economic considerations in CIM. Prerequisite: MAE 3192 .

MAE 6252. Projects in Computer-Integrated Design and Manufacturing. 3 Credits.

Applications of the concepts of computer-integrated manufacturing to group projects, culminating in written and oral presentations. Robot programming, vision-guided assembly, force sensing, fixturing, and end-effector design for practical applications. Factory simulation, part scheduling, and NC program-verification algorithms. Prerequisite: MAE 6251.

MAE 6253. Aircraft Structures. 3 Credits.

Statics of thin-walled beams and panels, force interplay between stiffeners and skin in the analysis and design of stiffened thin-walled structures. Strength and stiffness of locally buckled stiffened structures. Design considerations. Critical evaluation of various design procedures. Prerequisite: approval of department.

MAE 6254. Applied Nonlinear Control. 3 Credits.

Dynamic characteristics of nonlinear systems. State stability and input-output stability. Lyapunov stability theory and invariance principle. Nonlinear control systems, including feedback linearization, back-stepping, sliding mode control, and passivity-based design. Applications to robotics, aircraft, and spacecraft control systems. Geometric controls and hybrid systems. Prerequisite: approval of department.

MAE 6255. Plasma Engineering in Aerospace and Nanotechnology. 3 Credits.

Plasma fundamentals, electromagnetic waves in plasma, plasma-wall interactions, modeling and experimental techniques in plasmas, electrical discharge, plasma propulsion, plasma-based nanotechnology. Prerequisite: MAE 3126.

MAE 6257. Theory of Vibration. 3 Credits.

Damped and undamped natural vibration, response of single- and multiple-degrees-of-freedom systems to steady-state and transient excitations, modal analysis, nonproportional damping and complex modes, variation formulation of equations of motion, discretization of structural systems for vibrational analysis. Prerequisite: approval of department.

MAE 6258. Advanced Vibration Analysis and Control. 3 Credits.

Passive and active vibration control of discrete and continuous systems, dynamic vibration absorbers, random vibrations, failure analysis, modal analysis, nonlinear vibrations. Prerequisites: MAE 3134 and MAE 4182 or graduate standing. (Spring).

MAE 6260. Nanomechanics. 3 Credits.

Introduction to crystallography; interatomic potentials; phonon dispersion relations; molecular dynamics simulation; Nose-Hoover thermostat; coarse grained non-equilibrium molecular dynamics; multiple length/time scale theory of multi-physics; microcontinuum field theories; applications to nano materials/structures. Prerequisite: approval of department.

MAE 6261. Air Pollution. 3 Credits.

Introductory course on the generation, monitoring, and control of air pollution. Atmospheric pollutants; current levels and health problems. Combustion chemistry and mixing. Photochemical processes; smog and measurements. Atmospheric dispersion; inversion and acid rain. Prerequisite: approval of department.

MAE 6262. Energy Systems Analysis I. 3 Credits.

Analysis of energy resources and conversion devices. Statistical data analysis, forecasting, I/O, and net energy analyses, mathematical modeling. Prerequisite: approval of department.

MAE 6263. Advances in Energy Engineering. 3 Credits.

Review of thermodynamics, heat transfer, fluid dynamics, and materials technology used in the energy industries. New energy-efficient technologies in transportation and buildings; renewable energy (wind, solar, and biomass). Climate change and sustainability issues, such as carbon capture, cap and trade, carbon sequestration.

MAE 6270. Theoretical Acoustics. 3 Credits.

Basic acoustic theory in stationary and uniformly moving media; waves in infinite space; sound transmission through interfaces; sound radiation from simple solid boundaries, source and dipole fields; propagation in ducts and enclosures; elements of classical absorption of sound. Prerequisite: APSC 6213, MAE 6221.

MAE 6271. Time Series Analysis. 3 Credits.

Harmonic analysis of random signals; auto- and cross-correlations and spectra; coherence; modern techniques for spectral estimation, including fast Fourier transform, maximum entropy, and maximum likelihood; bias and variability; randomly sampled data; digital filtering; applications. Prerequisite: approval of department.

MAE 6274. Dynamics/Cntrl of Spacecraft. 3 Credits.

Fundamentals of satellite attitude dynamics and passive stabilization. Spacecraft attitude representation, rotational kinematics and kinetics. External torques. Dynamics of gyroscopes. Gravity gradient stabilization. Effect of internal energy dissipation on stability of spinning bodies and methods of despin. Dual spin satellites. Prerequisite: approval of department.

MAE 6275. Stability and Control of Aircraft. 3 Credits.

Derivation of equations of motion, Euler transformations and direction cosines, stability derivatives and linearization of equations of motion, stability of linear systems with application to longitudinal and lateral dynamics, Laplace transform techniques, and frequency-response analysis. Prerequisite: approval of department.

MAE 6276. Mechanics of Space Flight. 3 Credits.

Coordinate and time systems. Newton's laws; 2-, 3-, and n-body problems, Lagrange points, gravity-assisted trajectories, variation of parameters and orbit perturbations, non-central gravity effects, drag, sun-synchronous, and formation orbits. Numerical applications using MatLab. Prerequisite: approval of department.

MAE 6277. Spacecraft Attitude Control. 3 Credits.

Control of spinning and three-axis stabilized spacecraft. Elements of linear control theory for single-input, single-output systems and basic feedback control laws. Momentum management and actuator desaturation. Sensors for attitude determination. Application of modern control for multi-input, multi-output systems. Control system simulations using MatLab. (As arranged).

MAE 6280. Thermodynamics. 3 Credits.

Review of First and Second Laws of Thermodynamics and combining the two through exergy; entropy generation minimization and applications. Single phase systems, exergy analyses, multiphase systems, phase diagrams and the corresponding states principle. Prerequisite: approval of department.

MAE 6281. Advanced Thermodynamics. 3 Credits.

Development of classical and quantum statistical mechanics, including Maxwell-Boltzman distributions and microscopic origins of entropy and other thermodynamic variables. Partition functions and micro- and grand-canonical ensembles; Fermi-Dirac, Bose-Einstein, and intermediate statistics. Einstein and Debye models of solids. Prerequisite: MAE 6280 .

MAE 6282. Convective Heat/Mass Transfer. 3 Credits.

Heat and momentum transfer in laminar and turbulent flow. The laminar boundary-layer solution. Similarity and nondimensional parameters. Mass-momentum heat transfer analogy. Convective heat transfer at high velocity. Stability, transition, and turbulence. Free convection. Prerequisite: MAE 6221 .

MAE 6283. Radiative Heat Transfer. 3 Credits.

Basic concepts of heat transfer by thermal radiation starting from Planck's equation for blackbody radiation. Realistic engineering problems are addressed, some involving radiative heat transfer with a variety of surfaces, geometries, and enclosures. Radiative heat flow combined with conduction and convection boundaries. Prerequisite: approval of department.

MAE 6284. Combustion. 3 Credits.

Basic combustion phenomena. Rate processes and chemical kinetics. Chain reaction theory. Detonation, deflagration, diffusion flames, heterogeneous combustion. Experimental measurements. Impact of pollution regulations and alternate fuels. Prerequisite: approval of department.

MAE 6286. Numerical Solution Techniques in Mechanical and Aerospace Engineering. 3 Credits.

Development of finite difference and finite element techniques for solving elliptic, parabolic, and hyperbolic partial differential equations. Prerequisite: APSC 6213.

MAE 6287. Applied Finite Element Methods. 3 Credits.

Review of theory of elasticity. Basic aspects of theory and application of finite element methods. Utilization of MSC/NASTRAN for static, dynamic, linear, and nonlinear analyses of problems in mechanical, aeronautical, and astronautical engineering. Course emphasizes individual hands-on experience with the MSC/NASTRAN code. Prerequisite: approval of department.

MAE 6288. Advanced Finite Element Analysis. 3 Credits.

Review of variational formulation of the finite element method. Finite element analysis of large-strain thermomechanics. Applications to static and dynamic problems in finite elasticity, Fung elasticity (biomechanics), nonlocal theory, active stress in living biological tissues, biological growth, and large-strain plasticity. Recent developments in finite element methods. Same as CE 8330. Prerequisite: approval of department.

MAE 6290. Special Topics in Materials Science. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include experimental methods in materials science and nondestructive inspection of materials. Prerequisite: approval of department.

MAE 6291. Special Topics in Mechanical Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include tribology, power systems design, solar heating systems, HVAC, and plasticity theory. Prerequisite: approval of department.

MAE 6292. Special Topics in Aerospace Engineering. 3 Credits.

Selected subjects of current interest. Arranged by consultation between department faculty and students. Typical topics include environmental noise control, aeroacoustics, hypersonic flow, and flight vehicle aerodynamics. May be repeated for credit. Prerequisite: approval of department.

MAE 6298. Research. 1-6 Credits.

Basic research projects as arranged. May be repeated for credit.

MAE 6998. MS Thesis Research. 3 Credits.**MAE 6999. MS Thesis Research. 3 Credits.****MAE 8350. Advanced Topics in Materials Science. 3 Credits.**

Topics such as surface science that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8351. Advanced Topics in Mechanical Engineering. 3 Credits.

Topics such as advanced analytical mechanics, advanced mechanics of continua, and advanced theory of elasticity that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8352. Advanced Topics in Aerospace Engineering. 3 Credits.

Topics such as nonsteady flow, physical gas dynamics, turbulence, and nonlinear wave propagation that are of current research interest. Selected after consultation between department faculty and students. Prerequisite: approval of department.

MAE 8998. Advanced Reading & Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy qualifying examination. May be repeated for credit.

MAE 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

MEDICAL LABORATORY SCIENCE (MLS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MLS 0190. Blood Banking Exam Review. 0 Credits.

Review of professional knowledge in all areas of blood banking.

MLS 1070. Clinical Laboratory Rotation I. 10 Credits.**MLS 1071. Clinical Laboratory Rotation II. 10 Credits.****MLS 1080. Intro to Laboratory Medicine. 0 Credits.****MLS 1081. Clinical Chemistry I. 6 Credits.****MLS 1082. Clinical Chemistry II. 6 Credits.****MLS 1083. Hematology I. 4 Credits.****MLS 1084. Hematology II. 3 Credits.****MLS 1085. Urinalysis and Body Fluids. 2 Credits.****MLS 1086. Clinical Immunology. 2 Credits.****MLS 1087. Blood Banking I. 4 Credits.****MLS 1088. Blood Banking II. 3 Credits.****MLS 1089. Clinical Microbiology I. 5 Credits.****MLS 1090. Clinical Microbiology II. 5 Credits.****MLS 2000. Biology for Health Sciences. 3 Credits.**

This course will cover key concepts in biology with an emphasis on the similarities and differences between organisms and how they interact with their environment and with each other.

MLS 2001. Chemistry for Health Sciences. 3 Credits.

An introduction to basic concepts in general, organic and biological chemistry, including the nature of matter, chemical reactions, stoichiometry, solutions, and the chemistry of biomolecules.

MLS 4101. Introduction to Cytotechnology. 2 Credits.

The history and development of cytology; role and ethical practices of the cytotechnologist in the health care system. Basic cell structure and function with detailed microscopic study of normal squamous, endocervical, and endometrial epithelial cells, as well as other non epithelial cells and contaminants. Principles of microscopy, Kohler illumination, use and maintenance of the microscope. Restricted to METC Cytotechnology Program students.

MLS 4102. Gynecologic Cytology. 3 Credits.**MLS 4103. Abnormal Gynecologic Cytology. 5 Credits.**

Histopathology, cytopathology, etiology, diagnosis, staging, and treatment of benign and malignant disease processes of the female reproductive system. Restricted to METC Cytotechnology Program students.

MLS 4104. Pulmonary Cytology. 2 Credits.

Epithelial appearances and changes associated with normal, benign and malignant processes of the upper and lower respiratory tracts.

MLS 4105. Cytology of the Gastrointestinal Tract, Liver, and Pancreas. 3 Credits.

Characteristics of each body site in relation to normal, benign, and malignant cellular changes. Restricted to METC Cytotechnology Program students.

MLS 4106. Urogenital System Cytology. 2 Credits.

MLS 4107. Body Cavity Fluid Cytology. 3 Credits.

Examines the cytopathology of effusions, cerebrospinal fluids and other body fluids and the cytologic changes associated with benign and malignant processes.

MLS 4108. Fine Needle Aspiration. 5 Credits.

Basic principles of cytopathology applied to cellular samples from fine needle aspirations of the head and neck region, breast, lymph nodes, soft tissues, and bone. Restricted to METC Cytotechnology Program students.

MLS 4109. Cytotechnology Clinical Practicum. 18 Credits.

Clinical experience to apply the objectives learned and to develop the critical screening and interpretative skills to function as a cytotechnologist.

MLS 4110. Independent Study in Cytotechnology. 1 Credit.

Critical review and presentation of published research in the field of cytopathology; completion of an independent research project related to cytology. Restricted to METC Cytotechnology Program students.

MLS 4114. Clinical Microbiology. 2 Credits.

MLS 4115. Parasitology and Mycology. 1 Credit.

MLS 4118. Laboratory Operations. 1 Credit.

MLS 4120. Urinalysis & Body Fluids. 1 Credit.

MLS 4122. Clinical Chemistry. 3 Credits.

MLS 4123. Clinical Microbiology I. 3 Credits.

MLS 4124. Clinical Microbiology II. 2 Credits.

MLS 4126. Immunohematology II. 2 Credits.

MLS 4127. Clinical Immunology. 1 Credit.

MLS 4128. Hematology I. 2 Credits.

MLS 4129. Hematology II. 2 Credits.

MLS 4136. Clinical Experience I. 2 Credits.

This practicum course is an assessment and necessary supervised clinical experience in clinical chemistry. Laboratory fee.

MLS 4137. Clinical Experience II. 2 Credits.

This practicum course is an assessment and necessary supervised clinical experience in microbiology. Laboratory fee.

MLS 4138. Clinical Experience III. 2 Credits.

This practicum course is an assessment and necessary supervised clinical experience in hematology, coagulation and urinalysis. Laboratory fee.

MLS 4139. Clinical Experience IV. 2 Credits.

This practicum course is an assessment and necessary supervised clinical experience in transfusion medicine and serology. Laboratory fee.

MLS 4140. Clinical Laboratory Mgt. 3 Credits.

MLS 4141. Immunology and Serology. 3 Credits.

Principles of the immune system's components, functions, interactions with microorganisms, and the clinical applications of immunologic assays to human health and disease.

MLS 4145. Clinical Biochemistry. 3 Credits.

MLS 4150. Immunohematology. 3 Credits.

MLS 4151. Molecular Diagnostics. 3 Credits.

MLS 4155. Clinical Biochemistry II. 2 Credits.

MLS 4158. Laboratory Management. 3 Credits.

MLS 4159. Capstone Seminar. 1 Credit.

MLS 4160. Blood Bank Practicum. 4 Credits.

Clinical practicum in which students apply medical knowledge and clinical skills gained in MLS 4150. Prerequisites: MLS 4150.

MLS 4161. Clinical Biochemistry Practicum. 4 Credits.

MLS 4162. Hematology and Hemostasis Practicum. 2 Credits.

MLS 4163. Immunology and Serology Practicum. 1 Credit.

MLS 4164. Clinical Microbiology Practicum. 4 Credits.

MLS 4165. Urinalysis Practicum. 1 Credit.

Required one-week clinical rotation for students in the BSHS in MLS or post-baccalaureate MLS certificate program. During this practicum course, the student actively engages in applying the medical knowledge and clinical skills gained in MLS 4120.

MLS 4166. Coagulation Practicum. 1 Credit.

One-week required rotation for students in the Bachelor of Science in Health Science in Medical Laboratory Science (MLS), Post-baccalaureate MLS, or Post-baccalaureated in Hematology for MLS certificate programs. Focus on analyses and laboratory testing of human blood specimens.

MLS 4214. Clinical Microbiology I Laboratory. 1 Credit.

Observation of many of the medically important organisms and practical experience in current diagnostic techniques and identification systems used in clinical practice. Principles, procedures, techniques, and data interpretation for the isolation and identification of clinically significant organisms.

MLS 4215. Clinical Parasitology and Mycology Laboratory. 1 Credit.

Practical experience in the identification of medically significant parasites and fungi.

MLS 4224. Clinical Microbiology II Laboratory. 1 Credit.

Practical experience using patient samples commonly submitted to the microbiology laboratory. Current diagnostic techniques and identification systems used in clinical practice. Principles, procedures, techniques, and data interpretation for the isolation and identification of clinically significant organisms from patient specimens.

MLS 4228. Hematology I Laboratory. 1 Credit.

Diagnostic analyses used to evaluate disease states associated with human blood cells. Emphasis on quality assurance in the hematology laboratory and on the evaluation of stained blood smears and microscopic differentiation of blood cells.

MLS 4229. Hematology II Laboratory. 1 Credit.

Blood and body fluid analyses that are commonly performed in a diagnostic hematology laboratory.

MLS 4245. Clinical Biochemistry I Laboratory. 1 Credit.

Introduction to the principles of various diagnostic testing procedures performed in the clinical biochemistry laboratory. The physiological basis, principles and procedures, and clinical significance of biochemical test results, including quality control and reference values.

MLS 4250. Immunohematology Laboratory. 1 Credit.

Performance of routine blood banking procedures, including blood group and Rh typing, antibody screens, antibody identification, cross matching, and elution and absorption techniques. Prerequisites: Program Standing.

MLS 4251. Molecular Diagnostics Laboratory. 1 Credit.

An introduction to the theory of and laboratory techniques in molecular biology with an emphasis on molecular and serological techniques, including DNA extraction and quantitation, restriction enzyme digestion, polymerase chain reaction, agarose gel electrophoresis, flow cytometry, and ELISA. Prerequisites: Program Standing.

MLS 4255. Clinical Biochemistry II Laboratory. 1 Credit.

The measurement and interpretation of chemical constituents in human blood and body fluids.

MLS 6114. Advanced Clinical Microbiology I. 2 Credits.

Pathogenic characteristics, isolation techniques, specimen collection and handling, laboratory identification, and treatment of medically significant bacteria and viruses with emphasis on current diagnostic techniques used in clinical practice.

MLS 6115. Advanced Clinical Parasitology and Mycology. 1 Credit.

A systematic approach to the biology and epidemiology of human parasitic and fungal diseases. The symptomology, pathology, diagnostic procedures, and treatment of the various parasites and fungi that infect humans. Other topics include disease causation and specimen collection/handling.

MLS 6123. Adv Clinical Microbiology I. 3 Credits.**MLS 6124. Advanced Clinical Microbiology II. 2 Credits.**

The etiology of infectious diseases in different body sites using a case study approach. The epidemiology, pathogenic mechanisms, and laboratory identification of suspected etiologic agents. Commonly encountered clinical species are discussed using case studies that include clinical history, signs and symptoms, and laboratory test results of diseases produced by the etiologic agents.

MLS 6140. Advanced Laboratory Management. 3 Credits.

A problem-based approach to the principles of laboratory management with focus on managerial concepts that provide opportunities to apply theoretical management models to real-life situations in the clinical laboratory.

MLS 6141. Advanced Immunology and Serology. 3 Credits.

Principles of the immune system and the clinical applications of immunology related to the diagnosis of human diseases. Components of the immune system and the functions of each. The various immune-related diseases and how immunologic assays are used in the clinical setting to diagnose and monitor various disease states.

MLS 6151. Advanced Molecular Diagnostics. 3 Credits.

An overview of molecular biology and genetic concepts as well as the molecular techniques used to diagnose human diseases. The technology, theory, and methodology of molecular protocols utilized within a clinical and research laboratory setting.

MLS 6158. Adv Lab Management and Ops. 3 Credits.**MLS 6166. Molecular Diagnostics Practicum. 3 Credits.**

During this practicum course, the student will actively engage in applying molecular techniques to diagnose various human diseases.

MLS 6201. Advanced Clinical Biochemistry. 3 Credits.

The structure and function of biological molecules, including proteins, carbohydrates, lipids, nucleic acids, vitamins, hormones, and buffers as well as their anabolism, catabolism, and regulatory mechanisms. The role of these molecules with regard to human health and the manifestation of disease.

MLS 6203. Clinical Immunohematology I. 5 Credits.**MLS 6204. Clinical Immunohematology II. 5 Credits.****MLS 6207. Clinicl Pract: Blood Banking I. 5 Credits.****MLS 6208. Clinicl Pract: Blood BankingII. 5 Credits.****MLS 6209. Clinicl Pract:Blood BankingIII. 5 Credits.****MLS 6210. Clinicl Immun:Prin & Lab Diag. 4 Credits.****MLS 6211. Hematopoiesis &Blood Pathophys. 2 Credits.****MLS 6212. Organiz & Mgt of Blood Banks. 3 Credits.****MLS 6213. Seminar in Immunohematology. 2 Credits.****MLS 6214. Specialized Practicum. 4 Credits.****MLS 6215. Research Project. 3 Credits.****MLS 6216. Microbial Pathogenesis. 3 Credits.**

A comprehensive overview of the molecular basis of diseases caused by microbial pathogens with a focus on model microbial systems to illustrate mechanisms of the human infectious disease process.

MLS 6217. Medical Biotechnology. 2 Credits.

A comprehensive overview of current molecular technologies and how they are used in modern medicine.

MLS 6218. Genetics. 3 Credits.

This course will cover hereditary and molecular genetics, with an emphasis on genomics and human diseases.

MLS 6219. Molecular Biology. 3 Credits.

This course will emphasize the molecular mechanisms of DNA replication, repair, transcription, translation and gene regulation in prokaryotic and eukaryotic cells.

MLS 6242. Molecular Pathology. 3 Credits.

This course will investigate human disease processes with an emphasis on the molecular and genetic mechanisms of disease. The goal of this class is to advance students' understanding of how molecular, cellular and genetic approaches are used to investigate human diseases. Current knowledge of the molecular and cellular events which lead to various human diseases will be covered, including cardiovascular, neurological and musculoskeletal abnormalities, autoimmunity, endocrine defects, infectious disease and cancer. Through lectures, assigned readings and discussions, current applications and limitations of modern diagnostic medicine and the importance of basic and applied research to further the understanding of human disease will be addressed.

MLS 6243. Education & Assessment in MLS. 3 Credits.

This course studies the process of instructional design and applied to the education and training of MLS professionals. Topics include a fundamental review of instructional strategies, needs assessment, task analysis, analysis of subject-matter content, the development of goals and objectives, lesson design, and the assessment of instructional outcomes. This is a project-oriented course in which students will design, develop, and evaluate a set of MLS instructional materials and assessment tools. In addition, current trends in instructional design as applied to the MLS field will be explored.

MLS 6244. Research Ethics & Integrity. 3 Credits.

This course will address traditional and modern topics in research ethics and scientific integrity. The purpose of this course is to emphasize ethical theory and principles of bioethics while planning and conducting scientific studies. Through lectures, reading assignments, case studies and discussion sessions, the following topics will be covered: ethical theory and principles, scientific and academic integrity, informed consent in research; Institutional Review Boards and the use of human subjects in research; IACUC and the use of animals in research, Institutional Biosafety Committees and the use of recombinant DNA in research; conflicts of interest and commitment; authorship and publication; the peer-review process; collaboration and mentoring; methodology, data reporting and data management; ownership of data and intellectual property; whistleblowing and dispute resolution; and privacy and confidentiality. Students will learn to conduct unbiased peer-review, conduct research and report on an independent examination of a case of research misconduct or other ethical issue, and participate in oral scientific and ethical discussions.

MLS 6245. Current Topics in Medical Laboratory Science. 3 Credits.

Novel findings within each area of the medical laboratory science field, including hematology and hemostasis, immunology and serology, clinical microbiology, immunohematology, clinical chemistry, molecular diagnostics, and laboratory operations and management. The course is designed to enhance critical thinking and problem solving skills. Current topics are integrated into the development of a project proposal for the capstone research project that the student completes the following semester.

MLS 6246. Capstone Project. 3 Credits.

This course will allow students to apply the knowledge gained throughout the program through the completion of an independent, mentored project. A proposal for the capstone project will have been developed by the student as a component of the Current Topics course during the previous semester.

MICROBIOLOGY, IMMUNOLOGY, AND TROPICAL MEDICINE (MICR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MICR 6201. Medical Microbiology. 5 Credits.

Basic principles of medical microbiology (primarily bacteriology, virology, genetics, parasitology, and mycology), including microbial pathogenesis, and clinical infectious diseases. An interdisciplinary approach to the study of infectious organisms and associated diseases by combining aspects of fundamental microbiology, infectious disease, pharmacology, and pathology.

MICR 6202. Immunology. 2 Credits.

The structure and function of the immune system in health and disease, with emphasis on human immunobiology. Topics include humoral and cellular immune responses, immunological tolerance and memory, resistance to microbial pathogens, inflammation and allergy.

MICR 6212. Pathogenic Bacteriology. 2 Credits.

Molecular basis of bacterial pathogens and host-pathogen interactions. Prerequisites: MICR 8210 or permission of instructor.

MICR 6220. Biology of Parasitism: Parasite Strategies of Infection, Survival, and Transmission. 2 Credits.

A comprehensive course examining the strategies parasites use to infect their hosts, how they survive and thrive within their host, and the developmental adaptations they use to ensure transmission of their offspring to the next host. Prerequisite: BISC 2339 or permission of instructor.

MICR 6228. Selected Topics-Microbiology. 2 Credits.

MICR 6229. Immunobiology of Infections. 2 Credits.

MICR 6233. Virology. 2 Credits.

Biochemical, genetic, and pathogenic characterization of viruses. Prerequisites: MICR 8210 or permission of instructor.

MICR 6234. Virology Laboratory. 2 Credits.

MICR 6235. Human and Transforming Viruses. 3 Credits.

Current concepts of transformation and disease caused by RNA and DNA viruses. Prerequisite: MICR 6233 or MICR 8210.

MICR 6236. Fdmntls/Geonomics&Proteomics I. 2-3 Credits.

Same as Bioc 6236.

MICR 6237. Fdmntls/Geonomics&ProteomicsII. 2 Credits.

Same as Bioc 6237.

MICR 6238. Public Health Laboratory Works. 2 Credits.

MICR 6241. Survey-Molecular Bio Technique. 3 Credits.

MICR 6250. Applied Bioinformatics. 2 Credits.

Bioinformatics tools available for DNA/RNA and protein sequence analysis, structural analysis, and data mining. Prerequisite: MICR 6236 or permission of instructor.

MICR 6258. Microbial Genetics. 2 Credits.

MICR 6277. Seminar: Microbiology. 1 Credit.

MICR 6278. Seminar: Microbiology. 1 Credit.

MICR 6283. Virology. 1-12 Credits.

MICR 6290. Extramural Microbiolgy Electve. 1-12 Credits.

MICR 6291. Extramural Microbiolgy Electve. 1-12 Credits.

MICR 6292. Tropical Infectious Diseases. 2 Credits.

Lecture course. Pathogenesis, natural history, and epidemiology of the major infectious diseases that occur in developing countries.

MICR 6293. Special Topics. 1-12 Credits.

Selected topics in microbiology. May be repeated for credit provided the topic differs.

MICR 6294. Research-Clinical Microbiology. 3 Credits.

MICR 6295. Research. 1-12 Credits.

MICR 8210. Infection and Immunity. 3 Credits.

An introduction to the fields of virology, bacteriology, and parasitology, as well as the main concepts of immune response.

MICR 8230. Molecular and Cellular Immunology. 3 Credits.

Major aspects of immunology, including T and B cell effector function, innate immune cell function, mucosal immunology, and immune regulation. Prerequisites: MICR 8210 or other similar introductory immunology course or with approval of staff.

MICR 8270. Advanced Topics in Immunology. 3 Credits.

Seminar series on topics chosen jointly by students and faculty; students present and critique original manuscripts. May be repeated for credit. Prerequisite: MICR 8210, MICR 8230, or approval of staff.

MICR 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

MICR 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

MOLECULAR MEDICINE (MMED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MMED 8214. Molecular Medicine Seminar. 2 Credits.

Research topics in molecular medicine, including oncology, cellular and behavioral neuroscience, pharmacology, physiology, and pathophysiology. May be repeated for credit. Prerequisite: BMSC 8210, BMSC 8212, and consent of instructor.

MMED 8221. The Basic Science of Oncology. 3 Credits.

Epidemiology, genetics, viruses, oncogenes, chemical carcinogenesis, radiation carcinogenesis, tumor growth, metastasis, biochemistry of cancer cells, tumor markers, hormones and cancer, cancer immunobiology, radiotherapy, chemotherapy and immunotherapy.

MMED 8222. Molecular Oncology. 3 Credits.

Seminar course dealing with molecular basis for the topics introduced in MMED 8221. Prerequisites: MMED 8221.

MMED 8281. Molecular Pharmacology and Neurobiology of Excitable Tissues. 3 Credits.

The purpose of this course is to teach graduate students in the biological sciences the basic principles of molecular pharmacology and neurobiology of excitable tissues, and the methods used in these disciplines. The initial sessions are suitable for students with little previous exposure to the subject.

MMED 8282. Neural Development and Neurodevelopmental Disorders. 3 Credits.

Basic concepts of neural development, especially of the cerebral cortex, and their relevance to understanding the pathophysiology of neurodevelopmental disorders.

MMED 8283. Current Topics in Neuroscience. 2 Credits.**MMED 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

MMED 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

MUSEUM STUDIES (MSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MSTD 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

MSTD 6101. Museum Management. 3 Credits.

Overall operation of the museum: legal status of the museum and its obligations to the public; governance, staffing, policymaking as a nonprofit organization. Theory applied to practical situations.

MSTD 6102. NonProfit Fiscal Management. 3 Credits.

Basic concepts of general accounting; fund accounting for nonprofit organizations; budgets and budget systems; use of the budget as a management tool; long-range planning; income sources; other financial management concepts.

MSTD 6103. Leading Change. 3 Credits.

Leadership challenges and styles as they relate to organizational change efforts. Case studies of museums undergoing change; best practices in leadership at all levels of the museum.

MSTD 6104. Managing People and Projects. 3 Credits.

Organizational development and modern management concepts as applied to museums. Managing people in the organization; the importance of project management systems to museum administration.

MSTD 6201. Museum Collections. 3 Credits.

Establishing collections policies; laws, regulations, conventions, and codes that affect acquisitions, deaccessions, loans, and collection care; accountability; access problems.

MSTD 6202. Museum Collections Management. 3 Credits.

The implementation of collections policies: establishing and managing collections, management procedures and systems, documentation of collections, records preservation, collections access and storage, handling, packing and shipping, and inventory control.

MSTD 6203. Preventive Conservation Concepts. 3 Credits.

Historical development of preventive conservation in museums, conservation ethics, team approaches to conservation, interactions of various materials with agents of deterioration. Basics of materials testing, preparation of condition reports, choosing museum storage and exhibition materials, and risk assessment. Same as ANTH 6203 and AH 6286.

MSTD 6204. Preventive Conservation Techniques. 3 Credits.

Practical applications of preventive conservation of materials, monitoring environmental conditions, conducting risk assessments, evaluation of exhibit and storage areas; developing plans, policies, and procedures for collections care; grant proposal preparation for collections care initiatives. Same as ANTH 6204 and AH 6287.

MSTD 6301. Museum Exhibitions: Curatorial Research. 3 Credits.

Museum research from a curatorial point of view, with emphasis on exhibit theory and practice. Research techniques, information sources, and script production.

MSTD 6302. Museum Exhibition Design. 3 Credits.

The processes of research, conceptualization, planning, and evaluation from a designer's point of view. Focus is on individual projects with some group collaboration. The designer's vocabulary, visual thinking, design documentation, and specifications.

MSTD 6303. Advanced Exhibition Design. 3 Credits.

The processes of research, conceptualization, planning, and evaluation from a designer's point of view. Focus is on individual projects with some group collaboration. The designer's vocabulary, visual thinking, design documentation, and specifications.

MSTD 6304. Museum Exhibit Development. 3 Credits.

Research techniques; information sources; script production from a content perspective.

MSTD 6305. Visitor Perspectives: Museum Evaluation in Exhibitions. 3 Credits.

Theory and practice of museum evaluation, especially as related to exhibition development. (Same as EDUC 6706).

MSTD 6501. Museum Internship. 1-3 Credits.

Individual work experience in museums of the Washington area and possibly elsewhere. Each student should make arrangements with the Museum Studies Program staff. Museum internships are supervised by one or more members of the cooperating museum staff in the areas of museum management, object care and conservation, and exhibiting.

MSTD 6502. Directed Research. 3 Credits.

Individual research on special topics in the museum field. Topics must be approved by the director of the Museum Studies Program. May be repeated for credit.

MSTD 6601. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs.

MSTD 6701. Museum Hist&Theory. 3 Credits.

Museums viewed from historical, philosophical, and practical perspectives. Examination and comparison of types of collecting organizations. Analysis of contemporary studies on the status of museums and their public programs.

MSTD 6702. Museums and the Public: Exhibiting Culture. 3 Credits.

An introduction to the wide range of problems, possibilities, and choices that are part of the cultural landscape of how museums interact with their audiences through public programs. (Same as ANTH 6202).

MUSIC (MUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

MUS 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

MUS 1052. Class Piano for Music Majors and Minors. 1 Credit.

Study of the rudiments of musical notation and piano playing in a small classroom setting. Open to majors and minors who need basic keyboard facility.

MUS 1061. Instrumental Ensemble. 1 Credit.

Chamber ensemble groups are approved by audition. Section numbers are .11 guitar ensemble, .12 percussion ensemble, .13 jazz combo, .14 keyboard ensemble, .15 string ensemble, .16 woodwind ensemble, .17 brass ensemble, .18 Baroque ensemble, .19 Latin band, .20 blues band.

MUS 1071. Jazz Band. 1 Credit.

Preparation and performance of classic and contemporary "big band" literature. Prerequisite: audition before director.

MUS 1081. Orchestra. 0-1 Credits.

Preparation and performance of orchestral literature. Prerequisite: audition before director.

MUS 1083. University Band. 0-1 Credits.

Consisting of two ensembles: The University Symphonic Band and GW Colonial Brass. See schedule of classes for section information. Audition before director required.

MUS 1091. University Singers. 0-1 Credits.

Preparation and performance of choral literature. Prerequisite: audition before director. Section .10 is University Singers; Section .11 is Chamber Choir.

MUS 1093. University Singers/Chamber Choir. 1 Credit.

Preparation and performance of choral literature. Section .10 is University Singers; Section .11 is Chamber Choir. Prerequisite: audition before director.

MUS 1095. Vocal Theater Workshop. 1 Credit.

Development of body awareness for the stage, acting improvisations, and character development. Scenes chosen from the opera, operetta, and musical theater repertoire. Musical coaching, use of makeup, and audition preparation.

MUS 1101. Elements of Music Theory. 2 Credits.

Notation, scales, keys, intervals, terms, rhythms, and chord structure and progression. Introduction to music literature, with emphasis on rudimentary aural analysis.

MUS 1102. Comprehensive Musicianship I. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard. Prerequisite: MUS 1101, MUS 1051.

MUS 1103. Music in the Western World. 3 Credits.

Introductory history of musical styles, related to listening; study of music materials and media. Not open to music majors.

MUS 1104. Topics in Music. 3 Credits.

A rotating set of classes; topics may include: American music, a composer, the opera, and musical life in Washington, D.C.

MUS 1105. Introduction to Musical Thought and Practice. 3 Credits.

Introduction to concepts, methods, and practices that guide the study and performance of music. Old and new paradigms of musical thought are subject to discussion and critical investigation.

MUS 1106. Introduction to Musical Performance and Experience. 3 Credits.

Through discussion, writing, and performance, students engage with issues such as the putative transcendent character of music, the false divisions between interpretation, improvisation, and composition, and the impact of modernity on expressive culture. Placing their own processes of musical decision making within these conceptual frames allows students to interrogate and develop their performative and social selves. Restricted to Register for this course in the Music department.

MUS 1107. Music of the World. 3 Credits.

Introduction to music in culture through comparative study of music from a variety of cultures worldwide.

MUS 1108. History of Jazz. 3 Credits.

Introduction to the styles, composers, and performers of jazz music from its origins to the present.

MUS 1151. Conducting. 3 Credits.

Technique of conducting, score reading, rehearsal procedures, analysis, and interpretation of selected musical literature; practice in conducting. Prerequisite: MUS 2101.

MUS 1511. Piano. 1 Credit.

MUS 1512. Piano. 2 Credits.

MUS 1513. Voice. 1 Credit.

MUS 1514. Voice. 2 Credits.

MUS 1515. Organ. 1 Credit.

MUS 1516. Organ. 2 Credits.

MUS 1517. Classical Guitar. 1 Credit.

MUS 1518. Classical Guitar. 2 Credits.

MUS 1519. Violin. 1 Credit.

MUS 1520. Violin. 2 Credits.

MUS 1521. Viola. 1 Credit.

MUS 1522. Viola. 2 Credits.

MUS 1523. Cello. 1 Credit.

MUS 1524. Cello. 2 Credits.

MUS 1525. Bass. 1 Credit.

MUS 1526. Bass. 2 Credits.

MUS 1527. Flute. 1 Credit.

MUS 1528. Flute. 2 Credits.

MUS 1529. Recorder. 1 Credit.

MUS 1530. Recorder. 2 Credits.

MUS 1531. Oboe. 1 Credit.

MUS 1532. Oboe. 2 Credits.

MUS 1533. Clarinet. 1 Credit.

MUS 1534. Clarinet. 2 Credits.

MUS 1535. Saxophone. 1 Credit.

MUS 1536. Saxophone. 2 Credits.

MUS 1537. Bassoon. 1 Credit.

MUS 1538. Bassoon. 2 Credits.

MUS 1539. French Horn. 1 Credit.

MUS 1540. French Horn. 2 Credits.

MUS 1541. Trumpet. 1 Credit.

MUS 1542. Trumpet. 2 Credits.

MUS 1543. Trombone. 1 Credit.

MUS 1544. Trombone. 2 Credits.

MUS 1545. Tuba. 1 Credit.

MUS 1546. Tuba. 2 Credits.

MUS 1547. Harp. 1 Credit.

MUS 1548. Harp. 2 Credits.

MUS 1549. Percussion. 1 Credit.

MUS 1550. Percussion. 2 Credits.

MUS 1555. Lute. 1 Credit.

MUS 1556. Lute. 2 Credits.

MUS 1557. Harpsichord. 1 Credit.

MUS 1558. Harpsichord. 2 Credits.

MUS 1571. Jazz Perf. Tech. 1 Credit.

MUS 1572. Jazz Performance Techniques. 2 Credits.

MUS 2012. Piano. 2 Credits.

Prerequisite: Open by examination.

MUS 2014. Voice. 2 Credits.

Prerequisite: Open by examination.

MUS 2016. Organ. 2 Credits.

Prerequisite: Open by examination.

MUS 2018. Classical Guitar. 2 Credits.

Prerequisite: Open by examination.

MUS 2020. Violin. 2 Credits.

Prerequisite: Open by examination.

MUS 2022. Viola. 2 Credits.

Prerequisite: Open by examination.

MUS 2024. Cello. 2 Credits.

Prerequisite: Open by examination.

MUS 2026. Bass. 2 Credits.

Prerequisite: Open by examination.

MUS 2028. Flute. 2 Credits.

Prerequisite: Open by examination.

MUS 2030. Recorder. 2 Credits.

Prerequisite: Open by examination.

MUS 2032. Oboe. 2 Credits.

Prerequisite: Open by examination.

MUS 2034. Clarinet. 2 Credits.

Prerequisite: Open by examination.

MUS 2036. Saxophone. 2 Credits.

Prerequisite: Open by examination.

MUS 2038. Bassoon. 2 Credits.

Prerequisite: Open by examination.

MUS 2040. French Horn. 2 Credits.

Prerequisite: Open by examination.

MUS 2042. Trumpet. 2 Credits.

Prerequisite: Open by examination.

MUS 2044. Trombone. 2 Credits.

Prerequisite: Open by examination.

MUS 2046. Tuba. 2 Credits.

Prerequisite: Open by examination.

MUS 2048. Harp. 2 Credits.

Prerequisite: Open by examination.

MUS 2050. Percussion. 2 Credits.

Prerequisite: Open by examination.

MUS 2058. Harpsichord. 2 Credits.

Prerequisite: Open by examination.

MUS 2071. Jazz Performance Techniques. 1-3 Credits.**MUS 2072. Jazz Performance Techniques. 2 Credits.**

Prerequisite: Open by examination.

MUS 2101. Harmony. 3 Credits.

Study of tonal harmonic practice from Baroque, Classical, Romantic, and 20th-century repertoires. Concurrent registration in the weekly keyboard lab is required.

Prerequisite: MUS 1102.

MUS 2102. Comprehensive Musicianship II. 3 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard.

Prerequisite: MUS 2101.

MUS 2105. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Same as ANTH 2505.

Prerequisite: MUS 1101 or ANTH 1002 or ANTH 1004 or permission of instructor.

MUS 2105W. Introduction to Ethnomusicology. 3 Credits.

Models of understanding music as a cultural endeavor.

Application and critique of models in the design and execution of student independent field research. Same as ANTH 2505.

Prerequisite: MUS 1101 or ANTH 1002 or ANTH 1004 or permission of instructor.

MUS 2106. Music History III: 20th-Century Art Traditions. 3 Credits.

Western musical traditions and styles since Romanticism and approaches to music as art in contemporary society.

Prerequisite: MUS 1101.

MUS 2122. Music in the US. 3 Credits.

History of music and musical life in the United States, emphasizing relationships among traditions of diverse origin.

Prerequisite: MUS 1101 or permission of instructor.

MUS 2122W. Music in the US. 3 Credits.

History of music and musical life in the United States,

emphasizing relationships among traditions of diverse origin.

Prerequisite: MUS 1101 or permission of instructor.

MUS 2123. Musical Cultures of Black Americans. 3 Credits.

Musical genres and styles developed by African Americans since Reconstruction in their historical and cultural contexts.

Emphasis on black musical contributions to the cultural life of Washington, D.C.

MUS 2134. Composition. 3 Credits.

Introduction to 21st-century compositional practice; concepts of post-tonal analysis; emphasis on style studies and original student works. May be repeated for credit. Prerequisite: MUS 2101.

MUS 2140. Pedagogy. 3 Credits.

Principles, materials, and methods of teaching in selected areas. Prerequisite: permission of instructor.

MUS 2173. Comprehensive Musicianship for Jazz. 2 Credits.

Aural and keyboard skills development through dictation, sight singing, and performance and improvisation at the keyboard, with emphasis given to skills associated with jazz performance.

Prerequisite: MUS 1102.

MUS 2174. Introduction to Jazz Harmony. 3 Credits.

Analysis and composition of tunes in jazz/pop styles. Study of rhythmic characteristics, voice-leading, and chord/scale relationships within a jazz context. Prerequisite: MUS 1102.

MUS 2318. Orchestral Instrument. 2 Credits.

Prerequisite: Open by examination.

MUS 2661. Electronic and Computer Music I. 3 Credits.

Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee.

MUS 2662. Electronic and Computer Music II. 3 Credits.

Continuation of MUS 2661. Fundamental electronic and computer music concepts. Analog and digital sound synthesis techniques and theory, MIDI, studio recording techniques, signal processing, properties of sound, acoustics and psycho-acoustics, history and aesthetics. Laboratory fee. MUS 2661 is prerequisite to MUS 2662.

MUS 3126. Music History I: Antiquity through Early Baroque. 3 Credits.

The development of Western European music from its earliest traceable roots to the end of the early, experimental Baroque period. Prerequisite: MUS 1102 and sophomore standing.

MUS 3127. Music History II: The Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late 17th through the late 19th centuries. Prerequisite: MUS 1102.

MUS 3127W. Music History II: Tonal Era. 3 Credits.

Styles, structures, social foundations and aesthetic change in European music of the late 17th through the late 19th centuries. Prerequisite: MUS 1102.

MUS 3139. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Prerequisite: MUS 2101 .

MUS 3139W. Form and Analysis. 3 Credits.

Analysis of musical forms in representative musical literature. Prerequisite: MUS 2101 .

MUS 3174. Topics in Music Theory and Composition. 3 Credits.

A seminar on variable topics in the discipline of music theory, analysis, and composition. Topics may include analysis of post-tonal music, advanced jazz arranging, analysis of 14th-century vocal music, developments in extended instrumental techniques since 1950. Prerequisites depend on the topic; consult the department.

MUS 3175. Topics in Music History and Literature. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, D.C. Prerequisites depend on the topic; consult the department.

MUS 3175W. Topics in Music History & Lit. 3 Credits.

A seminar on variable topics in music history and literature in all traditions and styles. Topics may include German musical Romanticism, introduction to critical musicology, the music of Josquin des Prez, and vernacular music in Washington, D.C. Prerequisites depend on the topic; consult the department.

MUS 4085. Advanced Performance Study. 3 Credits.

Prerequisite: Open by examination.

MUS 4184. Advanced Composition. 3 Credits.

Private instruction in composition in tutorial format.

Prerequisite: MUS 2134.

MUS 4198. Senior Seminar. 1 Credit.

Restricted to music majors in their final spring semester. Presentations of required senior projects in process; readings and discussion to place the projects in a broader musical and intellectual context. Corequisite: MUS 4199 or any upper-division private performance study course.

MUS 4199. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite.

MUS 4199W. Independent Research. 1-4 Credits.

Under the guidance of an assigned instructor. May be repeated for credit. Majors in their senior year take MUS 4198 as a corequisite.

NAVAL SCIENCE (NSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

NSC 1051. Introduction to Naval Science. 3 Credits.

Introduction to the naval profession and to concepts of sea power. The mission, organization, and warfare components of the U.S. Navy and Marine Corps. Overview of officer and enlisted ranks and rates, training and education, and career patterns. Naval courtesy and customs, military justice, leadership, and nomenclature. Professional competencies required to become a naval officer.

NSC 1052. Naval Ships Systems 1(Engrng). 3 Credits.

A detailed study of ship characteristics and types, including ship design and control, propulsion, hydrodynamic forces, stability, compartmentation, and electrical and auxiliary systems. Included are basic concepts of the theory and design of steam, gas turbine, and nuclear propulsion.

NSC 2125. Naval Ships Systems 2(Weapons). 3 Credits.

Theory and employment of weapons systems, including the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance, and explosives. Fire control systems and major weapon types, including capabilities and limitations. Physical aspects of radar and underwater sound. Facets of command, control, and communications as means of weapons system integration.

NSC 2126. Sea Power and Maritime Affairs. 3 Credits.

A survey of the U.S. naval history. Naval aspects of U.S. conflicts from the American Revolution to the global war on terror. The influence of technological innovation, domestic politics, and foreign policy on the development and execution of naval doctrine and tactics.

NSC 2150. Navigation. 3 Credits.

Development of practical skills in naval piloting procedures. Charts, visual and electronic aids, and magnetic and gyro compasses; inland and international rules of the nautical road. The celestial coordinate system, including spherical trigonometry and how celestial information can be applied to navigation at sea. Environmental factors affecting naval operations.

NSC 2151. Naval Operations and Seamanship. 3 Credits.

Relative motion vector analysis theory, formation tactics, and ship employment; practical skills in relative motion problems. Controllable and noncontrollable forces in shiphandling, ship behavior, and maneuvering characteristics; various methods of visual communication, including flaghoist, flashing light, and semaphore.

NSC 2160. Evolution of Warfare. 3 Credits.

This course traces the development of warfare, from earliest recorded history to the present, with focus on the impact of major military theorists, strategists, tacticians, and technological developments. The student acquires a basic sense of strategy and develops an understanding of military alternatives and the impact of historical precedent on military thought and actions.

NSC 2175. Leadership & Management 1. 3 Credits.

Organizational behavior, management, and leadership principles in the context of naval organization. The management functions of planning, organizing, leading, and controlling; individual and group behavior in organizations; motivation and leadership. Decision making, communication, responsibility, authority, and accountability.

NSC 2180. Amphibious Warfare. 3 Credits.

A historical survey of the development of amphibious doctrine and the conduct of amphibious operations. The evolution of amphibious warfare in the 20th century, especially during World War II. Present-day potential and limitations on amphibious operations, including the concept of rapid deployment force.

NSC 4176. Leadership and Ethics. 3 Credits.

A capstone course that completes the NROTC preparations for midshipmen commissioning as Ensigns and Second Lieutenants. Application of Western moral traditions and ethical philosophy to issues involving military leadership, core values, the Uniform Code of Military Justice, and Navy regulations.

NSC 4176W. Leadership and Ethics. 3 Credits.

NURSING (NURS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

NURS 3101. Ethical Foundations of Nursing. 3 Credits.

Theories and principles related to common ethical and moral dilemmas faced by nursing professionals in their clinical practice. Methods of analyzing and resolving moral dilemmas using clinical decision making frameworks; methods for increasing awareness by examining and understanding the impact of the nurse's own value system.

NURS 3102. Nutrition for Health Professionals. 3 Credits.

Fundamentals of human nutrition and their scientific foundations. Nutritional requirements related to changing individual and family needs; food choices, health behaviors, food safety, prevention of chronic disease, and nutrition-related public health in the United States and globally.

NURS 3103. Human Anatomy and Physiology I. 4 Credits.

Designed for students entering the allied health professions. Fundamental structures and functions as they relate to the human body, including homeostasis, anatomical language and body organization, tissues and histology, integumentary; and skeletal, muscular, nervous and endocrine systems. Requires a basic background in introductory cell/molecular biology; an equivalent course with a minimum grade of C may be substituted for the prerequisite. Prerequisite: BISC 1111.

NURS 3104. Human Anatomy and Physiology II. 4 Credits.

Continuation of NURS 3103. Fundamental structures and functions as they relate to the human body, including homeostasis, anatomical language and body organization, tissues and histology; and cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Requires a basic background in introductory cell/molecular biology. Prerequisite: NURS 3103.

NURS 3110. Transition into the Nursing Profession. 2 Credits.

Historical and evolutionary perspectives in nursing in the context of current issues and trends in health care delivery and professional nursing. Values and characteristics of professional nursing practice by examining legal, regulatory, ethical issues, critical reasoning, evidence-based practice, and nursing self-care. Same as NURS 3110W.

NURS 3110W. Transition: Nursing Profession. 2 Credits.

Historical and evolutionary perspectives in nursing considered in the context of current issues and trends in health care delivery and professional nursing. The values and characteristics of professional nursing practice are examined in terms of legal, regulatory, and ethical issues as well as critical reasoning, evidence-based practice, and nursing self-care.

NURS 3111. Foundations of Health Assessment. 3 Credits.

Development of the knowledge and skills necessary for conducting comprehensive and need-specific health assessments for individuals in the context of their family and community; determining areas in which health promotion activities should be implemented or reinforced. Students use structured interviews to elicit health histories and health practices and perform physical examinations in a systematic manner. Identification of a broad range of normal variations through practice with peers in the laboratory setting. Nursing practice in the laboratory setting, including physical mobility, safety, infection control, drug calculation, medication administration, and other health technologies.

NURS 3112. Nursing Practice and Clinical Reasoning 1: Adult and Aging Acute and Chronic Illness. 3 Credits.

The values, knowledge and competencies at the foundation of safe, evidence-based, professional holistic nursing care of adults with common medical and surgical needs; essentials of the nursing process and disease process; expected outcomes and effects of nursing interventions with adults experiencing selected health conditions at multiple levels of care.

NURS 3113. Clinical Skills Lab: Adult Medical-Surgical 1. 6 Credits.

Foundational values, knowledge, skills, and competencies for safe, evidence-based, professional, and holistic nursing care of adults with common medical and surgical needs, and using critical thinking and effective communication skills to deliver such care in clinical and laboratory environments.

NURS 3114. Nursing Practice and Clinical Reasoning 2: Advanced Adult Medical-Surgical. 3 Credits.

Builds upon the basic concepts introduced in NURS 3112 by introducing complex, multi-system disease processes requiring a higher level of critical thinking. Safe, evidence-based, professional, and holistic nursing care related to the management of clients with advanced medical and surgical needs; knowledge, skills, and competencies for assessing and managing clients/patients in a hospital environment. Prerequisites: NURS 3110, NURS 3111, NURS 3112, NURS 3113 and NURS 3118.

NURS 3115. Clinical Skills Lab: Adult Medical-Surgical 2. 4 Credits.

Builds upon the basic concepts introduced in NURS 3113 by introducing complex, multi-system disease processes requiring a higher level of critical thinking. Safe, evidence-based, professional, and holistic nursing care related to the management of clients with advanced medical and surgical needs; knowledge, skills, and competencies for assessing and managing clients/patients in a hospital environment. Prerequisites: NURS 3110, NURS 3111, NURS 3112, NURS 3113 and NURS 3118.

NURS 3116. Nursing Practice and Clinical Reasoning 3: Psychiatric Mental Health. 3 Credits.

Theoretical principles, concepts, and skills applicable to the provision of safe and effective nursing interventions to clients across the lifespan who are experiencing psychiatric and mental health conditions. Application of scientific principles; assessing, planning, and evaluating nursing interventions; developing therapeutic communication, critical reasoning, analytical skills. Practical learning for promoting wellness of clients in acute and/or community-based psychiatric health care settings. Prerequisites: NURS 3110, NURS 3111, NURS 3112, NURS 3113 and NURS 3118.

NURS 3117. NCPR: 4 Maternity/Women Hlth. 3 Credits.

NURS 3118. Pharmacology 1. 2 Credits.

The underlying principles of pharmacology and medication administration; historical perspective on pharmacotherapy, legal/ethical responsibilities of the nurse in drug administration, regulatory (FDA) drug approval process, major drug classifications, and nursing management required for drug therapy; basic principles of pharmacokinetics, pharmacodynamics, pharmacotherapeutics, medication calculations, drug-drug interactions, contraindications/precautions, and adverse effects; the nursing process and patient teaching principles as they relate to pharmacologic concepts.

NURS 4099. Variable Topics. 1-6 Credits.

Assigned topics determined by the School of Nursing.

NURS 4116. NPCR 5: Children & Families. 3 Credits.

NURS 4117. NPCR 6: Epidemiology & Comm Health. 3 Credits.

NURS 4119. Patient Safety & Hlth Care Quality. 3 Credits.

NURS 4120. Capstone: Transition to Practice. 6 Credits.

NURS 4121. Nursing Advancement Portfolio. 0-15 Credits.

Upon admission to one of the Associate's Degree in Nursing Pathway to Bachelor of Science in Nursing/Master of Science in Nursing programs, a student's professional portfolio is evaluated and between 0-15 credits are awarded as part of the total credits required for the bachelor's degree. If fewer than 15 credits are awarded, completion of one or more of the following courses may be required, as determined by the program director: NURS 3112, NURS 3113, and NURS 3118. In lieu of tuition, a \$500 portfolio evaluation fee is charged for this course.

NURS 6180. Dimensions of Prof. Nursing. 3 Credits.

NURS 6202. Concepts in Population Health. 3 Credits.

Graduate-level nurses integrate and synthesize concepts associated with quality, health promotion, disease prevention, and chronic health problems with communities, the general population, and specific population groups. Issues related to culturally diverse and vulnerable populations.

NURS 6203. Nursing Leadership. 3 Credits.

Evidence-based leadership skills as a core competency in nursing to improve quality in patient care and strengthen nursing as a profession. Emphasis on theories of leadership, personal leadership, skill building, team-building techniques, change, conflict resolution, motivation, and communication skills.

NURS 6204. Health Information and Technology. 3 Credits.

Key issues and concepts related to the use of technology and information management to support the provision of high quality health care and outcomes.

NURS 6205. Health Policy, Quality, Political. 3 Credits.

The health policy process and analysis relevant to the three main thrusts of policy: cost, quality and access. Political, social, economic, and population factors that influence this process. Comparisons to health systems in other countries as appropriate. Quality science and informatics in the context of interdisciplinary, coordinated, and ethical health care delivery.

NURS 6207. Evidence-Based Practice for Health Care Researchers. 3 Credits.

The methodological issues of health care research. Appraisal and synthesis of research results and evidence-based methods. Identification and use of appropriate inquiry methodologies; ethical implications of research and translational scholarship.

NURS 6208. Biostatistics for Health Care Research. 3 Credits.

Introduction to the basic ideas and modeling approaches used in biostatistics through the use of health care research data. Descriptive and inferential statistics; identification of appropriate statistical procedures and estimation of appropriate sample size. Application of univariate, bivariate, and multivariate statistical procedures.

NURS 6209. Transitional Care. 3 Credits.

Transitional care planning and implementation, including pertinent health care policy, transitional care models, inter-professional collaboration, quality outcomes, multifaceted interventions, and the patient engagement dynamics that influence patient-centered care transitions in the current health care environment. Recommended background: BSN.

NURS 6210. Building a Quality Culture. 3 Credits.

NURS 6211. Health Care Quality Landscape. 3 Credits.

NURS 6212. Quality Improvement Science. 3 Credits.

NURS 6213. Health Care Quality Analysis. 3 Credits.

NURS 6214. Patient Safety Systems. 3 Credits.

NURS 6220. Advanced Physiology and Pathophysiology. 3 Credits.

System-focused advanced physiology and pathophysiology for analysis of health deviations across the life span. Interpretation of changes in normal function that result in symptoms indicative of illness. This systematic assessment is foundational to clinical decision making and management of health deviations.

NURS 6222. Advanced Health Assessment and Diagnostic Reasoning. 4 Credits.

Nurse Practitioner and nurse-midwifery students will acquire the knowledge, skills and clinical foundation for advanced health assessment and diagnostic reasoning in the ambulatory health care setting. This course is a prerequisite to all other clinical courses and includes a fifteen-week online didactic course, a 75-hour clinical practicum and a three day, on-campus skills training session.

NURS 6224. Adult/Gerontology Primary Care Nurse Practitioner 1, Practice Introduction. 4 Credits.

Theoretical and practical foundations of common primary care conditions in the adult patient. Assessment, diagnosis, and management of culturally diverse adults. Advanced decision making and clinical judgment, evidence-based practice, health promotion and disease prevention. Concurrent clinical practicum in a primary care setting under the supervision of preceptors and faculty. Prerequisites: NURS 6220, NURS 6222, NURS 6234.

NURS 6225. Adult/Gerontology Primary Care Nurse Practitioner 2, Adolescent & Adult. 8 Credits.

Theoretical and practical foundations of primary care of culturally diverse adolescents, adults, and older adults with chronic health problems. Synthesis and integration of advanced decision-making skills, including diagnostic reasoning and clinical judgment, health assessment, health promotion, technology, and evidence-based practice. Concurrent clinical practicum in which students manage patients in a primary care setting under the supervision of preceptors and faculty. A two- to three-day on-campus session is required. Prerequisites: Nurs 6224.

NURS 6226. Primary Care of the Family. 5 Credits.

The theoretical and practical foundations of family primary care.

NURS 6227. Family Nurse Practitioner Clinical Practicum. 1-7 Credits.

Clinical experiences focused on the primary care needs of women, adults, older adults, children, and childbearing families. Students complete a total of 7 credits in this course as their clinical experience.

NURS 6228. Advanced Family Primary Care. 5 Credits.

Seminar and clinical practicum focusing on the integration of the family nurse practitioner role through the application of family theory and evidenced-based practice in primary care settings.

NURS 6229. Adult/Gerontology Primary Care Nurse Practitioner 3, Adult, Older/Frail. 8 Credits.

Theoretical and evidence-based practice foundations for assessment and management of patients across the aging continuum. The physiologic, psychological, socioeconomic, emotional, cultural, and spiritual dimensions of the older adult in relationship to self, family, care-givers, and the health-care system are emphasized. Concurrent clinical practicum in which the student manages patients across the older-age spectrum under the supervision of preceptors and faculty. An on-campus visit is required in which students participate in a Standardized Patient final examination test-out. Prerequisites: Nurs 6225.

NURS 6230. Family Nurse Practitioner 1, Lifespan Primary Care/Diagnosis/Management. 4 Credits.

First clinically based course for family nurse practitioner students. Didactic and clinical experiences in primary care, focusing on prevention and common/chronic health problems across the lifespan. Prerequisites: NURS 6220 Advanced Pathophysiology, NURS 6222 Advanced Health Assessment, NURS 6234 Advanced Pharmacology.

NURS 6231. Family Nurse Practitioner 2, Lifespan Primary Care/Diagnosis/Management. 8 Credits.

Second clinically based course for family nurse practitioner students. Didactic and clinical experiences in family nurse practitioner care, focusing on prevention and common/chronic health problems across the lifespan. Prerequisites: N6220 Advanced Pathophysiology, N6222 Advanced Health Assessment, N6234 Advanced Pharmacology, N6230 FNP I.

NURS 6232. Family Nurse Practitioner 3, Professional Issues/Diagnosis/Management. 8 Credits.

Third course for family nurse practitioner students. Didactic and clinical experiences in primary care, focusing on prevention and common/chronic health problems across the lifespan. Consideration of professional issues for FNP: Role development, certification, ethical issues in practice, inter-professional collaboration, and health care reimbursement issues are discussed and related to current clinical experiences. Prerequisites: Nurs 6220 Advanced Pathophysiology, Nurs 6222 Advanced Health Assessment, Nurs 6234 Pharmacology, Nurs 6230 FNP I, Nurs 6231 FNP 2.

NURS 6233. Genetics for Healthcare Providers. 3 Credits.

Basic scientific principles of genetics and their clinical applications.

NURS 6234. Advanced Pharm for Nursing. 3 Credits.

This course will cover an introduction to pharmacotherapeutics as it primarily applied to Advanced practice Nurses in Primary Care settings. The course will briefly review key pathophysiologic points, and then will discuss the pharmacotherapeutic interventions that may be considered in the treatment of disease. The course will begin with a general introduction to the foundations for professional practice and the concepts of pharmacoeconomics, pharmacokinetics, pharmacodynamics, and pharmacogenetics will be introduced. Issues surrounding community practices in pharmacotherapeutics will be explored. The course will then focus on pharmacological interventions in the spectrum of disease states seen in primary care practices involving the Nervous system, Immune System, Cardiovascular system, Hematologic system, Genitourinary system, Gastrointestinal system, Respiratory system, Endocrine system, Sensory systems, and the Skin.

NURS 6239. Bridge to Nurse Midwifery. 1 Credit.

NURS 6241. The Health Care Enterprise. 3 Credits.

Overview of general management business principles related to health care systems. Management of patient-centered care delivery; strategic health care leadership; organizational, marketing, and fiscal management principles. Same as HSCI 6241.

NURS 6256. Intro to Palliative Care. 3 Credits.

NURS 6258. Leadership Capstone Pract I. 3 Credits.

Nursing 6258 is the first of a two-semester capstone course designed to provide a mentored practicum that offers the opportunity to apply leadership content and refine leadership abilities in a setting and practice area mutually agreed upon by the student and course faculty.

NURS 6259. Leadership Capstone Pract II. 3 Credits.

Nursing 6259 is a continuation of NURS 6258 and is designed to provide a mentored internship practicum, the opportunity to apply leadership content, and refine leadership abilities.

NURS 6260. Foundations of Coaching. 3 Credits.

Nurse coaching methodology and competencies. Leadership and therapeutic relationship skills and the theory and meta-science fundamental to each skill. Assessing readiness for change, building trust and warmth, obtaining and holding the clients agenda, visioning, awareness raising techniques, brainstorming, and goal setting.

NURS 6261. Advanced Coaching Skills. 3 Credits.

Builds on concepts introduced in NURS 6260. Multidisciplinary and nursing theories foundational to nurse coaching. Advanced coaching techniques and common coaching topics and contexts such as weight loss, stress and time management, and executive coaching. Prerequisites: NURS 6260.

NURS 6262. Leadership Coaching in Nursing. 3 Credits.

Theoretical foundations and evidence for leadership coaching in nursing; the different applications of coaching in nursing management. Executive coaching, team coaching, peer coaching, and personal career coaching. Application and evaluation of multiple models, competencies, and methodologies for nursing leadership coaching through learning activities and live demonstration. Creation of a complete evidence-based coaching strategy for a case study.

NURS 6272. HumanResrcDev/HlthProfPractice. 3 Credits.**NURS 6273. Health Info Quality & Outcomes. 3 Credits.****NURS 6274. Health Economics & Finance. 3 Credits.****NURS 6275. Leadership &Change/Health Care. 3 Credits.****NURS 6276. Foundations of Palliative Care. 3 Credits.****NURS 6277. Pain and Suffering. 3 Credits.****NURS 6278. PalliativeCare:Chronic Illness. 3 Credits.****NURS 6279. Palliative Care Practicum I. 1-4 Credits.****NURS 6280. Palliative Care Practicum II. 1-4 Credits.****NURS 6281. PC Leadership and Management. 2 Credits.****NURS 6291. AdvTopics. 1-9 Credits.****NURS 6292. Teachw/Tech.inHealthProfession. 3 Credits.****NURS 6293. Healthcare Quality Practicum. 3 Credits.**

Application of quality improvement processes and patient safety theories, models, methods, and tools in health care settings to conceive and execute a quality improvement (QI) project in an organizational setting. The final deliverable is a comprehensive QI project report.

NURS 8410. Executive Presence I. 2 Credits.**NURS 8411. Executive Presence II. 2 Credits.**

This is a continuation of Executive Presence I. In this course, the student will examine power shifts in leadership, revisit change as a stimulus for innovation, participate in an interactive session for individuals who can practice communicating their practicum proposals and receiving friendly feedback and constructive input from their peers, and re-evaluate the leadership development plan designed in Executive Presence I.

NURS 8412. HC Finance for Nurse Leaders. 3 Credits.**NURS 8414. DNP Residency. 3 Credits.****NURS 8498. Research Project Proposal. 3 Credits.****NURS 8499. Clinical Research Project. 3 Credits.**

ORGANIZATIONAL SCIENCES (ORSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

ORSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

ORSC 1109. Introduction to Organizational Sciences. 3 Credits.

The evolution of organizations in terms of social context and the present-day systems environment. Emerging roles of leadership, communication, and employer-employee relationships. Organizational models are used to develop strategic thinking about career and life roles.

ORSC 2046. Global Organizations. 3 Credits.

The globalization of organizations as the engine for the global movement of talented and skilled professionals; the increasing focus of organizations on attracting, utilizing, and developing such individuals. Issues related to the formulation of global strategy and the leadership of global talent. Prerequisites: ORSC 1109.

ORSC 2116. Leading Change. 3 Credits.

An in-depth introduction to and analysis of concepts and techniques of leadership, including motivation, goal alignment, incentives, teamwork, and communication. Conceptual and empirical background of the management of change. Prerequisites: ORSC 1109.

ORSC 2123. Negotiation and Conflict Resolution. 3 Credits.

Theories in psychology, management, and communication as applied to individual-, group-, and organizational-level contexts of negotiation and conflict resolution. Prerequisites: ORSC 1109.

ORSC 2143. Leadership and Performance. 3 Credits.

Leadership from an organization system perspective. Theory, research, and applications pertaining to how leaders can reduce uncertainty through appropriate adaptive change. Prerequisites: ORSC 1109.

ORSC 2544. I/O Psychology. 3 Credits.

ORSC 2560. Group Dynamics. 3 Credits.

ORSC 3141. Strategy in Organizations. 3 Credits.

Processes and theories of strategic management in the profit and nonprofit sectors. Analysis of behavioral, sociopolitical, and economic forces underlying strategy formulation. Strategic competitive advantage; corporate diversification; multinational corporations; evaluation and choice; and implementation of functional and corporate strategies. Prerequisites: ORSC 1109.

ORSC 3159. Extreme Decisions. 3 Credits.

Processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Prerequisites: ORSC 1109.

ORSC 3165. Organizational Network Analysis. 3 Credits.

A relational view of organizations, emphasizing the ways in which business, non-profit, public, and governmental entities engage with a multitude of actors in pursuit of their goals. Organizational embeddedness and how an organization's position in a web of relations helps or hinders it. Prerequisites: ORSC 1109.

ORSC 3190. Special Topics. 1-3 Credits.

Topics to be announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Prerequisites: ORSC 1109.

ORSC 4161. Research Methods in Organizational Sciences. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research design in organizational settings. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating results of a variety of research efforts. Prerequisite: STAT 1053 and ORSC 1109. Restricted to organizational science majors.

ORSC 4195. Independent Study. 1-3 Credits.

Opportunity for work on individual research projects. Open to qualified students by permission; arrangements must be made with the sponsoring faculty member prior to registration. A list of participating faculty members and their research specialties is available from the department. Prerequisites: ORSC 1109.

ORSC 4197. Senior Research Seminar. 3 Credits.

Capstone course limited to organizational sciences majors in their senior year. Real world applications of organizational research. Students work on an individually designed research project with results presented in a major paper. Restricted to Limited to ORSC majors in their senior year. Prerequisites: ORSC 1109 ORSC 4161.

ORSC 4197W. Senior Research Seminar. 3 Credits.

Capstone course limited to organizational sciences majors in their senior year. Real world applications of organizational research. Students work on an individually designed research project with results presented in a major paper. Prerequisites: ORSC 1109 and ORSC 4161.

ORSC 6104. Stat- Mgt, Admin/Policy St. 3 Credits.**ORSC 6209. Management Systems. 3 Credits.**

An overview of theoretical frameworks, evolution, concepts, and methods of complex organizational systems. Modern organization theory using systems thinking and concepts. Organizational and management systems paradigm shifts. Problem solving and decision making, stakeholder theory, organizational environments, organizational effectiveness.

ORSC 6212. Current Issues in Personnel Testing and Selection. 3 Credits.

Psychometric, legal, and organizational issues in personnel employment testing and selection, reliability and validity of selection instruments, and the utility of selection systems. The legal environment, including test fairness in selection, adverse impact, and statistical models of test fairness and specific selection techniques. Prerequisite: STAT 2104.

ORSC 6214. Personnel Training and Performance Appraisal Systems. 3 Credits.

Management training programs and training evaluation techniques. Performance appraisal techniques, appraisal systems, relationship of rewards to performance and the appraisal interview. Training and rating systems that satisfy legal requirements and stimulate employee productivity.

ORSC 6216. Theories and Management of Planned Change. 3 Credits.

A systems view of organizational change and development, including intervention strategies, data collection, diagnosis, and the integration and management of system-wide organizational change.

ORSC 6217. Productivity and Human Performance. 3 Credits.

Definitions and measurement of individual, team, and organizational productivity, effectiveness, and efficiency. Models for the analysis of organizational and individual productivity and productivity growth in industrialized nations. Techniques for increasing productivity.

ORSC 6219. Managerial Economics. 3 Credits.**ORSC 6222. Theory and Practice of Compensation Management. 3 Credits.**

Analysis of contemporary compensation systems from both theoretical and practical perspectives, including the latest decisions of courts and regulatory agencies. Examination of motivational theories of pay, determinants and effects of salary structures on performance, incentive plans, performance-based compensation, and managerial compensation systems.

ORSC 6223. Collective Bargaining. 3 Credits.

Analysis of federal and state employee relations laws and regulations. Topics include the bargaining environment, wage and benefit issues in arbitration, arbitration of grievances, employee relations in non-union organizations, and behavioral theories of labor negotiations.

ORSC 6224. Persuasion & Negotiation. 3 Credits.

Theories drawn from the psychology, management, and communication literature pertaining to core concepts of social influence, persuasion, and negotiation. Critical assessment of proposals within organizations that use these strategies.

ORSC 6241. Strategic Management and Policy Formation. 3 Credits.

Processes and theories of strategic management in the profit and not-for-profit sectors. Analysis of behavioral, sociopolitical, and economic forces underlying strategy formulation. Issues of strategic competitive advantage; corporate diversification; multinational corporations; evaluation and choice; and implementation of functional and corporate strategies.

ORSC 6242. Organizational Communication and Conflict Management. 3 Credits.

Theories drawn from the communication psychology and management literature pertaining to core concepts of social influence, persuasion, and negotiation. Critical assessment of proposals within organizations that use these strategies.

ORSC 6243. Sem:Leadership-Complex Organzt. 3 Credits.

The view of leadership taken in this seminar extends theories beyond the interpersonal, near-immediate time frame toward an organizational perspective in which cause-and-effect linkages are traced. The leadership role as an attribute of a system. How effective leaders reduce uncertainty through appropriate adaptive change.

ORSC 6245. Sem: Organizational Behavior. 3 Credits.**ORSC 6246. Comparative Management. 3 Credits.**

International dimensions of management over a broad spectrum of topics, including cross-national transfer and management practices in a global economy; cross-cultural interaction; business-government relations; expatriation and repatriation processes; international strategic management; technology transfer; globalization of human resources management.

ORSC 6248. Strategic Human Resource Planning. 3 Credits.

Overview of the principles of human resource planning. Model for determining human resource requirements, including forecasting, goal setting, human resource auditing, and environmental scanning. Analysis of the interfaces between human resource planning and personnel selection, job design, training, compensation, and related functions.

ORSC 6250. Leadership Coaching: Principles and Practices. 3 Credits.

An introduction to leadership coaching, including behavioral sciences roots: communication and conflict resolution skills, motivation, personality and performance assessments. Coaching vs. related practice areas; business coaching vs. personal coaching. Professional and ethical standards.

ORSC 6251. Team Coaching and Facilitation. 3 Credits.

Application of the fundamentals and governing values of leadership coaching to the development of productive work groups and communities. The art and practice of facilitation as applied to team learning and the encouragement of breakthrough thinking and team problem solving. Prerequisite: ORSC 6242, ORSC 6250.

ORSC 6261. Research Methods in Org Scienc. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research designs. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating research results.

ORSC 6262. Action Research. 3 Credits.

A qualitative approach to action research problems. Students work with a client on an action research project and produce a research report.

ORSC 6295. Directed Research. 1-12 Credits.

Supervised research in selected fields within organizational sciences. Admission by prior permission of faculty advisor and instructor.

ORSC 6297. Special Topics. 3 Credits.

Special topics in human resource strategic planning, computer-based learning, human-computer interaction, management information technology, knowledge management, coaching, and organizational design.

ORSC 6298. Directed Readings. 1-12 Credits.

Supervised readings in selected fields within organizational sciences. Admission by prior permission of faculty advisor and instructor.

ORSC 8261. Research Methods in Organizational Sciences. 3 Credits.

Fundamentals of qualitative, correlational, quasi-experimental, and experimental research designs. Defining a research question, designing a research study, conducting and interpreting statistical analyses, and communicating research results.

PARALEGAL STUDIES (PSLX)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLX 6210. American Jurisprudence. 3 Credits.

An introduction to the foundations, theories, history, and applications of the American legal system; local, state, and federal courts and sources of law; and ethics and professionalism issues of especial importance to paralegals.

PSLX 6211. Legal Research and Writing. 3 Credits.

Fundamentals of legal research using print and online tools.

PSLX 6212. Litigation. 3 Credits.

Legal technology and the rules of court, procedure, and evidence; technical and substantive skills necessary for effective litigation support.

PSLX 6213. Corporations and Contracts Law. 3 Credits.

PSLX 6214. Administrative Law. 3 Credits.

An introduction to administrative and regulatory law; history and development of administrative law; agency, due process, agency actions, administrative investigation and hearings, and judicial review.

PSLX 6215. Government Contracts Law. 3 Credits.

The law of procuring, forming, and executing government contracts, including drafting and litigation; competition requirements, contract changes, and contract terminations; researching and drafting documents common to a government contracts practice.

PSLX 6216. Elements of Intellectual Property Law. 3 Credits.

PSLX 6217. Prosecution and Litigation in Intellectual Law Practice. 3 Credits.

PSLX 6218. International Trade and Finance. 3 Credits.

PSLX 6219. International Litigation. 3 Credits.

PSLX 6221. Tanzanian Legal System. 3 Credits.

PSLX 6222. Tanzanian Community Law. 3 Credits.

PSLX 6223. Contracts. 3 Credits.

Contract elements, their attendant legal ramifications, and the processes necessary to make such determinations. Development of legal reasoning skills in evaluating issues arising from contract law.

PSLX 6224. Advanced Legal Writing. 3 Credits.

Advanced legal writing techniques and drafting for legal practice. Legal writing in plain English; strategies for effective writing; emphasis on legal memoranda, legal correspondence, and preparing and drafting legal pleadings and documents for court. Refines and advances skills in written legal analysis and legal citation.

PSLX 6225. Business Entities. 3 Credits.

Overview of business organizations, including partnerships, limited liability companies, and corporations. Key concepts applicable to business organizations, including regulation, business formation, document preparation. Application of legal analysis within the context of business entities and other topics applicable to paralegals in all disciplines.

PSLX 6226. International Law. 3 Credits.

Introduction and survey of international law, including international trade law and litigation. Rules and principles governing relations among sovereign states, international organizations, and sources of international law. Analysis of the rules and customs for handling international trade. International courts and tribunals; overview of the treaties, customary principles, and institutional structures governing international human rights law.

PSLX 6227. Intellectual Property Law. 3 Credits.

Introduction to the legal structure of an intellectual property practice. Trademarks, copyrights, and patents and the supporting practice concomitant to each element. Analysis of the processes, supporting documentation, laws, and rules regarding patent prosecution and litigation. This course complements and builds upon the legal issues and analysis introduced in the courses on contracts, business entities, and litigation.

PSLX 6294. Independent Research in Legal Studies. 2 Credits.

Guided, independent research to demonstrate the higher level of competency in research, analysis, writing, and oral presentation. Restricted to master's degree candidates in the paralegal studies programs.

PSLX 6298. Paralegal Practicum. 0-3 Credits.

Students work in legal environments while completing their studies, taking active roles to obtain, manage, and maximize the value of their positions. Restricted to master's degree candidates in the paralegal studies programs.

PATENT PRACTICE (PATN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PATN 6201. The American Legal System. 3 Credits.**PATN 6202. Legal Research. 3 Credits.****PATN 6203. Patent Processes and Policies. 3 Credits.****PATN 6204. The IP Ecosystem. 3 Credits.****PATN 6205. Patent Practice and Procedure. 3 Credits.****PATN 6206. Advanced Patent Practice. 3 Credits.****PATN 6207. Patent Decisions. 3 Credits.**

PEACE STUDIES (PSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSTD 1010. Introduction to Peace Studies and Conflict Resolution. 3 Credits.

Major thinkers and themes in the field of peace studies and conflict resolution. Focus on philosophical and religious foundations of peace and justice movements in the 20th century. Examination of peace and conflict through an interdisciplinary lens and on personal, local, and international levels.

PSTD 3190. Capstone Seminar. 3 Credits.

Capstone seminar for peace studies majors and minors in their junior or senior year. Taken concurrently with a relevant internship or as part of a long-term research project to probe the relationship between peace studies and conflict resolution in practice and in theory.

PSTD 3191. Special Topics Peace Studies. 1-3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PSTD 3999. Independent Study. 1-3 Credits.

Tutorial designed by an undergraduate student under the guidance of a faculty member to pursue an academic topic in the area of Peace Studies and Conflict Resolution outside available course offerings.

PERSIAN (PERS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PERS 1001. Beginning Persian I. 0-4 Credits.

Fundamentals of speaking, understanding, reading, and writing of Modern Standard Persian. Laboratory fee.

PERS 1002. Beginning Persian II. 0-4 Credits.

Continuation of PERS 1001. Fundamentals of speaking, understanding, reading, and writing of Modern Standard Persian. Laboratory fee.

PERS 2001. Intermediate Persian I. 4 Credits.

Continuation of PERS 1001- PERS 1002. Further development of speaking, understanding, reading, and writing skills of Modern Standard Persian. Prerequisite: PERS 1001- PERS 1002 . Laboratory fee.

PERS 2002. Intermediate Persian II. 4 Credits.

Continuation of PERS 2001. Further development of speaking, understanding, reading, and writing skills of Modern Standard Persian. Prerequisite: PERS 1001- PERS 1002 . Laboratory fee.

PERS 3001. Advanced Persian. 3 Credits.

Development of writing, reading, speaking, and listening skills at the advanced level of proficiency. Prerequisite: PERS 2001- PERS 2002 . Laboratory fee.

PERS 3002. Media Persian. 3 Credits.

Critical analysis of authentic news through the study of a variety of media sources, such as print, radio, and television.

PERS 3002W. Media Persian. 3 Credits.

Critical analysis of authentic news through the study of a variety of media sources, such as print, radio, and television. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Prerequisite: PERS 3001.

PERS 3502. Post-Revolutionary Iranian Cinema. 3 Credits.

Study of social, political, and cultural issues in contemporary Iran through an examination of the country's post-revolutionary cinema; gender dynamics, challenges faced by youth, and the role of art in society. This course is taught in English.

PERS 3502W. Post-Revolutionary Iranian Cinema. 3 Credits.

Study of social, political, and cultural issues in contemporary Iran through an examination of the country's post-revolutionary cinema; gender dynamics, challenges faced by youth, and the role of art in society. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. This course is taught in English.

PERS 3901. Directed Project. 1-3 Credits.

Individual advanced reading or research, to be arranged with a member of the faculty. May be repeated for credit. Admission by permission of the instructor and department.

PHARMACOGENOMICS (PHRG)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHRG 2141. Mol. Bio for Pharmacogenomics. 4 Credits.

PHRG 2142. Mol. Tech for Pharmacogenomics. 2 Credits.

PHRG 4151. Introduction to the Pharmacy Profession. 1.5 Credit.

The evolving role of the pharmacist in the healthcare system. Attributes, attitudes, and ethical standards expected of the profession. Concepts of patient-centered care, collaborative care, and the pharmacist as an advocate, educator and health promoter. Pharmacy career paths.

PHRG 4152. Pharmaceutics I. 2 Credits.

PHRG 4153. Pharmaceutics II. 4 Credits.

The legal, practical, and scientific bases of drug products and pharmaceutical delivery systems. Physiochemical theories, terminology, pharmaceutical skills, and interpretation of the formulation and performance of pharmaceutical products. Laboratory component PHRG 4173.

PHRG 4154. Biomedical Sciences I. 2 Credits.

Advanced biomedical science topics, including biochemistry, molecular biology, and cell biology. Serves as a foundation for study of immunology, medical microbiology, pathophysiology, toxicology, pharmacogenomics, pharmacology, and pharmacotherapeutics.

PHRG 4155. Biomedical Sciences II. 3 Credits.

Advanced topics, including immunology, oncology, and medical microbiology. Serves as a foundation for the study of pathophysiology, toxicology, pharmacogenomics, pharmacology, and pharmacotherapeutics.

PHRG 4156. Integrated Pathophysiology I. 3 Credits.

Pathophysiology of the endocrine, nervous, GI, and musculoskeletal systems. Serves as a foundation for the study of pharmacology, therapeutics, and pharmacogenomics.

PHRG 4157. Integrated Pathophysiology II. 3 Credits.

The pathophysiology of the cardiovascular, renal, respiratory, and reproductive systems. Serves as a foundation for the study of pathophysiology, therapeutics, and pharmacogenomics.

PHRG 4160. Introduction to Physical Assessment. 1 Credit.

How pharmacists use physical assessment in the patient care process. The fundamentals of physical assessment necessary for the practice of pharmacy. Medical terminology, medical abbreviations, documentation of physical assessment findings, and wellness and preventive health. Taken as part of the sequence PHRG 4160-PHRG 4161.

PHRG 4161. Physical Assessment Lab. 1 Credit.

Practical experience in laboratory activities designed to introduce physical assessment and critical thinking skills necessary for the practice of pharmacy. Taken as part of the sequence PHRG 4160-PHRG 4161.

PHRG 4163. Pharmacogenomics Essentials. 2 Credits.**PHRG 4165. Communication in Pharmacy Practice. 2.5 Credits.**

Students develop and apply the communication, interpersonal, and psychosocial skills needed to interact effectively in a changing healthcare environment. Communicating with patients and healthcare providers. Cultural issues, psychological and sociological challenges, and healthcare disparities that affect communication with patients.

PHRG 4167. Intro. Pharm. Pract. Exp. I. 2 Credits.**PHRG 4168. Intro. Pharm. Pract. Exp. II. 2 Credits.****PHRG 4169. Nonprescription Products. 3 Credits.****PHRG 4170. Out. Pharm. Prac. Lab. 1 Credit.****PHRG 4171. Sterile Compounding Lab. 1 Credit.****PHRG 4172. Clin. Drug Info. Skills. 1 Credit.****PHRG 4173. Pharmaceutical Sciences II Laboratory. 1 Credit.**

Laboratory course to accompany PHRG 4153 Pharmaceutics II.

PHARMACOLOGY (PHAR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHAR 6116. Pharmacogenomics and Personalized Medicine. 3 Credits.

Relationships between human genetic variability and drug responsiveness, susceptibility to disease, and disease severity. Scientific, clinical, legal, and ethical challenges in applying pharmacogenomics to drug discovery and clinical development. Professionals from such disciplines as human genetics, pharmacology, pharmaceutical sciences, genomic medicine, clinical and translational sciences, law, and regulatory affairs provide an integrative view of the application of pharmacogenomics to personalized medicine. Restricted to Graduate students enrolled in the Biomedical Sciences Program or Year 2 of the Anatomical and Translational Sciences Program; Instructor permission required. Prerequisites: PHAR 6205. Recommended background: Students who have not completed PHAR 6205 or its equivalent are required to complete a pharmacology preparatory primer prior to the start of PHAR 6116; Equivalency will be determined by the instructor; The primer provides foundational concepts of drug biodisposition, dose response, and pharmacodynamics.

PHAR 6205. Pharmacology. 5 Credits.

Basic principles of pharmacology, including receptor mechanisms, drug distribution and metabolism, and pharmacokinetics. Lectures, laboratories, and tutorials on the interactions of drugs and biological systems as a basis for rational disease therapy. Prerequisites: BMSC 8210 and BMSC 8212, or permission of instructor. Recommended background: Enrollment in PhD or Master's program in medical-related sciences.

PHAR 6206. Advanced Pharmacology. 5 Credits.

Lectures on the interactions of drugs and specific organ systems. Tutorials on current research in pharmacology and toxicology. Prerequisite: PHAR 6205. Recommended background: Enrollment in Master's or PhD program in medical-related science program.

PHAR 6207. Basic Principles of Pharmacol.. 2 Credits.

Drug disposition. Autonomic nervous system, cardiovascular and gastrointestinal drugs. Psychopharmacology. Analgesics, sedatives, anticonvulsants. Chemotherapy, toxicology, endocrinology.

PHAR 6208. Pharm in Dis. Pathophysiology. 2 Credits.

The pharmacology of disease management.

PHAR 6501. Readings in Pharmacology. 1-12 Credits.

Readings, discussions, and/or preparation of report. Student can choose to work with one or more faculty members in the department on a topic of mutual interest.

PHAR 6502. Clinical Use of Drugs. 3 Credits.

Discussion of the rational use of drugs in the treatment of disease. Independent reading and study.

PHILOSOPHY (PHIL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHIL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the schedule of classes for more details. Restricted to First-year students in CCAS.

PHIL 1051. Introduction to Philosophy. 3 Credits.

Readings from major philosophers and study of their positions on the most basic questions of human life. Topics include such issues as: What is justice? What is knowledge? What is reality? Does God exist? What is the mind? Do humans have free will?

PHIL 1062. Philosophy and Film. 3 Credits.

Philosophical problems and theories of perception, meaning, personal identity, and moral agency and their illustration in the context of cinema. Cinema and its derivatives (TV, video) as prime routes to experience of the natural and social worlds in an age of communication. Readings in classical and contemporary philosophy and in film theory; screening of a series of films.

PHIL 1153. The Meaning of Mind. 3 Credits.

Introductory course for students with no background in philosophy or the sciences of the mind. The central questions, assumptions, and hypotheses about the human mind. The nature of thought, consciousness, and self; knowledge of other minds; implications of the sciences of the mind for freedom of the will and responsibility; and the relationship between the mind and the brain.

PHIL 1193. Introduction to Existentialism. 3 Credits.

The philosophical themes of selfhood, mortality, authenticity, and ethical responsibility from an existentialist perspective, including the writings of Kierkegaard, Heidegger, Nietzsche, Camus, and Sartre. The place of existentialism in the history of philosophy.

PHIL 2045. Introduction to Logic. 3 Credits.

Introduction to informal logic, scientific argument, and formal logic. The informal logic component focuses on fallacies of reasoning and practical applications of logic. The formal logic component focuses on translation from English into propositional logic, truth tables, and proofs in propositional logic.

PHIL 2111. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (6th century BCE to 1st century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2111W. History of Ancient Philosophy. 3 Credits.

History of Western philosophy from the Pre-Socratics to the Stoics (6th century BCE to 1st century CE). Major emphasis on the writings of Plato and Aristotle. Among themes to be covered: knowledge and reality, political and moral philosophy.

PHIL 2112. History of Modern Philosophy. 3 Credits.

History of Western philosophy of the 16th through 18th centuries; Continental Rationalism and British Empiricism from the scientific revolution through the Enlightenment; major emphasis on Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant. Prerequisite: PHIL 1051.

PHIL 2124. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights.

PHIL 2124W. Philosophies of Disability. 3 Credits.

Disability presents an intense and interesting challenge to traditional philosophical presuppositions and principles. This course examines various philosophical approaches to disability—historical, individual, and medical paradigms as well as those that rely on frameworks of social or human rights.

PHIL 2125. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism.

PHIL 2125W. Philosophy of Race and Gender. 3 Credits.

A theoretical examination of the bodily, social, discursive, and political effects of patriarchy, racism, and classism.

PHIL 2131. Ethics: Theory and Applications. 3 Credits.

Examination of leading ethical theories (e.g., utilitarianism, deontology, virtue ethics), and methodology in ethics. Engagement with contemporary problems.

PHIL 2132. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2132W. Social and Political Philosophy. 3 Credits.

Philosophical theories about how economic, political, legal, and cultural institutions should be arranged. Topics include the meaning and significance of liberty, the legitimate functions of government, the nature of rights, the moral significance of social inequality, and the meaning of democracy.

PHIL 2133. Philosophy and Nonviolence. 3 Credits.

Violence and nonviolence in the personal and social struggle for meaningful, just, and peaceful existence; philosophical foundations of pacifism and nonviolent resistance in the thought of Tolstoy, Gandhi, King, and others; philosophical inquiry into war, terrorism, genocide, and ethnic conflict, as well as human rights, humanitarian intervention, and just war theory.

PHIL 2134. Philosophy of Human Rights. 3 Credits.

Conceptual, ethical, and theoretical analyses of human rights with emphasis on the justification of human rights, the debate over cultural relativism, and the application of human rights norms in domestic and global contexts.

PHIL 2135. Ethics in Business and the Professions. 3 Credits.

Ethical theories and basic concepts for analysis of moral issues arising in business and in professional practice.

PHIL 2136. Contemporary Issues in Ethics. 3 Credits.

Introduction to a range of debates in applied ethics, including both classic debates concerning topics such as the permissibility of abortion, animal treatment, and suicide as well as more current debates concerning our interactions with the environment and our obligations to the poor in a global context.

PHIL 2281. Philosophy of the Environment. 3 Credits.

Three models of environmental sustainability: the current paradigm in economic and cultural thinking (neoclassical economics); redistribution of resources toward greater global equity (a macroeconomic perspective); and de-growth in the developed economies (ecological economics). The models offer different perspectives on what environmental sustainability means and how it can impact the cultural, religious, moral, metaphysical, and existential situation.

PHIL 3100. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3100W. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 3113. 19th-Century Philosophy. 3 Credits.

European philosophy of the 19th century, with major emphasis on Kant, Hegel, Schopenhauer, Kierkegaard, and Nietzsche. Prerequisite: PHIL 1051 .

PHIL 3121. Symbolic Logic. 3 Credits.

Analysis and assessment of deductive arguments, using propositional, predicate, and other logics; philosophical basis and implications of logical analysis; metatheory of logic; modal and non-standard logics. Prerequisite: Phil 1045 or permission of instructor.

PHIL 3142. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3142W. Philosophy of Law. 3 Credits.

Systematic examination of fundamental concepts of law and jurisprudence; special emphasis on the relationship between law and morality.

PHIL 3151. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Prerequisite: PHIL 1051 or a 2000-level philosophy course.

PHIL 3151W. Philosophy and Science. 3 Credits.

Analysis of the structure and meaning of science, including scientific progress and theory change, objectivity in science, the drive for a unified science, and ways science relates to everyday understandings of the world. Attention given to various sciences, including physics, biology, and neuroscience. Prerequisite: PHIL 1051 or two semesters of college-level science.

PHIL 3152. Theory of Knowledge. 3 Credits.

Inquiry into the basis and structure of knowledge, the problems of skepticism and justification, the relations between subjectivity and objectivity, and the contributions of reason, sense experience, and language. Prerequisite: PHIL 1051 ; PHIL 2112 also recommended.

PHIL 3153. Mind, Brain, and Artificial Intelligence. 3 Credits.

Investigation of the nature of mind from a variety of perspectives, including neuroscience, cognitive psychology, and artificial intelligence, as well as traditional philosophy of mind. Possible additional topics include consciousness, mental disorders, animal minds, and the nature and meaning of dreams. Prerequisites: PHIL 1051 or PHIL 1153 or PHIL 2112 or permission of the instructor.

PHIL 3161. Philosophy and Literature. 3 Credits.

Critical investigation of the sociopolitical commitments that inform the practices of reading and writing as discussed by Sartre, Barthes, Foucault, and others. Focus on the development of existentialist themes, including authenticity, freedom, temporality, and death in the work of Kafka, Tolstoy, Mann, Woolf, and others.

PHIL 3162. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

PHIL 3162W. Philosophy of Art. 3 Credits.

The problem of artistic representation and the nature of aesthetic experience as related to the creation, appreciation, and criticism of art. Special emphasis on nonrepresentational works of art and their interpretation. Prerequisite: PHIL 1051 or PHIL 2111 or PHIL 2112 or PHIL 3113.

PHIL 3172. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3172W. American Philosophy. 3 Credits.

A survey of American philosophical thought, focusing on the late 19th through mid-20th centuries. Covers American Pragmatism (Peirce, James, Dewey) in depth; other authors may include Thoreau, Emerson, Royce, Santayana, Mead, Quine, and Rorty.

PHIL 3251. Philosophy of Biology. 3 Credits.

An introduction to conceptual and methodological issues raised by contemporary biology, including teleology, reductionism, units of selection, the structure of evolutionary theory, genetics, taxonomy, and the nature of scientific explanation. Other issues may include the nature-nurture debate, creationism/intelligent design, the evolution of altruism, and the relevance of evolutionary theory to ethical questions.

PHIL 4192. Analytical Philosophy. 3 Credits.

The dominant movements of 20th-century Anglo-American philosophy, including logical positivism, British ordinary language philosophy, and neopragmatism, as represented by Russell, G.E. Moore, Wittgenstein, Ayer, Quine, Kripke, et al. Prerequisite: one other upper-division philosophy course (PHIL 2112 and PHIL 3121 recommended).

PHIL 4193. 20th-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisite: PHIL 2112 or PHIL 3113.

PHIL 4193W. 20th-Century Continental Philosophy. 3 Credits.

An intensive, systematic introduction to the phenomenological and hermeneutic traditions in philosophy through some of their best-known representatives: Husserl, Heidegger, Gadamer, Sartre, Beauvoir, and Merleau-Ponty. Central topics of discussion include consciousness, anguish/anxiety, discourse, interpretation, the Other, death, and ambiguity. Prerequisites: PHIL 2112 or PHIL 3113.

PHIL 4195. Topics in Value Theory. 3 Credits.

Variable topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4195W. Topics in Value Theory. 3 Credits.

Various topics in ethics, political philosophy, aesthetics, and other subfields in normative philosophy, such as contemporary philosophy of religion. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details.

PHIL 4196. Topics in Theory of Knowledge. 3 Credits.

Variable topics in epistemology, philosophy of science and mathematics, philosophy of mind, and similar subfields. Prerequisite: one upper-division course on related subject matter or permission of the instructor.

PHIL 4198. Proseminar. 3 Credits.

Variable topics; preparation and presentation of a major research paper. Open only to philosophy majors in the junior and senior year as approved by major advisor. May be repeated for credit. Restricted to philosophy juniors and seniors only.

PHIL 4198W. Proseminar in Philosophy. 3 Credits.

Preparation and presentation of a major research paper. Open only to philosophy majors in the junior and senior year as approved by major advisor. May be repeated for credit provided the topic differs. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to philosophy juniors and seniors only.

PHIL 4199. Readings and Research. 1-3 Credits.

Independent study to be arranged with a faculty sponsor. Restricted to Departmental approval required.

PHIL 6201. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6202. Readings and Research. 3 Credits.

Advanced readings and reports. Investigation of special problems.

PHIL 6211. Topics in the History of Ancient Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6212. Topics in the History of Modern Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6221. Advanced Logic. 3 Credits.

Intensive reading of a difficult text in an advanced logical system or a series of logical systems. Focus on analyzing reasoning under partial information, using the formal system to analyze fallacies of reasoning and analyzing quantum phenomena using the formal system. Restricted to For graduate students only. Recommended background: Good formal training in logic - propositional logic: natural deduction, tables and trees; first-order logic: language (translation from English), trees and natural deduction; some limitative results, eg, decidability, compactness, completeness, Lovenheim-Skolem properties, soundness, etc.

PHIL 6222. Philosophy of Mathematics. 3 Credits.

Examination of several philosophies of mathematics, with in-depth concentration on Field's "fictionalism." A fictionalist believes that all of the ontology of mathematics is favorably compared to a fictional object, so it does not literally exist. Students develop reactions to Field's philosophical position using the resources of alternative philosophical positions. Restricted to For graduate students only. Recommended background: Basic understanding of first-order logic.

PHIL 6223. Philosophy of Logic. 3 Credits.

Central concepts in the philosophy of logic, including truth, reasoning, inference, deduction, induction, judgment, assertion, warrant, proof, demonstration, meaning, semantics, syntax, paradox, mathematical models, and the relationship between a formal representation of logical reasoning and the philosophical ideal of the practice of reasoning. Recommended background: Some grounding in first-order logic will be presupposed.

PHIL 6225. Queer(ing) Philosophy. 3 Credits.

Examination of how queer theory, which emerged as a field in its own right in the early 1990s, has posed significant challenges to traditional, taken-for-granted understandings of time, space, the body, race, sexuality, normality, culture, violence, and disability. Restricted to For graduate students only.

PHIL 6230. Ethical Issues in Policy Arguments. 3 Credits.

Critical analysis of ethical foundations of public policy arguments, e.g., about protection of the environment or health and safety, equality of opportunity. Case studies of appeals to "welfare improvements," to norms of duty, to "the social contract," and to rights-claims. Attention to historical contexts and biases. Open to undergraduates only with permission of instructor.

PHIL 6231. Seminar: Economic Justice. 3 Credits.

Ethical and economic analysis of equity and efficiency of current U.S. income distribution patterns. Theories of justice; economic theories of distribution; assessment of redistribution policies. Open to undergraduates only with permission of instructor.

PHIL 6232. Topics in Contemporary Political Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6233. Contemporary Moral Philosophy. 3 Credits.

Investigation of contemporary debates in normative ethics and/or metaethics. Topics may include the virtue ethics revival in the 20th century, the distinction between the right and the good, or important metaethical positions such as fictionalism, expressivism, and constitutivist accounts of moral principles. Restricted to For graduate students only.

PHIL 6234. Consequentialism and Its Critics. 3 Credits.

An overview of the debate over consequentialism, culminating in discussion of recent literature. Forms of consequentialism (act, rule, motive, cooperative); direct versus indirect; classic objections and replies; partiality; friendship; agent-relative considerations; doctrine of doing and allowing; doctrine of double effect. Restricted to For graduate students only.

PHIL 6236. Moral Status. 3 Credits.

Examination of the question of what sorts of beings matter morally in their own right and how much they matter. While the paradigm bearers of moral status are persons, the course considers competing ways of thinking about the possible moral status of human nonpersons, nonhuman persons, great apes, dolphins, other sentient animals, nonsentient lifeforms, the environment, future people, and advanced forms of artificial intelligence. Restricted to For graduate students only.

PHIL 6237. Animal Ethics. 3 Credits.

The moral status of animals and the ethics of human use of animals. Major topics include models of moral status, animals' mental life, and specific ethical issues associated with the eating of animal products, the use of animals in research, and the keeping of animals in homes and zoos. Restricted to For graduate students only.

PHIL 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Same as WSTU 6238. Prerequisite: PHIL 2125 or PHIL 2131 or permission of instructor.

PHIL 6239. Virtue Ethics. 3 Credits.

Historical and/or contemporary approaches to virtue ethics and key readings in the virtue ethical tradition. Topics include empirical work on virtue in philosophy and psychology, the divide between "radical" virtue ethics and contemporary virtue ethics, "hybrid" approaches to virtue ethics (e.g., consequentialist virtue ethics), and meta-ethical issues relevant to the study of virtue. Restricted to For graduate students only.

PHIL 6242. Philosophy, Law, and Social Policy. 3 Credits.

Consideration of the relationship between legal interpretation and policy goals. Theories concerning the role of the judiciary in a constitutional democracy and methods of constitutional and statutory interpretation. Representative policy topics include capital punishment, pornography, affirmative action, welfare, property rights, racial gerrymandering, gun control.

PHIL 6245. Biomedical Ethics. 3 Credits.

An in-depth introduction to the field of biomedical ethics. Following a brief review of ethical theory, the course proceeds to several central topics in biomedical ethics before ending with students' presentations of their original research. The emphasis is on normative ethical reasoning, with considerable attention to the empirical assumptions underlying particular ethical judgments and to policy dimensions of several of the central topics.

PHIL 6250. Topics in Health Policy. 3 Credits.

Topics in health policy from the perspective of philosophical ethics, including human and animal research, the enhancement of human traits, justice and health care allocation.

PHIL 6251. Advanced Introduction to Philosophy of Mind. 3 Credits.

Critical examination of classical philosophical arguments pertaining to the mind/body problem, the problem of consciousness, the problem of intentionality, the problem of freedom of the will, and the problem of personal identity. Focus on careful analysis of classical philosophical writings on these topics. Restricted to For graduate students only.

PHIL 6252. Advanced Introduction to Philosophy of Cognitive Science. 3 Credits.

The emergence of cognitive phenomena in phylogeny and ontogeny, social cognition, nativist vs. empiricist approaches to cognition, models of reasoning and decision-making, representationalist vs. embodied/embedded/enactive approaches to cognition, and theories of perception, memory, and concepts. Restricted to For graduate students only.

PHIL 6253. Cognitive Science and Public Policy. 3 Credits.

The cognitive sciences are providing new insights into the nature of human decision making at an accelerating pace. Cognitive psychology, cognitive neuroscience, neuroeconomics, evolutionary psychology, and developmental and comparative psychology are rewriting theories about human nature with significant implications for public policy. The course examines recent work in the cognitive sciences with the intent of drawing out its public policy implications.

PHIL 6254. Mental Representation. 3 Credits.

Thoughts are like pictures of the world in that they represent the world. But thoughts sometimes represent the world in ways that don't correspond to the way it actually is. How do thoughts come to have representational content? Why do we have thoughts? Such questions are considered through the careful reading of recent work on the subject. Restricted to For graduate students only.

PHIL 6257. The Nature of Animal Minds. 3 Credits.

Do nonhuman animals have minds? If so, what are they like? How are they similar and how are they different from our minds? What might count as evidence that an animal has a mind? Consideration of some of the questions philosophers and scientists have been asking and issues these questions raise when we think about the possibility that nonhuman animals are thinking creatures. Restricted to For graduate students only.

PHIL 6262. Normative Issues in Foreign Policy. 3 Credits.

Selected issues on foreign policy from a normative perspective; emphasis on human rights, economic globalization, global poverty, sustainable development, and the ethics of military intervention.

PHIL 6281. Environmental Philosophy and Policy. 3 Credits.

Examination of philosophical frameworks for assessing policy approaches to environmental problems. Representative topics include duties to future generations, environmental justice, legal rights for natural objects, critiques of cost-benefit analysis, sustainability, risk measurement, the intrinsic value of nature.

PHIL 6290. Special Topics in Public Policy. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

PHIL 6293. Contemporary Continental Philosophy. 3 Credits.

Focus on several powerful philosophical concepts introduced by late 20th/early 21st-century continental scholars. Through a close reading of selected works, the influence these scholars have had upon one another is traced. Critical examination of the theoretical resources the works provide in articulating some of the most urgent ethical, social, and political demands of contemporary human existence. Restricted to For graduate students only.

PHIL 6294. Special Topics in Continental Philosophy. 3 Credits.

Topic announced in the Schedule of Classes. Restricted to For graduate students only.

PHIL 6998. Thesis Research. 3 Credits.**PHIL 6999. Thesis Research. 3 Credits.**

PHYSICAL THERAPY (PT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PT 8201. Functional Anatomy. 5 Credits.

Human gross anatomy with cadaveric dissection. Clinical correlations. Normal structure and functional relationships. Common pathologies and individual and age-related differences examined.

PT 8202. Applied Physiology. 4 Credits.

Normal function of major organ systems of the human body and related rehabilitation concepts. Exercise testing, prescription, progression and expected outcomes examined. Effects of exercise in healthy individuals across the lifespan and in special populations.

PT 8203. Neuroscience in Rehabilitation I. 3 Credits.

Normal structure and function of the nervous system across the life span. Injury to neural structures and response to injury examined. Application of principles of neuroplasticity to clinical practice. Clinical correlations.

PT 8204. Movement Science I. 2 Credits.

Normal human movement, structure and function examined using biomechanics and kinesiology principles. Biomechanical function of musculoskeletal tissues explored with special emphasis on articular systems.

PT 8205. Movement Science II. 3 Credits.

Kinematics and kinetics of movement. Normal and pathological mechanics of functional movement, including deficits in musculoskeletal system, posture, and gait. Examination of complex activities such as locomotion.

PT 8206. Neuroscience in Rehabilitation II. 2 Credits.

Neurologic mechanisms of normal and impaired posture, mobility and extremity function examined. Application of motor learning and skill acquisition principles applied. Neurological examination using case studies and clinical correlates.

PT 8207. Clinical Medicine and Pharmacology. 4 Credits.

Systems approach to diseases requiring physical therapy. Pharmacological principles and impacts of certain pharmacological agents on physical therapy intervention. Drug interactions, systems review, and "red flags" requiring physician referral addressed.

PT 8208. Medical Imaging. 1 Credit.

Principles of medical imaging related to physical therapy management, including diagnosis and intervention planning.

PT 8271. Research in Practice. 3 Credits.

Critical appraisal of the literature related to the validity of research methods and interpretation of statistical results. Application of evidence to clinical practice as it relates to physical therapy examination, diagnosis, intervention, and prognosis.

PT 8272. Research Seminar. 3 Credits.

Evidence based analysis of physical therapy literature with application of principles of research design, data analysis and synthesis to evaluate outcomes within the context of patient management. Ethical considerations are addressed.

PT 8311. Foundations of Examination. 4 Credits.

Examination within the patient/client management model of physical therapy. Development of proficiency in basic systems review, selection and administration of tests and measurements, and diagnostic classifications.

PT 8312. Foundations of Interventions. 4 Credits.

Intervention within the patient/client management model of physical therapy. Development of proficiency in basic patient care skills and selection and administration of therapeutic exercise.

PT 8313. Therapeutic Modalities. 2 Credits.

Administration of physical, thermal, mechanical, and electrical interventions consistent with patient diagnosis and prognosis. Critical appraisal of the literature to apply best evidence to practice and clinical decision making.

PT 8314. Management of Cardiopulmonary Dysfunction. 4 Credits.

Physiology and pathophysiology of the cardiopulmonary system as basis for management of the patient/client with cardiopulmonary dysfunction. Examination, evaluation, diagnosis, prognosis and implementation of evidence-based interventions in all care settings. Focus on health promotion and wellness.

PT 8315. Management of Musculoskeletal Dysfunction I. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to the extremities.

PT 8316. Management of Musculoskeletal Dysfunction II. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to spinal dysfunction. Ergonomic principles used to address industrial health related issues.

PT 8317. Management of Integumentary Dysfunction. 1 Credit.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with integumentary impairments and functional limitations as well as peripheral vascular, metabolic, and immune system impairments.

PT 8318. Management of Neuromotor Dysfunction. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for adults with neuromotor impairments and functional limitations.

PT 8320. Management of the Pediatric Client. 4 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions for the pediatric client. Selection and administration of outcome measures for children with neuromuscular and musculoskeletal dysfunction. Psychosocial, ethical and legal factors specific to the pediatric client.

PT 8321. Women's Health. 1 Credit.

Physical therapy for issues related to women's health within the patient/client management model.

PT 8322. Management of the Aging Adult. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for the geriatric population. Typical age-related changes in function. Outcome measures for neuromotor, musculoskeletal, and cardiopulmonary dysfunction in the aging population. Comorbidities, psychosocial, ethical, and legal factors.

PT 8323. Prosthetics & Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity of persons with functional limitations. Prescription, fabrication, and fitting of prosthetic and orthotic devices.

PT 8351. Professional Issues in Physical Therapy Health Care Management I. 4 Credits.

Professional practice expectations including legal and regulatory boundaries. Interdisciplinary healthcare team examined and significance of effective communication. Ethical issues related to physical therapy within the context of professional core values. Patient management models introduced along with evidence based practice.

PT 8352. Teaching in Physical Therapy Practice. 2 Credits.

Principles and strategies for effective teaching in academic and clinical environments. Patient/client, peer, and professional presentations.

PT 8355. Professional Issues in Physical Therapy Health Care Management II. 3 Credits.

Administration and practice management, including marketing, fiscal management, billing, reimbursement, and administrative procedures related to physical therapy practice. Introduction to health care policy as related to the profession of physical therapy. Policy development, macro and micro health policy and patient advocacy.

PT 8356. Health Promotion and Wellness. 1 Credit.

The role of the physical therapist in health promotion and disease prevention across the life span. Focus on screening, client education, and traditional and nontraditional strategies for the promotion of healthy lifestyles.

PT 8357. Capstone Seminar. 1 Credit.

Exploration of professional practice issues, including lifelong learning. Professional electronic portfolios presented. Assessment of educational experiences focusing on quality improvement and professional development.

PT 8361. Clinical Conference I. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8362. Clinical Conference II. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8363. Clinical Conference III. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8364. Clinical Conference IV. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8365. Clinical Conference V. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8366. Clinical Conference VI. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional practice expectations and practice management issues.

PT 8383. Prosthetics & Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity of persons with functional limitations. Prescription, fabrication, and fitting of prosthetic and orthotic devices.

PT 8402. Exercise Physiology. 2 Credits.

Lecture/laboratory. Effects of exercise in healthy individuals and special populations, including aged and immobilized patients and those with neuromusculoskeletal deficits.

PT 8403. Functional Anatomy. 5 Credits.

Lecture/laboratory. Human gross anatomy with cadaveric dissection. Clinical correlations. Normal structures and functional relationships. Common abnormalities and individual and age-related differences.

PT 8404. Kinesiology. 4 Credits.

Kinematics and kinetics of movement. Normal and pathological mechanics of functional movement, including deficits in musculoskeletal system, posture, and gait. Interventions and functional outcomes.

PT 8407. Medical Imaging. 1 Credit.

Principles of medical imaging related to physical therapy management, including diagnosis and intervention planning.

PT 8416. Mgt/Musculoskeletal Dysfunc II. 3 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with musculoskeletal dysfunction related to spinal dysfunction.

PT 8417. Mgt/ Integumentary Dysfunction. 1 Credit.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for patients/clients with integumentary impairments and functional limitations as well as peripheral vascul.

PT 8420. Pediatrics. 4 Credits.

Lecture/laboratory. Development issues related to pediatric impairments and functional limitations. Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for chi.

PT 8421. Women's Health. 1 Credit.

Lecture/laboratory. Physical therapy for issues related to women's health within the patient/client management model.

PT 8422. Geriatrics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for the geriatric population. Typical age-related changes in function. Outcome measures for neuromotor, mus.

PT 8423. Prosthetics and Orthotics. 2 Credits.

Examination, evaluation, diagnosis, prognosis, and implementation of evidence-based interventions. Selection and administration of outcome measures for persons with functional limitations in need of assistive technology that enhances functional capacity (.).

PT 8454. Health Promotion and Wellness. 1 Credit.

The role of the physical therapist in health promotion and disease prevention across the life span. Focus on screening, client education, and traditional and nontraditional strategies for the promotion of healthy lifestyles.

PT 8455. Admin&Mgt/PhysTherapyPractice. 2 Credits.

Administration and practice management, including marketing, fiscal management, billing, reimbursement, and administrative procedures related to physical therapy practice.

PT 8456. Health Policy and Advocacy. 1 Credit.

Introduction to health care policy as related to the profession of physical therapy. Policy development, macro and micro health policy.

PT 8457. Capstone Seminar. 1 Credit.

Exploration of professional practice issues, including lifelong learning. Professional electronic portfolios presented. Assessment of educational experiences focusing on quality improvement and professional development.

PT 8462. Clinical Conference II. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8463. Clinical Conference III. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8464. Clinical Conference IV. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8465. Clinical Conference V. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8466. Clinical Conference VI. 1 Credit.

Case-based seminars serve as integrative units throughout the curriculum. Clinical decision-making models applied to cases covering all physical therapy diagnostic practice patterns. Best practice and evidence-based practice emphasized. Professional pract.

PT 8481. Interprofessional Community Practicum. 1 Credit.

Students explore the concepts of community health, health prevention/wellness, cultural competence, continuous quality improvement, and team building through active participation in a university community health service learning project.

PT 8483. Integrated Clinical Experience I. 1 Credit.

Part-time physical therapy clinical experiences in a range of clinical settings. Supervised integration and implementation of components of the patient/client management model and professional practice expectations.

PT 8484. Integrated Clinical Experience II. 1 Credit.

Part-time physical therapy clinical experiences in a range of clinical settings. Supervised integration and implementation of components of the patient/client management model and professional practice expectations in preparation for full-time clinical in.

PT 8487. Clinical Internship I. 4 Credits.

Full-time physical therapy clinical experiences in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from close.

PT 8488. Clinical Internship II. 6 Credits.

Full-time physical therapy clinical experiences in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from close.

PT 8489. Clinical Internship III. 7 Credits.

Full-time physical therapy clinical experiences in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from close.

PT 8490. Externship Elective. 0-8 Credits.

Interested students can apply for consideration of an externship in advanced clinical practice, teaching, research, or governmental affairs. Credit varies based on the length of stay and demands of the externship.

PT 8491. Clinical Internship I. 5 Credits.

Full-time physical therapy clinical experience in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from advanced beginner to entry-level performance in the management of patients with non-complex and complex problems across the life span.

PT 8492. Clinical Internship II. 8 Credits.

Full-time physical therapy clinical experience in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from advanced beginner to entry-level performance in the management of patients with non-complex and complex problems across the life span.

PT 8493. Clinical Internship III. 9 Credits.

Full-time physical therapy clinical experience in a range of clinical settings. Integration and implementation of all aspects of patient/client management, professional practice expectations, and professional management expectations. Progress from advanced beginner to entry-level performance in the management of patients with non-complex and complex problems across the life span.

PHYSICIAN ASSISTANT (PA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PA 2116. Medical Terminology. 0 Credits.**PA 6101. Clinical Assessment I. 4 Credits.**

Foundations of comprehensive history taking, physical exam assessments, and the proper documentation of these components in the medical record. Integrates concepts of effective communication and basic knowledge of human anatomy and physiology.

PA 6102. Clinical Assessment II. 1 Credit.

Builds upon Clinical Assessment I. Integration of effective communication and knowledge of human anatomy, physiology, clinical medicine, and pharmacology. Introduction to techniques to assess common abnormal physical exam findings. Development critical thinking skills in the areas of differential diagnoses and development of treatment plans.

PA 6103. Clinical Assessment III. 1 Credit.

Further development of clinical decision making skills and refinement of techniques involved in history taking and physical examinations. Integration of effective communication and knowledge of human anatomy, physiology, clinical medicine, and pharmacology.

PA 6104. Integration into Clinical Concepts I. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6105. Integration into Clinical Concepts II. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. Builds upon skills learned in Clinical Concepts I. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6106. Integration into Clinical Concepts III. 2 Credits.

Application of knowledge gained in concurrent didactic courses to clinical problems and to clinical decision making. Builds upon skills learned in Clinical Concepts I and II. The course is conducted by faculty facilitators in a small-group discussion format.

PA 6109. Foundations of Medicine. 5 Credits.

The Foundations of Medicine course is designed to provide the first year physician assistant student with a baseline level of knowledge of the basic sciences (biochemistry, pathology, medical microbiology, genetics, and laboratory medicine) to the study of health and disease upon which studies in medicine will further build.

PA 6110. Evidence Based Practice for PA Students. 3 Credits.

Introduction to research including methodology, statistical analyses, formulating research questions, and evaluating research designs with an emphasis on studies assessing therapeutic interventions, diagnostic testing, and prognostic indicators of health and disease as part of evidence-based clinical practice.

PA 6111. Evidence Based Practice for PA/MPH Students. 1 Credit.

Advanced application of research-, statistical-, and evidence-based medicine concepts presented in public health courses. Emphasis on studies assessing therapeutic interventions, diagnostic testing, and prognostic indicators of health and disease.

PA 6112. Clinical Medicine I. 7 Credits.

A systematic review and discussion of the epidemiology, pathophysiology, clinical manifestations, diagnosis, and management of the most common diseases in humans.

PA 6113. Clinical Medicine II. 7 Credits.

This course is a systematic review and discussion of the epidemiology, pathophysiology, clinical manifestations, diagnosis and management of the most common diseases in humans. It builds upon the foundation of basic science knowledge and clinical assessment skills.

PA 6116. Clinical Skills I. 2 Credits.

Development of diagnostic and therapeutic skills essential to clinical practice. Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films.

PA 6117. Clinical Skills II. 1 Credit.

Development of diagnostic and therapeutic skills essential to clinical practice. Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films.

PA 6118. Health, Justice, and Society I. 2 Credits.

Presentation and discussion of issues including social determinants of health, cultural competency, ethical principles, epidemiology, and patient safety. A related community service component is included in PA 6119.

PA 6119. Health, Justice, and Society II. 1 Credit.

Required for first-year students in the physician assistant program. Exploration of the effects of social, cultural, behavioral, and economic factors on individual and population health. The vulnerable population group of adults with intellectual and developmental disabilities (IDD) is described from a medical-social perspective. Students further develop patient interaction, communication, and team practice skills through participation in a community practicum experience. Topics relate to those introduced in PA 6118.

PA 6120. Human Behavior. 2 Credits.

Basic knowledge of psychiatry needed to enter clinical practice. Mental status examination as a tool of clinical assessment. Approaches to understanding and working with patients with mental health conditions.

PA 6121. Clinical Specialties. 6 Credits.

Foundations of patient management in surgical, pediatric, and emergency medicine.

PA 6122. Role of PA in American Health Care. 2 Credits.

The history, development, and current status of the physician assistant profession within the context of the U.S. health system, such as practice roles, legal issues, and economic aspects of the profession.

PA 6210. Health, Justice & Society I. 2 Credits.

Presentation and discussion of issues including social determinants of health, cultural competency, ethical principles, epidemiology, and patient safety. Community service component in 6211.

PA 6211. Health, Justice & Society II. 1 Credit.

Presentation and discussion of issues including social determinants of health, cultural competency, ethical principles, epidemiology, and patient safety. Community service component in 6211.

PA 6215. Community Service Curriculum. 3 Credits.**PA 6219. Role of PA in Amer Health Care. 2 Credits.**

The history, development, and current status of the physician assistant profession within the context of the U.S. health system, such as practice roles, legal issues, and economic aspects of the profession.

PA 6225. Clinical Medicine. 3 Credits.

Interdisciplinary course in the theory of medicine using an organ system approach. Clinical findings and pathophysiology for a wide spectrum of diseases. Diagnosis and management of diseases in a variety of medical and surgical specialties.

PA 6226. Clinical Medicine II. 10 Credits.

Interdisciplinary course in the theory of medicine using an organ system approach. Clinical findings and pathophysiology for a wide spectrum of diseases. Diagnosis and management of diseases in a variety of medical and surgical specialties.

PA 6229. Human Behavior. 2 Credits.

Basic knowledge of psychiatry needed to enter clinical practice. Mental status examination as a tool of clinical assessment. Approaches to understanding and working with patients with mental health conditions.

PA 6230. Clinical Skills I. 2 Credits.

Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films. Development of clinical skills including suturing, gowning and gloving, CPR and A.

PA 6231. Clinical Skills II. 1 Credit.

Fundamentals of electrocardiography and interpretation of basic EKG patterns. Effects of drugs and electrolyte imbalance on EKG patterns. Interpretation of radiologic films. Development of clinical skills including suturing, gowning and gloving, CPR and A.

PA 6234. Clinical Assessment. 4 Credits.

Development of patient interviewing, documentation and physical examination skills.

PA 6237. Med Microbiology & Infect Dis. 4 Credits.

Knowledge and understanding of microorganisms including bacteria, viruses, fungi and parasites causing infectious diseases in human beings and impact on the immune system.

PA 6240. Integration Clin Concepts I. 2 Credits.

Integration and clinical application of basic science courses, clinical assessment and clinical medicine using clinical cases with faculty facilitation. Development of clinical decision making skills including selection of appropriate pharmacological and.

PA 6241. Integration Clin Concepts II. 2 Credits.

Integration and clinical application of basic science courses, clinical assessment and clinical medicine using clinical cases with faculty facilitation. Development of clinical decision making skills including selection of appropriate pharmacological and.

PA 6242. Integration Clin Concepts III. 2 Credits.

Integration and clinical application of basic science courses, clinical assessment and clinical medicine using clinical cases with faculty facilitation. Development of clinical decision making skills including selection of appropriate pharmacological and.

PA 6245. Introduction to Primary Care. 2 Credits.**PA 6246. Clinical Applications. 3 Credits.****PA 6248. Intro to Electrocardiography. 1 Credit.****PA 6259. Introduction to Clinical Education. 2 Credits.**

Practical learning that simulates the diversity of health care disciplines and services encountered during clinical training. Through lectures, role playing, and small group activities focused on scope of practice, roles and responsibilities, ethical decision making, and clinical problem solving, physician assistant students gain knowledge and skills that facilitate the transition from the academic to clinical environment and promote high quality clinical education experiences.

PA 6261. Inpatient Med Clinical Practic. 5 Credits.

This is a six-week required clinical rotation for second year PA students which focuses on the role of the physician assistant in a hospital based inpatient setting. The student will actively engage in applying the medical knowledge and clinical skills gained during the didactic year while continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of problems commonly encountered in inpatient settings. Students will also work to incorporate health promotion and disease prevention as well as advocacy for healthy lifestyles, preventive medicine practices, and patient support.

PA 6262. Primary Care. 5 Credits.

The Ambulatory Care Clinical Practicum is a six-week, required clinical rotation for second-year PA students, which focuses on the role of the physician assistant in an ambulatory care setting (clinic or private practice). The student will actively engage in applying the medical knowledge and clinical skills gained during the didactic year while continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of primary care problems encountered in ambulatory care settings. Students will also work to incorporate health promotion and disease prevention into patient care and advocate for healthy lifestyles.

PA 6263. Surg Inpatient Clinical Practi. 5 Credits.

This is a six-week, required clinical rotation for second year PA students, which focuses on inpatient care of the surgical patient and the role of the physician assistant on the surgical patient management team.

PA 6264. Women's Health Clin Pract. 5 Credits.

This is a six-week required clinical rotation for second year PA students, which focuses on the role of the physician assistant in women's health. The student will actively engage in applying the medical knowledge and clinical skills gained during the didactic year, along with continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of health care issues commonly encountered in women's health. Students will also work to incorporate health promotion and disease prevention as well as advocacy for healthy lifestyles and preventive medicine practices and patient support.

PA 6265. Pediatrics Clinical Practicum. 5 Credits.

This is a six-week required clinical rotation for second year PA students which focuses on the role of the physician assistant in a pediatric care setting. The student will actively engage in applying the medical knowledge and clinical skills gained during the didactic year, along with continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of common medical problems and issues encountered in the pediatric medicine. Students will also work to incorporate health promotion and disease prevention as well as advocacy for healthy lifestyles and preventive medicine practices and patient support.

PA 6266. Emergency Medicine Clinical Pr. 5 Credits.

This is a six-week required clinical practicum for second year PA students, which focuses on the role of the physician assistant in the emergency department setting. The student will actively engage in applying the medical knowledge and clinical skills gained during the didactic year while continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of common problems encountered in emergency medicine.

PA 6267. Behav Med Clin Pract. 5 Credits.

This is a six-week required clinical rotation for second year PA students, which focuses on the role of the physician assistant in psychiatric and/or behavioral medicine. The student will actively engage in applying the medical knowledge and clinical skills gained and continue to develop clinical reasoning through an evidence-based approach to the evaluation and management of common problems in patients with psychiatric, emotional and behavioral disturbances. Students will also work to adapt the standard medical history, physical examination, diagnostic and treatment plans to the psychiatric patient.

PA 6268. Elective Clinical Practicum I. 5 Credits.

This is a six-week required clinical rotation in a medical or surgical specialty of the student's choosing and offers the student an opportunity to explore a specialty practice in greater detail.

PA 6269. Final Clinical Practicum. 4 Credits.

This clinical practicum is the final four-week required clinical rotation for second-year PA students that represents a culmination of all previously completed rotations and focuses on the student working most closely at the level of a graduate clinician. The student will actively engage in applying the medical knowledge and clinical skills gained during both the didactic and clinical year in continuing to develop clinical reasoning through an evidence-based approach to the evaluation and management of medical/surgical diseases, illnesses, conditions and/or problems encountered in the practice of medicine.

PA 6271. Clin Apps Evidence Base Prac. 2 Credits.

Advanced application of research, statistical and evidence-based medicine with emphasis on evaluation of therapeutic, diagnostic and prognostic studies and their applicability to the clinical setting.

PA 6275. Elective Clinical Practicum II. 2 Credits.**PA 6280. Surgical Specialty Practice. 2 Credits.**

Advanced techniques and management of selected conditions encountered in general surgery and surgical subspecialty settings.

PA 6281. Surgical Skills Lab. 2 Credits.

Surgical techniques covered include advanced knot tying, placement of central lines and chest tubes, thoracocentesis, and arterial cannulation. Emphasis on laparoscopic surgery techniques.

PA 6299. Independent Study. 1-12 Credits.

Faculty approved didactic or clinical course work primarily used for remediation purposes.

PA 6300. Introduction to Professional Practice. 2 Credits.

Examination of contemporary issues in physician assistant practice as the student transitions to a professional role. By emphasizing continuous professional development; career trajectories; professional practice issues such as ethics, regulatory issues, credentialing, privileging, and malpractice; and maintenance of certification, the students is prepared to manage their emerging professional role and responsibilities.

PA 6529. Intro to Clinical Education. 2 Credits.

PHYSICS (PHYS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHYS 0801W. Dean's Seminar. 3 Credits.**PHYS 1000. Dean's Seminar. 3 Credits.**

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PHYS 1003. Physics for Future Presidents. 0-4 Credits.

A serious but accessible presentation of topics important for leaders to know—energy, global climate, high-tech devices, space travel, nuclear weapons, etc. Students possessing any level of scientific background are equipped with the concepts and analytical tools needed to make informed decisions and to argue their view persuasively. Laboratory fee.

PHYS 1003W. Physics for Future Presidents. 0-4 Credits.**PHYS 1005. How Things Work. 4 Credits.**

Primarily for non-science majors. Physical principles are introduced through a study of everyday objects to see what makes them tick. This unconventional approach is primarily conceptual in nature and intended for students seeking a connection between science and the world in which they live. Prerequisite: high school algebra and trigonometry. Laboratory fee.

PHYS 1007. Music and Physics. 4 Credits.

Primarily for non-science majors. A comparative study of music and physics, showing parallels in the history of the two fields and emphasizing those topics in physics related to the theory of music and the production of sound by musical instruments, particularly classical mechanics and wave motion. Prerequisite: high school algebra and geometry. Laboratory fee.

PHYS 1007W. Music and Physics. 4 Credits.

Primarily for non-science majors. A comparative study of music and physics, showing parallels in the history of the two fields and emphasizing those topics in physics related to the theory of music and the production of sound by musical instruments, particularly classical mechanics and wave motion. Prerequisite: high school algebra and geometry. Laboratory fee.

PHYS 1008. Origin and Evolution of Ideas in Physics. 4 Credits.

Primarily for non-science majors. The evolution of ideas and their historical continuity in the search for basic physical theories. By presenting the world-views of great physicists of the past, the division of physics into many sub-disciplines is avoided and a humanistic approach is achieved. Prerequisite: high school algebra. Laboratory fee.

PHYS 1008W. Origin and Evolution of Ideas in Physics. 4 Credits.

Primarily for non-science majors. The evolution of ideas and their historical continuity in the search for basic physical theories. By presenting the world-views of great physicists of the past, the division of physics into many sub-disciplines is avoided and a humanistic approach is achieved. Prerequisite: high school algebra. Laboratory fee.

PHYS 1011. General Physics I. 4 Credits.

Classical physics. Mechanics, including Newton's laws of motion, force, gravitation, equilibrium, work and energy, momentum, and rotational motion; periodic motion, waves, and sound; heat and thermodynamics. Prerequisite: high school trigonometry. Laboratory fee.

PHYS 1012. General Physics II. 4 Credits.

Classical and modern physics. Electrostatics, electromagnetism, direct and alternating current circuits, and electromagnetic radiation; geometrical and physical optics; special relativity; quantum theory; atomic physics; nuclear physics; particle physics; astrophysics and cosmology. Prerequisite: PHYS 1011. Laboratory fee.

PHYS 1021. University Physics I. 4 Credits.

Classical mechanics and thermodynamics using calculus. Newtonian mechanics: force, momentum, work and energy, mechanical equilibrium, linear, and rotational motion. Gravitation and fields. Atoms, physical properties of matter. Energy transfer and waves, sound. Laboratory fee. Credit cannot be earned for both PHYS 1021 and PHYS 1025. Prerequisite: MATH 1231.

PHYS 1022. University Physics II. 4 Credits.

Periodic motion, waves, and classical electromagnetism using calculus. Waves and sound. Electrostatics, Gauss's law, capacitance. Electric resistance, electric current. Magnetism. Electrodynamics and electromagnetic induction. Maxwell's theory and electromagnetic radiation. Geometric and physical optics. Prerequisites: PHYS 1021 or PHYS 1025.

PHYS 1022W. University Physics 2. 4 Credits.

Periodic motion, waves, and classical electromagnetism using calculus. Waves and sound. Electrostatics, Gauss's law, capacitance. Electric resistance, electric current. Magnetism. Electrodynamics and electromagnetic induction. Maxwell's theory and electromagnetic radiation. Geometric and physical optics. Prerequisite: PHYS 1021. Laboratory fee.

PHYS 1023W. Modern Physics. 3 Credits.

Modern physics using calculus. Relativity. Wave-particle duality, quantum mechanics. The hydrogen atom, Pauli principle. Quantum statistics and radiation. Quantum theory of the condensed state, superconductivity. Nuclear physics. Applications to astrophysics and nucleosynthesis. General relativity. The big bang theory. Prerequisite: PHYS 1022, MATH 2233.

PHYS 1025. University Physics I with Biological Applications. 4 Credits.

Classical mechanics and thermodynamics using calculus. Newtonian mechanics: force, momentum, work and energy, mechanical equilibrium, linear and rotational motion, fluids. Energy transfer, statistical models, and entropy. Physics principles and problem solving will be taught with examples and problems from the life sciences. Prerequisite: Math 1232; corequisite: Math 1232. Laboratory fee. Credit cannot be earned for both PHYS 1021 and PHYS 1025.

PHYS 1026. University Physics II with Biological Applications. 4 Credits.

Periodic motion waves, and classical electromagnetism using calculus. Waves and sound. Electrostatics, Gauss's law, capacitance. Electric resistance, electric current. Magnetism. Electrostatics in ionic solutions and cells, circuit models for nerves and ion channels. Geometric and physical optics. Physics principles and problem solving will be taught with examples and problems from the life sciences. Prerequisite: PHYS 1021 or 1025, MATH 1232. Laboratory fee. Credit cannot be earned for both PHYS 1022 and 1026.

PHYS 2023. Modern Physics. 3 Credits.**PHYS 2151. Intermediate Laboratory I: Techniques and Methods. 3 Credits.**

Experiments in electromagnetism, classical and quantum mechanics, atomic and nuclear physics with emphasis on experimental methods. Corequisite: PHYS 1023. Laboratory fee.

PHYS 2151W. Intermediate Laboratory I: Techniques and Methods. 3 Credits.

Experiments in electromagnetism, classical and quantum mechanics, atomic and nuclear physics with emphasis on experimental methods. Corequisite: PHYS 1023. Laboratory fee.

PHYS 2152. Intermediate Laboratory II: Instrumentation. 3 Credits.

Elementary electric and electronic analog and digital circuits. Topics include passive and active components in DC and AC circuits and operational amplifiers, with emphasis on measurement techniques. Laboratory fee.

PHYS 2163. Physical and Quantum Optics. 3 Credits.

Wave motion, electromagnetic aspects of light, dispersion of light in media, geometrical optics, polarization and optical properties of crystals, interference, diffraction, lasers, holography. Mathematical tools, including Fourier methods, developed as needed. The quantum description of light complements the classical description. Prerequisite: PHYS 1023 or PHYS 2023; and MATH 2233.

PHYS 2182. Computational Electricity/Magn. 3 Credits.**PHYS 2183. Computational Modern Physics. 3 Credits.****PHYS 3127. Biophysics: Macroscopic Physics in the Life Sciences. 3 Credits.**

Physical principles applied to biological systems and medicine, and current instrumentation and technology. Topics include blood flow, ultrasonics, spectroscopy, radiation biology, bioenergetics, ordering theory, and neural networks. Prerequisites: PHYS 1012 or PHYS 1022 or PHYS 1022W and MATH 2233. Same as PHYS 2127.

PHYS 3128. Biophysics: Microscopic Physics in the Life Sciences. 3 Credits.

Physical principles applied to biological systems on the nanometer scale. Topics include intermolecular forces, statistical principles applied to biological microstates, determining protein and nucleic acid structures, operation of protein motors and transport systems, together with nanotechnology and instrumentation. Prerequisites: PHYS 1012 or PHYS 1022 or PHYS 1022W and MATH 2233. Same as PHYS 2128.

PHYS 3163. Physical and Quantum Optics. 3 Credits.**PHYS 3164. Thermal and Statistical Physics. 3 Credits.**

Principles and application of thermodynamics to reversible and irreversible processes, with derivation from statistical postulates applied to the microscopic behavior of large systems at or near equilibrium. Topics include equilibrium thermodynamics, statistical mechanics, and kinetic theory of gases. Prerequisites: PHYS 1023 or PHYS 1023W; and MATH 2184 and MATH 3342; or permission of the instructor.

PHYS 3165. Electromagnetic Theory I. 3 Credits.

Electrostatics and magnetostatics, electric and magnetic fields in matter, scalar and vector potentials, electromagnetic induction. Maxwell's equations. The methods of vector and tensor calculus are developed as needed, as are the method of images, Fourier series, and some computational methods. Prerequisites: MATH 2184, MATH 2233, MATH 3342 and PHYS 2023; or permission of the instructor. Recommended background: MATH 3343 or equivalent.

PHYS 3166. Electromagnetic Theory II. 3 Credits.**PHYS 3167. Principles of Quantum Physics. 3 Credits.****PHYS 3181. Computational Physics. 3 Credits.****PHYS 4170. Solid-State Physics. 3 Credits.****PHYS 4175. Nuclear Physics. 3 Credits.**

Application of quantum physics to the description of nuclei and their interactions. Properties of nuclei, nuclear models, nuclear forces, and nuclear reactions are considered. Specific topics include the deuteron, n-p scattering, the optical model, the shell model, the liquid-drop model, beta decay, fission, and fusion. Prerequisite: MATH 3342, MATH 3343, PHYS 3165 and PHYS 3167; or permission of the instructor.

PHYS 4190. Special Topics. 1-4 Credits.**PHYS 4192. Independent Study. 1-3 Credits.**

Independent readings or directed study under the supervision of a faculty member. Credit varies, depending upon the nature of the work. May be repeated once for credit. Same as PHYS 2192.

PHYS 4195. Undergraduate Research. 3 Credits.

Research on problems in physics approved by the faculty. May be repeated once for credit.

PHYS 4196. Undergraduate Research in Biophysics. 3 Credits.

Research on problems in biophysics approved by the faculty. May be repeated once for credit.

PHYS 4197. Undergraduate Research in Nuclear Physics. 3 Credits.

Research on problems in nuclear physics approved by the faculty. May be repeated once for credit.

PHYS 5701. Selected Topics. 0-4 Credits.

PHYS 6110. Mathematical Methods of Theoretical Physics. 4 Credits.

Calculus of variations. Group theory. Tensor calculus. Review of techniques of linear algebra. Hilbert spaces and operator theory. Special functions and expansion in complete orthogonal sets of functions. Solutions of partial differential equations, Green's functions method and boundary-value problems. Integral equations. Complex analysis and theory of analytic functions. Prerequisite: Consent of a departmental graduate advisor. Corequisite: PHYS 6130.

PHYS 6120. Advanced Mechanics. 4 Credits.

Analytic methods of mechanics as a basis for modern theory. Variational principles. Lagrange's equations. Hamiltonian formulation. Canonical transformations. Classical perturbation theory. Nonlinear systems. Special relativity. Prerequisite: Consent of a departmental graduate advisor. Corequisite: PHYS 6130.

PHYS 6130. Computational Physics I. 1 Credit.

Taken in conjunction with PHYS 6110 and PHYS 6120.

PHYS 6210. Electrodynamics and Classical Field Theory. 4 Credits.

Principles of electro- and magneto-statics. Classical field theory. Maxwell's equations, least-action and symmetry principles. Time-varying fields and plane-wave propagation. Radiating systems and scattering of radiation, including multipole fields. Dynamics of relativistic particles and radiation from moving charges. Electrodynamics in media: relation between microscopic parameters and macroscopic observables. Prerequisite: Consent of a departmental graduate advisor. Corequisite: PHYS 6230.

PHYS 6220. Quantum Mechanics I. 4 Credits.

General aspects of quantum mechanics with emphasis upon the developmental principles involved. Operators, representations, transformation theory. Schroedinger and Heisenberg pictures, angular momentum, perturbation and scattering theory. Introduction to relativistic quantum field theory, first-order electromagnetic processes. Many-body theory. Prerequisite: Consent of a departmental graduate advisor. Corequisite to PHYS 6220: PHYS 6230; to PHYS 6320: PHYS 6330.

PHYS 6230. Computational Physics II. 1 Credit.

PHYS 6310. Statistical Mechanics. 4 Credits.

Classical and quantum statistics. Gibbs paradox, microscopic origins of entropy and other thermodynamic variables, fluctuations, ensemble theory, partition functions, distribution functions, density matrices. Applications include the harmonic oscillator, magnetic systems, ideal Fermi-Dirac and Bose-Einstein systems, blackbody radiation, phonons. Renormalization group, phase transitions and critical phenomena. Prerequisite: Consent of a departmental graduate advisor. Corequisite: PHYS 6330.

PHYS 6320. Quantum Mechanics II. 4 Credits.

PHYS 6330. Computational Physics III. 1 Credit.

PHYS 6510. Communications in Physics. 0-3 Credits.

Student presentations on advanced topics in physics.

Prerequisite: Consent of a departmental graduate advisor.

PHYS 6590. Seminar. 0-1 Credits.

Lectures on current topics in physics. May be repeated for credit. Prerequisite: Consent of a departmental graduate advisor.

PHYS 6599. Advanced Study. 3 Credits.

For students who have completed three semesters of course work in the core graduate physics curriculum. Problem sets aimed at development of a deeper and more advanced understanding of physics.

PHYS 6610. Nuclear and Particle Physics I. 3 Credits.

Theory and experiment of the standard model of elementary particle physics of strong and electro-weak interactions. Emergence of nuclear interactions and pion physics. Effective field theory, non-perturbative methods, lattice simulations, nuclear models, nuclear reactions. Path integral, gauge fields, S-matrix theory, dispersion relations, renormalization program. Prerequisite: PHYS 6320 and permission of the graduate advisor.

PHYS 6620. Biophysics I. 3 Credits.

Topics include molecular biophysics, modern simulation methodologies and experimental methodologies for probing biological systems.

PHYS 6630. Astrophysics I. 3 Credits.

Astrophysical examination of stellar evolution, including properties of stellar matter, equations of state, nucleosynthesis, red giants, supernovae, white dwarfs, close binary stellar systems, gamma-ray bursts. Overview of observational techniques, including photometry; IR, UV, X-ray observation, gamma-ray frequencies; astrophysical data analysis; evidence for stellar and cosmological models. Prerequisite: Consent of a departmental graduate advisor.

PHYS 6710. Nuclear and Particle Physics II. 3 Credits.

Theory and experiment of the standard model of elementary particle physics of strong and electro-weak interactions. Emergence of nuclear interactions and pion physics. Effective field theory, non-perturbative methods, lattice simulations, nuclear models, nuclear reactions. Path integral, gauge fields, S-matrix theory, dispersion relations, renormalization program. Prerequisite: Phys 6320. (Academic year).

PHYS 6720. Biophysics II. 3 Credits.

Phys 6720: Topics include theoretical and computational methods for genes, proteins, and bionetworks; models of biological complexity; applications of non-equilibrium statistical mechanics and combinatorial optimization. Prerequisite: Phys 6310. This course may be taken repeatedly for credit to a maximum of 15 credits.

PHYS 6730. Astrophysics II. 3 Credits.

PHYS 6810. Phys Stats and Data Analysis. 3 Credits.

PHYS 6998. Thesis Research. 3 Credits.

PHYS 6999. Thesis Research. 3 Credits.

PHYS 8110. Selected Topics in Theoretical Nuclear Physics. 3 Credits.

Prerequisite: Consent of a departmental graduate advisor.
May be repeated once for credit with permission of graduate advisor.

PHYS 8120. Selected Topics in Experimental Nuclear Physics. 3 Credits.

Prerequisite: Consent of a departmental graduate advisor.
May be repeated once for credit with permission of graduate advisor.

PHYS 8130. Selected Topics in Theoretical Biophysics. 3 Credits.

Prerequisite: Consent of a departmental graduate advisor.
May be repeated once for credit with permission of graduate advisor.

PHYS 8140. Selected Topics in Experimental Biophysics. 3 Credits.

Prerequisite: Consent of a departmental graduate advisor.
May be repeated once for credit with permission of graduate advisor.

PHYS 8150. Selected Topics in Astrophysics. 3 Credits.

Prerequisite: Consent of a departmental graduate advisor.
May be repeated once for credit with permission of graduate advisor.

PHYS 8998. Advanced Reading and Research. 1-4 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated once for credit.

PHYS 8999. Dissertation Research. 1-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

PHYSIOLOGY (PHYL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PHYL 2111. Phyl for Health Sci Students. 4 Credits.

PHYL 6201. Physiology. 6 Credits.

Required for medical students, open to graduate students. Cellular, organ system, and applied human physiology. Prerequisite for graduate students: Anat 201 or Phyl 191, or equivalent; Bioc 221 or Phyl 205, or consent of department chair. Concurrent regis.

PHYL 6205. Regulatory Cell Biology. 2 Credits.

PHYL 6211. Physiology for Health Sciences Students. 3 Credits.

Functional processes, including cellular, muscular, cardiovascular, renal, pulmonary, gastrointestinal, endocrine, and nervous systems.

PHYL 6253. Phyl-Fluid Bal & H Ion Regulatn. 2 Credits.

PHYL 6269. Topics-Neuro/Psychophysiology. 2 Credits.

PHYL 6282. Experimental Physiology. 1-12 Credits.

PHYL 6290. Extramural Physiology Elective. 1-12 Credits.

PHYL 6291. Extramural Physiology Elective. 1-12 Credits.

PHYL 6295. Research. 1-12 Credits.

By special arrangement with individual staff members. Approximately four hours per week in the laboratory for each credit hour of credit. May be repeated for credit.

PHYL 6298. Comprehensive Physiology. 5 Credits.

PHYL 6502. Biomed Sci/Clin Corr inDisease. 1-12 Credits.

PHYL 8800. Summer Remedial: Physiology. 8 Credits.

POLITICAL MANAGEMENT (PMGT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PMGT 1000. Dean's Seminar. 3 Credits.

PMGT 4101. Electoral&LegislativeProcesses. 3,4 Credits.

PMGT 4107. Practicum in Political Mgt. 3,4 Credits.

PMGT 4187. Professional Internship. 3-4 Credits.

PMGT 4192. Tutorial-Amer Elect& PolMvmnts. 3-4 Credits.

PMGT 6401. Fundamentals of Political Management. 3 Credits.

Main concepts, arenas, developments, roles, and practices in the field of political management. Assess rhetorical situations, write strategy memos, create and critique campaign messages, and engage citizens, professional colleagues and decision-makers. Taken in first semester of program. (Professors M. Cornfield and TBD.).

PMGT 6402. Applied Political Communications. 3 Credits.

Models and methods by which professionals plan, produce, and adjust strategic communication messages in democratic politics. Use a variety of communication forms and media, such as, fact sheets, blog posts, video releases, and public addresses, under typical constraints of time, money, information, reputation, talent, audience attentiveness, and institutional procedure. Students to enroll by their sixth course in the program. Core requirement; Must be completed before a student reaches 18 credit hours.

PMGT 6403. Political Data and Analytics. 3 Credits.

Introduction to the uses of quantitative data and statistics in politics. Learn to evaluate research designs, statistical associations, causal reasoning, methods for hypothesis testing, multivariate regression analyses, and data analytics. Consume and critique data and statistics for strategic purposes. Students to enroll by their sixth course in the program. Core requirement. Must be completed before a student reaches 18 credit hours.

PMGT 6404. Principled Political Leadership. 3 Credits.

Theory and practice of ethically grounded political leadership. Consideration of the recurrent dilemmas, philosophical principles, management techniques, codes of conduct, and professional norms in the political management field. Application through self-assessment exercises, case study analysis, and individual and group simulations. Students to enroll by their sixth course in the program. Core requirement. Must be completed before a student reaches 18 credit hours.

PMGT 6410. Grassroots Engagement. 3 Credits.

Strategies and techniques to build advocacy support among and across general civic populations. Identification of potential supporters through database targeting and individual outreach. Motivation and training of interested supporters for grassroots action in campaigns, at public forums, and before decision-makers. Coalition and protest options; analytics of ongoing efforts. (Professors E. Greffe, S. Gagen).

PMGT 6412. Issues Management. 3 Credits.

Track, influence, and alter politically significant issue-related discourses and policy developments. Legislative, executive, and judicial venues and processes for policymaking; state referendum, initiative, and recall ballot opportunities; organizational structures, including digital procedures, for issue management. (Professors M. Edwards, E. Greffe).

PMGT 6414. Lobbying. 3 Credits.

Survey of and training for lobbying in the U.S. federal system. Students design a detailed lobbying plan for implementation and practice a variety of influence techniques, including those associated with digital media and communications technologies. Legal compliance, organizational and public accountability, professional standards and practices. (Professor J. Hobson).

PMGT 6416. International Lobbying. 3 Credits.

Survey of international lobbying practices, analysis of strategic models and best practices in a variety of different countries and political systems (e.g., EU, China, Brazil, and Turkey). Trends and innovations in lobbying techniques and communications technologies. Investigation and application of appropriate research to improve practice. (Professor TBD by AGE program) (Same as PSAD 6240).

PMGT 6418. Budget Politics. 3 Credits.

Politics of the budget process, including formal and informal mechanisms of appropriating U.S. federal funds. Lobbying strategies and tactics employed by private and public organizations seeking to influence budgetary agenda-setting in the White House; decision-making in Congress; and funding negotiations within and between executive agencies. (Professor M. Edwards).

PMGT 6420. Corporate Public Affairs. 3 Credits.

Exploration of major functional areas in corporate public affairs with a focus on the political and policy dynamics operating in the United States and other democracies. Development and deployment of appropriate strategies, research, and tactics for corporations managing the complexities related to a global economy and shifting political alliances.

PMGT 6422. State and Intergovernmental Politics. 3 Credits.

Examination of the electoral pressures on state and local legislators. Methods and techniques for advocacy in various state capitals. The governing responsibilities of constitutionally-delegated to states and the ever-changing historical relationship between states and the federal government. (Professors C. Shank).

PMGT 6430. Campaign Strategy. 3 Credits.

Orientation to the basic systems and technologies that must be created and managed to produce electoral victory. The campaign plan and campaign budget as the foundation for management of campaigns. Focus on development of a campaign plan. (Professor M. Meissner).

PMGT 6432. Managing Campaigns. 3 Credits.

Understanding the role of a campaign manager in staffing and running a campaign, while executing the campaign plan. Candidate handling, fundraising, website and technology, geographic and demographic targeting, field organization, canvassing, get-out-the-vote, press operations, budget control, and liaison with the party and interest groups. (Professors TBD) Prerequisites: PMGT 6430.

PMGT 6434. Running for Office. 3 Credits.

Electoral politics from the perspective of the candidate, strategic and personal factors involved in the decision to run and the consequences of victory or defeat. (Professor R. Faucheux).

PMGT 6436. National Campaign Dynamics. 3 Credits.

Examination of the historical and systematic patterns in national elections. Differences between presidential and midterm elections; House and Senate contests; party nomination races and general elections; primaries and caucuses; Democratic and Republican party delegate selection rules; causes for "wave" elections; effect of the economy on election outcomes; and standard vice presidential selection models. The political and partisan structural conditions that exist before any of the candidates or the campaigns get involved.

PMGT 6438. State and Local Campaigns. 3 Credits.

Application of campaign strategy and management principles to electoral races at the state and local levels. Staffing, budgeting, and strategic challenges for what are typically lower-visibility contests that involve state and local candidates. Coordinated campaigns and the impact of the national party's reputation on these down-ballot races. (Professor TBD).

PMGT 6440. Targeting and Voter Contact. 3 Credits.

How to find voters for electoral and advocacy campaigns and tailor communications to them. Database analytics, list management, questionnaire design, target weighting, predictive modeling. Review of randomized and natural experiments in light of theoretic principles and findings from public opinion research. Skill development in use of spreadsheets and basic statistical packages. Lab fee. (Professors B. Russell, A. Strauss) Prerequisites: PMGT 6403.

PMGT 6442. Campaigns Around the World. 3 Credits.

Comparative examination of national-level campaigns in democratic countries outside of the United States. Strategies, techniques, and practices used in multi-party and/or parliamentary systems. Professional conduct, consulting rules and norms.

PMGT 6450. Rules, Laws, and Strategy. 3 Credits.

U.S. federal and state laws and regulations governing recognition of political parties and political organizations, campaign finance, political broadcasting and cablecasting, lobbying registration. Ballot access and voter registration. Ethical and strategic considerations (opportunities and constraints; benefits and drawbacks) related to rule construction. (Professor M. Braden).

PMGT 6452. Digital Strategy. 3 Credits.

Development of an integrated digital strategy for use in advocacy and electoral campaigns. Introduction to the theoretical concepts, distinctive technologies, applied skills, and managerial challenges associated with digital campaigning. Search engine optimization, GPS, online payment systems, customizing back- and front-end systems to meet strategic goals and budget parameters, working with IT vendors and distance volunteers, legal and cultural considerations in US and other regimes, site rollout and scaling, security and privacy. (Professor TBD).

PMGT 6454. Fundraising and Budgeting. 3 Credits.

Raising and spending money in political campaigns, referenda contests, issue advocacy, and lobbying efforts. Budgeting process, standard controls to check expenditures, accounting procedures, and general strategies for use in effective fundraising. (Professor N. Bocskor).

PMGT 6456. Speechcraft. 3 Credits.

Analysis and techniques used in speechwriting and presentations for public officials and candidates. Managing the political optics and understanding a speech's visual context and non-verbal communication capabilities (Rose Garden, Oval Office, campaign stump speech, ceremonial occasion, congressional testimony). Modulating speaker style, tone, and pacing, and staging the speech for effect. (Professors D. McGroarty, R. Lehrman).

PMGT 6458. Crisis Management. 3 Credits.

Management of crisis situations and defining moments in electoral, legislative, and public policy campaigns. Exploration of the causes and consequences of political scandals. Professional responsibilities and ethical considerations of crisis management and rapid response decisions. (Professor M. Edwards).

PMGT 6460. Audience Research. 3 Credits.

Processes by which citizens acquire political information and make decisions in politics. Survey research uses in electoral campaigns and issue advocacy. Designing and drawing samples, constructing and pretesting questionnaires, modes of interviewing, financial implications, practical problems in selecting and monitoring polling organizations, and interpretation of data. Focus groups and small-sample interviews; relationship between qualitative and quantitative research; reliability and validity. (Professors R. Johnson, D. Cantor, B. Tringali, M. Ward) Prerequisites: PMGT 6403.

PMGT 6462. Opposition Research. 3 Credits.

Practices and techniques associated with investigative opposition research. Public document and website searches, candidate tracking, and methods for information dissemination. Changes in practice as a result of technological innovations and a changing media environment. Professional responsibilities and ethics expected from opposition researchers.

PMGT 6464. Influencing the Media. 3 Credits.

Organization, practices, and norms of the major media; media coverage of public officials, political campaigns, legislative battles, interest groups, and issues of public policy. Formulation of strategies for getting favorable news coverage for the issue or candidate and for ending a media crisis. (Professor L. Ellenbogen).

PMGT 6466. Political Advertising. 3 Credits.

Strategies and techniques for using the various media (print, radio, television, cable, Internet) in political and advocacy campaigns, with emphasis on the use of television. Impact and uses of paid advertising; development of campaign messages; production, timing, and placement of television advertising; explanation of media markets. Students design print ads and brochures and produce a 30-second television spot. (Professor P. Fenn).

PMGT 6468. Digital Advertising and Action. 3 Credits.

Strategies and techniques for developing and leveraging digital advertising for mobilization. Manage an effective online ad campaign from initial concept to creation and from targeting to measuring the results. Prepare, design, and launch a variety of online ad types, including search, social, display, and video. Analyze success or failure based on analytics and benchmarking. Prerequisites: PMGT 6452: Digital Strategy.

PMGT 6470. Digital Content Creation. 3 Credits.

Developing and creating effective digital content that promotes campaign narratives and furthers strategic messages. Construct portfolios of original and aggregated digital media content. Skill development in infographics, video, GPS, photo collage, page and site architecture, and texts from 140 characters to blog posts and file attachments. Versioning for different communities, functionalities, and channels including mobile applications. Prerequisites: PMGT 6452: Digital Strategy.

PMGT 6472. Maximizing Social Media. 3 Credits.

Creating and integrating owned digital platforms and social media assets for political persuasion and action. Cultivation of online political communities, moderating and curating outside-generated content, integration and alignment with campaign message; event, reputation and crisis management. Review of constraints and potentials intrinsic to specific social media sites (e.g. Facebook, Google, LinkedIn, Twitter). Prerequisites: PMGT 6452: Digital Strategy.

PMGT 6474. Stereotypes and Political Strategy. 3 Credits.

Accounting for psychological constructs, social stereotypes, media framing, and the impression formation process in developing a political strategy. Review of empirical research; investigation of effective techniques or postures for overcoming biases; self-assessment of perceptual assumptions.

PMGT 6476. Political Consulting. 3 Credits.

Management principles, technical procedures, and legal requirements for starting and running a political consulting business. Effective practices for gaining a positive reputation, sustaining profitability across the variable political environment, and engaging on the international front. Start-up funding, mergers and acquisitions, exit strategies. (Professors G. Nordlinger, L. Purpuro, M. Meissner).

PMGT 6480. Washington Residency. 3 Credits.

Capstone experience equivalent to PMgt 6495 for students in the online Political Management program. Exposure to and interaction with political consultants, advocacy specialists, elected officials, and applied researchers in Washington, D.C. Integration of program curriculum toward an understanding of the federal political ecosystem and development of a robust political network. Restricted to Taken by PMGT online students in last or penultimate term, or with approval by instructor.

PMGT 6482. Applied Research Project. 3 Credits.

A research option for students in the online Political Management program. Development of a campaign-relevant research report and related communications on behalf of a mock political client. The report will describe the status quo of a political situation, analyze the factors and actors sustaining that status quo, identify what and who is potentially moveable in the direction the client seeks to go, and outline practical first steps a campaign can take in that direction. Restricted to For students in the PMGT online program; taken either in the penultimate or last term in the program.

PMGT 6490. Special Topics. 3 Credits.

Topic to be announced in the Schedule of Classes.

PMGT 6495. Political Power & Practice. 3 Credits.

Capstone seminar that develops and integrates knowledge of political strategies, tactics, and situational considerations, and applies that knowledge to advanced political problems. Topics include: gaining and wielding power, the complexity associated with making democracy work, conflict resolution, negotiation and bargaining skills, grappling with the consequences of winning and losing. Students to enroll during their last or penultimate term. (Professor L. Brown).

PMGT 6496. Independent Study. 0-3 Credits.

Independent research with a Political Management faculty member. Registration must be approved in advance by the supervising faculty member and the director of the political management program.

PMGT 6497. Graduate Internship. 0 Credits.

Limited to Political Management M.P.S. degree candidates. Experience at an organization focused on applied politics.

PMGT 6498. Thesis I. 3 Credits.

Master's degree candidates must apply to the program committee for thesis approval and have completed 24 credit hours with a 3.3 GPA.

PMGT 6499. Thesis II. 3 Credits.

Master's degree candidates must apply to the program committee for thesis approval and have completed 24 credit hours with a 3.3 GPA. Prerequisites: PMGT 6498.

PMGT 6501. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis. Topics include political and policy decision making, actors, and process.

PMGT 6502. ConfrontManag&AllianceBldg. 3 Credits.**PMGT 6503. Communication Strategy. 3 Credits.**

Formulation of political communications strategies. Elements necessary to create, introduce, and maintain an effective political profile in issue advocacy campaigns, candidate elections, and legislative advocacy campaigns. Application of principles of research, advertising, and marketing to the political landscape.

PMGT 6504. PolMgt & StrategicGovernance. 3 Credits.**PMGT 6505. Politica de bases. 3 Credits.**

Use of microtargeting and database-layering technology to identify potential advocates. Motivational techniques to mobilize volunteers for political campaigns, lobbying efforts, and community advocacy. Techniques used by grassroots organizers to help corporations, unions, civic and nonprofit organizations, and special interest groups achieve strategic goals.

PMGT 6506. Practicum. 3 Credits.**PMGT 6507. Democracia y elecciones en LA. 3 Credits.**

This course will focus on the recent history of Latin America, underscoring the struggle to establish and consolidate democracy and the preeminence of elections as the legitimate process to select and replace authorities at the national, regional and local levels. The course will provide the student with concepts to understand the different types of democratic settings that exist in the region, that is the coexistence of fairly established and solid democracies, with low intensity democracies, and semi-authoritarian regimes, all of which utilize electoral processes to select public authorities. The main message of this course is that campaign designers need to understand and take a strategic advantage of the political context and the rules governing the political competition in order to obtain the most effective results.

PMGT 6508. Estrategia de campana LA. 3 Credits.

Organization of political campaigns. Strategic decisionmaking. Formulation of political communications strategies. Aspects necessary to introduce and maintain an effective political profile in the electoral campaigns in Latin America, including the specialized forms of communication which political professionals use to win support for their candidates. This course will be taught entirely in Spanish.

PMGT 6509. Las encuestas-America Latina. 3 Credits.

The use of survey research in campaigns. Quantitative and qualitative survey research for political management in Latin America. The proper use of polls; methodology and survey design; reviewing poll results; drawing conclusions and recommendations from polls; and the practical problems of administering and interpreting survey data of public opinion in Latin America. PMGT 6509 will be taught entirely in Spanish.

PMGT 6510. Organizacion y ejecucion-LA. 3 Credits.

Organizational choices facing campaign management teams in Latin America as they attempt to combine the resources and activities of a modern campaign into a winning effort.

PMGT 6511. Propoganda politica, La campan. 3 Credits.

The strategies, techniques, design and impact of paid political communications directed toward target audiences in Latin America, focusing upon the role of political advertising in a campaign, including radio, direct mail, print and internet, but with specific emphasis on television commercials.

PMGT 6512. Los medios, la politica-LA. 3 Credits.

The role of the media in the politics of Latin America. Who the media are, how they make their decisions, and how they influence outcomes in campaigns and other political situations. Strategic planning in dealing with the media as well as the particular dynamics that surround electronic, print, and the new media. Effective practices of media engagement. This course will be taught entirely in Spanish.

PMGT 6513. Comunicacion Politica,Gobernon. 3 Credits.

The course builds upon the Practicum course of the Certificate in Governance and integrates the two processes of politics: campaigning and governing. PMGT 6513 will be taught entirely in Spanish.

PMGT 6514. Manejo de Crisis. 3 Credits.

Manejo de Crisis. Management of crisis situations and defining moments in electoral, legislative, and public policy campaigns. Exploration of the causes and consequences of political scandals. Professional responsibilities and ethical considerations of crisis management and rapid response decisions.

POLITICAL PSYCHOLOGY (PPSY)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PPSY 6101. Fundamentals of Political Psychology. 3 Credits.

A review of the interdisciplinary field of political psychology; examination of psychological influences on political behavior at the level of the individual and small group; the psychology of leader-follower relationships; crisis decision making.

PPSY 6102. Political Psychology Research Methods. 3 Credits.

Major research methods of political psychology, using classic articles in the field. Both quantitative methods, such as survey research and content analysis, and qualitative methods, such as personality profiling and comparative case studies, are considered. Prerequisite: PPSY 6101.

PPSY 6103. Political Violence and Terrorism. 3 Credits.

The origins and the sociopolitical and behavioral dynamics of political violence and terrorism. Major types of terrorism are differentiated. Implications for antiterrorist policy. The psychology of hostages.

PPSY 6104. Independent Study and Research. 1-3 Credits.

Supervised research in a special topic in political psychology. Preparation of major research paper. Prerequisite: PPSY 6101, PPSY 6102.

POLITICAL SCIENCE (PSC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PSC 1001. Introduction to Comparative Politics. 3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1001W. Intro to Comparative Politics. 0-3 Credits.

Concepts and principles of comparative analysis, with an examination of politics and government in selected countries.

PSC 1002. Introduction to American Politics and Government. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1002W. Intro-American Politics & Govt. 3 Credits.

Structure, powers, and processes of the American political system and the impact on public policy.

PSC 1003. Introduction to International Politics. 3 Credits.

Analysis of world politics, focusing on the role of nation-states and international organizations and on selected foreign policy issues.

PSC 1011. Introduction to Politics I. 6 Credits.

Role of personal and social values in politics. Problems in the Western (especially American) tradition of political science. Admission by special selection process.

PSC 1012W. Introduction to Politics II. 6 Credits.

Continuation of PSC 1011. Role of personal and social values in politics. Thinking outside the Western state: culture, nationalism, ethnic conflict, democratization, international conflict. Admission by special selection process.

PSC 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the schedule of classes for more details. Restricted to Registration by instructor approval.

PSC 2099. Variable Topics. 1-12 Credits.

Use denotes upper-level transfer credit in political science.

PSC 2101. Scope and Methods of Political Science. 3 Credits.

Nature of political inquiry, approaches to the study of politics and government, empirical methods of research.

PSC 2102. Visualizing and Modeling Politics. 3 Credits.

The class builds on PSC 2101, Scope and Methods of Political Science, with emphasis on working with data to examine political questions. Prerequisites: PSC 2101 or STAT 1051 or STAT 1053 or STAT 1111.

PSC 2105. Major Issues of Western Political Thought I. 3 Credits.

Foundations of Western political thought—Plato to Aquinas.

PSC 2106. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the 16th through the late 19th century, as set forth in the works of representative thinkers.

PSC 2106W. Major Issues of Western Political Thought II. 3 Credits.

History of political thought from the 16th through the late 19th century, as set forth in the works of representative thinkers. Writing intensive.

PSC 2107. 20th-Century Political Thought. 3 Credits.

Recent Western political thought; analysis and critique of the legacies of modern political theories and ideologies.

PSC 2108. Freedom and Equality. 3 Credits.

Case analysis of major ideas related to freedom and equality in the Western political tradition.

PSC 2110. American Political Thought. 3 Credits.

Political thought in the U.S. from colonial times to the present as seen through major representative writings.

PSC 2120W. Freedom in American Thought and Popular Culture. 0-3 Credits.

An inquiry into definitions of freedom through examination of American political thought and popular culture. Writing intensive. (Same as AMST 2120W).

PSC 2211. State and Urban Politics. 3 Credits.

Comparative analysis of context, institutions, processes, and policies of state and urban political systems. Prerequisite: PSC 1002.

PSC 2212. State and Urban Policy Problems. 3 Credits.

Selected issues in state and urban policymaking, with emphasis on urban and metropolitan settings. Prerequisite: PSC 1002.

PSC 2213. Judicial Politics. 3 Credits.

An examination of judicial process and behavior. Emphasis on judicial selection, decision making, interaction with the political environment, and impact and implementation of decisions. Prerequisite: PSC 1002.

PSC 2214. U.S. Constitutional Law and Politics I. 3 Credits.

Separation of powers, federal-state relationships, economic regulation. Prerequisites: PSC 1002.

PSC 2215. U.S. Constitutional Law and Politics II. 3 Credits.

Political and civil rights. Prerequisites: PSC 1002.

PSC 2216. The American Presidency. 3 Credits.

Examination of the politics of presidential selection, the authority of the contemporary institution, the mechanisms and processes for formulating public policy, and the influences of personality on performance in office. Prerequisite: PSC 1002.

PSC 2217. Executive Branch Politics. 3 Credits.

Basic concepts in public administration; influence of bureaucratic politics on policy formulation and implementation. Prerequisite: PSC 1002. Same as PPPA 2117.

PSC 2218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Prerequisite: PSC 1002.

PSC 2218W. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on elections, party organization, committees, and floor procedure, in the context of executive-legislative relations and interest-group activities. Writing intensive. Prerequisites: PSC 1002.

PSC 2219. Political Parties and Interest Groups. 3 Credits.

Role of parties as a linkage between mass preferences and government policies. Organization, nominations, voting, and activities in legislative and executive branches. Prerequisite: PSC 1002.

PSC 2220. Public Opinion. 3 Credits.

How public opinion is measured, how it is shaped, and its consequences for policymaking. Prerequisite: PSC 1002.

PSC 2221. African-American Politics. 3 Credits.

The evolution, nature, and role of African Americans within the U.S. political system. How the African American experience has shaped American politics (specifically public opinion, political behavior, political institutions, and salient public policy debates) and how black Americans have come to understand their position within the American political system. Prerequisites: PSC-1002 or PSC-002 or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2222. Science, Technology, and Politics. 3 Credits.

Multiple impacts of scientific and technological developments on the political systems. Discussion of public policies for support, use, and control of science and technology. Prerequisite: PSC 1002.

PSC 2223. Campaigns and Elections. 3 Credits.

Examination of the various forms of American political participation in electoral and governmental politics and their effects on the political process. Prerequisite: PSC 1002.

PSC 2224. Issues in Domestic Public Policy. 3 Credits.

Examination of the decision-making process and the substance of various issues in domestic public policy in such areas as crime, economics, education, energy, the environment, poverty, and health. Prerequisite: PSC 1002.

PSC 2225. Women and Politics. 3 Credits.

An examination of the role and impact of women in politics, including women's interests and access to the political system; specific public policy issues with a particular focus on the role of women. Prerequisite: PSC 1002.

PSC 2228. Media, Politics, and Government. 3 Credits.

Exploration of the role played by communication, principally through the mass media, in the conduct of government and the making of public policy. Same as SMPA 3428. Prerequisite: PSC 1002.

PSC 2229. Media and Politics. 3 Credits.

The impact of the media on American politics, including the nature of coverage of political issues and campaigns, dynamics of selecting and presenting news stories, and consequences of media messages for public opinion and action. Prerequisite: PSC 1002.

PSC 2230. Law and Justice: The View from Hollywood. 3 Credits.

Analysis of films that focus on justice, the law, and the legal system. Consideration of what they tell us about political and legal culture and what messages they may have for contemporary legal issues. Focus on the relationship between law and justice, the practice of law, and the role of courts and trials in a political system. Prerequisites: PSC 1002.

PSC 2240. Poverty, Welfare, and Work. 3 Credits.

The elements and politics of America's welfare state. Social welfare policies and how they relate to work and poverty. Prerequisites: PSC 1002.

PSC 2330. Comparative Politics of Western Europe. 3 Credits.

Comparative political analysis with primary focus on the principal states of Western Europe. Prerequisite: PSC 1001.

PSC 2331. Comparative Politics of Central and Eastern Europe. 3 Credits.

Specific countries vary, to include nations of central and Eastern Europe and/or the newly independent states of the former Soviet Union. Prerequisite: PSC 1001.

PSC 2332. European Integration. 3 Credits.

The history of the European Union, its accomplishments as an international actor, and the vibrant debates over its future. Prerequisite: PSC 1001.

PSC 2334. Global Perspectives on Democracy. 3 Credits.

International experiences with the historical evolution and current nature of democratic political systems. Prerequisite: PSC 1001.

PSC 2336. State-Society Relations in the Developing World. 3 Credits.

Historically informed exploration of enduring issues of concern in state-society relations, with an empirical focus on selected countries and regions of the developing world. Prerequisite: PSC 1001.

PSC 2337. Development Politics. 3 Credits.

An examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions? Prerequisite: PSC 1001.

PSC 2338. Nationalism. 3 Credits.

Causes and the effects of nationalism, covering cases from around the world. Prerequisites: PSC 1001, PSC 1011, PSC 1012W.

PSC 2366. Russian Politics. 3 Credits.

An examination of political institutions, processes, and issues of Russian politics. Prerequisite: PSC 1001.

PSC 2367. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Prerequisite: PSC 1001.

PSC 2367W. Human Rights. 3 Credits.

Human rights theory, the various movements for human, religious, civil, political, and other rights. Writing intensive. Prerequisites: PSC 1001.

PSC 2368. Politics in the Two Koreas. 3 Credits.

An examination of political institutions, processes, and issues in South Korea and North Korea as well as in inter-Korean relations and major-power involvement in peninsular affairs. Prerequisites: PSC-1001 or PSC-001 or PSC-1001W or PSC-001W or ((PSC-1011 or PSC-011) and (PSC-1012 or PSC-012 or PSC-012W or PSC-1012W)).

PSC 2369. Comparative Politics of South Asia. 3 Credits.

A comparative examination of colonialism, economic development, and identity politics in South Asia. Prerequisite: PSC 1001.

PSC 2370. Comparative Politics of China and Northeast Asia. 3 Credits.

Political institutions and processes of China (including Taiwan), Japan, and Korea since World War II. Influence of indigenous traditions and foreign contacts. Prerequisite: PSC 1001.

PSC 2371. Politics and Foreign Policy of China. 3 Credits.

An examination of political institutions, processes, history, and issues of Chinese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2373. Comparative Politics of Southeast Asia. 3 Credits.

Political forces, processes, and outcomes, using empirical examples from Southeast Asia. Prerequisite: PSC 1001.

PSC 2374. Politics and Foreign Policy of Japan. 3 Credits.

An examination of political institutions, processes, and issues of Japanese politics and foreign policy. Prerequisite: PSC 1001.

PSC 2377. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Prerequisite: PSC 1001.

PSC 2377W. Comparative Politics of the Middle East. 3 Credits.

Politics of the eastern Arab states, Turkey, Iran, and Israel. Writing intensive. Prerequisites: PSC 1001.

PSC 2379. Politics and Foreign Policy of Israel. 3 Credits.

Examination of the institutions, processes, and issues of Israeli politics and foreign policy. Prerequisite: PSC 1001.

PSC 2381. Comparative Politics of Middle and Southern Africa. 3 Credits.

Comparative analysis of political systems in selected countries of non-Mediterranean Africa. Prerequisite: PSC 1001.

PSC 2383. Comparative Politics of Latin America. 3 Credits.

The politics of selected countries in South America, Central America, and the Caribbean. Emphasis on democratization. Prerequisite: PSC 1001.

PSC 2439. International Political Economy. 3 Credits.

Analysis of the political aspects of global economic relationships, focusing on such issues as economic hegemony, interdependence, trade relations, development assistance, multinational corporations, and the role of international organizations. Prerequisite: PSC 1003.

PSC 2440. Theories of International Politics. 3 Credits.

Exploration of alternative theoretical approaches to understanding world politics in its historical and contemporary dimensions. Prerequisite: PSC 1003.

PSC 2442. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Prerequisite: PSC 1003.

PSC 2442W. International Organizations. 3 Credits.

Development and operations of international organizations working in the areas of collective security, peacekeeping, trade, finance, environment, human rights. Writing intensive. Prerequisites: PSC 1003.

PSC 2444. Public International Law. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2446. U.S. Foreign Policy. 3 Credits.

Survey of essential principles and concepts of public international law through case analysis and with reference to political factors. Prerequisite: PSC 1003.

PSC 2449. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Prerequisite: PSC 1003.

PSC 2449W. International Security Politics. 3 Credits.

Overview of international security issues. Insights from a variety of historical periods and theoretical approaches inform the analysis. Writing intensive. Prerequisite: PSC 1003.

PSC 2451W. Theory of War. 3 Credits.

The nature, purposes, and conduct of war. Strategy and its relationship to politics. Major strategic variants for continental warfare, maritime conflict, strategic bombing, insurgency and counterinsurgency, and nuclear war. Prerequisites: PSC 1003.

PSC 2461. European-Atlantic Relations. 3 Credits.

International politics of the North Atlantic area, the European Union, and U.S.-European relations. Prerequisite: PSC 1003.

PSC 2468. Post-Soviet Foreign Policy. 3 Credits.

External problems and policies of Russia and the other successor states of the former USSR (especially the Baltics, Ukraine, and southern rim of the former Soviet Union). Prerequisite: PSC 1003.

PSC 2475. International Relations of East Asia. 3 Credits.

Analysis of the foreign policies of selected East Asian countries and the foreign policies of major powers toward the region. Prerequisite: PSC 1003.

PSC 2476. The Arab-Israeli Conflict. 3 Credits.

Origins, evolution, and issues of the Arab-Israeli conflict. Prerequisite: PSC 1003.

PSC 2478. International Relations of the Middle East. 3 Credits.

Analysis of the regional and international relations of the Middle East. Prerequisite: PSC 1003.

PSC 2482. African International Politics. 3 Credits.

Analysis of interstate relations in Africa and of selected aspects of African relations with the outside world. Prerequisite: PSC 1003. Recommended prerequisite: PSC 2381.

PSC 2484. International Relations of Latin America. 3 Credits.

Emphasis on U.S. foreign policy toward Latin America. Prerequisite: PSC 1003.

PSC 2987. Internship: Political Science. 1-3 Credits.

Study of political behavior and institutions through internship experience. Open to departmental majors only. Admission requires departmental approval and junior standing.

PSC 2988. Internship in Law & Society. 3 Credits.**PSC 2990. Selected Topics. 3 Credits.****PSC 2990W. Selected Topics. 3 Credits.****PSC 2991. Special Topics in Political Thought. 3 Credits.****PSC 2992. Special Topics in American Politics and Government. 3 Credits.**

Prerequisite: PSC 1002.

PSC 2993. Special Topics in Comparative Politics. 3 Credits.

Prerequisite: PSC 1001.

PSC 2994. Special Topics in International Relations. 3 Credits.

Prerequisite: PSC 1003.

PSC 2994W. Special Topics in International Relations. 3 Credits.

Writing intensive. Prerequisites: PSC 1003.

PSC 3192W. Proseminar: Political Science. 3 Credits.

Examination of selected problems in political science. Admission restricted to political science majors in their junior or senior year. May be repeated once for credit.

PSC 4991. Independent Study. 1-3 Credits.

For departmental majors. Prerequisite: senior standing, 15 credit hours of upper-division political science courses, and approval of the undergraduate program advisor and the faculty member who will direct the study.

PSC 6103. Approaches to Public Policy Analysis. 3 Credits.

Primarily for master's students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 6113. The Constitution: History and Ideas. 3 Credits.

With a focus on the history and ideas that influenced James Madison, consideration of ideas that formed the common heritage of all the framers of the Constitution. The separate traditions of liberty that were fused together in the Constitution. Early changes in American society that placed one of those traditions at the center of America's self-understanding.

PSC 6114. Theories of Judicial Review. 3 Credits.

How and why the U.S. Supreme Court interprets the Constitution. The theory behind the practice of judicial review. Consideration of such questions as whether the Constitution intended judicial review and how the two wings of today's Court justify their own position on judicial review.

PSC 6330. Comparative Government and Politics. 3 Credits.

Open to Elliott School students only. Examination of basic approaches to comparative politics.

PSC 6333. Comparative Politics of Russia and Eurasia. 3 Credits.

Comparative analysis of politics in the post-Soviet region. Theoretical and methodological approaches to understanding important issues, frequently including democracy/autocracy, ethnic conflict, political economy, center-periphery relations, and state building.

PSC 6336. Political Economy of Developing Areas. 3 Credits.

Comparative analysis of how development problems have been defined from both political and economic perspectives and the solutions proposed by outsiders and insiders. Emphasis on the rise, demise, and recovery of development orthodoxies.

PSC 6338. U.S. Foreign Economic Policy. 3 Credits.

Exploration of ideas and issues involved in U.S. foreign economic policy, including relationship of economic and security issues, interdependence, protectionism, role of the dollar, industrial policy, and the debt crisis.

PSC 6345. Comparative Foreign Policy. 3 Credits.

The relationship of international actors with one another and with their external environment analyzed in a comparative framework. Focus on nation-states as well as non-state actors, such as international organizations. Differences and similarities in policies on economics, diplomacy, security, and global issues.

PSC 6346. The Politics of U.S. Foreign Policy. 3 Credits.

Patterns and problems in contemporary U.S. foreign policy. Special attention given to the domestic political factors shaping foreign policy.

PSC 6347. U.S. Foreign Policy Traditions. 3 Credits.

Contemporary debate about the substance of American foreign policy through the lens of alternative theoretical approaches to the study of international relations. Classical realist (national interest), neorealist (balance of power), neoliberal (international interdependence and institutions), and constructivist (national identity) interpretations are compared.

PSC 6348. Politics of U.S. National Security Policy. 3 Credits.

Examines competing theoretical approaches to the study of national security policy and tests these on a variety of substantive issue areas in the United States. (May include such topics as nuclear non-proliferation, responses to regional conflicts, definition of new security goals, etc.).

PSC 6349. International Security Politics. 3 Credits.

Overview of the major theoretical debates in international security. How different theoretical approaches inform policy decisions and options.

PSC 6350. Foreign Policy Analysis—Selected Topics. 3 Credits.

Analysis of U.S. foreign policy toward selected world regions.

PSC 6351. Civil-Military Relations. 3 Credits.

Substantive and theoretical issues and debates in the study of civil-military relations.

PSC 6360. Western European Politics. 3 Credits.

Examination of the principal characteristics of the British, French, German, and Italian political systems, comparing their institutional and behavioral adaptations to the problems of advanced industrial democracies.

PSC 6361. Politics of European Integration. 3 Credits.

The origins, institutions, and politics of West European integration, with emphasis on theories of regional integration and the development of the European Union.

PSC 6362. Nation-Building in the Balkans. 3 Credits.**PSC 6364. Comparative Governments and Politics of Central And Eastern Europe. 3 Credits.**

Comparative analysis of domestic political processes and policies in Central and Eastern Europe.

PSC 6366. Government and Politics of Russia. 3 Credits.

The politics and development of the Russian state.

PSC 6367. Post-Soviet Politics. 3 Credits.

How the study of former Soviet countries contributes to major debates in comparative politics. Focus includes regimes, political economy, revolutions, ethnic politics, nationalism.

PSC 6368. Japanese Politics and Foreign Policy. 3 Credits.

Japan's path to modernity and the impact its pattern of development has had on the nation's democratization, political economy, and political institutions in the post-1945 period.

PSC 6370. Politics of China I. 3 Credits.

Readings and discussion of the political dynamics and policy process in contemporary China.

PSC 6371. Politics of the PRC 2. 3 Credits.

Research seminar on selected topics in Chinese politics, using official and other primary sources. Prerequisites: PSC 6370 or permission of instructor.

PSC 6372. Foreign Policy of the PRC. 3 Credits.

Readings and research on the main approaches to analyzing China's foreign policy and foreign relations.

PSC 6373. Political Economy of Industrializing Asia. 3 Credits.

Comparative analysis of the relationship between economic interests and politics in East and Southeast Asia. Emphasis on industrializing economies and their integration into global trade and investment networks.

PSC 6374. Korean Politics. 3 Credits.

An examination of Korean politics from the perspectives of four major research areas: authoritarian regime and economic growth; democratic transition and consolidation; the Asian financial crisis and its consequences; and the two Koreas and international relations.

PSC 6377. Comparative Politics of the Middle East. 3 Credits.

Readings and research on selected problems of the governments and politics of the Middle East.

PSC 6379. Government and Politics of Africa. 3 Credits.

Major theories and themes of African politics considering the context shaping political and economic reforms, formal and informal institutions, and prospects for political reform.

PSC 6383. Comparative Politics of Latin America. 3 Credits.

Readings and discussion on the politics of selected countries in South America, Central America, and the Caribbean. Emphasis on the possibilities for democracy and revolution.

PSC 6388. Topics in Comparative Politics. 3 Credits.

PSC 6390. Politics and Culture. 3 Credits.

PSC 6439. International Political Economy. 3 Credits.

Research seminar exploring alternative theoretical approaches to the study of international political economy and their application to the explanation and interpretation of historical and contemporary events in world political and economic affairs. Primarily for Elliott School degree candidates.

PSC 6440. Theory-International Relations. 3 Credits.

Open to Elliott School students only. Theories of international relations.

PSC 6442. Politics and Practice of International Institutions. 3 Credits.

The politics of international institutions in the areas of collective security, peace keeping, trade, money, development, environment, human rights.

PSC 6444. Politics of International Law. 3 Credits.

The political sources and consequences of international law and norms.

PSC 6456. Origins/Major Wars & Terrorism. 3 Credits.

An examination of the origins of major wars, including terrorism, from the 18th to the 20th centuries from the theoretical perspectives of realism, liberalism, and constructivism/identity.

PSC 6457. Arms Control & Disarmament. 3 Credits.

Major issues and trends in the postwar development of U.S. arms control and disarmament policy.

PSC 6465. The International Politics of Central and Eastern Europe. 3 Credits.

Major historical, political, social, and regional factors that have shaped the interwar, World War II, and postwar evolution of Eastern Europe; emphasis on foreign relations with outside powers and on regional East-West contacts.

PSC 6467. Asian Security. 3 Credits.

An examination of the major issues in Asian Security using various theoretical perspectives involving a mix of political science and policy analysis.

PSC 6475. International Politics of East Asia. 3 Credits.

Foreign policies and international behavior of the regional states (especially China, Japan, and Vietnam) and the extraregional powers (especially the U.S. and Russia).

PSC 6476. The Arab-Israeli Conflict. 3 Credits.

Readings and research on the origins, evolution, and issues of the Arab-Israeli conflict.

PSC 6478. International Relations of the Middle East. 3 Credits.

Readings and research on the regional and international relations of the Middle East.

PSC 6484. International Relations of Latin America. 3 Credits.

Readings and discussion on U.S.-Latin American relations and the foreign policies of selected states.

PSC 6489. Topics in International Relations. 3 Credits.

PSC 6987. Legal Internship. 3 Credits.

Study of the interior workings of legal institutions and related organizations through an approved internship with a court, law firm, legal advocacy group, public defender's office, or legal think tank. A research paper is required.

PSC 6996. Reading. 3 Credits.

Limited to graduate degree candidates. Written permission of instructor required.

PSC 6997. Research. 3 Credits.

Limited to graduate degree candidates. Written permission of instructor required.

PSC 6998. Thesis Research. 3 Credits.

PSC 6999. Thesis Research. 3 Credits.

PSC 8101. Introduction to Empirical Political Analysis. 3 Credits.

Statistical foundations of empirical political analysis and computer applications. Basic probability theory, exploratory and descriptive data analysis, statistical inference, and introduction to linear regression. Laboratory fee.

PSC 8102. Empirical Political Analysis. 3 Credits.

Techniques of social science data analysis. Model building, estimation, and interpretation. Linear models and extensions. Introduction to discrete choice models. Prerequisite: PSC 8101 or permission of instructor.

PSC 8103. Approaches to Policy Analysis. 3 Credits.

Primarily for doctoral students. Empirical and normative foundations of systematic policy analysis: concepts, theories, models, issues, strengths, limitations, and uses and misuses in the policy process.

PSC 8104. Qualitative Research Methods. 3 Credits.

Theoretical, practical, and ethical aspects of conducting qualitative research.

PSC 8105. Readings in Political Theory. 3 Credits.

Selected major works, both ancient and modern, that illuminate basic problems and questions of political theory.

PSC 8106. Topics in Political Theory. 3 Credits.

Advanced readings and group discussions. Analysis and interpretation of selected concepts and schools of thought.

PSC 8107. Modern Political Thought and Ideologies. 3 Credits.

Analysis of some main currents in modern political thought and ideologies.

PSC 8108. Craft of Political Inquiry. 3 Credits.

Logic of inquiry in political science: theories of knowledge, inference, and research methods.

PSC 8109. Systematic Inquiry and Research Design. 3 Credits.

Study design, data collection, and models of analysis in political science.

PSC 8120. Nonlinear Models. 3 Credits.

Introduction to maximum likelihood estimation interpretation of non-linear statistical models. Statistical inference, appropriate use, and presentation and interpretation of results.

PSC 8122. Logitudinal Analysis. 3 Credits.

Examination of two classes of statistical models for longitudinal data—(1) models for time-series, cross-sectional and panel data and (2) modeling event history (i.e., duration, survival, hazard).

PSC 8124. Multilevel Modeling. 3 Credits.

Statistical issues and models for multilevel (hierarchical) data structures, including the variance components, random intercept, and random coefficient models. Handling cross-level interactions.

PSC 8130. Game Theory I. 3 Credits.

Introduction to the core elements of game theory and how it has been utilized in political science. Applications of formal models to political phenomena and the major insights that have come from this work. Restricted to PSC graduate students only.

PSC 8131. Game Theory II. 3 Credits.

Builds on the introductory material in Game Theory I to focus on examples of formal work in political science. Students expand their knowledge of advanced games and learn the principles behind exemplary published research. Restricted to Registration restricted to PSC graduate students only.

PSC 8132. Network Analysis. 3 Credits.

Sociological and psychological foundations of network theory; network measurement and inferential tools; applications of these tools and concepts to political science. Restricted to Registration restricted to PSC graduate students only.

PSC 8185. Topics in Empirical and Formal Political Analysis. 3 Credits.

Selected topics in quantitative political methodology and formal political theory with varying emphasis on maximum likelihood estimation, nonlinear models, causal inference, formal theories, and mathematical/computational tools for the social sciences. May be repeated for credit. Prerequisite: PSC 8102 .

PSC 8187. Selected Topics in Political Theory. 3 Credits.

In-depth coverage of significant issues in political theory, including such topics as justice, toleration, and political community. For advanced students.

PSC 8210. American Political Process. 3 Credits.

A survey of American political institutions, processes, and behavior.

PSC 8211. Urban Politics. 3 Credits.

Comparative analysis of the context, institutions, processes, and policies of urban political systems.

PSC 8212. Urban Policy Problems. 3 Credits.

Analysis of public policy issues confronting urban governments; emphasis on the theoretical roots and empirical impact of past and present programs in such areas as housing, education, poverty, and crime.

PSC 8213. Judicial Politics. 3 Credits.

Introduction to the literature of judicial process and behavior studies; specific focus on selected topics. Emphasis on the major subfields of law, courts, and judicial process.

PSC 8215. Law, Politics, and Society. 3 Credits.

Role of the judiciary in policy formulation; emphasis on the U.S. Supreme Court and civil liberties issues.

PSC 8216. American Presidency. 3 Credits.

Personalized and institutionalized aspects of the presidency, with particular emphasis on the politics of contemporary policymaking.

PSC 8217. Executive Branch Politics. 3 Credits.

Structure and operation of governmental bureaucracy with particular emphasis on the politics of formulating and implementing public policy.

PSC 8218. Legislative Politics. 3 Credits.

Theory, structure, and process of the U.S. Congress, with emphasis on member-constituency relations, individual and collective decision making, party and committee activities, executive-legislative relations, and interest-group activities.

PSC 8219. Political Parties and Elections. 3 Credits.

Nature and functions of American political parties: organizational status, nominating and electoral politics, and role in governing.

PSC 8220. Public Opinion and Political Psychology. 3 Credits.

Sources and dynamics of public opinion and political socialization.

PSC 8221. Interest-Group Politics. 3 Credits.

Theory, structure, and activities of interest groups in American politics.

PSC 8226. Politics and Organizations. 3 Credits.

Theoretical approaches to understanding organizational behavior and change; applications to specific political problems in U.S., international, and comparative politics.

PSC 8229. Politics and Public Policy. 3 Credits.

Examination of political processes that influence policy formulation, policy implementation, and the uses of policy analysis.

PSC 8286. Selected Topics in American Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in American politics, including such topics as political behavior, electoral politics, and race and politics. For advanced students. (Offered as the demand warrants).

PSC 8331. Advanced Theories of Comparative Politics. 3 Credits.

Major concepts, methods, and theoretical debates in comparative politics, including cultural, rational, and institutional approaches.

PSC 8333. Political Violence. 3 Credits.

Theoretical and methodological approaches to studying violence, such as civil wars, ethnic riots, suicide bombings, and genocide, and the impact of violence on societies and people. Restricted to Registration restricted to PSC graduate students only.

PSC 8334. Democracy and Democratization in Comparative Perspective. 3 Credits.

Theoretical approaches to processes of democratization. Evaluation of cultural, economic, institutional, and international-actor approaches. Case analysis of recently transitioned or transitioning nations. Primarily for Ph.D. students in political science.

PSC 8337. Theories of Political Development. 3 Credits.

Examination of how and why political systems develop the way they do. Why do some countries develop into democracies, while others become authoritarian? How do class conflict, the nature of the elite, and the political culture affect the development of political institutions?.

PSC 8338. Nationalism and Nation-Building. 3 Credits.

PSC 8340. Authoritarianism. 3 Credits.

PSC 8341. Theories of Ethnic Politics. 3 Credits.

Focus on cutting-edge interdisciplinary theories of ethnicity's role in politics. Ethnicity's relationship to democracy, economy, psychology, conflict, and solutions. Cases worldwide.

PSC 8388. Selected Topics in Comparative Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in comparative politics, including such topics as democratization, the politics of development, the role of the state in advanced industrial societies, gender and ethnicity, and the politics of nationalism. (Offered as the demand warrants).

PSC 8441. Advanced Theories of International Politics. 3 Credits.

Perspectives examined range from realism to critical theory and focus upon a variety of explanatory variables.

PSC 8450. Topics-International Relations. 3 Credits.

PSC 8452. Theories of International Security. 3 Credits.

Focus on conflict in different systems and scenarios and on causes and consequences of different strategies. The role of ethics in international security.

PSC 8453. Advanced Theories of International Political Economy. 3 Credits.

Major theories of political economy, from classical perspectives on problems of international cooperation to modern treatments of trade, finance, investment, and regulation.

PSC 8454. Domestic Politics and International Relations. 3 Credits.

Theoretical and empirical approaches to exploring the relationship between domestic politics and international relations. Restricted to Open to PhD students in Political Science and MA students with permission of the instructor.

PSC 8460. Military Intervention. 3 Credits.

Theoretical and empirical approaches to the study of military interventions. The challenges of designing political science research on a complex and policy-relevant topic like military intervention.

PSC 8461. Military Effectiveness. 3 Credits.

Theories of military effectiveness in conventional wars. Case studies of several conflicts and brief exploration of effectiveness in unconventional wars.

PSC 8462. Civil War. 3 Credits.

Theories of causes, conduct, and termination of civil wars. Consideration of violence against civilians, rebel recruitment, counterinsurgency, and civil war outcomes.

PSC 8489. Selected Topics in International Politics. 3 Credits.

In-depth coverage of significant theoretical and empirical issues in international politics, including such topics as comparative foreign policy, ethics and norms in international politics, the politics of military intervention, and theories of security in a post-Cold War environment. For advanced students. (Offered as the demand warrants).

PSC 8997. Advanced Reading. 1-3 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

PSC 8998. Advanced Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

PSC 8999. Dissertation Research. 2-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

PORTUGUESE (PORT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PORT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PORT 1001. Basic Portuguese I. 4 Credits.

Handling the immediate context of daily experience in spoken and written Portuguese: identifying, describing, and characterizing people, objects, places, and events; giving information and instructions; issuing simple commands and requests. Laboratory fee.

PORT 1002. Basic Portuguese II. 4 Credits.

Speaking and writing in Portuguese about past and future events: telling a story (narrating and describing in the past), promising, predicting, and proposing simple hypotheses and conjectures. Prerequisite: PORT 1001 . Laboratory fee.

PORT 1003. Intermediate Portuguese I. 3 Credits.

Increasing active vocabulary, reinforcing mastery of basic grammar, dealing with more complex structures (verbal phrases, subordinate clauses), and using some patterns of indirect speech (repeating or relaying messages, giving reports, summarizing). Prerequisite: PORT 1002 . Laboratory fee.

PORT 1004. Intermediate Portuguese II. 3 Credits.

Consolidation and further expansion of the ability to understand as well as produce a more complex level of oral and written discourse emphasizing subjective expression: issuing indirect commands and requests; giving opinions; making proposals, building arguments; defending and criticizing ideas. Prerequisite: PORT 1003 . Laboratory fee.

PORT 1012. Intensive Basic Portuguese. 8 Credits.

Equivalent to PORT 1001, PORT 1002. Laboratory fee.

PORT 1013. Portuguese for Heritage Speakers. 3 Credits.

Prepares heritage speakers of Portuguese for advanced study in the language beyond the third-year level, including content courses in literature and area studies. Restricted to students who grew up in a Portuguese-speaking environment but have language deficiencies. Prerequisites: Placement examination.

PORT 2005. Composition and Conversation. 3 Credits.

Development of strong conversational skills and the rudiments of expository writing. The vocabulary and structures necessary to move from handling everyday experience and subjective expression to the exposition of more abstract thought and ideas and discussion of political, social, and cultural issues. Prerequisite: PORT 1004. Laboratory fee.

PORT 2006. Applied Portuguese Grammar. 3 Credits.

Intensive study of Portuguese grammatical construction in oral and written form, including consideration of relationships across the history of the language and its grammar, linguistics, and dialectology. Prerequisite: PORT 2005.

PORT 2010. Accelerated Portuguese. 3 Credits.

An intensive course designed for speakers of another Romance language to develop competence quickly in spoken and written Portuguese. Laboratory fee.

PORT 3100. The Lusophone Atlantic World. 3 Credits.

A wide-ranging cross-cultural examination of the Portuguese-speaking Atlantic world, which includes extensive areas of the Americas and West Africa. How Lusophone Atlantic populations relate to those of other areas, such as Mozambique and former Portuguese India, where Portuguese-based Creoles are or were spoken. Prerequisite: PORT 2006 or consent of instructor.

PORT 3101. Culture and Civilization of the Sephardim. 3 Credits.

Focus on the cultural and religious background of the Jews of Spain and Portugal both before and since their expulsion/forced conversion in the late 15th century. Narrative and documentary histories from Sephardic cultures in the Iberian Peninsula and in the Diaspora are discussed. Prerequisite: PORT 2006 or consent of instructor.

PORT 3600. Topics in Lusophone Literature and Culture. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisite: PORT 2006 or consent of instructor.

PORT 4800. Independent Study. 1-3 Credits.

PROFESSIONAL STUDIES MIDDLE GRADE SCIENCE (PSMS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSMS 6221. CognitiveNeurosci for Sci Educ. 3 Credits.

PSMS 6222. Physcl Scie fr MidlGrd Tchrs I. 4 Credits.

PSMS 6223. Phys Sci fr MidGrd Tchrs II. 4 Credits.

PSMS 6224. Life Scien fr MidGrd Tchrs I. 4 Credits.

PSMS 6225. Life Scien fr MidGrd Tchrs II. 4 Credits.

PSMS 6226. Earth Scie fr MidGrd Tchrs I. 4 Credits.

PSMS 6227. Earth Scie fr MidGrd Tchrs II. 4 Credits.

PROFESSIONAL STUDIES MIDDLE SCHOOL MATH (PSMM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSMM 6221. HistofMath/Middle-School Instr. 3 Credits.

PSMM 6222. Math for MiddleSchool Teachers. 3 Credits.

PSMM 6223. NumberTheory/MidleSchlTeachers. 3 Credits.

PSMM 6224. ProbltyStat/MidleSchlTeachers. 3 Credits.

PSMM 6225. Geometry/MiddleSchoolTeachers. 3 Credits.

PSMM 6226. HigherAlgebra/MdlSchlTeachers. 3 Credits.

PSMM 6227. LinAlgMatrxThry/MdlSchTeachers. 3 Credits.

PSMM 6228. RealAnlys&Trig/MdlSchlTeachers. 3 Credits.

PSMM 6229. Math Argumentation & Reasoning. 1 Credit.

PSMM 6230. Standards-based Math instruct.. 3 Credits.

PSMM 6231. Math Learning & Assessment. 1 Credit.

PSMM 6232. Readings on Learning Math. 1 Credit.

PSMM 6233. Capstone:Learn/Teach Math. 3 Credits.

PROFESSIONAL STUDIES LANDSCAPE DESIGN (PSLD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses

- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLD 6100. Landscape Graphics. 1 Credit.

PSLD 6201. Introduction to Design. 2 Credits.

PSLD 6202. Site Analysis. 2 Credits.

PSLD 6203. Site Engineering. 2 Credits.

PSLD 6204. Construction Methods and Materials. 2 Credits.

PSLD 6205. Digital Representation for Landscape Design. 2 Credits.

PSLD 6212. History of Landscape Design. 2 Credits.

PSLD 6213. Contemporary Themes in the Landscape. 1 Credit.

Current thinking and trends in shaping the landscape.

PSLD 6221. Landscape Plants for Fall. 2 Credits.

PSLD 6223. Landscape Plants for Spring. 2 Credits.

PSLD 6225. Landscape Plants for Summer. 2 Credits.

PSLD 6229. Herbaceous Plants. 1 Credit.

PSLD 6231. Site Design Studio. 4 Credits.

The interaction of the design concept and the various factors and circumstances that dictate or moderate that particular concept in the garden design process. The process that transforms abstract design principles, ordering principles, and spatial organizations previously learned into a specific garden design. Graphics demonstrations and exercises to further develop visual and graphic communication skills.

PSLD 6236. Planting Design Studio. 4 Credits.

PSLD 6240. Comprehensive Project. 2 Credits.

PSLD 6260. Introduction to Sustainable Design. 2 Credits.

PSLD 6261. Ecology of the Built Environment. 2 Credits.

PSLD 6262. Tools for Sustainable Design. 3 Credits.

PSLD 6264. Native Plants I. 2 Credits.

Identification and use of native plant species that are sustainable due to their evolution as part of its local ecosystem.

PSLD 6265. Native Plants II. 1 Credit.

Continuation of PSLD 6264. Identification and use of native plant species that are sustainable due to their evolution as part of its local ecosystem.

PSLD 6266. Ecological Restoration. 1 Credit.

PSLD 6268. Sustainable Design Methods. 2 Credits.

PSLD 6269. Sustenance and the Landscape. 2 Credits.

PSLD 6270. Sustainable Design Charrette. 3 Credits.

PROFESSIONAL STUDIES LAW FIRM MANAGEMENT (PSLM)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSLM 6201. Theories, Principles, and Practices of Law Firm Management. 6 Credits.

PSLM 6202. Applying Strategic & Business Planning. 3 Credits.

Team projects using a simulated law firm case study, including practice group and office profitability analysis, market assessments, creation of strategic plans, and merger analyses. Prerequisite: PSLM 6201.

PSLM 6203. Practical Applications of Law Firm Management. 3 Credits.

Presentation of strategic plans, analyses, and recommendations developed in PSLM 6202 before a panel of faculty, managing partners, and law firm professionals. Prerequisite: PSLM 6202.

PSLM 6204. Principles of Leadership. 6 Credits.

An intensive course focused on theories and principles of leadership within firms, including leading organizational change. Prerequisite: PSLM 6203.

PSLM 6205. Application of Leadership Frameworks. 3 Credits.

Concepts and frameworks that highlight leadership roles in firms. Prerequisite: PSLM 6204.

PSLM 6206. Strategic Leadership for Sustainability and Change. 3 Credits.

Integration of the content of PSLM 6204 and PSLM 6205 through a focus on strategic leadership. Prerequisite: PSLM 6205.

PSLM 6207. Process Improvement in Law Firms. 3 Credits.

Development of charters for major projects in law firms, applying skills pertaining to managing change and conflict. Prerequisite: PSLM 6206.

PSLM 6208. Legal Technology and Knowledge Management. 3 Credits.

Key elements of knowledge management, including development of a knowledge management strategy. Prerequisite: PSLM 6207.

PROFESSIONAL STUDIES IN MOLECULAR BIOLOGY (PSMB)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSMB 4152. Entrepreneurship/Tech Venture Cr. 4 Credits.

PSMB 6251. A Primer on Computations. 1 Credit.

PSMB 6252. Scientific Computation and Modeling. 3 Credits.

PSMB 6253. Principles of Biomedical Instrumentation. 3 Credits.

PSMB 6261. Introduction to Quantitative Biotechnology. 2 Credits.

PSMB 6262. Advanced Quantitative Biotechnology. 3 Credits.

PSMB 6263. Management of Biotechnology Innovation. 3 Credits.

PSMB 6264. Biotechnology Entrepreneurship and Intrapreneurship. 3 Credits.

PSMB 6265. Commercialization of Bioscience and Biotechnology. 2 Credits.

PSMB 6266. Capstone Project. 1 Credit.

PROFESSIONAL STUDIES IN PUBLIC LEADERSHIP (PSPL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPL 6201. Mastering Multi-Sector Leadership. 3 Credits.

PSPL 6202. Policy Issues & Analysis. 3 Credits.

PSPL 6203. Leading in a Digital Environ. 3 Credits.

PSPL 6204. Politics of Orgnl Leadership. 3 Credits.

PSPL 6205. Intergovernmental Relations. 3 Credits.

PSPL 6206. PPP and Contract Mgmt. 3 Credits.

PSPL 6211. RBM Systems. 3 Credits.

PSPL 6212. Managing Multisector Workforce. 3 Credits.

PSPL 6213. Perf-Based Financial Mgmt. 3 Credits.

PSPL 6221. Org Process Improvement Meth. 3 Credits.

PSPL 6222. Org Process Analysis. 3 Credits.

PSPL 6223. Org Process Design. 3 Credits.

PSPL 6224. PI Research Project. 3 Credits.

PSPL 6301. Fundamentals of Organization Performance Improvement. 6 Credits.

In-depth instruction on the Lean Six Sigma approach to organization performance improvement and appropriate uses of a variety of its analytical methods and tools. Students are required to complete a Lean Six Sigma application project and pass all examinations with a score of 80% or better. Students completing all requirements earn a Green Belt Certificate for proficiency in Lean Six Sigma methods and applications. Recommended background: currently working in an organization.

PSPL 6302. Leading Organization Performance Improvement Initiatives. 3 Credits.

Approaches for designing organization performance improvement initiatives and criteria for selecting the most effective approach for the intended initiative. Organization dynamics and change processes considered toward crafting a strategy for leading the changes required by the initiative. Methods and tools for planning and managing each phase of the change initiative. Application of concepts and skills to the design and development of Lean Six Sigma Black Belt projects that are implemented in subsequent courses. Recommended background: currently working in an organization.

PSPL 6303. Advanced Methods for Organization Performance Improvement. 3 Credits.

Advanced methods for data gathering, analysis, problem definition, and conducting and documenting performance improvement experiments. Change management strategies, experimental process design and tests, use of pilots and "sandboxes," and user-centered design principles. Black Belt-level change initiatives, performance improvement design criteria, and change management and organization engagement strategies. Students are required to begin leading an initiative and implementing changes resulting in documented benefits as well as passing all examinations with a score of 80% or better. Prerequisites: PSPL 6301. Recommended background: currently working in an organization.

PSPL 6304. Advanced Applications in Organization Performance Improvement. 3 Credits.

Students learn tools for pulsing the organization to test the effectiveness of their approaches and assess the degree of support from key leaders. Students are encouraged to adopt an evolutionary design perspective and modify their solutions continuously based on feedback and results achieved--documented benefits in cost savings, process speed increases, enhanced customer satisfaction, and revenue enhancements. All examinations must be passed with a score of 80% or better. Students present their final project reports and receive feedback from faculty and a team of peers. Those who complete all requirements with a grade of B or better will earn a Black Belt Certificate demonstrating proficiency in using advanced Lean Six Sigma methods and processes to lead organization performance improvement initiatives. Prerequisites: PSPL 6301, PSPL 6303. Recommended background: currently working in an organization.

PROFESSIONAL STUDIES PHYSICS EDUCATION (PSPH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPH 6223. Energy & Momentum: K-12 Physics. 4 Credits.

PSPH 6224. Elec & Mag: K-12 Physics. 4 Credits.

PSPH 6225. Waves & Optics: K-12 Physics. 4 Credits.

PSPH 6226. Modern Physics & App: K-12. 3 Credits.

PSPH 6227. Math Techniques: K-12 Physics. 3 Credits.

PSPH 6228. Assessment: K-12 Science Ed. 3 Credits.

PSPH 6230. Capstone Project: K-12 Physics. 3-6 Credits.

PROFESSIONAL STUDIES PUBLIC RELATIONS (PSPR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPR 6201. Public Relations Principles and Practices. 3 Credits.

Basic rules and strategies in public relations. Major trends, major firms, and types of business and expertise. New media and integrated media communications.

PSPR 6202. Advanced Writing for PR Professionals. 3 Credits.

PSPR 6203. Research Methods for Public Relations and Public Affairs Managers. 3 Credits.

PSPR 6204. Media Relations in the New Media World. 3 Credits.

PSPR 6205. Fundamentals of Business and Management for Public Relations and Public Affairs. 3 Credits.

PSPR 6206. Ethical Standards in Public Relations and Public Affairs. 3 Credits.

PSPR 6207. Sustainability Communications Methods and Practices. 3 Credits.

PSPR 6208. Strategic Marketing and Marketing Communications. 3 Credits.

PSPR 6210. SpecTopics in Public Relations. 3 Credits.

PSPR 6221. Consumer Behavior. 3 Credits.

PSPR 6222. Multicultural Marketing. 3 Credits.

PSPR 6223. Public Opinion and Political Socialization. 3 Credits.

The process by which people become engaged in public debates and politics; how they acquire and maintain attitudes, biases, and beliefs, and the decisions they make as a result. Discussion centers on the forces that influence public opinion and political socialization, including the power of the press and its impact on our major institutions. Prerequisites: PSPR 6201 and PSPR 6202.

PSPR 6230. Crisis and Issues Management. 3 Credits.

The intersection of communications and policy disciplines, including environmental scanning, public policy analysis, public policy advocacy, strategic communications, media relations, grassroots mobilization, coalition management and corporate reputation management. How these issues work together to further the broad strategic goals of organizations.

PROFESSIONAL STUDIES PUBLISHING (PSPB)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSPB 6201. Book and Journal Publishing. 3 Credits.

Overview of the book and journal publishing industry and the opportunities and challenges it presents. Major functions of a publishing house and stages of publishing, including editorial, design, production, sales, marketing, and distribution. Publishing house finances.

PSPB 6203. Business of Publishing. 2 Credits.

PSPB 6205. CopyrightLaw/Print&Cyberspace. 3 Credits.

PSPB 6207. Marketing Strategies. 2 Credits.

PSPB 6213. Book Design. 2 Credits.

PSPB 6221. Publishing Management, Organization, and Strategy. 2 Credits.

PSPB 6222. Accounting and Finance for Publishers. 2 Credits.

PSPB 6224. Budgeting, Fulfillment, and Distribution. 2 Credits.

PSPB 6232. Production Management. 3 Credits.

Managing the production process from initial design and editing to a final printed and distributed publication. Aspects of traditional production, including printing basics, manufacturing savings, prepress and composition, paper, postage, and best practices. Emerging trends in digital products and delivery.

PSPB 6235. Essentials of Web Publishing. 2 Credits.

PSPB 6237. Business Models Online. 2 Credits.

PSPB 6251. Fundamentals of Electronic Publishing. 2 Credits.

PSPB 6253. Electronic Publishing Practice. 2 Credits.

Pragmatic, economic, and ethical aspects of electronic publishing for responsible decision making. Prerequisite: PSPB 6251.

PSPB 6255. Electronic Publishing: Infrastructure and Architecture. 3 Credits.

Emerging content technologies, including software and hardware components of a typical publishing system, the enabling standards, and an introduction to publishing systems architecture. Prerequisite: PSPB 6251.

PSPB 6257. Designing/E-publishing Success. 2 Credits.

Principles of digital design: usability testing, search engine optimization, iterative design, and multiple presentational models. Prerequisite: PSPB 6251.

PSPB 6258. User-Centric Design for Print and Electronic Publications. 2 Credits.

PSPB 6261. Editorial Content, Rights, and Permissions. 2 Credits.

PSPB 6262. Editing for Books, Journals, and Electronic Products. 2 Credits.

An overview of the editorial roles, functions, and workflows used in creating publications for print and electronic formats; peer review and online tools for manuscript submission and tracking.

PSPB 6265. Managing Editorial Staff. 2 Credits.

PSPB 6271. Sales Management, Strategy, and Positioning. 2 Credits.

PSPB 6272. Book Publicity & Promotion. 2 Credits.

PSPB 6273. Managing the Marketing Portfolio. 2 Credits.

PSPB 6281. Ethics in Publishing. 1 Credit.

PSPB 6298. Digital Publishing Practicum. 2 Credits.

Application of theory and practice acquired in prior courses to a real-world problem. Each semester the topic reflects a selected area of current importance in digital publishing. Restricted to students in the MPS in Publishing program during their final semester of study.

PROFESSIONAL STUDIES ADVOCACY IN THE GLOBAL ENVIRONMENT (PSAD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSAD 6200. Global Perspective Residencies. 3,6 Credits.

Residencies focused on understanding how successful approaches to advocacy vary around the world.

PSAD 6225. Fundamentals of Global Political Management. 3 Credits.

The theory, practice, and development of global political management. The impact on governance in regions and in nation states, including campaign strategy, issues development to impact election outcomes, impacting public opinion in regions and countries, beginning elements of building coalitions, and the global development of political management as a field and as a profession. The role of political managers in nation states and their insights from practical experience. Multinational corporations, NGOs, international governing bodies, and global activism.

PSAD 6240. Global Advocacy: Strategies, Tools, and Tactics. 3 Credits.

The current state of global advocacy and analysis of strategic models. Consideration of which advocacy tools are best used for specific tasks and how they can be applied around the globe. Specific advocacy tools and techniques that maximize success in regions and countries. Students choose either PSAD 6240 or PSAD 6270, depending on their chosen program emphasis; credit cannot be earned for both courses.

PSAD 6250. Cultural Aspects of Global Engagement. 3 Credits.

Focus on understanding multicultural communities and diverse institutions, customs, and practices. The course is developed to prepare students for effective and ethical public engagement on behalf of global organizations, communicating issues and commitments to diverse audiences and the general market. From a base of cultural understanding, students consider effective engagement strategies and techniques. Global case studies with multicultural viewpoints.

PSAD 6260. Comparative Political Management Environments. 3 Credits.

The operating rules, customs, and processes by which laws are enacted and regulations written in countries around the globe. The multitude of governance systems and the realm of influencers around the globe. The varied systems within which legislators, administrators, bureaucracies, and stakeholder's work. Students are expected to master the rules and procedures of at least one government, understand basic negotiation, and draw comparisons between nations or regions.

PSAD 6270. International Public Relations and Global Advocacy. 3 Credits.

How global public relations strategies are developed and implemented to support advocacy efforts. Case studies of successes and failures. Consideration of communications theories that enable insight into challenges arising from differences in language, culture, politics, and economics worldwide. Students develop, implement, and assess a comprehensive global public relations strategy that includes social media technologies. Students choose either PSAD 6240 or PSAD 6270, depending upon their chosen program emphasis; credit cannot be earned for both courses.

PROFESSIONAL STUDIES HEALTH CARE CORPORATE COMPLIANCE (PSHC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSHC 6201. Introduction to Health Care Corporate Compliance. 3 Credits.

PSHC 6202. Compliance with Laws and Regulations I. 3 Credits.

Issues of governance and corporate responsibility, anti-kickback and antitrust law, Civil False Claims Act, emergency medical treatment, and enforcement initiatives.

PSHC 6203. Case Studies in Health Care Corporate Compliance. 3 Credits.

Case study approach to investigation and analysis of compliance issues. Application of principles and diagnostic and remediation skills to real-world situations. Prerequisite: PSHC 6202.

PSHC 6204. Compliance with Laws and Regulations II. 3 Credits.

Issues of governance and corporate responsibility, HIPPA compliance and enforcement, federal tax law, Stark law, Sherman Act, Clayton Act, antitrust enforcement policy in healthcare. Prerequisites: PSHC 6201 and PSHC 6202.

PSHC 6206. Case Studies in Health Care Corporate Compliance. 3 Credits.

Case study approach to investigation and analysis of compliance issues. Application of principles and diagnostic and remediation skills to real-world situations. Prerequisites: PSHC 6201, PSHC 6202.

PROFESSIONAL STUDIES URBAN SUSTAINABILITY (PSUS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work

- Those in the 6000s and 8000s are for master’s, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSUS 6201. Principles of Sustainable Urban and Regional Planning. 3 Credits.

The environmental, social, and economic elements of sustainability. Present and future challenges, including environmental management, energy policy, financial crises, global warming, inequality, public education, third and first world slums, the success and failure of nations, urban agriculture, urban economics, and more. The implications of sustainable development and conducting research based on evidenced-based policy. Students focus on the work of researchers outside of the planning field as they write a series of research essays containing reviews of relevant scientific literature.

PSUS 6202. Urban and Environmental Economics. 3 Credits.

The application of neoclassical economics to problems faced by practitioners of the field of sustainable urban and regional planning. Key economic concepts including supply and demand, consumption and production, markets and market failure, and measurement of environmental and other non-market commodities. An economist’s perspective on the principals and methods for understanding urban and environmental challenges and solutions, urban growth, environmental quality, public policy, and other issues fundamental to contemporary development.

PSUS 6203. Research Methods I: Geospatial and Econometric Analysis. 3 Credits.

Focus on developing proficiency in geographic information systems (GIS) and econometric analysis, a method of statistical analysis for measuring the relationships at work in socioeconomic phenomena. Building and analyzing spatial datasets, specifically using ArcGIS and Stata statistical software.

PSUS 6204. Land Use Law. 3 Credits.

PSUS 6210. Transportation Planning in City Systems. 3 Credits.

Transportation planning with long-run goals in mind, including reducing greenhouse gas emissions. The role of planning at local and regional scales within the broader framework of transportation engineering.

PSUS 6211. Regional Development and Agricultural Economics. 3 Credits.

The economics of land use patterns and development processes in the United States and elsewhere in the world. Introduction to the field of agricultural economics and examination of food deserts and other food-related problems relevant to the field of sustainable urban planning.

PSUS 6212. Sustainable Communities I: Housing and Design. 3 Credits.

Community development with a focus on policy and the various sectors of interest that affect contemporary urbanization. How policies, planning techniques, and implementation strategies form the core work of planning practitioners. Topics include water supply, food deserts, public health, and urban resilience. Pathways to more sustainable communities are explored through the policy arenas in which key decisions are made; key sectors that make up the fabric of communities; and special topics that have emerged as critical challenges for sustainable community development.

PSUS 6213. Research Methods II: Advanced Geospatial and Econometric Analysis. 3 Credits.

Builds upon the skills learned in PSUS 6203. Application of econometric and geospatial analysis in the field of sustainable urban and regional planning. Emphasis on objectivity and use of the scientific method to form defensible, evidence-based policy. Prerequisite: PSUS 6203.

PSUS 6220. Planning Resilient and Low-Carbon Cities. 3 Credits.

International perspectives on urban planning, taking into consideration increased global temperatures resulting from greenhouse gas emissions-induced climate change. The course is taught with reference to the findings of the Intergovernmental Panel on Climate Change (IPCC) and considers how urbanization around the world must adapt to the reality of global warming and its consequences.

PSUS 6221. The Scientific Basis of Climate Change. 3 Credits.

The science underlying climate change policy and decision making. Earth systems, climate change projections, the need for mitigation, and impact assessment. Designed for non-scientists.

PSUS 6222. Sustainable Building: Energy Demand, Efficiency, and Supply. 3 Credits.

Energy use in built environments with an emphasis on fundamental drivers of energy demand, strategies to promote energy efficiency, and essential features of energy supply. Examination of the relationship between energy demand and supply in development. How advances in construction technology can help counter greenhouse gas emissions.

PSUS 6223. Sustainable Communities II: Tools for Assessment and Transformation. 3 Credits.

Builds on PSUS 6212 by further detailing the theory and tools relevant to the assessment and transformation of neighborhood and communities. Geospatial analysis explore the fundamental drivers of urban form, advanced transportation systems, theories of change, and various impact assessment tools used to inform policy implementation.

PSUS 6224. Sustainable Energy for Cities and the Environment. 3 Credits.

Resource management and renewable energy technologies. Vulnerabilities of existing urban structures, particularly the energy grid. Implications of and solutions to energy-related problems likely to arise in present and future cities.

PSUS 6230. Sustainable Comm Design Studio. 3 Credits.

PSUS 6231. Practicum: Climate Change Mgt & Pol. 3 Credits.

PSUS 6233. Capstone Studio. 3 Credits.

PSUS 6235. Adv Topics in Urban Sust. 3 Credits.

PSUS 6260. Intro to Sustainable Design. 2 Credits.

PSUS 6261. Ecology of the Built Env.. 2 Credits.

PSUS 6262. Tools for Sustainable Design. 3 Credits.

PSUS 6264. Native Plants I. 2 Credits.

PSUS 6265. Native Plants II. 1 Credit.

PSUS 6266. Ecological Restoration. 1 Credit.

PSUS 6268. Sustainable Design Methods. 2 Credits.

PSUS 6269. Sustenance and the Landscape. 2 Credits.

PSUS 6270. Sustainable Design Charrette. 3 Credits.

Preparation of a final project that demonstrates students' understanding of how to select and use sustainable site principles in a landscape design. Building and expanding upon techniques learned in previous coursework, students show comprehension of how their project site has boundaries within its surrounding ecosystem, but is still part of a larger life cycle. Students work in a concentrated charrette format to develop a site design that is fully sustainable and buildable.

PROFESSIONAL PSYCHOLOGY (PSYD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSYD 6201. Multi-disciplinary LGBT Health. 2 Credits.

PSYD 6202. LGBT Mental Health. 2 Credits.

PSYD 6203. LGBT Health Policy. 2 Credits.

PSYD 6211. LGBT Health Capstone. 3 Credits.

Students work with faculty mentors to conceive of, design, and develop an implementation and evaluation plan for a project, innovation, or work product in their place of employment, other sponsoring organization, or community setting with the purpose of advancing the health of LGBT persons in a real world context. Students work in consultation with mentors in summer and spring residency periods with distance and in-the-field completion of the project throughout the program year. Restricted to students accepted and enrolled in LGBT Health Policy & Practice Certificate program. Prerequisites: n/a.

PSYD 6221. LGBT Health Current Topic. 1-2 Credits.

Contemporary, trans-affirmative perspectives on the health, mental health, and policy needs of transgender persons and their communities. Restricted to students in the graduate certificate in LGBT health policy and practice program; permission of the instructor may be substituted.

PSYD 8201. Psychological Assessment. 3 Credits.

Cognitive and projective testing, focusing on core batteries used in intellectual and personality assessment. Laboratory fee.

PSYD 8202. Psychological Assessment. 3 Credits.

Continuation of PSYD 8201. Cognitive and projective testing, focusing on core batteries used in intellectual and personality assessment. Laboratory fee.

PSYD 8203. Practicum in Clinical Psychology. 0-3 Credits.

A continuing practicum, repeated in each semester and summer of the program's three years. In year one, focused on psychological assessment; in upper years, on psychological intervention related to the student's choice of area.

PSYD 8204. Biological Bases of Clinical Psychology. 3 Credits.

The structure and function of the nervous system and its application to understanding psychopathology. Development of the nervous system in interaction with learning and experience as a central basis of human growth and disability.

PSYD 8205. Psychodynamic Psychopathology. 3 Credits.

The developmental psychodynamic basis for understanding psychopathology, with comparisons to relevant biological and social explanatory factors.

PSYD 8206. Cognitive Bases of Clinical Psychology. 3 Credits.

The theoretical and experimental basis of learning, memory, and cognition. Cognitive growth, maturation, and learning. Cognitive processes in relation to the understanding of psychopathology.

PSYD 8207. Group and Organizational Dynamics. 3 Credits.

Social aspects of adaptive and maladaptive dynamic patterns; group structure and the individual; shared unconscious ideas in wish and defense; small, large, and intergroup (community) dynamics and intervention.

PSYD 8209. Statistics and Research Design. 3 Credits.

The role of measurement, design, and statistics in clinical psychological research; basic descriptive and inferential statistics; analysis of variance and multivariate designs; case study designs; clinical field research.

PSYD 8210. Professional Issues. 3 Credits.

The legal and ethical issues in the conduct of professional psychology, including confidentiality, ethical competence, privilege, expert testimony, malpractice, and the insanity defense. Business and ethical issues concerning private practice, licensing, certification, forensics, and insurance reimbursement.

PSYD 8220. Psychodynamic Psychotherapy I. 3 Credits.

Clinical theories, research, techniques, therapeutic action, and ethics. Ego supportive psychotherapy; psychodynamic formulations; object relational and self-psychological perspectives.

PSYD 8221. Psychodynamic Psychotherapy II. 3 Credits.

Continuation of PSYD 8220. Clinical theories, research, techniques, therapeutic action, and ethics. Exploratory psychotherapy; process and outcome; issues of race, class, ethnicity, gender, and sexuality.

PSYD 8222. Behavioral-Cognitive Therapies. 0-3 Credits.

Theoretical and clinical approaches to understanding and modifying behavior, affect, and thought from behavioral and cognitive perspectives. History and development of these perspectives; current work on psychotherapy integration across varying therapeutic approaches.

PSYD 8225. Ego Psychology/Object Relations Theory. 3 Credits.

Consideration of several major contemporary schools of psychodynamic mental functioning—ego psychology, self psychology, object relations theory, and relational perspectives. Formulation skills are built through the two semesters.

PSYD 8226. Ego Psychology/Object Relations Theory. 0-3 Credits.

Continuation of PSYD 8225. Consideration of several major contemporary schools of psychodynamic mental functioning—ego psychology, self psychology, object relations theory, and relational perspectives. Formulation skills are built through the two semesters.

PSYD 8227. History and Systems of Clinical Psychology. 3 Credits.

A review of the historical development of clinical psychology—its roots in mainstream psychology and psychiatry and its modern technical and theoretical systems.

PSYD 8231. Short-Term Psychotherapy. 3 Credits.

A study of brief psychodynamically oriented psychotherapy interventions. Focus on clinical vignettes.

PSYD 8240. Group Psychotherapy. 3 Credits.

Theory and technique in group psychotherapy; history of group therapy and group analysis; current controversies in the field.

PSYD 8244. Cultural Factors-Psychopath/Th. 3 Credits.**PSYD 8246. Community Intervention. 3 Credits.**

Consultation theory and practice related to social service, health, educational, and other not-for-profit organizations. Managing change and action plans.

PSYD 8250. Neuropsychological Assessment. 3 Credits.

Theory and practice of neuropsychological assessment. History and development of the field. Major batteries, individualized approaches, and specialized tests.

PSYD 8251. Advanced Psychodynamic Assessment. 3 Credits.

Recent trends in projective testing; Lerner and Lerner, Schafer, Allison and Blatt, Kwawer, Sugarman, Exner.

PSYD 8252. Child and Adolescent Assessment. 3 Credits.

Case seminar with clinical presentations, focused on the core clinical battery. Problems of differential diagnosis between neuropsychological hypotheses and conflict-based hypotheses.

PSYD 8255. Forensic Assessment. 3 Credits.

Overview of the professional standards and ethics guidelines for forensic evaluations. The psychological assessment of criminal cases, the role of the psychologist in expert testimony, and concepts and principles of law encountered in the forensic evaluation process. The role of theory and research in the criminal evaluation process.

PSYD 8260. Child Development. 3 Credits.

Cognitive and emotional factors in the development of normal and abnormal personality dynamics in children and adolescents: experiential and maturational aspects, learning disabilities, the development of conflict and compromise formations; the relevance of child development to adult psychodynamics and psychotherapy.

PSYD 8262. Child and Adolescent Psychotherapy. 3 Credits.

Case seminar on child and adolescent treatment. Biological and psychological treatments; intensive vs. short term; conceptualizations of play therapy; differences from adult techniques.

PSYD 8264. Child and Adolescent Psychopathology. 3 Credits.

Theory and research on child and adolescent psychopathology. The development of diagnostic categories and their relevance to psychodynamic viewpoints.

PSYD 8265. Family Therapy. 3 Credits.

Survey of classical and modern theories of family structure and therapy. History and development of the field. Major schools and current controversies.

PSYD 8266. Clinical Intervention in Schools. 3 Credits.

Theory and practice of clinical psychological interventions in schools. Testing, observation, consultation.

PSYD 8267. Advanced Child Psychotherapy. 3 Credits.

Technical approaches to selected clinical problems and populations. Trauma, physical and sexual abuse, problems in learning and attention, gender identity disorder, behavior problems, adoption, and divorce. Coordination of developmental and therapeutic processes, and collateral work with parents.

PSYD 8270. Current Topics in Clinical Psychology. 0-12 Credits.

May be repeated for credit provided the topic differs.

PSYD 8271. Independent Study. 1-12 Credits.**PSYD 8273. Major Area Paper. 1 Credit.**

Major Area Paper Research. May be repeated for credit. Restricted to Professional Psychology graduate students only.

PSYD 8280. Issues-Gender Development. 3 Credits.

Studies of similarities and differences in male and female gender development and sexual object choice. Recent theoretical and clinical contributions. Readings in Freud, Fast, Mayer, Stoller, Tyson and Tyson, Kleeman, Chassaguet-Smirgel, Kaplan, and Friedman.

PSYD 8290. Clinical Procedures. 0 Credits.**PSYD 8291. Clinical Procedures. 0 Credits.**

Experience in the practical application of clinical skills in the program clinic supervised by licensed clinical psychologists. Restricted to Professional Psychology graduate students only.

PSYCHOLOGY (PSYC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSYC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PSYC 1001. General Psychology. 3 Credits.

Fundamental principles underlying human behavior.

PSYC 2011. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001.

PSYC 2011W. Abnormal Psychology. 3 Credits.

Causes, diagnosis, treatment, and theories of various types of maladjustments and mental disorders. Prerequisite: PSYC 1001.

PSYC 2012. Social Psychology. 3 Credits.

Social foundations of behavior: cognition, motivation, role behavior, communication, small-group processes, and attitudes. Prerequisite: PSYC 1001.

PSYC 2013. Developmental Psychology. 3 Credits.

Introduction to the study of human development; theory and research concerning changes in physical, cognitive, and social functioning and influences on the developing individual. Prerequisite: PSYC 1001.

PSYC 2014. Cognitive Psychology. 3 Credits.

Introduction to the study of cognition; review of data and theories on the topics of perception, attention, memory, language, reasoning, and decision making. Prerequisite: PSYC 1001.

PSYC 2015. Biological Psychology. 3 Credits.

Introduction to the biological basis of behavior; review of data and empirical methods on the topics of neural structure and function, brain damage, neuroanatomy, genes, hormones, and their influence on behavior. Prerequisite: PSYC 1001.

PSYC 2101. Research Methods-Psychology. 3 Credits.

Survey of research designs (e.g., case studies, correlational designs, experiments), methods (e.g., questionnaires, observations), and measurement issues (e.g., reliability and validity). Prerequisite or corequisite: PSYC 1001, STAT 1053.

PSYC 2508. Humanistic Psychology. 3 Credits.

Critical examination of humanistic psychology. Emphasis on role of consciousness in human behavior. Philosophic foundations, existential, phenomenological, and transpersonal psychology. (Formerly PSYC 3108) Prerequisites: PSYC 1001.

PSYC 2514. Adult Development and Aging. 3 Credits.

Psychological aging and development during the adult years, with an emphasis on theories of adult development and research on changes in cognitive functioning and social adjustment in early, middle, and later adulthood. (Formerly PSYC 3114) Prerequisites: PSYC 1001.

PSYC 2529. Theories of Personality. 3 Credits.

Survey of personality theories; emphasis on their application to problems of individuals. (Formerly PSYC 3129) Prerequisites: PSYC 1001.

PSYC 2531. Psychological Tests. 3 Credits.

Survey of psychological tests and their more common uses in business, industry, government, law, medicine, and education. Material fee. (Formerly PSYC 3131) Prerequisites: PSYC 1001.

PSYC 2544. Industrial/Organizational Psychology. 3 Credits.

Psychological concepts and methods applied to problems of personnel management, employee motivation and productivity, supervisory leadership, and organizational development. Formerly PSYC 2144. Prerequisites: ORSC 1109 or PSYC 1001.

PSYC 2550. Psychology of Sex Differences. 3 Credits.

Relevant biological, psychological, and sociological influences on males and females in the development of sex differences; hormonal differences, gender identity, differential socialization of sons and daughters, masculinity/femininity, cultural evaluation of male and female roles. Survey of relevant psychological theory. Emphasis on empirical research and hypothesis testing. (Formerly PSYC 3150) Prerequisites: PSYC 1001.

PSYC 2554. Psychology of Crime and Violence. 3 Credits.

Examination of many psychological aspects of criminal behavior; personality of criminals and of psychological processes affecting behavior. (Formerly PSYC 3154) Prerequisites: PSYC 1001.

PSYC 2556. Psychology of Attitudes and Public Opinion. 3 Credits.

Psychology of opinion formation, measurement of opinion, social determinants of attitudes, psychological processes in propaganda, bases of receptivity to propaganda, psychological warfare. (Formerly PSYC 3156) Prerequisites: PSYC 1001.

PSYC 2560. Group Dynamics. 3 Credits.

Relationship of the individual to groups, collectivities, and larger social systems. Theory, research, and applications of group and organizational processes. Prerequisites: PSYC 1001 or ORSC 1109.

PSYC 2570. Peer Education. 3 Credits.

This is a course designed to train George Washington University undergraduate students to be health peer educators. Students will be trained in various topics related to mental health, physical health, and alcohol and/or other drugs, and will gain the skills needed for outreach programming. Prerequisites: PSYC 1001.

PSYC 2588. Attitudes Toward Death and Dying. 3 Credits.

Exploration of the many different aspects, attitudes, and experiences associated with the process of death and dying. (Formerly PSYC 3188) Prerequisites: PSYC 1001.

PSYC 2596. History and Systems of Psychology. 3 Credits.

A survey and integration of the major viewpoints and concepts of psychology. Recommended for students planning graduate study. (Formerly PSYC 4196) Prerequisites: PSYC 1001.

PSYC 2945. Psychological Study of Spirituality. 3,4 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. (Formerly PSYC 3945) Prerequisites: PSYC 1001.

PSYC 3112. Psychology of Adolescence. 3 Credits.

Psychological characteristics and problems peculiar to adolescence, with emphasis on application of psychology to the solution of such problems. Prerequisite: PSYC 2101 and PSYC 2013.

PSYC 3115. Developmental Psychopathology. 3 Credits.

The origins of child psychopathology, including developmental perspectives and the potential contributions of child-, family-, and community-based characteristics to the emergence of psychopathology. The development of specific childhood disorders. Prerequisite: PSYC 2101 AND PSYC 2011 OR PSYC 2013.

PSYC 3118. Neuropsychology. 3 Credits.

Analysis of neural processes underlying behavior. Basic structure and functions of the nervous system, with emphasis on sensory processes, learning and memory, motivation, and emotion. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3121. Memory and Cognition. 3 Credits.

An examination of the psychological processes underlying human memory and cognition. Topics cover theoretical and experimental issues involving a range of cognitive function from attention and pattern recognition to learning and memory. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3122. Cognitive Neuroscience. 3 Credits.

How the structure and functions of the brain are related to cognitive processes and their associated behaviors. The biological bases of behavior and mental activity. Research and case studies by cognitive psychologists, neuroscientists, psychiatrists, and linguists, focusing on how the brain affects pattern recognition, attention, short-term and long-term memory processes, and language. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3124. Visual Perception. 3 Credits.

An overview of human perception, ranging from the detection of simple stimuli to the identification of objects and events. Perceptions of color, motion, and spatial layout. Research methodology, biological foundations, and theoretical issues. Prerequisite: PSYC 2101 AND PSYC 2014 OR PSYC 2015.

PSYC 3125. Cross-Cultural Psychology. 3 Credits.

Introduction to the theory, methods, and research of cross-cultural psychology, with emphasis on immigrants and ethnic minorities in the United States and on other cultures. Prerequisites: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisite: PSYC 2101 and PSYC 2011 or PSYC 2012.

PSYC 3126W. Multicultural Psychology. 3 Credits.

The influence of culture on major psychology concepts. Current theories and research on culture, with culture being broadly defined to include race, ethnicity, gender, sexual orientation, disability status, and socioeconomic status. Empirical methodologies in cultural psychology, and appreciation of cultural groups within the United States. Issues of culture in the interpretation of personal experiences and in application of cultural diversity issues to various settings. Culturally relevant styles of communication, values from different cultures, racial identity, power and privilege, and issues around health and mental health. Multiculturalism in the modern diverse society. Prerequisites: Psc 2101 and (Psc 2011 or Psc 2012).

PSYC 3128. Health Psychology. 3 Credits.

Current research in the area of health psychology, with special attention to psychological factors related to health and illness, psychological intervention with medical patients, and psychological approaches to illness prevention and health promotion. Prerequisite: PSYC 2101.

PSYC 3132. Social and Personality Development. 3 Credits.

Examination of personal, emotional, and social development from infancy to adolescence and influences on that development. Prerequisite: PSYC 2101 and PSYC 2013.

PSYC 3170. Clinical Psychology. 3 Credits.

An exploration of the history, functions, and concerns of the clinical psychologist. Assessment, treatment, community approaches, ethics. Prerequisite: PSYC 2011 and PSYC 2101.

PSYC 3172. Psychopathology & the Media. 3 Credits.

How abnormal behaviors and mental disorders are portrayed in film and the media, including analysis of the accuracy of these portrayals, focusing on symptomatology, etiology, and treatment of adult psychopathology. Prerequisite: PSYC 2101 and PSYC 2011.

PSYC 3173. Community Psychology. 3 Credits.

The origins and current practice of community psychology, and comparison of community psychological approaches with traditional clinical perspectives. The role of psychology in addressing social issues facing communities; methods for research and intervention targeting communities. Prerequisite: PSYC 2101 and PSYC 2011.

PSYC 3193. Seminar in Industrial/Organizational Psychology. 3 Credits.

Selected specialized topics in the field of psychology and work behavior, such as human ability and personality, decisions and risk behavior, organizational change, and leadership. May be repeated for credit. (Formerly PSYC 4193). Prerequisites: PSYC 1001 and PSYC 2544 or permission of instructor.

PSYC 3198. Current Research Issues. 3 Credits.

Recent studies in psychology, including studies performed by members of the class; emphasis on student participation. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3199. Current Topics in Psychology. 3 Credits.

Topics vary. May be repeated once for credit provided the topic differs. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 3591. Supervised Research Internship. 1-3 Credits.

Open to qualified students with permission of a supervising faculty member. Arrangements must be made with the faculty supervisor prior to registration; a list of participating faculty members and their research specialties is available from the department. May be repeated for credit; PSYC 3591 and PSYC 4591 combined may be taken for a total of 9 credits maximum. Prerequisites: PSYC 1001, PSYC 2101.

PSYC 3592. Field Internship. 3 Credits.

Senior psychology majors spend a minimum of six hours per week in a supervised internship in a local mental health, rehabilitation, school, or community setting. Students must have weekly blocks of time available. Restricted to senior psychology majors. Prerequisites: PSYC 1001 and PSYC 2101.

PSYC 4106W. Research Lab in Sensation and Perception. 4 Credits.

Capstone course focused on the study of sensation and perception. Students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2014 or PSYC 2015.

PSYC 4107W. Research Lab in Cognitive Neuroscience. 4 Credits.

A capstone course focused on the study of cognitive neuroscience in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001, PSYC 2101, and (PSYC 2014 or PSYC 2015).

PSYC 4201W. Research Lab in Clinical/Community Psychology. 4 Credits.

A capstone course focused on the study of clinical/community psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001 and PSYC 2101 and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4202W. Research Lab in Applied Social Psychology. 4 Credits.

A capstone course focused on the study of topics in applied social psychology, such as discrimination and health, in which students examine previous research, design and carry out research projects, and write psychological research reports. Prerequisites: PSYC 1001 and PSYC 2101 and (PSYC 2011 or PSYC 2012 or PSYC 2013).

PSYC 4203W. Research Lab in Developmental Psychology. 4 Credits.

A capstone course focused on the study of developmental psychology in which students examine previous research, design and carry out research projects, and write psychological research reports. Laboratory fee. Prerequisites: PSYC 1001, PSYC 2101, and PSYC 2011 or PSYC 2012 or PSYC 2013.

PSYC 4591. Independent Research. 1-3 Credits.

Open to qualified students by permission to pursue an independent research project with the supervision of a faculty member; arrangements must be made with the sponsoring faculty member prior to registration. May be repeated for credit; PSYC 3591 and PSYC 4591 may be taken for a total of 9 credits maximum. (Formerly PSYC 4191) Restricted to . Prerequisites: PSYC 1001, PSYC 2101.

PSYC 4997. Honors Seminar. 3 Credits.

Selected topics in psychology that change each semester. Intended primarily for students in the Special Honors program in psychology. May be repeated once for credit. Prerequisites: PSYC 1001 and PSYC 2101. (Formerly PSYC 4197).

PSYC 6998. Thesis Research. 3 Credits.

PSYC 6999. Thesis Research. 3 Credits.

PSYC 8202. Psychological Research Methods and Procedures. 3 Credits.

Required in all graduate psychology programs. Includes philosophy of science, types of research design, and methods of data collection. Restricted to Graduate students only. Prerequisites: graduate standing, a laboratory course in psychology, and a course in statistics.

PSYC 8203. Experimental Foundations of Psychology: Learning, Memory, and Cognition. 3 Credits.

Current conceptions of learning, memory, and cognition; the research upon which these conceptions are based; applications to practical contexts. Restricted to Graduate students only.

PSYC 8204. Experimental Foundations of Psychology: Biological Basis of Behavior. 3 Credits.

Introduction to the structure and function of the nervous system. Topics include neural communication, sensory processes, memory, neuroendocrinology of sex differences and stress, psychiatric and neurodegenerative disorders. Restricted to Graduate students only.

PSYC 8207. Psychological Assessment I. 3 Credits.

Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to Clinical psychology graduate students only.

PSYC 8208. Psychological Assessment II. 3 Credits.

Continuation of PSYC 8207. Theoretical and clinical aspects of assessment; includes interviewing, psychometric tests, and projective techniques. Two-hour laboratory—diagnostic work at clinical facilities. Material fee. Restricted to Clinical psychology graduate students only.

PSYC 8210. Developmental Theories and Issues. 3 Credits.

Orientation to the field of developmental psychology, with emphasis on traditional and contemporary theories, fundamental concepts and issues, and methodological approaches. Restricted to Graduate students only.

PSYC 8211. Community Psychology I. 3 Credits.

Survey of the history, theories, and values guiding community psychology; models of service delivery. Restricted to Graduate students only.

PSYC 8212. Community Psychology II. 3 Credits.

Continuation of PSYC 8211. Applications of the principles and theories of community psychology to interventions and research. Restricted to Graduate students only. Prerequisites: PSYC 8211.

PSYC 8218. Evidence-Based Interventions. 3 Credits.

Introduction to theory and technique of psychotherapeutic approaches of proven effectiveness. Restricted to Graduate students only.

PSYC 8219. Group Dynamics. 3 Credits.**PSYC 8220. Ethics and Professional Issues. 3 Credits.**

The foundations of ethics and ethical decision making, with an emphasis on the APA Ethics Code. Ethical conflicts and issues in the areas of research and practice. Restricted to Graduate students only.

PSYC 8223. Seminar: Human Memory. 3 Credits.

Selected topics of current research interest in the area of human memory. Emphasis on encoding and retrieval processes, amnesia, and disorders of memory. Restricted to Graduate students only.

PSYC 8225. Behavioral Approaches to Child Assessment and Therapy. 3 Credits.

Child assessment and treatment from a behavioral viewpoint. The application of conditioning, reinforcement, and shaping principles with reference to specific disorders of childhood. Restricted to Graduate students only.

PSYC 8227. Seminar: Principles of Psychotherapy. 3 Credits.

For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8228. Seminar: Principles of Psychotherapy. 3 Credits.

Continuation of PSYC 8227. For graduate students in clinical psychology. Patient's needs and demands on the therapist. Case participation heavily relied upon. Prerequisite: PSYC 8218.

PSYC 8231. Development of Psychometric Instruments. 3 Credits.

Quantitative techniques and principles used in construction, standardization, and evaluation of personality and ability measures for research and practice; quantification of human judgment for measurement purposes. Prerequisite: course in tests and measurements and an elementary course in statistics. Restricted to Graduate students only.

PSYC 8236. Ethnic and Racial Diversity in Psychology. 3 Credits.

Basic theoretical models of research in ethnic, racial, and cultural diversity and new directions in the field. The impact of being an ethnic minority in the United States. Restricted to Graduate students only.

PSYC 8237. The Practice of General Psychology I. 3 Credits.

Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to Clinical psychology graduate students only.

PSYC 8238. The Practice of General Psychology II. 3 Credits.

Continuation of PSYC 8237. Application of psychological principles and findings to a wide spectrum of human problems. Professional issues facing the psychologist offering services. Participation in the development, implementation, and evaluation of applied psychological services and projects. Restricted to Clinical psychology graduate students only.

PSYC 8239. Lifespan Developmental Psychopathology I. 3 Credits.

Infancy, childhood, and adolescence. Restricted to Graduate students only.

PSYC 8240. Lifespan Developmental Psychopathology II. 3 Credits.

Continuation of PSYC 8239 - Adulthood. Restricted to Graduate students only.

PSYC 8243. Seminar: Psychology of Leadership in Organizations. 3 Credits.

Theories and issues related to the emergence and effectiveness of leaders, with focus on leadership behaviors and processes in organizations. Restricted to Graduate students only.

PSYC 8244. Theories and Processes of Organizational Management. 3 Credits.

Basic functions and techniques of organizational management—design, control, direction, and decision making—examined from the viewpoint of behavioral science. Restricted to Graduate students only.

PSYC 8245. Seminar: Organizational Behavior. 3 Credits.

Analysis of organizational behavior; emphasis on motivation and productivity. Recent research on employee attitudes, primary group, supervisory leadership, formal and informal organization, job design. Restricted to Graduate students only.

PSYC 8246. Seminar: Personnel Evaluation Techniques. 3 Credits.

Techniques of personnel selection and performance evaluation. Employment tests, personal data, assessment interviews, performance ratings, and assessment centers. Federal guidelines in employee selection. Includes practicum. Restricted to Graduate students only.

PSYC 8248. Research Applications to Organizational Intervention and Change. 3 Credits.

Emphasis on development of models of organizational effectiveness; design of valid diagnostic instruments; implementation of research strategies; establishment of program evaluation criteria. Restricted to Graduate students only.

PSYC 8251. Behavioral Neuroscience. 3 Credits.

The neural basis of behavior, with special focus on the psychobiological determinants of learning, memory, and cognition. Methodologies used for different levels of analysis with normal and brain-impaired subjects. Restricted to Graduate students only.

PSYC 8253. Social Cognition. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Social cognition, person perception, attribution, information processing, attraction, stereotyping. Restricted to Graduate students only.

PSYC 8254. Social Influence. 3 Credits.

Social psychology theories, conceptual approaches, and their applications. Analysis of intentional and unintentional social influence processes and their effects on behavior. Current research on conformity, social power, social exchange, and impression management. Restricted to Graduate students only.

PSYC 8255. Attitudes and Attitude Change. 3 Credits.

Current theory and research on attitudes and attitude change. Restricted to Graduate students only.

PSYC 8256. Introduction to Survey Research. 3 Credits.

Theory and practice of face-to-face telephone and mail surveys. Practical experience with all stages from the formulation of research questions and hypotheses to questionnaire design, sampling, pilot, testing, interviewing, coding, and data cleaning. Prerequisite: STAT 2105.

PSYC 8257. Current Topics in Social Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas within field of social psychology. Topic changes each semester. Restricted to Graduate students only.

PSYC 8258. Qualitative Research and Analysis. 3 Credits.

Qualitative research and analysis with a focus on theory, didactic material relevant to qualitative methodologies, and applied qualitative research design and analysis. Restricted to Graduate students only.

PSYC 8259. Psychology of Individual and Group Decision Making. 3 Credits.

Examination of processes in organizational decision making and group behavior. Topics include group and individual decision-making approaches, decision aids and support systems, performance and decision effectiveness, and risk analysis. Restricted to Graduate students only.

PSYC 8260. Psychology of Work Group Development. 3 Credits.

Examination of theory and research on groups as task performance systems. Approaches to team development as a means of improving work group effectiveness, including goal setting, role clarification, increasing interpersonal skills, and conflict resolution. Restricted to Graduate students only.

PSYC 8268. Seminar: Neuropsychology. 3 Credits.

Selected problems in research relating the brain and behavior. Independent topics each semester, such as sensory processing, brain development and behavior, clinical aspects of nervous system function. Restricted to Graduate students only.

PSYC 8275. Women and Health. 3 Credits.

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Restricted to Graduate students only. (Same as WSTU 8275).

PSYC 8277. Health Psychology. 3 Credits.

Social psychological theories and research that relate to health and illness. Application of theories of social learning, attribution, attitude change, and social influence to topics such as health promotion and disease prevention, health compliance, and coping with illness and disability. Restricted to Graduate students only.

PSYC 8279. Special Topics in Health Psychology. 3 Credits.

May be repeated for credit provided the topic differs. Admission by permission of instructor. Restricted to Graduate students only.

PSYC 8280. Theories and Practice of Clinical Supervision. 0 Credits.

Theory and practice of clinical supervision through instruction and a supervision practicum in the clinical facilities. Restricted to clinical psychology graduate students.

PSYC 8283. First Year Seminar I: Motivational Interviewing. 0 Credits.

This course develops in clinical psychology doctoral students basic skills necessary for therapeutic effectiveness through motivational interviewing and familiarizes them with goals and values in their clinical training. Restricted to Available only to students in the clinical psychology PhD program.

PSYC 8284. First Year Seminar II: Introduction to Therapy. 0 Credits.

Clinical psychology doctoral students gain basic familiarity with assessment and psychotherapy practices and understanding of the inner workings of the Meltzer Center clinic. Restricted to students in the clinical psychology PhD program.

PSYC 8285. History and Systems of Psychology. 0 Credits.

Clinical psychology doctoral students will engage in self-study of the history and systems of psychology. Restricted to Available only to students in the clinical psychology PhD program.

PSYC 8286. Clinical Psychology Externship. 0 Credits.

Clinical psychology doctoral students will participate in externship placements in clinical settings to develop their clinical skills and competencies. Restricted to students in the clinical psychology PhD program.

PSYC 8287. Current Topics in Clinical Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8288. Current Topics in Industrial/Organizational Psychology. 3 Credits.

Advanced seminar with focus on major theoretical approaches, research, or problem areas. Topics vary. May be repeated for credit. Restricted to Graduate students only.

PSYC 8289. Seminar: Current Topics in Experimental Psychology. 3 Credits.

Review and discussion of contemporary research and theory in a specialized field of psychological study, by leaders in the field. Independent topics each semester; may be repeated for credit. Restricted to Graduate students only.

PSYC 8291. Theories of Organizational Behavior. 3 Credits.

Examination of current theoretical models and research. Restricted to Graduate students only.

PSYC 8295. Independent Research. 3 Credits.

Individual library or experimental research under supervision of staff member. Arrangements must be made with sponsoring faculty member prior to registration. May be repeated for credit. Restricted to Psychology graduate students only.

PSYC 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy major field examination. May be repeated for credit. Restricted to Psychology graduate students only. Prerequisites: Psychology graduate students only.

PSYC 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit. Restricted to Psychology graduate students only.

PUBLIC HEALTH (PUBH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PUBH 0920. Continuing Research - Master's. 1 Credit.

Continuing Research Credit- Master's Level.

PUBH 0940. Continuing Research - Doctoral. 1 Credit.

Continuing Research Credit- Doctoral.

PUBH 1101. Introduction to Public Health & Health Svcs. 3 Credits.

Introduction to aspects of public health and health services, including health services administration and policy, maternal and child health, environmental health, and health promotion.

PUBH 1102. History of Public Health. 3 Credits.

Historical and philosophical development of public health and its contributions to understanding, preventing, and controlling disease and disabilities.

PUBH 2110. Public Health Biology. 3 Credits.

Basic scientific mechanisms, concepts, and principles in health and the pathogenesis of diseases; a foundation for applications to public health. Prerequisite: BISC 1005 or BISC 1111.

PUBH 2112. Principles of Health Education and Health Promotion. 3 Credits.

Social and behavioral theories underlying health promotion program development and evaluation. Practical applications in a variety of domestic and global public health settings. Prerequisite or corequisite: PUBH 1101.

PUBH 2113. Impact of Culture upon Health. 3 Credits.

Relationships between cultural values and the development of modern health systems based on Western models of health care practice. Reliance upon traditional forms of health care. Examples of successful incorporation of traditional practices into evolving health care systems.

PUBH 2114. Environment, Health, and Development. 3 Credits.

Survey of the relationship between health and development and environmental trends. Topics include deforestation, urban contamination, and desertification.

PUBH 2115. Health, Human Rights, and Displaced Persons. 3 Credits.

Concepts of health as a human right, ethics, and the participation of the international community in moving toward health for all. Civil and international conflict in the generation of displaced populations.

PUBH 2116. Global Delivery of Health Systems. 3 Credits.

Introduction to health systems and the basic concepts of health systems administration and financing and health care reform with examples from advanced, middle income, and poor countries.

PUBH 2117. Service Learning in Public Health. 3 Credits.

A service-learning course that combines classroom instruction with practical learning. Students are responsible for securing an approved service site before the beginning of the semester; the instructor is available to assist with this placement.

PUBH 3130. Health Services Management and Economics. 3 Credits.

Basics of management theory, finance, and economics as applied to managing in the public health and health services field. Prerequisite: ECON 1011.

PUBH 3131. Epidemiology: Measuring Health and Disease. 3 Credits.

Principles of epidemiology applied to disease surveillance, control of infectious and chronic diseases, and health services/health policy. Understanding the basic research designs and their relationship to establishing cause and effect and effectiveness of interventions to prevent and cure disease. Prerequisite: PUBH 1101, STAT 1127 .

PUBH 3132. Health and Environment. 3 Credits.

Introduction to environmental and occupational health and implications for individual and population health. Issues of clean water, environmental toxins, air pollution, and the environmental impact on infectious diseases.

PUBH 3133. Global Health & Development. 3 Credits.

Basic concepts of development theory, international health policy, demographic trends, and health promotion; how the relationships between socioeconomic development and global health can be observed, measured, and used for the management of health programs.

PUBH 3135W. Health Policy. 3 Credits.

An introduction to the fundamentals of the health care system in the United States and strategies available to policymakers when addressing problems relating to access, financing, and delivery of health care. Prerequisite: PUBH 1101.

PUBH 3136. Health Law. 3 Credits.

Legal concepts related to individual health care and public health systems in the United States. Health care law, public health law, and bioethics.

PUBH 3137. Global Public Health Nutrition. 3 Credits.

Consideration of hunger and other nutrition issues globally, including food insecurity, under/over nutrition, and micronutrient deficiencies. Application of UNICEF malnutrition framework to describe vulnerable groups, critique program strategies, and identify multisectorial strategies to reduce hunger and malnutrition. Prerequisites: Required: PubH 3133 Global Health and Development Recommended: EXSC 2119 Basic Nutrition.

PUBH 3150. Sustainable Energy & Env Hlth. 3 Credits.

Sustainability issues from the perspective of environmental health. Technical, social, and health implications of specific energy sources. Energy conservation and efficiency in the context of population growth, food and water resources, and maintenance of a healthy environment for future generations.

PUBH 3151. Current Issues in Bioethics. 3 Credits.

Recent advances in science and technology make biomedical ethics a continuing matter of concern for students, health professionals and laypersons alike. This course offers an opportunity to investigate both general and specific ethical questions and ethical decision making from both a personal and organizational perspective, including topics such as the right to health care, research with human subjects, reproductive issues, genetics, professional and student roles and responsibilities, and end-of-life issues. Such investigation requires exposure to the issues and to various attempts to address and resolve them. The course requires participation in group discussions as well as independent critical writing.

PUBH 3199. Topics in Public Health. 1-5 Credits.

Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

PUBH 4140W. Senior Seminar. 3 Credits.

Limited to public health majors in their senior year. Students develop a public health intervention incorporating various domains of the discipline of public health.

PUBH 4199. Independent Study. 3 Credits.

For departmental majors only. Prerequisite: outline of intended project must be approved prior to registration by instructor and dean's office.

PUBH 6001. Biological Concepts in Public Health. 2 Credits.

An overview of current knowledge about biological mechanisms of major diseases causing death and disability in the United States and globally; understanding and interpreting the reciprocal relationships of genetic, environmental, and behavioral determinants of health and disease in an ecologic context; analyzing, discussing, and communicating biologic principles of disease from a public health perspective.

PUBH 6002. Biostatistical Applications for Public Health. 3 Credits.

Application of biostatistical principles to critical analysis of retrospective studies, prospective studies, and controlled clinical trials, as well as studies in the health services literature. Selection, basic calculations, and interpretation of statistical methods for detection of significant associations and differences.

PUBH 6003. Principles and Practices of Epidemiology. 3 Credits.

General principles, methods, and applications of epidemiology. Outbreak investigations, measures of disease frequency, standardization of disease rates, study design, measures of association, hypothesis testing, bias, effect modification, causal inference, disease screening, and surveillance. Case studies apply these concepts to a variety of infectious, acute, and chronic health conditions affecting the population.

PUBH 6004. Environmental and Occupational Health in a Sustainable World. 2 Credits.

Examination of the connection between population health and exposures to chemical, physical, and biological agents in the environment. Problem-solving frameworks familiarize students with data sources, methodologies, and policy approaches being used to address the public health impacts of environmental and occupational health hazards, including the consequences of climate change, natural resource degradation, and industrial chemicals. Integration of key concepts of environmental health with principles of sustainability illustrate how public policies and practices on the local, national, and global level affect population health.

PUBH 6006. Management and Policy Approaches to Public Health. 3 Credits.

Introduction to the basic principles, concepts, and skills related to public health management and policy. Management and policy approaches to public health at the system, organization, and group and individual levels. The interrelated nature of management and policy.

PUBH 6007. Social and Behavioral Approaches to Public Health. 2 Credits.

Social and behavioral science theories, models, and concepts that can be applied to public health problems and interventions. The role of social and community factors, including race, ethnicity, and culture, in both the onset and solution of public health problems; the interrelationship between the social and behavioral sciences.

PUBH 6010. Independent Study. 1-6 Credits.

Designed to provide the student with an opportunity to gain or enhance public health knowledge and to explore an area of interest related to public health research or the delivery and/or administration of health services. Permission of instructor/advisor required.

PUBH 6013. Master's Thesis. 3 Credits.

See Advisor.

PUBH 6014. Practicum. 1-3 Credits.

This course provides the opportunity for MPH students to apply the knowledge and skills acquired through their programs of study. A planned, supervised and evaluated practice experience that is relevant to the student's program is an essential component of a public health professional degree program. These opportunities can take place in a variety of agencies or organizations. Each program customizes Practicum requirements to meet students' needs. (Credit/No Credit) [For 45-credit MPH students who started Summer 06 or after.].

PUBH 6015. Culminating Experience. 1-3 Credits.

Students synthesize and integrate knowledge acquired in coursework and other learning experiences and apply theory and principles to a situation that approximates some aspect of professional practice. Program faculty evaluate the student's mastery of the body of knowledge and ability to demonstrate proficiency in the required competencies. Requirements evaluated are adapted to the degree program.

PUBH 6016. Field/Laboratory Experience. 2 Credits.

The overall purpose of the field/laboratory experience requirement is to introduce students in the MS-PHMEID degree program to a supervised practical experience in a Public Health Laboratory or other qualifying public health entity from the perspective of the actual wet laboratory operations. Students that already have this laboratory experience will be introduced to epidemiologic research, particularly surveillance, and its tie-in with laboratories either in the United States or in an international setting.

PUBH 6050. Introduction to Health Services Delivery. 2 Credits.

Introduction to the U.S. health services financing and delivery system with a focus on the major components of the system, the interaction of elements of the system, and the history of the development of today's system. Addresses the national context and history of health services, population health and health care spending in the US, employment-based health insurance, Medicaid and the uninsured, Medicare, international health care systems, managed care, hospitals and facilities, physicians and health workforce, long-term care and prescription drugs, and health care reform. (Same as HSML 6202).

PUBH 6052. Practical Data Management and Analysis for Public Health. 2 Credits.

Practical aspects of dataset creation, data management, rudimentary statistical analysis, and tabular and graphical presentation of results. Tasks covered include creating codebooks, entering and cleaning data, deriving new variables from existing ones, choosing and implementing appropriate analytical techniques, graphing and tabulating results, and documenting and protecting work.

PUBH 6054. Community Engagement and Advocacy. 2 Credits.

Tools and strategies for public health practitioners to understand, respect, organize, and collaborate with community groups and organizations for promotion of healthy behaviors. Development of practical skills to harness available resources in a community to advocate for healthy living and positive health outcomes.

PUBH 6056. Public Health Leadership Seminar. 1 Credit.

Leadership lessons taken from the careers of a diverse group of executives and entrepreneurs from the corporate, government, nonprofit, and art sectors. Leadership theory and styles. Building networks; skills for effectively engaging with peers, potential employers, and business partners.

PUBH 6090. Practicum/Culminating Exp. 4 Credits.

Individually tailored. Culminating Experience for the MPH program. Advisor approval required prior to registration.

PUBH 6091. Special Project. 1-4 Credits.

Under faculty supervision, the student undertakes an original project that applies the skills and knowledge gained in the chosen track and/or concentration within the MPH program. Prerequisite: Permission of the instructor. NOTE that credits vary by program; please consult your program plan to register for the appropriate number of credits. [For 36-credit MPH students only].

PUBH 6099. Topics in Public Health. 0-3 Credits.

In-depth examination of a particular facet of public health. Topics vary by semester. See the Schedule of Classes for more details. May be repeated for credit provided the topic differs.

PUBH 6121. Environmental and Occupational Epidemiology. 3 Credits.

Demonstration and application of epidemiologic methods for the study of environmental and occupational health problems. Epidemiologic exposure assessment methods and methods relevant to cohort, case-control, cross-sectional, and case cross-over studies. Survey design and sources and evaluation of biases and confounding. Emphasis on written and oral communication skills. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6004.

PUBH 6122. Protecting Public Health and the Environment: Policies, Politics, and Programs. 3 Credits.

The legislative, regulatory, judicial, and political system in the United States developed to protect human health and the environment. National and global public and environmental health agencies, policy development, and current topics. Prerequisites: PUBH 6004 or permission of the instructor.

PUBH 6123. Toxicology: Applications for Public Health Policy. 3 Credits.

Toxicology as both a scientific discipline and a source of information for public health policy with respect to the regulation of foods, pesticides, drugs (pharmaceuticals), environmental chemical pollutants, and other chemicals that may affect human and environmental health. How chemicals interact with biological systems to produce adverse effects. The ways in which toxicologic information is developed and applied to regulatory decision making and the use of toxicology in regulatory risk assessment. Prerequisite: PUBH 6004.

PUBH 6124. Problem Solving in EOH. 3 Credits.

This culminating course uses problem-based learning methods to examine a variety of real-world EOH issues in depth. Cases stimulate students to integrate their cumulative knowledge across all required courses and demonstrate their professional competencies. Students to conduct activities characteristic of EOH practice: evaluating a variety of technical, public, and media, reports; integrating and interpreting environmental, exposure, and health information effectively; designing analytic and communication strategies; presenting in writing and orally relevant materials to address EOH issues; and, making appropriate policy and/or program decisions and recommendations. Prerequisites: PubH 6121, 6123, 6126.

PUBH 6125. Intro-Children's Health & Env. 2 Credits.

Describes the impact of environmental toxicants on children's health and reviews some of the major policy issues in the field of children's environmental health. Prerequisites: PubH 6004.

PUBH 6126. Assessment&Control/Env Hazards. 3 Credits.

Introduces the anticipation, recognition, assessment, and control of hazards in the workplace and the ambient environment. It emphasizes an understanding of the characteristic features of specific hazards, which may be chemical, biological, or physical/ergonomic.

PUBH 6127. Germs: An Introduction to Environmental Health Microbiology. 2 Credits.

Basics of public health microbiology as it relates to the environment, food, water, and bioterrorism. Examines from an environmental health perspective how the principles of microbiology are applied to current and emerging public health issues, whether from intentional or unintentional contamination of the environment. Specific topics will include: industrial animal production and increasing prevalence of antibiotic resistance; effectiveness of various point of use technologies for water purification; recent advances in quantitative microbial risk assessment; one medicine (where public and veterinary health meet); detection strategies for microorganisms (including bioterrorism agents); and current approaches in food defense and agroterrorism. Prerequisites: PUBH 6004.

PUBH 6128. Global Environmental and Occupational Health. 2 Credits.

Examination of the global environmental and occupational health factors that contribute significantly to the global burden of disease, focusing primarily on low- and middle-income countries. Principles from behavioral sciences, development economics, risk assessment, and epidemiology are included. Potential solutions to environmental health problems, metrics used to measure impacts, and areas for future research. Prerequisite: PUBH 6004.

PUBH 6130. Sustainable Energy and the Environment. 2 Credits.

The sustainability of various energy strategies, including energy conservation, green building principles, renewable energy, and mitigation and adaption policies for climate change. Emphasis on the life cycle framework. Topics include natural resource depletion, water and energy consumption, and air, water, and solid waste pollutant emissions. Prerequisite: PUBH 6004.

PUBH 6131. Applied Data Analysis in Environmental and Occupational Health. 3 Credits.

Application of biostatistical and epidemiologic concepts and methods to analysis of environmental and occupational health (EOH) data. Students manage datasets, conduct data analyses, present data graphically, and interpret data for relevance to EOH research, policy, and practice. Development and practice of skills needed for analyzing complex exposures and communicating environmental and occupational research findings. Prerequisites: PUBH 6002, PUBH 6003, and PUBH 6004.

PUBH 6132. Design, Implementation and Evaluation of Global Water, Sanitation and Hygiene (WASH) Programs. 1 Credit.

Course designed for students working in both disaster and development settings of developing countries where contaminated water, inadequate sanitation and poor hygiene (WASH) are the cause of serious health problems. Fundamental concepts will be taken from classroom to the field for first hand experience applying WASH methods. Prerequisite PubH 6004.

PUBH 6133. Social Dimensions in Climate Change and Health. 2 Credits.

The drivers of climate change and outcomes with particular focus on health dimensions. Drivers, obstacles, vulnerabilities, inequality, and adaptation as well as technical and social solutions.

PUBH 6134. Communicating Science for Public Health. 2 Credits.

Evaluating the primary scientific literature and communicating research findings in outlets ranging from peer-reviewed journals to 140 character Tweets. Identifying target audiences and shaping messages to maximize impact, while maintaining the integrity of the supporting evidence. Written and oral communication and critical evaluation are emphasized. Prerequisites: PUBH 6002 and PUBH 6003.

PUBH 6199. Topics in EOH. 0-3 Credits.

In-depth examination of a particular facet of public health. Topics and prerequisites vary.

PUBH 6236. Systematic Review of Public Health Literature. 1 Credit.

The process of conducting systematic reviews of literature in order to translate research into public health practice recommendations. Recommended for MPH candidates planning to conduct a systematic review of the literature for their culminating experience. Prerequisites: PUBH 6002 or EXNS 6204; PUBH 6003 or EXNS 6205.

PUBH 6237. Chronic Disease Epidemiology. 2 Credits.

An overview of the descriptive, analytic, and etiologic epidemiology of chronic diseases, with an emphasis on cardiovascular disease, cancer, and diabetes. The role of modifiable risk factors for chronic diseases such as obesity, diet, physical activity, smoking, and environmental exposures in relation to chronic disease prevention and control. Epidemiologic methods and study design and public health approaches to disease control, including surveillance, screening, and interventions. Past or concurrent enrollment in PUBH 6001 or EXSC 6202 and PUBH 6203 and PUBH 6247 or EXSC 6204 is strongly recommended. Prerequisites: PUBH 6002 or EXNS 6204 and PUBH 6003 or EXNS 6205.

PUBH 6238. Molecular Epidemiology. 1 Credit.

Concepts, principles, and use of molecular methods in epidemiologic and clinical research. Common molecular measures and their interaction with environmental factors. Development of a framework for interpreting, assessing, and incorporating molecular measures in their area of research. Prerequisites: PubH 6003.

PUBH 6239. Epidemiology of Foodborne and Waterborne Diseases. 1 Credit.

Foodborne and waterborne toxicants; diseases linked to eating and drinking and their prevention. Topics include transmission of disease and disease processes; microbial toxins, mycotoxins, chemical toxins, bacterial infections (e.g., salmonellosis, shigellosis, vibrio, listeria), virus and parasitic infections; issues in food and water safety. Prerequisites: PubH 6003.

PUBH 6240. Pediatric HIV/AIDS. 1 Credit.

Comprehensive overview of HIV infection in children, with emphasis on the global pediatric HIV epidemic. Biological, epidemiological, clinical, and psychosocial issues; public health programmatic approaches to prevention, care, and treatment. The national and global experience with scaling up prevention services in the global effort to virtually eliminate HIV/AIDS in children. Prerequisites: PubH 6003. Recommended background: PubH 6250 and PubH 6253.

PUBH 6241. Nutritional Epidemiology. 2 Credits.

Methodological issues related to dietary assessment, nutrition surveillance, and the epidemiology of obesity. Current trends, including the health impacts of vitamin D and sodium. Interpretation of the scientific literature in the field. Examples drawn from the National Health and Nutrition Examination Survey. Prerequisites: PubH 6003.

PUBH 6242. ClinicalEpid&Decision Analysis. 2,3 Credits.

Quantitative and qualitative approaches to decision making, including risk-benefit analysis, decision analysis, and cost-effective analysis. Applications to technology assessment; development of clinical guidelines. Note: MPH Health Policy, MS Health Policy and Doctoral Students concurrently take PubH 6299 topics course by the same name for 1 credit, thereby enrolling for three total credits (PubH 6242=2 credits plus PubH 6299.xx, same name =1 credit). Prerequisites: PUBH 6002, PUBH 6003.

PUBH 6243. Topics:ClinicalEpi&DecAnalysis. 1 Credit.

This class takes an evidence-based problem solving approach for Masters level students interested in the health policy focus of clinical epidemiology utilizing methods taught in PubH 6242. Prerequ: PubH 6003. Corequis: PubH 6242.

PUBH 6244. Cancer Epidemiology. 2 Credits.

Epidemiology of specific cancers, with an emphasis on molecular and genetic epidemiology. Current research in the field. Prerequisites: PubH 203.

PUBH 6245. InfectiousDisease Epidemiology. 2 Credits.

The role and conduct of laboratory and field investigations in the epidemiology of infectious diseases. Prerequisite: PubH 6003.

PUBH 6247. Design of Health Studies. 3 Credits.

Epidemiologic concepts and methods applied to specific research questions especially new types of public health problems. Recognition and development of the most appropriate study design for a specific health issue. Ecologic, cross-sectional, case-control, cohort studies and clinical trials. Sampling, measurement, questionnaire design, causality and causal criteria. Development of a research proposal. Co-requisite: PubH 6002. Prerequisite: PubH 6003.

PUBH 6248. EpidMethods/OlderPopulations. 2 Credits.

Methodological challenges in studying older populations. Epidemiologic endpoints in aging populations. Basic concepts and theories explored in aging research. Prerequisite: PubH 6003.

PUBH 6249. StatPackages/DataMgt&DataAnlys. 3 Credits.

This course familiarizes the student with one of the most widely used database management systems and statistical analysis software packages, the SAS System, operating in a Windows environment. Throughout the course, several database management system techniques and data analytical strategies for the appropriate analysis of datasets obtained from a variety of studies will be presented. Statistical techniques covered include linear regression, analysis of variance, logistic regression, and survival analysis. Prerequisite: PubH 6002.

PUBH 6250. Epidemiology of HIV/AIDS. 2 Credits.

Methodological issues central to HIV/AIDS research. Biases peculiar to HIV/AIDS epidemiologic studies (both observational and experimental designs). The natural history of HIV, diagnosis, surveillance, vulnerable subpopulations, behavioral facets, and evaluation of epidemiologic studies with an emphasis on methodological considerations. Prerequisite: PubH 6003, Recommended PubH 6002.

PUBH 6252. Advanced Epidemiology Methods. 3 Credits.

Advanced quantitative epidemiologic methods, with a focus on basic data analytic techniques, identifying and evaluating bias and adjusting for confounding. Dose-response, trend analysis, and multiple linear and logistic regression models. Prerequisites: PubH 6002, 6003, 6247. Co- or prerequisite PubH 6249.

PUBH 6253. Issues in HIV Care & Treatment. 1 Credit.

This course will provide an overview and in depth consideration of some of the major issues in treatment of HIV disease, including the assessment of efficacy and effectiveness, drug resistance, monitoring of drug toxicity, special populations, the interrelationship between treatment and prevention, and quality of care. The course has been designed with an interdisciplinary audience in mind. In discussions and assignments, students will be able to emphasize their own area of interest and/or expertise (e.g. epidemiology, policy, etc).

PUBH 6255. Org Responses to HIV/Epidemic. 2 Credits.

This seminar focuses on the rapidly evolving responses of local, national and global governmental and non-governmental organizations to the HIV/AIDS epidemic. Inspirational leaders of selected HIV/AIDS organizations are invited to describe how their organizations contribute to fighting the epidemic; the leadership and management skills that they use in their daily work; and their strategic decision-making processes. Basic principles of epidemiology, leadership and organizational strategy and structure are addressed through didactic presentations and interactive faculty-student dialogue. Lessons learned through the lens of HIV/AIDS organizations are broadly applicable to other public health problems. Students will learn about the strengths and challenges of different types of public health organizations as they make career decisions about their own transition to the public health work force. Prerequisite: PubH 6003, HIV/AIDS experience, or permission of Instructor.

PUBH 6258. Adv Topics/Biostat Consulting. 1 Credit.

Principles and practice of biostatistical consulting in public health and medical research environments.

PUBH 6259. Epid Surveillance/PublicHealth. 2 Credits.

Focus on foundations of public health surveillance systems for communicable as well as chronic diseases. Outbreak investigation methods will be included, as well as surveillance data sources, data management, data analysis, ethical issues, surveillance system evaluation, and use of information for prevention. Surveillance systems for reportable diseases, nosocomial infections, bioterrorism events, cancer, environmental disease, vaccine-related adverse events, bovine spongiform encephalopathy, and military personnel will be discussed. Prerequisites: PubH 6003.

PUBH 6260. Adv DataAnalysis-Public Health. 3 Credits.

Advanced data analysis using the SAS System to expand on the analytic techniques gained in PubH 6002 and PubH 6249 and to provide students with the applied statistical skills required to analyze various types of public health datasets. Prerequisites: PubH 6002, 6249.

PUBH 6261. Epi-Bio Skills Bldg Seminar. 1 Credit.

Assists students in developing the skills needed to complete degree requirements and to provide them with practical applied public health training. By the end of the course, students will be able to describe essential skills needed for preparation, implementation, presentation and communication of public health data.

PUBH 6262. Intro-Geog Information Systems. 1 Credit.

Geographic information systems (GIS) for mapping and display of health data. The course makes use of ArcGIS 8.3. The use of spatial statistics for the detection of clusters and patterns in the spread of diseases. Working with geodatabases, shape files, layers, query information from attribute tables, geocode addresses and customizing GIS applications.

PUBH 6263. Advanced GIS. 1 Credit.

Provides mid to advanced level training in GIS for display and analysis of health data. Use software ArcGIS 9.3 and additional extensions such as Spatial Analyst and Geostatistical Analyst. Also uses GeoDa software. Emphasizes benefits of using GIS to do more than simply manage and map data. GIS supports a range of spatial analysis functions that enable researchers to extract additional meaning from manipulating geographic data. Learn to work with raster datasets and geodatabases to build spatial models for analyzing health data and evaluating spatial patterns of health events based on notion of distance. Prerequisite: PubH 6262.

PUBH 6264. Quantitative Methods. 3 Credits.

Introduces basic concepts in mathematical statistics. Topics will include probabilities (unconditional and conditional), density and distribution functions of continuous and discrete random variables, including expected values. Specific distribution functions discussed will be Binomial, Poisson, Hypergeometric, and Gaussian distributions. Additional topics include bivariable distributions, variance-covariance matrix, limiting theory, asymptotic results, and maximum likelihood estimation. Prerequisites: Math 1231, 1232 and PubH 6002, 6249.

PUBH 6265. Design of Medical Studies. 3 Credits.

Design of medical investigations, including the randomized clinical trial, observational cohort study, and the retrospective case-control study. Specific methods regarding sample size, power and precision and statistical procedures for randomization and sa.

PUBH 6266. Biostatistical Methods. 3 Credits.

Biostatistical methods for asymptotically efficient tests and estimates of relative risks and odds ratios from prospective and retrospective matched and unmatched studies. Fixed and random effects models. Logistic regression, conditional logistic regression. Poisson regression. Maximum likelihood and efficient scores. Prerequisites: STAT 6201-6202, PubH 6264.

PUBH 6267. Time Series:Applications in PH. 2 Credits.

Introduce basic concepts for the identification and modeling of time series in the time domain approach. Learn a new set of terminology standards and a different way to analyze these type of data and to forecast future values of a time series and its accuracy. Software used is SAS/ETS and 3 procedures: ARIMA, AUTOREG, FORECAST. New mathematical notation will be used. Prerequisite: PubH 6249.

PUBH 6268. Advanced SAS. 1 Credit.

Intensive in advanced programming using SAS. Expand technical skills to provide advanced SAS tools for data management and graphics. Topics to include Interactive Matrix Language (IML), SAS Macro facility language, and drill-down graphs using SAS/GRAPH. Prerequisites: PubH 6002, 6249 or Instructor's permission.

PUBH 6269. Reproductive Epidemiology. 1 Credit.

Current research, controversial issues and methodological problems in epidemiology of reproductive and perinatal health. Present reproductive health issues such as conception and infertility; perinatal issues such as complications of pregnancy, infections in pregnancy, adverse pregnancy outcomes, and birth defects. Prerequisite: PubH 6003.

PUBH 6270. HIV/AIDS Surveillance. 1 Credit.

Overview of surveillance methods used domestically and internationally to monitor HIV/AIDS epidemic. Surveillance systems including sentinel, population based, behavioral, and incidence surveillance will be presented and discussed. Strengths and weaknesses of these various systems will be discussed in addition to how data from these systems impact and inform HIV/AIDS related policies and programs. Prerequisite: PubH 6003.

PUBH 6271. Disaster Epidemiology. 1 Credit.

Introduction to disaster epidemiology that elucidates the important role epidemiologists play in assessing the health and psychological effects of natural and man-made disasters and in identifying factors that contribute to these effects. Focus will be on applications of epidemiologic methods to the study of public health consequences of disasters, case studies from actual disasters used to illustrate various roles of epidemiologist in responding to these events and lessons learned. Highlight key skills that epidemiologists need to be part of a response and recovery. Identify methodological issues for future work. Prerequisites: PubH 6002, 6003.

PUBH 6272. Infectious Agents- Cancer. 1 Credit.

Describes the role of infectious agents in the etiology of human cancer. Emphasis on differences between specific oncogenic viruses. Other oncogenic agents, bacterial and parasitic, will also be discussed. Discuss laboratory approaches to the documentation of their pathogenicity, how behavior affects mode of transmission, and which types of data provide strongest support for documenting oncogenic potential for humans. Prerequisite: PubH 6003.

PUBH 6273. Ethnographic Methods. 1 Credit.

Use ethnographic field methods in conjunction with epidemiological research. Introduction to specific methods used to examine health phenomena and determinants of disease. Learn specific applied skills that can be modified with socio-cultural modifications to evaluate urban sites and other settings. Basic skills in application of ethnographic methods, including recursive observations, participant observations, and variety of approaches to interviewing such as in-depth, structured and non-structured as well as conversational interviewing. Discuss use of multiple approaches in conjunction with ethnography, including focus groups, archival, document, statistical and secondary data analysis, and survey research methods. Course emphasizes use of ethnographic research methods in community-based health settings and evaluates issues in cultural competency and how to garner stakeholder support to conduct epidemiologic studies. Prerequisite: PubH 6003.

PUBH 6274. Emerging ID for PH Pro's. 2 Credits.

Focus on epidemiology of emerging infectious diseases of public health importance, including factors leading to their development, management of emerging infectious diseases from a public health and laboratory standpoint, including biosafety, and strategies for emergency preparedness from a national and international perspective. Course emphasizes the context of emerging infectious diseases and strategic approaches to their containment. Prerequisites: PubH 6003 or Micr 6292 or Instructor permission.

PUBH 6275. Essential PH Lab Skills. 2 Credits.

This course will provide public health students with practical laboratory experience. Prerequ: Micr 6239 or Micr 6212 or permission of instructor.

PUBH 6276. Health Microbiology. 3 Credits.

Gain in-depth understanding of important non-viral pathogens pertinent to PH Microbiology. Learn how to isolate & identify pathogens using critical thinking & problem solving skills.

PUBH 6277. Public Health Genomics. 2 Credits.

Learn about molecular technology and how it is impacting public health practice & discourse in the post genomic era. Explore ways in which genomics is being used to solve or help alleviate PH problems through case-focused discussions. Prerequisite: genetics or molecular biology within 6 years or permission of course instructor.

PUBH 6278. Public Health Virology. 3 Credits.

In-depth understanding of viral pathogenesis by focusing on current research, controversial issues and PH relevance. Survey of family of viruses most relevant to today's public health efforts, concentrating on virus-host interactions & therapeutic strategies.

PUBH 6280. MEID Final Project. 2 Credits.

Focus on the synthesis and summary of data acquired through epidemiologic and/or public health laboratory research. Prerequisites: PubH 6002, 6003, 6292, 6245; Biosafety training, CITI training, HIPAA training, permission of instructor.

PUBH 6281. Analysis of Complex Surveys Using SAS and Stata. 1 Credit.

An applied data analysis course focusing on procedures commonly used to analyze data from complex surveys such as the National Health and Nutrition Examination Survey. Review of various types of sampling, sample design focusing on core components of complex surveys, and the statistical justification and procedures for including design effects in analytic models. Application of these concepts to real data using SAS and Stata. Prerequisites: PubH 6003 and PubH 6249 or equivalent Stata course.

PUBH 6282. Introduction to R Programming. 1 Credit.

R is an open source software environment for statistical computing and graphics. Data transfer between SAS and R, data manipulation and visualization within R, programming and debugging, R libraries, and graphics theory. Prerequisites: PubH 6249. Recommended background: Programming experience in a statistical package such as Stata or in high level language such as C, Python, Perl.

PUBH 6283. Biostatistics Consulting Practicum. 1 Credit.

Supervised experience involving the synthesis of biostatistical skills with client consultation. Students consolidate their skills through an experience-based understanding of how biostatistical skills are utilized in one or more domains of health research. Prerequisites: STAT 6201 and PUBH 6003. Recommended background: PUBH 6249 or PUBH 6210.

PUBH 6299. Topics in Epi/Bio. 1-3 Credits.

In-depth examination of a particular facet of public health. Topics and prerequisites vary.

PUBH 6305. Fundamentals for Health Policy: Public Health and Health Care. 2 Credits.

An overview of public health and health care in the United States as an introduction to the study and analysis of health policy. Presents the governmental framework, institutions, financing streams, workforce, constituencies, and interest groups engaged in the health sector to ensure that students begin their policy analytic training with grounding in the political, economic, and social realities of public health and health care.

PUBH 6310. Statistical Analysis in Health Policy. 3 Credits.

Quantitative and statistical methods of data analysis for health policy and health services research. Instruction in conducting data analyses using Stata statistical and data analysis software and application of acquired skills to health policy and health services research. Practical experience in programming and analysis of various health policy-related questions. Entering and importing data; creating, saving, and merging data sets; creating and modifying variables; labeling variables and values; and conducting analysis ranging from univariate to multivariate analyses, including multiple regression and logistic regression. The use of existing data sets to analyze health policy issues and interpret these analyses for policy purposes. Prerequisites: PUBH 6002.

PUBH 6315. Intro-Health Policy Analysis. 2 Credits.

Core elements of health policy analysis: problem definition, background, the political, economic, and social landscape; development of policy options and recommendations. Written, graphic, and oral presentation skills associated with policy analysis. Prerequisites: PubH 6305.

PUBH 6320. Advanced Health Policy Analysis. 2 Credits.

Critical elements of health policy applications. Problem definition; political, social, and economic assessment of a problem; program evaluation and data analysis; development of policy options; and the written and oral presentation of findings and recommendations. Practical application of basic quantitative tools in health policy. Prerequisites: PUBH 6310 and PUBH 6315.

PUBH 6325. Federal Policymaking and Policy Advocacy. 2 Credits.

The federal health policymaking process, including an overview of the legislative, administrative, and judicial processes that affect policymaking. The federal budget, authorization, and appropriation processes. An advocacy campaign framework is used to demonstrate common techniques and strategies used to advance legislative and regulatory policies, including coalition building and the use of policy studies and media relations. Prerequisite: PUBH 6305.

PUBH 6330. Health Services and Law. 3 Credits.

Examination of the ways in which the law and legal system in the United States influence and are influenced by the health care system. How judicial, statutory, regulatory, and constitutional sources of law embody health policy and affect access to and quality and financing of health care, as well as the regulation of patient rights.

PUBH 6335. Public Health and Law. 3 Credits.

Designed for students in the health professions and law, to examine how law can both promote public health and conflict with the constitutionally-protected rights of individuals. Introduces the legal concepts that underlie the public health system and inform public health policymaking in the US. Topics include the role of law in public health care and policy (e.g., governmental powers vs. civil liberties, regulation of public health); major areas of public health activity (e.g., health promotion, immunization, screening, and treatment); and the future of public health (e.g., emerging infectious diseases, bioterrorism, obesity, and public health genetics).

PUBH 6340. Health Economics and Finance. 3 Credits.

Examination of economic principles as they apply to health policy in the public and private sectors. The basic framework of economics is used to analyze the behavior of consumers, hospitals, physicians, and insurers, as well as pharmaceutical companies and long-term care providers. Overview of Medicare and Medicaid. Economic analyses of current issues in the marketplace, including rising health spending in the context of the national economy and the federal budget, insurance market dynamics, key issues in the long-term care industry, shifting market forces and power within the health care arena, and new payment initiatives and delivery system models. Prerequisite: PUBH 6352 or an undergraduate economics course.

PUBH 6345. Health Policy Research Design. 2 Credits.**PUBH 6352. Basics of Econ for Health Pol. 1 Credit.**

An introduction to modern microeconomics- the study of how consumers, firms, industries, and the public sector make decisions and allocate their resources in the economy. The principles of supply and demand and elasticity in both the private and public sectors will be analyzed.

PUBH 6353. Child Health Advocacy. 1 Credit.

Introduction to child health advocacy. Affordable Care Act (ACA), preventive care, school health, environmental issues, and emergency care. The use of data for advocacy.

PUBH 6354. Mental Health/Subst Abuse Pol. 2 Credits.

Provides an overview of the U.S. mental health and substance abuse delivery system, its components, and the policy challenges created by the organization of this system. Considers the behavioral health care system from the perspective of several main "actors" in the system: patients, providers (primarily doctors & hospitals), health plans, and payers (public & private). Prerequisite: PubH 6305.

PUBH 6355. Comparative Health Policy. 1 Credit.

Introduction to international health systems and world health policy innovations and potential relevance to the United States. The origins and comparative performance of a range of international healthcare systems and comparative responses to specific health policy challenges. Methodological challenges of international comparisons and theoretical implications. Students design and conduct comparative analysis in the form of a short policy research proposal. Prerequisites: PubH 6305.

PUBH 6356. State Health Policy. 2 Credits.

Students develop a briefing on health and health care for a new governor and health secretary in order to gain a practical understanding of state health policy and programs. The course is designed to replicate the experience of a newly hired policy staff member learning the requirements for the position in a particular state. Prerequisite: PUBH 6305.

PUBH 6357. Health Economics and Policy: Cost Containment Strategies. 2 Credits.

Health care cost containment in the context of the current implementation of national health reform. Cost containment strategies; economic underpinnings, anticipated impacts, perspectives of and implications for health care providers and systems, and political considerations. Prerequisites: PubH 6340.

PUBH 6358. Vaccine Policy. 2 Credits.

Examines the development of U.S. vaccine policy and the growth of various markets targeting routine vaccination of all populations. The interactions among business, legal, political, public health, medical, federal/state/local government, and consumer communities that combine to influence vaccine delivery in a broad range of settings. Prerequisite: PUBH 6305.

PUBH 6359. Reproductive Health Policy. 1 Credit.

Overview of reproductive health policy at the federal and state levels. Balancing the interests of competing stakeholders; the fundamental underlying role of significant disparities in financing for and access to reproductive health services; and how policymaking can alleviate or exacerbate preexisting issues.

PUBH 6360. AdvMaternal&ChildHealthPolicy. 1 Credit.

In-depth exploration of maternal and child health policy in the U.S., with a particular emphasis on the role of personal and public health services for women, children, youth and their families in the context of health and human services system change. Prerequisite: PubH 6561.

PUBH 6361. Health Workforce Policy. 2 Credits.

Strategies for the prevention and control of infectious diseases; focus on low and middle income countries. Goals, strategies, and challenges of major global health intervention programs. Surveillance systems. Vaccination programs; chemotherapy as a prevention and treatment tool; nutritional supplementation; environmental approaches; and potential benefits of integrating multiple interventions. Prerequisites: PUBH 6305.

PUBH 6363. The Health Care Legislative Process. 1 Credit.

How health care legislation is developed in and moves through the U.S. House of Representatives and Senate. The roles of the committees of jurisdiction in each house and how the rules of each house affect legislative outcomes.

PUBH 6364. Fed Budget Process/Health Care. 1 Credit.

Focuses on how the Congressional budget process shapes the funding and design of federal health care programs, ranging from entitlement programs like Medicare to appropriated programs like community health centers. Discussions will cover budget resolutions, appropriations bills, and budget reconciliation legislation, as well as Congressional procedures & committees through which they are considered. Prerequisite: PubH 6305.

PUBH 6365. Advanced Global Health Security & Diplomacy. 2 Credits.

The development of foreign policy at the nexus of global health and national security; the evolving concept of global health diplomacy. Science and technology policy, biodefense and counter terrorism, weapons of mass destruction nonproliferation, food security, global health challenges, and U.S. diplomacy. Role of government and non-governmental organizations.

PUBH 6366. Health Care Corporate Compliance. 2 Credits.

The federal laws and regulations that affect U.S. health care industry participants, particularly those relating to the prevention of fraud and abuse, and the role of corporate compliance programs. Prerequisite: HSML 6215 or PUBH 6330.

PUBH 6368. Law, Medicine, and Ethics. 2 Credits.

Legal, ethical, and policy issues that arise in the biomedical arena. Controversial and challenging questions including those related to the definitions of life and death, nature of personal identity, requirements of justice, and boundaries of liberty. Legal, medical, and ethical/philosophical literature are used in examining these issues. Prerequisite: PUBH 6330.

PUBH 6370. Medicare/Medicaid Law & Policy. 2 Credits.

Describes current legal and public policy issues in the Medicare and Medicaid programs, including the legal, operational, financial, and organizational rules for the two programs. Prerequisite: PubH 6315.

PUBH 6372. Minority Health Policy. 2 Credits.

Introduces students to the concept of health disparities and the implications of disparities for health care practice and policy. Students will learn how disparities are defined and measured, as well as emerging approaches in practice and policy to reducing disparities. Prerequisite: 6315.

PUBH 6374. Pharmaceutical Policy. 2 Credits.

Legal and regulatory frameworks related to the demand for and supply / quality of pharmaceutical products. Policies specific to drug development, pricing, reimbursement, use, dissemination of information, and post-marketing surveillance. Prerequisite: PUBH 6315.

PUBH 6376. Primary Health Care Policy. 2 Credits.

Politics and policy behind the provision of primary healthcare in the United States. The rise of the field of primary care and how it is supported and financed; the role of insurers and government in regulation and oversight in the areas of access, cost, and quality. Prerequisite: PUBH 6315.

PUBH 6378. HIV Policy in the U.S.. 2 Credits.

Examines the policy response to the HIV epidemic in the United States and how the epidemic itself has helped to shape U.S. policy. How and why HIV became a national policy issue; circumstances surrounding the discovery of and early response to HIV; and main policy and programmatic developments and key players over time. The role and implications of the Affordable Care Act for individuals with HIV, the future of the Ryan White HIV/AIDS Program, and the impact of new treatment and prevention strategies on the future course of the epidemic.

PUBH 6380. Bridging Health Policy and Health Information Technology. 2 Credits.

Basics of health care informatics policy and core technological components for health services managers, public health professionals, health policy analysts, and health information technology staff. Policy and legal frameworks, governance and financial issues, technological infrastructure, and business and technological operations. Concepts and roles of information and how information technology can support the healthcare industry in promoting quality improvement.

PUBH 6382. Community Health Center Policy. 2 Credits.**PUBH 6384. Health Care Quality and Health Policy. 2 Credits.**

The role of quality in the U.S. health care delivery system from the perspective of multiple stakeholders, including public and private payers, providers, consumers, and employers. Defining and measuring quality; how quality information is used; and policy implications of quality improvement. Recent changes under health reform legislation. Prerequisites: PUBH 6305.

PUBH 6386. Public Health Preparedness Policy. 2 Credits.

Issues in public health emergency preparedness and response at the nexus of homeland and national security. The relationship between public health and criminal investigation, forensic epidemiology, and surveillance; biodefense; and the role of the scientific community. Infrastructure, threat themes, and associated preparedness and response policy.

PUBH 6399. Topics in Health Policy. 0-3 Credits.

In-depth examination of a particular facet of public health policy. Topics and prerequisites vary.

PUBH 6400. Global Health Frameworks. 2 Credits.

Overview of current issues in global public health with particular emphasis on low and middle-income countries. Serves as both an introductory course for students entering the field of global health, as well as an update on current technical and policy issues for advanced students who may have considerable experience.

PUBH 6401. Comp Regional Determinants. 2 Credits.

Examines the set of social, cultural and economic issues most central to shaping health in each of the world's main regions. Overseas Learning Collaboration program in Bangladesh. Prerequisite: PubH 6400. Fee varies by year.

PUBH 6402. Washington Seminar. 2 Credits.

This seminar course will provide an overview of global health policy and practice institutional resources in Washington DC. Students gain an understanding of how global health issues are framed, presented and biased in a multi-institutional setting. This is a collaborative learning exercise where simple web based tools will be used to develop a virtual classroom of the current global health policy and practice dialogue among Washington DC based governmental, multilateral, NGO, private sector and policy institutes.

PUBH 6403. Scientific Basis GH Intervntn. 2 Credits.

Introduces the scientific basis of global health interventions and how they address proximal and underlying determinants of health. Successful students will obtain a strong technical grounding in the determinants, biology and pathogenesis of specific diseases, for which affordable tools for prevention, control, and case management exist and are in use in public health practice.

PUBH 6410. Global Health Study Design. 2 Credits.

A foundation in the tools necessary for planning and designing research related to identifying and solving problems in global health: choosing an appropriate research topic and research question, understanding the relationships between hypotheses and study objectives, conducting a literature review, choosing a research design to achieve the project purpose, writing a research proposal including planning for the challenges of global health research, and achieving productive dissemination of findings.

PUBH 6411. Global Health Qualitative Research Methods. 2 Credits.

An introduction to qualitative data collection and analysis in global health settings. Methodologies include survey design, interviews, focus groups, and participant observation. Archival research and clinical trial research are also addressed. The set of methods most commonly used to collect qualitative data in global health settings. Students are enabled to prepare interview guides, conduct in-depth interviews, and analyze and document the results from a qualitative field project. Prerequisites: PUBH 6002 and PUBH 6410.

PUBH 6412. Global Health Quantitative Research Methods. 3 Credits.

Continuation of the series of global health methods courses. Examination of the fundamental concepts of empirical analysis and qualitative analysis, including open and axial coding, the basis of grounded theory, and regression analysis. Prerequisites: PUBH 6002 and PUBH 6410.

PUBH 6416. Ethical and Cultural Issues in Global Health Research and Programs. 1 Credit.

Examine procedures and concerns for protecting communities and human subjects involved in public health programs and research. Consider cultural considerations integral to ethical conduct of public health research and programming in the global context. Discuss history behind rules and regulations that govern ethical principles around conduct of research involving human subjects. Consider contribution that awareness of cultural contexts where we work makes to ethical nature of our work as global health professionals.

PUBH 6430. Theories for Global Health Communication Interventions. 2 Credits.

Use of communication theory and methods in health promotion. Integration of multidisciplinary approaches to public health communication. Prerequisite: PUBH 6007, PUBH 6400.

PUBH 6431. Global Health Communication Strategies and Skills. 3 Credits.

Students conduct qualitative research to evaluate health communication programs, assess readability level and suitability of written health education materials, conduct content analyses, and review/critique current health communication literature. Prerequisites: PubH 6430-Theories and Applications in Global Health Promotion (unless waived by professor) PubH 6007- Social and Behavioral Approaches to Public Health.

PUBH 6435. Global Health Program Development and Implementation. 2 Credits.

Basic concepts and principles of program development and implementation including data collection methods, decision making, and problem-solving techniques. Application of program development techniques to specific interventions. Prerequisites: PUBH 6400.

PUBH 6436. Global Health Program Management and Leadership. 2 Credits.

Essential tools for successful project, personnel, and program management. Leadership and management theory; key issues in managing global health programs and projects; leadership and management skills development; use of data in management decision making; and importance of quality, supply chain, and resource management. Restricted to MPH in the field of global health program design, monitoring, and evaluation degree candidates. Prerequisites: PUBH 6400, PUBH 6400, and PUBH 6435.

PUBH 6437. Case Study Methods for Global Health Evaluation. 2 Credits.

The specifics of case study research and evaluation methods and application of these methods to the evaluation of global health interventions and programs. The particular challenges of case study design, data collection, and data analysis, with critical assessment of the quality of case studies used in global health evaluations. Appropriate designs and methods for case study evaluation to maximize generalizability and produce findings that engage policymakers and donors. Refinement of skills in analyzing quantitative and qualitative data from a program evaluation perspective, and development of skills in interpreting, disseminating, and using the results from program evaluations. Prerequisites: PUBH 6411, PUBH 6412, PUBH 6501.

PUBH 6440. Global Health Economics and Finance. 2 Credits.

Examination of economics and finance principles as they apply to global health. Organization, delivery, and financing of health care in developing countries. Tools for analyzing issues related to global health economics and finance and application of those tools to a variety of a global health issues, including demand for health care, health care financing, social insurance, pharmaceuticals, and HIV/AIDS. Prerequisite: PUBH 6400.

PUBH 6441. Global Health Organizations and Regulations. 3 Credits.

The functions, capacities, and governance of international health organizations; the normative power of some international health organizations for regulatory processes; and evidence-based development of public health policies with attention to issues of global trade as it shapes worldwide and national health. Prerequisite: PUBH 6400.

PUBH 6442. Comparative Global Health Systems. 2 Credits.

Examination of national health systems, how they differ, and how they are performing. Health systems analyzed through four different lenses: health care organizations, health workforce development, health care financing, and health policy development. Comparison of health systems and health reforms in seven regions of the world and assessment of how health system performance might be improved. Course fee may apply. Prerequisite: PUBH 6400.

PUBH 6443. Global Health Agreements and Conventions. 2 Credits.

Explores the impact of regulations, trade and human rights on health by examining the relevant international declarations, agreements and conventions. This course will examine a variety of topics including the impact of international trade agreements on health, the International Health Regulations and other regulations affecting global health, and the relationship between health and human rights. Prerequisite: PUBH 6400.

PUBH 6480. Public Health in Complex Emergencies. 2 Credits.

Analyze security institutions, vulnerable groups, humanitarian operations and natural disasters and global security, the impact of global health threats such as HIV/AIDS, SARS, avian flu, tuberculosis and malaria on security institutions, vulnerable populations, civil/military cooperation, and humanitarian operations. Also explore the potential value of various institutions in mitigating global health threats and responding to humanitarian emergencies. Examine a range of scientific, policy, and program interventions designed to address these issues. Prerequisite: PUBH 6400.

PUBH 6481. Global Mental Health. 2 Credits.

Focus on global mental health knowledge and public health policy implementation skills regarding the integration of mental health, public health, and primary care in diverse health systems and challenging cultural contexts. Prerequisite: PubH 6400.

PUBH 6482. International Food and Nutrition Policy. 2 Credits.

Major global food and nutrition issues, their determinants, and the strategies that in place to address them. Students identify major nutrition and food challenges in a country or region as well as the policies and programs that have proven successful in addressing those challenges. Prerequisite: PUBH 6400.

PUBH 6484. Prevention and Control of Vector Borne Diseases. 2 Credits.

Study of insects and other vectors responsible for transmission of diseases in developing countries, including plague, malaria, dengue fever, onchocerciasis (river blindness), and chikungunya virus. Special focus on developing countries, particularly in the Middle East, Africa, Asia, and Latin America. Diseases such as West Nile Virus and Lyme disease in the United States and elsewhere are also addressed. New methods for effective management and control.

PUBH 6485. Prevention and Control of Water and Sanitation Diseases. 1 Credit.

Problems associated with providing adequate water and sanitation in developing countries; infectious diseases such as cholera, dysentery and typhoid. Innovative tools and solutions for improving water supply and sanitation.

PUBH 6486. Global Health Programs and Approaches to the Control of Infectious Diseases. 2 Credits.

Review strategies used for the control of infectious diseases with a focus on the situation in low and middle income countries. Review and critique the goals, strategies and challenges of major global health intervention programs designed to prevent and control infectious diseases. Course includes a historical perspective of achievements to date and the importance of surveillance systems as a core component of effective programs. Intervention strategies addressed include vaccination programs and methods for analysis of effectiveness; the use of chemotherapy as prevention and treatment tools on a population basis; the role of nutritional supplementation; environmental approaches to infectious disease control; and combined/integrated approaches that involve multiple interventions and potential benefits. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6400.

PUBH 6487. Emerging Zoonotic Diseases & Global Food Production. 1 Credit.

Analysis of trends in emerging zoonotic diseases and their links to global food production. Case studies on the use of surveillance systems and outbreak detection techniques to monitor emerging zoonotic diseases. Development of skills to analyze surveillance systems, policy reports, and literature related to emerging zoonotic diseases and food-borne outbreaks within a global context. Prerequisites: PUBH 6003.

PUBH 6488. Cost-effectiveness Analysis in Public Health and Healthcare. 2 Credits.

The application of cost-effectiveness analysis (CEA) to enhance the efficiency of programs and services both in the United States and developing countries. A variety of topics and related analytical tools such as cost benefit analysis, decision analysis, and sensitivity analysis are covered. Students learn to perform cost-benefit and cost-effectiveness analyses and understand the strengths and limitations of these methods and how to apply them to a broad range of health issues.

PUBH 6489. Evaluation of Food and Nutrition Programs and Policies. 1 Credit.

Application of evaluation approaches to existing or proposed nutrition and food programs and policies; competencies in the use of program impact theory as the foundation for evaluating such programs. Students should have a basic knowledge of the biological determinants of various nutritional statuses and some familiarity with program evaluation fundamentals. Prerequisites: PUBH 6001.

PUBH 6491. Public Health Leadership Seminar. 1 Credit.

Leadership lessons derived from the careers of a diverse group of successful executives and entrepreneurs from multiple sectors, including corporate, government, non-profit, and the arts. Development of skills for effective engagement with peers, personal network, potential employers, and business partners. Restricted to students who have faculty permission to register for course.

PUBH 6492. Global Health Programs and Approaches to the Control of Chronic Diseases. 2 Credits.

Concepts, methods, and tools to address chronic non-communicable diseases (NCDs); global public health and development dimension of NCDs, their epidemiology and risks, and health systems approaches for their control with focus on low- and middle-income countries. Prerequisites: PUBH 6002, PUBH 6003 and PUBH 6400.

PUBH 6499. Topics in Global Health. 1-3 Credits.

Examination of a particular facet of public health. Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details.

PUBH 6500. Planning and Implementing Health Promotion Programs. 3 Credits.

Students develop skills to effectively plan, design, and implement programs that address public health problems for defined populations in a variety of settings. Prerequisites: PubH 6007.

PUBH 6501. Program Evaluation. 3 Credits.

The knowledge, competencies, and skills needed to plan and implement evaluations of public health programs in a variety of settings. Types of program evaluation, including needs assessment, process evaluation, quantitative and qualitative monitoring of outputs, outcomes, and impact. Prerequisites: PUBH 6002, PUBH 6003, PUBH 6007, PUBH 6435, and PUBH 6500.

PUBH 6502. Practical Data Analysis: PCH. 1 Credit.

Practical aspects of dataset creation, data management, rudimentary statistical analysis & tabular/graphical presentation of results in the user-friendly environments of PASW (formerly SPSS) and MS Excel. Students will create codebooks, enter & clean data, derive new variables from existing ones, choose appropriate analytical techniques & implement them, graph & tabulate results, and document & protect work. Examples will be drawn from commonly-encountered situations in prevention and community health, such as needs assessments & program evaluations. Fall, Spring, Summer.

PUBH 6503. Introduction to Public Health Communication and Marketing. 3 Credits.

Communication theories and methods used in promoting health and preventing disease. Theoretical background in communication and behavior science and practical communication development methods. Prerequisite: PubH 6007.

PUBH 6504. Social and Behavioral Science Research Methods. 3 Credits.

The processes of study design, data collection, and analysis using SPSS for quantitative research in prevention and community health. All phases of the observational/survey research process considered sequentially, from formulation of research questions to preparation of the final report. Prerequisites: PubH 6002 and PubH 6007 or instructor permission.

PUBH 6510. COPC Principles and Practice. 3 Credits.

Theory and practice of community-oriented primary care, including an extended small group exercise carrying out a COPC project with a simulated community using Web-based data sets.

PUBH 6512. Comm-Oriented Primry Care Pol&Iss. 2 Credits.

Advanced work on COPC methods and policy, focusing on issues related to the provision of health care in underserved communities. Prerequisite: PubH 6510.

PUBH 6513. Community Health Management. 2 Credits.

Management and development of community health services. Builds upon principles for management and community-oriented primary care. Prerequisite: PubH 6510, 6003.

PUBH 6514. Preventing Health Disparities. 2 Credits.

Provides students with an understanding of how social, political, and economic factors contribute to disparities (e.g. racial, ethnic, gender, and geographical) in health and health care and how to use evidence-based approaches to prevent or address health disparities.

PUBH 6515. High Risk&Special Populations. 2 Credits.

Provides students with an overview of the methods to plan, implement and evaluation health promotion and education programs targeted towards high risk and special populations. The course will review the socioeconomic, political-economic, cultural and psychosocial factors of populations who are considered to be at high risk for specific health problems and efforts that have been addressed in current health promotion programs. Prerequisite: PubH 6007.

PUBH 6516. Community Health InfoResources. 2 Credits.

COPC and community health promotion require diverse information skills in order to assess community needs and strengths, determine priority health issues, analyze data, plan interventions, and evaluate programs. This course will introduce students to the information resources useful in planning and implementing COPC and community health projects that address racism. The selected resources will support methods for defining a community, characterizing a community's social and health characteristics, investigating a prioritized problem, and developing programs and solutions. Students will learn how to choose resources, search them, and consider bias in information sources.

PUBH 6530. Qualitative Methods in Health Promotion. 2 Credits.

Application of qualitative methods in the development of health promotion interventions, evaluations, and research. Collecting and analyzing qualitative data through participant observation, interviewing, group methods, and case studies. Prerequisite: PUBH 6007.

PUBH 6531. HlthPromotion/HlthCareSettings. 2 Credits.

Behavioral change counseling and training skills to improve health by changing individuals' behaviors and by developing training materials for use with providers, health professionals and high risk groups. This is an advanced course for second year students. Prerequisite: PubH 6007, 6500.

PUBH 6532. Community Org, Development & Advocacy. 3 Credits.

Educates health promotion practitioners in how to organize community groups to promote health. The focus is on learning how to use resources available in the community to advocate change. Prerequisite: PubH 6007.

PUBH 6533. Design of Community Health Surveys. 2 Credits.

This course teaches students how to frame questions in health promotion surveys using sound principles of questionnaire design with emphasis on reliability and validity. Students learn survey design principles and methods and how to analyze survey data.

PUBH 6534. Community-Based Participatory Research. 1 Credit.

Students learn how to conduct community research in collaboration with community leaders and residents. This course emphasizes the principles of CBPR for addressing health promotion issues in communities including community needs and administrative and policy changes.

PUBH 6535. Promotion of Mental Health. 2 Credits.

Increases understanding about issues in mental health promotion. The emphasis is on mental health as a public health issue and linkages between individual mental health and the environment. Prerequisite: PubH 6007.

PUBH 6536. Workplace Health Promotion. 2 Credits.

Planning, management and evaluation of programs designed to serve employees' needs, promotion of employee health and reduction of health care costs in the workplace. Prerequisite: PubH 6007.

PUBH 6537. Health Promotion & Aging. 2 Credits.

Introduces students to the basic health aspects of the aging process and special health promotion needs for this group. Problems of aging and public health solutions for older Americans will be examined. Students will be able to define the public health concerns for aging Americans, how aging is affected by a multitude of factors, identify health promotion strategies to assist in reaching out to this population and develop methods of collaboration with agencies and organizations to improve the health of the aging population. Prerequisite: PubH 6007.

PUBH 6550. Maternal & Child Health I. 3 Credits.

Public health issues affecting the health and well-being of women, children, and families. A multidisciplinary perspective that integrates the biological, demographic, epidemiological, economic, behavioral, social, cultural and environmental aspects.

PUBH 6551. Maternal & Child Health II. 3 Credits.**PUBH 6552. Women's Health. 2 Credits.**

Issues of women's health through the life cycle. The process of critically evaluating women's health research and issues.

PUBH 6553. Adolescent Health. 2 Credits.

Issues of physical, mental, and social development and their bearing on the health of adolescents, with special emphasis on prevention.

PUBH 6554. Children & Youth/Special Needs. 2 Credits.

In order to place children and youth with special needs into a public health framework, this course presents an introduction to and an overview of children and youth with special needs due to a developmental disability. Many aspects of developmental disability will be addressed including 'concept' and definitions of disability, causes, epidemiological considerations, and development of federal legislation. The scope and range of developmental disabilities will be reviewed along with classification schemes. Both national and international distributions will be considered from a sociopolitical viewpoint.

PUBH 6555. Reproductive Health: US & Global Perspectives. 2 Credits.

Reproductive health from a variety of public health perspectives, from defining reproductive health, past perspectives, needed improvements, and the factors that influence reproductive health.

PUBH 6556. Maternal & Child Nutrition. 2 Credits.

Covers the nutritional needs of women during the child bearing years, infants, children and adolescents. The course emphasizes the life course approach to nutrition and has a special emphasis on the effects of diet during infancy on obesity and degenerative diseases in later life. Students will examine the biological basis of nutrition, identify risk factors associated with poor nutrition in individuals and populations and evaluate domestic and international programs. Summer (1-credit) and Spring (2-credits).

PUBH 6557. Child Development & Public Health. 2 Credits.

Examination of the development of children from a public health perspective and provide a detailed examination of the indicators of children's health that are needed to assist public health professionals improve children's health.

PUBH 6558. Women, Gender and Health. 2 Credits.

Focuses on gender as a social determinant of health. Emphasis will be placed on examining the frameworks that are used in public health research to understand gender-based issues and how these frameworks affect the types of programs and intervention efforts developed.

PUBH 6559. HIV Prevention: Interdisciplinary Approach. 2 Credits.

Provides an interdisciplinary overview of HIV prevention research from the behavioral, biological and biomedical perspective. Students are encouraged to approach the assignments and discussions from their own particular expertise and career interests/goals.

PUBH 6560. School Health and Safety. 1,2 Credit.

Examines the history, organization, financing, and politics of school health programs. It will provide an overview of the core components of school health as defined by the Center for Disease Control and Prevention: health services, health education, physical education, nutrition services, counseling or mental health, school environmental health, health promotion, and family/community involvement. Summer (1 credit); Spring (2 credits).

PUBH 6561. Maternal&ChildHlthPolAnalysis. 2 Credits.

Provides instruction in maternal and child health policy in the U.S. with a particular emphasis on policies related to the organization, financing, delivery, and quality oversight of personal health services for mothers and children.

PUBH 6562. Physical Activity and Obesity Interventions: From the Individual to the Environment. 2 Credits.

This course will broadly examine the public health issues related to physical activity and obesity, particularly as they relate to solutions for addressing individual factors and the obesogenic environment. Students will gain a further understanding of the social, physiological, behavioral, and environmental factors related to both obesity and physical activity. The course will focus on examining multiple levels of solutions, specifically: 1) individual and behavioral interventions; 2) school-based and community-level interventions; 3) environmental interventions; 4) policy-level interventions. Students will be expected to critically evaluate the necessary components of interventions, and apply that knowledge to future programmatic efforts.

PUBH 6563. Global Child Health. 2 Credits.

Science, policy, challenges, and successes of global child health; focus on low and middle income countries and children under five years of age. Communicable diseases of childhood and relevant chronic disease pandemics such as HIV and over-nutrition. The burden of disease and associated risk factors; cost-effective interventions and tools. Restricted to graduate students.

PUBH 6570. AdvPubHlthComm: Theory & Prac. 3 Credits.

Focuses on the use of communication to positively influence people's – and population's – understanding of health information, decision-making, and health behavior. In this skills-based course students will study, and in a group project apply, a range of theories and techniques germane to effective message design and delivery. Prereq: PubH 6503.

PUBH 6571. Social Marketing: Theory and Practice. 3 Credits.

The use of marketing to change the behavior of people, populations, and policy makers in ways that are in their, and society's, best interests. Students in this skills-based course study and work in teams to apply a range of marketing strategies to a real-world situation. Prerequisites: PUBH 6503.

PUBH 6572. Marketing Research for Public Health. 3 Credits.

The use of marketing research techniques used to better understand customers of public health programs in order to improve program design, implementation, and effectiveness. A range of qualitative and quantitative techniques are studied for their relevance to program planning, development, and continuous improvement.

PUBH 6573. Media Advocacy for Public Hlth. 3 Credits.

Focuses on the use of communication to positively influence public policy and public opinion. In this skills-based course students will study and apply a range of theories and techniques germane to the policy advocacy process. Prereq: PubH 6503.

PUBH 6574. Pub Hlth Branding Theory&Pract. 2 Credits.

This course focuses on the use of branding in the public health and social sectors. Learning from the commercial sector, we will examine how to brand behaviors as well as products and services. We will review branding methods, examine research on branding and its effectiveness, and build skills in branding for public health objectives.

PUBH 6575. CommunSkills for PubHProfsnls. 1 Credit.

Helps students develop writing and oral presentation skills through intensive, interactive training, practice, and feedback. Provides participants with a solid foundation for all forms of public health and other scientific and technical written and oral communication.

PUBH 6590. Intro Social Entrepreneurship. 2 Credits.

Examine innovative organizations created to improve people's lives and contribute to improved social & economic conditions. Course emphasis on how such organizations are started, how they are sustained, and the various business models that are adopted to achieve an organizational mission.

PUBH 6591. P.A./M.P.H. Clinal Leadership Seminar. 1 Credit.

For first-year physician assistant and master of public health program students, an orientation to their roles as health professionals. Special emphasis on preventive and community medicine.

PUBH 6599. Topics in PCH. 1-3 Credits.

In-depth examination of a particular facet of prevention and community health. Topics and prerequisites vary.

PUBH 6610. Public Health Nutrition Practice and Leadership. 1 Credit.

This course provides an overview of public health nutrition practice. Students develop communication, management and leadership skills necessary for successful careers. Students will also explore potential practicum and culminating experience options, and how to use these experiences to achieve their career goals. This course is designed for first year students in the public health nutrition MPH program.

PUBH 6611. Nutrition Assessment. 2 Credits.

This course examines the anthropometric, biochemical, clinical and dietary methods for assessing nutritional status in individuals. The process of conducting a food and nutrition environment assessments will also be addressed.

PUBH 6612. Food Systems in Public Health. 2 Credits.

A systems approach to understanding food systems and associated public health issues. How the current food system evolved, and how issues such as climate change and population growth may affect food systems in the future. The role of public health practitioners in meeting the population's need for safe, sufficient, and nutritious food. Policies, programs, and proposals aimed at creating healthier, more sustainable food systems. Prerequisite: PUBH 6004.

PUBH 6613. US Food Policy and Politics. 2 Credits.

The programs, regulations and legislation that pertain to food production, food safety, nutrition assistance and dietary guidance in the United States at the federal, state and local levels.

PUBH 6699. Topics in Nutrition Sciences. 1-3 Credits.

Examination of a particular facet of nutrition sciences. Topics vary by semester. May be repeated for credit provided topic differs. See the Schedule of Classes for more details.

PUBH 6999. Master of Science in Epidemiology Thesis. 2 Credits.

Thesis research. Restricted to MS in Epidemiology candidates.

PUBH 8242. DPH Topics:ClinEpi&DecAnalysis. 1 Credit.

An evidence-based problem solving approach for doctoral level students utilizing methods taught in PubH 6242. Prerequis: PubH 6002, PubH 6003. Corequis: PubH 6242.

PUBH 8244. DPH Topics:Cancer Epidemiology. 1 Credit.

Course focuses on critical review and interpretation of cancer epidemiology literature as well as issues in research design in the field. Prerequ:PubH 6001 & PubH 6003. Corequis: PubH 6244.

PUBH 8245. DPH Topics:InfectDiseaseEpi. 1 Credit.

Provides doctoral level material on the content of infectious disease epidemiology. The course focuses on critical review and interpretation of infectious disease literature as well as issues preparing an analytic research paper on an emerging infectious disease and the application of tools used to describe the epidemiology of those diseases. Prerequ: PubH 6003. Corequis: PubH 6245. Spring.

PUBH 8250. DPH Topics: Epi of HIV/AIDS. 1 Credit.

Students select specific topic within area of HIV/AIDS epidemiology. Options include responding to a data analysis problem; responding to a methodological problem found within HIV/AIDS research; or another topic approved by instructor. Prerequ: PubH 6001 & PubH 6003. Corequis: PubH 6250.

PUBH 8259. DPH Topics:EpiSurveillanceinPH. 1 Credit.

Course provides doctoral level material on the content of surveillance offered in PubH 6259. Focus is on critical review and interpretation of surveillance literature as well as issues preparing an analytic research paper. Prerequ: PubH 6002 & PubH 6003. Corequis: PubH 6259.

PUBH 8364. Quantitative Methods. 3 Credits.

Introduces basic concepts in mathematical statistics. Topics will include probabilities (unconditional and conditional), density and distribution functions of continuous and discrete random variables, including expected values. Specific distribution functions discussed will be Binomial, Poisson, Hypergeometric, and Gaussian distributions. Additional topics include bivariable distributions, variance-covariance matrix, limiting theory, asymptotic results, and maximum likelihood estimation. Prerequisites: Math 1231, 1232 and PubH 6002, 6249.

PUBH 8365. Design of Medical Studies. 3 Credits.

Design of medical investigations, including the randomized clinical trial, observational cohort study, and the retrospective case-control study. Specific methods regarding sample size, power and precision and statistical procedures for randomization and sampling. Ethics of clinical trials and the intention-to-treat principle. Prerequisite: PubH 6002.

PUBH 8366. Biostatistical Methods. 3 Credits.

Biostatistical methods for asymptotically efficient tests and estimates of relative risks and odds ratios from prospective and retrospective matched and unmatched studies. Fixed and random effects models. Logistic regression, conditional logistic regression. Poisson regression. Maximum likelihood and efficient scores. Prerequisites: STAT 6202 or Instructor's permission.

PUBH 8401. Foundations in Public Health Leadership & Practice. 3 Credits.

Interactive seminar course provides students in the doctor of public health (DrPH) program with a fundamental understanding of the history of and current issues associated with the four principal DrPH program areas: health policy, health behavior, global health and environmental and occupational health.

PUBH 8402. Ldrshp/PublicHlthPractc&Policy. 2 Credits.

Principles of public health practice and policy with a focus on the interdisciplinary and strategic application of skills, knowledge and competencies necessary both to perform public health core functions and to enhance the capacity to perform these functions.

PUBH 8404. Advanced Topics: Health Systems and Health Policy Research. 3 Credits.

Examination and assessment of issues related to the intersection of healthcare systems and health policy, and how health policy and health services research can inform the development and evaluation of healthcare systems and health policy. Prerequisites: PUBH 6315. Restricted to doctoral candidates.

PUBH 8405. Advanced Topics: Health Economics Research. 3 Credits.

Critical financing issues for U.S. public health and health care services and systems. The role of health services research in understanding the effects of these issues and informing the deliberations and decisions of policymakers.

PUBH 8406. Advanced Topics: Health Research in the Global Arena. 3 Credits.

Alternative field methods adopted from sociology, anthropology, economics, and political sciences for social sciences and policy research. Builds data collection, instruments, measurements, indicators, and data analysis and interpretation skills in specific socio-cultural contexts. Ethical issues in international research.

PUBH 8407. Advanced Topics: Health Leadership in International Settings. 3 Credits.

Doctoral students develop the tools and experiences needed to build capacity for leadership in global health. Prerequisite: PUBH 8406.

PUBH 8408. Advanced Topics: Health Behavior Research & Practice Applications. 3 Credits.

Advanced topics relating theory to practice in areas of health education and behavioral change. Application of qualitative and quantitative research to health related behavior at individual and community levels.

PUBH 8409. Advanced Topics: Health Communication Research. 3 Credits.

Methods of communications research designed to alter health behavior. Emphasis on critical analysis of communications research aimed at the mass public, groups, and interpersonal level.

PUBH 8411. Advanced Topics - Principles of Human Health Risk Science. 3 Credits.

This course provides the doctoral student with a comprehensive orientation to the frameworks, principles and issues involved in assessing, managing and communicating environmental health risks. This fundamental, interdisciplinary course is designed to foster dialogue and insights about contemporary risk science and management issues, including ethical concerns and technical issues that influence policy making. Restricted to EOH DrPH program students only; other students by permission of instructor.

PUBH 8412. Advanced Topics - Environmental and Occupational Health Research and Practice. 3 Credits.

This course exposes students to the theory and reality of both research and practice in environmental and occupational health. There is an emphasis on the use of public health science in policy and regulatory decisions. Prerequisite: PUBH 8411 or permission of instructor.

PUBH 8413. Research Leadership. 1-10 Credits.

Students participate in a range of activities designed to develop and enhance their research methods and analytic skills. These activities include participating in the development and submission of sponsored research proposals; being formally affiliated with a research project, assuming responsibility for completing a real-world research project; engaging in empirical data collection and analysis efforts.

PUBH 8414. Policy and Management Leadership. 1-10 Credits.

Students develop and enhance their management, leadership, and policymaking skills for problem solving in real-world settings; public health departments, community health centers, legislative settings, and public or teaching hospitals.

PUBH 8415. Instructional Leadership. 1-10 Credits.

Students participate in a range of activities designed to develop and enhance their teaching skills. These activities include course development, teaching master's level courses, acting as TA for undergraduate courses, advising students about their class performance, evaluating student performance, and developing remedial programs for students.

PUBH 8416. Study Design & Evaluation Methods. 3 Credits.

Prepares doctoral students to design and conduct program and policy evaluation in public health. Intensive introduction to the principles of study program design and evaluation research emphasizing the ability to synthesize the population-based intervention literature, apply planning and management methods, describe and apply research methods from a range of disciplines, and prepare a program research proposal.

PUBH 8417. Qualitative Research Methods and Analysis. 3 Credits.

Techniques for designing and conducting qualitative research and for analyzing and reporting qualitative data relevant to program development and implementation, community assessment, and policy analysis. Prerequisite: PUBH 8416.

PUBH 8418. Applied Statistical Analysis. 3 Credits.

Intensive course in data management and data analysis using STATA®. Database management system techniques and data analytical strategies for the appropriate analysis of data sets obtained from a variety of studies will be presented. The student will manipulate national data sets from epidemiological studies as well as Demographic and Health Survey (DHS) data. Prerequisite: PUBH 8416.

PUBH 8419. Measurement/Public Health & Health Services Research. 3 Credits.

In this course students review principles of measurement and assessment as they apply to public health and health services research constructs, review existing state-of-the-art measures of individual and population health status (e.g., morbidity, mortality, functioning and health-related quality of life) and of individual and community health behavior, and explore current measurement issues in health research. Prerequisite: PUBH 8418.

PUBH 8420. Advanced Analysis & Dissemination. 3 Credits.

Advanced multivariate data analyses of complex datasets and programs, including advanced cross-sectional techniques, time-series analysis, and the use of panel data. Evaluation of results, and dissemination of findings to relevant stakeholders. Prerequisite: PUBH 8417, 8418.

PUBH 8422. Advanced Health Care and Public Health Research Design. 2 Credits.

Design of protocol suitable for implementation as part of DrPH dissertation requirement. Enrollment only after completion of required coursework and successful completion of the comprehensive examination. Instructor's approval required.

PUBH 8423. Dissertation Research. 1-12 Credits.

Dissertation Research for DrPH. Prereq: PubH 8422.

PUBH 8999. Dissertation Research. 1-12 Credits.

Dissertation research.

PUBLIC POLICY AND PUBLIC ADMINISTRATION (PPPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PPPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

PPPA 2000. Justice and the Legal System I. 3 Credits.

The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country.

PPPA 2001. Justice and the Legal System II. 3 Credits.

Continuation of PPPA 2000. The structure and function of constitutional law: the Supreme Court as an institution, how its cases are decided, and effects of its decisions on the political and social life of the country. PPPA 2000 is prerequisite to PPPA 2001, which focuses on the First Amendment.

PPPA 2117. Executive Branch Politics. 3 Credits.

Contemporary concepts and issues in public administration and management. Major trends and approaches to governmental administration in the U.S., including the changing federal role, roles of the public sector in relation to the private sector, and managing public agencies at all levels. Same as PSC 2217.

PPPA 2701. Sustainability and Environmental Policy. 3 Credits.

A survey of the intersection of the principles of sustainability and the set of public policies that affect environmental management in the United States. Consideration of the idea that environmental policy is inevitably implemented in a complex interaction of both natural and human systems. Topics applicable to most environmental policy debates, such as the the balance between costs and benefits of environmental protection. Introduction to a "toolkit" of environmental policy instruments ranging from highly prescriptive command-and-control regulations to flexible market-based policies.

PPPA 6000. Cross-Sectoral Governance in the U.S. Federal System. 1 Credit.

Introduction to the roles and responsibilities of the public, nonprofit, and for-profit sectors in the delivery of public goods and services.

PPPA 6001. Introduction to Public Service and Administration. 3 Credits.

Introduction to the discipline of public administration. The intellectual traditions and theoretical frames of reference that inform public administration as a field of professional practice and study. Current and continuing challenges and controversies.

PPPA 6002. Research Methods and Applied Statistics. 0-3 Credits.

Development of skills and knowledge for conducting original research and critically evaluating empirical studies. Various research designs and data collection techniques are examined. Focus on computerizing data sets for quantitative analysis, analyzing strength of relationships, selecting appropriate statistical techniques, and testing statistical hypotheses.

PPPA 6003. Economics for Public Decision Making. 3 Credits.

The basic tools and concepts in microeconomic analysis; how these tools can be useful in public decision making.

PPPA 6004. Managing Public Organizations. 3 Credits.

Organizational dynamics, management approaches, and workplace relationships that affect behavior in public organizations. Prerequisite: PPPA 6001.

PPPA 6005. Public Budgeting, Revenue, and Expenditure Analysis. 3 Credits.

Survey course that focuses on the institutions and analytical tools associated with raising revenue and allocating/managing resources at all levels of government. Hands-on budgeting skills and communication of analysis to decision makers. Prerequisite: PPPA 6003.

PPPA 6006. Policy Analysis. 3 Credits.

Development of skills in conducting and critiquing policy analyses. Application of methodologies used in analyzing possible consequences of specified alternatives as applied in the public policy decision-making process. Appropriate applications and limitations of policy analysis and its relationship to politics and the policy process.

PPPA 6008. M.P.A./M.P.P. Capstone. 3 Credits.

For M.P.A. and M.P.P. students who will complete their degree program at the end of the fall semester, this course substitutes for PPPA 6009 and 6119, respectively.

PPPA 6009. MPA Capstone. 3 Credits.

Review of concepts and issues; analysis and integration of ethical, political, economic, managerial, and personal values and issues in the field.

PPPA 6010. Politics & The Policy Process. 3 Credits.

The role of policy analysts in public policymaking. The impact that the political, economic, cultural, and bureaucratic context has on the policymaking process and outcomes. Political and ethical issues raised by the intricate interface of the private, not-for-profit, and public sectors in public policy formulation and implementation.

PPPA 6011. Introduction to Public Policy. 3 Credits.

Foundations of the field of public policy, emphasizing the role of policy analysts in the policymaking process. Topics include agenda setting, decisionmaking, policy implementation, program evaluation, and policy feedback.

PPPA 6013. Econometrics–Policy Research I. 3 Credits.

Multivariate research methods in policy analysis Prerequisite: PPPA 6002 . Laboratory fee.

PPPA 6014. Economics in Policy Analysis. 3 Credits.

The application of intermediate microeconomic theory to the study of public policy. Topics include models of individual choice in policy analysis, policy aspects of models of the firm, theory of market failure and welfare economics, and resource allocation decisions in the public sector. Credit cannot be earned for both PPPA 6014 and SMPP 6206. Prerequisites: PPPA 6085. Recommended background: An intermediate-level microeconomic theory course such as ECON 6217.

PPPA 6015. Benefit-Cost Analysis. 3 Credits.

The application of microeconomic theory and welfare economics to the empirical evaluation of public policies and programs. Applied welfare economics as a framework for policy analysis; empirical measures of welfare change; techniques of benefit-cost analysis. Prerequisite: PPPA 6014.

PPPA 6016. Public and Nonprofit Program Evaluation. 3 Credits.

Theory and practice of program evaluation and evaluative research. Exploration of scope and limitations of current practice in evaluation, considering economic, political, social, and administrative factors. Examination of methodological considerations for design, data collection, analysis, and dissemination. Prerequisite: PPPA 6002 .

PPPA 6018. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets, and globalization. The evolution of national, transatlantic, and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization, and industry standards.

PPPA 6019. MPP Capstone. 3 Credits.

Policy theory and typologies; policy formulation, implementation, and evaluation; ethics and practice in policy analysis, processes, content, and contexts; policy linkages to multiple disciplines. Students submit an analysis of a substantive policy primarily utilizing resources in the D.C. region.

PPPA 6024. Leadership in Complex Organizations. 3 Credits.

What the manager must know and do to provide leadership and guidance in large, complex organizations. An exploration of leadership theories and the factors and processes that condition effective leadership.

PPPA 6025. Ethics and Public Values. 3 Credits.

Ethical dimensions of personal and professional judgments of public officials. Cases are used to consider the ethos of public organizations and the moral foundations of public policy.

PPPA 6031. Governing and Managing Nonprofit Organizations. 3 Credits.

Historical, legal, and social foundations of the nonprofit sector. Developing organizational strategy and capacity; managing staff, boards, and volunteers; financial management; fund raising, marketing, public advocacy, and other external relations; partnerships and entrepreneurial activities; measuring performance; and policy issues.

PPPA 6032. Managing Fund Raising and Philanthropy. 3 Credits.

Fund-raising for nonprofit organizations and the management of relationships between donors and recipient organizations. Positioning the organization for fund raising; roles of staff and volunteers; principal techniques for identifying, cultivating, and soliciting donors; ethical principles; emerging trends; and relevant policy issues.

PPPA 6033. Non-Profit Enterprise. 3 Credits.

The use of business methods by nonprofit organizations, commercialization in the nonprofit sector, and the relationship between nonprofit and for-profit entities in pursuing social purposes. Case studies.

PPPA 6034. Managing Nonprofit Boards. 3 Credits.

Overview of the responsibilities, roles, and management of nonprofit boards. The emphasis is on governing boards, but advisory councils and boards of other types are also considered.

PPPA 6042. Managing State and Local Governments. 3 Credits.

Examination of state and local governmental structures and functions, their place within the federal system, their revenue sources, their limitations, and the alternatives available to encourage more effective administration to meet public and private demands.

PPPA 6043. Land Use Planning and Community Development. 3 Credits.

Theory and practice of land use planning. Issues of competing land uses in an era of increased sprawl, population pressure, and environmental threat. Growth management techniques and practices in states and localities; the use of various regulatory controls and economic incentives to achieve desired outcomes. The idea of “sustainable community.”

PPPA 6044. State Politics and Policy. 3 Credits.

Important concepts of state politics and government with emphasis on how those concepts affect the formulation and implementation of policy. The functions of state government and the political, economic, and legal factors that shape state public policies.

PPPA 6048. Financing State and Local Government. 3 Credits.

Analysis of the theory and practice of public finance in state and local governments. Includes the financing of services through municipal taxation, intergovernmental funds, debt instruments, and other revenue sources. Review of expenditures as well as financial management practices.

PPPA 6049. Urban and Regional Policy Analysis. 3 Credits.

Examination of selected national policies and their effects on urban areas and governments. Emphasis on policy dimensions of urban systems and their relationship to the social, political, and economic context. Against the background of urban politics and administration, areas of health, education, welfare, manpower, transportation, and housing are addressed.

PPPA 6051. Governmental Budgeting. 3 Credits.

Survey of the actors, institutions, and processes in the federal budgeting system. Executive budget preparation/execution, legislative review and approval of budget requirements, and independent audit of government spending.

PPPA 6052. Tax Policy Analysis. 3 Credits.

This course provides a guided, critical study of budgeting by the U.S. Government: its conceptual foundations, structure, processes, accounting, scoring, and results. This process is evaluated, as a system and by its component elements, using the criteria of performance with respect to its fundamental objectives; fiscal and economic stability and efficiency, including for those programs aimed at promoting equity. Because of the dominant role of the Congress in the budget process, attention is focused on the system and process created by the Congressional Budget Act of 1974.

PPPA 6053. Financial Management for Public and Nonprofit Organizations. 3 Credits.

Intensive analysis, using the case study approach, of concepts and principles used in the not-for-profit sector for financial management purposes. Disciplines of accounting, budgeting, operations control, management, and auditing are integrated into comprehensive management control systems and include issues of system design and implementation.

PPPA 6054. Issues in Federal Budgeting. 3 Credits.

Policy tools available to pursue social objectives, including grants, loans, contracting out, regulation, tax credits, and tax expenditures. Focus on criteria such as effectiveness, efficiency, equity, legitimacy, and administrative ease.

PPPA 6055. Contracting Out and Public-Private Partnerships. 3 Credits.

Contracting out and public-private partnerships as methods of delivering government goods and services. Policy and implementation issues, including when and how contracting out may provide a more efficient and effective method of delivering government goods and services.

PPPA 6056. Regulatory Comment Clinic. 3 Credits.

Survey of regulatory theories, institutions, policies, and procedures. Application of economic tools to analyze the effect of existing and proposed regulations on social welfare. Communication of analysis to decision makers and the public.

PPPA 6057. International Development Administration. 3 Credits.

An institutional and policy context for work in the international development industry. Mainstream policies, reform efforts, and alternative approaches. Major actors, selected policy areas, and regional and comparative perspectives.

PPPA 6058. International Development NGO Management. 3 Credits.

Provides an understanding of the primary implementers of international development assistance. Overview of NGO management, highlighting those features that are particular to NGOs active in international development, including NGO relations with government and donors. Recommended: PPPA 6057 or approval of instructor.

PPPA 6059. International Development Management Processes and Tools. 3 Credits.

Training in development management tools and processes; application of international development approaches specific to the development management profession. Key theories and perspectives of community development and development management. Recommended: PPPA 6057 or approval of instructor.

PPPA 6060. Policy Formulation and Administration. 3 Credits.

Impact of economic and political factors on public policy formulation and implementation; intensive analysis of the analytical, normative, and decision-making models of the policy process with special emphasis on their relationship to current policy problems.

PPPA 6061. Banking and Financial Institutions Policy. 3 Credits.

This course examines the broad range of policy issues applicable to banking and financial institutions – including those related to monetary policy, financial stability, consumer protection, and community reinvestment. This area includes a number of questions that are at the forefront of the current national policy debate about the appropriate role of government and how best to regulate financial institutions and financial markets.

PPPA 6062. Community Development Policy and Management. 3 Credits.

This course examines the policy and practice of community development, including how private sector developers and lenders work with nonprofits, foundations, and the public sector to promote sustainable affordable housing, economic development, and other community-based projects that meet both financial as well as social impact criteria. This category of finance and development is intended to help people and communities just outside the margins of conventional, mainstream finance join the economic mainstream – and to help the economic mainstream enter emerging opportunity markets. The course explores different types of community development opportunities, including affordable housing, charter school, community facility, small business lending, and nonprofit real estate projects. The course also addresses emerging trends that are likely to affect community development policymakers and practitioners, including transportation oriented development, “green” development, use of technology, comprehensive community initiatives, and new ways of raising capital for community development projects.

PPPA 6063. Policy Issues in Corporate Social Responsibility (CSR) and Impact Investing. 3 Credits.

This course examines the role of the public and nonprofit sectors in supporting corporate and investor activities that are intended to have social and environmental, in addition to financial, benefits. These activities – often referred to as “corporate Social Responsibility” (CSR) and “impact investing” – have been described as having significant potential to create social benefits in addition to being in the financial best interests of the corporation or investor. At the same time, some critics of these activities have said that they are less about producing social benefits and more about marketing private sector activities that are primarily designed to produce corporate financial gains. The course explores what is meant by these two terms, what steps the public and nonprofit sectors have taken to support the wide range of activities that these terms encompass, and what have been the results of this work both in the United States and in other countries. The course also addresses emerging trends that are likely to affect the public and nonprofit role in CSR and impact investing in the future.

PPPA 6065. Federalism and Public Policy. 3 Credits.

PPPA 6066. Environmental Policy. 3 Credits.

Current issues in environmental policy: biodiversity, land use including wilderness protection, climate change, environmental justice, economic growth, and ecological sustainability.

PPPA 6067. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as SMPP 6207.

PPPA 6072. Legislative Management and Congress. 3 Credits.

Analysis of Congress as a management system; examination of its internal administration and its role in formulating policy through legislation. Staffing practices, leadership, rules and procedures, oversight functions, and coalition building.

PPPA 6075. Law and the Public Administrator. 3 Credits.

Exploration and analysis of the functions of law in a democratic society. Emphasis is placed upon the procedural, historical, and jurisprudential dimensions of American law. This broad perspective seeks to convey understanding of the law as a legal and moral force guiding and constraining public decision making.

PPPA 6076. Federal Government Regulation of Society. 3 Credits.

Analysis of the federal regulatory process as it affects the public and private sectors. The regulatory process from legal, economic, administrative, and political perspectives.

PPPA 6077. Case Studies in Public Policy. 1-3 Credits.

Critical analysis of topical issues in public policy, using a case-study approach. Specific issues covered will vary.

PPPA 6085. Special Topics in Public Policy. 3 Credits.

Topics announced in the Schedule of Classes. May be repeated for credit, provided the topic differs.

PPPA 6097. Practicum in Public Policy and Public Administration. 0 Credits.

PPPA 6098. Independent Research. 1-12 Credits.

Prerequisite: Permission of instructor and program director.

PPPA 8022. Econometrics-Plcy Research II. 3 Credits.

Advanced topics in econometrics for policy research. This course is designed for doctoral students who wish to use econometric tools in their research. The course prerequisite is PPPA 6013 or an equivalent course in introductory econometrics; however, students should expect a greater degree of difficulty and a greater reliance on self-directed study in PPPA 8022 than PPPA 6013.

PPPA 8100. Seminar: Literature of Public Administration. 3 Credits.

Contemporary and historical literature in the institutional and intellectual development of public administration.

PPPA 8101. Research Methods. 3 Credits.

Doctoral seminar on theory and practice in research methodology. Data sources and gathering, research models and designs. Critical evaluation of research studies. Emphasis on application of research methods to policy questions.

PPPA 8105. Public Finance and Human Capital. 3 Credits.

The many facets of budgeting and finance and the research approaches used to study issues in this field.

PPPA 8111. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as SMPP 8311. Prerequisite: doctoral degree candidate status.

PPPA 8123. Seminar: The Policy Organization. 3 Credits.

Unique problems of complex organizations: public, private, and mixed. Emerging concepts and theories. Selected issues.

PPPA 8164. Seminar on Program Evaluation. 3 Credits.

Doctoral seminar on theory and practice in public and nonprofit program evaluation. The broad range of approaches undertaken, current controversies in the field, and the political and ethical context for evaluators.

PPPA 8174. Seminar: Public Management. 3 Credits.

Public organization theory and behavior. Organizational behavior, organization theory, and public management. Key traditions of inquiry in the study of public organizations. Restricted to PhD students only.

PPPA 8183. Current Topics & Research. 1 Credit.

Current scholarship discussed in a seminar setting. The conduct of research and presentation of research findings. May be repeated for credit.

PPPA 8190. Philosophical Foundations of Policy and Administrative Research. 3 Credits.

Philosophy of science as applied to research in public policy and public administration. The nature of and current problems related to epistemology, development and role of theories, and relationships among theory, methodology, and empirical data. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

PPPA 8191. Dissertation Workshop. 3 Credits.

Critical analysis of current research. Formulation of a dissertation proposal and development of dissertation research strategies. Credit for this course may be applied toward the dissertation credit requirement. Restricted to public policy and administration doctoral candidates who have taken and passed the qualifying examination and completed all required course work in a policy or public administration field.

PPPA 8197. Doctoral Seminar:Special Topic. 1-3 Credits.**PPPA 8998. Advanced Reading and Research. 1-12 Credits.**

Limited to students preparing for the Doctor of Philosophy general examination.

PPPA 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

REGULATORY AFFAIRS (RAFF)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

RAFF 6201. Introduction to Global Regulatory Affairs. 3 Credits.

Foundations of regulatory affairs, including U.S. and international legislation and regulatory processes guidelines. Roles of leaders of regulatory affairs in developing products, navigating the regulatory review and approval process, and contributing to keeping products on the market.

RAFF 6202. Regulatory Drug Biologics. 3 Credits.

Development and evaluation of the regulatory affairs strategies that support drug and biologic development. Research science, study design, master file, risk/benefit analyses, product specifications and milestone identification, IND and NDA.

RAFF 6203. Regulatory Device Diagnostics. 3 Credits.

Development and evaluation of the regulatory affairs strategies that support device and diagnostics development. Research science, study design, master file, risk/benefit analyses, product specifications and milestone identification, IDE, 510K, PMA.

RAFF 6204. Clinical Research for Regulatory Affairs. 3 Credits.

The planning and conduct of clinical trials. Topics include protocol development, study design, post-marketing surveillance, and evaluation and assessment of regulatory submissions. Strategies for achieving clinical development goals.

RAFF 6205. Regulatory Affairs Compliance. 3 Credits.

Analysis and evaluation of regulatory affairs compliance strategies and guidelines. Pre and post marketing compliance of medical products, oversight, labeling, advertising and use.

RAFF 6275. Leadership in Regulatory Affairs. 3 Credits.

Theories of leadership and change are integrated in the development of change proposals for the regulatory affairs field. The development of leadership solutions to problems in leading regulatory strategic change; integration of all field course work into implementation plans for health care system changes.

RELIGION (REL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

REL 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

REL 1001. Introduction to World Religions: West. 3 Credits.

Examination of the religions of the ancient Mediterranean and the major religions of the West. Religious foundations of Western civilizations. The development of Judaism, Christianity, and Islam and their confrontations with secularization and political upheaval in the modern world.

REL 1002. Introduction to World Religions: East. 3 Credits.

Examination of the major religions of the East and comparison with religions in the West. Approaches to the cross-cultural study of religion. Hinduism, Buddhism, and the religions of Tibet, China, and Japan are studied with respect to their history and their encounter with modernity.

REL 1003. Introduction to World Religions. 3 Credits.

Introduction to the major religions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, Confucianism, and Daoism. Examination of the central aspects of these religions including the doctrinal, ethical, ritual, experiential, and social dimensions. Exploration of similarities and differences between these religious traditions.

REL 1009. The Hebrew Scriptures. 3 Credits.

The literature, history, and religious thought represented by the Hebrew Scriptures (Old Testament). Continuities and contrasts between Israel and the ancient Near East are considered through study of the world view, oral and literary tradition, main religious ideas, and chief figures and movements of the biblical literature.

REL 1010. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 1010W. The New Testament. 3 Credits.

Literature and history of earliest Christianity in the setting of the religious movements of the Greco-Roman world and developments within Judaism. The meaning of the earliest Christian proclamation about the significance of the life, teaching, and death of Jesus of Nazareth becomes the basis for tracing the formation and expansion of the Christian movement.

REL 2165. The Gospels. 3 Credits.

Study of the four canonical gospels (traditionally those of Matthew, Mark, Luke, and John) in terms of each presenting a distinct literary portrait of Jesus of Nazareth and each being the product of a religious community that shared at least some beliefs and practices with surrounding "pagan" and Jewish communities.

REL 2169. Lost Gospels. 3 Credits.

Examination of some of the gospels not included in the Christian canon. These include, among others, Q, the Gospel of Thomas, the Gospel of Mary, and the Gospel of Judas. These lost gospels provide a fresh perspective on the development and diversity of early Christianity.

REL 2201. Judaism. 3 Credits.

A survey of Jewish thought and practice from the biblical to the modern period; introduction to the Hebrew Bible, rabbinic Judaism, Jewish philosophy and mysticism, Judaism in the modern period; an examination of the central rituals in Judaism, including Sabbath, dietary laws, and major festivals.

REL 2211. Rabbinic Thought and Literature. 3 Credits.

The thought-world of rabbinic Judaism in its formative period, 100-500 CE, through a close reading of primary texts in translation selected from Mishnah, Talmud, and Midrash. Topics include Oral Torah, the mechanics of rabbinic law, conceptions of God, views on suffering. The influence of rabbinic Judaism on modern Jewish ethics and thought.

REL 2301. Christianity. 3 Credits.

Typical themes, patterns, and points of diversity within the Christian religion; commonly shared and contested features and complex relationship with broader culture.

REL 2314. Contemporary Philosophy of Religion. 3 Credits.

The arguments of major figures in contemporary schools of thought within the philosophy of religion, including analytic, continental, deconstructionist, and process philosophy.

REL 2401. Islam. 3 Credits.

Islam as both a religion and a civilization. The basic Islamic beliefs and practices: the Qur'an, Hadith, and Islamic intellectual legacy; and the history of Islam from 632 to the present with particular attention to its encounter with the West.

REL 2501. Hinduism. 3 Credits.

Study of continuity and change in Hinduism, with emphasis on historical development and the consolidating features of the religion. Attention to relations between classical and popular living forms.

REL 2506. Religion, Myth, and Magic. 3 Credits.

Theories of religion developed by anthropologists; survey of world religions with emphasis on non-Western societies; religious processes and change. (Same as ANTH 2506).

REL 2562. Mythologies of India. 3 Credits.

The lore of Indian gods (Vedic, Puranic), heroes (epics), and holy men (Hindu, Buddhist, Jain, Tantric); ties with Indian art, caste, cult, cosmology, and spiritual ideals.

REL 2601. Buddhism. 3 Credits.

Consideration of the Buddhist tradition both thematically and historically, focusing on topics such as Buddhist doctrine, meditation, and rituals. The lived tradition in the pre-modern and modern periods.

REL 2811. Confucian Literature in East Asia. 3 Credits.

Introduction to Confucian literature in China and other parts of East Asia, from its beginnings to the present day. The various historical, philosophical, and religious dimensions of Confucian texts and practices; the role of Confucianism in the formation and development of Chinese and East Asian political systems, family systems, and gender relationships; recent intellectual debates on Confucianism in East Asia. Same as EALL 3811.

REL 2814. Religion and Philosophy in East Asia. 3 Credits.

Historical introduction to the major religious and philosophical traditions in China, Japan, and Korea, with focuses on ancestor worship, shamanistic cults, Confucianism, Buddhism, Daoism, and Shinto. The interactions of common East Asian religious and philosophical traditions how these traditions evolved over time, and the way each culture assimilates foreign elements. How the very ideas of religion and philosophy are formulated and practiced differently in East Asia from those in the Western tradition. Same as EALL 3814, REL 3814.

REL 2921. The Religions Wage Peace. 3 Credits.

Resources in various world religions that contribute to peacemaking in interpersonal relations and in domestic and international politics. Consideration of ways in which religions contribute to intolerance and violence. Case-based approach to religions as related to peace and conflict resolution.

REL 2922. Ethics and World Religions. 3 Credits.

Modern concepts of ethics and their relation to major world religions, religion as stimulus and barrier to moral change, and modern moral issues ranging from bioethics to war.

REL 2981. Women in Western Religion. 3 Credits.

Historical, theological, and ethical investigation of the image and role of women in Judaism and Christianity; special consideration of the Biblical experience, the sexual qualifications for religious office, use of male and female images and languages, and contemporary issues. Same as WSTU 3981.

REL 3141. Second Temple/Hellenistic Judaism. 3 Credits.

History of Judaism from the time of Ezra through the destruction of Jerusalem in 70 CE—canonization of the Pentateuch, Hellenism, Maccabean revolt, growth of sectarian movements, Herod, ferment against Rome in context of Eastern and Western political currents. Use of primary sources, especially the Bible, Josephus, and noncanonical writings.

REL 3149. Biblical Issues. 3 Credits.

May be repeated for credit provided the topic differs.

REL 3149W. Biblical Issues. 3 Credits.

May be repeated for credit provided the topic differs.

REL 3151. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus.

REL 3151W. The Historical Jesus. 3 Credits.

Comprehensive study of the life and teachings of Jesus with critical attention to sources. Quest for the historical Jesus.

REL 3161. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3161W. The Life and Thought of Paul. 3 Credits.

Backgrounds of early Christianity, first-century religious and social conditions affecting the spread of Christianity, the life and journeys of Paul, Paul's presentation of the Christian faith.

REL 3221. Issues in Jewish Ethics. 3 Credits.

Exploration of current debates about major ethical issues among Jewish thinkers in the Orthodox, Conservative, and Reform denominations; issues in bioethics, feminism, attitudes towards non-Jews, social action, the ethics of war.

REL 3291. Modern Jewish Thought. 3 Credits.

Jewish thought from 1800 to the present through an exploration of six preeminent Jewish theologians: Moses Mendelssohn, Hermann Cohen, Martin Buber, A.J. Heschel, J.B. Soloveitchik, and Mordecai Kaplan. The relationship between these thinkers and the major Jewish denominations: Orthodox, Conservative, Reform, and Reconstructionist.

REL 3292. Seminar: Issues in Jewish Thought. 3 Credits.

In-depth exploration of a selected thinker or issue in Jewish thought. Recommended for students with academic background in the study of religion or Judaic studies. May be repeated for credit provided the topic differs.

REL 3310. Apocalypse and Social Change. 3 Credits.

Investigation of typical ideas, patterns, and areas of social engagement associated with the genre of religious literature known as apocalypse. Why and how diverse groups within Jewish, Christian, and Muslim traditions crafted apocalypses that have shaped cultures across the globe from past to present.

REL 3321. Christian Ethics and Modern Society. 3 Credits.

Nature and principles of Christian life as developed by the Christian community; problems of personal conduct; application to various social institutions.

REL 3341. Christianity in the Ancient World. 3 Credits.

Rise and development of Christianity in relation to the culture, philosophy, mystery religions, and general religious life of the Greco-Roman world to A.D. 500.

REL 3342. Medieval Faith and Symbolism. 3 Credits.

Christian life and thought in the Middle Ages; mystics, saints, popes, and philosophers.

REL 3343. Religion in the Renaissance and Reformation. 3 Credits.

Transformation of the Western understanding of human identity and destiny from the end of the Middle Ages to the Age of Reason.

REL 3344. Christianity in the Modern World. 3 Credits.

Changes in Christian life and thought since 1700, as seen in theology, literature, political life, and religious institutions.

REL 3405. Shi'ite Islam. 3 Credits.

This course examines the emergence and development of Shi'ism as a branch of Islamic orthodoxy with particular emphasis on its doctrine, practices, theology, the law, politics, and the geographical and political context within which a distinct Shi'i identity developed.

REL 3414. Islamic Philosophy and Theology. 3 Credits.

The major schools of Islamic philosophy and theology, considered in both a morphological and historical manner. The relation between revelation and reason, determination and free will, and divine and human knowledge as well as the relation among science, philosophy, and religion. The development of various schools of thought, from the classical period to the present.

REL 3425. Islamic Political Thought. 3 Credits.

In contrast to many courses on this topic that focus on modern period, this course investigates Islamic political thought from its inception during the lifetime of the Prophet to its elaboration and expansion by philosophers, theologians and political theorists, and to its encounter with political thought coming from the Western world in modern period.

REL 3431. Sufism (Islamic Mysticism). 3 Credits.

The foundation of Sufism in the Quranic revelation, its subsequent development, and its significance within Islamic civilization. Doctrines and practices of Sufism; history of the Sufi orders; Sufi literature, particularly in Arabic and Persian. The influence of Sufism upon social and political life and its state and role in the contemporary world, both Islamic and non-Islamic.

REL 3432. Persian Sufi Literature East and West. 3 Credits.

The teachings of Sufism as reflected in the history of Persian Sufi literature. The influence of that literature on literary figures outside of the Islamic world, especially in the West, but also in India and China, from the 18th to the 20th centuries.

REL 3475. Islamic Religion and Art. 3 Credits.

Investigation of major forms of Islamic art, such as calligraphy, architecture, and urban design; Quranic chanting, poetry, and music in relation to the principles of Islamic revelation. Same as AH 4119.

REL 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. Same as WSTU 3481.

REL 3482. Gender and Piety in Islam. 3 Credits.

Issues related to gender, sainthood, and piety in Islam. Reading of classical primary texts and historical, ethnographic, and philosophical works. Focus on mysticism and metaphysics in Sufi and Shi'i traditions. Final projects are creative or research oriented.

REL 3566. Dharma in Hinduism and Buddhism. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3611. South Asian Buddhism. 3 Credits.

The life of Buddha, the Buddhist Councils, doctrines of the schools of Hinayana Buddhism, philosophies of the schools of Indian Mahayana Buddhism, history of Buddhism in Sri Lanka, early history of Tibetan Buddhism, and the decline of Buddhism in India.

REL 3614. Buddhist Philosophy. 3 Credits.

Development of working definitions of dharma as it is used in law, religion, ethics, and narrative in Buddhist and Brahmanical/Hindu texts of India's classical period.

REL 3666. The Book of Revelation and Other Apocalypses. 3 Credits.

Examination of the Book of Revelation in its original historical context. This includes investigation of the origins of apocalyptic thought within Judaism and comparison of the Book of Revelation with other apocalypses such as Daniel, 1 Enoch, and 4 Ezra.

REL 3701. Religion in the United States. 3 Credits.

Growth of religious groups and institutions in relation to American culture, development of religious thought, and analysis of the contemporary religious scene.

REL 3711. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3711W. Religion in Contemporary America. 3 Credits.

Trends and currents in American religion in the past fifty years. The nature and meaning of religious pluralism in the United States.

REL 3814W. Religion&Philosophy/East Asia. 3 Credits.

General introduction to the religions and philosophical tradition of China, Japan, and Korea. Same as EALL 3814.

REL 3831. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as EALL 3831.

REL 3831W. Daoism in East Asia. 3 Credits.

Study of the early history of the formation and development of Daoism, its growth into an institutionalized religious organization in China, and its role in the religious and philosophical history of Japan and Korea. Same as EALL 3831.

REL 3832. Myth, Ritual, and Popular Religion in China. 3 Credits.

Key aspects of popular religious myths, symbols, rituals, and practices in China, such as ancestor worship, spirit possession, fengshui theories, and pilgrimage.

REL 3841. Religion in Modern China. 3 Credits.

The changes, destructions, and reconstructions of Chinese religions from the late 19th century to the present day. The relationship between the (re)making of Chinese religions and the making of a modern Chinese nation-state. Same as CHIN 3841.

REL 3881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. Same as WSTU 3881, EALL 3881.

REL 3901. Thinking About Religion: Classic and Contemporary Approaches. 3 Credits.

Analysis of different ways in which religious phenomena can be approached. Readings and discussion of some of the epoch-making books in the development of the study of religion.

REL 3910. Perennial Philosophy. 3 Credits.

The meaning of the concept of 'perennial philosophy' as understood by various scholars of thought throughout Eastern and Western history, including its contemporary significance. Perennial philosophy as it concerns the nature of the 'divine reality,' the human state, the cosmos, the arts, and relations between religions.

REL 3915. Islam and Hinduism in South Asia. 3 Credits.

Investigation of the historical development and contemporary practice of Islam in South Asia (India, Nepal, Pakistan, Bangladesh, and Afghanistan). Particular attention to devotional traditions within Sufism and Bhakti Hinduism.

REL 3923. Violence and Peace in Judaism, Christianity, and Islam. 3 Credits.

Historical analysis of the violent and peaceful dimensions of the three Abrahamic faiths, with focus on the relationship of the scriptures of each of the three traditions to the later interpretations that supported both violent and peaceful readings of those texts.

REL 3931. Interfaith Dialogue in World Religions. 3 Credits.

Comparison of certain families of religions and the doctrinal debates in which they have engaged, including Hindu-Buddhist, inter-Hindu, inter-Buddhist, Buddhist-Confucian, Jewish-Christian, inter-Christian (Catholic-Protestant), Christian-Islamic, and inter-Islamic debates.

REL 3945. The Psychological Study of Spirituality. 3 Credits.

The complex interrelationship between psychology and spirituality: health and wellness; development of a spiritual life; psychological factors involved in spirituality; therapy and multicultural issues. Same as PSYC 3945.

REL 3951. Myth, Epic and Novel. 3 Credits.

Religious themes and images of the hero and their cultural significance in literature: e.g., Indo-European, Biblical, Babylonian narrative traditions; Greek epic and drama; Dante, Milton, Dostoevsky, Kafka, Hesse, Faulkner, Beckett.

REL 3989. The Goddess in India and Beyond. 3 Credits.

The goddess traditions of Hinduism, with some attention to goddess traditions in the ancient Near East and the Mediterranean. Classical Sanskrit, Tantric, and popular expressions of Hindu goddess worship. Comparative studies and issues of gender.

REL 3990. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3990W. Selected Topics in Religion. 3 Credits.

Critical examination of religious phenomena rendered timely by current events or special resources. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

REL 3999. Readings and Research. 2-3 Credits.

REL 4101. Senior Capstone Seminar. 3 Credits.

Required of and open to students majoring in religion.

REL 4191W. Senior Honors Thesis. 3 Credits.

REL 5701. Selected Topics. 0-4 Credits.

REL 6201. Special Topics in Religion. 3 Credits.

May be repeated for credit provided the topic differs.

REL 6401. Islamic Historiographies. 3 Credits.

Muslim historiographic traditions from the 7th to 15th centuries, including what they looked like and how they developed; the development of scholarly methods used to evaluate the source materials for these traditions in the formative and classical periods of Islam; key developments in postclassical, non-Arabic Muslim historiographic traditions in the Indian Subcontinent, Ottoman Turkey, and the Persian lands.

REL 6402. Qur'an and Hadith. 3 Credits.

The structure, major themes, and literary aspects of the twin sources of Islam. Commentaries written by Muslim scholars and their part in spreading the teachings of the sacred book of Islam. The general principle elements of Islamic theology, law, politics, ethics, philosophy, and art and architecture. The science of Hadith, its types, its relation to the Qur'an, and methods used for authentication of the sayings of the Prophet. The historical role of the Qur'an and Hadith both in classical as well as modern period with particular emphasis on its part in forming Muslim perception of society, history, and politics.

REL 6441. Islamic Law. 3 Credits.

Islamic positive law in the contemporary context. The family law of Islam (marriage, dowry, custody, guardianship and various forms of divorce); the law of inheritance and public trust (waqf) as two selected topics of Islamic private law. Examination of theories of jihad and siyar in the contemporary context of nation-state systems of international relationships. Islamic rituals ('ibadat) whose spirituality prevails the totality of the Islamic set of laws and regulations.

REL 6460. Topics in the Study of Islam. 3 Credits.

Study of sources and approaches to the investigation of Islam by both Western Islamicists and Muslim scholars, with discussion of the main controversial issues and differences in methods used by various schools of scholarship. Prerequisite: A course on Islam or permission of instructor.

REL 6461. Topics in Islamic Thought. 3 Credits.

Perennial major issues in Islamic theology, philosophy, and Sufism such as Divine Unity, prophetology, eschatology, religious knowledge, sacred law, and ethics. Prerequisite: A course on Islam or permission of instructor.

REL 6511. Currents of Modern Hinduism. 3 Credits.

Hinduism since the early seventeenth century. Colonialism, the impact of missionaries, orientalism, reform, relations between Brahmanical and popular Hinduism, Sanskrit and vernacular traditions, regionalism, communalism, nationalism, fundamentalism, politicized "syndicated" Hinduism, and secularism.

REL 6557. India's Great Epics. 3 Credits.

The Mahabharata and the Ramayana are treated in alternate offerings of the course. These founding epic texts of devotional (bhakti) Hinduism are taught in English translation. Vernacular and performative versions of the epics and Western adaptations.

REL 6771. American Religion to 1830. 3 Credits.

Religious thought and life during the Colonial and early National periods.

REL 6773. American Religion Since 1830. 3 Credits.

Religious thought and life from the Civil War to the present.

REL 6911. Myth, Ritual and Language. 3 Credits.

Method and theory in the interpretation of myth and narrative, ritual and sacrifice, and symbolism, with primary reference to the history of religions.

REL 6997. Readings and Research. 2-3 Credits.

Investigation of special problems.

REL 6998. Thesis Research. 3 Credits.

REL 6999. Thesis Research. 3 Credits.

SCHOOL OF ENGINEERING & APPLIED SCIENCE (SEAS)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SEAS 0920. Continuing Research - Masters. 1 Credit.

SEAS 0930. Examination Preparation. 0 Credits.

SEAS 0940. Continuing Research - Doctoral. 1 Credit.

SEAS 1001. Engineering Orientation. 0-1 Credits.

Introduction to careers in engineering and computer science, University resources, and computer skill development. Emphasizes teamwork skills by applying them to several design projects. (Fall).

SEAS 1800. Special Topics in Engineering. 1-3 Credits.

Experimental offerings on introductory-level topics and applications related to various disciplines in engineering. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Open both to GW undergraduate students and to high school students. (Fall, spring, and summer).

SEAS 4800. Special Topics. 1-3 Credits.

Special topics related to new technology and advances, experimental offering on new course topics and applications. Topic to be announced in the schedule of classes. May be repeated for credit provided the topic differs. Recommended background: Undergraduate student. (Fall, spring, and summer).

SEAS 6100. Innovation and Technology. 3 Credits.

Introduction to design and management of technology; Law of Diffusion of Innovation; identification of fundamental engineering design limits; Sustained vs. disruptive engineering and technology, best practices from innovators and visionaries; engineering solution at the prototype state; technology impact on society; benefits of intellectual property protections; transformative technology and assessment from a holistic and global view point; application of the lean start-up approach to real-world challenges including sustainability.

SEAS 6200. Launching Technical Ventures. 3 Credits.

Fundamentals of building an organization and the capabilities necessary to launch and nurture early-stage ventures. Lean start-up management practices, with insights and lessons learned to avoid common mistakes associated with launching new businesses. (Spring).

SEAS 6800. Special Topics. 1-3 Credits.

Experimental offering of new course topics and applications related to advances in technology. Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs. (Fall, spring, and summer).

SCHOOL OF MEDIA AND PUBLIC AFFAIRS (SMPA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SMPA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SMPA 1050. Media in a Free Society. 3 Credits.

The role of mass communication in democratic political systems: informational requirements of democracy, sources of political information and the role of news media and other channels in creating and disseminating it; issues relating to propaganda and public information; and the interaction between information flows and democratic political culture. Not open to SMPA majors.

SMPA 1225. Forensics Practice (Debate). 1 Credit.**SMPA 2101. Journalism: Theory & Practice. 3 Credits.**

An overview of theories and key issues in journalism in the United States. News and democracy, the historical and social evolution of journalism, news values, journalism as occupation/profession, technologies and changes in journalistic practices. Open only to SMPA majors.

SMPA 2102. Introduction to Political Communication. 3 Credits.

Basic concepts and theories of political communication; development of a framework for analyzing political communication; applications in the United States, other countries, and the international system. Open only to SMPA majors. Prerequisite: PSC 1002.

SMPA 2110W. Introduction to News Writing and Reporting. 0-3 Credits.

Fundamentals of news reporting and writing, with emphasis on the print media. News judgment, information gathering skills, and crafting news and feature stories. Regular in-class and outside reporting and writing exercises. Directly admitted freshmen may enroll in their second semester; all other freshmen need departmental permission. Laboratory fee.

SMPA 2111W. Advanced News Reporting. 4 Credits.

Reporting, writing, and computer skills for covering beats and developing in-depth news stories. Techniques in researching, observing, and interviewing to frame stories of public interest; outside and in-class reporting and writing assignments. Restricted to Journalism and Mass Communication majors or permission of instructor required. Prerequisite: SMPA 2110. Laboratory fee.

SMPA 2112. Digital Media I: Introduction to Video Production. 3 Credits.

Foundational introduction to digital media production. Videography and non-linear editing, with emphasis on use in journalism and political communication. Laboratory fee. Restricted to Political Communication and Journalism & Mass Communication majors only.

SMPA 2113. Digital Media II: Introduction to Web Production and Social Media. 3 Credits.

Foundational introduction to digital media production. Web content and design; photography and audio applied to the web; and using social media. Emphasis on use in journalism and political communication. Laboratory fee. Restricted to Political Communication and Journalism & Mass Communication majors only.

SMPA 2120. Public Opinion. 3 Credits.

Key aspects of the literature on public opinion, with emphasis on the role of media in opinion formation and change. Topics include the meaning of public opinion in a democratic society, a review of methods used to measure opinions, and media effects on opinion.

SMPA 2151. Research Methods. 3 Credits.

Processes of inquiry within mediated communication. The concepts of framing research questions, conducting literature reviews, developing a research design, and interpreting results of cultural and social science research within a societal framework. Prerequisites: STAT 1053 or STAT 1051 or STAT 1111 or STAT 1127.

SMPA 2152. Data Analysis for Journalism and Political Communication. 3 Credits.

Understanding, critiquing, and performing analysis of data sets with applications to journalism and political communication; using data to tell stories and answer questions. Analyzing A/B tests and field experiments; basics of visualizing data; regression. Laboratory fee. Prerequisites: STAT 1051 or STAT 1053 or STAT 1111 or STAT 1127.

SMPA 2173. Media Law. 3 Credits.

Freedom of the press. Changing laws of journalism and mass communication, including defamation, privacy, reporting access, obscenity and indecency, media ownership, intellectual property, advertising, and electronic communication.

SMPA 2177. Media History. 3 Credits.

American media from colonial times to the present, set against a backdrop of ongoing political, social, and economic developments. The development of press, radio, television, cable, satellite, and the Internet; government regulation and media relations; journalistic rights and responsibilities.

SMPA 3150. Journalism Ethics. 3 Credits.

Principles of media ethics; application to contemporary and developing issues and challenges in journalism. Prerequisites: SMPA 2111 or SMPA 2111W. Restricted to Junior standing.

SMPA 3193. Selected Topics in Journalism and Mass Communication Skills. 3-4 Credits.

Topics announced in Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3194. Selected Topics in Political Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated if the topic differs, but may only count once toward the political communication major.

SMPA 3195. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3195W. Selected Topics in Journalism and Mass Communication. 3-4 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit if the topic differs.

SMPA 3196. Independent Study. 1-3 Credits.

Students pursue a program of directed reading, research, and writing under the direction of a faculty advisor. Limited to seniors.

SMPA 3197. Internship. 1-3 Credits.

Students spend at least five hours per week per credit with an approved news organization, agency, or office under the general guidance of a faculty advisor. Guidelines are available in the SMPA office and online. May be taken P/NP only. Restricted to SMPA majors and minors in the junior and senior year. May be repeated for up to 6 credits.

SMPA 3230. Reporting in the Digital Age. 3 Credits.

Understanding the emerging tools and developing the technological skills needed to analyze data for news. Students learn to find reliable information through social media and other online tools, use spreadsheets as a reporting tool, and download data for analysis, to create graphics, and to report and write stories based on the analysis. Prerequisite: SMPA 2110. Laboratory fee.

SMPA 3232. Online Journalism Workshop. 4 Credits.

Capstone production experience for SMPA majors. Provides advanced journalism and multimedia production skills needed to produce and report for a news website. Prerequisite: SMPA 2110, SMPA 2112. Laboratory fee.

SMPA 3233. Photojournalism. 3 Credits.

Elements of effective news and feature photos, including study and evaluation of slides taken by students. Picture selection, cropping, captions. Student costs include film and developing. Laboratory fee.

SMPA 3234. Editing and Design for Print and Web. 3 Credits.

Editing, design, layout, and photo selection for newspapers, magazines, and web. Selecting and editing stories; writing headlines and photo captions; sizing and cropping graphic materials; laying out pages. Ethics of editing. Prerequisites: SMPA 2110W.

SMPA 3235W. Broadcast News Writing. 3 Credits.

Introduction to writing television news scripts based on actual events. Using workshop techniques, scripts are evaluated for content, structure, and use of words, pictures, and sound. Extensive writing and rewriting using streaming video from professional newscasts. Prerequisite: SMPA 2110.

SMPA 3236W. Broadcast News Reporting. 3 Credits.

Advanced techniques in television news reporting and editing. Students produce, shoot, and edit news packages by teaming up to report in the field. Prerequisite: SMPA 2110, SMPA 2112.

SMPA 3239. Television News Practicum. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcast. Laboratory fee. Prerequisites: SMPA 3235 and SMPA 3236.

SMPA 3240W. Washington Reporting. 3 Credits.

Examination of reporting and writing techniques employed in news coverage of the national government, with an emphasis on serving a regional readership or audience. Using Washington as a laboratory, students focus on contemporary issues and news makers in the legislative and executive branches of government. Prerequisite: SMPA 2110.

SMPA 3241W. Campaign Reporting. 3 Credits.

Development of news gathering and writing skills needed for the coverage of political campaigns. Using in-class exercises and outside assignments, students acquire reporting and writing proficiency to illuminate how campaigns work and how politics affects the lives of citizens. Prerequisite: SMPA 2110.

SMPA 3242. Investigative Reporting. 3 Credits.

Hands-on intensive training in reporting and writing in-depth enterprise news stories that expose hidden problems or wrongdoing. Prerequisite: SMPA 2110.

SMPA 3243W. Feature Writing. 3 Credits.

Learn to frame, research, and write a wide range of feature articles, including profiles, interviews and personal memoirs. Weekly writing assignments and a major final project are discussed and scrutinized in a workshop setting. Prerequisite: SMPA 2110.

SMPA 3244W. Narrative Journalism. 3 Credits.

The narrative or story-telling tradition in journalism. Students experiment with narrative techniques in a series of written exercises and a final project. Enrollment limited to 15 students with preference given to upper-class SMPA majors and graduate students. Prerequisite: SMPA 2110.

SMPA 3245W. Editorial & Persuasive Writing. 3 Credits.

Techniques of editorial and column writing; editorial page and public affairs programming; function of commentary in a free press. Prerequisite: SMPA 2110.

SMPA 3246. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Prerequisite: SMPA 2110.

SMPA 3246W. Specialized Reporting. 3 Credits.

Advanced reporting in specialized fields, such as business, science, medicine. Topics and instructors vary each semester. Prerequisite: SMPA 2110.

SMPA 3247. Documentary Production. 4 Credits.

Advanced techniques in writing, researching, producing, and editing long-form documentaries. Prerequisite: SMPA 2112 and SMPA 3479 or permission of instructor.

SMPA 3350. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 3352. Principles of Public Relations. 3 Credits.

Principles, problems, ethics, and law of public relations for government, private concerns, educational and other public institutions.

SMPA 3353. Strategic Political Communication. 3 Credits.

Origins of strategic approaches to political communication; techniques. Use of strategic communication by individuals, groups, organizations, and governments in both domestic politics and policymaking and in the international system. Prerequisite: SMPA 2102 or permission of instructor.

SMPA 3354. Political Campaign Communication. 3 Credits.

Communication aspects of political campaigns for candidates and ballot issues. Examination of techniques and channels of communication, role of communication in campaign strategy, ethics and implications of campaign decision making.

SMPA 3355. Campaign Advertising. 3 Credits.

Introduction to the theory and practice of campaign advertising. Emphasis on televised political campaign spots, but a range of campaign advertising media are included: radio, direct mail, and the Internet. Prerequisite: SMPA 2112.

SMPA 3357W. Political Speech Writing. 3 Credits.

Theory and practice of public speaking in the context of mediated political communication. Students analyze, write, and give speeches.

SMPA 3358. Strategic Practicum. 3 Credits.

Working in small groups, students research and develop full-scale plans for hypothetical, reality-based, strategic communication campaigns that test and apply theoretical advances in the field. Prerequisite: SMPA 3353.

SMPA 3428. Media, Politics, and Government. 3 Credits.

The impact of mainstream media and online outlets on politics and the governing process. Topics include the role of social media, online advertising, comedy shows, and the changing ways that voters receive information. Same as PSC 2228.

SMPA 3450. Social Media. 3 Credits.

Practical and theoretical implications of social media; what it means to be social and how social media has changed how individuals interact and do business; birth and history of social media and why certain forms of social media flourish while others fail.

SMPA 3459. Language and Politics. 3 Credits.

Connections between language and the political world. Theory and practice of language in politics and the impact on the creation and consumption of politics.

SMPA 3460. Race, Media & Politics. 3 Credits.

Examination of the place of race in American society and politics, with attention to the role of media reporting in helping to shape understanding of race and racial matters, public opinion about race, and race and electoral politics.

SMPA 3461. Campaigns and Elections. 3 Credits.

The role of the news media in campaigns and elections. Offered in even-numbered years.

SMPA 3463. Media Bias. 3 Credits.

Exploration of empirical and theoretical understanding of media bias, its effects on power, and implications for democracy.

SMPA 3469. International Communication. 3 Credits.

A survey of theoretical themes in international communication and their practical applications: information production and circulation, global media industries, and cultures.

SMPA 3470. Comparative Media Systems. 3 Credits.

In-depth study of the developmental, regulatory, political, economic, and cultural dimensions of selected foreign communication systems.

SMPA 3471. Media in the Developing World. 3 Credits.

Contemporary views of media roles in developing nations. The role of the press and electronic media in economic, social, and national development, including media as agents of modernization, development journalism, and post-colonial responses to Western "cultural imperialism." Media and Islam; role of the Internet; and theories of media and globalization.

SMPA 3472. Media and Foreign Policy. 3 Credits.

The emerging role of news media in international affairs and diplomacy. Globalization of news media advances in digital information and communication technologies and consequences for the international system and diplomacy.

SMPA 3475. Media Management. 3 Credits.

Decision making, strategic planning, and daily operations of all types of media organizations. Sales strategies, promotion, and research.

SMPA 3476. Media, Technology, and Culture. 3 Credits.

Concepts, principles, and socio-political implications of new and changing media and related technologies. Focus on intersection of new technologies and the anthropology of everyday life, in particular self-governance, policy development, cultural rupture and cohesion, the tension between national security and individual privacy rights, and First Amendment issues.

SMPA 3477. Information Technology and Politics. 3 Credits.

The effect of new information technologies on the media, public discourse, and political life; ways in which politics has shaped the development of technology.

SMPA 3479. Documentary. 3 Credits.

Origins, genres, and analysis of documentary film. Power, reach, and conceptual frameworks of documentary filmmaking.

SMPA 3480. The Future of Journalism. 3 Credits.

Reasons behind the decline of traditional newspaper and broadcast journalism; the impact of the web and other digital tools on traditional journalism values; new business models for news.

SMPA 4180. Online Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. Advanced journalism and multimedia production skills needed to produce and report for a news website. Prerequisites: SMPA 2112 and SMPA 2113 and SMPA 2111 or SMPA 2111W. Same as SMPA 3232.

SMPA 4181. Television News Workshop. 4 Credits.

Capstone production experience for SMPA majors. Students report, produce, direct, and edit GW student news broadcasts. Laboratory fee. Prerequisites: SMPA 2111 or SMPA 2111W, SMPA 2112, SMPA 2113, and SMPA 3236. Same as SMPA 3239.

SMPA 4182. Specialized Journalism Workshop. 4 Credits.

Capstone experience for journalism majors. In-depth study of advanced journalism skills or specific topic areas. Laboratory fee. Prerequisites: SMPA 2111 or SMPA 2111W, SMPA 2112, and SMPA 2113.

SMPA 4198. Special Honors Research Seminar. 3 Credits.

Open only to special honors candidates in political communication in the senior year. Prerequisite: SMPA 4199 and departmental approval.

SMPA 4199. Senior Seminar. 3 Credits.

Capstone course limited to SMPA majors.

SMPA 6201. Strategic Communications Skills. 1.5 Credit.

Specialized skills courses, such as writing for public affairs, video editing and production, political uses of social media, web development and strategy, speechwriting. Topics announced in the Schedule of Classes. May be repeated for credit, but up to a maximum of 6 credits.

SMPA 6202. Media Effects, Public Opinion, and Persuasion. 3 Credits.

Theories of media effects and persuasion. Institutional functions and individual effects of mediated communication. Impacts of different textual content and format on individual thinking and emotion; forces that shape content production.

SMPA 6203. Information, Technology, and Political Communication. 3 Credits.

Issues pertaining to the political uses of the Internet, social media, and other new media; the effect that new information technologies have on political life and the ways in which politics shape technology development.

SMPA 6204. Strategic Political Communication. 3 Credits.

Theory, techniques, and implications of strategic communication as employed by individuals, groups, organizations, and governments to advance their interests; applications to non-electoral politics and policymaking; use of political, psychological, sociological, and other processes; methodological considerations; domestic and international applications.

SMPA 6205. Media, Development, and Globalization. 3 Credits.

Theories of media and globalization. The changing role of communication media, including the Internet and other newer technologies as well as traditional books, film, newspapers, telephone, and satellite in establishing closer relationships and interdependencies among people, their cultures, and their organizations in various countries.

SMPA 6206. Advocacy Communication and Political Networks. 3 Credits.

Cross-disciplinary approaches to global changes in the nature of governance and collective action. The role of new technology, social movements, NGOs and transnational advocacy networks. Information campaigns and advocacy communication.

SMPA 6207. Political Persuasion and Public Opinion. 3 Credits.

Major theories and perspectives in public opinion and persuasion research. Information processing, psychological models applied to politics and media research (cognition, attitudes, resistance, heuristics), public opinion dynamics.

SMPA 6208. Politics and Public Relations Fundamentals. 3 Credits.

Basic knowledge of the skills to design, implement, and evaluate public relations activities. Case studies of public relations applied to politics. Techniques and tactics used by public relations professionals.

SMPA 6210. Media & Foreign Policy. 3 Credits.

The effects of U.S. media on U.S. and foreign governments, and of foreign media on the U.S.; effects of other countries' media on each other; the impact of the Internet, inexpensive global phoning, CNN, al Jazeera, and other newer technologies and networks on the stuff of international relations: diplomacy, military operations, trade negotiations.

SMPA 6220. Strategic Practicum. 3 Credits.

Design of strategy for an information and influence campaign. Research on issues and actors, identification of critical decision-making points and key constituencies, development of communication strategies more likely to achieve stated objectives of a campaign. Prerequisite: SMPA 6204. For students doing a strategic communication capstone project, this course replaces SMPA 6297.

SMPA 6230. Principles and Methods of Documentary Filmmaking. 6 Credits.

Analytical and practical exploration of the elements of documentary filmmaking. The genres of nonfiction filmmaking; fundamentals of film conceptualization, documentary screenwriting, story structure, and production theory; and basic practical elements of production. Admission by permission of instructor.

SMPA 6231. Documentary Filmmaking Practicum. 3 Credits.

Intensive practical experience in documentary film production. Students produce a 10-15-minute documentary film on a selected topic. Emphasis on major markers in film production: treatment and script writing, location shooting, Final Cut Pro editing, graphics, music, and final sound mix. Prerequisite: SMPA 6230 and permission of instructor.

SMPA 6241. Research Design. 3 Credits.

Design, applications, and limitations of quantitative research as applied to the field of media and strategic communication. Framing of research questions, identification of variables and formulation of hypotheses, measurement, sampling, data gathering techniques, and preparation of research reports. Brief exposure to qualitative research.

SMPA 6242. Analytics and Data Analysis for Strategic Communication. 3 Credits.

Familiarity with major data analytic and analysis techniques used by strategic communication practitioners. Topics covered include basic statistical analysis, multivariate regression, experiments, focus groups, and survey research. Prerequisites: an undergraduate statistics course.

SMPA 6250. Topics in Media Processes and Institutions. 3 Credits.

Topics address such issues as the history of media content, institutions, and process; impact of changing communication technology on culture; history and development of mass-produced culture; and professional ideology and practice of journalism. May be repeated for credit provided the topic differs.

SMPA 6270. Topics. 3 Credits.

Topics explore such areas as social theories of public opinion and mass media's response; and the role of mass media in constructing social perceptions of the scientific process and its relationship to cultural and material life.

SMPA 6272. Media Bias, Power, and Democracy. 3 Credits.

Consideration of the available scholarly evidence in order to develop a more sophisticated empirical and theoretical understanding of what constitutes media bias. How do we recognize and measure bias? Are there patterns in decisions about news coverage that indicate bias? Which political parties and economic interests benefit from patterns of news coverage?.

SMPA 6274. Media and War. 3 Credits.

Historic and contemporary examination of the media's role in wartime. Topics include covering war, the role of the media in generating support for foreign intervention, propaganda, effects of war coverage on public opinion, media and genocide, and public diplomacy. Ethical, philosophical and political implications of the media's role.

SMPA 6275. Public Diplomacy. 3 Credits.

The theory and practice of public diplomacy: informing, influencing, and establishing dialogue with international publics and institutions. A conceptual and historical examination of public diplomacy, current practices, and contemporary issues, including international information dissemination, educational and cultural exchange, and international broadcasting.

SMPA 6295. Internship. 3 Credits.

Students identify a suitable employer for an internship relevant to program themes and goals. Students must consult with the director of graduate studies before registering. Restricted to Permission of director of graduate studies required.

SMPA 6296. Directed Readings and Research. 3 Credits.

Independent research with SMPA faculty member. Must be approved in advance by supervising professor and director of graduate studies.

SMPA 6297. Capstone Project. 3 Credits.**SMPA 6298. Capstone Project. 3 Credits.****SMPA 6998. Thesis Research. 3 Credits.****SMPA 6999. Thesis Research. 3 Credits.**

SECURITY & SAFETY LEADERSHIP (PSSL)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

PSSL 6240. Political Violence and Terrorism. 3 Credits.**PSSL 6241. Globalization of Threats and International Security. 3 Credits.****PSSL 6242. Security and Civil Liberties. 3 Credits.****PSSL 6243. Intelligence and Strategic Analysis. 3 Credits.****PSSL 6244. Information Systems Protection. 3 Credits.****PSSL 6245. Cyber Security Law and Policy. 3 Credits.****PSSL 6246. Cyber Intelligence and Strategic Analysis. 3 Credits.****PSSL 6247. Cyber Defense Strategies. 3 Credits.****PSSL 6248. Introduction to Cyber Conflict. 3 Credits.****PSSL 6250. Strategic Planning and Budgeting. 3 Credits.****PSSL 6251. Inter-Agency Cooperation. 3 Credits.****PSSL 6252. Emergency Management and Crisis Communication. 3 Credits.****PSSL 6253. Managing the Politics of Leadership. 3 Credits.****PSSL 6254. Strategic Change Leadership. 3 Credits.****PSSL 6255. Info. Mgt. Just. & Pub. Safety. 3 Credits.****PSSL 6256. Applied Tech in Data Analytics. 3 Credits.****PSSL 6257. Enterprise Arch. & Standards. 3 Credits.****PSSL 6258. Info Sharing & Safeguarding. 3 Credits.****PSSL 6259. Strat. IT Invsmt. & Perf. Mgmt. 3 Credits.****PSSL 6260. Methods of Analysis in Security. 3 Credits.****PSSL 6270. Capstone Project. 3 Credits.**

Development of a research project integrating theoretical and analytic perspectives applied to improving organizational effectiveness in public safety agencies.

PSSL 6401. National & International Security Threats. 6 Credits.

The evolution of terrorism and politically motivated violence. Shifts in the operational tactics of guerrilla, terrorist, and insurgent groups and rogue states. Approaches to the formulation of counter-terrorist strategies. The conduct of national and international threat assessment. The various international legal and strategic options available to public safety agencies.

PSSL 6443. Intelligence and Information Systems. 6 Credits.

This course explores the principles of the structure and components of both the national intelligence community and law enforcement communities. It focuses on the analysis of intelligence policies and strategies at the international, national, and regional levels. This course will provide a general understanding of information security, recognize the different challenges, and acquire an awareness of the different cyber threats that today's organizations are exposed to.

PSSL 6448. Introduction to Cyber Conflict, Cyber Intelligence and Strategic Analysis. 6 Credits.

An exploration of cyber conflict, its history, and how it is being integrated into government and military strategies. The evolution of cyber intelligence and models for its collection and analysis. Technical, tactical, and strategic use of information technology between states and non-state actors; national and international cyber strategies, law, and policy as they relate to cyber intelligence efforts; advanced persistent threats; cyber threats to national security; strategic, operational, and tactical cyber intelligence efforts and countermeasures; and cyber weapons, actors, and methods of delivery. The current state and the future of cyber conflict as an evolving phenomenon. Restricted to Master of Professional Studies in the field of strategic cyber operations and information management students only.

PSSL 6450. Strategic IT Investment and Methods of Analysis. 6 Credits.

The effective use of information technology (IT) within public safety organizations. Integration of IT into business processes. Performance measurement, cost benefits analysis, and program evaluation. Methods and problems related to data collection in security fields, with emphasis on analytical design, instrument usage, sampling, and measurement.

PSSL 6452. Strategic Planning & Emergency Response. 6 Credits.

The adaptation of strategic planning and performance measures beyond budgeting for the requirements of government agencies that deal with long-term security issues. Basic principles of emergency planning, including development of an across-the-board response plan involving all levels of government and the private sector, Strategies for ensuring that communication channels are open and secure during a crisis situation.

PSSL 6453. Leadership and Change Management. 6 Credits.

An in-depth look at the role of power and influence in organizations. Case studies demonstrate the necessity of mobilizing the political support and resources needed to implement objectives. The challenges, techniques, burdens and successes associated with initiating and implementing organizational change from multiple theoretical vantages.

PSSL 6455. Information Management & Data Analytics. 6 Credits.

Application of information management techniques to justice and public safety fields: governance structure, emerging modes of communication within and outside organization, processes that enable managers to make decisions. Strategic application of technology to data analysis. Introduction to cutting edge software including predictive and spatial analytics. Principles of data visualization. Application of analytics and visualization in solving justice and public safety problems.

PSSL 6457. Enterprise Architecture and Information Sharing and Safeguarding. 6 Credits.

Overview of technology environments including software, hardware, networks, applications, data, communications, and other relevant architecture disciplines with a focus on service-oriented architecture and similar innovations applicable to the subject fields. Principles of privacy and safeguarding data in government owned or operated databases related to justice, public safety and homeland security.

SLAVIC LANGUAGES AND LITERATURE (SLAV)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SLAV 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SLAV 1001. First-Year Russian I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing Russian. Heritage speakers require permission to register. Laboratory fee.

SLAV 1002. First-Year Russian II. 4 Credits.

Continuation of SLAV 1001. Fundamentals of speaking, understanding, reading, and writing Russian. Prerequisite: SLAV 1001. Heritage speakers require permission to register. Laboratory fee.

SLAV 1003. Second-Year Russian I. 4 Credits.

Fundamentals of speaking, understanding, reading, and writing Russian. Prerequisite: SLAV 1002 . Laboratory fee.

SLAV 1004. Second-Year Russian II. 4 Credits.

Continuation of SLAV 1003. Fundamentals of speaking, understanding, reading, and writing Russian. Prerequisite: SLAV 1003 or placement test. Laboratory fee.

SLAV 1012. Intensive Basic Russian I. 8 Credits.

Intensive course in fundamentals of speaking, understanding, reading, and writing Russian (equivalent to SLAV 1001- SLAV 1002). Recommended for majors. Heritage speakers require permission to register. Laboratory fee.

SLAV 1013. Russian for Heritage Speakers I. 3 Credits.

Prepares heritage speakers of Russian for advanced study in Russian at the third-year level and beyond, including content courses in literature and area studies. Prerequisite: a placement test.

SLAV 1014. Russian for Heritage Speakers II. 3 Credits.

Continuation of SLAV 1013. Prepares heritage speakers of Russian for advanced study in Russian at the third-year level and beyond, including content courses in literature and area studies. Prerequisite: a placement test.

SLAV 1034. Intensive Basic Russian II. 8 Credits.

Continuation of SLAV 1012. Intensive course in fundamentals of speaking, understanding, reading, and writing Russian (equivalent to SLAV 1003–SLAV 1004). Recommended for majors. Prerequisite: SLAV 1002 or SLAV 1012. Heritage speakers require permission to register. Laboratory fee.

SLAV 1391. Introduction to Russian Literature I. 3 Credits.

Russian literature and society, 1800–1860s, concentrating on the Golden Age of Russian literature; poems and stories by Pushkin, Lermontov, Gogol, and Turgenev.

SLAV 1392. Introduction to Russian Literature II. 3 Credits.

Continuation of SLAV 1391. Russian literature and society on their way to modernity; great works of prose and drama by Dostoevsky, Tolstoy, Chekhov, and Bunin.

SLAV 2005. Intermediate Russian I. 5 Credits.

Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisite: SLAV 1004 or SLAV 1034 or permission of instructor.

SLAV 2006. Intermediate Russian I. 5 Credits.

Continuation of SLAV 2005. Practice in speaking, listening, reading, and writing at the intermediate level. Prerequisite: SLAV 1004 or SLAV 1034 or permission of instructor.

SLAV 2007. Russia Today: Topics in Advanced Russian I. 3 Credits.

Practice in speaking, listening, reading, and writing at the advanced level. Prerequisite: SLAV 2006 or permission of instructor.

SLAV 2008. Russia Today: Topics in Advanced Russian II. 3 Credits.

Continuation of SLAV 2007. Practice in speaking, listening, reading, and writing at the advanced level. Prerequisite: SLAV 2006 or permission of instructor.

SLAV 2015. Readings in the Russian Press I. 3 Credits.

Reading and analysis of current Russian periodicals. For departmental majors and graduate students with a reading-language proficiency requirement.

SLAV 2016. Readings in the Russian Press II. 3 Credits.

Continuation of SLAV 2015. Reading and analysis of current Russian periodicals. For departmental majors and graduate students with a reading-language proficiency requirement.

SLAV 2361. Russian Culture. 3 Credits.

Survey of Russian cultural heritage from its ancient origins through the early 19th century. Architecture from the medieval period through the end of the Empire style. Iconography, the influence of the Church, and effects of the West on Russian culture.

SLAV 2362. Russian Culture. 3 Credits.

Survey of Russian culture from the 19th century through the present, including intellectual movements; realism in music, art, and theatre; ballet; avant-garde painting; and effects of Soviet policies and of Perestroika.

SLAV 2365. 20th-Century Russian Literature to World War II. 3 Credits.

Russian literature and culture of the first half of the 20th century: the impact of the revolution on writers and literature; avant-garde, socialist realism, and emigre literature (Nabokov)—in English.

SLAV 2366. Russian Literature from World War II to the Present. 3 Credits.

Literature in wartime and in postwar years from Solzhenitsyn to the latest trends: the "thaws," village and urban prose, post-Soviet literature, Russian postmodernism—in English.

SLAV 2471. 19th-Century Russian Prose. 3 Credits.

Reading and discussion of selected prose texts of the 19th century from Pushkin to Chekhov—in Russian. Prerequisite: SLAV 2006 ; SLAV 1391–SLAV 1392.

SLAV 2472. 19th-Century Russian Poetry. 3 Credits.

Reading and discussion of selected poetry of the 19th century (Pushkin, Lermontov, Nekrasov, and others)—in Russian.

SLAV 2473. 20th-Century Russian Prose. 3 Credits.

Reading and discussion of selected prose of the 20th century from Bunin to Solzhenitsyn—in Russian.

SLAV 2474. 20th-Century Russian Poetry. 3 Credits.

Reading and discussion of selected poetry of the 20th century from Blok to Brodsky—in Russian. Prerequisite: SLAV 2006 ; SLAV 2365, SLAV 2366.

SLAV 2785. Introduction to Russian Cinema I. 3 Credits.

(In English; all films subtitled.) From Russian silents to the introduction of sound and color (1896–1946). The great revolutionary directors—Eisenstein, Pudovkin, Dovzhenko.

SLAV 2786. Introduction to Russian Cinema II. 3 Credits.

Continuation of SLAV 2785. (In English; all films subtitled.) From post-war to post-perestroika cinema (since 1946): war films, adventure, films about youth.

SLAV 4595. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs.

SLAV 4595W. Special Topics. 3 Credits.**SLAV 4597. Senior Honors Thesis I. 3 Credits.**

Senior honors thesis on a topic related to Russian language, literature, or culture. Required of and open only to honors candidates in the department.

SLAV 4598. Senior Honors Thesis II. 3 Credits.

Continuation of SLAV 4597. Senior honors thesis on a topic related to Russian language, literature, or culture. Required of and open only to honors candidates in the department.

SOCIOLOGY (SOC)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SOC 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SOC 1001. Introduction to Sociology. 3 Credits.

A broad overview of the "sociological imagination" as a way of understanding social issues and personal experience; sociology's place among the social sciences; basic elements of sociological perspectives.

SOC 1002. The Sociological Imagination. 3 Credits.

Using the sociological imagination students gain experience making connections between "personal trouble" and "public issues." An introduction to sociology that engages students in field-related topics such as race, gender, inequality, and education.

SOC 1003. Introduction to Criminal Justice. 3 Credits.

An introduction to the study of criminal justice. The historical development of criminal justice and its evolution into modern legal systems. The impact of different forms of criminal justice on society and the individual.

SOC 2000. Sophomore Colloquium. 3 Credits.

The Sophomore Colloquia are small seminar-style courses limited to second-year students in Columbian College. These courses engage students deeply in a discipline, focus on a narrow issue of high interest and impact, and require independent research projects of the students. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to Registration by instructor approval.

SOC 2101. Social Research Methods. 3 Credits.

Introduction to basic research methods in sociology. Topics include research design, sampling, measurement, and analysis of survey data via computer application. Prerequisites: SOC 1001 or SOC 1002.

SOC 2102. Techniques of Data Analysis. 3 Credits.

Continuation of Soc 2101. Lecture (3 hours), laboratory (1 hour). Examination of a range of topics in the statistical analysis of sociological data, with a strong emphasis on computer applications. Prerequisites: Either SOC 1001 or SOC 1002 and SOC 2101.

SOC 2103. Classical Sociological Theory. 3 Credits.

Analysis and critique of the development of Western European and North American social thought in the period of modernity. Consideration of the development of classical theoretical statements and the emergence of topics of sociological inquiry globally. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2103W. Classical Sociological Theory. 3 Credits.

Analysis and critique of the development of Western European and North American social thought in the period of modernity. Consideration of the development of classical theoretical statements and the emergence of topics of sociological inquiry globally. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2104. Contemporary Sociological Theory. 3 Credits.

A systematic evaluation of the work of selected social theorists of the post-World War II era. Emphasis on application of theoretical concepts to matters of present-day concern. Prerequisites: Either SOC 1001 or SOC 1002.

SOC 2104W. Contemporary Sociological Theory. 3 Credits.

A systematic evaluation of the work of selected social theorists of the post-World War II era. Emphasis on application of theoretical concepts to matters of present-day concern. Prerequisites: SOC 1001 or SOC 1002.

SOC 2105. Social Problems in American Society. 3 Credits.

Introduction to critical social problems (e.g., unemployment, poverty, crime, discrimination) in the United States and how they are, and have historically been, researched and understood by the academic and non-academic worlds. Concepts, theories, and methods of sociological research; examination of the field of social problems generally, emphasizing contemporary social problems. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2111. Field Research. 3 Credits.

Examination of the logic of qualitative inquiry and techniques of qualitative data collection and analysis. Various research methods are covered, with an emphasis on intensive interviewing, participant observation in field settings, and focus groups. Prerequisites: Either SOC 1001 or SOC 1002.

SOC 2112. Evaluation Research. 3 Credits.

Introduction to the evaluation of public programs designed to address the impact of social problems on individuals, households, and larger collective groups. Application of social science theory and research methods to the assessment of impact benefits and costs of such programs. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2135. Youth and Delinquency. 3 Credits.

Analysis of historical, economic, and social conditions affecting both difficulties in socializing youth and the evolution of the state's formal systems of control. Prerequisites: Either SOC 1001 or SOC 1002.

SOC 2136. Criminology. 3 Credits.

Nature and distribution of crime as related to the development and operation of criminal law and various social and legal institutions. Analysis of the historical, social, legal, and cultural conditions affecting the nature of crime, criminality, and the development of state responses made to it. Prerequisites: EITHER: (SOC 1001 or SOC 1002) AND SOC 1003.

SOC 2137. Transnational Crime. 3 Credits.

Violation of laws across national boundaries in an environment of increased globalization; causation, victimization, and control. Examination of transnational crime as a social problem rooted in global inequality and disparate levels of development, not simply as a security or crime problem. Restricted to (Soc 1001 or Soc 1002) and Soc 1003.

SOC 2139. Alternatives to Imprisonment. 3 Credits.

Examination of the use of incarceration as a prominent feature of contemporary formal social control in the United States and the efficacy of strategies to reduce reliance on prisons. Topics include historical use of imprisonment and alternatives; the recent increase in correctional control and its social, cultural, and economic costs; the impact of incarceration in reducing crime; obstacles to reforming current incarceration policies; and the effectiveness of front-end and back-end strategies to reduce reliance on imprisonment. Prerequisites: SOC 1001 or SOC 1002.

SOC 2145. Criminal Law. 3 Credits.

Introduction to the sources and fundamental principles of criminal law and procedure using major sociological perspectives as interpretive tools. Prerequisites: (SOC 1001 or SOC 1002) and SOC 1003.

SOC 2146. The Bill of Rights and Criminal Justice. 3 Credits.

Examination of the powers of law enforcement and how they relate to the rights conferred upon suspects and defendants by the U.S. Constitution.

SOC 2150. Sociology of Sports. 3 Credits.

Sport as a social institution; the role, consequences, and functions of sport in U.S. society. Relationships between sport and the institutions that impact our lives: education, mass media, economics, politics, etc. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2151. Jackie Robinson: Race, Sports, and the American Dream. 3 Credits.

How Jackie Robinson's struggles and accomplishments can help in understanding current issues in race, sport, and U.S. society. The background leading to, and the impact emanating from, Robinson's entry into major league baseball. Prerequisites: SOC 1001 or SOC 1002.

SOC 2152. Media, Class, Race, and Family. 3 Credits.

The reciprocal influences of mass media content and social structure, with particular attention to dominant media narratives. Methodologies for identifying and deconstructing media messages, marketing strategies, and entertainment themes, and how these align or conflict with social circumstances. Prerequisites: SOC 1001 or SOC 1002.

SOC 2161. Sociology of Complex Organizations. 3 Credits.

Review of sociological approaches to the study of complex organizations. Selected and comparative emphasis on bureaucratic organization in both government and private sectors. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2162. Sociology of the Family. 3 Credits.

An examination of the stages of family life: birth, childhood, premarital relationships, marriage and sex roles in marriage, retirement and old age. Special emphasis on development and maintenance of interpersonal relations. Prerequisites: COMM 1025 or SOC 1001 or SOC 1002. Same as COMM 2162.

SOC 2163. Sociology of Education. 3 Credits.

Analysis of educational systems from historical-comparative, institutional, and micro-sociological perspectives. Emphasis on educational systems in relation to the religious, cultural, economic, and political forces shaping their character; the role of formal education in modern society. Prerequisites: SOC 1001 or SOC 1002.

SOC 2164. Sociology of the Holocaust and Genocide. 3 Credits.

An interdisciplinary approach to the study of genocide from historical, anthropological, and sociological perspectives. The centrality of ideologies of power and race to acts of genocide. Genocides of the past century will be examined to deepen students' understanding of the crime and its aftermath. Prerequisites: SOC 1001 or SOC 1002.

SOC 2165. Sociology of Religion. 3 Credits.

Analysis of the relationships between religion and society. Topics include the contribution of religion to social integration, social change, and social inequality; the nature of religious experience; religious symbolism; the basis of religious communities. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2167. Sociology of Law. 3 Credits.

Law as a social phenomenon and agency of social control. Special emphasis is placed on study of judicial process and the sources of and challenges to the legitimacy of law. Prerequisites: EITHER: SOC 1001 or SOC 1002 AND: SOC 1003.

SOC 2168. Economic Sociology. 3 Credits.

Sociological approach to the study of microeconomic and macroeconomic behavior. Historical and comparative analyses informed by the literature of sociology and other social sciences. Critical review of economic policy in developing, post-communist, and advanced market societies. Prerequisites: SOC 1001 or SOC 1002.

SOC 2169. Urban Sociology. 3 Credits.

Analysis of the city from a sociological perspective. Topics include the social change and inequality associated with urban growth, neighborhood change, and suburbanization; residential segregation; the issue of whether community exists in cities; urban poverty and homelessness. Prerequisites: SOC 1001 or SOC 1002.

SOC 2170. Class and Inequality in American Society. 3 Credits.

Analysis of distribution of resources and opportunities for participation, education, and social mobility; international comparisons; analysis of public policies that affect these distributions. Prerequisites: SOC 1001 or SOC 1002. Same as SOC 2170W.

SOC 2172. Institutional Racism: Policies and Prescriptions. 3 Credits.

Institutional policies and practices in the United States that yield racially disparate outcomes. The origins of such policies and practices, potential changes, and how such changes can be achieved. Restricted to SOC 1001 or SOC 1002.

SOC 2173. Social Movements. 3 Credits.

General survey of the various forms of collective behavior (fads, panics, riots, social movements, etc.), and a more detailed study of the genesis, development, and decay of social movements and social revolutions. Prerequisites: SOC 1001 or SOC 1002.

SOC 2175. Sociology of Sex and Gender. 3 Credits.

The consideration of gender and sex as organizing principles of social relations. Analysis of the dynamics of inequality in such areas as families, the workforce, culture and mass media, politics, sexual relationships, law medicine, religion, and education. Prerequisites: SOC 1001 or SOC 1002.

SOC 2177. Sociology of the Sex Industry. 3 Credits.

Sociological examination of sex workers and businesses in the United States and other nations. Analysis of major theoretical perspectives and research on the social organization of sex work, the experiences of participants, issues of gender and sexuality, and alternative policy frameworks regarding prostitution, pornography, and commercial stripping. Prerequisite: Either SOC 1001 or SOC 1002 and either SOC 2175 or SOC 2178.

SOC 2178. Deviance and Control. 3 Credits.

Examination of deviant behavior and its control. Topics include theoretical perspectives, changing societal conceptions of deviance, deviant behavior and identity, and the dynamics of control agencies. Prerequisites: SOC 1001 or SOC 1002.

SOC 2179. Race and Minority Relations. 3 Credits.

Analysis of relationships between dominant and minority groups in society; nature and range of problems; analysis of the phenomenon of prejudice. Prerequisites: SOC 1001 or SOC 1002.

SOC 2181. Special Topics in Sociology. 3 Credits.

Topics vary by semester. May be repeated for credit provided topic differs. Consult the Schedule of Classes for more details. Prerequisite: SOC 1001 or SOC 1002.

SOC 2181W. Special Topics. 3 Credits.

Analysis and examination of various processes in society of general importance to the field of sociology, e.g., social conflict, socialization, social change. Topic changes each semester; may be repeated once for credit. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2184. Violence and the Family. 3 Credits.

Comparative approach to power and violence in family systems. Analysis of devaluation of family relations. Critical survey of explanations of violence and responses made to it. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2189. Special Topic-Criminal Justice. 3 Credits.

Analysis and examination of various processes and problems of general importance to the field of criminal justice. Topic changes each semester; may be repeated once for credit. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2189W. Special Topic-Criminal Justice. 3 Credits.

Analysis and examination of various processes and problems of general importance to the field of criminal justice. Topic changes each semester; may be repeated once for credit. Prerequisite: Either SOC 1001 or SOC 1002.

SOC 2988. Internship in Law and Society. 3 Credits.**SOC 3195. Research. 1-3 Credits.**

Independent study and special projects. Open only to selected undergraduates with promising academic records. Students must submit a written proposal of their plan of study for the approval of the member of the department who will direct the research.

SOC 4192. Advanced Seminar in Criminal Justice. 6 Credits.

Internship in a criminal justice agency; field placement in consultation with a faculty member is required before registration. Weekly seminar meetings, presentations, journal, and a paper are required.

SOC 4195. Senior Research Seminar. 3 Credits.

For sociology majors. Directed research and writing on sociological topics. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to Sociology majors only. Prerequisites: SOC 2101 or SOC 2102 and SOC 2103 or SOC 2104.

SOC 6230. Sociological Research Methods. 3 Credits.

Survey of the procedures, methods, and problems of contemporary sociological data collection, with an emphasis on survey methods. Major topics include research design, instrument construction, survey sampling, and measurement.

SOC 6231. Data Analysis. 3 Credits.

Intensive study of quantitative data analysis techniques, with strong emphasis on computer applications. Prerequisite: SOC 6230.

SOC 6232. Qualitative Methodology: Doing Field Research. 3 Credits.

Practical application of data collection methods in natural settings; observation, participant observation, and field experience. Emphasis on implementing research projects by using these methods for purposes of developing empirically grounded theory.

SOC 6238. Development of Sociological Theory. 3 Credits.

Development of sociology from the early 1800s to the 1920s. Intensive analysis of the classical theoretical statements.

SOC 6239. Contemporary Sociological Theory. 3 Credits.

Intensive examination and evaluation of contemporary schools of sociological theory in Europe and America. Advanced analysis of theoretical perspectives.

SOC 6240. Field Research in Organizational Settings. 3 Credits.

Applications of field research techniques in formal organizational settings. Examination of the logic of qualitative inquiry and techniques of qualitative data collection. Intensive interviewing and participant observation in field settings are emphasized.

SOC 6244. Sociology of Families and Kinship. 3 Credits.

A systematic introduction to recent theoretical perspectives and empirical research on family patterns. The course combines a focus on how and why societal family patterns vary and change over time with an examination of how individuals vary in their experience of life course transitions, such as marriage, childbirth, employment, divorce, and retirement.

SOC 6245. Race Relations. 3 Credits.

Systematic analysis of race relations and inequality, primarily in the United States. Topics include current status and recent trends in inequality, the institutional and organizational patterning of discrimination, the structure of racial attitudes, theoretical perspectives on race relations, and selected policy issues.

SOC 6246. Comparative Race and Ethnicity. 3 Credits.

Examination of race and ethnic relations in comparative, international perspective. Selected societies are analyzed in terms of patterns of racial and ethnic inequality, intergroup relations, institutional foundations of discrimination, social control systems, and sources of social change.

SOC 6248. Race and Urban Redevelopment. 3 Credits.

An examination of sociological forces shaping the development of metropolitan areas, racial inequality, and the intersections of urban development and race relations. Major theories of urban and metropolitan development and causes of racial inequality; major past and current public policies.

SOC 6250. Urban Sociology. 3 Credits.

Systematic analysis of urbanization and life within urban areas, primarily in the United States. Topics include theoretical perspectives on urban growth and neighborhood change, housing, the community question, neighborhood effects on individuals within the metropolis, and selected policy issues.

SOC 6252. Selected Topics. 3 Credits.

Examination of selected topics of general importance to sociology. May be repeated once for credit.

SOC 6254. Evaluation Research. 3 Credits.

Systematic survey of the conceptualization, design, and practice of evaluation research. Prerequisite: SOC 6230.

SOC 6255. Practicum in Applied Sociology. 3,6 Credits.

Supervised sociological research through an internship in a local organization (e.g., a government agency, a non-governmental organization, or a research firm). The internship must be for at least 10 hours a week. Weekly seminar; final paper. Prerequisite: completion of all methodology requirements for the M.A. degree.

SOC 6257. Criminal Law for Forensic Scientists. 3 Credits.

An overview of criminal law offenses and procedures, evidence recovery, admissibility of scientific evidence, and expert testimony. Emphasis on the interaction between the criminal process and forensic science. Instruction includes a moot court exercise. (Same as FORS 6224).

SOC 6258. Deviance and Control. 3 Credits.

Examination of major theories and research in the field of deviance and social control, with special emphasis on recent empirical advances and comparative perspectives.

SOC 6259. Criminology. 3 Credits.

The status of various criminology theories. Theories of crime causation and crime control; cross-cultural research on crime.

SOC 6260. Special Topics in Criminal Justice. 3 Credits.

Examination of selected topics in criminal justice. May be repeated once for credit if the topic differs.

SOC 6261. Sociology of Law. 3 Credits.

The development and use of law in complex societies, including the different roles of civil and criminal law. The role of the sociology of law within the discipline of sociology.

SOC 6262. Corrections. 3 Credits.

Analysis of adult and juvenile correctional systems, including probation, parole, jails, and prisons. Topics include theoretical perspectives, the impact of corrections on crime rates, and evaluations of sentencing and other reforms.

SOC 6263. Race and Crime. 3 Credits.

Examination of race, crime, and punishment in American society. Analysis of competing theoretical explanations for interracial differences in crime rates, and racial patterns in the apprehension, adjudication, and punishment of offenders.

SOC 6264. Organized Crime. 3 Credits.

The role of organized crime in the political economy of different countries, with emphasis on the development of organized crime networks in the United States.

SOC 6265. Women, Welfare & Poverty. 3 Credits.

Examination of how the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. Same as WSTU 6265.

SOC 6266. Gender & Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. Same as WSTU 6266.

SOC 6268. Race, Gender and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience. The intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. Same as WSTU 6268.

SOC 6271. Gender and Society. 3 Credits.

Examination of current empirical and theoretical work on gender as an organizing principle of social relations. Consideration of the relationship of gender to sex and sexuality. Same as WSTU 6271.

SOC 6272. Theoretical Perspective-Gender. 3 Credits.**SOC 6273. The Sex Industry. 3 Credits.**

Sociological examination of prostitution, pornography, and other forms of sex work in the United States and internationally. Topics include theoretical perspectives, structure of the sex industry, workers' experiences, gender issues, political conflicts, and policy implications.

SOC 6286. The Law of Race and Slavery. 3 Credits.

The role of legal norms and processes in developing patterns of slavery and race relations in the United States and other societies. Admission by permission of instructor. Same as HIST 6312 and LAW 6596.

SOC 6290. Principles of Demography. 3 Credits.

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290/ GEOG 6290/ STAT 6290.

SOC 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291/ GEOG 6291/ STAT 6291.

SOC 6295. Research. 1-12 Credits.

Independent study and special projects. Before permission is granted to register for Soc 6295, the student must submit a written plan of study for the approval of the staff member of the department who will be directing the research. May be repeated once for credit but to no more than a total of 6 credits.

SOC 6998. Thesis Research. 3 Credits.**SOC 6999. Thesis Research. 3 Credits.**

SPANISH (SPAN)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPAN 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SPAN 1001. Elementary Spanish I. 4 Credits.

Development of basic functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. Laboratory fee.

SPAN 1002. Elementary Spanish II. 4 Credits.

Continuation of SPAN 1001. Development of basic functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. SPAN 1001 is prerequisite to SPAN 1002. Laboratory fee.

SPAN 1003. Intermediate Spanish I. 3 Credits.

Development of intermediate functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. Prerequisite: SPAN 1002 or SPAN 1012. Laboratory fee.

SPAN 1004. Intermediate Spanish II. 3 Credits.

Continuation of SPAN 1003. Development of intermediate functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. Prerequisite: SPAN 1003. Laboratory fee.

SPAN 1012. Intensive Elementary Spanish. 6 Credits.

Development of functional and communicative proficiency in Spanish. Focus on the development of listening and speaking skills, reading and writing abilities, and intercultural competence. Introductory course, no prerequisite. Language Center Fee. Same as SPAN 1001, SPAN 1002.

SPAN 1034. Intensive Intermediate Spanish. 6 Credits.

Equivalent to Span 1003- SPAN 1004. Prerequisite: SPAN 1002 or SPAN 1012. Laboratory fee.

SPAN 2005. Advanced Spanish I. 3 Credits.

Development of advanced Spanish proficiency, with a focus on argumentative speaking and writing. Development of cross-cultural competence and analysis of historical, social, and cultural practices and perspectives of Spanish-speaking societies. Prerequisite: SPAN 1004 or SPAN 1034. Laboratory fee.

SPAN 2006. Advanced Spanish II. 3 Credits.

Continuation of SPAN 2005. Development of advanced Spanish proficiency, with a focus on argumentative speaking and writing. Development of cross-cultural competence and analysis of historical, social, and cultural practices and perspectives of Spanish-speaking societies. Prerequisite: SPAN 2005. Laboratory fee.

SPAN 2056. Intensive Advanced Spanish. 6 Credits.

Equivalent to Span 2005–SPAN 2006. Prerequisite: SPAN 1004 or SPAN 1034. Laboratory fee.

SPAN 3005. Experiencing Cuba: Past and Present. 2 Credits.**SPAN 3010W. Advanced Spanish Writing. 3 Credits.**

Designed to develop writing skills within the fields of Spanish literature and culture. Students read and discuss literary and media texts while analyzing essential features and themes of Spanish/Hispanic cultures. Cultural and literary topics are used as basis for process-writing assignments (production, correction, revision). Students develop a writing portfolio. Prerequisites: SPAN 2006 or SPAN 2056.

SPAN 3011. Spanish for Development Studies. 6 Credits.**SPAN 3015. Spanish for Heritage Speakers. 3 Credits.****SPAN 3020. Spanish for Oral Communication. 3 Credits.**

Development of effective strategies for oral communication and argumentation; expansion of vocabulary and register. Prerequisite: SPAN 2006 or SPAN 2056.

SPAN 3021. Advanced Spanish for Oral Communication–Latin America. 3 Credits.

For students enrolled in programs in Latin America. Prerequisite: SPAN 2006 or SPAN 2056.

SPAN 3022. Advanced Oral Proficiency: Environmental and Social Sustainability in Latin America. 3 Credits.

Development of advanced Spanish oral proficiency, critical content knowledge, terminology and concepts through content-based course work in the areas of environmental and social sustainability in Latin America. Critical evaluation of key environmental and social aspects of sustainability as related to Spanish-speaking countries. Focus on understanding and interpretation of language- and discipline-specific written and oral materials such as film and documentary, news, academic, literary and public media texts. Prerequisite: SPAN 2006 or above, or appropriate GWU placement score.

SPAN 3030. Business & Commercial Spanish. 3 Credits.

Structure and language of Latin American and Spanish economic institutions. Discussion of legal, financial, and administrative documents. Oral and written reports. Prerequisite: SPAN 2006.

SPAN 3035. Spanish Language and Culture: Advanced. 3 Credits.**SPAN 3040. Advanced Spanish Service–Learning. 3 Credits.**

Advanced oral and written work through community engagement, with consideration of social change and reflection on civic engagement, leadership, and service. Students work on local community service projects. Prerequisite: SPAN 2006 or SPAN 2056. Laboratory fee.

SPAN 3100. Readings in Spanish and Latin American Literature. 3 Credits.

Readings, textual analysis, and writing on a broad selection of texts from different genres and periods. Spanish and Latin American literatures in their cultural contexts. Introduction to methods of literary analysis and criticism. Prerequisite: SPAN 2006 or SPAN 2056.

SPAN 3400. Theatre of Spain and Latin America. 3 Credits.

Theatrical representation: presence and performance, body, voice, dialogue, and the unfolding of conflict. Theatrical traditions and movements may include Golden Age drama; neo-Classical and Romantic drama of the 19th century; drama of political protest; existentialist drama and the theater of the avant-gardes. Prerequisite: SPAN 3100 .

SPAN 3410. Latin American Short Fiction. 3 Credits.

Short prose narratives as agents of questioning textual meaning and subverting former literary traditions. Writers may include Arenas, Borges, Cortázar, Fuentes, García Márquez, Quiroga, Peri Rossi, Ana Lydia Vega, Zapata Olivella. Prerequisite: SPAN 3100 .

SPAN 3420. The Essayist Tradition in Latin America. 3 Credits.

Relations between state and nation in post-independence literary and political polemics of 19th-century Latin America. Topics may include the essay as a new genre for a new age; the figure of the public intellectual vis-à-vis the processes of state and nation formation; the post-colonial state and its imagined national, ethnic, racial, and economic communities. Prerequisite: SPAN 3100.

SPAN 3430. Afro-Latin America in the Diaspora. 3 Credits.

Major issues related to the diaspora of people of African descent in Latin America: racial-ethnic identity and nation, the myth of racial democracy, ties with “the motherland,” ties with other diaspora communities, emigration, the role of the arts in these questions. Prerequisite: SPAN 3100 .

SPAN 3440. Caribbean Literature and Culture. 3 Credits.

Literary and cultural trends emanating from the Spanish-speaking Caribbean, focusing on Cuba, the Dominican republic, and Puerto Rico, with some attention to the circum-Caribbean regions of Central and South America. Prerequisite: SPAN 3100 .

SPAN 3500. Medieval Spanish Literature. 3 Credits.

Reading and analysis of the major literary texts from the 11th through the 15th century. Attention paid to linguistic aspects of Old Spanish. Prerequisite: SPAN 3100 .

SPAN 3510. Golden Age Literature. 3 Credits.

Major texts of the 16th and 17th centuries. Topics may include lyric poetry and the "invention" of subjectivity; prose fiction; comedia and the relation between private and public life; humanism and the classical tradition; the invention of the press, the status of writing, and the new culture of the book; the (post)modernity of Golden Age literature. Prerequisite: SPAN 3100 .

SPAN 3520. Latin American Colonial Literature. 3 Credits.

Analysis of chronicles, essays, memoirs, epistolary exchanges, and poetry contextualized vis-à-vis the medieval and Renaissance values of Imperial Spain. Authors may include Cabeza de Vaca, Bartolomé de las Casas, Colón, Cortés, Díaz del Castillo, El Inca Garcilaso de la Vega, Sor Juana Inés de la Cruz, Rodríguez Freile, Sepúlveda. Prerequisite: SPAN 3100 .

SPAN 3530. Enlightenment Spain. 3 Credits.

Analysis of chronicles, essays, memoirs, epistolary exchanges, and poetry contextualized vis-à-vis the medieval and Renaissance values of Imperial Spain. Authors may include Cabeza de Vaca, Bartolomé de las Casas, Colón, Cortés, Díaz del Castillo, El Inca Garcilaso de la Vega, Sor Juana Inés de la Cruz, Rodríguez Freile, Sepúlveda. Prerequisite: SPAN 3100 .

SPAN 3540. Major Authors of Spain and Latin America. 3 Credits.

Close readings of the work of a major author and application of related critical and theoretical material. Authors may include J.L. Borges, G. Garcia Marquez, Clarice Lispector, M.L. Bombal, Juan Goytisolo, Juan Rulfo, Alejo Carpentier, Manuel Puig. Prerequisite: SPAN 3100 .

SPAN 3570. Latin American Women Writers. 3 Credits.

Works of well-established women writers (e.g., Sor Juana Inés de la Cruz, Gabriela Mistral, and Luisa Valenzuela) and of more recent writers (e.g., Elena Poniatowska, Diamela Eltit, Ana Lydia Vega, Cristina Peri-Rossi, and Laura Esquivel) discussed in relation to feminist principles of criticism. Prerequisite: SPAN 3100 .

SPAN 3600. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs. Prerequisite: SPAN 3100 .

SPAN 3650. Literature and Dictatorship. 3 Credits.

Study of the dynamic relationship between literature and politics during periods of intense social repression and censorship in Spain and/or Latin America. Issues raised in and by literature when discourse is controlled, censored, and repressed by military dictatorships. The role of culture in understanding traumatic historical events. Prerequisite: SPAN 3100 .

SPAN 3700. Cinema of Spain and Latin America. 3 Credits.

Film as a language of cultural and historical testimony in Spanish America and Spain. Topics may include the Silent Era, Surrealism, the Mexican Golden Age of the '40s, the New Cinema of the '50s, Peronist cinema in Argentina, socialist film in Cuba, and postmodern production. May be repeated for credit. Laboratory fee. Prerequisite: SPAN 3100 .

SPAN 4410. Contemporary Narrative in Latin America. 3 Credits.

Experimental fiction in Latin America, with focus on literature of the mid-1960s through the present. Authors may include Alejo Carpentier, Julio Cortázar, Diamela Eltit, Carlos Fuentes, Cabrera Infante, Lezama Lima, García Márquez, Octavio Paz, Ricardo Piglia, Elena Poniatowska, Mario Vargas Llosa. Prerequisite: SPAN 3100 .

SPAN 4450. Mexican Literature and Culture. 3 Credits.

Study and analysis of Mexico's most significant intellectual, historical, and cultural events from the Spanish Conquest of the Aztec empire to the present. Topics include the Spanish appropriation of the Aztec Empire, literature and cultural phenomena during the colonial period, the age of independence, the Mexican revolution, and contemporary Mexico. Prerequisite: SPAN 3100 .

SPAN 4460. Southern Cone Literature and Culture. 3 Credits.

Study and analysis of some of the most significant writers, ideas, texts, and films of Argentina, Chile, and Uruguay. Issues of tradition, identity, representation, modernity, gender and sexuality, and literature and politics as seen in historical context. Prerequisite: SPAN 3100 .

SPAN 4510. Cervantes Don Quixote. 3 Credits.

Issues raised in the text of Don Quijote: literature and life, words and deed, the fashioning of self, the structures of narrative, the limits and possibilities of representation, and the relation between appearance and reality, knowledge and understanding, fiction and truth. Cervantes' "invention" of the novel. Prerequisite: SPAN 3100 .

SPAN 4520. Topics in the Avant-garde. 3 Credits.

Study of the literary and artistic avant-gardes of Spain and Latin America in relation to the dialectic of enlightenment. Consideration of the avant-gardes as successful interpretations of modernity and as movements that anticipate, and in some instances instigate, the "post-modern" end of modernity. Prerequisite: SPAN 3100 .

SPAN 4540. The Myth of the Two Spains. 3 Credits.

Literature as an expression of the institutionalization of liberalism in 19th-century Spain and of official and popular resistance to this modernizing credo. Topics may include the romanticism of Quintana, Espronceda, Blanco-White and Becquer; the costumbrismo of Castro and Larra; the realism of Galdós; and the naturalism of Pardo Bazán and Clarín. Prerequisite: SPAN 3100 .

SPAN 4550. 1898-1998: Spain's First Century without Empire. 3 Credits.

Spain's imperial crisis and its persistence throughout the 20th century as a central theme in Spanish literary and intellectual culture. Topics may include decadence and regeneration; modern Spanish nationalism and cultural imperialism; Hispanicism and pan-nationalism; the Spanish Civil War, fascism, and liberalism; and the transition from fascism to democracy. Prerequisite: SPAN 3100.

SPAN 4560. Modern Poetry of Spain and Latin America. 3 Credits.

Poetry after modernism; forms and themes that characterize the work of authors such as Agustini, Guillén, Huidobro, Lezama, Mistral, Neruda, and Palés. Prerequisite: SPAN 3100 .

SPAN 4600. Special Topics. 3 Credits.

May be repeated for credit provided the topic differs.

SPAN 4650. Literary Translation. 3 Credits.

Combination literary translation workshop and seminar on translation theory. Study of the main issues of literary translation between Spanish and English, in both directions, as seen in different writers and genres. Translation of writings on cultural, philosophic, and political issues. Prerequisite: SPAN 3100 .

SPAN 4700. Film as Text in Latin America. 3 Credits.

The basic points of filmic analysis as related to Latin American cinema. Issues of film as a genre in its own right, the particular language of cinema, relationships between written text and film, and other interdisciplinary aspects of narrative. Prerequisite: SPAN 3100.

SPAN 4800. Independent Study. 1-4 Credits.

Admission by permission of department chair and instructor. May be repeated for credit. Prerequisite: SPAN 3100 .

SPAN 4910W. Proseminar I. 3 Credits.

Required of all majors; preparation for the major field examination. Literature in relation to the other arts and the social sciences. Textual analysis, literary criticism, theory, and methods. Prerequisite: SPAN 3100 .

SPAN 4920W. Proseminar II. 3 Credits.

Continuation of SPAN 4910. Required of all majors; preparation for the major field examination. Literature in relation to the other arts and the social sciences. The concepts of literary history and the history of Spanish and Latin American literature; periods, authors, genres, topics. Prerequisite: SPAN 3100 .

SPECIAL EDUCATION (SPED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPED 0920. Continuing Research - Masters. 1 Credit.

SPED 0940. Cont Research - Doctoral. 1 Credit.

SPED 6100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

SPED 6101. Research and Independent Study. 1-3 Credits.

Individual study or research under guidance of staff member. Admission by permission of advisor. May be repeated for credit.

SPED 6201. Introduction to Special Education. 3 Credits.

Survey course to acquaint prospective teachers with special education and to help them become aware of the various educational modifications necessary to accommodate children with special needs in a school program.

SPED 6210. Universal Design for Learning and Assessment. 3 Credits.

Overview and introduction to universal design for learning, including contemporary issues, applications of digital and assistive technologies, and tools for developing a comprehensive plan for implementation. Same as CPED 6110.

SPED 6221. Accessing Community Systems for Individuals with Disabilities. 3 Credits.

Overview of access to community systems and service delivery for individuals with special needs and their families. Material fee.

SPED 6222. Legal Issues and Public Policy for Individuals With Disabilities. 3 Credits.

Examination, interpretation, and analysis of legislation and policies affecting the education and career development of individuals with disabilities. Emphasis on federal legislation in the context of national policy reform in disability services. Material fee.

SPED 6223. Introduction to Brain Injury: Programs, Policies, and Resources. 3 Credits.

An overview of acquired brain injury and its effects; current trends in the field, related policy, research, and development of new resources.

SPED 6224. Brain Function and Impact of Brain Injury on Learning and Education. 3 Credits.

Provides an in-depth understanding of neuroanatomy related to the impact of brain injury on child and adolescent development and learning to prepare educators to participate in educational assessment and planning.

SPED 6227. Technology in Vocational Evaluation. 3 Credits.

Introduction to an array of assistive technology services and products facilitating professional interventions and vocational evaluation procedures; application to the assessment of persons with disabilities. Material fee.

SPED 6228. Community-Based Assessment and Work Sample Development. 3 Credits.

Introduction to community-based vocational appraisal methods; development of job training analysis skills, labor market surveys, work samples; requirements of The Americans with Disabilities Act; incorporation of assistive technology; classroom theory and field work. Material fee.

SPED 6229. Interpretation and Application of Academic and Vocational Assessment Information. 3 Credits.

Specific strategies and techniques to analyze, interpret, and synthesize assessment information for the development of comprehensive academic/vocational profiles for adolescents and adults with disabilities. Observation and recording procedures, report development, and postassessment conferencing are emphasized. Material fee.

SPED 6230. Vocational Assessment of Individuals with Disabilities. 3-6 Credits.

Investigation of vocational appraisal processes and techniques for individuals with disabilities. Includes assessment for transition using field-based assignments. Three credits of practicum experience for students specializing in vocational evaluation. Material fee. Same as CNSL 6130.

SPED 6231. Instructional Methods in Secondary Special Education and Transition. 3 Credits.

Techniques and processes used in programming for the needs of individuals with disabilities as they prepare for transition to postsecondary programs and employment. Emphasis on skills related to professional liaison and support roles in the design of instructional arrangements and cooperative training. Material fee.

SPED 6232. Foundations in Special Education, Career Development, and Transition. 3 Credits.

Overview of historical, theoretical, and philosophical foundations of career development and transition. Explores directions for career development/transition practices in the context of educational reform and social and political change. Material fee.

SPED 6233. Curriculum in Secondary Special Education and Transition. 3 Credits.

Theory and practice in planning, implementing, and evaluating curriculum for individuals with disabilities. Emphasis on techniques for modifying curriculum and materials for individualized programming. Requires field-site curriculum implementation. Material fee.

SPED 6234. Seminar in Advanced Writing and Professional Presentation. 3-6 Credits.

Analysis and development of advanced professional writing skills, including literature synthesis, persuasive writing, and proposal writing. Material fee.

SPED 6235. Employment Models for Individuals with Disabilities. 3 Credits.

Rationale, occupational resources, and programming strategies for job placement and the development and coordination of employment programs for individuals with disabilities. Material fee.

SPED 6236. Introduction to Career and Career-Technical Education and Transition Services. 3-6 Credits.

Introduction to programs and services that provide career development and transition planning for individuals with disabilities. Material fee.

SPED 6237. Learning Strategies, Assessment, and Instruction for Individuals with Learning Disabilities. 3-6 Credits.

Theory and practice in evidence-based reading interventions. Learning strategies; content enhancement focused on literacy and self-determination. Material fee.

SPED 6238. Issues in Educating Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

Introduction to the academic, cognitive, social, and emotional characteristics of individuals with learning disabilities; etiological theories; educational service delivery models, with particular emphasis on the adolescent with learning disabilities. Policy issues, continuum of services, and the transition from school to post-school environments. Material fee.

SPED 6239. Collaboration for Professionals Working with Students with Disabilities. 3 Credits.

Exploration of attitudes and beliefs about team teaching, collaboration and inclusionary environments. Development of knowledge and skills related to collaborative consultation and team teaching; interpersonal communication; the dynamics of collaborative teams; examination of the variety of environments in which special educators work. Material fee.

SPED 6240. Family Support and Guidance in Special Education. 3 Credits.

The developmental process of parenting and how that process is affected by having a child with developmental delay or disability. Family systems theory, stress and coping mechanisms, and communication and support strategies. Material fee.

SPED 6242. Neurodevelopmental Assessment and Programming for Infants and Toddlers with Disabilities. 3 Credits.

Application of the neurodevelopmental model to techniques for developing and implementing educational programs for infants and toddlers with disabilities. Prerequisite or concurrent registration: SPED 6263 or SPED 6268 or permission of instructor. Material fee.

SPED 6243. Developmental Assessment of Infants. 3 Credits.

Theory and current practice in the assessment of infants with or at risk for developmental disabilities. Material fee.

SPED 6244. Ethical Considerations in Neonatal and Infant Intervention. 3 Credits.

Overview of the major ethical issues involved in neonatal and infant intervention. The impact of recent and emerging technological innovations considered from medical, legal, ethical, and psychosocial perspectives. Material fee.

SPED 6245. Developmental Implications of Prematurity and Risk. 3 Credits.

Causes of prematurity. Conditions that place children at developmental and educational risk.

SPED 6253. Introduction to Autism Spectrum Disorders. 3 Credits.

Overview of autism spectrum disorders with a focus on etiology, characteristics, and evidence-based practices. Topics include defining, assessing, accommodating, and instructing students with autism spectrum disorders.

SPED 6254. Autism Spectrum Disorders and Transition to Employment and Post-Secondary Life. 3 Credits.

The policies, principles, models, and processes involved in job development, job accommodations and modifications, and employment and post-secondary placement services for individuals with autism and related disabilities. Legislation is reviewed in terms of its impact on placement of persons with autism who will transition into the workplace and/or post-secondary education.

SPED 6255. Collaboration with Systems and Families. 3 Credits.

Overview of models and strategies for coordinating services across disciplines and among school and community agencies for special populations. Emphasis on interdisciplinary team coordination, communication, decision making, planning, and follow-up for individuals with disabilities. Material fee.

SPED 6260. Developmental Assessment in Special Education. 3 Credits.

Examination of formal psychoeducational tests used with preschool and elementary-school-aged children. Development of formal and informal assessment techniques. Introduction to the skills necessary to write psychoeducational reports. Material fee.

SPED 6261. Practicum: Methods and Materials for Young Children with Disabilities. 3,6 Credits.

Implementation of educational strategies and materials, including designing and developing teaching materials, classroom teaching, feedback and evaluation with professor. A seminar accompanies this clinical experience.

SPED 6262. Formal Assessment of Young Children with Disabilities. 3 Credits.

Weekly seminar designed to prepare early childhood special educators to translate formal assessment data into instructional programming. Requires fieldwork with children. Material fee. Prerequisite: SPED 6260 .

SPED 6263. Development of the Infant with Special Needs. 3 Credits.

The processes of normal infant development and interrelationships among areas of development; relationship of these processes to the growth and development of infants with or at risk for developmental disabilities. Material fee.

SPED 6264. Medical and Genetic Conditions of Infants and Children with Developmental Disabilities. 3 Credits.

Introduction to medical and genetic conditions that affect the cognitive, language, and social development of infants and children with developmental disabilities.

SPED 6266. The Development of Language and Literacy. 3 Credits.

Within the context of typical and atypical development, the impact of various disabilities on language and literacy development. Material fee.

SPED 6267. Instructional and Assistive Technology in Early Childhood Special Education. 2,3 Credits.

Instructional strategies and assistive technology and their implications and uses for young children (0-5 yrs) in a wide variety of environments. Lectures, laboratory, and demonstrations. Material fee.

SPED 6268. Development of Children and Youth with Disabilities. 3 Credits.

Theories of human growth and development are considered as a framework for examination of typical and atypical development of children and youth. Material fee.

SPED 6269. Etiology, Symptomatology, and Approaches to Intervention with Children with Disabilities. 3 Credits.

An in-depth examination of the causes and characteristics of various disabilities. Current principles and approaches to intervention are examined. Material fee.

SPED 6272. Strategies for Inclusion: Addressing the Needs of Diverse Learners. 3 Credits.

Strategies by which teachers can more effectively assume the responsibility to serve all children in an inclusionary setting, including those who are second language learners and students with disabilities. Same as CPED 6172. Material fee.

SPED 6273. Impact of Culture on Education. 3 Credits.

The impact of culture and ethnicity on educational experiences. The relationship between school culture in the United States, one's own culture(s), and the cultures of diverse populations existing within our schools. Values, norms, rules, ethics, beliefs, attitudes, expectations, and assumptions of various cultures. Material fee.

SPED 6274. In-Service Planning/Programmng. 3 Credits.

SPED 6275. The Culturally and Linguistically Diverse Student with Disabilities: Policy, Research, and Trends. 3 Credits.

Educational service delivery for the culturally and linguistically diverse student. National, state, and local policies; current research in bilingual education, special education, and bilingual special education. Same as CPED 6175. Material fee.

SPED 6276. Academic and Psychosocial Assessment of the Culturally and Linguistically Diverse Student. 3 Credits.

Issues in academic and psychosocial assessment of second language learners. The impact of second language acquisition and culture on the assessment process; differentiation between language difference and disability; IEP development; the use of interpreters and translators; the involvement of family and communities; standardized and alternative assessments; and legislative mandates. Same as CPED 6176. Material fee.

SPED 6277. Teaching Culturally and Linguistically Diverse Students with Disabilities. 3 Credits.

Methods and materials for teaching students with disabilities who are English language learners. Classroom management, instructional and assessment strategies, materials and curricula, and collaborating with families and communities to meet the cultural, linguistic, academic, social, and emotional needs of students in various settings. Material fee.

SPED 6280. Developmental Assessment of Adolescents. 3 Credits.

Formal and informal psychoeducational assessment; assessment instruments commonly used with upper-elementary, junior, and senior high school students; the writing of psychoeducational reports. Material fee.

SPED 6283. The Urban Impact on Children and Youth with Disabilities. 3 Credits.

Effects of the total environment in which inner-city children live on their ability to learn and their cognitive, social-behavioral, and physical/health development. Material fee.

SPED 6288. Characteristics of Individuals with Learning, Emotional, and Intellectual Disabilities. 3 Credits.

An in-depth examination of typical and atypical growth and development, psychiatric diagnosis and psychosocial development issues, and general and specific characteristics of the student with serious emotional disabilities. May be repeated for credit. Material fee.

SPED 6290. Affective Development and Behavior Management in Special Education. 3 Credits.

Theory, programming, and behavior management strategies from theoretical and practical points of view. Material fee.

SPED 6299. Federal Education Policy Institute. 3 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6990. Internship in Teaching Children with Emotional and Behavioral Disabilities: Assistant Teacher. 3-6 Credits.

The federal role in education policymaking in the context of national, state, and local efforts to create school environments for effective learning and the promotion of social and emotional health in children and youth. Same as CPED 6199.

SPED 6991. Internship in Teaching Children with Emotional and Behavioral Disabilities: Co-Teacher. 3-6 Credits.

Continuation of SPED 6990. Graduate students become the primary teaching team in the classroom with ongoing supervision. Graduate students plan and apply psychoeducational teaching strategies with children with emotional and behavioral disabilities. Refinement of instructional and behavior management strategies. Weekly seminar continues. Material fee.

SPED 6992. Behavior Management Practicum: Adolescents with Disabilities. 3 Credits.

Field-based examination of theory of behavior development and techniques for classroom management. Material fee.

SPED 6993. Internship: Teaching Young Children with Disabilities. 3,6 Credits.

Supervised internship in early childhood special education. Weekly seminar. Material fee.

SPED 6994. Internship: Early Intervention. 3-6 Credits.

Supervised internship in early intervention. Weekly seminar. Material fee.

SPED 6995. School- and Community-Based Internship in Special Education and Transition. 1-9 Credits.

A 50- to 450-hour supervised internship in school- and community-based settings involved in career, vocational, and transition services.

SPED 6996. Teaching Internship in Transition Special Education. 3-6 Credits.

Supervised teaching internship; seminar required. Permission by instructor. Material fee.

SPED 6997. Internship in Teaching Culturally and Linguistically Diverse Students with Disabilities. 3-6 Credits.

Supervised internship and weekly seminar. A full-time, field-based teaching experience working with students with disabilities who are English language learners. Writing an appropriate IEP, interacting with families and communities, and planning and implementing instructional approaches and strategies. Material fee.

SPED 8100. Selected Topics. 1-12 Credits.

Topics and fees announced in the Schedule of Classes.

SPED 8101. Research and Independent Study. 1-3 Credits.

Individual research under guidance of a staff member. Program and conferences arranged with program advisor.

SPED 8301. Research Seminar in Special Education. 1-12 Credits.

Participation in a small group with a selected faculty member; research on and discussion of an area of common interest. Admission by permission of instructor.

SPED 8303. Administration and Supervision of Special Education. 3 Credits.

Philosophy and nature of special education; program organization, administration, and development. Surveying local needs; program evaluation and supervision. Admission by permission of instructor. Material fee.

SPED 8304. Research and Trends in Special Education. 3 Credits.

Emphasis on topical research issues, problems of conducting research, and research syntheses. Material fee.

SPED 8305. Foundations of Neuroscience in Special Education. 3 Credits.

Develops understanding of the neurological bases of sensation and perception, object recognition, control of motor action, learning and memory, emotion and language, attention, consciousness and cognitive control, and social cognition.

SPED 8306. Advanced Study in Development Science and Variance I: The Early Years. 3 Credits.

Consideration of cognitive neuroscience research on developmental issues of infancy and early years; assessment, identification, and related prevention and intervention. Prerequisite: SPED 8305.

SPED 8308. Preparation for the Professoriate in Special Education. 3 Credits.

Philosophical, ethical, and methodological aspects of personnel preparation in university and field-based programs; opportunities for practice in pedagogical design and delivery. Material fee.

SPED 8310. Advanced Study in Development Science and Variance II: The Later Years. 3 Credits.

Consideration of cognitive neuroscience research on adolescent development, including executive functioning, self-regulation, atypicality in learning, social and emotional behavior, motivation, and attention. Prerequisite: SPED 8306.

SPED 8311. Proseminar in Special Education: The Interdisciplinary Foundations. 3 Credits.

A theoretical and research-based course that introduces students to strategies by which data from cognitive neuroscience research can be applied to conceptualizing research in special education. A doctoral student forum addresses interdisciplinary research knowledge. Prerequisite: SPED 8310.

SPED 8343. Psychoeducational Diagnosis in Special Education. 3 Credits.

The range of diagnostic and intervention strategies applicable to the student who presents psychosocial and related learning difficulties. Admission by permission of instructor. Material fee.

SPED 8345. Consultation and the Change Process. 3 Credits.

Consultation models from organizational development, organizational psychology, and mental health applied to professional practice in education and special education. Material fee.

SPED 8352. Disability and Public Policy. 3 Credits.

Overview of current legislation and public policy affecting education, employment, and civil rights of individuals with disabilities. The evolution of disability policies and their relationship to principles of social justice. Material fee.

SPED 8353. Post-Master's Internship in Special Education. 1-6 Credits.

Supervised professional internship in college teaching, administration, supervision, research, or policymaking. Internships are individually arranged. Admission by permission of instructor.

SPED 8354. Doctoral Internship: Special Education. 1-6 Credits.

Supervised professional internship in research college teaching, administration, policymaking, or private agency function. Admission by permission of advisor.

SPED 8360. Interdisciplinary Techniques in the Diagnostic Process in Special Education. 3 Credits.

Application of theoretical concepts of assessment; development of assessment programs; interpretation and application of interdisciplinary diagnostic evaluations. Prerequisite: SPED 6260, and permission of instructor. Material fee.

SPED 8998. Doctoral Seminar in Special Education. 3-6 Credits.

Review of literature in a topical area; preparation of a dissertation proposal and a manuscript of publishable quality. Admission by permission of instructor and approval of major advisor. Material fee.

SPED 8999. Dissertation Research. 3,6 Credits.

Prerequisite: SPED 8998.

SPEECH AND HEARING SCIENCE (SPHR)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SPHR 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

SPHR 1011. Voice and Diction. 3 Credits.

Development of naturalness, correctness, and clarity in conversation through the study of phonetics, rate, volume, pitch, and quality in preparation for performance. Laboratory fee.

SPHR 1071. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1071W. Foundations of Human Communication. 3 Credits.

An introduction to the fundamental principles of the biology of speech, hearing and language, language structure and use, and human communicative interaction. Practice in the identification of specific verbal and nonverbal aspects of communication behavior.

SPHR 1072. Multicultural Issues in Human Communication. 3 Credits.

Consideration of the influences of culture and bilingualism on language development and use and on communicative interaction; experimental and ethnographic methods for studying language and communication in a multicultural society.

SPHR 1081. American Sign Language I. 3 Credits.

Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills.

SPHR 1082. American Sign Language II. 3 Credits.

Continuation of SPHR 1081. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1081.

SPHR 1084. Perspectives in Deaf Culture. 3 Credits.

Introduction to the Deaf community as a linguistic and cultural minority group. The roles of deaf people in the larger society, including political activism. Generational differences concerning education, socioeconomic status, medical issues, and language.

SPHR 2083. American Sign Language III. 3 Credits.

Continuation of SPHR 1082. Development of basic communication skills, with appropriate vocabulary and grammatical structures; emphasis on comprehension skills. Prerequisite: SPHR 1082.

SPHR 2101. Research Methods. 3 Credits.

Introduction to fundamental research principles (e.g., hypothesis testing, sampling, validity and reliability), designs (e.g., experiments, case studies), and methods (e.g., behavioral observations, acoustic and physiologic measurements, neuro-imaging) used in the study of speech, language, and hearing. Prerequisites: SPHR 1071.

SPHR 2102. Neural Substrates-SpHr & Lang. 3 Credits.**SPHR 2104. Speech and Language Disorders. 3 Credits.**

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2104W. Speech and Language Disorders. 3 Credits.

Survey of the nature and causes of developmental and acquired disorders of speech and language. Emphasis on prevention and effective communication with persons having a speech-language impairment.

SPHR 2105. Anatomy and Physiology for Speech and Hearing I. 3 Credits.

Anatomy and physiology of the respiratory, phonatory, articulatory, and resonatory subsystems of speech; swallowing; and the cranial nerves.

SPHR 2106. Anatomy and Physiology for Speech and Hearing II. 3 Credits.

Anatomy of the auditory and vestibular systems; physiology of hearing; anatomy of the brain and spinal cord; physiology of the nervous system.

SPHR 2107. Acoustics. 0-3 Credits.

This course focuses on speech acoustics, with emphasis on how the speech signal is produced and the elements of speech important for speech perception. Recommended background: Students are advised to complete, or currently be taking, Phonetics (SPHR 2136) and Anatomy and Physiology (SPHR 2105) with this course.

SPHR 2108. Introduction to Audiology. 3 Credits.

Survey of the field of audiology, including the measurement of hearing, the nature and causes of hearing impairment, hearing aids and habilitation/rehabilitation of the hearing impaired. Prerequisite: SPHR 2107; prerequisite or corequisite: SPHR 2106. Laboratory fee.

SPHR 2117. Hearing & Perception. 3 Credits.

Consideration of the psychoacoustics of the normal auditory system in terms of auditory sensitivity, loudness, pitch, masking, and binaural hearing. Topics in speech perception that build upon psychoacoustics and speech acoustics. Prerequisite: SPHR 2108.

SPHR 2130. Phonetics and Phonological Development. 3 Credits.

Detailed study of English phonetics and phonology; prespeech vocalization and phonological development; multicultural issues in phonological development; intensive practice in phonetic transcription. Prerequisite or corequisite: SPHR 2105. Laboratory fee.

SPHR 2131. Language Acquisition and Development. 3 Credits.

Theories of language acquisition; development of language from birth through adolescence; emphasis on development of semantics, syntax, morphology, and pragmatics; multicultural issues in language development. Laboratory fee. Prerequisite: SPHR 2135.

SPHR 2132. Literacy. 3 Credits.

An overview of literacy development (thinking, listening, speaking, reading, spelling, writing) with emphasis on reading and writing development. Laboratory fee. Prerequisite: SPHR 1071.

SPHR 2133. Autism. 3 Credits.

How the study of autism and related disorders may shed light on the characteristics of the mind. The broad characteristics of autism spectrum disorders, including cognitive, behavioral, and neural aspects; definitions of typical vs. atypical development; and difficulties associated with diagnosis and treatment.

SPHR 2135. Language: Structure, Meaning, and Use. 3 Credits.

A survey of basic linguistic terminology and the components of language structures. Major topics will include language structure (syntax, morphology, phonology), meaning (semantics), and the use of language as a means of communication among individuals (pragmatics).

SPHR 2136. Phonetics. 2 Credits.

An overview of phonetics of American English and an introduction to sounds of languages of the world. General principles of phonetic description and analysis, speech production mechanisms, classification of consonants and vowels of English and other languages, suprasegmental aspects of speech, and acoustic characteristics of speech sounds. Allophonic variation and phonetic characteristics of connected speech and social and regional phonetic variation. Instruction and practice in transcription using the International Phonetic Alphabet. Restricted to none. Prerequisites: none. Recommended background: None required.

SPHR 3116. Brain & Language. 3 Credits.

How the brain operates for language production and understanding and how damage to the brain can interrupt neural processes with a variety of neurolinguistic consequences. Neuroimaging and behavioral research that informs the understanding of the bases of neurolinguistic communication disorders. Prerequisite or corequisite: SPHR 2106.

SPHR 3199. Selected Topics. 3 Credits.

Topic announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

SPHR 4118. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Prerequisite: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4118W. Senior Seminar. 3 Credits.

Critical evaluation of the research literature on speech and hearing; the process of scientific writing and analysis; how research can inform and improve clinical practice. For departmental majors in the senior year. Includes a significant engagement in writing as a form of critical inquiry and scholarly expression to satisfy the WID requirement. Laboratory fee. Prerequisites: SPHR 1071 or SPHR 1071W or SPHR 2104 or SPHR 2104W.

SPHR 4119. Analysis and Modification of Communication Disorders. 3 Credits.

For department majors in their senior year. Assessment of speaker-listener behavior; acoustic, behavioral, and linguistic properties of speaker intelligibility and credibility; observation, analysis, and modification of speech and language comprehension and expression. Prerequisite: senior standing. Laboratory fee.

SPHR 4196. Independent Study. 1-6 Credits.

Independent research and special projects. Before students are permitted to register for SPHR 4196, they must submit a written proposal of the plan of study and obtain approval of the staff member who will direct the study and of the department chair.

SPHR 6201. Clinical Practicum in Speech-Language Pathology. 1-6 Credits.

Supervised clinical practice in the evaluation and treatment of speech and language disorders; counseling of clients and families; development of treatment plans and writing of evaluation and progress reports. Admission by permission of the instructor. May be repeated for up to 6 credit hours.

SPHR 6202. Clinical Practicum in Audiology. 1-6 Credits.

Supervised clinical practice in behavioral and electrophysiologic assessment of hearing, hearing aid assessment and fitting, and aural rehabilitation; counseling clients and families; writing evaluation and progress reports. Admission by permission of the instructor. May be repeated, but may not be taken for more than 6 credit hours.

SPHR 6205. Professional and Clinical Issues in Speech and Hearing. 1 Credit.

SPHR 6207. Diagnostic Procedures in Speech and Hearing. 3 Credits.

Fundamental philosophical and conceptual issues in the assessment of speech-language functioning across a wide range of disorders and diverse populations. Consideration of how assessment procedures guide treatment decisions.

SPHR 6210. Research in Communication Sciences and Disorders. 1,3 Credit.

Fundamental issues and methods in clinical research; group and single-subject experimental designs; application of clinical research methodology and findings to assessment and treatment. Non-thesis students register for 3 credits; thesis students register for 1 credit concurrent with SPHR 6211. Restricted to graduate students in speech and hearing sciences.

SPHR 6211. Preparing the Thesis Prospectus. 2 Credits.

For first-year graduate students. Introduction to the fundamentals of quantitative research design and procedures in the speech and hearing sciences. Critical evaluation of research in speech and hearing sciences; scientific writing skills; the process and expectations for conducting thesis research. Students register for SPHR 6210 for 1 credit. Restricted to speech and hearing sciences master's thesis students.

SPHR 6220. Disorders of Articulation and Phonology. 3 Credits.

Survey of the nature and causes of impairments of speech sound production in children and adults. Differential diagnosis of oral motor versus phonological disorders; treatment approaches; identification and modification of regional dialects and foreign accents. Laboratory fee.

SPHR 6221. Neurodevelopmental Disorders of Speech Production. 2 Credits.

Evaluation and treatment of infants and children with neurodevelopmental speech disorders, including cerebral palsy. Emphasis on management of prespeech oral motor and feeding impairments. Laboratory fee.

SPHR 6222. Acquired Neuromotor Disorders of Speech Production. 2 Credits.

Examination of the neuroanatomical and neurophysiological bases and acoustic and perceptual characteristics of acquired dysarthrias and apraxia of speech. Evidence-based approaches to the assessment, differential diagnosis, and treatment of these disorders. Laboratory fee.

SPHR 6230. Pediatric Language and Speech Disorders I. 3 Credits.

Survey of current approaches for assessing and treating language delays and disorders in infants, toddlers, preschoolers, school-age children, and adolescents. Review of standardized, observational, and ethnographic approaches used in language assessment; current models of intervention and service delivery. Laboratory fee.

SPHR 6231. Pediatric Language and Speech Disorders II. 3 Credits.**SPHR 6240. Neurogenic Communication Disorders. 3 Credits.**

Differential diagnosis of acquired speech and language disorders, with an emphasis on the aphasia acquired in adulthood. Evidence-based approaches to the assessment and treatment of adult neurogenic language disorders. Laboratory fee.

SPHR 6241. Applied Neuroanatomy. 3 Credits.

Neuroanatomy and neurophysiology of systems underlying speech, language, and hearing. Neuroimaging techniques and investigations. Applications to the assessment and treatment of communication disorders. Laboratory fee.

SPHR 6250. Eval/Treatment-Speech Disorder. 3 Credits.**SPHR 6251. Seminar: Speech Fluency Disorders. 3 Credits.**

Consideration of stuttering and other disorders of speech rate and rhythm from developmental, linguistic, physiological, and psychosocial points of view. Investigation of evidence-based approaches to assessment and treatment.

SPHR 6260. Voice Disorders: Evaluation and Treatment. 3 Credits.

Normal anatomy and physiology of the human vocal mechanism. Nature, causes, and clinical management of functional and organic voice disorders, including laryngectomy. Laboratory fee.

SPHR 6261. Seminar: Voice Disorders. 2 Credits.**SPHR 6276. Aural Rehabilitation. 3 Credits.**

Habilitation/rehabilitation of the hearing impaired, including auditory training, speech reading, hearing aids, assistive listening devices, communication strategies, and counseling. Laboratory fee.

SPHR 6277. Psychoeducational Management of Children With Hearing Impairment. 3 Credits.**SPHR 6281. Dysphagia. 2 Credits.**

Anatomy and physiology of normal swallowing. Nature and causes of dysphagia in adults. Assessment, including clinical examination and radiologic methods; treatment. Laboratory fee.

SPHR 6282. Augmentative Communication and Computer Applications in Communication Disorders. 2 Credits.

Principles of assessment, development, and selection of augmentative and alternative communication systems; application through case studies. Computer applications, including review of selected hardware and software and selection criteria. Laboratory fee.

SPHR 6283. Multicultural Perspectives in Communication Development and Disorders. 2 Credits.

Application of culturally appropriate and theoretically based speech and language procedures to clinical assessment and intervention with multilingual/multicultural populations.

SPHR 6290. Selected Topics in Clinical Audiology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues. May be repeated, but may not be taken for more than a total of 6 credits.

SPHR 6291. Selected Topics in Speech-Language Pathology. 1-3 Credits.

Advanced study of selected theoretical and clinical issues regarding various aspects of practice in speech-language pathology. May be repeated but not for more than a total of 6 credit hours.

SPHR 6295. Independent Research in Speech, Language, and Hearing. 1-12 Credits.**SPHR 6998. Thesis Research. 2 Credits.****SPHR 6999. Thesis Research. 2 Credits.**

STATISTICS (STAT)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

STAT 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. See the Schedule of Classes for more details. Restricted to First-year students in CCAS.

STAT 1051. Introduction to Business and Economic Statistics. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, probability distributions, sampling, estimation, tests of hypotheses, regression and correlation, with applications to business.

STAT 1053. Introduction to Statistics in Social Science. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Frequency distributions, descriptive measures, probability, sampling, estimation, tests of hypotheses, regression and correlation, with applications to social sciences.

STAT 1091. Principles-Statistical Methods. 3 Credits.

STAT 1111. Business and Economic Statistics I. 3 Credits.

Descriptive statistics, graphical methods, probability, special distributions, random variables, sampling, estimation and confidence intervals, hypothesis testing, correlation and regression.

STAT 1127. Statistics for the Biological Sciences. 3 Credits.

Introduction to statistical techniques and reasoning applicable to the biomedical and related sciences. Properties of basic probability functions: binomial, Poisson, and normal. Data analysis, inference, and experimental design.

STAT 1129. Introduction to Computing. 3 Credits.

Introduction to elements of computer programming and problem-solving using Pascal. Hands-on experience will be acquired through computer programming projects, including some simple statistical applications.

STAT 2105. Statistics in the Behavioral Sciences. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Advanced study of statistical techniques for research problems. Analysis of variance, correlation techniques, nonparametric techniques, sampling theory. Prerequisite: an introductory statistics course and satisfactory performance on a placement examination.

STAT 2112. Business and Economic Statistics II. 3 Credits.

Continuation of STAT 1111. Emphasis on techniques of regression, chi-square, nonparametric inference, index numbers, time series, decision analysis, and other topics relevant to economics and business. Prerequisite: STAT 1111.

STAT 2118. Regression Analysis. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Simple and multiple linear regression, partial correlation, residual analysis, stepwise model building, multicollinearity and diagnostic methods, indicator variables. Prerequisites: STAT 1111 or equivalent.

STAT 2123. Introduction to Econometrics. 3 Credits.

Same as Econ 2123.

STAT 2183. Intermediate Stat Lab/Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 2183W. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 3119. Analysis of Variance. 3 Credits.

Lecture (3 hours), laboratory (1 hour). Introduction to the design of experiments and analysis of variance; randomized block, factorial, Latin square designs, and analysis of covariance. Prerequisite: STAT 2118.

STAT 3187. Introduction to Sampling. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051 .

STAT 4157. Introduction to Mathematical Statistics I. 3 Credits.

Basic concepts of probability theory, including random variables, independence, distribution theory, and sampling theory. Prerequisite: MATH 1232 .

STAT 4158. Introduction to Mathematical Statistics I. 3 Credits.

Continuation of STAT 4157. Inference procedures, including estimation, hypothesis testing, regression analysis, and experimental design. Prerequisite: MATH 1232 .

STAT 4181. Applied Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate time series. Estimation of spectral density functions, white noise tests, and tests for periodicities. Theory and applications using SAS. Prerequisite: MATH 2233, STAT 4157– STAT 4158 or STAT 2118.

STAT 4188. Nonparametric Stat Inference. 3 Credits.

Statistical inference when the form of the underlying distribution is not fully specified. Nonparametric procedures for estimation and testing hypotheses. An introduction to robust procedures. Prerequisite: STAT 1051 .

STAT 4189. Mathematical Probability and Applications I. 3 Credits.

Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4190. Mathematical Probability and Applications II. 3 Credits.

Continuation of STAT 4189. Probability theory, including combinatorial analysis, conditional probability, and stochastic independence. Random variables and their distributions; laws of large numbers and central limit theorem. Application of concepts to elementary stochastic processes (coin-tossing sequences, branching processes, Markov chains). Prerequisite: MATH 1232 .

STAT 4195. Reading and Research. 1-12 Credits.

May be repeated once for credit. Admission by permission of department chair.

STAT 4197. Fundamentals of SAS Programming for Data Management. 3 Credits.

Fundamentals of the SAS system for data management, statistical analysis, and report writing. Data modification; programming; file handling; and macro writing. Prerequisite: An introductory statistics course and STAT 1129.

STAT 4198. Special Topics. 3 Credits.

Topic to be announced in the Schedule of Classes. May be repeated for credit provided the content differs.

STAT 6104. Statistics in Management, Administration, and Policy Studies. 3 Credits.

Introductory study of statistical techniques for research problems. For graduate students in fields other than statistics who have no previous statistics training. May not be taken by graduate students in statistics.

STAT 6201. Mathematical Statistics I. 3 Credits.

Probability, distribution theory, sampling theory, estimation, sufficient statistics, hypothesis testing, analysis of variance, multivariate normal distribution. Prerequisite: MATH 2233, MATH 2184.

STAT 6202. Mathematical Statistics II. 3 Credits.

Continuation of STAT 6201. Probability, distribution theory, sampling theory, estimation, sufficient statistics, hypothesis testing, analysis of variance, multivariate normal distribution. Prerequisite: MATH 2233, MATH 2184.

STAT 6207. Methods of Statistical Computing I. 3 Credits.

Error analysis, computational aspects of linear models, sweep operator, random number generation, simulation, resampling. Optimization, numerical integration (Gaussian quadrature, Simpson's rule); E-M algorithm. Prerequisite: STAT 2118, STAT 4157– STAT 4158; MATH 2184; knowledge of a programming language.

STAT 6208. Methods of Statistical Computing II. 3 Credits.

Numerical linear algebra, matrix decomposition and eigenvalue problems. Smoothing and density estimation. Graphics, interactive and dynamic techniques for data display. Object-oriented programming. Prerequisite: STAT 2118, STAT 4157– STAT 4158; MATH 2184; knowledge of a programming language.

STAT 6210. Data Analysis. 3 Credits.

Review of statistical principles of data analysis, using computerized statistical procedures. Multiple regression and the general linear model, analysis of contingency tables and categorical data, logistic regression for qualitative responses. Prerequisite: STAT 2118, STAT 4157 or STAT 6201, and STAT 2183 .

STAT 6213. Intermediate Probability and Stochastic Processes. 3 Credits.

Discrete and continuous random variables and their distributions, conditional distributions and conditional expectation, generating functions and their applications, convergence of random variables; introduction to Brownian motion, homogeneous and nonhomogeneous Poisson processes and martingales. Prerequisite: STAT 6201– STAT 6202 .

STAT 6214. Applied Linear Models. 3 Credits.

Introduction to regression techniques for discrete and continuous response variables. The course includes a computing component using SAS and S> Prerequisite: MATH 2233 and MATH 2184.

STAT 6215. Applied Multivariate Analysis I. 3 Credits.

Application of multivariate statistical techniques to multidimensional research data from the behavioral, social, biological, medical, and physical sciences. Prerequisite: STAT 3119, STAT 4157– STAT 4158; MATH 2184.

STAT 6216. Applied Multivariate Analysis II. 3 Credits.

Continuation of STAT 6215. Application of multivariate statistical techniques to multidimensional research data from the behavioral, social, biological, medical, and physical sciences. Prerequisite: STAT 3119, STAT 4157– STAT 4158; MATH 2184.

STAT 6217. Design of Experiments. 3 Credits.

Design and analysis of single- and multiple-factor experiments. Includes block designs, repeated measures, factorial and fractional factorial experiments, response surface experimentation. Prerequisite: STAT 4157–STAT 4158; MATH 2184.

STAT 6218. Linear Models. 3 Credits.

Theory of the general linear parametric model. Includes least squares estimation, multiple comparisons procedures, variance components estimation. Prerequisite: STAT 6201–STAT 6202; MATH 2184.

STAT 6221. Design of Experiments for Behavioral Sciences. 3 Credits.

Applications of advanced experimental design to research problems in behavioral sciences and education. Prerequisite: STAT 2105 or STAT 2118 and permission of instructor. Not open to graduate students in statistics.

STAT 6223. Bayesian Statistics: Theory and Applications. 3 Credits.

An overview of Bayesian statistics, including its foundational issues, decision under uncertainty, linear models, expert opinion, and computational issues. Prerequisite: STAT 6201–STAT 6202.

STAT 6227. Survival Analysis. 3 Credits.

Parametric and nonparametric methods for the analysis of events observed in time (survival data), including Kaplan-Meier estimate of survival functions, logrank and generalized Wilcoxon tests, the Cox proportional hazards model and an introduction to counting processes. Prerequisite: STAT 6201–STAT 6202 or permission of instructor.

STAT 6231. Contingency Table Analysis. 3 Credits.

A study of the theoretical bases underlying the analysis of categorical data. Measures and tests of association; Mantel-Haenszel procedure; weighted least squares and maximum likelihood estimators in linear models; estimating equations; logistic regression; loglinear models. Prerequisite: STAT 6201–STAT 6202.

STAT 6233. Questionnaire Design. 3 Credits.

Questionnaire development from the perspective of cognitive techniques. Questionnaire issues range from choosing the mode of data collection (mail, telephone, or in-person) to selecting the respondent to the differences between asking attitude and factual questions. Pretesting the instrument chosen.

STAT 6234. Intermediate Statistical Laboratory: Statistical Computing Packages. 3 Credits.

Application of program packages (e.g., SAS, SPSS) to the solution of one-, two- and k-sample parametric and nonparametric statistical problems. Basic concepts in data preparation, modification, analysis and interpretation of results. Prerequisite: an introductory statistics course.

STAT 6236. Applied Sampling Techniques. 3 Credits.

Problems of sampling and sample design. Simple random, stratified, systematic, cluster, and multistate designs; control of sampling and non-sampling errors. Prerequisite: STAT 1051.

STAT 6238. Survey Management. 3 Credits.

Tools used in the management of a survey operation from the initial customer contacts through training, fieldwork, data processing, data analysis, report writing, and presentation of results. Issues in budgeting, staffing, and scheduling, with emphasis on quality management.

STAT 6242. Regression Graphics/Nonparametric Regression. 3 Credits.

Linear regression, nonparametric regression, smoothing techniques, additive models, regression trees, neural networks, and dimension reduction methods. Prerequisite: STAT 2118; MATH 2233, MATH 2184.

STAT 6251. Risk and Reliability. 3 Credits.**STAT 6252. Statistical Methods in Bioinformatics and Computational Biology. 3 Credits.****STAT 6253. Legal Statistics. 3 Credits.****STAT 6254. Statistical Genetics. 3 Credits.****STAT 6282. Foundational Issues in Risk Analysis. 3 Credits.**

Descriptive statistics, classical probability, Venn diagrams, conditional probability, Bayes' law and law of total probability. Independence and interdependence, discrete and continuous random variables. Probability models, correlation, interpretation of probability (physical, logical, personal, and subjective). The likelihood function and personal probability. Statistical inference (frequentist and Bayesian).

STAT 6283. Essentials of Risk Analysis. 3 Credits.

Utility and risk. The psychology of risk. Decision trees and decision making under uncertainty. Fault and event trees. Decision trees in risk, safety analysis, infrastructure protection. Simulating rare events. The failure rate functions. The cumulative hazard and survival function. Univariate and multivariate failure models. Causal, cascading, and interdependent failure events. Graphical analysis. Network survivability assessments.

STAT 6284. 9/11 Case Studies. 3 Credits.

Focus on 9/11-like risks to U.S. Critical Infrastructure Key Resources (CIKR). Critical overview of many approaches used in estimating risk in the CIKR arena. Real-time statistical and computer risk modeling. Topics include 18 CIKR sectors, basic risk models for CIKR assets, risk of complex targets and systems, and current state of practice.

STAT 6285. Case Studies: Environmental, Health, and Financial Risk. 3 Credits.

Risks encountered in financial markets, sustainability and climate change, and drug safety and health delivery systems. Development of models and reliable tools for optimal decision-making.

STAT 6287. Modern Theory of Sample Surveys. 3 Credits.

Application of statistical theory to the sampling of finite populations. Simple, stratified, cluster, double and subsampling. Special topics, including super-populations and randomized response. Prerequisite: STAT 4157– STAT 4158 .

STAT 6289. Topics in Statistics. 3 Credits.**STAT 6290. Principles of Demography. 3 Credits.**

Introduction to basic demographic perspectives and data; methods for analysis of population size, distribution, and composition; determinants and consequences of population trends. Departmental prerequisite waived. Same as ECON 6290.

STAT 6291. Methods of Demographic Analysis. 3 Credits.

Basic methods for analysis of mortality, natality, and migration; population estimates and projections; estimation of demographic measures from incomplete data. Departmental prerequisite waived. Same as ECON 6291.

STAT 6295. Reading and Research. 3 Credits.

May be repeated once for credit.

STAT 6298. Seminar: Special Topics. 3 Credits.**STAT 6998. Thesis Research. 3 Credits.****STAT 6999. Thesis Research. 3 Credits.****STAT 8226. Advanced Biostatistical Methods. 3 Credits.**

Statistical methods for the analysis of longitudinal data: nonparametric, fixed effects, mixed effects, generalized estimating equations. Methods for the analysis of emerging data: group sequential analysis, Brownian motion, Bayesian methods, and stochastic curtailment. Other advanced topics of current research in biostatistics. Prerequisite: STAT 6201–STAT 6202 or permission of instructor.

STAT 8257. Probability. 3 Credits.

Probabilistic foundations of statistics, probability distributions, random variables, moments, characteristic functions, modes of convergence, limit theorems, probability bounds. Prerequisite: STAT 6201– STAT 6202, knowledge of calculus through functions of several variables and series.

STAT 8258. Distribution Theory. 3 Credits.

Special distributions of statistics, small and large sample theory, order statistics, and spacings. Prerequisite: STAT 8257.

STAT 8259. Advanced Probability. 3 Credits.

Conditional expectation and martingales; weak convergence in general metric spaces and functional central limit theorems for i.i.d. random variables and martingales; applications to biostatistics. Prerequisite: STAT 8257 or an equivalent measure-theoretic introduction to probability.

STAT 8262. Nonparametric Inference. 3 Credits.

Inference when the form of the underlying distribution is unspecified. Prerequisite: STAT 6201– STAT 6202.

STAT 8263. Advanced Statistical Theory I. 3 Credits.

Decision theoretic estimation, classical point estimation, hypothesis testing. Prerequisite: STAT 6201– STAT 6202.

STAT 8264. Advanced Statistical Theory II. 3 Credits.

Asymptotic theory, hypothesis testing, confidence regions. Prerequisite: STAT 8257, STAT 8263.

STAT 8265. Multivariate Analysis. 3 Credits.

Multivariate normal distribution. Hotelling's T^2 and generalized T^2 , Wishart distribution, discrimination and classification. Prerequisite: STAT 6201– STAT 6202.

STAT 8266. Topics-Multivariate Analysis. 3 Credits.**STAT 8271. Foundational and Philosophical Issues in Statistics. 3 Credits.**

Axiomatic underpinnings of Bayesian statistics, including subjective probability, belief, utility, decision and games, likelihood principle, and stopping rules. Examples from legal, forensic, biological, and engineering sciences. Students are expected to have a background in computer science, economics, mathematics, or operations research. Prerequisite: STAT 6201– STAT 6202.

STAT 8273. Stochastic Processes I. 3 Credits.

Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisite: STAT 6201– STAT 6202.

STAT 8274. Stochastic Processes II. 3 Credits.

Continuation of STAT 8273. Fundamental notions of Markov chains and processes, generating functions, recurrence, limit theorems, random walks, Poisson processes, birth and death processes, applications. Prerequisites: STAT 6201– STAT 6202.

STAT 8281. Advanced Time Series Analysis. 3 Credits.

Autoregressive integrated moving average (ARIMA) modeling and forecasting of univariate and multivariate time series. Statespace or Kalman filter models, spectral analysis of multiple time series. Theory and applications using the University computer. Prerequisite: MATH 2233, STAT 6201– STAT 6202 .

STAT 8288. Modern Theory/Sample Surveys. 3 Credits.**STAT 8289. Seminar. 3 Credits.**

Admission by permission of instructor.

STAT 8375. Econometrics I. 3 Credits.

Statistical foundations for econometrics; standard methods of estimation and inference for classical and generalized regression models. Same as ECON 8375.

STAT 8376. Econometrics II. 3 Credits.

Topics may include asymptotic theory, statistical endogeneity, instrumental variables estimation, discrete and limited dependent variable models, and time-series models. Same as ECON 8376. Prerequisite: STAT 8375.

STAT 8998. Advanced Reading and Research. 1-12 Credits.

Limited to students preparing for the Doctor of Philosophy general examination. May be repeated for credit.

STAT 8999. Dissertation Research. 3-12 Credits.

Limited to Doctor of Philosophy candidates. May be repeated for credit.

STRATEGIC MANAGEMENT AND PUBLIC POLICY (SMPP)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SMPP 4900. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods.

SMPP 4900W. Corporate Social Responsibility (CSR). 0-3 Credits.

Why, how, and under what conditions businesses innovate to address changing stakeholder expectations of a corporation's responsibilities in a global economy.

SMPP 4995. Independent Study. 1-12 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

SMPP 6201. Business and Public Policy. 3 Credits.

SMPP 6202. Business-Government Relations. 3 Credits.

Historical and philosophical foundations of the business-government relationship. Regulation, international trade, and corporate political activities. Public policy issues facing business and the business community's political response. Prerequisite: MBAD 6284 .

SMPP 6203. Fed Gov't Regulation-Society. 3 Credits.

SMPP 6205. Business Representation and Lobbying. 3 Credits.

Strategies, tactics, and techniques used by business in representing itself to the legislative and executive branches and regulatory agencies of the federal government. Legal and practical constraints. Ethical considerations.

SMPP 6206. Applied Microeconomics. 3 Credits.

Applications of economic theory to public and private decisions with emphasis on public policy analysis. Focus on market structure and its implications. Imperfect information, common property, public goods and externalities. Economic analysis of government behavior and legal institutions. Prerequisite: ECON 6217 or ECON 6219 and MBAD 6222 .

SMPP 6207. Environment, Energy, Technology, and Society. 3 Credits.

The identification, examination, and evaluation of how environment, energy, and technology are interrelated and how these interactions influence policy formulation and implementation at the international, national, regional, industrial, and organizational levels. Same as PPPA 6067.

SMPP 6208. Macroeconomic Policy and Business. 3 Credits.

Determination of national income, employment, inflation, and interest rates. The role of expectations in the economy. Impact of government purchases, tax policy, and deficits. Monetary policy institutions. The global economy and exchange rates. Prerequisite: ECON 6218 or 6219 and MBAD 6222.

SMPP 6209. Seminar: Business Economics and Public Policy. 3 Credits.

Analysis and discussion of selected issues by students and representatives of government and business. Prerequisite: SMPP 6202 or MBAD 6284.

SMPP 6210. Strategic Environmental Management. 3 Credits.

Examination and analysis of the orientation and actions of private, public, and nonprofit sectors in relation to their natural environments. Emphasis on organizational interaction and effectiveness, particularly regarding business firms and industry, on issues of environmental quality and sustainability.

SMPP 6211. Corp. Env. Mg. in Dev. Nations. 3 Credits.

SMPP 6212. Business Law: Enterprise Org. 3 Credits.

SMPP 6213. Management of Strategic Issues. 3 Credits.

The body of management theory and practice that has evolved to identify, analyze, and resolve strategic organizational issues. Methodology of the field; applications to critical issues in labor relations, energy and pollution, marketing and consumerism, business-government relations, and the global economy.

SMPP 6214. Consultative Processes. 3 Credits.

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process. Same as MGT 6214/ TSTD 6214.

SMPP 6215. Corporate Governance and Ethics. 3 Credits.

The theory, practice, and public policy environment of corporate governance. Purpose, functioning, and responsibilities of boards of directors. Power, control, and compensation of corporate management. Shareholders and stakeholders. Corporate governance in comparative national settings. Same as ACCY 6801.

SMPP 6216. Public Policy, Governance, and the Global Market. 3 Credits.

The socioeconomic foundations of government regulation and public policy cooperation for the governance of firms, markets and globalization. The evolution of national, transatlantic and multilateral frameworks for market and civil society governance, international competition policy cooperation, regulatory harmonization and industry standards. (Same as PPPA 6018).

SMPP 6241. Global Corporate Responsibility. 3 Credits.

SMPP 6271. Corporate Envir Mgmt & Policy. 1.5 Credit.

SMPP 6290. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

SMPP 6291. Ethics and Business. 3 Credits.

An in-depth, comprehensive exploration, analysis, and evaluation of specific for profit and non-profit organization values, approaches, and outcomes related to multiple ethical ideals, systems, and practices.

SMPP 6292. Co-Curricular Activities in Responsible Management. 0 Credits.

This 0-credit course is required for students taking the Graduate Certificate in Responsible Management. The three components include completing a project or case study with an organization or faculty member related to the CRM mission; attending a series of seminars, panel discussions, or other pre-approved events relating to responsible management and submitting written reports; and completing designated community service hours. Restricted to GWSB Graduate Students Admitted to the Graduate Certificate in Responsible Management.

SMPP 6293. American Business History. 3 Credits.

The history of American business institutions in manufacturing, distribution, transportation, and finance. Particular attention will be given to the period since industrialization, with consideration of business institutions in their economic, legal, governmental, and social contexts. Same as HIST 6322.

SMPP 6295. Interm Qual&Quant Analysis. 3 Credits.

SMPP 6297. International Management Experience. 3-6 Credits.

Same as FINA 6297/ IBUS6297/ MGT 6297/ MKTG 6297. May be repeated for credit.

SMPP 6298. Directed Readings and Research. 1-6 Credits.

Supervised readings or research. Admission by prior permission of instructor. May be repeated once for credit.

SMPP 6299. Thesis Seminar. 3 Credits.

SMPP 6999. Thesis Research. 3 Credits.

SMPP 8311. Seminar: Public-Private Sector Institutions and Relationships. 3 Credits.

An analysis and critique of alternative theoretical frameworks for describing, understanding, and predicting the nature, values, and actions of American public and private institutions. Problems, potentials, and alternatives for structuring public and private institutional arrangements to meet the needs of society. Same as PPPA 8111. Prerequisite: doctoral degree candidate status.

SMPP 8321. Seminar in Strategic Management. 3 Credits.

Develops understanding of the major research streams in strategic management; exposure to theoretical research frameworks and methodological issues and approaches.

SMPP 8331. Seminar in Business and Public Policy. 3 Credits.

Develops understanding of the major research streams in business and public policy; exposure to theoretical research frameworks and methodological issues and approaches.

SMPP 8391. Seminar: Business Management. 3 Credits.

Examination of major current issues, both theoretical and empirical, affecting the development of the business enterprise. Topics to be announced. Emphasis on policy and strategic issues affecting the total enterprise. (Offered as the demand warrants).

SMPP 8998. Advanced Readings and Research. 1-12 Credits.

Limited to doctoral candidates preparing for the general examination. May be repeated for credit.

SMPP 8999. Dissertation Research. 1-12 Credits.

Limited to doctoral candidates. May be repeated for credit.

SUSTAINABILITY (SUST)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

SUST 1001. Introduction to Sustainability. 3 Credits.

The concept of sustainability is both broad and specific as it is applied to areas ranging from social systems to law, engineering, public health, and natural systems. The course considers goals, principles, and practical applications, with a multidisciplinary perspective on major environmental and social issues growing out of these concerns.

SUST 2002. The Sustainable City. 3 Credits.

This course will explore the connection between cities and sustainability. We consider sustainability from a variety of theoretical and practical perspectives and examine some of the most pressing and critical issues that must be addressed in order to create a sustainable city.

SUST 2003. The Sustainable Plate. 3 Credits.

The course will focus on how our dietary choices affect not only our health but the environment and those involved in the production of food. In this class we will explore the sustainable plate—how does dinner affect the future of the environment, economy, and society— from an interdisciplinary perspective.

SUST 3002. Climate Change and Policy. 3 Credits.**SUST 3095. Sustainability Fieldwork. 0-3 Credits.**

Research in the field that might include such efforts as wildlife management, pollution evaluation, or surveys. Students complete a series of reflection essays throughout the semester.

SUST 3096. Directed Research in SUST. 3 Credits.

Directed research with a GW faculty member or in a study abroad experience that might include laboratory research, archival work, or literature reviews. Students complete a series of reflection essays and other assignment throughout the semester. Prerequisites: Sust 1001 and by permission of instructor.

SUST 3097. Internship in SUST. 3 Credits.

A paid or unpaid internship with an organization working to implement sustainability or sustainability policy. Students complete a series of reflection essays and other assignments throughout the semester. Prerequisites: Sust 1001 and by permission of instructor.

SUST 3098. Community Service in SUST. 0-3 Credits.

Volunteer service with a nonprofit organization or federal agency working to implement sustainability or sustainability policy. Students complete a series of reflection essays and other assignments throughout the semester. Prerequisites: SUST 1001 and by permission of instructor.

TEACHER EDUCATION (TRED)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TRED 6365. Persp & Res in Teach Comp Sci. 3 Credits.

THEATRE AND DANCE (TRDA)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TRDA 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

TRDA 1015. Understanding the Dance. 3 Credits.

The art of dance—a lecture and experiential approach to its cultural importance, history, and creative processes. The contributions of the choreographer and dancer to society. Attendance at performances and presentations, and viewing video. Laboratory fee.

TRDA 1020. Women and the Creative Process. 3 Credits.

Consideration of questions of aesthetics and creativity through the study of art produced by women since the mid-20th century. The creation, meaning, and impact of work across the fields of visual art, dance, theatre, and music.

TRDA 1025. Understanding the Theatre. 3 Credits.

The art of the theatre; its literature, history, aesthetics, and mechanics. Contributions of the playwright, actor, director, and designer. Attendance at assigned theatrical performances.

TRDA 1035. Theatre Production. 3 Credits.

Understanding of the basic elements of theatrical production (performance, technical and management) and the collaborative artist/artisan process through discussion, observation, and practical application. Laboratory fee.

TRDA 1152. Beginning Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1153. Beginning/Intermediate Modern/Postmodern Dance. 1 Credit.

Introduction to modern dance technique inclusive of basic concepts of dynamic alignment, stretch, strength, improvisation and musicality. Laboratory fee.

TRDA 1170. Intermediate Modern/Postmodern Dance I. 2-3 Credits.

Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Laboratory fee.

TRDA 1171. Intermediate Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 1170. Recommended for students with previous dance experience in jazz, ballet, hip hop, modern, or other styles. May be repeated for credit. Prerequisite: TRDA 1170, or permission of instructor. Laboratory fee.

TRDA 1214. Beginning Acting. 3 Credits.

An introduction to the process of acting. Students will learn to make choices using various acting techniques to create characters and learn about the process.

TRDA 1240. Performance Theory. 3 Credits.

Examination of the ways in which the practices and heuristics of performance have been used to understand a wide range of cultural activities; expansion of the notion of aesthetic performance proper to include sources, subjects, and forms historically considered non-dramatic; and underlying questions concerning what performance is, what it does, and what value it holds.

TRDA 1330. Basics of Production Design. 3 Credits.

Basic elements of production design and technical execution. Laboratory required. Laboratory fee.

TRDA 2172. Intermediate/Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Prerequisite: TRDA 1171, or permission of instructor. Laboratory fee.

TRDA 2173. Intermediate/Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 2172. May be repeated for credit. Prerequisite: TRDA 2172, or permission of instructor. Laboratory fee.

TRDA 2179. Contact Improvisation. 2 Credits.

A movement form that arises from the point of contact between partners who explore gravity, space, and timing in the spontaneous moment-to-moment exchange of the dance. Exploring the improvisational state of body/mind through the use of imagery, tuning the senses, mindfulness practices, and play. Laboratory fee.

TRDA 2180. Movement Improvisation/Perform. 3 Credits.

Exploring the body and its surroundings in movement, use of language, narrative, environments and contexts for creative expression, developing event and performance structures from improvisation. May be repeated for credit. Laboratory fee.

TRDA 2185. Trends in Performance. 3 Credits.

Study of the theory and practice of contemporary performance art movements and artists; political and artistic activism; scripting and scoring to create performance works based on a single art discipline or interdisciplinary arts. Laboratory fee.

TRDA 2188. African Dance. 1 Credit.

African/Caribbean dance styles and techniques, with warm-ups and center floor work of long and short movement phrases. Basic/modern/jazz terminology and definitions appropriate to intermediate/advanced/African dance are used. Emphasis on alignment, execution, musical phrasing, and the importance of rhythmic timing and nuance.

TRDA 2189. World Dance. 3 Credits.

TRDA 2190. Gender/Indian Classical Dance. 3 Credits.

TRDA 2191. Dance History. 3 Credits.

The history of Western theatrical dance from the late 18th century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

TRDA 2191W. Dance History. 3 Credits.

The history of Western theatrical dance from the late 18th century to the present. The major choreographers and their dance works through readings, lectures, video, and discussion.

TRDA 2192. Repertory/Performance. 1,2 Credit.

Participation in the processes of learning and performing dance repertory or new dance works. Audition required. Laboratory required. May be repeated for credit. Laboratory fee.

TRDA 2193. Dance Styles I. 1-12 Credits.

Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2194. Dance Styles II. 1-12 Credits.

Continuation of TRDA 2193. Forms of theatrical dance other than ballet or modern, including African dance, Angola Capoeira, music theatre, Spanish dance, world dance, Middle Eastern dance, and others. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 2195. Global Dance History. 3 Credits.

The role of dance globally in relation to socio-cultural and artistic histories. Importance of certain artists and dance forms contextualized by major world events as seen through the geography of immigration. Perspectives from the Americas, Africa, the Middle East, and Asia.

TRDA 2215. Intermediate Acting. 3 Credits.

Students continue to develop acting techniques introduced in TRDA 1214 through scripted scene work. Students learn to make choices through text exploration, use various acting techniques to create characters and develop clear character relationships, and stage completed scenes. Prerequisites: TRDA 1214 or HONR 2059.

TRDA 2216. Scene Study: Voice & Character. 3 Credits.

The practice and application of voice production with reference to skeletal alignment, breathing, resonance, and articulation. Emphasis on the process of voice production and its application to performance through work on scenes and monologues. Prerequisite: TRDA 2215. Laboratory fee.

TRDA 2240. Play Analysis. 3 Credits.

Traditional and nontraditional (Aristotelian and non-Aristotelian) approaches to the analysis of dramatic literature; literary and theatrical techniques used by playwrights. Same as ENGL 2240.

TRDA 2250. Dramatic Writing. 3 Credits.

A workshop in playwriting and screenwriting, with emphasis on dramatic structure. Same as ENGL 2250. Recommended preparation: ENGL 1210 and two semesters of literature courses.

TRDA 2339. Theatre Practicum. 1 Credit.

Participation in department mainstage productions in a production or management capacity under the supervision of a member of the faculty. Prerequisite: TRDA 1330. After two practicums have been completed, participation may also include performance positions, for which TRDA 1214 is prerequisite. May be repeated for a total of 6 credits. Laboratory fee.

TRDA 3131W. Theatre of Social Change. 3 Credits.

Focuses on theatre of social change as practiced in the second half of the 20th and in the early 21st centuries; exploring additional case studies from South Africa, Europe, and the US.

TRDA 3156. Dance & Arts Management. 3 Credits.

Examination of dance in Washington area communities. Students are required to site visit and engage with individuals and organizations that focus on dance as it pertains to performance, therapy, management, and education. Participation in activities with a dance artist/practitioner or with a producing/service organization is required. Laboratory fee.

TRDA 3174. Advanced Modern/Postmodern Dance I. 2-3 Credits.

May be repeated for credit. Prerequisite: TRDA 2173, or permission of instructor. Laboratory fee.

TRDA 3175. Advanced Modern/Postmodern Dance II. 2-3 Credits.

Continuation of TRDA 3174. May be repeated for credit. Prerequisite: TRDA 3174, or permission of instructor. Laboratory fee.

TRDA 3182. Dance Composition I. 3 Credits.

Problems in structural and conceptual aspects of constructing dances and shaping and forming movement materials. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

TRDA 3183. Dance Composition II. 3 Credits.

Continuation of TRDA 3182. Emphasis on intention and content in making dances. Prerequisite: TRDA 2180; recommended: TRDA 2185. Laboratory fee.

TRDA 3186. Dance Anatomy & Kinesiology. 3 Credits.

An experiential and theoretical approach to dynamic anatomy and kinesiology as they pertain to the dancer. The student is encouraged to reach full movement potential in relation to contemporary dance techniques, performance, and injury prevention. Laboratory fee.

TRDA 3222. Topics in Advanced Acting. 3 Credits.

The actor's approach to various styles and genres and to non-literary theatrical forms. Topics vary by semester. May be repeated for credit provided the topic differs. Consult the Schedule of Classes for more details. Studio fee. Prerequisite: TRDA 2215.

TRDA 3223. Physical Performance Skills. 3 Credits.

Introduction to a variety of techniques needed by actors and performers, including mime, clowning, slapstick, mask work, and basic stage combat skills. Prerequisite: TRDA 2215. Laboratory fee.

TRDA 3229. Audition Techniques. 3 Credits.

All aspects of the audition process, including selection and rehearsal of audition monologues and handling of cold reading. Laboratory fee. Prerequisite: TRDA 2215.

TRDA 3240. Introduction to Dramaturgy. 3 Credits.

Fundamentals of classical and contemporary dramaturgical practice, including analyzing plays, doing research, supporting directors and actors in rehearsal, writing program notes, and leading post-show discussions. Same as ENGL 3240.

TRDA 3245. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the 17th century.

TRDA 3245W. History of the Theatre I. 3 Credits.

A dramaturg's approach to case studies of theatre in historical context. Ancient Greece through the 17th century.

TRDA 3246. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The 18th century through the present.

TRDA 3246W. History of the Theatre II. 3 Credits.

Continuation of TRDA 3245. A dramaturg's approach to case studies of theatre in historical context. The 18th century through the present.

TRDA 3248. Theatre Criticism. 3 Credits.

Discussion and witnessing of plays in performance, resulting in written criticism modeled on contemporary journalistic practices. Prerequisite: TRDA 3245 or TRDA 3246 or TRDA 2240/ ENGL 2240. Laboratory fee.

TRDA 3248W. Theatre Criticism. 3 Credits.

Discussion and witnessing of plays in performance, resulting in written criticism modeled on contemporary journalistic practices. Prerequisite: TRDA 3245 or TRDA 3246 or TRDA 2240/ ENGL 2240. Laboratory fee.

TRDA 3250. Intermediate Dramatic Writing. 3 Credits.

A workshop developing scripts for both theatre and film. Same as ENGL 3250. Prerequisite: ENGL 2250 or equivalent. May be repeated for credit with departmental approval.

TRDA 3331. Introduction to Lighting. 3 Credits.

Lecture (2 hours), laboratory (1 hour). Theories and practicum in lighting for theatre and dance. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3332. Theatrical Makeup Design. 3 Credits.

Theory and practicum in the art of makeup design, including latex and crepe hair. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3333. Stage Management. 3 Credits.

The role and function of the stage manager in theatrical production. The basic skills needed to begin work in stage management. Emphasis on organization, documentation, and dissemination of information. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 3335. Introduction to Scene Design. 3 Credits.

Fundamental study of scenic design, including historic overview, basic drawing, and rendering techniques, through the use of various mediums and script analysis. Laboratory fee. Prerequisite: TRDA 1330.

TRDA 3336. Introduction to Costuming. 3 Credits.

History of fashion in Western civilization from ancient Greece to the 20th century. Fundamental study of costume construction through specific projects. Costume construction. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 3710W. Contemporary Drama. 3 Credits.**TRDA 4184. Choreography and Performance. 1-3 Credits.**

Create a dance or a performance work of individual design, including casting, rehearsal procedures, staging aspects, and public presentation. Prerequisite: TRDA 3182; recommended: TRDA 1330, TRDA 2185. May be repeated for credit. Laboratory fee.

TRDA 4191. Paris Modernism & the Arts. 3 Credits.**TRDA 4275. Directing for the Theatre. 3 Credits.**

Fundamentals of script analysis, staging, casting, and rehearsal techniques. Prerequisite: TRDA 1214, TRDA 1330; TRDA 2240/ ENGL 2240 or TRDA 3240/ ENGL 3240. Laboratory fee.

TRDA 4338. Scene Painting. 3 Credits.

The techniques and materials used in creating character in the various elements of set design. Methods include set preparation, coating, mixing, palette preparation, spraying, transfer, texturing, finishing, and wallpapering. Prerequisite: TRDA 1330. Laboratory fee.

TRDA 4595. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs.

TRDA 4595W. Selected Topics. 1-3 Credits.

Topics of current interest in theatre or dance. Topics (and course fee, when charged) announced in the Schedule of Classes. May be repeated for credit provided the topic differs. Laboratory fee.

TRDA 4596. Independent Study. 1-6 Credits.

Independent research and special projects. Open to qualified juniors or seniors majoring or minoring in theatre or dance. Before students are permitted to register for TRDA 4596, they must submit a written proposal of the plan of study and obtain approval of the faculty member who is directing the study and the department chair.

TRDA 4598. Internship. 3,6 Credits.

Open to qualified seniors majoring or minoring in theatre or dance. Work placements with not-for-profit and commercial theatre and dance organizations for an approved number of hours per week. Admission requires departmental approval. May be taken for a maximum of 6 credits.

TRDA 4599. Honors Thesis. 3 Credits.

Directed research and/or creative project. Open to qualified seniors by permission. Arrangements must be made with a sponsoring faculty member in the department and applications must be completed early in the second semester of the junior year.

TRDA 6200. Portfolio I: Performance. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6201. Personal Aesthetics I: The Body. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6202. Contemporary Dance History and Criticism. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6203. Portfolio II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6204. Personal Aesthetics II: The Environment. 2 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6205. Choreography. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6206. Dance Pedagogy. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6207. Portfolio III: Artistic Initiative. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6208. New Media & Dance. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6209. Cultural Communities of Dance. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6210. Personal Aesthetics III: Integration. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6211. Career Networks in Dance. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6212. Portfolio Review I: Performance. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6213. Portfolio Review II: Choreography/Creativity. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6214. Portfolio Review III: Artistic Initiatives. 1-5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6296. Research Project I. 4 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6299. Research Project II. 5 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6331. Intermediate Lighting Design. 3 Credits.

Theory and execution of lighting design for theatre and dance. May be repeated for credit. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6335. Intermediate Scene Design. 3 Credits.

Development of advanced skills of scenic design, including script analysis, needs assessment, research techniques, conceptual design development, drawing/ rendering techniques, preparation of construction documentation and fabrication management. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6336. Intermediate Costume. 3 Credits.

Basic techniques of costume design through specific projects. Various rendering techniques consistent with the historical period concerned. May be repeated for credit. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6338. Scene Painting. 3 Credits.

Development of the skills of painting needed for the reproductive craft of theatrical painting. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6340. Period Styles. 3 Credits.

A broad perspective of major European and American cultures through analysis of the interiors, furniture, textiles, fashion, and architecture of major civilizations/ historical periods from Egypt to the present. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6342. Pattern Making. 3 Credits.

Pattern drafting and draping methods, based on contemporary and historical clothing. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6344. Production Drafting. 3 Credits.

Development of drafting skills for production: groundplans and shop documents. Traditional hand drafting and computer assisted design. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6346. Advanced Studies in Design: Collaborative Studies. 3 Credits.

Development of an ability to design and work within a collaborative or teambased environment through visual and verbal communication, script analysis, concept development, and research techniques. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee. May be taken for a total of 15 credits.

TRDA 6348. Techniques in Design Presentation. 3 Credits.

The various techniques used in costume and scenic design presentations, such as rendering with paint, pencil, ink, and electronic media. Prerequisite: M.F.A. candidacy and permission of instructor. Laboratory fee.

TRDA 6595. Selected Topics. 1-3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

TRDA 6596. Independent Research in TRDA. 1-12 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor. May be repeated for credit.

TRDA 6598. Internship. 1-12 Credits.

Internships with theatre companies or arts organizations, including conference and/or seminar. May be taken for a total of 12 credit hours. Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6998. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TRDA 6999. Thesis Research. 3 Credits.

Prerequisite: M.F.A. candidacy and permission of instructor.

TOURISM STUDIES (TSTD)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TSTD 3001. Intro-Tourism/Hospitality Mgt. 3 Credits.

Historical overview and survey of the tourism and hospitality industry, with emphasis on the travel market, delivery of hospitality services, professional roles, and emerging trends.

TSTD 3002. Passenger Transportation Systm. 3 Credits.

Survey of passenger transportation modes. Emphasis on airline operations, marketing communications, and distribution channels.

TSTD 3101. Sport & Event Business Mgt. 3 Credits.

An overview of business opportunities related to sport and events. Emphasis on sport and event facilities and event management; product manufacturing, merchandising, and licensing; media and publications; and athlete representation.

TSTD 3102. Sport and Event Marketing. 3 Credits.

Application of marketing theories and practices to sport and events. Sponsorship, endorsement proposals, public relations, and promotional campaigns. Prerequisite: BADM 3401.

TSTD 3102W. Sport and Event Marketing. 3 Credits.

Application of marketing theories and practices to sport and events. Sponsorship, endorsement proposals, public relations, and promotional campaigns. Prerequisite: BADM 3401.

TSTD 3301. Hospitality Industry Managemnt. 3 Credits.

An overview of the basic principles and practices involved in the management, operation, marketing, and financing of hotels, restaurants, and other hospitality goods and services.

TSTD 3302. Financial Mgt-Tourism/Hospitly. 3 Credits.

Basic principles of planning and managing tourism resources, developments, and facilities in relation to investment constraints and opportunities. Financial monitoring and control of hospitality facilities and related leisure services. Prerequisite: BADM 3501.

TSTD 3303. International Experiences. 1-6 Credits.

Travel to a foreign country for study of a specific topic. May be repeated for credit with permission of the advisor.

TSTD 4101. Issues in Sport & Event Mgmt. 3 Credits.

A discussion of policies, procedures, organizational structures, issues, and trends in sport and events, from amateur to professional.

TSTD 4102. Practicum. 1-3 Credits.

Fieldwork, internship, and/or instructional practice, including conference and/or seminar. Admission by permission of instructor. May be repeated once for credit with permission of advisor.

TSTD 4301. Travel Marketing Communication. 3 Credits.

Review of basic advertising, public relations, and sales techniques, applied to the tourism and hospitality industry. Current practices and case studies.

TSTD 4900. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

TSTD 4995. Independent Study. 1-3 Credits.

Assigned topics. Admission by prior permission of advisor. May be repeated once for credit.

TSTD 6214. Consultative Processes. 1-6 Credits.

Theories and methods of planning, introducing, and coping with change in management through the helping process. Intended both for managers seeking an understanding of the consultative approach to planned change and for persons in staff or consultative roles seeking understanding of the consultative process. Same as MGT 6214/ SMPP 6214.

TSTD 6220. International Hotel Management. 3 Credits.

The study of multinational hospitality operations, with emphasis on U.S. corporate involvement in and planning for overseas expansions. Political, economic, cultural, financial, and legal aspects inherent in the international business environment.

TSTD 6221. Hotel/Resort Market Analysis. 3 Credits.

Analysis of market demand for accommodation in a tourism destination; valuation methods for determining market value of a hotel/resort project; project management for hotel/resort development.

TSTD 6230. Organization and Management of Airlines. 3 Credits.

Overview of domestic and international passenger air transportation systems. Analysis of planning, financing, operating, marketing, and evaluating airline transportation systems. Legal and regulatory aspects of airline operations. Development of infrastructure and related support services.

TSTD 6249. Sustainable Destination Development. 3 Credits.

Relationship of tourism and sustainable development; specific emphasis on cultural, environmental, and economic impacts and trends.

TSTD 6250. Destination Management. 1.5 Credit.

Organization and management concepts, theory, and issues, stressing application of theory through analysis of case examples drawn from the tourism and hospitality industry.

Prerequisite: TSTD 3001 .

TSTD 6251. Quantitative Applications in Tourism/Hospitality Management. 3 Credits.

Application of quantitative methods in tourism and hospitality management research. Procedures and methodology for collecting data, summarizing and interpreting data, and drawing conclusions based on the data.

TSTD 6260. Destination Economics. 3 Credits.

Tourism development approaches, contexts, and consequences for local/regional destinations; application of financial management concepts to the feasibility study of a proposed tourism-related facility; and evaluation of the sustainability of a tourism development strategy.

TSTD 6261. Tourism Planning. 3 Credits.

Integrated planning for tourism organizations; development of comprehensive tourism projects; consideration of basic concepts, approaches, and models.

TSTD 6262. Tourism Policy Analysis. 1.5 Credit.

Components of tourism policy, including development of tools for tourism policy analysis and description of tourism organizations in the government and private sector.

TSTD 6263. Destination Marketing. 3 Credits.

Concepts and techniques employed in marketing tourism industry services and development of the annual marketing plan.

TSTD 6264. Sport Marketing. 3 Credits.

Application of marketing theories to sport and events. Case examples of marketing athletes, teams, facilities, sport products and organizations, as well as using sport or events as a marketing tool for products. Writing sponsorship and endorsement proposals and incorporating sport into an integrated marketing plan. Prerequisite: MBAD 6273 .

TSTD 6265. Sport Law: Contracts and Negotiations. 3 Credits.

Examination of legislation and specific case law as related to professional and amateur athletes, sport events, licensed merchandise, broadcast and sponsorship rights. Topics include labor and anti-trust law; contract negotiation, specifications, and interpretation.

TSTD 6266. Sport and Event Facility Management. 3 Credits.

Financing, market analysis, design, operations, and marketing of sport and event facilities from stadiums and arenas to amphitheaters and convention centers.

TSTD 6267. Sport Media and Communications. 3 Credits.

Concepts and practices of sport public relations, media relations and management, the Internet, and other media utilized in sports. Press releases, publications, crisis management, and press operations.

TSTD 6270. Tourism and Hospitality Management Research. 3 Credits.

Survey research and other research methods and their applications to tourism, hospitality, sport, event, or related management.

TSTD 6276. Risk Management for Events and Meetings. 3 Credits.

Risk and liability issues that may arise in the planning and management of events, meetings, conventions, and exhibitions. Preventative and responsive measures designed to minimize adverse impacts on event stakeholders.

TSTD 6277. Event Management. 3 Credits.

An introduction to the theoretical and practical foundations of event management. Fundamentals of planning, budgeting, and evaluating events. Prerequisite: M.T.A. candidacy or permission of instructor.

TSTD 6278. Conference and Exposition Management. 3 Credits.

Site selection, program planning and management, exhibits, selection and use of facility, volunteers, and budget management.

TSTD 6279. Event Entertainment Management. 3 Credits.

Event entertainment, including designing and planning the entertainment component of an event, as well as managing and marketing entertainers in an event context.

TSTD 6280. Advanced Workshop. 1-6 Credits.

Workshops with emphasis on contemporary issues and opportunities; development of advanced professional competencies. May be repeated for credit with permission of advisor.

TSTD 6282. International Experiences. 1-6 Credits.

Travel to a foreign country for study of specific topics. May be repeated for credit with approval of advisor.

TSTD 6283. Practicum. 1-3 Credits.

For graduate students enrolled in a degree program or field offered through the department. Fieldwork, internship, and/or instructional practice, including conference and/or seminar. May be repeated once for credit with permission of advisor.

TSTD 6290. Special Topics. 1-3 Credits.

Experimental offering; new course topics and teaching methods. May be repeated once for credit.

TSTD 6293. Independent Study. 1-6 Credits.**TSTD 6296. Travel Information Management Systems. 3 Credits.**

Database utilization, information analysis, reservation systems, computer applications including the Internet, and related travel management systems.

TSTD 6297. Advanced Topical Studies. 3 Credits.

Required capstone experience for tourism administration students who do not select the thesis option. Analysis of case situations involving policy formulation or management decision making; emphasis on applied strategic planning and management approaches.

TSTD 6298. Directed Reading and Research. 1-3 Credits.

Supervised readings or research. Admission by prior permission of instructor. May be repeated for credit.

TSTD 6998. Thesis Research. 3-6 Credits.**TSTD 6999. Thesis Research. 3 Credits.**

TURKISH (TURK)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

TURK 1001. Beginning Turkish I. 0-4 Credits.

Fundamentals of speaking, understanding, reading, and writing of Modern Standard Turkish. Laboratory fee.

TURK 1002. Beginning Turkish II. 0-4 Credits.

Continuation of TURK 1001. Fundamentals of speaking, understanding, reading, and writing of Modern Standard Turkish. Laboratory fee.

TURK 2001. Intermediate Turkish I. 4 Credits.

Further development of speaking, understanding, reading, and writing skills of Modern Standard Turkish. Prerequisite: TURK 1001- TURK 1002 . Laboratory fee.

TURK 2002. Intermediate Turkish II. 4 Credits.

Continuation of TURK 2001. Further development of speaking, understanding, reading, and writing skills of Modern Standard Turkish. Prerequisite: TURK 1001- TURK 1002 . Laboratory fee.

TURK 3001. Advanced Turkish. 3 Credits.

This course is designated to develop proficiency in Turkish at the advanced level. Instruction and class activities are oriented toward proficiency goals. In-class practice will require extensive student involvement in interactive activities with peers as well as preparation and homework assignments outside of class. Students in this class will be afforded the opportunity to improve their writing skill, learn and use Turkish connectors, to construct cohesive paragraphs. They will be also able to practice, speaking, listening, and reading Turkish in a variety of contexts and situations that they likely encounter in Turkey.

TURK 3302. Media Turkish. 3 Credits.

This course exposes students to various types of mass media available in Turkey. Through this exposure, students will learn to analyze and use the Turkish language in step with the linguistic realities of contemporary Turkey. Newspapers and magazine articles will be read and analyzed for style and organization, and their contents will be debated and scrutinized for hidden biases. Newscasts will include current events, news bulletin, interviews, and documentaries.

UNIVERSITY WRITING (UW)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

UW 1010. College Academic English. 3 Credits.**UW 1015. Writing Sem. Summer Scholars. 3 Credits.****UW 1020. University Writing. 4 Credits.**

University-level, independent research and writing. Learning to frame research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Developing strategies to draft and revise clear, engaging prose for a variety of purposes and audiences. Thematically oriented seminars; texts and course topics vary among instructors. For topics see www.gwu.edu/~uwp/fyw/uw20-courses.html.

UW 2020. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

UW 2020W. Advanced Topics in Writing. 3 Credits.

For a variety of purposes and audiences, students frame scholarly research questions, identify and analyze supportive and contradictory evidence, employ a variety of research methods, and use the ideas of other writers appropriately. Focus on the norms of writing in particular fields, including rhetorical approaches and stylistic conventions.

UW 2031. Equality & the Law. 3 Credits.

Introduction to how lawyers and legal scholars research and write about specific disputes that arise in the context of complex social issues. The institutional assumptions about the content and style of legal writings. Briefs, legal memoranda, law review articles, resolutions, and many other specialized legal writing forms.

UW 2031W. Equality & the Law. 3 Credits.**UW 2111. Preparation for Peer Tutors in Writing. 3 Credits.**

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

UW 2111W. Preparation for Peer Tutors in Writing. 3 Credits.

For undergraduates accepted as tutors in the Writing Center: study and practice of techniques for prewriting, writing, and revision; readings on collaborative learning, the composing process, composition theory, cognitive psychology, critical thinking, and the teaching of writing; observation and exercises in writing, peer review, and tutoring. Limited to 15 students.

UW 6213. Theory/Prac. Teaching Writing. 3 Credits.

VIETNAMESE (VIET)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000–4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

VIET 1001. Beginning Vietnamese I. 4 Credits.

Fundamentals of grammar and pronunciation, with an introduction to reading and writing.

VIET 1002. Beginning Vietnamese II. 4 Credits.

Continuation of VIET 1001. Fundamentals of grammar and pronunciation, with an introduction to reading and writing.

VIET 1003. Intermediate Vietnamese I. 4 Credits.

Continuation of grammar, with emphasis on speaking, reading, and writing.

VIET 1004. Intermediate Vietnamese II. 4 Credits.

Continuation of VIET 2003. Continuation of grammar, with emphasis on speaking, reading, and writing.

WOMEN AND LEADERSHIP PROGRAM (WLP)

COURSES

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

WLP 1020. WLP Humanities Seminar. 3 Credits.

A writing-intensive seminar that emphasizes critical reading skills, concepts of disciplinarity, and processes of producing and legitimating knowledge. Texts and emphasis vary according to cohort.

WLP 1110. Women and Leadership I Symposium (I). 1 Credit.

A series of special programs that complements WLP 1101- WLP 1102. Concurrent registration in WLP 1101- WLP 1102 is required.

WLP 1111. Women and Leadership I Symposium (II). 1 Credit.

Continuation of WLP 1110. A series of special programs that complements WLP 1101- WLP 1102. Concurrent registration in WLP 1101- WLP 1102 is required.

WLP 4198. WLP Independent Study. 3 Credits.

WOMEN'S STUDIES (WSTU)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students
- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

WSTU 1000. Dean's Seminar. 3 Credits.

The Dean's Seminars provide Columbian College first-year students focused scholarship on specific intellectual challenges. Topics vary by semester. Consult the Schedule of Classes for more details. Restricted to First-year students in CCAS.

WSTU 1020. Approaches to Women's History. 3 Credits.

Exploration of critical periods of intellectual and cultural change in Western societies as influenced by and affecting women. Examination of images of women and of changing ideal types of femininity and masculinity. Aspects of law, religion, art, culture, work, and politics in relation to these topics. Same as HIST 1020.

WSTU 2120. Intro to Women's Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women's status in Western culture. Experiences of girls and women in various racial-ethnic, class, and age groups. Alternative visions for women's (and, by implication, men's) roles and status.

WSTU 2120W. Intro to Women's Studies. 3 Credits.

A multidisciplinary examination of historical conditions, cultural norms, and social institutions that define women's status in Western culture. Experiences of girls and women in various racial-ethnic, class, and age groups. Alternative visions for women's (and, by implication, men's) roles and status. Sophomore standing required.

WSTU 2121. The Anthropology of Gender: Cross-Cultural Perspectives. 3 Credits.

Anthropological representations of gender relations in "other" cultures have provided important case material for feminist theorizing of sex differences and gender roles and statuses. How a cross-cultural approach can inform our understanding of gender. Same as ANTH 2501.

WSTU 2125. Varieties of Feminist Theory. 3 Credits.

Classical and contemporary texts on feminist explanations of women's status. Relationships within the sex/gender system and arrangements based on class and race. Evaluation, through the lens of feminist theory, of several academic disciplines in the sciences, social sciences, and humanities. Prerequisite: WSTU 1020 or WSTU 2120 or permission of instructor.

WSTU 2135. A Study of Women and Media. 3 Credits.

The role media plays in women's lives. The limits and effects of a "dominant" media; representations of women in print media and television, especially advertising, and in books and film. How women have attempted to articulate a culture that serves their personal, political, and social interests.

WSTU 2380. Sexuality in US Cultural Hist. 3 Credits.

Examination of the changing social organization and meaning of sexual practices and desires in American culture, with particular attention to the relationship between sexuality and gendered racial and class identities and politics. Same as AMST 2380/ HIST 2380.

WSTU 3136. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Confucian writing, traditional theatre, and films and novels set in China. A general survey of Chinese history establishes the context for discussions of cultural and political phenomena, such as foot binding and the one-child policy. Course conducted in English. Same as CHIN 3136.

WSTU 3136W. Chinese Women in Myth, Literature, and Film. 3 Credits.

Women's position in Chinese cultural and political life from prehistoric myth to the present time. Confucian writing, traditional theatre, and films and novels set in China. A general survey of Chinese history establishes the context for discussions of cultural and political phenomena, such as foot binding and the one-child policy. Course conducted in English. (Same as CHIN 3136W).

WSTU 3170. Selected Topics. 0-4 Credits.

Examination and analysis of central issues in women's studies, such as women and difference, women in media, women and violence, athletics and gender. Topic changes each semester; may be repeated for credit.

WSTU 3170W. Selected Topics. 0-4 Credits.

Examination and analysis of central issues in women's studies, such as women and difference, women in media, women and violence, athletics and gender. Topic changes each semester; may be repeated for credit.

WSTU 3195. Undergraduate Research. 1-3 Credits.

A written proposal approved by the member of the faculty who will supervise the research is required prior to registration.

WSTU 3235. Women and Law. 3 Credits.

Contemporary legal issues that affect women in the United States. Using legal texts and related articles, the course considers a range of theories and documents that are relevant to issues such as violence against women, marriage and divorce, employment, immigration, and reproductive rights.

WSTU 3281. Women in Judaism. 3 Credits.

Jewish women's spirituality as reflected in personal writings, ritual, liturgy, and midrash. Jewish women's history and legal status. Same as REL 3281.

WSTU 3352. Women in the United States I. 3 Credits.

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3352, HIST 3352).

WSTU 3352W. Women in the United States I. 3 Credits.

Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. Same as HIST 3352/ AMST 3352.

WSTU 3353. Women in the United States II. 3 Credits.

Continuation of WSTU 3352. Survey of women's experience in U.S. history, the way gender has organized relations of power, and the impact of race, region, class, and ethnicity on women and on gender roles. (Same as AMST 3353, HIST 3353).

WSTU 3362. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as HIST 3362, AMST 3362).

WSTU 3362W. African American Women's History. 3 Credits.

Addresses the history of African American women's labor, cultural expression, institution-building, activism and strategies to combat oppression from the antebellum period through the late 20th century. Investigates the intersection of race, gender, and class as it has shaped U.S. society, racism, the black freedom movement and African American women's experiences. (Same as HIST 3362W, AMST 3362W).

WSTU 3410. Lesbian History and Culture. 3 Credits.

Examination of lesbian identity, community, and legal rights from a scholarly feminist perspective.

WSTU 3435. Queer Politics. 3 Credits.

The history of "Lesbian, Gay, Bisexual, Transgender, and Queer" (LGBTQ) politics in the United States. Analysis of influences and intersections of race and ethnicity, class, gender identity and expression, sexuality, sex, and age. Contemporary policy debates relevant to Queer politics.

WSTU 3470. Sexuality and Law. 3 Credits.

Exploration of the ways in which the law has affected individuals' ability to express their sexuality, with a primary focus on sexual orientation and issues such as marriage, adoption, voting rights, sexual harassment, and military service.

WSTU 3481. Women in Islam. 3 Credits.

The ways in which Islam has articulated gender identity and male-female relationships, and conversely, how women have constructed, interpreted, and articulated Islam and their places within it. Same as REL 3481.

WSTU 3530. Women in Africa. 3 Credits.

African women from prehistory to the present, focusing on culture, the role of gender, and outside influences and their impact on women's history. Same as HIST 3530.

WSTU 3820. Global Domestic Labor. 3 Credits.

Consideration of women's paid and unpaid domestic labor, including care work, in the context of global and globalizing political and cultural economies.

WSTU 3845. Global Women's Prison. 3 Credits.

This course examines women's confinement and incarceration in the context of global and globalizing political and cultural economies.

WSTU 3881. Women, Gender, and Religion in China. 3 Credits.

A historical introduction to the concepts of body, gender, and womanhood in Confucian, Daoist, Buddhist, and popular Chinese religious traditions. Women's roles in religious ritual and practices; the influence of Christianity and modernity. Same as REL 3881.

WSTU 3981. Women in Western Religion. 3 Credits.

WSTU 4183. Practicum in Women's Studies. 3 Credits.

Study of the changing status of women through supervised placement in public and private agencies engaged in policymaking, education, political action, and research. Usually for seniors. Placement arrangements must be made the semester prior to registration; departmental permission is required. (Same as WSTU 6283).

WSTU 4199. Senior Seminar. 3 Credits.

For students completing a major or minor in women's studies. Writings of contemporary scholars and writers whose work provides critical frameworks for feminist scholarship and research. Individual or collaborative research projects are presented and submitted as written papers.

WSTU 6220. Fundamentals of Feminist Theory. 3 Credits.

A survey of historical theories significant to feminist thought, such as liberalism, socialism, evolution, psychoanalysis, and gendered spheres of social action. How these theories were revived and revised by the Second Wave of feminism since the 1960s. Brief examination of postmodernist and Third Wave feminist theorizing.

WSTU 6221. Research Issues in Women's Studies. 3 Credits.

Analysis of the contribution of feminist or gender-relations perspectives from humanities and social science disciplines to the issues and methods of social research and social policy and practice. Topics include a review of feminist frameworks, a critique and re-evaluation of traditional academic disciplines, and analysis of current research on and for women.

WSTU 6225. Contemporary Feminist Theory. 3 Credits.

Developments in feminist theory in the past ten years, with a primary focus on American feminism and its relationship to queer theory and sexuality studies.

WSTU 6230. Global Feminisms. 3 Credits.

The individuals, groups, and policies that shape global agenda for women; local and international fora in which global feminisms are forged.

WSTU 6238. Feminist Ethics and Policy Implications. 3 Credits.

Feminist critiques of traditional ethical reasoning; alternative feminist ethical frameworks examined and applied to contemporary social problems (e.g., respecting cultural differences, dependency, disability). Same as PHIL 6238. Prerequisite: Phil 2125 or 2131 or permission of instructor.

WSTU 6240. Women and Public Policy. 3 Credits.

Analysis of gender-related U.S. policy issues, such as domestic violence, military service, abortion rights, equal employment opportunity, child and dependent care, welfare, social security, and international development assistance.

WSTU 6241. Women and the Law. 3 Credits.

Legal status of women in the United States on both the federal and state levels. Emphasis on constitutional equality, employment law, family law, reproduction and sexuality, and the criminal justice system.

WSTU 6251. Women and Writing. 3 Credits.

Selected topics in the traditions, theory, and texts of women's literary production and culture. Same as ENGL 6540.

WSTU 6257. Gender and Sexuality. 3 Credits.

Study of new theoretical and methodological approaches developed in the anthropology of gender. Topics include postcolonialism, sexuality, and literary representations of gender. Same as ANTH 6501.

WSTU 6265. Women, Welfare & Poverty. 3 Credits.

Examination of how the causes and consequences of poverty differ for women and men; how race, class, and gender shape policy responses to poverty. The history of family assistance policy in the United States and the impact of various welfare reform efforts. Same as SOC 6265.

WSTU 6266. Gender & Criminal Justice. 3 Credits.

How understandings, practices, and theories of gender shape the workings of criminal justice systems, including issues of criminality and responses to crime, victimization and violence, and definitions of illegal behaviors. Same as SOC 6266.

WSTU 6268. Race, Gender and Class. 3 Credits.

How social structures are constructed through race, gender, and class and how they shape experience. The intersections of race, gender, and class in education, science, politics, labor markets, and social welfare policies. Same as SOC 6268.

WSTU 6270. Seminar: Selected Topics. 3 Credits.

Investigation of a current policy issue of particular concern to women, or consideration of women's status in a particular social system. Topics have included women and health; sexualities; women and Judaism; black women; gender, race, and class. May be repeated for credit.

WSTU 6271. Gender and Society. 3 Credits.

Examination of current empirical and theoretical work on gender as an organizing principle of social relations. Consideration of the relationship of gender to sex and sexuality. Same as SOC 6271.

WSTU 6280. Independent Study. 3 Credits.

May be repeated for credit. Arrangements must be made with sponsoring faculty member prior to registration.

WSTU 6283. Practicum in Women's Studies. 3-6 Credits.

Study of the changing status of women through supervised assignment to public and private agencies engaged in policymaking, education, political action, and research. Placement arrangements must be made the semester prior to registration; departmental permission is required. Graduate students may take the course for either 3 or 6 credits, with substantial additional research and writing of a case study required for 6 credits. (Same as WSTU 4183).

WSTU 6295. Independent Research in Women's Studies. 1-3 Credits.

Individual library or field research. Arrangements must be made with the sponsoring faculty member prior to registration; a written proposal is required.

WSTU 6430. Gender, Sexuality, and American Culture. 3 Credits.

The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. Pre-Columbian settlement to 1876. Same as AMST 6430/ HIST 6430.

WSTU 6431. Gender, Sexuality, and American Culture. 3 Credits.

Continuation of WSTU 6430. The changing social organization, cultural representation, and meaning of gender and sexuality in the United States, with emphasis on their relationship to race, class, region, nationality, empire, and globalization. 1877 to present. Same as AMST 6431/ HIST 6431.

WSTU 6435. Readings on Women in American History. 3 Credits.

Important works in American women's history; evolution of the field in historiographical context. Same as AMST6435/HIST 6435.

WSTU 6998. Thesis Research. 3 Credits.**WSTU 6999. Thesis Research. 3 Credits.****WSTU 8275. Women and Health. 3 Credits.**

Theoretical and empirical analyses of women's health: how women's health is constructed by medical, psychological, and critical theorists; how sexism, racism, and classism contribute to women's health problems; and identification of conditions that lead to optimal health and well-being. Same as PSYC 8275.

- The 6000s are open to advanced undergraduate students with approval of the instructor and the dean or advising office

YDSH 1001. Yiddish for Reading and Conversation I. 3 Credits.

Grammatical essentials of the language, appropriate reading selections, conversational exercises for beginners.

YDSH 1002. Yiddish for Reading and Conversation II. 3 Credits.

Continuation of YDSH 1001. Grammatical essentials of the language, appropriate reading selections, conversational exercises for beginners.

YIDDISH (YDSH)

Explanation of Course Numbers

- Courses in the 1000s are primarily introductory undergraduate courses
- Those in the 2000-4000s are upper-division undergraduate courses that can also be taken for graduate credit with permission and additional work
- Those in the 6000s and 8000s are for master's, doctoral, and professional-level students

FACULTY

(as of Fall 2014)

Columbian College of Arts and Sciences

School of Business

Graduate School of Education and Human Development

School of Engineering and Applied Science

Elliott School of International Affairs

Emeriti

Fred Paul Abramson, *Professor Emeritus of Pharmacology*
B.A. 1962, Case Western Reserve University; Ph.D. 1965, Ohio State University

Eugene Abravanel, *Professor Emeritus of Psychology*
B.A. 1955, University of Michigan; M.A. 1960, Swarthmore College; Ph.D. 1965, University of California, Berkeley

Lewis Francis Affronti, *Professor Emeritus of Microbiology and Immunology*
B.A. 1950, M.A. 1951, State University of New York at Buffalo; Ph.D. 1958, Duke University

John D. Albertson, *Adjunct Professor Emeritus of Music*
B.M. 1981, Catholic University of America

Catherine Jean Allen, *Professor Emeritus of Anthropology and International Affairs*
B.A. 1969, St. John's College, Maryland; M.A. 1972, Ph.D. 1978, University of Illinois

Frederick Amling, *Professor Emeritus of Business Finance*
B.A. 1948, Baldwin-Wallace College; M.B.A. 1949, Miami University; Ph.D. 1957, University of Pennsylvania

Jeffrey Clifford Anderson, *Professor Emeritus of Art*
B.A. 1970, University of Pittsburgh; M.F.A. 1973, Ph.D. 1976, Princeton University

Galip Mehmet Arkilic, *Professor Emeritus of Engineering and Applied Science*
B.S. in M.E. 1946, Cornell University; M.S. 1947, Illinois Institute of Technology; Ph.D. 1954, Northwestern University

Joseph Aschheim, *Professor Emeritus of Economics*
B.A. 1951, University of California, Berkeley; M.A. 1953, Ph.D. 1954, Harvard University

Ines Azar, *Professor Emeritus of Spanish*
M.A. 1969, Ph.D. 1974, Johns Hopkins University

Robert Edward Baker, *Professor Emeritus of Education*
B.S. in Ed. 1939, State University of New York at Buffalo; M.A. 1954, Catholic University of America; M.A. in Ed. 1956, Ed.D. 1962, George Washington University

Shirley Russell Barnett, *Associate Professor Emeritus of Spanish*

B.A. 1944, Vassar College; M.A. 1946, Vanderbilt University; Ph.D. 1958, University of Minnesota

Nancy Joan Belknap, *Professor Emeritus of Special Education*
B.S. 1966, University of Michigan; M.A. in Ed. 1970, George Washington University; Ed.D. 1978, American University

Diane Bell, *Professor Emeritus of Anthropology*
B.A. 1975, Monash University, Australia; Ph.D. 1980, Australian National University

Robert Michael Birch, *Adjunct Professor Emeritus of Music*
B.Mus. 1976, University of New Hampshire; M.Mus. 1978, Ohio State University; D.M.A. 1991, Catholic University of America

Peter Bock, *Professor Emeritus of Engineering*
B.A. 1962, Ripon College; M.S. 1964, Purdue University

Giorgio Vittorio Borgiotti, *Professor Emeritus of Engineering and Applied Science*
Eng.Dr. 1957, University of Rome

John Gordon Boswell, *Professor Emeritus of Education*
B.A. in Ed. 1953, M.A. in Ed. 1956, Ed.D. 1963, George Washington University

Lloyd Spencer Bowling, *Professor Emeritus of Speech and Hearing*
B.A. 1954, M.A. 1957, Ed.D. 1964, University of Maryland

George Robert Bozzini, *Associate Professor Emeritus of English*
B.S. 1961, Ph.D. 1971, Georgetown University

Mary Diane Majerus Brewer, *Associate Professor Emeritus of Speech and Hearing*
B.A. 1963, M.A. 1965, University of Iowa

Frederick James Brown, Jr., *Professor Emeritus of Education*
B.A. 1947, M.Ed. 1951, Western Maryland College; Ed.D. 1962, Columbia University

Kenneth Michael Brown, *Professor Emeritus of Biology*
B.S. 1973, Ph.D. 1982, Michigan State University; M.S. 1975, University of Florida

Robert Guy Brown, *Professor Emeritus of Sociology*
B.A. 1949, University of Rhode Island; M.A. 1951, Ph.D. 1960, University of North Carolina

James Franklin Burks, *Professor Emeritus of French*
B.A. 1951, M.A. 1952, University of Cincinnati; Ph.D. 1957, Indiana University

John Robert Burns, *Professor Emeritus of Zoology*
B.S. 1968, City University of New York, Brooklyn College; M.S. 1972, Ph.D. 1974, University of Massachusetts

Ali Bulent Cambel, *Professor Emeritus of Engineering and Applied Science*
B.S. 1942, Robert College, Turkey; M.S. 1946, California Institute of Technology; Ph.D. 1950, University of Iowa

Edward Alan Caress, *Professor Emeritus of Chemistry*
B.A. 1958, Dartmouth College; Ph.D. 1963, University of Rochester

John H. Carson, *Professor Emeritus of Information Systems and Technology Management*
B.S. in E.E. 1969, M.S. 1970, Ph.D. 1976, Lehigh University

Bayard Lacey Catron, *Professor Emeritus of Public Administration*
B.A. 1963, Grinnell College; M.A. 1965, University of Chicago; M.C.P. 1972, Ph.D. 1975, University of California, Berkeley

Peter James Caws, *University Professor Emeritus of Philosophy*
B.Sc. 1952, University of London; M.A. 1954, Ph.D. 1956, Yale University

Anna Uhl Chamot, *Professor Emeritus of Curriculum and Pedagogy*
B.A. 1954, George Washington University; M.A. 1957, Columbia University; Ph.D. 1972, University of Texas

Stephen Reed Chitwood, *Professor Emeritus of Public Administration*
B.A. 1962, University of Colorado; M.P.A. 1965, Ph.D. 1966, University of Southern California; J.D. 1977, George Washington University

Maxine D. Clair, *Professor Emeritus of English*
B.S. 1963, University of Kansas; M.F.A. 1984, American University

Mary Ann Bieter Coffland, *Associate Professor Emeritus of Romance Languages*
B.A. 1952, College of St. Catherine; M.A. 1957, Ph.D. 1965, University of Minnesota

Victor Hugo Cohn, *Professor Emeritus of Pharmacology*
B.S. 1952, Lehigh University; M.A. 1954, Harvard University; Ph.D. 1961, George Washington University

Mary Ellen Coleman, *Professor Emeritus of Education*
B.S. 1937, Madison College; M.A. in Ed. 1950, George Washington University

Gary J. Confessore, *Professor Emeritus of Higher Education Administration*
B.S. 1963, Norwich University; M.S. 1968, Troy State University; M.A. 1972, Ed.D. 1974, Columbia University

Frank Bernard Conlon, *Adjunct Professor Emeritus of Music*
B.M. 1967, M.M. 1969, Catholic University of America

John B. Conway, *Professor Emeritus of Mathematics*
Ph.D. 1965, Louisiana State University

Constance Christian Costigan, *Professor Emeritus of Design*
B.S. 1957, Simmons College; M.A. 1965, American University

John Patrick Coyne, *Professor Emeritus of Information Systems and Technology Management*

B.S. 1967, Iona College; M.S. 1968, Ph.D. 1970, Lehigh University

Dwight Sheffrey Cropp, *Associate Professor Emeritus of Public Policy and Public Administration*
B.A. 1960, M.A. 1965, Howard University; M.P.A. 1977, American University; Ed.D. 1988, George Washington University

Barbro E. Dahlman, *Adjunct Professor Emeritus of Music*
B.M. 1967, Royal Academy of Music, Sweden; Artist's Diploma 1971, Edsberg College of the Swedish Radio

Ildiko P. DeAngelis, *Associate Professor Emeritus of Museum Studies*
M.A. 1974, State University of New York at Binghamton; J.D. 1980, American University

Linda Grant DePauw, *Professor Emeritus of American History*
B.A. 1961, Swarthmore College; Ph.D. 1964, Johns Hopkins University

Donald Wilson Dew, *Professor Emeritus of Counseling*
B.S. 1964, University of Baltimore; M.S. 1970, Medical College of Virginia of Virginia Commonwealth University; Ed.D. 1976, American University

James Fearing Dinwiddie, *Professor Emeritus of Engineering Management*
B.S. 1948, Carnegie Institute of Technology; M.S. 1956, North Carolina State University; M.S. 1966, Ph.D. 1972, Stanford University

John K. Donaldson, Jr., *Associate Professor Emeritus of English as a Foreign Language*
B.A. 1956, University of Rochester; M.A. 1957, Middlebury College; M.S. 1980, Georgetown University; Ph.D. 1995, George Washington University

Miriam Violet Wein Dow, *Assistant Professor Emeritus of English*
B.A. 1959, University of Akron; M.A. 1960, University of Michigan; Ph.D. 1977, University of Maryland

Robert Frederick Dyer, *Professor Emeritus of Business Administration*
B.S. in B.A. 1965, M.B.A. 1966, Bowling Green State University; D.B.A. 1972, University of Maryland

Maurice Alden East, *Professor Emeritus of International Affairs and Political Science*
B.A. 1963, Colgate University; M.A. 1966, Ph.D. 1969, Princeton University

Marvin F. Eisenberg, *Professor Emeritus of Engineering and Applied Science*
B.S. in E.E. 1953, University of Miami; M.S. in Engr. 1954, Ph.D. 1961, University of Florida; P.E.

Julian Eisenstein, *Professor Emeritus of Physics*
B.S. 1941, M.A. 1942, Ph.D. 1948, Harvard University

Howard Eisner, *Distinguished Research Professor Emeritus and Professor Emeritus of Engineering Management*
B.E.E. 1957, City University of New York, City College; M.S. 1958, Columbia University; D.Sc. 1966, George Washington University

Elaine H. El-Khawas, *Professor Emeritus of Education Policy*
B.A. 1965, George Washington University; M.A. 1967, Ph.D. 1984, University of Chicago

Donald Michael Esterling, *Professor Emeritus of Engineering*
B.S. 1964, University of Notre Dame; M.A. 1966, Ph.D. 1968, Brandeis University

James Edward Falk, *Professor Emeritus of Operations Research*
B.E.E. 1960, University of Detroit; M.S. 1961, Ph.D. 1965, University of Michigan

James Elmer Feir, *Professor Emeritus of Civil Engineering*
B.S. 1950, University of Alberta, Canada; M.S. 1955, University of London; Ph.D. 1966, Cambridge University

Michael Bliss Feldman, *Professor Emeritus of Engineering and Applied Science*
B.S.E. 1966, Princeton University; M.S.E. 1970, Ph.D. 1973, University of Pennsylvania

Reynolds Ferrante, *Professor Emeritus of Education*
B.S. 1957, Glassboro State College; M.Ed. 1961, Rutgers University; Ed.D. 1974, Pennsylvania State University

Anthony Vincent Fiacco, *Professor Emeritus of Operations Research and Applied Science*
B.A. 1950, Union College, New York; Ph.D. 1967, Northwestern University

Nicolae Filipescu, *Professor Emeritus of Chemistry*
Ph.D. 1957, University of Industrial Chemistry, Polytechnical Institute, Romania; Ph.D. 1964, M.D. 1975, George Washington University

Mary Baker Findley, *Adjunct Professor Emeritus of Music*
B.M. 1965, M.M. 1966, D.M.A. 1974, University of Cincinnati

Douglas Carleton Frechtling, *Professor Emeritus of Tourism Studies*
B.A. 1965, Hamilton College; Ph.D. 1973, George Washington University

Roderick Stuart French, *Professor Emeritus of Philosophy; Vice President Emeritus for Academic Affairs*
B.A. 1954, Kenyon College; M.Div. 1957, Episcopal Divinity School; S.T.M. 1965, Union Theological Seminary; Ph.D. 1971, George Washington University

Gideon Frieder, A. James Clark Professor Emeritus of Engineering and Applied Science
B.Sc. 1959, M.Sc. 1961, D.Sc. 1967, Technion, Israel

Arthur Daniel Friedman, *Professor Emeritus of Engineering and Applied Science*

B.A. 1961, B.S. in E.E. 1962, M.S. in E.E. 1963, Ph.D. 1965, Columbia University

Michael Graham Gallagher, *Professor Emeritus of Accountancy*
B.A. in Govt. 1960, J.D. 1964, LL.M. 1971, George Washington University; C.P.A. 1965, State of Virginia

Linda Lou Gallo, *Professor Emeritus of Biochemistry and Molecular Biology*
B.S. 1959, West Virginia University; M.S. 1963, Ph.D. 1969, George Washington University

Robert Norton Ganz, Jr., *Professor Emeritus of English*
B.A. 1949, M.A. 1951, Ph.D. 1959, Harvard University

Harry Irving Gates, *Professor Emeritus of Sculpture*
B.F.A. 1958, M.F.A. 1960, University of Illinois

Lyndale Harpster George, *Associate Professor Emeritus of Human Kinetics and Leisure Studies*
B.S. in P.E. 1948, M.A. in Ed. 1952, A.P.C. 1961, George Washington University

Charles Matthew Gilmore, *Professor Emeritus of Engineering and Applied Science*
B.S. 1963, M.S. 1964, Pennsylvania State University; Ph.D. 1971, University of Maryland; P.E.

Irving Isadore Glick, *Professor Emeritus of Mathematics*
B.A. 1953, Johns Hopkins University; Ph.D. 1961, University of Maryland

Robert Stanley Goldfarb, *Professor Emeritus of Economics and of Public Policy*
B.A. 1964, Columbia University; M.A. 1965, M.Phil. 1967, Ph.D. 1968, Yale University

Marvin Gordon, *Professor Emeritus of Geography and Regional Science*
B.A. 1942, City University of New York, City College; M.A. 1954, Ph.D. 1966, Columbia University

Robert Goulard, *Professor Emeritus of Engineering and Applied Science*
Ph.D. 1957, Purdue University

David D. Gow, *Baker Professor Emeritus of Anthropology and International Affairs*
M.A. 1964, University of Aberdeen; M.A. 1971, Ph.D. 1976, University of Wisconsin

Joseph Arthur Greenberg, *Professor Emeritus of Education*
B.S. in Bus.Ed. 1966, Salem State College; Ed.M. 1968, Ed.D. 1974, Boston University

Donald Gross, *Professor Emeritus of Operations Research*
B.S. 1956, Carnegie Mellon University; M.S. 1959, Ph.D. 1962, Cornell University; P.E.

Roy James Guenther, *Professor Emeritus of Music*

B.Mus.Ed. 1966, Mus.B. 1968, University of Kansas; M.A. 1974, Ph.D. 1979, Catholic University of America

William Emmitt Halal, *Professor Emeritus of Information Systems and Technology Management*

B.S. 1956, Purdue University; M.B.A. 1970, Ph.D. 1971, University of California, Berkeley

Janet J. Hampton, *Associate Professor Emeritus of Spanish*

B.A. 1958, University of Kansas; M.A. 1961, Mexico City College; Ph.D. 1985, Catholic University of America

Michael Mont Harmon, *Professor Emeritus of Public Policy and Public Administration*

B.A. 1963, Utah State University; M.P.A. 1966, Ph.D. 1968, University of Southern California

John Richard Harrauld, *Professor Emeritus of Engineering Management*

B.S. 1964, U.S. Coast Guard Academy; M.A.L.S. 1969, Wesleyan University; M.S. 1978, Massachusetts Institute of Technology; M.B.A. 1972, Ph.D. 1982, Rensselaer Polytechnic Institute

Cynthia E. Harrison, *Associate Professor Emeritus of History*

B.A. 1966, City University of New York, Brooklyn College; M.S.L.S. 1967, Ph.D. 1982, Columbia University

Jerry Harvey, *Professor Emeritus of Management Science*

B.B.A. 1957, Ph.D. 1963, University of Texas

Janet Craig Heddesheimer, *Professor Emeritus of Counseling*

B.A. 1965, Coe College; M.A. 1968, Ph.D. 1971, Ohio State University

Charles Joseph Herber, *Associate Professor Emeritus of European History and International Affairs*

B.A. 1952, Dickinson College; M.A. 1957, Ph.D. 1965, University of California, Berkeley

Peter Proal Hill, *Professor Emeritus of History and International Affairs*

B.A. 1949, Tufts University; M.A. 1954, Boston University; Ph.D. 1966, George Washington University

James William Hillis, *Professor Emeritus of Speech and Hearing*

B.S. 1952, University of Nebraska; M.A. 1957, University of Maryland; Ph.D. 1963, Ohio State University

Joseph Hilmy, *Professor Emeritus of Accountancy*

B.Com. 1947, M.S. 1954, Ph.D. 1959, University of Aberdeen, Scotland

Denis Michael Hitchcock, *Associate Professor Emeritus of Art*

B.A. 1967, University of California, Los Angeles; M.F.A. 1970, Ph.D. 1977, Princeton University

Lance Joel Hoffman, *Professor Emeritus of Computer Science*

B.S. 1964, Carnegie Mellon University; M.S. 1967, Ph.D. 1970, Stanford University

Dorothy Evans Holmes, *Professor Emeritus of Clinical Psychology*

B.S. 1963, University of Illinois; M.A. 1966, Ph.D. 1968, Southern Illinois University

Robert William Holmstrom, *Professor Emeritus of Psychology*

B.A. 1956, Trinity College (Connecticut); Ph.D. 1965, Duke University

Gloria Lyon Horrorth, *Professor Emeritus of Education*

B.A. 1952, California State University, Los Angeles; M.A. 1961, California State University, Northridge; Ed.D. 1972, American University

James O. Horton, *Benjamin Banneker Professor Emeritus of American Studies and History*

B.A. 1964, State University of New York at Buffalo; M.A. 1970, University of Hawaii; Ph.D. 1973, Brandeis University

Everett Benjamin Howerton, Jr., *Professor Emeritus of Education Administration*

B.A. 1963, M.A. 1967, Ph.D. 1971, University of Virginia

Terry Lee Hufford, *Professor Emeritus of Botany*

B.S. 1961, M.A. 1962, Bowling Green State University; Ph.D. 1972, Ohio State University

Robert Nicholas Ianacone, *Professor Emeritus of Special Education and Disability Studies*

B.S. 1968, M.S. 1971, State University of New York at Buffalo; Ed.D. 1976, University of Florida

Rita Klein Ives, *Professor Emeritus of Special Education*

B.S. 1953, University of Pittsburgh; M.A. in Ed. 1957, Ed.S. 1967, Ed.D. 1971, George Washington University

Gregg Barry Jackson, *Associate Professor Emeritus of Education Policy*

B.B.A. 1967, University of Hawaii; M.A. 1968, Ph.D. 1972, University of California, Berkeley

Marian Hill Jarrett, *Associate Professor Emeritus of Special Education*

B.S. 1966, West Virginia University; M.A. 1967, Northwestern University; Ed.D. 1985, George Washington University

Dennis W. Johnson, *Professor Emeritus of Political Management*

B.A. 1966, Carleton College; M.A. 1968, Ph.D. 1972, Duke University

Eva Mayne Johnson, *Professor Emeritus of Psychology*

B.A. 1949, M.A. 1951, Ph.D. 1957, George Washington University

Nancy Diers Johnson, *Associate Professor Emeritus of Dance*

B.S. 1955, University of Minnesota; M.A. 1966, University of Iowa; Ed.D. 1980, University of North Carolina at Greensboro

William Reid Johnson, *Associate Professor Emeritus of History and International Affairs*

B.A. 1951, Oberlin College; M.A. 1955, Ph.D. 1961, University of Washington

Diana Entwisle Johnson, *Associate Professor Emeritus of Biology*
B.A. 1970, Cornell College; Ph.D. 1975, University of Chicago

Douglas Linwood Jones, *Professor Emeritus of Engineering*
B.M.E. 1963, M.S.E. 1965, D.Sc. 1970, George Washington University

Walter Kurt Kahn, *Professor Emeritus of Engineering and Applied Science*
B.E.E. 1951, Cooper Union; M.E.E. 1954, D.E.E. 1960, Polytechnic University

Stephen Arnold Karp, *Professor Emeritus of Psychology*
B.A. 1949, City University of New York, Brooklyn College; M.A. 1952, New School for Social Research; Ph.D. 1962, New York University

Irving Jack Katz, *Professor Emeritus of Mathematics*
B.S. 1956, City University of New York, Brooklyn College; M.A. 1958, Ohio State University; Ph.D. 1964, University of Maryland

Roger Emanuel Kaufman, *Professor Emeritus of Engineering*
B.S. 1962, Tufts University; M.F.A. 1965, Yale University; M.E. 1968, Ph.D. 1969, Rensselaer Polytechnic Institute; P.E.

James Edwin Kee, *Professor Emeritus of Public Policy and Public Administration*
B.A. 1966, University of Notre Dame; J.D. 1969, M.P.A. 1977, New York University

John Whitefield Kendrick, *Professor Emeritus of Economics*
B.A. 1937, M.A. 1939, University of North Carolina; Ph.D. 1955, George Washington University

Robert Emmet Kennedy, Jr., *Professor Emeritus of European History*
B.A. 1963, Johns Hopkins University; M.A. 1965, Boston College; Ph.D. 1973, Brandeis University

Robert Wayne Kenny, *Professor Emeritus of History*
B.J. 1953, University of Texas; M.A. 1957, University of Minnesota; Ph.D. 1963, University of Chicago; M.F.A. 1984, George Washington University

Young C. Kim, *Professor Emeritus of Political Science and International Affairs*
M.A. 1956, Vanderbilt University; Ph.D. 1958, University of Pennsylvania

Phyllis Dawn Kind, *Professor Emeritus of Microbiology and Immunology and of Genetics*
B.A. 1955, Montana State University; M.S. 1956, Ph.D. 1960, University of Michigan

James Cecil King, *Professor Emeritus of German*

B.A. 1949, M.A. 1950, Ph.D. 1954, George Washington University

Ali Muhlis Kiper, *Professor Emeritus of Engineering*
M.S. in M.E. 1950, Technical University of Istanbul, Turkey; M.S. in M.E. 1954, Ph.D. 1956, Purdue University; P.E.

Virginia Randolph Kirkbride, *Professor Emeritus of Educational Psychology*
B.A. 1941, M.A. 1942, University of Nebraska; Ed.D. 1959, George Washington University

Arthur David Kirsch, *Professor Emeritus of Statistics and of Psychology*
B.A. 1955, George Washington University; M.S. 1956, Ph.D. 1957, Purdue University

Vladislav Klein, *Professor Emeritus of Engineering*
Mech.Engr. 1954, Technical University, Czechoslovakia; Ph.D. 1974, Cranfield Institute of Technology, England

Philip Klubes, *Professor Emeritus of Pharmacology*
B.S. 1956, City University of New York, Queens College; M.S. 1959, Ph.D. 1962, University of Minnesota

Robert Earle Knowlton, *Professor Emeritus of Biology*
B.A. 1960, Bowdoin College; Ph.D. 1970, University of North Carolina

Marilyn Jean Koering, *Professor Emeritus of Anatomy*
B.A. 1960, College of St. Scholastica; M.S. 1963, Ph.D. 1967, University of Wisconsin

Tzvetan Krumov Konstantinov, *Adjunct Professor Emeritus of Music*
M.Mus. 1974, Bulgarian State Conservatoire

Bruce Michael Kramer, *Professor Emeritus of Engineering and Applied Science*
B.S./M.S. 1972, Ph.D. 1979, Massachusetts Institute of Technology

Ruth Marilyn Krulfeld, *Professor Emeritus of Anthropology and International Affairs*
B.A. 1956, Brandeis University; Ph.D. 1974, Yale University

Frederick Charles Kurtz, *Professor Emeritus of Accountancy*
B.S. in Com. 1948, University of Virginia; M.B.A. 1949, University of Pennsylvania

Jerry Lee Lake, *Professor Emeritus of Photography*
B.F.A. 1966, Virginia Commonwealth University; M.F.A. 1968, Ohio University

Carl James Lange, *Professor Emeritus of Psychology*
B.S. 1945, Duke University; M.S. 1948, Ph.D. 1951, University of Pittsburgh

Phyllis Ann Langton, *Professor Emeritus of Sociology*
B.A. 1961, M.A. 1962, California State University, Los Angeles; Ph.D. 1968, University of California, Los Angeles

Hugh Linus LeBlanc, *Professor Emeritus of Political Science and Public Affairs*

B.A. 1948, Louisiana State University and Agricultural and Mechanical College; M.A. 1950, University of Tennessee, Knoxville; Ph.D. 1958, University of Chicago

Davis Lin-Chuan Lee, *Associate Professor Emeritus of Chinese and International Affairs*

B.S. 1955, Chung-Hsing University, Taiwan; M.S. 1959, University of Minnesota; Ph.D. 1979, Georgetown University

Myrna Pike Lee, *Associate Professor Emeritus of Mathematics*
B.A. 1957, Cornell University; M.S. 1959, Ph.D. 1962, University of Illinois

Ting N. Lee, *Professor Emeritus of Engineering and Applied Science*

B.S.E.E. 1962, Cheng Kung University, Taiwan; M.S.E.E. 1965, Illinois Institute of Technology; Ph.D. 1972, University of Wisconsin

Donald Richard Lehman, *George Gamow Professor Emeritus of Theoretical Physics; Executive Vice President Emeritus for Academic Affairs*

B.A. 1962, Rutgers University; M.S. 1964, Air Force Institute of Technology; Ph.D. 1970, George Washington University

James Daniel Levy, *Adjunct Professor Emeritus of Music*

B.Mus. 1983, George Washington University; M.Mus. 1993, University of Maryland

John Frederick Lewis, *Professor Emeritus of Geology*

B.S. 1959, M.S. 1960, Victoria University, New Zealand; D.Phil. 1964, Oxford University

Roy Charles Lindholm, *Professor Emeritus of Geology*

B.S. 1959, University of Michigan; M.A. 1963, University of Texas; Ph.D. 1967, Johns Hopkins University

John Lobuts, Jr., *Professor Emeritus of Management Science*

B.S. 1957, Fairmont State College; M.A. in Ed. 1965, Ed.D. 1970, George Washington University

Norma Maine Loeser, *Professor Emeritus of Management*

B.A. 1958, M.B.A. 1967, D.B.A. 1971, George Washington University

John Mortimer Logsdon, *Professor Emeritus of Political Science and International Affairs*

B.S. 1960, Xavier University; Ph.D. 1970, New York University

John Carl Lowe, *Professor Emeritus of Geography*

B.A. 1958, M.A. 1960, George Washington University; Ph.D. 1969, Clark University

Gregory Ludlow, *Professor Emeritus of French and International Affairs*

Licence és Lettres 1962, University of Paris; Ph.D. 1970, McGill University, Canada

Eugene Ross Magruder, *Associate Professor Emeritus of Business Administration*

B.B.A. 1950, M.B.A. 1951, University of Texas; Ph.D. 1959, Ohio State University

Marie C. Malaro, *Professor Emeritus of Museum Studies*

B.A. 1954, Regis College; LL.B. 1957, Boston College

Harold George Mandel, *Professor Emeritus of Pharmacology*

B.S. 1944, Ph.D. 1949, Yale University

Jarol B. Manheim, *Professor Emeritus of Media and Public Affairs*

B.A. 1968, Rice University; M.A. 1969, Ph.D. 1971, Northwestern University

Anthony Marinaccio, *Professor Emeritus of Education*

Ed.B. 1937, Central Connecticut State College; M.A. 1939, Ohio State University; Ph.D. 1949, Yale University; LL.D. 1961, Parsons College

Carol Dianne Martin, *Professor Emeritus of Engineering and Applied Science; Vice Provost for Faculty Affairs*

B.A. 1965, Western Maryland College; M.S. 1971, University of Maryland; Ed.D. 1987, George Washington University

Ward Douglas Maurer, *Professor Emeritus of Engineering and Applied Science*

B.S. 1958, University of Chicago; M.A. 1962, Ph.D. 1965, University of California, Berkeley

Albert Louis May III, *Associate Professor Emeritus of Media and Public Affairs*

B.A. 1970, M.A. 1973, M.A. 1974, University of Missouri

Garth Philip McCormick, *Professor Emeritus of Applied Science*

B.A. 1956, Oberlin College; M.A. 1959, University of Michigan

Dorn Charles McGrath, Jr., *Professor Emeritus of Geography and of Urban and Regional Planning*

B.A. 1952, Dartmouth College; M.C.P. 1959, Harvard University

Cynthia J. McSwain, *Professor Emeritus of Public Administration*

B.A. 1972, Vanderbilt University; M.P.A. 1978, Ph.D. 1980, University of North Carolina

Cornelius Glen McWright, *Adjunct Professor Emeritus of Forensic Sciences*

B.A. 1952, University of Evansville; M.S. 1965, Ph.D. 1970, George Washington University

Christine Foster Meloni, *Associate Professor Emeritus of English as a Foreign Language*

B.A. 1963, Wells College; M.A. 1964, Middlebury College; D.Lettere 1975, University of Rome; M.S. 1981, American University; Ed.D. 1987, George Washington University

Arnold Charles Meltzer, *Professor Emeritus of Engineering and Applied Science*

B.S. in Engr. 1958, M.S. in Engr. 1961, D.Sc. 1967, George Washington University

Henry Merchant, *Associate Professor Emeritus of Biology*
B.S. 1964, M.S. 1966, University of Maryland; Ph.D. 1970, Rutgers University

Bernard Matthew Mergen, *Professor Emeritus of American Studies*

B.A. 1959, University of Nevada; M.A. 1960, Ph.D. 1968, University of Pennsylvania

Samuel Burdick Molina, *Professor Emeritus of Art*

B.A. 1964, M.F.A. 1969, University of Wyoming

Dorothy Adele Moore, *Professor Emeritus of Education and International Affairs*

B.A. 1954, University of Maryland; M.A. 1959, A.P.C. 1964, Ed.D. 1970, American University

John Andrew Morgan, Jr., *Professor Emeritus of Political Science and Public Affairs*

B.A. 1957, Stetson University; M.A. 1959, Ph.D. 1963, Duke University

Yael Margalit Moses, *Assistant Professor Emeritus of Hebrew*

B.S. 1965, Temple University; M.S. 1975, Towson University; M.A. 1985, Baltimore Hebrew College

Edward Lile Murphree, Jr., *Professor Emeritus of Engineering Management and Systems Engineering*

B.S.C.E. 1954, M.A. 1962, University of Mississippi; M.S. 1958, Massachusetts Institute of Technology; Ph.D. 1967, University of Illinois

Michael Kenneth Myers, *Professor Emeritus of Engineering and Applied Science*

B.A. 1962, Willamette University; B.S. 1962, M.S. 1963, Ph.D. 1966, Columbia University

Leonard Nadler, *Professor Emeritus of Human Resource Development and Adult Education*

B.B.A. 1948, M.S. 1950, City University of New York, City College; Ed.D. 1962, Columbia University

Honey Weinstein Nashman, *Associate Professor Emeritus of Human Services and of Sociology*

B.S. 1956, New York University; M.S. 1957, Smith College

Nadine Nadeshda Natov, *Professor Emeritus of Russian*

M.A. 1939, Ph.D. 1941, Pedagogical Institute of Modern Languages, Russia; Ph.D. 1969, University of Michigan

David Nelson, *Professor Emeritus of Mathematics*

B.A. 1939, M.A. 1940, Ph.D. 1946, University of Wisconsin

Yuri Olkhovsky, *Associate Professor Emeritus of Russian*

B.A. 1956, M.A. 1957, University of Minnesota; Ph.D. 1968, Georgetown University

Chei-Min Paik, *Professor Emeritus of Accountancy and Quantitative Methods*

B.B.A. 1957, University of Minnesota; M.B.A. 1959, University of California, Los Angeles; D.B.A. 1963, Harvard University

Salvatore Rocco Paratore, *Professor Emeritus of Education*

B.A. 1957, Colgate University; M.S. 1967, Yeshiva University; Ph.D. 1973, Syracuse University

Martha Pardavi-Horvath, *Professor Emeritus of Engineering and Applied Science*

M.Sc. 1967, Moscow State University; Ph.D. 1985, Hungarian Academy of Sciences

William Carleton Parke, *Professor Emeritus of Physics*

B.S. 1963, Ph.D. 1967, George Washington University

Theodore Peter Perros, *Professor Emeritus of Chemistry and of Forensic Sciences*

B.S. 1946, M.S. 1949, Ph.D. 1952, George Washington University

David Carter Perry, *Professor Emeritus of Pharmacology*

B.A. 1970, Harvard University; Ph.D. 1981, University of California, San Francisco

James Hilliard Perry, Jr., *Professor Emeritus of Decision Sciences*

B.A. 1964, Duke University; M.A., M.B.A. 1970, Ph.D. 1974, Stanford University

Rolf A. Peterson, *Professor Emeritus of Psychology and of Psychiatry and Behavioral Sciences*

B.S. 1964, University of Wisconsin-Oshkosh; M.S. 1967, Ph.D. 1970, University of Iowa

J. Roger Peverley, *Associate Professor Emeritus of Physics*

B.A. 1960, M.A. 1964, Ph.D. 1964, Cambridge University

Susan M. Phillips, *Professor Emeritus of Finance*

B.A. 1967, Agnes Scott College; M.S. 1971, Ph.D. 1973, Louisiana State University

Raymond L. Pickholtz, *Professor Emeritus of Engineering and Applied Science*

B.E.E. 1954, M.E.E. 1958, City University of New York, City College; Ph.D. 1966, Polytechnic University

Judith Ann Abrams Plotz, *Professor Emeritus of English*

B.A. 1960, Radcliffe College; B.A. 1962, M.A. 1966, Cambridge University; Ph.D. 1965, Harvard University

Lee Etta Powell, *Professor Emeritus of Education Administration*

B.S. 1956, University of the District of Columbia; M.A. 1966, Ed.D. 1976, George Washington University

Jon Alrik Quitslund, *Professor Emeritus of English*

B.A. 1961, Reed College; Ph.D. 1967, Princeton University

Sonya Antoinette Quitslund, *Associate Professor Emeritus of Religion*

B.A. 1958, Seattle University; M.A. 1964, Ph.D. 1967, Catholic University of America

David Ramaker, *Professor Emeritus of Chemistry*
B.S. 1965, University of Wisconsin-Milwaukee; M.S. 1968, Ph.D. 1971, University of Iowa

Martha Norman Rashid, *Professor Emeritus of Education*
Ed.B. 1949, State University of New York College at Geneseo;
M.A. 1951, Ph.D. 1955, University of Iowa

Peter Reddaway, *Professor Emeritus of Political Science and International Affairs*
B.A. 1962, M.S. 1966, Cambridge University

Philip Norman Reeves, *Professor Emeritus of Health Services Management and Policy and of Health Care Sciences*
M.B.A. 1959, University of Chicago; D.B.A. 1970, George Washington University

Bernard Reich, *Professor Emeritus of Political Science and International Affairs*
B.A. 1961, City University of New York, City College; M.A. 1963, Ph.D. 1964, University of Virginia

David Reiss, *Professor Emeritus of Psychiatry and Behavioral Science, of Medicine, and of Psychology*
B.A. 1958, M.D. 1962, Harvard University

William Martin Reynolds, *Chauncey M. Depew Professor Emeritus of Public Speaking*
B.A. 1950, Wichita State University; M.A. 1957, Ph.D. 1960, University of Florida

Charles Edward Rice, *Professor Emeritus of Psychology*
B.S. 1954, Iowa State University of Science and Technology;
Ph.D. 1959, Case Western Reserve University

Charlene Rivera, *Research Professor Emeritus of Curriculum and Pedagogy*
Ed.D. 1981, Boston University

Daniel David Roman, *Professor Emeritus of Management Science*
B.S. in B.A. 1949, M.A. 1953, Ph.D. 1956, University of Southern California

David Alton Rowley, *Professor Emeritus of Chemistry*
B.S. 1963, M.S. 1964, State University of New York at Albany;
Ph.D. 1968, University of Illinois

Bradley William Sabelli, *Assistant Professor Emeritus of Theatre*
B.F.A. 1970, Florida Atlantic University; M.A. 1972, California State University, Humboldt; M.F.A. 1974, George Washington University

Howard Morley Sacher, *Professor Emeritus of History*
B.A. 1947, Swarthmore College; M.A. 1950, Ph.D. 1953, Harvard University

James Minor Sachlis, *Associate Professor Emeritus of Finance*

B.S. 1964, M.B.A. 1966, D.B.A. 1975, University of Maryland

Pilar G. Suelto de Sáenz, *Professor Emeritus of Spanish*
Licenciada 1953, University of Madrid; M.A. 1957, Bryn Mawr College; Ph.D. 1966, University of Maryland

Linda Bradley Salamon, *Professor Emeritus of English*
B.A. 1963, Radcliffe College; M.A. 1964, Ph.D. 1971, Bryn Mawr College; L.H.D. 1993, St. Louis College of Pharmacy

Marc Eli Saperstein, *Charles E. Smith Professor Emeritus of Jewish History*
B.A. 1966, Ph.D. 1977, Harvard University; M.A. 1971, Hebrew Union College/Hebrew University, Israel

Burton Malcolm Sapin, *Professor Emeritus of Political Science and International Affairs*
B.A. 1945, M.A. 1947, Columbia University; Ph.D. 1953, Princeton University

Marshall Sashkin, *Professor Emeritus of Human Resource Development*
B.A. 1966, University of California, Los Angeles; Ph.D. 1987, University of Michigan

Mary Anne Plastino Saunders, *Associate Professor Emeritus of Sociology and of Human Services*
B.A. 1969, M.A.Ed. 1970, Catholic University of America; Ed.D. 1991, George Washington University

Kenneth F. Schaffner, *University Professor Emeritus of Medical Humanities*
B.S. 1961, City University of New York, Brooklyn College; Ph.D. 1967, Columbia University; M.D. 1986, University of Pittsburgh

Richard Harold Schlagel, *Elton Professor Emeritus of Philosophy*
B.S. 1949, Springfield College; M.A. 1952, Ph.D. 1955, Boston University

William Edward Schmidt, *Professor Emeritus of Chemistry*
B.S. 1943, M.S. 1950, George Washington University; M.A., Ph.D. 1953, Princeton University

Pat Lea Schwallie-Giddis, *Associate Professor Emeritus of Counseling*
B.S. 1968, M.S. 1970, University of Wisconsin-Platteville; Ph.D. 1991, Florida State University

Lois Green Schwoerer, *Elmer Louis Kayser Professor Emeritus of History*
B.A. 1949, Smith College; M.A. 1952, Ph.D. 1956, Bryn Mawr College

William E. Seale, *Professor Emeritus of Finance*
B.A. 1963, M.S. 1969, Ph.D. 1975, University of Kentucky

Debra Sheldon, *Professor Emeritus of Accountancy*
B.A. 1969, Northwestern University; M.B.A. 1974, Drexel University; D.B.A. 1981, George Washington University

Stanley Newton Sherman, *Professor Emeritus of Business Administration*
B.A. 1952, M.B.A. 1960, D.B.A. 1977, University of Maryland

Chung-wen Shih, *Professor Emeritus of Chinese*
B.A. 1945, St. John's University, China; M.A. 1949, Ph.D. 1955, Duke University

Jay R. Shotel, *Professor Emeritus of Special Education and Disability Studies*
B.A. 1967, Ed.M. 1970, Ed.D. 1972, Temple University

John Lee Sibert, *Professor Emeritus of Engineering and Applied Science*
Ph.D. 1974, University of Michigan

Frederic Richard Siegel, *Professor Emeritus of Geochemistry*
B.A. 1954, Harvard University; M.S. 1958, Ph.D. 1961, University of Kansas

David Elliot Silber, *Professor Emeritus of Psychology*
B.A. 1958, Wayne State University; M.A. 1960, Ohio University; Ph.D. 1965, University of Michigan

Malinee Peris De Silva, *Adjunct Professor Emeritus of Music*
Licentiate 1946, 1947, Trinity College of Music, London; Licentiate 1950, Royal Academy of Music

Suzanne Lee Simons, *Associate Professor Emeritus of Anthropology*
B.A. 1948, Ohio State University; M.A. 1964, Ph.D. 1969, University of New Mexico

Nozer Darabsha Singpurwalla, *Distinguished Research Professor and Professor Emeritus of Statistics*
B.S. 1959, B.V. Bhoomraddi College of Engineering and Technology, India; M.S.(I.E.) 1964, Rutgers University; Ph.D. 1968, New York University

Jeanne Ellen Snodgrass, *Professor Emeritus of Human Kinetics and Leisure Studies*
B.A. 1952, Ohio Wesleyan University; M.S. in P.E. 1953, Smith College; Ed.D. 1975, University of North Carolina at Greensboro

Richard Martin Soland, *Professor Emeritus of Operations Research*
B.E.E. 1961, Rensselaer Polytechnic Institute; Ph.D. 1964, Massachusetts Institute of Technology; P.E.

James Edward Starrs, *Professor Emeritus of Law and of Forensic Sciences*
B.A., LL.B. 1958, St. John's University (New York); LL.M. 1959, New York University

Carl Steiner, *Professor Emeritus of German*
B.A. 1958, M.A. 1962, Ph.D. 1966, George Washington University

Henry Malcolm Steiner, *Professor Emeritus of Engineering Management*

B.A. in M.E. 1944, M.S. in C.E. 1950, Ph.D. 1965, Stanford University

Jeffrey L. Stephanic, *Associate Professor Emeritus of Design*
B.A. 1977, M.F.A. 1980, George Washington University

Richard Walton Stephens, *Professor Emeritus of Sociology*
B.A. 1951, Franklin and Marshall College; M.A. 1953, Ph.D. 1956, University of North Carolina

Christopher H. Sterling, *Professor Emeritus of Media and Public Affairs; Associate Dean of Columbian College of Arts and Sciences*
B.S. 1965, M.S. 1967, Ph.D. 1969, University of Wisconsin

Carl Stern, *Shapiro Professor Emeritus of Media and Public Affairs*
B.A. 1958, M.S. 1959, Columbia University; J.D. 1966, Cleveland State University

Charles Todd Stewart, Jr., *Professor Emeritus of Economics*
B.A. 1946, M.A. 1948, Ph.D. 1954, George Washington University

Eugene Almon Stone, *Associate Professor Emeritus of Mathematics*
B.A. 1960, Vanderbilt University; Ph.D. 1966, University of Virginia

James Ashley Straw, *Professor Emeritus of Pharmacology*
B.S. 1958, Ph.D. 1963, University of Florida

Patricia A. Sullivan, *Professor Emeritus of Exercise Science*
B.S. 1969, State University of New York College at Cortland; M.S. 1973, Smith College; Ed.D. 1989, George Washington University

Choy-Tak Taam, *Professor Emeritus of Mathematics*
B.S. 1942, University of Illinois; M.A. 1943, Ph.D. 1945, Harvard University

Ira Rockwood Telford, *Professor Emeritus of Anatomy*
B.A. 1931, M.A. 1933, University of Utah; Ph.D. 1942, George Washington University

Douglas Harold Teller, *Professor Emeritus of Design and Graphics*
B.A. 1956, Western Michigan University; M.F.A. 1962, George Washington University

Jean-François Marie Thibault, *Professor Emeritus of French*
Baccalaureat 1960, Licence és Lettres 1964, Diplome d'Etudes 1965, Académie de Paris; Ph.D. 1976, University of Maryland

Klaus Thoenelt, *Professor Emeritus of German*
Staatsexamen 1956, Ph.D. 1961, University of Freiburg, Germany

Irene Becker Thompson, *Professor Emeritus of Russian*
B.S. 1965, M.S. 1968, Georgetown University; Ph.D. 1984, George Washington University

Rodney Tillman, *Professor Emeritus of Education*
B.A. 1943, Henderson State College; M.A. 1949, Ed.D. 1955,
Columbia University

Charles Nelson Toftoy, *Associate Professor Emeritus of*
Management
B.S. 1958, U.S. Military Academy; M.B.A. 1969, Tulane
University; D.B.A. 1985, Nova University

Theodore George Toridis, *Professor Emeritus of Engineering*
and Applied Science
B.S. 1954, Robert College, Turkey; M.S. 1961, Ph.D. 1964,
Michigan State University

Stephen Joel Trachtenberg, *University Professor of Public*
Service; President Emeritus of the University
B.A. 1959, LL.D. 2007, Columbia University; J.D. 1962, Yale
University; M.P.A. 1966, Harvard University; L.H.D. 1986,
Trinity College; H.H.D. 1989, University of Hartford; LL.D.
1990, Hanyang University, Korea; D.P.A. (hon) 1994, Kyonggi
University, Korea; LL.D. 1995, Richmond College, The American
International University in London; M.D. (hon) 1996, Odessa
State Medical University, Ukraine; LL.D. 1997, Mount Vernon
College; L.H.D. 1999, Boston University; L.H.D. 1999, Gratz
College; LL.D. 2001, Southern Connecticut State University;
LL.D. 2002, University of New Haven; D.B.A. (hon) 2004,
Dongseo University, Korea; D.P.A. (hon) 2004, Sangmyung
University, Korea; LL.D. 2006, Lyon College; LL.D. 2006,
Touro College; D.P.S. 2008, George Washington University;
LL.D. 2008, Excelsior College; LL.D. 2009, Hampden-Sydney
College; LL.D. 2009, Waseda University; D.H.C. 2011,
Bucharest University of Economics; D.H.L. 2012, Westfield State
University

Robert P. Trost, *Professor Emeritus of Economics*
B.M.E. 1969, University of Detroit; Ph.D. 1977, University of
Florida

Curtis Edward Tuthill, *Associate Professor Emeritus of*
Psychology
B.A. 1935, Macalester College; M.A. 1936, Ph.D. 1939,
University of Iowa

Belle Patricia Tyndall, *Associate Professor Emeritus of English as*
a Foreign Language
B.A. 1967, M.A. 1979, University of London; Ph.D. 1988,
Georgetown University

Stuart A. Umpleby, *Professor Emeritus of Management*
B.S., B.A. 1967, M.A. 1969, Ph.D. 1975, University of Illinois

John Michael Vlach, *Professor Emeritus of American Studies*
and of Anthropology
B.A. 1970, University of California, Davis; M.A. 1972, Ph.D.
1975, Indiana University

Clemmont Eyvind Vontress, *Professor Emeritus of Counseling*
B.A. 1952, Kentucky State College; M.S. 1956, Ph.D. 1965,
Indiana University

Dewey Diaz Wallace, Jr., *Professor Emeritus of Religion*
B.A. 1957, Whitworth College; B.D. 1960, Princeton
Theological Seminary; M.A. 1962, Ph.D. 1965, Princeton
University

Ruth Ann Wallace, *Professor Emeritus of Sociology*
B.A. 1961, Immaculate Heart College; M.A. 1963, University of
Notre Dame; Ph.D. 1968, University of California, Berkeley

Robert Charles Waters, *Professor Emeritus of Engineering*
Management
B.S. 1956, M.B.A. 1963, University of California, Los Angeles;
D.B.A. 1968, University of Southern California

Harry S. Watson, *Professor Emeritus of Economics*
B.A. 1971, Ph.D. 1981, Indiana University

Elizabeth Fortson Wells, *Associate Professor Emeritus of Botany*
B.A. 1965, Agnes Scott College; M.A. 1970, Ph.D. 1977,
University of North Carolina

William Gaynor Wells, Jr., *Associate Professor Emeritus of*
Management Science
B.S. 1947, University of Chicago; M.S. 1961, Purdue University;
D.B.A. 1977, George Washington University

Lynda L. West, *Professor Emeritus of Special Education and*
Disability Studies
B.A. 1968, Benedictine College; M.Ed. 1976, Ph.D. 1979,
University of Missouri

Ralph Kirby White, *Professor Emeritus of Social Psychology*
B.A. 1929, Wesleyan University; Ph.D. 1937, Stanford University

John Lindsey Whitesides, *Professor Emeritus of Engineering*
and Applied Science
B.S. 1965, Ph.D. 1968, University of Texas

Susan P. Willens, *Assistant Professor Emeritus of English*
B.A. 1954, University of Michigan; M.A. 1956, Yale University;
Ph.D. 1972, Catholic University of America

Henry I. Willett, Jr., *Associate Professor Emeritus of Education*
Administration
B.A. 1952, Washington and Lee University; M.Ed. 1955, Ed.D.
1967, University of Virginia

Katherine Johnston Williams, *Associate Professor Emeritus of*
Art Therapy
B.A. 1962, University of Wisconsin; M.A. 1977, Ph.D. 1991,
George Washington University

Lawrence Winkler, *Professor Emeritus of Counseling*
B.S. 1952, M.A. 1954, Washington University; Ed.D. 1965,
George Washington University

Erik Kenelm Winslow, *Professor Emeritus of Behavioral Sciences*
B.S. 1963, Pennsylvania State University; M.S. 1965, Ph.D. 1967,
Case Western Reserve University

Marvin Milton Wofsey, *Professor Emeritus of Management*

B.S. 1935, New York University; M.A. 1943, Ph.D. 1967, American University

Brunetta Reid Wolfman, *Professor Emeritus of Education*
B.A. 1957, M.A. 1968, Ph.D. 1971, University of California, Berkeley; D.H.L. 1983, Boston University; D. Pedagogy 1983, Northeastern University; LL.D. 1984, Regis College; D.H.L. 1985, Suffolk University; D.Litt. 1985, Stonehill College; D.Engr.Tech.(hon) 1985, Wentworth Institute

Harold L. Wolman, *Professor Emeritus of Political Science*
B.A. 1964, Oberlin College; M.A. 1965, Ph.D. 1968, University of Michigan; M.A. 1976, Massachusetts Institute of Technology

William Thomas Woodward, *Professor Emeritus of Painting*
B.A. 1957, M.A. 1961, American University

Shirley Minkewitz Wright, *Associate Professor Emeritus of English as a Foreign Language*
B.S. 1954, Winona State University; M.A. 1963, University of Michigan; Ph.D. 1971, Georgetown University

Richard Yi-chang Yin, *Associate Professor Emeritus of Economics and International Affairs*
LL.B. 1946, Fu Jen University, China; M.A. 1950, University of Denver; Ph.D. 1966, Columbia University

Laura S. Youens, *Professor Emeritus of Music*
B.Mus. 1969, Southwestern University; M.Mus. 1973, Ph.D. 1978, Indiana University

Shao Wen Yuan, *Professor Emeritus of Engineering and Applied Science*
B.S. 1936, University of Michigan; M.S. 1937, Ph.D. 1941, California Institute of Technology; Ae.E. 1939, Stanford University

David Laster Zalkind, *Associate Professor Emeritus of Decision Sciences*
B.A. 1967, Harvard University; M.S. 1968, Stanford University; Ph.D. 1972, Johns Hopkins University

Joseph Zeidner, *Professor Emeritus of Administrative Sciences and of Psychology*
B.S. 1949, City University of New York, City College; M.A. 1951, Fordham University; Ph.D. 1954, Catholic University of America

John Edmund Ziolkowski, *Professor Emeritus of Classics*
B.A. 1958, Duke University; Ph.D. 1963, University of North Carolina

Artley Joseph Zuchelli, *Professor Emeritus of Physics*
B.A. 1955, Ph.D. 1958, University of Virginia

Active

Susan Aaronson, *Associate Research Professor of International Affairs*
M.I.A. 1978, Columbia University; Ph.D. 1993, Johns Hopkins University

Hernan Gustavo Abeledo, *Associate Professor of Engineering and Applied Science*
Licenciatura 1987, University of Buenos Aires, Argentina; Ph.D. 1992, Rutgers University

Lowell Abrams, *Associate Professor of Mathematics*
B.A. 1991, Yeshiva University, Israel; M.A. 1994, Ph.D. 1997, Johns Hopkins University

Ravi S. Achrol, *Professor of Marketing; Interim Associate Dean of the School of Business*
B.Comm. 1967, Delhi University, India; M.Comm. 1973, Rajasthan University, India; Ph.D. 1985, Northwestern University

William Clayton Adams, *Professor of Public Policy and Public Administration*
B.A. 1971, M.A. 1972, Baylor University; Ph.D. 1977, George Washington University

Sean M.H. Aday, *Associate Professor of Media and Public Affairs*
B.A. 1990, Northwestern University; M.A. 1995, Ph.D. 1999, University of Pennsylvania

Robert Kaufman Adcock, *Assistant Professor of Political Science*
B.A., B.S. 1996, University of Minnesota; M.A. 1998, Ph.D. 2007, University of California, Berkeley

Andrei V. Afanasev, *Gus Weiss Associate Professor of Theoretical Physics*
Ph.D. 1990, Kharkov National University

Senay Agca, *Associate Professor of Finance*
B.Sc. 1993, M.B.A. 1996, Middle East Technical University, Turkey; Ph.D. 2002, Virginia Polytechnic Institute and State University

Hugh Lecaine Agnew, *Professor of History and International Affairs; Associate Dean of the Elliott School of International Affairs*
B.A. 1975, Queen's University at Kingston, Canada; M.A. 1976, Ph.D. 1981, Stanford University

Karen Ahlquist, *Associate Professor of Music*
B.A. 1970, Mount Holyoke College; M.M. 1974, The Juilliard School; M.A. 1983, University of Connecticut; Ph.D. 1991, University of Michigan

Attiya Ahmad, *Assistant Professor of Anthropology*
B.A. 2000, M.A. 2001, University of Toronto; Ph.D. 2009, Duke University

Shahrokh Ahmadi, *Teaching Professor in Electrical Engineering*
M.S. 1984, West Virginia University; Ph.D. 1995, University of Maryland

Quazi Ahmed, *Professorial Lecturer in Communication*
B.A. 1982, M.A. 1984, Dhaka University, Bangladesh; M.A. 1990, California State University, Fullerton; Ph.D. 1998, Howard University

Rachel Albert, *Professorial Lecturer in Art Therapy*

M.A. 1998, George Washington University

Marshall W. Alcorn, Jr., *Professor of English*

B.A. 1970, Texas Lutheran College; M.A. 1976, Vanderbilt University; Ph.D. 1981, University of Texas

Yulia E. Alechina, *Adjunct Professor of Clinical Psychology*
Ph.D. 1985, Moscow State University, Russia

Arshad A. Ali, *Assistant Professor of Research Methods*
B.A. 2002, Ph.D. 2010, University of California, Los Angeles;
Ed.M. 2004, Harvard University

Andrei Alexandru, *Assistant Research Professor of Physics*
B.S. 1997, University of Bucharest; Ph.D. 2001, Louisiana State University

Oya Altinkilic, *Assistant Professor of Finance*
Ph.D. 2001, Virginia Polytechnic Institute and State University

Mehmet Altug, *Assistant Professor of Decision Sciences*
Ph.D. 2009, Columbia University

Frank T. Anbari, *Assistant Professor of Decision Sciences*
M.S. 1971, M.B.A. 1977, Ph.D. 1993, Drexel University

Tyler Anbinder, *Professor of History*
B.A. 1984, Wesleyan University; Ph.D. 1990, Columbia University

Robert M. Andersen, *Professorial Lecturer in Engineering*
J.D. 1976, University of Iowa; M.P.A. 1986, Harvard University

Catherine Anderson, *Assistant Professor of Interior Design*
M.Arch. 2004, Catholic University of America

Elizabeth R. Anker, *Assistant Professor of American Studies*
Ph.D. 2007, University of California, Berkeley

Tatiana Apanasovich, *Assistant Professor of Statistics*
Ph.D. 2004, Texas A&M University

Eric Arnesen, *Professor of American Labor History; Associate Dean for Faculty Affairs in Columbian College of Arts and Sciences*
Ph.D. 1986, Yale University

Celeste Arrington, *Korea Foundation Assistant Professor of Political Science and International Affairs*
B.A. 2003, Princeton University; Ph.D. 2010, University of California, Berkeley

John Martin Artz, *Associate Professor of Information Systems and Technology Management*
B.S. 1974, James Madison University; M.S. 1976, University of Florida; M.B.A. 1981, Ph.D. 1990, George Washington University

Adele Ashkar, *Associate Professor in the College of Professional Studies*

B.F.A. 1977, Rhode Island School of Design; M.L.A. 1979, Harvard University

Hossein G. Askari, *Aryamehr Professor of International Business*
B.S. 1966, Ph.D. 1970, Massachusetts Institute of Technology

Mona Atia, *Assistant Professor of Geography and International Affairs*
M.Sc. 2002, London School of Economics and Political Science; Ph.D. 2008, University of Washington

Muriel Ann Atkin, *Professor of History*
B.A. 1967, Sarah Lawrence College; M.Phil. 1971, Ph.D. 1976, Yale University

Eyal Aviv, *Assistant Professor of Honors, of Religion, and of International Affairs*
Ph.D. 2008, Harvard University

Mehghana Ayyagari, *Associate Professor of International Business*
B.S. 1997, Bangalore University, India; Ph.D. 2004, University of Maryland

Sameh S. Badie, *Associate Professor of Civil Engineering*
B.S. 1983, M.S. 1989, Ain Shams University, Egypt; Ph.D. 1977, University of Nebraska

Prabir K. Bagchi, *Professor of Decision Sciences; Senior Associate Dean of the School of Business*
B.S. 1969, University of Calcutta, India; M.S. 1984, Ph.D. 1986, University of Tennessee

Frank E. Baginski, *Professor of Mathematics*
B.S. 1975, Gannon University; M.S. 1977, Purdue University; Ph.D. 1985, University of Massachusetts

James Russell Bailey, *Professor of Management*
M.A. 1988, Ph.D. 1991, Washington University

Robert Preston Baker, *Assistant Professor of Music*
B.S.Mus.Ed. 1979, Lebanon Valley College; M.M. 1988, D.M.A. 1990, Catholic University of America

Srinivasan Balaji, *Assistant Professor of Statistics*
M.Stat. 1990, Ph.D. 1997, Indian Statistical Institute

Elias Balaras, *Professor of Engineering and Applied Science*
Ph.D. 1995, Federal Institute of Technology, Switzerland

Steven J. Balla, *Associate Professor of Political Science, of Public Policy and Public Administration, and of International Affairs*
B.A. 1989, Franklin and Marshall College; M.A. 1992, Ph.D. 1995, Duke University

Catie Snow Ballard, *Assistant Professor of Media and Public Affairs*
B.A. 2000, M.A. 2006, Ph.D. 2009, University of California, Los Angeles

Michael Bamdad, *Professorial Lecturer in Speech and Hearing*

M.A. 1991, George Washington University

Alexandre M. Baptista, *Associate Professor of Finance*

Ph.D. 2001, University of Minnesota

Lorena A. Barba, *Associate Professor of Engineering and Applied Science*

Ph.D. 2004, California Institute of Technology

Joseph Anthony Barbera, *Associate Professor of Engineering Management and Systems Engineering*

B.S. 1976, University of Notre Dame; M.D. 1980, University of Pittsburgh

Philippe Matthieu Bardet, *Assistant Professor of Engineering and Applied Science*

Diplome d'Ingenieur 2001, Grenoble Institute of Technology; Ph.D. 2006, University of California, Berkeley

Heidi Hilgendorf Bardot, *Assistant Professor of Art Therapy*

B.F.A. 1990, Rhode Island School of Design; M.A. 1999, George Washington University

Michael E. Barnes, *Professorial Lecturer in Clinical Psychology*

Ph.D. 1989, Howard University

Lori Barnett, *Professorial Lecturer in Music*

B.A. 1973, Bennington College

Michael N. Barnett, *University Professor of International Affairs and Political Science*

Ph.D. 1989, University of Minnesota

Theodore M. Barnhill, *Professor of Finance*

B.S. 1968, Tennessee Technological University; M.S. 1969, M.B.A. 1971, Ph.D. 1974, University of Michigan

Burt S. Barnow, *Amsterdam Professor of Public Service*

Ph.D. 1973, University of Wisconsin

Peg Barratt, *Professor of Psychology*

B.A. 1970, M.A. 1972, Michigan State University; Ph.D. 1978, University of Wisconsin

Karmela R. Barron, *Professorial Lecturer in Special Education*

Ed.D. 2004, George Washington University

Mary J. Barron, *Assistant Professor of Exercise Science*

Ph.D. 2006, Michigan State University

Brandon Bartels, *Associate Professor of Political Science*

Ph.D. 2006, Ohio State University

Constance Urciolo Battle, *Adjunct Professor of Prevention and Community Health*

B.A. 1963, Trinity College; M.D. 1967, George Washington University

J. Howard Beales III, *Professor of Strategic Management and Public Policy*

B.A. 1972, Georgetown University; Ph.D. 1978, University of Chicago

Sylvén Seid Beck, *Associate Professor of Curriculum and Pedagogy*

B.A. 1972, Marymount Manhattan College; M.S. in Ed. 1974, City University of New York, City College; Ed.D. 1981, George Washington University

Gisele Becker, *Adjunct Instructor in Music*

B.Mus. 1981, Catholic University of America; M.Mus. 2009, George Mason University

William H. Becker, *Professor of History*

B.A. 1964, Muhlenberg College; Ph.D. 1969, Johns Hopkins University

Tara Behrend, *Assistant Professor of Organizational Sciences and Communication*

Ph.D. 2009, North Carolina State University

Cheryl Beil, *Assistant Research Professor of Psychology;*

Associate Provost for Academic Planning and Assessment

B.A. 1971, New School for Social Research; M.A., M.S.W. 1974, Washington University; Ph.D. 1984, George Washington University

Masha Belenky, *Associate Professor of French*

B.S. 1987, Moscow State University; B.S. 1990, Georgetown University; M.A. 1992, New York University; Ph.D. 2002, Columbia University

Abdelghani Bellaachia, *Associate Professor of Computer Science*

D.Sc. 1992, George Washington University

Richard S. Belous, *Professorial Lecturer in Economics*

B.A. 1971, Columbia University; M.A. 1977, Ph.D. 1984, George Washington University

Lawrence Bennett, *Research Professor of Engineering and Applied Science*

Ph.D. 1958, Rutgers University

Lisa M. Benton-Short, *Associate Professor of Geography*

B.A. 1986, Stanford University; M.A. 1992, Ph.D. 1997, Syracuse University

Pinhas Ben-Tzvi, *Assistant Professor of Engineering and Applied Science*

Ph.D. 2008, University of Toronto

Simon Y. Berkovich, *Professor of Engineering and Applied Science*

M.S. 1960, Moscow Physical-Technical Institute; Ph.D. 1964, Institute of Precise Mechanics and Computer Technology, Russia

Edward David Berkowitz, *Professor of History and of Public Policy and Public Administration*

B.A. 1972, Princeton University; M.A. 1973, Ph.D. 1976, Northwestern University

Michael Roy Berman, *Professorial Lecturer in Engineering*
Ph.D. 1979, Ohio State University

Lynne E. Bernstein, *Professor of Speech and Hearing Science*
Ph.D. 1977, University of Michigan

Heather Berry, *Associate Professor of International Business*
Ph.D. 2001, University of California, Los Angeles

Donna Betts, *Assistant Professor of Art Therapy*
Ph.D. 1995, Florida State University

Scott Beveridge, *Assistant Professor of Counseling*
Ph.D. 2003, University of Maryland

Stephen Biddle, *Professor of Political Science and International Affairs*
Ph.D. 1992, Harvard University

Neil Z. Bien, *Assistant Clinical Professor of Psychology*
B.S. 1970, Tulane University; Ph.D. 1975, Rutgers University

Steven Billet, *Associate Professor of Political Management*
Ph.D. 1986, University of Notre Dame

Sarah Binder, *Professor of Political Science*
B.A. 1986, Yale University; Ph.D. 1995, University of Minnesota

David Bjelajac, *Professor of Art*
B.A. 1972, M.A. 1973, University of Wisconsin; Ph.D. 1980, University of North Carolina

Allida M. Black, *Research Professor of History*
B.A. 1974, Emory University; Ph.D. 1993, George Washington University

Emily Bliss, *Teaching Instructor in Writing*
B.A. 2000, Princeton University; M.F.A. 2004, George Mason University

Jeffrey Blomster, *Associate Professor of Anthropology*
B.A. 1987, Washington and Lee University; M.A. 1990, Ph.D. 1998, Yale University

Nemata Blyden, *Associate Professor of History and International Affairs*
B.A. 1987, Mount Holyoke College; M.A. 1989, Ph.D. 1998, Yale University

Rene Bobe, *Associate Professor of Anthropology*
Ph.D. 1997, University of Washington

Hein Bogaard, *Assistant Professor of International Business*
Ph.D. 2009, University of Michigan

Ronald Carl Bohn, *Associate Professor of Anatomy*
B.S. 1973, M.S. 1976, Pennsylvania State University; Ph.D. 1980, State University of New York Upstate Medical Center

Joseph Edmond Bonin, *Professor of Mathematics*

B.A. 1984, Assumption College; M.A. 1986, Ph.D. 1989, Dartmouth College

Amin Bonnah, *Teaching Associate Professor of Arabic*
B.A. 1974, M.A. 1979, American University in Cairo; Ph.D. 1994, Georgetown University

Sudip Bose, *Associate Professor of Statistics*
B.Sc. 1982, Calcutta University, India; M.S. 1984, Indian Statistical Institute, India; Ph.D. 1990, Purdue University

Bryan L. Boulier, *Professor of Economics*
B.A. 1967, North Carolina State University; M.A. 1969, Ph.D. 1974, Princeton University

Betsy Bowers, *Lecturer in Museum Education*
B.A. 1987, Excelsior College; M.A.T. 2003, George Washington University

Alasdair Bowie, *Associate Professor of Political Science*
B.A. 1978, M.A. 1980, University of Auckland, New Zealand; M.P.A. 1982, Princeton University; Ph.D. 1989, University of California, Berkeley

Ingrid Alisa Bowleg, *Professor of Psychology*
B.S. 1988, Georgetown University; M.A. 1991, Ph.D. 1997, George Washington University

Kenneth R. Bowling, *Adjunct Professor of History*
B.A. 1962, Dickinson College; M.A. 1964, Ph.D. 1968, University of Wisconsin

Douglas Boyce, *Associate Professor of Music*
B.A. 1992, Williams College; M.A. 1996, University of Oregon; Ph.D. 2000, University of Pennsylvania

Mark Braden, *Professorial Lecturer in Political Management*
B.A. 1973, J.D. 1976, Washington and Lee University

Michael D. Bradley, *Professor of Economics*
B.S. 1975, University of Delaware; Ph.D. 1982, University of North Carolina

Lori A. Brainard, *Associate Professor of Public Policy and Public Administration*
B.S. 1990, University of Massachusetts, Boston; Ph.D. 1998, Brandeis University

Denise Brancheau, *Professorial Lecturer in Art Therapy*
B.A. 1987, University of Alaska; M.A. 1989, George Washington University

Jeffrey C. Brand, *Associate Professor of Philosophy*
B.A. 1991, Vassar College; J.D., M.A. 1995, Ph.D. 1999, University of Michigan

Linda J. Brandt, *Associate Professor of Psychology*
B.A. 1963, Elmhurst College; M.A. 1965, Clark University; Ph.D. 1973, University of London

Jocelyne Brant, *Assistant Professor of French*

Diploma 1963, University of Bordeaux; Diploma 1965, University of Rabat, Morocco

David R. Braun, *Assistant Professor of Anthropology*
B.A. 1998, Haverford College; M.A. 2002, Ph.D. 2006, Rutgers University

Gregg Brazinski, *Associate Professor of History and International Affairs*
B.A. 1994, Amherst College; Ph.D. 2002, Cornell University

Jennifer Brinkerhoff, *Professor of Public Administration, of International Business, and of International Affairs*
M.P.A. 1990, Monterey Institute of International Studies; Ph.D. 1994, University of Southern California

William John Briscoe, *Professor of Physics*
B.A. 1970, Ph.D. 1978, Catholic University of America; M.A. 1972, Northeastern University

Christopher J.S. Britt, *Associate Professor of Spanish*
B.A. 1990, Colgate University; M.A. 1994, Ph.D. 1997, Princeton University

James Thomas Broach, *Professorial Lecturer in Physics*
B.S. 1969, Louisiana State University; M.S. 1975, Ph.D. 1981, American University

Gerald W. Brock, *Professor of Telecommunication and of Public Policy and Public Administration*
B.A. 1970, Ph.D. 1973, Harvard University

David A. Broniatowski, *Assistant Professor of Engineering Management and Systems Engineering*
Ph.D. 2010, Massachusetts Institute of Technology

Alison Spence Brooks, *Professor of Anthropology*
B.A. 1965, Radcliffe College; M.A. 1967, Ph.D. 1979, Harvard University

Leah Brooks, *Assistant Professor of Public Policy and Public Administration*
B.A. 1998, University of Chicago; Ph.D. 2005, University of California, Los Angeles

Charles E. Brown, *Adjunct Professor of Geology*
Ph.D. 2007, Pennsylvania State University

Julia Brown, *Assistant Professor of Painting*
M.F.A. 2006, California University of the Arts

Michael E. Brown, *Professor of Political Science and International Affairs*
B.A., M.A. 1975, University of Pennsylvania; M.A. 1978, Ph.D. 1983, Cornell University

Nathan Jude Brown, *Professor of Political Science and International Affairs*
B.A. 1980, University of Chicago; M.A. 1983, Ph.D. 1987, Princeton University

Thomas K. Brown, *Associate Professor of Art*

B.F.A. 1981, Carnegie Mellon University; M.F.A. 1987, University of Pennsylvania

Shelley B. Brundage, *Associate Professor of Speech and Hearing Science*
B.S. 1984, University of Wisconsin; M.A. 1989, Ph.D. 1993, University of Minnesota

Denver Brunsman, *Assistant Professor of History*
B.A. 1997, St. Olaf College; Ph.D. 2004, Princeton University

Mary A. Buckley, *Associate Professor of Dance*
B.A. 1970, New Jersey State College; M.A. 1978, George Washington University

Fran Buntman, *Assistant Professor of Sociology*
B.A. 1987, University of the Witwatersrand, South Africa; M.A. 1993, Ph.D. 1997, University of Texas

Efstathia Bura, *Associate Professor of Statistics*
B.S. 1987, University of Athens, Greece; M.S. 1990, University of Illinois at Chicago; Ph.D. 1996, University of Minnesota

Dana Tai Soon Burgess, *Associate Professor of Dance*
B.S. 1989, University of New Mexico; M.F.A. 1993, George Washington University

Diana Burley, *Associate Professor of Human and Organizational Learning*
Ph.D. 1998, Carnegie Mellon University

Herman Burney, Jr., *Lecturer in Music*
B.S. 1985, St. Augustine's College; M.S. 1987, North Carolina Agricultural and Technical State University

Mark Aaron Busby, *Professorial Lecturer in Engineering*
Ph.D. 1997, Mississippi State University

Christopher L. Cahill, *Professor of Chemistry*
B.S. 1993, State University of New York College at Fredonia; Ph.D. 1999, State University of New York at Stony Brook

Sylvia Campbell, *Teaching Assistant Professor of Speech and Hearing*
Ph.D. 1993, University of Maryland

David Cantor, *Professorial Lecturer in Political Management*
Ph.D. 1999, University of Maryland

Yvonne Captain, *Associate Professor of Spanish*
B.A. 1973, Pitzer College; M.A. 1976, University of California, Los Angeles; Ph.D. 1984, Stanford University

Elias G. Carayannis, *Professor of Information Systems and Technology Management*
B.Sc.E.E. 1985, University of Athens, Greece; M.B.A. 1990, Ph.D. 1994, Rensselaer Polytechnic Institute

Rebecca Carr, *Professorial Lecturer in Philosophy*
Ph.D. 1987, Bryn Mawr College

Christopher Carrigan, *Assistant Professor of Public Policy and Public Administration*
Ph.D. 2012, Harvard University

Herman G. Carrillo, *Assistant Professor of English*
B.A. 2000, DePaul University; M.F.A. 2007, Cornell University

Paul E. Carrillo, *Associate Professor of Economics and of International Affairs*
B.S. 1998, Catholic Pontifical University, Ecuador; M.A. 2002, Ph.D. 2006, University of Virginia

Robert L. Carroll, Jr., *Professor of Engineering and Applied Science*
B.S. 1967, North Carolina State University at Raleigh; M.Phil. 1970, Yale University; Ph.D. 1973, University of Connecticut

Geoffrey Carter, *Associate Professor of English*
B.A. 1963, Cambridge University; Ph.D. 1969, University of Pennsylvania

Brian Casemore, *Associate Professor of Curriculum and Pedagogy*
B.A. 1992, M.Ed. 1994, Ph.D. 2005, Louisiana State University

Andrea Jeanette Casey, *Associate Professor of Human and Organizational Learning*
B.A. 1981, M.A. 1984, George Mason University; Ed.D. 1994, George Washington University

Camille Caskin-Reyes, *Professorial Lecturer in Geography and International Affairs*
Ph.D. 1982, University of Bonn, Germany

Michael Scott Castleberry, *Professor of Special Education and Disability Studies*
B.A. 1966, University of North Carolina; M.A.Ed. 1972, Ed.D. 1973, George Washington University

Anton Castleman, *Associate Research Professor of International Affairs*
B.A. Stanford University; M.A. 2005, Ph.D. 2009, George Washington University

Wakana K. Cavanaugh, *Lecturer in Japanese*
M.S.Ed. 2003, University of Pennsylvania

James Cawley, *Professor of Prevention and Community Health*
B.A. 1970, St. Francis College; B.S. 1974, Tuoro College; M.P.H. 1979, Johns Hopkins University

Stephanie R. Cellini, *Associate Professor of Public Policy and Public Administration*
B.A. 1999, Stanford University; M.A. 2003, Ph.D. 2005, University of California, Los Angeles

Elizabeth Chacko, *Associate Professor of Geography and International Affairs; Associate Dean of Undergraduate Studies in Columbian College of Arts and Sciences*

M.S. 1985, University of Calcutta, India; M.A. 1992, Miami University; Ph.D. 1997, University of California, Los Angeles

Neal Eric Chalofsky, *Associate Professor of Human and Organizational Learning*
B.S. 1966, Temple University; M.B.A. 1968, American University; Ed.D. 1976, George Washington University

Promod Chandhok, *Professorial Lecturer in Statistics*
M.S. 1978, Ph.D. 1982, Iowa State University

Jagdish Chandra, *Research Professor of Statistics*
Ph.D. 1965, Rensselaer Polytechnic Institute

Jennifer Chang, *Assistant Professor of English*
B.A. 1998, University of Chicago; M.F.A. 2002, University of Virginia

John Husen Chang, *Professorial Lecturer in Engineering*
Ph.D. 1967, Princeton University; M.B.A. 1984, University of California, Los Angeles

Leah Chang, *Associate Professor of French*
B.A. 1995, Wesleyan University; M.A. 1997, Ph.D. 2001, University of Michigan

Erin Chapman, *Assistant Professor of History*
Ph.D. 2006, Yale University

Jonathan Chaves, *Professor of Chinese*
B.A. 1965, City University of New York, Brooklyn College; M.A. 1966, Ph.D. 1971, Columbia University

Imani M. Cheers, *Assistant Professor of Media and Public Affairs*
B.F.A. 2002, Washington University; M.A. 2007, Ph.D. 2010, Howard University

Hanning Chen, *Assistant Professor of Chemistry*
B.S. 1999, University of Science and Technology, China; M.S. 2003, University of New Orleans; Ph.D. 2008, University of Utah

Liana Chen, *Assistant Professor of Chinese Language and Literature*
Ph.D. 2009, Stanford University

Maggie Xiaoyang Chen, *Associate Professor of Economics and International Affairs*
Ph.D. 2005, University of Colorado

Wenjie Chen, *Assistant Professor of International Business*
Ph.D. 2009, University of Michigan

Xiuzhen Cheng, *Professor of Computer Science*
M.S. 1994, University of Science and Technology, China; M.S. 2000, Ph.D. 2002, University of Minnesota

Edward John Cherian, *Professor of Information Systems*
B.S.E.E. 1958, M.S. 1963, Ph.D. 1966, Rensselaer Polytechnic Institute

Robert A. Chernak, *Associate Professor of Higher Education Administration*

B.S.B.A. 1968, Boston University; M.Ed. 1975, University of Massachusetts, Boston; Ed.D. 1997, George Washington University

Ivan K. Cheung, *Professorial Lecturer in Geography*
Ph.D. 1998, University of California, Los Angeles

Vincent A. Chiappinelli, *Loewy Professor of Basic Science and Professor of Pharmacology and Neurological Surgery; Associate Dean of the School of Medicine and Health Sciences; Associate Vice President for Health Affairs*
B.A. 1973, Boston University; Ph.D. 1977, University of Connecticut

Greg L. Childs, *Assistant Professor of History*
M.A. 1997, University of North Carolina at Charlotte; Ph.D. 2012, New York University

Gioia Chilton, *Professorial Lecturer in Art Therapy*
M.A. 1994, George Washington University

Barry Chiswick, *Professor of Economics*
Ph.D. 1967, Columbia University

Sara Cho Kim, *Assistant Professor of Counseling*
Ph.D. 2009, University of Wisconsin

Hyeong-Ah Choi, *Professor of Engineering and Applied Science*
B.A. 1980, M.S. 1982, Seoul National University, Korea; Ph.D. 1986, Northwestern University

Jaehwa Choi, *Associate Professor of Educational Research*
Ph.D. 2006, University of Maryland

Iain T. Christie, *Lecturer in Tourism Studies*
M.B.A. 1972, New York University

Theodore Christov, *Assistant Professor of Honors and of History*
Ph.D. 2008, University of California, Los Angeles

Patricia Chu, *Associate Professor of English*
B.A. 1981, Yale University; M.A. 1989, Ph.D. 1992, Cornell University

Robert Paul Churchill, *Professor of Philosophy*
B.A. 1969, M.A. 1971, Ph.D. 1975, Johns Hopkins University

William Edward Clancy, *Professorial Lecturer in Forensic Sciences*
B.A., M.A. 1975, City University of New York, John Jay College; J.D. 1982, St. John's University

Christine M. Clapp, *Adjunct Instructor in Communication*
B.S. 2001, Willamette University; M.A. 2003, University of Maryland

James M. Clark, *Ronald B. Weintraub Professor of Biology*
B.A. 1978, M.A. 1985, University of California, Berkeley; Ph.D. 1986, University of Chicago

Michael Ryan Clarkson, *Assistant Professor of Computer Science*

Ph.D. 2010, Cornell University

Laura Clauser, *Professorial Lecturer in Economics*
Ph.D. 1998, University of Virginia

Jennifer L. Clayton, *Assistant Professor of Educational Administration*
B.A. 1996, James Madison University; M.Ed. 2003, Rutgers University; Ph.D. 2009, Old Dominion University

Reid William Click, *Associate Professor of International Business*
B.A. 1983, Kenyon College; M.B.A. 1987, Ph.D. 1994, University of Chicago

Diane Cline, *Associate Professor of History*
B.A. 1983, Stanford University; M.A. 1986, Ph.D. 1991, Princeton University

Eric H. Cline, *Professor of Classics and of Anthropology*
B.A. 1982, Dartmouth College; M.A. 1984, Yale University; Ph.D. 1991, University of Pennsylvania

Beatriz Cobeta, *Teaching Instructor in the Spanish Language*
M.A. 2005, Universidad Nacional de Educacion a Distancia, Madrid

Jeffrey Jerome Cohen, *Professor of English*
B.A. 1987, University of Rochester; M.A. 1989, Ph.D. 1992, Harvard University

Jamie N. Cohen-Cole, *Assistant Professor of American Studies*
B.A. 1995, Harvard University; M.A. 1999, Ph.D. 2003, Princeton University

N. Andrew Cohen, *Assistant Professor of Management*
Ph.D. 2011, University of Pennsylvania

Neil Goodman Cohen, *Associate Professor of Finance*
B.A. 1963, Olivet College; M.B.A. 1964, University of Michigan; D.B.A. 1975, University of Virginia

Aristide Collins, Jr., *Assistant Professor of Higher Education Administration; Vice President for Development*
M.P.A. 1998, California State University, Long Beach

Robert Long Combs, *Professor of English*
B.A. 1968, University of Southern Mississippi; Ph.D. 1971, University of South Carolina

Dylan Conger, *Associate Professor of Public Policy and Public Administration*
M.P.P. 1995, Ph.D. 2004, University of Michigan

Joseph Crockett Connell, *Lecturer in Music*
B.Mus. 1984, George Mason University

Joel W. Cook, *Professor of Strategic Management and Public Policy*
B.S. 1971, Oklahoma State University; M.B.A. 1974, University of Tulsa; D.B.A. 1981, Indiana University

Patrick Cook, *Associate Professor of English*

B.A. 1979, M.A. 1982, Ph.D. 1990, University of California, Berkeley

Richard A. Cooter, *Associate Professor of Forensic Psychology*
J.D. 1975, Psy.D. 2004, George Washington University

Michael Francis Corcoran, *Professorial Lecturer in Physics*
Ph.D. 1988, University of Pennsylvania

Joseph John Cordes, *Professor of Economics, of Public Policy and Public Administration, and of International Affairs*
B.A. 1971, Stanford University; M.S. 1975, Ph.D. 1977, University of Wisconsin

Cynthia Core, *Assistant Professor of Speech and Hearing*
Ph.D. 2004, University of Florida

Gilbert C. Corella, *Lecturer in Music*
B.Mus. 1988, Catholic University of America; M.M. 1997, George Mason University

Michael Cornfield, *Professorial Lecturer in Political Management*
B.A. 1975, Pomona College; M.A. 1978, Ph.D. 1989, Harvard University

Michael D. Corry, *Associate Professor of Educational Technology*
B.S. 1988, Ph.D. 1997, Indiana University

Richard E. Cosentino, *Professorial Lecturer in Engineering*
D.Sc. 2007, George Washington University

David P. Costanza, *Associate Professor of Psychology and Organizational Sciences*
B.A. 1987, University of Virginia; M.A. 1991, Ph.D. 1996, George Mason University

Robert James Cottrol, *Professor of Law, of History, and of Sociology*
B.A. 1971, Ph.D. 1978, Yale University; J.D. 1984, Georgetown University

Mary E. Coughlin, *Assistant Professor of Museum Studies*
M.S. 2005, University of Delaware

Dona Coultice-Christian, *Lecturer in Communication*
B.A. 1974, California State University, Long Beach; M.A. 1994, University of Phoenix

Tracy Councill, *Professorial Lecturer in Art Therapy*
B.F.A. 1978, Virginia Commonwealth University; M.A. 1988, George Washington University

Nuala Cowan, *Lecturer in Geography*
B.A. 2001, Trinity College, Ireland; M.A. 2004, D.Sc. 2013, George Washington University

Carol Cox, *Lecturer in Art Therapy*
M.A. 1984, George Washington University

Keith A. Crandall, *Professor of Biological Sciences*

Ph.D. 1993, Washington University

Ingrid Ellen Creppell, *Associate Professor of Political Science*
B.A. 1980, Princeton University; M.A. 1984, Ph.D. 1994, University of Chicago

Pamela J. Cressey, *Professorial Lecturer in Anthropology and of American Studies*

B.A. 1968, University of California, Los Angeles; M.A. 1973, Ph.D. 1978, University of Iowa

Stephen J. Cribari, *Professorial Lecturer in Forensic Sciences*
B.A. 1969, St. Lawrence University; J.D. 1980, Catholic University of America

Milton Orlo Critchfield, *Professorial Lecturer in Engineering*
B.S. 1963, M.S. 1965, Pennsylvania State University; Ph.D. 1971, University of Illinois

Alison Crockett, *Lecturer in Music*
B.M. 1993, Temple University; M.M. 1996, Manhattan School of Music

John Cromartie, *Professorial Lecturer in Geography*
B.A. 1976, M.A. 1983, Ph.D. 1989, University of North Carolina

Maria Cseh, *Associate Professor of Human and Organizational Learning*
B.S./M.S. 1982, Polytechnic University; M.A. 1992, Ph.D. 1998, University of Georgia

William K. Cummings, *Professor of International Education and International Affairs*
B.A. 1963, University of Michigan; M.A. 1965, Ph.D. 1972, Harvard University

Andrew David Cutler, *Professor of Engineering and Applied Science*
B.Sc. 1979, Imperial College of Science and Technology, England; M.S. 1980, Ph.D. 1984, Stanford University

Kavita Daiya, *Associate Professor of English*
B.A. 1993, University of Rochester; M.A. 1995, University of Illinois; Ph.D. 2001, University of Chicago

Nancia D'Alimonte, *Professorial Lecturer in Music*
D.M.A. 2002, University of Rochester

Scott Ridley Daly, *Assistant Professor of Chemistry*
B.S. 2006, North Central College; Ph.D. 2010, University of Illinois

Michael Danielson, *Assistant Professor of International Affairs*
Ph.D. 2013, American University

Sharon A. Dannels, *Associate Professor of Educational Research*
Ph.D. 1989, University of Oklahoma

Jerome Danoff, *Professor of Exercise Science*
Ph.D. 1977, University of Maryland

William R. Dardick, *Assistant Professor of Research Methods*

B.A. 1998, M.A. 2001, Towson University; Ph.D. 2010, University of Maryland

Subhasish Dasgupta, *Associate Professor of Information Systems and Technology Management*

B.S. 1986, M.B.A. 1989, University of Calcutta, India; Ph.D. 1996, City University of New York

Herbert John Davis, *Professor of Strategic Management and International Affairs*

B.S. 1965, Villanova University; M.B.A. 1968, East Carolina University; Ph.D. 1974, Louisiana State University

Nancy Davis, *Professorial Lecturer in American Studies*
Ph.D. 1986, George Washington University

Harold A. Deadman, *Professorial Lecturer in Forensic Sciences*
Ph.D. 1968, Southern Illinois University

Jonathan Pierce Deason, *Professor of Engineering and Applied Science*

B.S. 1970, U.S. Military Academy; M.B.A. 1975, Golden Gate University; M.S. 1978, Johns Hopkins University; Ph.D. 1984, University of Virginia

Gelaye Debebe, *Assistant Professor of Organizational Sciences*
Ph.D. 2002, University of Michigan

Rebecca M. Dedmond, *Assistant Professor of Counseling*
B.S. 1970, M.A. 1973, Ed.S. 1975, University of North Carolina at Greensboro; Ph.D. 1995, Virginia Commonwealth University

Christopher James Deering, *Professor of Political Science; Senior Associate Dean and Associate Provost for Virginia Science and Technology Campus*
B.A. 1974, University of Southern California; M.A. 1975, Ph.D. 1979, University of California, Santa Barbara

David D. DeGrazia, *Professor of Philosophy*
B.A. 1983, University of Chicago; M.St. 1987, Oxford University; Ph.D. 1989, Georgetown University

Cynthia H. Deitch, *Associate Professor of Women's Studies, of Sociology, and of Public Policy and Public Administration*
B.A. 1969, Columbia University; M.A. 1977, Ph.D. 1980, University of Massachusetts

Maria Jose de la Fuente, *Associate Professor of Spanish*
B.A. 1988, M.A. 1992, University of Salamanca; Ph.D. 1998, Georgetown University

Edward Della Torre, *Professor of Engineering and Applied Science*
B.E.E. 1954, Polytechnic University; M.S. 1956, Princeton University; M.S. 1961, Rutgers University; D.Eng.Sc. 1964, Columbia University

Julie DeLoia, *Professor of Exercise Science; Associate Dean of the Milken Institute School of Public Health*
Ph.D. 1987, Johns Hopkins University

Lisa Ann Delpy Neirotti, *Associate Professor of Sport Management*

B.S. 1985, California Polytechnic State University; M.S. 1988, George Mason University; Ph.D. 1991, University of New Mexico

Philippe Delquie, *Associate Professor of Decision Sciences*
Ph.D. 1989, Massachusetts Institute of Technology

Alexander S. Dent, *Associate Professor of Anthropology*
B.A. 1993, Princeton University; M.A. 1998, Ph.D. 2003, University of Chicago

Marguerita DeSander, *Assistant Professor of Educational Administration*
B.A. 1987, Michigan State University; J.D. 2000, Thomas M. Cooley Law School; Ph.D. 2005, College of William and Mary

James I. Deutsch, *Professorial Lecturer in American Studies*
Ph.D. 1991, George Washington University

Daniel DeWispelare, *Assistant Professor of English*
B.A. 2005, University of Colorado; M.A. 2006, Ph.D. 2011, University of Pennsylvania

Kalvir S. Dhuga, *Associate Professor of Physics*
B.Sc. 1976, Ph.D. 1980, University of Birmingham, England

Mona Talat Diab, *Associate Professor of Computer Science*
Ph.D. 2003, University of Maryland

Bruce James Dickson, *Professor of Political Science and International Affairs*
B.A. 1980, M.A. 1982, Ph.D. 1994, University of Michigan

Kennerly H. Digges, *Research Professor of Engineering and Applied Science*
B.S. 1955, Virginia Polytechnic Institute and State University; M.S. 1962, Ph.D. 1970, Ohio State University

Audrey Jane Di Maria, *Professorial Lecturer in Art Therapy*
B.A. 1971, Keene State College; M.A. 1977, George Washington University

Mary Ann DiMola, *Professorial Lecturer in Communication*
Ph.D. 2000, George Washington University

Loretta DiPietro, *Professor of Exercise Science*
M.P.H. 1985, Ph.D. 1988, Yale University

Eric Dirksen, *Lecturer in Music*
B.S. 1984, Southern Methodist University; M.M. 1991, Indiana University

Hartmut G. Dobel, *Assistant Professor of Biology*
M.S. 1987, Freie University, Berlin; M.S. 1987, Ph.D. 1996, University of Maryland

Simhaprasad Dodbele, *Professorial Lecturer in Engineering*
Ph.D. 1984, University of Maryland

Tonya L. Dodge, *Associate Professor of Psychology*

Ph.D. 2003, State University of New York at Albany

David S. Dolling, *Professor of Mechanical Engineering; Dean of the School of Engineering and Applied Science*

Ph.D. 1977, London University

Eleanor Donaghue-Kimrey, *Professorial Lecturer in Counseling*

Ph.D. 1996, Catholic University of America

John K. Donaldson, *Professorial Lecturer in Anthropology*

B.A. 1956, University of Rochester; M.A. 1957, Middlebury College; M.S. 1980, Georgetown University; Ph.D. 1995, George Washington University

Robert Paul Donaldson, *Robert L. Weintraub Professor of Biological Sciences*

B.A. 1964, University of Texas; M.S. 1966, Miami University; Ph.D. 1971, Michigan State University

Hongyuan Dong, *Assistant Professor of Chinese Language and Linguistics*

M.A. 2002, Beijing University; Ph.D. 2009, Cornell University

Richard G. Donnelly, *Associate Professor of Information Systems and Technology Management*

B.S.E. 1967, University of Michigan; Ph.D. 1972, Massachusetts Institute of Technology

Julie Donovan, *Assistant Professor of Writing in the Women's Leadership Program*

Ph.D. 2007, George Washington University

Stephen Charles Dopkins, *Associate Professor of Psychology*

B.A. 1974, Oberlin College; M.A. 1983, Ph.D. 1988, Columbia University

Michael Ulrich Doring, *Assistant Professor of Physics*

Ph.D. 2007, University of Valencia

Milos Doroslovacki, *Associate Professor of Engineering and Applied Science*

B.S. 1979, M.S. 1984, University of Belgrade, Yugoslavia; Ph.D. 1994, University of Cincinnati

Cynthia S. Dowd, *Assistant Professor of Chemistry*

B.A. 1993, University of Virginia; Ph.D. 1999, Virginia Commonwealth University

Alexander Downes, *Associate Professor of Political Science and International Affairs*

B.A. 1991, Brown University; M.A. 1998, Ph.D. 2004, University of Chicago

Evangeline J. Downie, *Assistant Professor of Physics*

Ph.D. 2007, University of Glasgow

Edward Allen Drennen, *Lecturer in Music*

B.Mus. 1963, Howard University

Evan M. Drumwright, *Assistant Professor of Computer Science*

B.S. 1999, University of Memphis; Ph.D. 2007, University of California, Los Angeles

Wenjing Duan, *Associate Professor of Information Systems and Technology Management*

Ph.D. 2006, University of Texas

Paul Brooks Duff, *Professor of Religion*

B.A. 1974, M.A. 1979, Miami University; Ph.D. 1988, University of Chicago

Michael Robert Duffey, *Associate Professor of Engineering Management*

B.A. 1982, Trinity College; B.S. 1985, M.S.M.E. 1987, Ph.D. 1992, University of Massachusetts

Holly Elizabeth Dugan, *Associate Professor of English*

B.A. 1997, Rutgers University; M.A. 2000, Ph.D. 2005, University of Michigan

Alexander B. Dumbadze, *Associate Professor of Art*

B.A. 1996, University of Chicago; M.A. 1999, Ph.D. 2005, University of Texas

Joseph P. Dymond, *Teaching Assistant Professor of Geography*

M.S. 1994, Pennsylvania State University; M.A. 1999, Louisiana State University

Lloyd Eby, *Professorial Lecturer in Philosophy*

Ph.D. 1988, Fordham University

Mark Edberg, *Associate Professor of Prevention and Community Health and of Anthropology*

Ph.D. 2000, University of Virginia

David Lee Edgell, *Adjunct Professor of Tourism Studies*

B.S. 1961, University of Kansas; B.A. 1968, American University; M.A. 1970, Indiana University; Ph.D. 1976, University of Cincinnati

Michael D. Edwards, *Professorial Lecturer in Political Management*

B.A. 1969, University of California, Berkeley; M.A. 1979, George Washington University; M.I.P.P. 1980, Johns Hopkins University

Daina Stukuls Eglitis, *Associate Professor of Sociology*

B.A. 1990, George Washington University; M.A. 1993, Ph.D. 1998, University of Michigan

Pascale Ehrenfreund, *Research Professor of International Affairs*

Ph.D. 1990, University of Paris VII/University of Vienna

Patricia A.L. Ehrensall, *Assistant Professor of Educational Administration*

M.Ed. 1992, Ed.D. 2001, Temple University

Robert J. Eisen, *Professor of Religion and International Affairs*

B.A. 1983, Yale University; Ph.D. 1990, Brandeis University

Ioannis Eleftherianos, *Assistant Professor of Biological Sciences*

Ph.D. 2002, University of Bath, England

Tarek A. El-Ghazawi, *Professor of Electrical and Computer Engineering*
B.S. 1980, Helwan University, Egypt; M.S. 1984, Ph.D. 1988, New Mexico State University

Gregory Elliehausen, *Associate Research Professor of Real Estate and Urban Analysis*

Ph.D. 1984, Pennsylvania State University

Sheryl Marie Elliott, *Teaching Associate Professor of Marketing and Tourism Studies*

B.F.A. 1968, Drake University; M.A.Ed.&H.D. 1987, George Washington University; Ph.D. 1998, University of Buckingham, England

Ayman El Tarabishy, *Teaching Associate Professor of Management*

Ed.D. 2006, George Washington University

Laura C. Engel, *Assistant Professor of International Education and International Affairs*

Ph.D. 2007, University of Illinois

Ernest Julius Englander, *Associate Professor of Strategic Management and Public Policy*

B.A. 1974, M.S. 1979, M.B.A. 1982, Ph.D. 1984, University of Washington

Ryan Engstrom, *Associate Professor of Geography*

B.A. 1995, Villanova University; Ph.D. 2005, San Diego State University/University of California, Santa Barbara

Robert M. Entman, *J.B. and Maurice C. Shapiro Professor of Media and Public Affairs*

Ph.D. 1977, Yale University

Kie-Bum Eom, *Professor of Engineering and Applied Science*

B.S.E.E. 1976, Sogang University, Korea; M.S.E.E. 1978, Korea Advanced Institute of Science; M.S.E. 1983, University of Texas; Ph.D. 1986, Purdue University

Ali Eskandarian, *Professor of Physics; Dean of the College of Professional Studies and of the Virginia Science and Technology Campus*

B.S. 1979, Ph.D. 1987, George Washington University

Azim Eskandarian, *Professor of Engineering and Applied Science*

B.S. 1982, D.Sc. 1991, George Washington University; M.S. 1983, Virginia Polytechnic Institute and State University

Mohssen Esseesy, *Associate Professor of Arabic and International Affairs*

B.A. 1982, Cairo University; M.A. 1992, University of Michigan; Ph.D. 2000, Georgetown University

Amirhossein Etemadi, *Assistant Professor of Engineering and Applied Science*

Ph.D. 2012, University of Toronto

Amitai Etzioni, *University Professor*

B.A. 1954, M.A. 1956, Hebrew University; Ph.D. 1958, University of California, Berkeley

Nancy Truman Evans, *Assistant Professor of Interior Design*

B.A. 1974, University of Maryland; Diploma 1982, Marymount University

Gordon Carl Everstine, *Professorial Lecturer in Engineering*

B.S. 1964, Lehigh University; M.S. 1966, Purdue University; Ph.D. 1971, Brown University

Susan Ewing, *Lecturer in Communication*

B.A. 1989, M.P.H. 1992, Tulane University

Mohammad Faghfoory, *Professorial Lecturer in Religion*

Ph.D. 1978, University of Wisconsin

Leila Farhadi, *Assistant Professor of Engineering and Applied Science*

Ph.D. 2012, Massachusetts Institute of Technology

Henry Farrell, *Associate Professor of Political Science and International Affairs*

B.A. 1991, M.A. 1993, University College Dublin; Ph.D. 2000, Georgetown University

Ronald Faucheux, *Professorial Lecturer in Political Management*

B.S.F.S. 1972, Georgetown University; J.D. 1974, Louisiana State University; Ph.D. 1992, University of New Orleans

Scott M. Fearing, *Lecturer in Music*

B.Mus. 1979, M.Mus. 1982, North Texas State University

Harvey B. Feigenbaum, *Professor of Political Science and International Affairs*

B.A. 1971, University of Virginia; M.A. 1974, Ph.D. 1981, University of California, Los Angeles

Gerald Feldman, *Professor of Physics*

B.A. 1978, University of Pennsylvania; M.S. 1981, Ph.D. 1987, University of Washington

Ilana Feldman, *Associate Professor of Anthropology and International Affairs*

B.A. 1991, Wesleyan University; M.A. 1994, New York University; Ph.D. 2002, University of Michigan

Peter Fenn, *Professorial Lecturer in Political Management*

B.A. 1970, Macalaster College; M.A. 1972, University of Southern California

Lora Ferguson, *Lecturer in Music*

B.Mus. 1963, Oberlin College; M.Mus. 1964, Catholic University of America

James Ferrer, Jr., *Associate Research Professor of International Business*

Ph.D. 1964, University of California, Berkeley; M.P.A. 1972, Harvard University

Michael J. Feuer, *Professor of Educational Leadership; Dean of the School of Education and Human Development*
Ph.D. 1980, University of Pennsylvania

Elizabeth Field, *Professorial Lecturer in Music*
B.Mus. 1979, Boston University; M.Mus. 1992, D.M.A. 1998, Cornell University

Christina Fink, *Professor of the Practice of International Affairs*
Ph.D. 1994, University of California, Berkeley

Evgeny Finkel, *Assistant Professor of Political Science*
B.A. 2004, M.A. 2007, Hebrew University of Jerusalem; Ph.D. 2012, University of Wisconsin

Martha Finnemore, *University Professor of Political Science and International Affairs*
B.A. 1982, Harvard University; M.A. 1984, University of Sydney, Australia; M.A. 1988, Ph.D. 1991, Stanford University

Elizabeth Ann Fisher, *Professor of Classics*
B.A. 1966, Northwestern University; M.A. 1971, Ph.D. 1972, Harvard University

Ram Fishman, *Assistant Professor of Economics*
B.A. 1994, Tel Aviv University; M.Sc. 2002, Weizmann Institute of Sciences; Ph.D. 2011, Columbia University

Dennis Fixler, *Professorial Lecturer in Economics*
Ph.D. 1978, Purdue University

Charles M. Fleming, *Professorial Lecturer in Statistics*
M.S. 1989, University of Wisconsin-Milwaukee

John M. Fleming, *Professorial Lecturer in Engineering*
J.D. 2002, Catholic University of America

Wade Fletcher, *Teaching Assistant Professor of University Writing*
M.F.A. 2008, George Mason University

Vincy Fon, *Professor of Economics*
B.A. 1971, Wisconsin State University; M.A. 1975, M.A. 1977, Ph.D. 1981, University of Kansas

Ernest Harvey Forman, *Professor of Decision Sciences*
B.S. 1964, University of Rochester; M.S. 1969, Johns Hopkins University; D.Sc. 1975, George Washington University

John Jerrett Forrer, *Associate Research Professor of International Business*
Ph.D. 1991, George Washington University

Stephen L. Forssell, *Professorial Lecturer in Psychology*
B.A. 1998, University of Virginia; M.A. 2002, Ph.D. 2004, University of Denver

Catherine A. Forster, *Associate Professor of Biological Sciences*
Ph.D. 1990, University of Pennsylvania

Ana Fostel, *Assistant Professor of Economics*

Ph.D. 2005, Yale University

Irene R. Foster, *Assistant Professor of Economics*
B.A. 1980, M.A. 1982, University of Madras, India; M.S. 1986, Purdue University; Ph.D. 2010, Indiana University

James E. Foster, *Professor of Economics and International Affairs*
Ph.D. 1982, Cornell University

Peter Willard Fraize, *Adjunct Professor of Music*
Artist's Diploma 1989, Royal Conservatory of the Netherlands

Royce A. Francis, *Assistant Professor of Engineering Management and Systems Engineering*
Ph.D. 2009, Carnegie Mellon University

Maria Frawley, *Professor of English and Honors*
B.A. 1983, Bucknell University; M.A. 1985, Ph.D. 1991, University of Delaware

Maxine Benjamin Freund, *Professor of Special Education and Disability Studies; Associate Dean of the Graduate School of Education and Human Development*
B.A. 1968, University of Minnesota; M.A. 1973, Ed.D. 1981, George Washington University

Jennifer R. Frey, *Assistant Professor of Special Education*
B.S. 2003, M.Ed. 2006, Ph.D. 2012, Vanderbilt University

Elise Friedland, *Assistant Professor of Classics*
B.A. 1988, Williams College; M.A. 1994, Ph.D. 1997, University of Michigan

Sandra Friedman, *Assistant Professor of Writing*
B.A. 1988, Columbia University; Ph.D. 2001, New York University

Michele Friend, *Associate Professor of Philosophy*
B.A. 1990, M.A. 1992, McGill University; Ph.D. 1997, University of St. Andrews

Richard C. Fritsch, *Professorial Lecturer in Clinical Psychology*
M.A. 1983, Psy.D. 1986, George Washington University

Benno Price Fritz, *Associate Professor of Music*
B.A. 1985, Michigan State University; Dipl.F.A. 1992, University of Calgary; M.A. 1992, Ph.D. 1999, George Mason University

Molly Frost, *Professorial Lecturer in Chinese and in Women's Studies*
B.A. 1966, Wellesley College; M.S. 1970, Ph.D. 1982, Georgetown University

Mary Hatwood Futrell, *Professor of Education*
B.S. 1962, Virginia State College; M.A.Ed. 1968, Ed.D. 1992, George Washington University

David R. Gallay, *Professorial Lecturer in Engineering*
D.Sc. 2002, George Washington University

Alfred A. Galli, *Professorial Lecturer in Engineering*

B.S. 1967, M.S. 1980, West Virginia University

Cayo Elizabeth Gamber, *Assistant Professor of Writing*
B.A. 1979, College of William and Mary; M.Phil. 1986, Ph.D. 1991, George Washington University

Vanessa Northington Gamble, *University Professor of Medical Humanities and Professor of American Studies*
M.D. 1983, Ph.D. 1987, University of Pennsylvania

Jody Marcela Ganiban, *Professor of Psychology*
B.S. 1986, Brown University; M.A. 1989, Ph.D. 1991, University of Rochester

Jorge Garcia, *Professor of Counseling*
B.S. 1977, Universidad Catolica de Chile; M.S. 1984, Dr.Rehab. 1988, Southern Illinois University at Carbondale

Lia Garlock, *Assistant Professor of Art Therapy*
M.S. 1996, Nazareth College

Charles Alexander Garris, *Professor of Engineering*
B.E. 1965, State University of New York, Maritime College; M.S. 1968, Ph.D. 1971, State University of New York at Stony Brook

Joseph Gascho, *Professorial Lecturer in Music*
M.M. 2001, Johns Hopkins University; D.M.A. 2010, University of Maryland

Joseph Lewis Gastwirth, *Professor of Statistics and of Economics*
B.S. 1958, Yale University; M.A. 1960, Princeton University; Ph.D. 1963, Columbia University

Christina Gee, *Associate Professor of Psychology*
B.A. 1989, Cornell University; M.A. 1994, Ph.D. 1997, University of Illinois

David R. Gerk, *Professorial Lecturer in Engineering*
J.D. 2002, George Washington University

Tom G. Geurts, *Teaching Associate Professor of Real Estate and Finance*
M.S. 1991, M.S. 1992, University of Amsterdam; Ph.D. 1998, Pennsylvania State University

Laura E. Gilliam, *Lecturer in Music*
B.Mus. 1957, University of North Carolina

Susan D. Gillmor, *Assistant Professor of Chemistry*
B.A. 1996, Williams College; Ph.D. 2002, University of Wisconsin

Charles Glaser, *Professor of Political Science and International Affairs*
B.S. 1977, Massachusetts Institute of Technology; M.A. 1980, M.A. 1981, Ph.D. 1983, Harvard University

Theodore Glickman, *Professor of Decision Sciences*
B.S. 1965, State University of New York at Stony Brook; Ph.D. 1971, Johns Hopkins University

Edward Gnehm, *Kuwait Professor of Gulf and Arabian Peninsula Affairs*

B.A. 1966, M.A. 1968, George Washington University

Ellen Goldman, *Associate Professor of Human and Organizational Learning*
B.A. 1977, Tufts University; M.B.A. 1978, University of Pittsburgh; Ed.D. 2005, George Washington University

Lynn R. Goldman, *Professor of Environmental and Occupational Health; Dean of the Milken Institute School of Public Health*
M.P.H. 1981, Johns Hopkins University; M.D. 1981, University of California, San Francisco

Samuel Goldman, *Assistant Professor of Political Science*
B.A. 2002, Rutgers University; Ph.D. 2010, Harvard University

David F. Goldsmith, *Associate Research Professor of Environmental and Occupational Health*
B.A. 1972, Antioch College; M.P.H. 1977, Ph.D. 1983, University of North Carolina

Allan L. Goldstein, *Professor of Biochemistry and Molecular Biology*
B.S. 1959, Wagner College; M.S. 1961, Ph.D. 1964, Rutgers University

Joel Gomez, *Associate Professor of Educational Leadership*
B.A. 1967, M.A. 1970, University of Texas; Ed.D. 1998, George Washington University

Margaret Ruth Gonglewski, *Associate Professor of German*
B.A. 1988, Juniata College; Ph.D. 1996, Georgetown University

Frank H. Goodyear, *Professorial Lecturer in American Studies*
B.A. 1989, Princeton University; M.A. 1994, Ph.D. 1998, University of Texas

Deepak Gopalakrishna, *Lecturer in Geography*
B.S. 1999, Birla Institute of Technology and Science; M.S. 2001, Ohio State University

Angela Gore, *Associate Professor of Accountancy*
Ph.D. 2000, State University of New York at Buffalo

Joseph P. Gorin, *Professorial Lecturer in Clinical Psychology*
Psy.D. 1984, Massachusetts School of Professional Psychology

Supriya Goswami, *Adjunct Professor of English*
B.A. 1996, Presidency College, India; M.A. 2000, Jawaharlal Nehru University, India; Ph.D. 2002, George Washington University

Victoria Grady, *Adjunct Professor of Organizational Sciences and Communication*
D.Sc. 2005, George Washington University

Erica Lynn Gralla, *Assistant Professor of Systems Engineering*
Ph.D. 2012, Massachusetts Institute of Technology

Mary J. Granger, *Professor of Information Systems and Technology Management*

B.S. 1965, Mount Saint Vincent College; M.B.A. 1980, Ph.D. 1990, University of Cincinnati

Patricia Granja-Falconi, *Teaching Assistant Professor in the Spanish Language*

M.A.T. 1996, Rutgers University; M.A. 2004, University of Maryland

Colin Desmond Green, *Associate Professor of Curriculum and Pedagogy*

B.A. 1985, M.A. 1992, Queen's University, Northern Ireland; Ed.D. 1998, University of Georgia

William Greener III, *Professorial Lecturer in Political Management*

B.A. 1972, Washington and Lee University

Jennifer M. Green-Lewis, *Associate Professor of English*

M.A. 1984, University of Edinburgh, Scotland; M.A. 1986, Ph.D. 1990, University of Pennsylvania

Edward Grefe, *Professorial Lecturer in Political Management*

B.A. 1963, Catholic University of America

Doran Gresham, *Professorial Lecturer in Special Education*

Ed.D. 2005, George Washington University

David Alan Grier, *Associate Professor of International Science and Technology Policy*

B.A. 1978, Middlebury College; M.S. 1983, Ph.D. 1986, University of Washington

Harald Griesshammer, *Associate Professor of Physics*

Ph.D. 1996, University of Nuremberg; Dr.Habil. 2005, Technical University of Munich

Jennifer Jeanne Griffin, *Professor of Strategic Management and Public Policy*

B.S. 1986, Iowa State University; M.B.A. 1992, D.B.A. 1997, Boston University

Patricia Griffith, *Associate Professor of English*

B.A. 1958, Baylor University

Roy Richard Grinker, *Professor of Anthropology and International Affairs*

B.A. 1983, Grinnell College; M.A. 1985, Ph.D. 1989, Harvard University

Kimberly Ann Gross, *Associate Professor of Media and Public Affairs*

B.A. 1990, University of Wisconsin; Ph.D. 2001, University of Michigan

Arnold Grossblatt, *Associate Professor in the College of Professional Studies*

Ph.D. 1980, University of New Hampshire

Eric Grynawski, *Assistant Professor of Political Science*

Ph.D. 2010, Ohio State University

Maria Gualdani, *Assistant Professor of Mathematics*

Ph.D. 2005, Mainz University, Germany

Carl F. Gudenius, *Associate Professor of Theatre*

B.A. 1980, Providence College; M.F.A. 1983, Wayne State University

Eileen Morris Guenther, *Professorial Lecturer in Music*

B.A., Mus.B. 1970, University of Kansas; M.A., D.M.A. 1973, Catholic University of America

Thomas A. Guglielmo, *Associate Professor of American Studies*

Ph.D. 2000, University of Michigan

Larney Gump, *Adjunct Professor of Clinical Psychology*

Ed.D. 1969, Pennsylvania State University

Doug Guthrie, *Professor of Management, of International Business, and of Sociology*

B.A. 1992, University of Chicago; Ph.D. 1997, University of California, Berkeley

Murli Manohar Gupta, *Professor of Mathematics*

B.S. 1963, M.S. 1965, Agra University, India; M.S. 1969, Ph.D. 1971, University of Saskatchewan, Canada

Jean Gutierrez, *Assistant Professor in Exercise Science*

Ph.D. 2009, Baylor University

Helmut Habertzettl, *Associate Professor of Physics*

M.Sc. 1975, Ph.D. 1979, University of Bonn, Germany

James K. Hahn, *Professor of Engineering and Applied Science*

B.S. 1979, University of South Carolina; M.S. 1981, University of California, Los Angeles; M.S. 1983, Ph.D. 1989, Ohio State University

Muhiuddin Haider, *Associate Professor of Global Health and International Affairs*

Ph.D. 1980, University of Michigan

Henry E. Hale, *Associate Professor of Political Science and International Affairs*

B.A. 1988, Duke University; M.A. 1990, Ph.D. 1998, Harvard University

Sung Ham, *Assistant Professor of Marketing*

M.A. 2005, University of Virginia; Ph.D. 2009, University of Houston

Shoko Hamano, *Professor of Japanese*

B.A. 1976, University of Tokyo, Japan; M.A. 1980, Ph.D. 1986, University of Florida

Samer H. Hamdar, *Assistant Professor of Civil Engineering*

B.E. 2003, American University of Beirut; M.S. 2004, University of Maryland; Ph.D. 2008, Northwestern University

Larry F. Hamm, *Professor of Exercise Science*

Ph.D. 1984, University of Minnesota

LaTisha Hammond, *Assistant Professor of Honors and of Biology*

Ph.D. 2010, University of California, Santa Barbara

Ichiro Leopold Hanami, *Assistant Professor of Japanese Language and Literature*

B.A. 1983, M.A. 1986, University of California, Los Angeles; Ph.D. 1997, Stanford University

William C. Handorf, *Professor of Finance*

B.A. 1966, M.B.A. 1967, University of Michigan; Ph.D. 1973, Michigan State University

Adrienne B. Hancock, *Assistant Professor of Speech and Hearing*

B.A. 2001, M.A. 2003, Ph.D. 2005, Florida State University

Peter J. Hanke, *Lecturer in Communication*

M.A. 2000, New York University; M.Div. 2005, Yale University

Muhammad Ikramul Haque, *Professor of Engineering and Applied Science*

B.Sc. 1961, Punjab University, Pakistan; B.Sc. 1965, Engineering University, Pakistan; M.S. 1970, Ph.D. 1973, Colorado State University

Valentina Harizanov, *Professor of Mathematics*

B.S. 1978, M.S. 1980, University of Belgrade, Yugoslavia; M.A. 1984, Ph.D. 1987, University of Wisconsin

Robert Joseph Harrington, *Professor of Engineering and Applied Science*

B.S. 1962, Ph.D. 1965, University of Liverpool, England

Jonathan Gil Harris, *Professor of English*

B.A. 1983, M.A. 1986, University of Auckland, New Zealand; D.Phil. 1990, University of Sussex, England

Hope Millard Harrison, *Associate Professor of History and International Affairs, Associate Dean for Research in Elliott School of International Affairs*

B.A. 1985, Harvard University; Ph.D. 1993, Columbia University

Lisa St. Clair Harvey, *Associate Professor of Media and Public Affairs*

B.A. 1979, McGill University, Canada; M.S. 1983, Cornell University; Ph.D. 1990, University of Washington

Salah S. Hassan, *Professor of Business Administration*

B.S. 1975, King Saud University, Saudi Arabia; M.S. 1977, Oklahoma State University; Ph.D. 1984, Ohio State University

Donald E. Hawkins, *Professor of Management and Tourism Studies, Eisenhower Professor of Tourism Policy, and Research Professor of Medicine*

B.A. 1958, King's College, Pennsylvania; M.A. 1960, Lehigh University; Ed.D. 1967, New York University

Carol Hayes, *Assistant Professor of Writing*

B.A. 1991, Florida State University; M.A. 1993, Ph.D. 2000, University of California, Irvine

Daniel Hayes, *Assistant Professor of Political Science*

B.J. 1998, M.A. 2004, Ph.D. 2006, University of Texas

Michael Heaney, *Professorial Lecturer in Forensic Sciences*

M.S. 1983, Troy State University; J.D. 1994, George Mason University

Chad Heap, *Associate Professor of American Studies*

B.A. 1990, Harvard University; M.A. 1993, Ph.D. 2000, University of Chicago

Balaji N. Hebbar, *Professorial Lecturer in Religion*

Ph.D. 2000, University of Utrecht, Netherlands

Hermann Josef Helgert, *Professor of Engineering and Applied Science*

B.S. 1962, M.S. 1964, Ph.D. 1966, State University of New York at Buffalo

Rachelle Silverman Heller, *Professor of Engineering and Applied Science; Associate Provost for the Mount Vernon Campus*

B.S. 1964, State University of New York at Stony Brook; M.S. 1972, Ph.D. 1986, University of Maryland

Anna H. Helm, *Assistant Professor of International Business*

Ph.D. 2002, Georgetown University

Brian Henderson, *Assistant Professor of Finance*

Ph.D. 2006, University of Illinois

Kenneth C. Hergenrather, *Associate Professor of Counseling*

B.B.A. 1984, M.S.Ed. 1990, University of Toledo; M.A. 1997, University of South Carolina; Ph.D. 2001, Auburn University

Patricia Hernandez, *Associate Professor of Biology*

Ph.D. 1999, Harvard University

James Gordon Hershberg, *Professor of History and International Affairs*

B.A. 1982, Harvard University; M.I.A. 1985, Columbia University; Ph.D. 1989, Tufts University

Henry Hertzfeld, *Research Professor of Space Policy and International Affairs; Professorial Lecturer in Economics*

Ph.D. 1973, Temple University; J.D. 1975, George Washington University

Nora Sharon Hill, *Assistant Professor of Management*

Ph.D. 2008, University of Maryland

Steven Campbell Hilmy, *Adjunct Professor of Music*

B.A. 1984, George Washington University; M.M. 1991, Johns Hopkins University

Alfred John Hildebeitel, *Professor of Religion and of History*

B.A. 1963, Haverford College; M.A. 1966, Ph.D. 1973, University of Chicago

Matthew S. Hindman, *Associate Professor of Media and Public Affairs*

Ph.D. 2005, Princeton University

Carol Hren Hoare, *Professor of Human Development and of Human and Organizational Learning*
B.S. 1962, Carlow College; M.S. 1964, University of North Carolina; Ed.D. 1980, George Washington University

Julius Hobson, *Professorial Lecturer in Political Management*
B.A. 1977, Howard University; M.A. 1980, George Washington University

Donna Hoffman, *Professor of Marketing*
B.A. 1978, University of California, Davis; M.A. 1980, Ph.D. 1984, University of North Carolina

Thomas H. Holzer, *Professorial Lecturer in Engineering*
D.Sc. 1999, George Washington University

Benjamin D. Hopkins, *Associate Professor of History and International Affairs*
Ph.D. 2006, University of Cambridge

Gustavo Hormiga, *Ruth Weintraub Professor of Biological Sciences*
B.S. 1985, Universidad de Barcelona, Spain; M.S. 1992, Ph.D. 1995, University of Maryland

Edwin C. Hostetter, *Assistant Professorial Lecturer in Religion*
Ph.D. 1992, Johns Hopkins University

Natalie Houghtby-Haddon, *Professorial Lecturer in Religion*
Ph.D. 2009, George Washington University

Elisa W. Hovander, *Assistant Professor of Economics*
Ph.D. 2011, University of California, San Diego

Adam Howard, *Adjunct Professor of History*
Ph.D. 2003, University of Florida

Lionel C. Howard, *Assistant Professor of Educational Research*
Ed.D. 2006, Harvard University

George William Howe, *Professor of Psychiatry and Behavioral Sciences and of Psychology*
B.S. 1972, Massachusetts Institute of Technology; M.S. 1976, Ph.D. 1982, University of Connecticut

Paula Howie, *Professorial Lecturer in Art Therapy*
B.F.A. 1969, University of North Carolina at Greensboro; M.A. 1975, George Washington University

Stephen M. Hsu, *Professor of Engineering and Applied Science*
Ph.D. 1976, Pennsylvania State University

Jonathan Hsy, *Associate Professor of English*
B.A. 2000, M.A. 2001, Stanford University; M.A. 2002, Ph.D. 2007, University of Pennsylvania

Valerie Wailin Hu, *Associate Professor of Biochemistry and Molecular Biology*
B.S. 1972, University of Hawaii; Ph.D. 1978, California Institute of Technology

Alexander C.Y. Huang, *Professor of English, East Asian Language and Literatures, and Theatre and Dance*
B.A. 1997, National Tsing-Hua University, Taiwan; Ph.D. 2004, Stanford University

H. Howie Huang, *Assistant Professor of Engineering and Applied Science*
Ph.D. 2008, University of Virginia

Geoffrey Hudson, *Assistant Professor of Exercise Science*
Ph.D. 2010, Baylor University

Lee Huebner, *Professor of Media and Public Affairs*
B.A. 1962, Northwestern University; M.A. 1963, Ph.D. 1968, Harvard University

Llewelyn Hughes, *Assistant Professor of Political Science and International Affairs*
B.A. 1994, Melbourne University; M.A. 1999, University of Tokyo; Ph.D. 2008, Massachusetts Institute of Technology

David R. Hunt, *Professorial Lecturer in Anthropology*
Ph.D. 1989, University of Tennessee

Min Hwang, *Associate Professor of Finance*
Ph.D. 2001, University of California, Berkeley

Mark S. Hyman, *Teaching Assistant Professor of Management*
B.S. 1978, University of Pennsylvania; J.D. 1995, University of Maryland

Karen H. Ihrig, *Assistant Professor of Special Education and Disability Studies*
M.A.Ed.&H.D. 1990, Ed.D. 2005, George Washington University

M. Ashraf Imam, *Adjunct Professor of Engineering*
D.Sc. 1978, George Washington University

Donna Lind Infeld, *Professor of Public Policy and Public Administration*
B.S. 1971, Portland State University; Ph.D. 1978, Brandeis University

Loring J. Ingraham, *Professor of Clinical Psychology*
B.A. 1974, Yale University; Ph.D. 1985, Catholic University of America

Louis J. Ippolito, *Professorial Lecturer in Engineering*
D.Sc. 1977, George Washington University

Hiromi Ishizawa, *Assistant Professor of Sociology*
Ph.D. 2006, University of Illinois

Geryes Moussa Jabbour, *Professor of Finance; Associate Dean for Executive Education in School of Business*
License 1973, 1979, Lebanese University, Lebanon; M.B.A. 1983, Ph.D. 1989, George Washington University

Philip Jacks, *Associate Professor of Art*
B.A. 1976, Cornell University; Ph.D. 1981, University of Chicago

Jacqueline G. Jackson, *Professorial Lecturer in Forensic Sciences*

B.A. 1978, M.S. 1985, Ph.D. 1992, Howard University

Linda Jacobs-Condit, *Clinical Instructor in Speech and Hearing*

B.A. 1976, M.S. 1978, Tulane University

Leslie Bravman Jacobson, *Professor of Theatre*

B.S. 1970, Northwestern University; M.F.A. 1974, Boston University

Sanjay Jain, *Associate Professor of Decision Sciences*

B.E. 1982, Indian Institute of Technology; Ph.D. 1988, Rensselaer Polytechnic Institute

Rick C. Jakeman, *Assistant Professor of Higher Education Administration; Assistant Dean of Academic Services in Graduate School of Education and Human Development*

M.Ed. 2004, Drury University; Ed.D. 2007, University of Arkansas

Jennifer C. James, *Associate Professor of English*

B.A. 1988, College of William and Mary; M.A. 1991, Syracuse University

Ahmad Jarrah, *Assistant Professor of Decision Sciences*

Ph.D. 1991, University of Texas

Remi Jedwab, *Assistant Professor of Economics and International Affairs*

B.Sc. 2005, University Paris I Pantheon-Sorbonne; M.A. 2007, Ph.D. 2012, Paris School of Economics

Aleksander Jeremic, *Associate Professor of Biology*

B.S. 1994, M.S. 1996, University of Belgrade; Ph.D. 2001, Iowa State University

Sigridur Johannesdottir, *Assistant Professor of Costume Design and Technology*

B.A. 1986, University of Iceland; M.F.A. 1992, West Virginia University

Kurt Edward Johnson, *Professor of Anatomy*

B.S. 1965, Johns Hopkins University; M.Phil. 1969, Ph.D. 1970, Yale University

Susan Johnston, *Professorial Lecturer in Anthropology*

Ph.D. 1989, University of Pennsylvania

Antwan Jones, *Assistant Professor of Sociology*

Ph.D. 2010, Bowling Green State University

Christopher L. Jones, *Associate Industry Professor of Accountancy*

B.A. 1985, Swarthmore College; Ph.D. 1998, Stanford University

David W. Jones, *Lecturer in Music*

B.Mus. 1988, Northwestern University

Cory Jorgensen, *Assistant Professor of Arabic*

M.A. 2005, Ph.D. 2012, University of Texas

Lester M. Joseph, *Lecturer in Sociology*

B.A. 1971, University of Michigan; J.D. 1980, John Marshall School of Law

Sumit Joshi, *Professor of Economics*

B.A. 1984, Delhi University, India; M.A. 1986, Delhi School of Economics, India; Ph.D. 1991, Indiana University

Gergana Jostova, *Associate Professor of Finance*

B.A. 1996, American University in Bulgaria; M.S. 1997, Boston University; Ph.D. 2002, Boston College

Frederick L. Joutz, *Professor of Economics*

B.A. 1979, University of Maryland; M.A. 1982, University of British Columbia, Canada; Ph.D. 1987, University of Washington

Hugo Dietrich Junghenn, *Professor of Mathematics*

B.S. 1964, Albright College; M.A. 1967, Villanova University; Ph.D. 1971, George Washington University

Graciela Laura Kaminsky, *Professor of Economics and International Affairs*

Ph.D. 1983, Massachusetts Institute of Technology

Cing-Dao Kan, *Associate Research Professor of Engineering*

Ph.D. 1990, University of Maryland

Sok-Hyon Kang, *Professor of Accountancy; Vice Dean of the School of Business*

B.S. 1973, Seoul National University; M.B.A. 1984, University of California, Los Angeles; Ph.D. 1989, Massachusetts Institute of Technology

Xiaofei Kang, *Associate Professor of Religion*

B.A. 1987, M.A. 1990, Beijing University; M.A. 1992, University of California, Santa Barbara; Ph.D. 2000, Columbia University

Yunkyoung Kang, *Professorial Lecturer in Korean*

B.A. 1996, Dankook University; M.A. 2003, San Diego State University; Ph.D. 2012, Georgetown University

Jodi I. Kanter, *Associate Professor of Theatre*

Ph.D. 2000, Northwestern University

Shivraj Kanungo, *Associate Professor of Decision Sciences*

Ph.D. 1993, George Washington University

Steven B. Kaplan, *Assistant Professor of Political Science*

Ph.D. 2009, Yale University

Oleg Kargaltsev, *Assistant Professor of Physics*

B.S. 1996, M.S. 1998, Moscow Institute of Physics and Technology; Ph.D. 2004, Pennsylvania State University

David Karpf, *Assistant Professor of Media and Public Affairs*

Ph.D. 2009, University of Pennsylvania

Stuart Kasdin, *Assistant Professor of Public Policy and Public Administration*

B.A. 1981, State University of New York at Binghamton; M.A. 1991, University of California, Davis; Ph.D. 2009, University of California, Santa Barbara

Jill Felice Kastle, *Associate Professor of Public Policy and Public Administration*

B.S. 1968, M.S. 1969, Northwestern University; J.D. 1972, Boston University

Muhammad M. Kassab, *Teaching Instructor in the Arabic Language*

M.A. 1999, Columbia University

Ruth J. Katz, *Professor of Health Policy*

B.A. 1973, University of Pennsylvania; J.D. 1977, Emory University; M.P.H. 1980, Harvard University

Matthew W. Kay, *Associate Professor of Engineering and Applied Science*

D.Sc. 2000, University of Washington

D. Christopher Kayes, *Professor of Management*

B.A. 1989, University of Indiana; M.B.A. 1995, Butler University; Ph.D. 2001, Case Western Reserve University

Melissa Keeley, *Assistant Professor of Geography and of Public Policy and Public Administration*

M.S. 2000, University of Washington; Ph.D. 2007, Technical University of Berlin

Michael Keidar, *Professor of Engineering and Applied Science*
Ph.D. 1997, Tel Aviv University

Katherine Zapanis Keller, *Professorial Lecturer in English*
Ph.D. 1980, University of Toronto

Michelle Kelso, *Assistant Professor of Sociology and International Affairs*

Ph.D. 2010, University of Michigan

Ivy Ken, *Associate Professor of Sociology*

B.A. 1993, Concordia College; M.A. 1995, Ph.D. 1999, University of Georgia

Dane Keith Kennedy, *Elmer Louis Kayser Professor of History*
B.A. 1973, M.A. 1975, Ph.D. 1981, University of California, Berkeley

Katherine Ash Kennedy, *Professor of Pharmacology*

B.A. 1973, Vanderbilt University; Ph.D. 1977, University of Iowa

Kirk Thomas Kern, *Lecturer in Engineering*

M.S. 1991, Pennsylvania State University

Dean Kessmann, *Associate Professor of Photography*

B.A. 1988, M.F.A. 1996, Southern Illinois University

Homayoun Khamooshi, *Assistant Professor of Decision Sciences*

B.Eng. 1977, Abadan Institute of Technology, Iran; M.S. 1979, Asian Institute of Technology, Thailand; Ph.D. 1993, Lancaster University, England

Shaista E. Khilji, *Professor of Human and Organizational Learning*

Ph.D. 2000, University of Cambridge

Dina Rizk Khoury, *Associate Professor of History and International Affairs*

B.A. 1977, University of California, Riverside; M.A. 1980, Ph.D. 1987, Georgetown University

Eun-Hee Kim, *Assistant Professor of Strategic Management and Public Policy*

Ph.D. 2009, University of Michigan

Jisoo Kim, *Assistant Professor of History and International Affairs*

B.A. 2000, Yonsei University; M.A. 2003, Ph.D. 2009, Columbia University

Mikyong Minsun Kim, *Associate Professor of Higher Education Administration*

M.A. 1992, Ph.D. 1995, University of California, Los Angeles

Young-Key Kim-Renaud, *Professor of Korean Language and Culture and International Affairs*

B.A. 1963, Ewha Woman's University, Korea; M.A. 1965, University of California, Berkeley; Ph.D. 1974, University of Hawaii

Marcus King, *John O. Rankin Associate Professor of International Affairs*

B.S. 1993, Georgetown University; M.A. 2000, Ph.D. 2008, Tufts University

Michael King, *Professor of Chemistry*

B.S. 1966, Illinois Institute of Technology; M.A. 1967, Ph.D. 1970, Harvard University

Sheila Nataraj Kirby, *Professorial Lecturer in Economics and in Public Policy and Public Administration*

B.A. 1965, Loreto Convent College, India; M.A. 1970, University of Michigan; Ph.D. 1983, George Washington University

Elizabeth Kitsos-Kang, *Adjunct Professor of Theatre and Dance*
M.F.A. 1991, University of Virginia

Peter Flindell Klarén, *Professor of History and International Affairs*

B.A. 1960, Dartmouth College; M.A. 1964, Ph.D. 1968, University of California, Los Angeles

Christopher Klemek, *Associate Professor of History*

B.A. 1997, Ohio State University; Ph.D. 2004, University of Pennsylvania

Kathryn Kleppinger, *Assistant Professor of French*

Ph.D. 2011, New York University

Mark S. Klock, *Professor of Finance*

B.A. 1978, Pennsylvania State University; Ph.D. 1983, Boston College; J.D. 1988, University of Maryland

Ellen Klossen, *Professorial Lecturer in Clinical Psychology*

Ph.D. 1976, Princeton University

Steven Knapp, *Professor of English; President of the University*
B.A. 1973, Yale University; M.A. 1977, Ph.D. 1981, Cornell University

Carrie Knebel, *Professorial Lecturer in Art Therapy*
M.A. 1997, George Washington University

Carol Anne Kochhar-Bryant, *Professor of Special Education and Disability Studies; Senior Associate Dean of the Graduate School of Education and Human Development*
B.S. 1975, University of Maryland; M.A. 1981, Ed.D. 1987, George Washington University

Jeffrey L. Koczela, *Lecturer in Music*
B.Mus. 1981, Catholic University of America

Peter A. Konwerski, *Professorial Lecturer in Human Services*
B.A.Ed.&H.D. 1991, M.A.Ed.&H.D. 1993, Ed.D. 1997, George Washington University

Can Edip Korman, *Professor of Engineering and Applied Science; Associate Dean of the School of Engineering and Applied Science*
B.S. 1985, M.S. 1987, Ph.D. 1990, University of Maryland

Karen Kortecamp, *Associate Professor of Curriculum and Pedagogy*
B.A. 1976, University of Massachusetts; M.Ed. 1982, Ph.D. 1989, University of Illinois

Joseph Kip Kosek, *Associate Professor of American Studies*
Ph.D. 2004, Yale University

Todd M. Krafchak, *Professorial Lecturer in Engineering*
M.S. 1985, Rensselaer Polytechnic Institute

Theresa Krankowski, *Lecturer in Special Education*
B.S. 1985, Pennsylvania State University; M.S. 1987, Southern Illinois University

Alexander Krasnikov, *Assistant Professor of Marketing*
Ph.D. 2007, University of South Carolina

Jessica Anne Krash, *Professorial Lecturer in Music*
B.A. 1982, Harvard University; M.M. 1984, The Juilliard School; D.M.A. 1995, University of Maryland

Dwight Kravitz, *Assistant Professor of Psychology*
B.S. 2002, Ph.D. 2006, Carnegie Mellon University

Joseph Kravitz, *Adjunct Professor of Geology*
Ph.D. 1983, George Washington University

Ramesh Krishnamurthy, *Professorial Lecturer in Engineering*
Ph.D. 1985, University of Pennsylvania

Randi Gray Kristensen, *Assistant Professor of Writing*
B.A. 1983, Georgetown University; M.F.A. 1993, Ph.D. 2000, Louisiana State University

Jessica Krug, *Assistant Professor of History*
B.A. 2005, Portland State University; M.A. 2007, University of Wisconsin

Joel Corneal Kuipers, *Professor of Anthropology and International Affairs*
B.A. 1976, Calvin College; M.Phil. 1978, Ph.D. 1982, Yale University

Susan Kulp, *Associate Professor of Accountancy*
Ph.D. 1999, Stanford University

Ajit Kumar, *Professor of Biochemistry and Molecular Biology*
Ph.D. 1968, University of Chicago

Subrata Kundu, *Associate Professor of Statistics*
B.S. 1987, M.S. 1989, Indian Statistical Institute; Ph.D. 1994, University of Illinois

Bethany Cobb Kung, *Assistant Professor of Honors and Physics*
B.A. 2002, Williams College; M.S. 2003, Ph.D. 2008, Yale University

Bruce L. Kutnick, *Professorial Lecturer in Organizational Sciences*
B.S. 1967, Wayne State University; Ph.D. 1984, Massachusetts Institute of Technology

Janne Semuli Kuttunen, *Assistant Professor of Decision Sciences*
M.B.A. 2003, Ph.D. 2009, Helsinki University of Technology

Young Hoon Kwak, *Associate Professor of Decision Sciences*
B.S. 1991, Yonsei University, Korea; M.S. 1992, Ph.D. 1997, University of California, Berkeley

Nicholas Kyriakopoulos, *Professor of Engineering*
B.E.E. 1960, M.S. in Engr. 1963, D.Sc. 1968, George Washington University

Pamela Ann Labadie, *Professor of Economics*
B.A. 1974, Michigan State University; M.A. 1975, Columbia University; Ph.D. 1984, University of Chicago

John Marion Lachin III, *Professor of Biostatistics and Statistics*
B.S. 1965, Tulane University of Louisiana; Sc.D. 1972, University of Pittsburgh

Stephan Ladisch, *Professor of Pediatrics and of Biochemistry and Molecular Biology*
B.S. 1969, M.D. 1973, University of Pennsylvania

Yinglei Lai, *Associate Professor of Statistics*
Ph.D. 2003, University of Southern California

Sharon Lambert, *Associate Professor of Psychology*
Ph.D. 1999, University of Illinois

Ganhui Lan, *Assistant Professor of Physics*
B.S. 2002, Beijing University; Ph.D. 2008, Johns Hopkins University

Tian Lan, *Assistant Professor of Engineering and Applied Science*
M.A. 2005, University of Toronto; Ph.D. 2010, Princeton University

Joshua J.F. Landon, *Assistant Professor of Statistics*
B.A. 2000, University of Oxford; Ph.D. 2007, George Washington University

Roger Henry Lang, *L. Stanley Crane Professor of Engineering and Applied Science*
B.S.E.E. 1962, M.S.E.E. 1964, Ph.D. 1968, Polytechnic University

Richard Pierre Lanthier, *Associate Professor of Human Development*
B.A. 1988, McGill University, Canada; M.A. 1991, Ph.D. 1993, University of Denver

Nicholas Lappas, *Associate Professor of Forensic Sciences*
B.A. 1964, Thiel College; M.S. 1973, Ph.D. 1975, Duquesne University

Katherine A. Larsen, *Teaching Instructor in Writing*
Ph.D. 1996, University of Maryland

Michael Larsen, *Associate Professor of Statistics*
B.A. 1991, M.A. 1993, Ph.D. 1996, Harvard University

Marlene Laruelle, *Research Professor of International Affairs*
Ph.D. 2002, Institut National des Langues et Civilisations Orientales

Patricia Suzanne Latham, *Professor of Pathology and of Medicine*
B.S. 1968, Simmons College; M.D. 1972, University of Southern California

Eric Dunstan Lawrence, *Associate Professor of Political Science*
B.A. 1990, Stanford University; Ph.D. 2004, University of Minnesota

Huynh-Nhu Le, *Associate Professor of Psychology*
Ph.D. 1997, University of Illinois

Gregory Lebel, *Assistant Professor of Political Management*
B.A. 1972, M.P.A. 1981, University of New Hampshire; M.A. 1991, University of Maryland

Saniya LeBlanc, *Assistant Professor of Engineering and Applied Science*
B.S. 2003, Georgia Institute of Technology; M.S. 2009, Ph.D. 2012, Stanford University

James H. Lebovic, *Professor of Political Science and International Affairs*
B.A. 1973, California State University, Long Beach; M.A. 1975, Ph.D. 1981, University of Southern California

Frank X. Lee, *Professor of Physics*
M.S. 1989, Ph.D. 1993, Ohio University

James Der-Yi Lee, *Professor of Engineering and Applied Science*
B.S. 1964, National Taiwan University; M.S. 1967, Rice University; Ph.D. 1971, Princeton University

Taeyoung Lee, *Assistant Professor of Engineering and Applied Science*
Ph.D. 2008, University of Michigan

Megan Clare Leftwich, *Assistant Professor of Engineering and Applied Science*
Ph.D. 2010, Princeton University

Danny Leipziger, *Professor of the Practice of International Management*
Ph.D. 1972, Brown University

Miguel Lejeune, *Associate Professor of Decision Sciences*
Ph.D. 2004, Rutgers University

Linda Lemasters, *Associate Professor of Education Administration*
M.S.Ad. 1978, Ed.S. 1991, George Washington University; Ed.D. 1997, Virginia Polytechnic Institute and State University

Frederic Lemieux, *Professor in the College of Professional Studies*
Ph.D. 2002, University of Montreal

Yongsheng Leng, *Associate Professor of Engineering and Applied Science*
Ph.D. 1999, Tsinghua University

Patricia Hilary Madoo Lengermann, *Research Professor of Sociology*
B.A. 1963, Oxford University; M.A. 1966, Ph.D. 1969, Cornell University

D. Jeffrey Lenn, *Professor of Strategic Management and Public Policy*
B.S. 1962, University of Pennsylvania; M.Div. 1966, Andover Newton Theological School; M.S. 1969, Yale University; Ph.D. 1981, Boston College

Lotte Lent, *Lecturer in Museum Education*
B.A. 1985, Carnegie Mellon University; M.Sc. 1994, University of Western Australia

Steven Lerman, *A. James Clark Professor of Engineering and Applied Science; Provost and Executive Vice President for Academic Affairs*
B.S. 1972, M.S. 1973, Ph.D. 1975, Massachusetts Institute of Technology

Stuart E. Levy, *Assistant Professor of Marketing and Tourism Studies*
Ph.D. 2005, University of Calgary

ManLap Li, *Assistant Professor of Engineering and Applied Science*

B.S. 2001, University of California, Berkeley; M.S. 2005, Ph.D. 2009, University of Illinois

Tianshu Li, *Assistant Professor of Civil Engineering*
B.S. 1999, M.E. 2001, Tsinghua University; M.A. 2004, Ph.D. 2005, University of California, Berkeley

Zhaohai Li, *Professor of Statistics and of Biostatistics*
B.S. 1978, M.S. 1981, Huazhong Normal University, China; Ph.D. 1989, Columbia University

Zhenyu Li, *Assistant Professor of Engineering and Applied Science*
Ph.D. 2007, California Institute of Technology

Chunlei Liang, *Assistant Professor of Engineering and Applied Science*
B.S. 2000, Xi'an Jiaotong University; Ph.D. 2005, University of London

Lihong Liang, *Assistant Professor of Accountancy*
B.S. 1996, Beijing University; M.S. 2000, Ph.D. 2002, Pennsylvania State University

Stuart Licht, *Professor of Chemistry*
B.A. 1976, M.A. 1981, Wesleyan University; Ph.D. 1986, Weizmann Institute of Science, Israel

Marilyn Louise Liebrez-Himes, *Associate Professor of Business Administration*
B.A. 1966, Wheaton College; M.A. 1973, Ph.D. 1980, Michigan State University

John T. Lill, *Associate Professor of Biology*
B.S. 1990, M.S. 1992, University of Maryland; Ph.D. 1999, University of Missouri-St. Louis

Nathan Lincoln-DeCusatis, *Professorial Lecturer in Music*
D.M.A. 2008, University of Maryland

Frederick William Lindahl, *Associate Professor of Accountancy*
B.S. 1963, U.S. Air Force Academy; M.B.A. 1971, Harvard University; Ph.D. 1985, University of Chicago

Craig William Linebaugh, *Professor of Speech and Hearing and Research Professor of Medicine*
B.A. 1970, Lebanon Valley College; M.A. 1974, Ph.D. 1975, Temple University

Colin Linsley, *Teaching Professor of Accountancy*
Ph.D. 1986, University of Essex, England

Diana Leigh Lipscomb, *Professor of Biology*
B.A. 1976, Agnes Scott College; Ph.D. 1982, University of Maryland

Meina Liu, *Associate Professor of Communication*
B.A. 1997, Beijing Language and Culture University; M.A. 2000, Tsinghua University; Ph.D. 2006, Purdue University

Steven L. Livingston, *Professor of Media and Public Affairs and International Affairs*

B.A. 1981, University of South Florida; M.A. 1984, Ph.D. 1990, University of Washington

Linda Livingstone, *Dean of School of Business; Professor of Management*
B.S., M.B.A., Ph.D., Oklahoma State University

Murray Howard Loew, *Professor of Engineering*
B.S.E.E. 1965, Drexel University; M.S.E.E. 1967, Ph.D. 1972, Purdue University; P.E.

Charles Thomas Long, *Assistant Professor of History*
B.A. 1965, Dartmouth College; J.D. 1970, Harvard University; Ph.D. 2005, George Washington University

Richard W. Longstreth, *Professor of American Studies*
B.A. 1968, University of Pennsylvania; Ph.D. 1977, University of California, Berkeley

Summer Loomis, *Assistant Professor of Arabic*
B.A. 1999, Oberlin College; M.A. 2006, University of Washington; Ph.D. 2012, University of Texas

Antonio Mahatma Lopez, *Associate Professor of English*
B.A. 1994, Florida State University; M.A. 1997, Ph.D. 2005, Rutgers University

Carolyn Cass Lorente, *Professorial Lecturer in Counseling*
Ph.D. 1999, Florida International University

Kip Lornell, *Adjunct Professor of Africana Studies and of Music*
Ph.D. 1983, University of Memphis

Jacob Wainwright Love, *Professorial Lecturer in Anthropology*
B.A. 1967, Ph.D. 1979, Harvard University

Stephen C. Lubkemann, *Associate Professor of Anthropology and International Affairs*
B.A. 1990, Duke University; M.A. 1994, Ph.D. 2000, Brown University

Rafel Lucea, *Assistant Professor of International Business*
M.B.A. 1990, Ramon Lull University, Barcelona; M.S. 2001, Carnegie Mellon University; Ph.D. 2007, Massachusetts Institute of Technology

Alejandro Lucini, *Lecturer in Music*
B.A.Mus.Ed. 1997, Howard University

Ross Alton Lumley, *Assistant Professor of Information Systems and Technology Management*
B.S. 1968, University of California, Berkeley; M.S. 1975, Ph.D. 1979, University of Texas at Dallas

Eran Lupu, *Adjunct Professor of Classics*
B.A. 1990, Tel Aviv University; Ph.D. 2000, Johns Hopkins University

Yonatan Lupu, *Assistant Professor of Political Science*
B.A. 1999, J.D. 2002, Georgetown University; M.A. 2009, Ph.D. 2010, University of California, San Diego

Annamaria Lusardi, *Professor of Accountancy and of Economics*
Ph.D. 1992, Princeton University

Marc Lynch, *Professor of Political Science and International Affairs*
B.A. 1990, Duke University; M.A. 1992, Ph.D. 1997, Cornell University

Sharon J. Lynch, *Professor of Curriculum and Pedagogy*
B.S. 1968, M.A. 1972, Ph.D. 1984, Wayne State University

Mary Macklem, *Professorial Lecturer in Music*
Ph.D. 2003, University of Pennsylvania

Lynda Marie Maddox, *Professor of Business Administration*
B.A. 1972, M.A. 1974, Pennsylvania State University; Ph.D. 1978, Southern Illinois University

Octavia Madison-Colmore, *Professorial Lecturer in Counseling*
Ed.D. 1997, Virginia Polytechnic Institute and State University

Robert Maguire, *Professor of the Practice of International Affairs*
Ph.D. 1987, McGill University

Hosam M. Mahmoud, *Professor of Statistics*
B.S. 1976, B.S. 1979, Cairo University, Egypt; M.S. 1981, Ph.D. 1983, Ohio State University

James Mahshie, *Professor of Speech and Hearing*
Ph.D. 1980, Syracuse University

Lindsey E. Malcom-Piqueux, *Assistant Professor of Higher Education Administration*
Ph.D. 2008, University of Southern California

Arun S. Malik, *Professor of Economics and of Public Policy and Public Administration*
B.A. 1978, Bowdoin College; Ph.D. 1984, Johns Hopkins University

Thomas V. Mallon, *Professor of English*
Ph.D. 1978, Harvard University

Mary J. Mallott, *Assistant Professor of Business and Public Policy*
B.S. 1976, Manchester College; M.S. 1980, Purdue University; Ph.D. 1993, University of Pittsburgh

Derek Malone-France, *Associate Professor of Writing*
B.A. 1995, Wofford College; M.A. 2000, Ph.D. 2001, Claremont Graduate School

Forrest Maltzman, *Professor of Political Science; Senior Vice Provost for Academic Affairs and Planning*
B.A. 1986, Wesleyan University; Ph.D. 1993, University of Minnesota

Mollie Manier, *Assistant Professor of Biological Sciences*
B.A. 1997, University of California, Berkeley; Ph.D. 2005, Oregon State University

Thomas Manuccia, *Teaching Professor of Electrical and Computer Engineering*

B.S.E.E. 1969, Cornell University

Majid Taghizadeh Manzari, *Professor of Civil Engineering*
B.Sc. 1984, M.Sc. 1986, University of Tehran, Iran; Ph.D. 1994, University of California, Davis

Lawrence Marcus, *Professorial Lecturer in Geography*
B.A. 1983, M.A. 1986, Indiana University

Robin Alva Marcus, *Teaching Instructor in Writing*
M.F.A. 2002, University of Maryland

Shoshana Lev Marcus, *Teaching Instructor in the Hebrew Language*
M.A. 1990, Hebrew College (Boston)

Ioan Marginean, *Assistant Professor of Forensic Sciences*
Ph.D. 2006, George Washington University

Cheri L. Marmarosh, *Associate Professor of Clinical Psychology*
Ph.D. 1996, Virginia Commonwealth University

Sylvia A. Marotta-Walters, *Professor of Counseling*
M.Ed. 1988, Ph.D. 1992, University of Houston

Michael J. Marquardt, *Professor of Human and Organizational Learning and International Affairs*
B.A. 1965, Maryknoll College; M.A. 1969, State University of New York; Ed.D. 1976, George Washington University

Jaime Marroquin, *Assistant Professor of Spanish*
Ph.D. 2006, University of Texas

Toni Marsh, *Associate Professor in the College of Professional Studies*
J.D. 1990, Cleveland-Marshall College of Law

Daniel Marshall, *Professorial Lecturer in Sociology*
Ph.D. 2006, Lancaster University

David Bradford Marshall, *Teaching Associate Professor in the French Language*
Ed.D. 2001, Harvard University

Lincoln H. Marshall, *Associate Professor of Tourism and Hospitality Management*
B.A. 1977, Grinnell College; M.Ed. 1980, Ph.D. 1982, American University

Kirsten Martin, *Assistant Professor of Strategic Management and Public Policy*
Ph.D. 2006, University of Virginia

Sandra B. Martin, *Professorial Lecturer in Speech and Hearing Science*
B.A. 1982, University of Maryland; M.S. 1984, University of Wisconsin

Daniel Eduardo Martinez, *Assistant Professor of Sociology*
B.A. 2004, Saint Cloud University; M.S. 2007, M.A. 2008, Ph.D. 2013, University of Arizona

Ivan Gonzalez Martinez, *Professorial Lecturer in Engineering*
Ph.D. 2006, Autonomous University of Madrid

Dhafer Marzougui, *Assistant Research Professor of Civil Engineering*
B.S. 1988, M.S. 1993, Pennsylvania State University; D.Sc. 1999, George Washington University

Michael Anthony Massiah, *Associate Professor of Chemistry*
B.S. 1992, Haverford College; Ph.D. 1996, University of Maryland Baltimore County

Luis Matos, *Associate Research Professor of Political Management*
B.S. 1967, University of Miami; M.A. 1992, Universidad Simon Bolivar, Venezuela

Marie Elena Matta, *Assistant Professor of Decision Sciences*
B.S. 1994, Dickinson College; Ph.D. 2004, Duke University

Giuseppina Mattiotti, *Professorial Lecturer in Geological Sciences*
B.S. 1988, University of La Sapienza; Ph.D. 1998, George Washington University

Leonard C. Maximon, *Research Professor of Physics*
B.A. 1947, Oberlin College; Ph.D. 1952, Cornell University

Thomas Andrew Mazzuchi, *Professor of Engineering Management and Systems Engineering*
B.A. 1978, Gettysburg College; M.S. 1979, D.Sc. 1982, George Washington University

David Willard McAleavey, *Professor of English*
B.A. 1968, M.F.A. 1972, Ph.D. 1975, Cornell University

Melani McAlister, *Associate Professor of American Studies and International Affairs*
B.A. 1984, University of North Carolina; M.A. 1990, Ph.D. 1996, Brown University

LaKeisha Michelle McClary, *Assistant Professor of Chemistry*
B.S. 2002, Howard University; M.S. 2007, Georgia Institute of Technology; Ph.D. 2010, University of Arizona

Cynthia McClintock, *Professor of Political Science and International Affairs*
B.A. 1967, Harvard University; M.A. 1968, University of California, Los Angeles; Ph.D. 1976, Massachusetts Institute of Technology

Edward A. McCord, *Associate Professor of History and International Affairs*
B.A. 1973, Marian College; M.A. 1978, Ph.D. 1985, University of Michigan

Shannon McFarlin, *Assistant Professor of Anthropology*
Ph.D. 2006, City University of New York Graduate Center

Daniel McGroarty, *Professorial Lecturer in Political Management*
B.A. 1979, Kenyon College; M.A. 1981, Boston College

Maureen C. McGuire-Kuletz, *Associate Research Professor of Counseling*
B.A. 1974, George Mason University; M.S. 1979, Virginia Commonwealth University; Ed.D. 2000, George Washington University

Marlene McGuirl, *Professorial Lecturer in Environmental Resource Policy*
J.D. 1963, DePaul University; LL.M. 1978, George Washington University

Shawn Frederick McHale, *Associate Professor of History and International Affairs*
B.A. 1982, Swarthmore College; M.A. 1985, University of Hawaii; M.A. 1991, Ph.D. 1995, Cornell University

Patrick Paul McHugh, *Associate Professor of Human Resource Management*
B.S. 1982, Bowling Green State University; M.A. 1984, Washington State University; Ph.D. 1995, Michigan State University

Robert McRuer, *Professor of English*
B.A. 1988, Calvin College; M.A. 1990, Ph.D. 1995, University of Illinois

Larry Medsker, *Professorial Lecturer in Physics*
Ph.D. 1971, Indiana University

Monica M. Megivern, *Associate Professor of Counseling*
Ed.D. 1990, Virginia Polytechnic Institute and State University

Asha K. Mehrotra, *Professorial Lecturer in Engineering*
Ph.D. 1982, Polytechnic University

Arnold Charles Meltzer, *Professor of Engineering and Applied Science*
B.S. in Engr. 1958, M.S. in Engr. 1961, D.Sc. 1967, George Washington University

David Mendelowitz, *Professor of Pharmacology*
B.S. 1981, University of Pennsylvania; Ph.D. 1989, Washington University

Marilyn W. Merritt, *Professorial Lecturer in Anthropology*
Ph.D. 1976, University of Pennsylvania

Jacqueline A. Merz, *Professorial Lecturer in Human and Organizational Learning*
Ed.D. 1996, Virginia Polytechnic Institute and State University

Anna Micherdzinska, *Assistant Research Professor of Physics*
Ph.D. 1998, University of Silesia, Poland

Judah Henry Milgram, *Professorial Lecturer in Engineering*
Ph.D. 1997, University of Maryland

Barbara Diane Miller, *Professor of Anthropology and International Affairs*
B.A. 1971, M.A. 1976, Ph.D. 1978, Syracuse University

James Arthur Miller, *Professor of English and of American Studies*
B.A. 1966, Brown University; Ph.D. 1976, State University of New York at Buffalo

Jean Costanza Miller, *Assistant Professor of Communication*
B.S. 1987, Towson University; M.A. 1989, Ph.D. 2000, University of Maryland

John Houston Miller, *Professor of Chemistry*
B.A. 1976, Oberlin College; Ph.D. 1980, University of Virginia

Michael Miller, *Assistant Professor of Political Science*
B.S. 2002, Duke University; M.Sc. 2006, London School of Economics; M.A. 2008, Ph.D. 2011, Princeton University

Suzanne Mariko Miller, *Assistant Professor of History*
B.A. 2000, University of California, Berkeley; M.A. 2005, Ph.D. 2007, Stanford University

Todd Anthony Miller, *Associate Professor of Exercise Science*
B.S. 1995, Pennsylvania State University; Ph.D. 2000, Texas A&M University

Natalie B. Milman, *Associate Professor of Education Technology*
Ph.D. 2000, University of Virginia

Leslie D. Milofsky, *Professorial Lecturer in Art Therapy*
M.A. 1998, George Washington University

Pardis Minuchehr, *Assistant Professor of Persian*
B.A. 1988, Allameh Tabataba'i University, Iran; M.A. 1994, University of Massachusetts; Ph.D. 1988, Columbia University

David Mitchell, *Professor of English*
B.A. 1984, M.A. 1987, University of New Hampshire; M.A. 1991, Ph.D. 1993, University of Michigan

Mike Masato Mochizuki, *Japan-U.S. Relations Associate Professor of Political Science and International Affairs*

Mohammad Reza Modarres-Hakimi, *Professor of Statistics*
B.S. 1981, M.S. 1982, Ph.D. 1990, American University

Leo Carl Moersen, *Associate Professor of Accountancy and Business Law; Interim Associate Dean For Undergraduate Programs in School of Business*
B.S. 1976, University of Connecticut; J.D. 1981, College of William and Mary

Sherry Davis Molock, *Associate Professor of Psychology*
B.A. 1979, Dartmouth College; M.A. 1981, Ph.D. 1985, University of Maryland

William H. Money, *Associate Professor of Information Systems*
B.A. 1968, University of Richmond; M.B.A. 1969, Indiana University; Ph.D. 1977, Northwestern University

Eugene Montague, *Assistant Professor of Music*
B.A. 1992, University of Dublin; M.M. 1995, University of Massachusetts; Ph.D. 2001, University of Pennsylvania

Claire Monteleoni, *Assistant Professor of Computer Science*
Ph.D. 2006, Massachusetts Institute of Technology

Mary Elizabeth Moody, *Professorial Lecturer in Speech and Hearing*
B.A. 1968, College of New Rochelle; M.A. 1970, Catholic University of America

Sally Ann Moody, *Professor of Anatomy*
B.A. 1973, Goucher College; M.S. 1976, University of Maryland; Ph.D. 1981, University of Florida

Michael Owen Moore, *Professor of Economics and International Affairs*
B.A. 1979, University of Texas; M.S. 1984, Ph.D. 1988, University of Wisconsin

Philip J. Moore, *Associate Professor of Psychology*
Ph.D. 1993, University of California, San Diego

Timothy J. Moore, *Assistant Professor of Economics*
B.Comm./B.Sc. 1998, University of Melbourne; M.A. 2008, Ph.D. 2012, University of Maryland

Kim Moreland, *Professor of English*
B.A. 1976, Ohio University; M.A. 1978, State University of New York at Binghamton; Ph.D. 1984, Brown University

Margarita Moreno, *Teaching Instructor in the Spanish Language*
M.A. 1984, Universidad Complutense de Madrid

Kimberly J. Morgan, *Professor of Political Science and International Affairs*
B.A. 1992, Northwestern University; Ph.D. 2000, Princeton University

Ronald B. Morgan, *Associate Professor of Human and Organizational Learning*
B.A. 1974, Michigan State University; M.A. 1980, Ph.D. 1983, Ohio State University

Bonnie Jean Morris, *Adjunct Professor of Women's Studies*
B.A. 1983, American University; M.A. 1985, Ph.D. 1990, State University of New York at Binghamton

David William Morris, *Assistant Professor of Biological Sciences*
B.Sc. 1972, Ph.D. 1976, University of Leeds, England

Martha Morris, *Associate Professor of Museum Studies*
B.A. 1966, M.A. 1969, George Washington University; M.B.A. 1983, University of Maryland

Emily A. Morrison, *Assistant Professor of Sociology*
B.S. 1999, Kansas State University; M.A. 2001, University of Maryland; Ed.D. 2011, George Washington University

Anthony Moscati, *Professorial Lecturer in Physics*
Ph.D. 1975, University of California, Los Angeles

Michael F. Moses, *Associate Professor of Mathematics*
B.Sc. 1980, Ph.D. 1983, Monash University, Australia

Daniel Moshenberg, *Associate Professor of English*
B.S. 1976, Johns Hopkins University; M.A. 1977, M.Phil. 1979,
Ph.D. 1987, Columbia University

Faye Stollman Moskowitz, *Professor of English*
B.A. 1970, M.A. 1979, George Washington University

Illa Moskowitz, *Professorial Lecturer in Physics*
B.A. 1995, Technion, Israel; M.S. 1997, Ph.D. 2001, Clarkson
University

Jonathan Mote, *Assistant Professor of Organizational Sciences*
B.A. 1990, University of Iowa; M.A. 1994, New School for Social
Research; Ph.D. 2008, University of Pennsylvania

David C. Mount, *Professorial Lecturer in Forensic Sciences*
J.D. 1983, Pepperdine University

Charles Mueller, *Instructor in English for Academic Purposes*
B.A. 1992, Seoul National University; M.A. 1997, Hallym
University, Korea; M.A. 2004, Monterey Institute of International
Studies

Sead Muftic, *Research Professor of Computer Science*
Ph.D. 1976, Ohio State University

Elizabeth Mullen, *Associate Professor of Management*
B.A. 1998, University of Memphis; M.A. 2000, Ph.D. 2004,
University of Illinois at Chicago

Wallace P. Mullin, *Associate Professor of Economics*
B.A. 1987, Boston College; Ph.D. 1992, Massachusetts Institute
of Technology

Ferid Murad, *University Professor of Biochemistry and Molecular
Biology and of Medicine*
B.A. 1958, DePauw University; M.D., Ph.D. 1965 Case Western
Reserve University

Teresa Anne Murphy, *Associate Professor of American Studies;
Executive Associate Dean of Columbian College of Arts and
Science*
B.A. 1973, University of California, Berkeley; M.A. 1976, M.Phil.
1977, Ph.D. 1982, Yale University

Carson Murray, *Assistant Professor of Anthropology*
Ph.D. 2006, University of Minnesota

Danika Paige Myers, *Teaching Instructor in Writing*
M.F.A. 2006, George Mason University

Charalampos Mylonas, *Assistant Professor of Political Science
and International Affairs*
B.A. 2000, M.S. 2002, M.A. 2003, University of Athens; Ph.D.
2008, Yale University

David J. Nagel, *Professorial Lecturer in Engineering*
M.S. 1969, Ph.D. 1977, University of Maryland

Yas Nakib, *Associate Professor of Education Policy and of Public
Policy and Public Administration*

B.A. 1982, M.A. 1983, Eastern Michigan University; Ph.D. 1995,
Florida State University

Bhagirath Narahari, *Professor of Engineering and Applied
Science; Associate Dean of the School of Engineering and
Applied Science*
B.E. 1982, Birla Institute of Technology and Science, India;
M.S.E. 1984, Ph.D. 1987, University of Pennsylvania

Jennifer C. Nash, *Assistant Professor of American Studies*
B.A. 2001, J.D. 2004, Ph.D. 2009, Harvard University

Seyyed Hossein Nasr, *University Professor of Islamic Studies*
B.S. 1954, Massachusetts Institute of Technology; M.A. 1956,
Ph.D. 1958, Harvard University

Mika Natif, *Assistant Professor of Art History*
Ph.D. 2006, New York University

Henry Richard Nau, *Professor of Political Science and
International Affairs*
B.S. 1963, Massachusetts Institute of Technology; M.A. 1967,
Ph.D. 1972, Johns Hopkins University

Tapan Kumar Nayak, *Professor of Statistics*
B.Sc. 1976, University of Calcutta, India; M.Stat. 1979, Indian
Statistical Institute; Ph.D. 1983, University of Pittsburgh

Jane E. Neopolitan, *Assistant Professor of Curriculum and
Instruction*
B.A. 1971, Sacred Heart University; M.S. 1989, University of
Bridgeport; Ed.D. 1994, Columbia University

Kathryn Estelle Newcomer, *Professor of Public Policy and Public
Administration*
B.S. 1971, M.A. 1974, University of Kansas; Ph.D. 1978,
University of Iowa

A. Jasper Nijdam, *Assistant Research Professor of Physics*
Ph.D. 2001, University of Twente, Netherlands

Marcia Norton, *Associate Professor of History*
B.A. 1991, M.A. 1994, Ph.D. 2000, University of California,
Berkeley

Thomas Novak, *Professor of Marketing*
B.A. 1977, Oberlin College; M.A. 1980, Ph.D. 1984, University
of North Carolina

Bibiana K. Obler, *Assistant Professor of Art History*
B.A. 1996, Brown University; Ph.D. 2006, University of
California, Berkeley

Rebecca Ocampo, *Professorial Lecturer in Music*
B.A. 1984, M.M. 1997, D.M.A. 1999, University of Maryland

Carol O'Donnell, *Professorial Lecturer in Physics*
Ed.D. 2007, George Washington University

Michael E. O'Donnell, *Teaching Instructor in the American Sign
Language*

M.S. 1996, Gallaudet University

Ari Ofengenden, *Assistant Professor of Hebrew*

B.A. 1994, Ben-Gurion University; M.A. 2002, Tel-Aviv University; Ph.D. 2007, Haifa University

Lynn R. Offermann, *Professor of Psychology*

B.A. 1975, State University of New York College at Oswego; M.A. 1978, Ph.D. 1981, Syracuse University

Liam O'Grady, *Professorial Lecturer in Forensic Sciences*

B.A. 1973, Franklin and Marshall College; J.D. 1977, George Mason University

Damien O'Halloran, *Assistant Professor of Biological Sciences*

Ph.D. 2004, National University of Ireland

Irene Oh Koukios, *Associate Professor of Religion*

B.A. 1995, Swarthmore College; M.A. 1999, University of Chicago; Ph.D. 2004, University of Virginia

Deepa Ollapally, *Associate Research Professor of International Affairs*

M.P.A. 1980, American University; M.A. 1984, Ph.D. 1991, Columbia University

Nils Olsen, *Assistant Professor of Organizational Sciences*

B.S. 1990, University of Wisconsin; M.A. 1994, University of Iowa; Ph.D. 2001, University of North Carolina

Tarek A. Omar, *Professorial Lecturer in Engineering*

D.Sc. 1999, George Washington University

Allena K. Opper, *Professor of Physics*

B.S. 1983, Colorado School of Mines; Ph.D. 1991, Indiana University

Ebtisam Oraby, *Teaching Instructor in the Arabic Language*

M.A. 2008, American University

Dara Orenstein, *Assistant Professor of American Studies*

B.A. 1997, Harvard University; Ph.D. 2012, Yale University

Guillermo Orti, *Louis Weintraub Professor of Biological Sciences*

Ph.D. 1995, State University of New York at Stony Brook

Lynette Osborne, *Professorial Lecturer in Sociology*

Ph.D. 2006, Purdue University

Jason Osder, *Assistant Professor of Media and Public Affairs*

M.A. 2001, University of Florida

Suleiman Osman, *Associate Professor of American Studies*

Ph.D. 2006, Harvard University

Katherine Ott, *Professorial Lecturer in American Studies*

Ph.D. 1991, Temple University

Türker Ozdogan, *Professor of Ceramics*

Master of Ceramics Diploma 1967, School of Applied Fine Arts, Turkey; M.F.A. 1972, George Washington University

Scott Pace, *Professor of the Practice of International Affairs*

B.S. 1980, Harvey Mudd College; M.S. 1982, Massachusetts Institute of Technology; Ph.D. 1989, Rand Graduate School of Policy Studies

Randall Kent Packer, *Professor of Biology*

B.S. 1967, Lock Haven State College; Ph.D. 1971, Pennsylvania State University

Miok D. Pak, *Teaching Assistant Professor in the Korean Language*

B.A. 1988, M.A. 1991, Ewha Woman's University; Ph.D. 2001, Georgetown University

Nicholas B. Paley, *Professor of Educational Foundations*

B.A. 1969, Beloit College; M.S. 1971, Ph.D. 1984, University of Wisconsin

Qing Pan, *Assistant Professor of Statistics*

B.A. 2000, Beijing University; M.S. 2003, University of Georgia; Ph.D. 2007, University of Michigan

Laura Papish, *Assistant Professor of Philosophy*

Ph.D. 2011, Northwestern University

Yoon Shik Park, *Professor of International Business*

B.A. 1964, Kyung Hee University, Korea; M.B.A. 1967, Fairleigh Dickinson University; D.B.A. 1970, Harvard University; M.A. 1973, Ph.D. 1976, George Washington University

Gabriel A. Parmer, *Assistant Professor of Computer Science*

B.S. 2003, Ph.D. 2009, Boston University

Lawrence J. Parnell, *Associate Professor in the College of Professional Studies*

M.B.A. 1992, University of New Haven

Donald O. Parsons, *Professor of Economics*

B.A. 1966, Duke University; Ph.D. 1970, University of Chicago

Raymond J. Pasi, *Professorial Lecturer in Counseling*

Ed.D. 1995, University of Miami

Steven Robert Patierno, *Professor of Pharmacology*

B.S. 1981, University of Connecticut; Ph.D. 1985, University of Texas at Houston

Sanjay Patnaik, *Assistant Professor of Strategic Management and Public Policy*

M.E.C.S. 2004, M.B.E.C.S. 2006, Vienna University of Technology; Ph.D. 2012, Harvard University

Elisheva Pauli, *Lecturer in Geological Sciences*

B.S. 2000, University of Miami; M.S. 2003, George Washington University

Linda Levy Peck, *Professor of History*

B.A. 1962, Brandeis University; M.A. 1964, Washington University; Ph.D. 1973, Yale University

Andrea Peddeferri, *Adjunct Professor of Philosophy*

Ph.D. 2003, Università degli Studi di Milano

Joseph Pelzman, *Professor of Economics*

B.S. 1971, Ph.D. 1976, Boston College

Kelly Pemberton, *Associate Professor of Religion and of Women's Studies*

B.A. 1990, Vassar College; M.A. 1994, University of Washington; Ph.D. 2000, Columbia University

Elaine A. Pena, *Associate Professor of American Studies*

Ph.D. 2006, Northwestern University

Weiqun Peng, *Associate Professor of Physics*

M.S. 1995, Beijing University; Ph.D. 2001, University of Illinois

Vanessa Perry, *Associate Professor of Marketing; Interim Associate Dean of the School of Business*

M.B.A. 1990, Washington University; Ph.D. 2000, University of North Carolina

Brian J. Peters, *Professorial Lecturer in Counseling*

Ed.D. 1998, George Washington University

Shannon K. Peters, *Professorial Lecturer in Counseling*

Ph.D. 2002, George Washington University

Kenna Dale Peusner, *Professor of Anatomy*

B.S. 1968, Simmons College; Ph.D. 1974, Harvard University

Paul S. Peyser, *Associate Professor of Finance*

B.A. 1966, State University of New York at Binghamton; M.A. 1970, Ph.D. 1979, University of Wisconsin

Patricia F. Phalen, *Associate Professor of Media and Public Affairs*

B.A. 1980, M.B.A. 1993, Boston College; M.A. 1991, Ph.D. 1996, Northwestern University

Nam Pham, *Professorial Lecturer in Economics*

Ph.D. 1996, George Washington University

Anupama Phene, *Associate Professor of International Business*
Ph.D. 1999, University of Texas

John W. Philbeck, *Professor of Psychology*

M.A. 1993, Ph.D. 1997, University of California, Santa Barbara

L. Alison Phillips, *Assistant Professor of Psychology*

Ph.D. 2011, Rutgers University

Robert F. Phillips, *Professor of Economics*

B.A. 1978, University of California, Berkeley; M.A. 1980, M.Phil. 1981, Ph.D. 1985, Columbia University

Michael Lee Picciolo, *Professorial Lecturer in Engineering*

Ph.D. 2003, Virginia Polytechnic Institute and State University

Christo Pirinsky, *Assistant Professor of Finance*

Ph.D. 2001, Ohio State University

Michael W. Plesniak, *Professor of Engineering and Applied Science*

B.S. 1983, M.S. 1984, Illinois Institute of Technology; Ph.D. 1990, Stanford University

Daniele Podini, *Assistant Professor of Forensic Molecular Biology*

Ph.D. 2004, University of Rome

Francis M. Ponti, *Professorial Lecturer in Statistics*

B.S. 1961, M.B.A. 1963, Drexel University

Paul John Poppen, *Professor of Psychology*

B.A. 1969, Central University of Iowa; Ph.D. 1973, Cornell University

Jerrold Morton Post, *Professor of the Practice of Political Psychology and International Affairs, of Psychiatry and Behavioral Sciences, and of Engineering Management*
B.A. 1956, M.D. 1960, Yale University

Scott Powell, *Assistant Professor of Biological Sciences*

Ph.D. 2005, University of Florida

Srinivas Y. Prasad, *Associate Professor of Decision Sciences*

B.T. 1986, Indian Institute of Technology, India; M.S. 1988, Ph.D. 1992, State University of New York at Buffalo

Pamela S. Presser, *Teaching Instructor in Writing*

Ph.D. 2000, George Washington University

Marie Daly Price, *Professor of Geography and International Affairs*

B.A. 1984, University of California, Berkeley; M.A. 1986, Ph.D. 1990, Syracuse University

A. John Procopio, *Professorial Lecturer in Organizational Sciences*

Ed.D. 1991, University of Bridgeport

Jozef Henryk Przytycki, *Professor of Mathematics*

M.Sc. 1977, Warsaw University, Poland; Ph.D. 1981, Columbia University

Curtis Lee Pyke, *Associate Professor of Curriculum and Pedagogy*

M.A. 1992, Ph.D. 1998, State University of New York at Albany

R. Alexander Pyron, *Robert Griggs Assistant Professor of Biological Sciences*

Ph.D. 2009, City University of New York

Xiangyun Qiu, *Assistant Professor of Physics*

Ph.D. 2004, Michigan State University

Tara Radin, *Teaching Assistant Professor of Strategic Management and Public Policy*

B.A. 1989, M.B.A./J.D. 1993, Ph.D. 1999, University of Virginia

David Rain, *Associate Professor of Geography*

Ph.D. 1997, Pennsylvania State University

Mark Ralkowski, *Assistant Professor of Honors and Philosophy*

Ph.D. 2008, University of New Mexico

Victoria E. Rankin, *Assistant Research Professor of Sociology*
Ph.D. 2006, University of Virginia

Appajosula Rao, *Professorial Lecturer in Engineering*
Ph.D. 1977, Indian School of Mines; Ph.D. 1979, University of Liverpool

Pradeep A. Rau, *Professor of Business Administration*
B.S. 1972, Indian Institute of Technology; M.B.A. 1974, Indian Institute of Management; D.B.A. 1983, Kent State University

Korok Ray, *Assistant Professor of Accountancy*
Ph.D. 2004, Stanford University

Prabhavati Reddy, *Professorial Lecturer in Religion*
Ph.D. 2000, Harvard University

Mark Edwin Reeves, *Professor of Physics*
B.S. 1982, M.S. 1982, Catholic University of America; Ph.D. 1989, University of Illinois

Scheherazade S. Rehman, *Professor of International Business and International Affairs*
B.B.A. 1985, M.B.A. 1989, Ph.D. 1992, George Washington University

Walter Reich, *Yitzhak Rabin Memorial Professor of International Affairs, Ethics, and Human Behavior*
B.A. 1965, Columbia University; M.D. 1970, New York University

Amy Reiff, *Lecturer in Music*
B.Mus. 1980, M.Mus. 1983, Kent State University

Wesley J. Reisser, *Lecturer in Geography*
Ph.D. 2010, University of California, Los Angeles

Xiaofeng Ren, *Professor of Mathematics*
Ph.D. 1994, University of Minnesota

Josef J. Reum, *Professor of Health Services Management and Leadership*
B.A. 1979, Catholic University of America; M.P.A. 1987, Harvard University; Ph.D. 2000, George Washington University

Elaine Rhymers, *Lecturer in Counseling*
Ed.S. 1999, George Washington University

Leo Paul Ribuffo, *Professor of History*
B.A. 1966, Rutgers University; M.Phil. 1969, Ph.D. 1976, Yale University

Elisabeth Kathryn Rice, *Associate Professor of Special Education and Disability Studies*
B.A. 1991, Wellesley College; M.A. 1992, Ed.D. 1999, George Washington University

Kym S. Rice, *Assistant Professor of Museum Studies*
B.A. 1974, Tulane University; M.A. 1979, University of Hawaii

Brian G. Richmond, *Associate Professor of Anthropology*
B.A. 1990, Rice University; M.A. 1995, Ph.D. 1998, State University of New York at Stony Brook

Liesl Anna Riddle, *Associate Professor of International Business and International Affairs*
B.A. 1992, M.A./M.B.A. 1995, Ph.D. 2001, University of Texas

Orlando Ridout, *Professorial Lecturer in American Studies*
B.A. 1977, University of Virginia

Rachel Riedner, *Associate Professor of Writing and of Women's Studies*
B.A. 1989, University of Virginia; M.A. 1983, Ph.D. 2002, George Washington University

Richard K. Riegelman, *Professor of Epidemiology and Biostatistics*
M.D. 1973, University of Wisconsin; M.P.H. 1975, Ph.D. 1982, Johns Hopkins University

Rumana Riffat, *Professor of Civil Engineering; Associate Dean of the School of Engineering and Applied Science*
B.S. 1988, Bangladesh University of Engineering and Technology; M.S. 1991, Ph.D. 1994, Iowa State University

Dawn Elizabeth Rigby, *Assistant Professor of Public Policy and Public Administration*
B.A. 1995, Emory University; Ph.D. 2005, Columbia University

Siobhan A. Rigg, *Associate Professor of Art*
B.A. 1995, Oberlin College; M.F.A. 2005, Carnegie Mellon University

Matthew Riley, *Teaching Instructor in Writing*
M.F.A. 1993, University of Maryland

Dale C. Rinker, *Professorial Lecturer in Museum Studies*
M.B.A. 1987, College of William and Mary

Jorge Rivera, *Associate Professor of Strategic Management and Public Policy*
B.S. 1992, San Carlos University, Guatemala; Ph.D. 2000, Duke University

Sean Roberts, *Associate Professor of the Practice of International Affairs and of Anthropology*
Ph.D. 2003, University of Southern California

Steven V. Roberts, *J.B. and Maurice C. Shapiro Professor of Media and Public Affairs*
B.A. 1964, Harvard University

Richard Mark Robin, *Professor of Russian and International Affairs*
B.S. 1972, Georgetown University; M.A. 1974, Ph.D. 1982, University of Michigan

E. Arthur Robinson, Jr., *Professor of Mathematics*
B.S. 1977, Tufts University; M.A. 1981, Ph.D. 1983, University of Maryland

Edward Moore Robinson, *Associate Professor of Forensic Sciences*

B.A. 1968, Marquette University; M.F.S. 1991, George Washington University

Lilien Filipovitch Robinson, *Professor of Art*

B.A. 1962, M.A. 1965, George Washington University; Ph.D. 1978, Johns Hopkins University

Shira N. Robinson, *Associate Professor of History and International Affairs*

Ph.D. 2005, Stanford University

Fernando Robles, *Professor of International Marketing and International Affairs*

B.S. 1968, Universidad Nacional de Ingenieria, Peru; M.A. 1970, ESAN, Peru; M.B.A. 1972, Georgia State University; Ph.D. 1979, Pennsylvania State University

W.M. Kim Roddis, *Professor of Civil Engineering*

B.S. 1977, M.S. 1987, Ph.D. 1988, Massachusetts Institute of Technology

Cynthia A. Rohrbeck, *Associate Professor of Psychology*

B.A. 1980, Cornell University; M.A. 1983, Ph.D. 1986, University of Rochester

Peter Rollberg, *Professor of Slavic Languages, Film Studies, and International Affairs*

Ph.D. 1988, University of Leipzig, Germany

Tatiana Romanovskaya, *Adjunct Professor of Philosophy*

M.S. 1969, Moscow State Lomonosov University; Ph.D. 1985, Ph.D. 1999, Russian Academy of Sciences

Ann Romines, *Professor of English*

B.A. 1964, Central Methodist College; M.A. 1968, Tufts University; Ph.D. 1977, George Washington University

Yongwu Rong, *Professor of Mathematics, Associate Dean for Research and Strategic Initiatives in Columbian College of Arts and Sciences*

B.S. 1983, University of Science and Technology of China; Ph.D. 1989, University of Texas

Kathleen Ross-Kidder, *Adjunct Professor of Psychology*

B.A. 1965, University of Michigan; M.A. 1978, George Mason University; Ph.D. 1990, George Washington University

Ezekiel Rothman, *Professorial Lecturer in Art Therapy*

M.A. 2004, Antioch University

Iris C. Rotberg, *Research Professor of Education Policy*

B.A. 1954, M.A. 1955, University of Pennsylvania; Ph.D. 1958, Johns Hopkins University

Shmuel Rotenstreich, *Associate Professor of Engineering and Applied Science*

B.S. 1974, Tel Aviv University; M.S. 1982, Ph.D. 1983, University of California, San Diego

Lawrence Allen Rothblat, *Professor of Psychology and of Anatomy*

B.A. 1964, M.A. 1967, Ph.D. 1968, University of Connecticut

Svetlana Roudenko, *Associate Professor of Mathematics*

Ph.D. 2002, Michigan State University

Walter Frederick Rowe, *Professor of Forensic Sciences*

B.S. 1967, Emory University; M.A. 1968, Ph.D. 1975, Harvard University

Sumit Roy, *Associate Professor of Engineering and Applied Science*

B.Tech. 1983, Indian Institute of Technology, India; M.S. 1985, M.A. 1988, Ph.D. 1988, University of California, Santa Barbara

Mary Ellen Ruff, *Professorial Lecturer in Art Therapy*

M.S. 1996, Eastern Virginia Medical School

Janis K. Ruoff, *Assistant Research Professor of Special Education and Disability Studies*

B.A. 1970, M.A. 1973, University of Texas; Ph.D. 1995, Gallaudet University

Roxanne Russell, *Associate Professor of Media and Public Affairs*

B.A. 1969, M.A. 1970, University of California, Berkeley

Richard Ruth, *Associate Professor of Clinical Psychology*

Ph.D. 1986, Yeshiva University

Daniel Joseph Ryan, *Professorial Lecturer in Engineering Management*

M.A. 1971, J.D. 1984, University of Maryland

Julie Ryan, *Associate Professor of Engineering Management and Systems Engineering*

B.S. 1982, U.S. Air Force Academy; M.L.S. 1996, Eastern Michigan University; D.Sc. 2000, George Washington University

Robert Warren Rycroft, *Professor of International Science and Technology Policy and of Public Policy and Public Administration*

B.A. 1967, M.A. 1972, Ph.D. 1976, University of Oklahoma

Phyllis Mentzell Ryder, *Associate Professor of Writing*

B.A. 1985, Goucher College; M.A. 1986, Johns Hopkins University; M.F.A. 1991, Ph.D. 1997, University of Arizona

Vladislav Sadtchenko, *Associate Professor of Chemistry*

M.S. 1987, Moscow Institute of Physics and Technology; Ph.D. 1994, University of Minnesota

Eric J. Saidel, *Assistant Professor of Philosophy*

B.A. 1985, Wesleyan University; M.A. 1991, Ph.D. 1993, University of Wisconsin

Steven Patrick Salchak, *Assistant Professor of Writing*

B.A. 1991, University of Houston; Ph.D. 2002, University of Michigan

David I. Salem, *Professorial Lecturer in Forensic Sciences*

B.A. 1978, Albany University; J.D., M.B.A. 1982, University of Maryland

Stephen Allan Saltzburg, *Wallace and Beverley Woodbury University Professor of Law*
B.A. 1967, Dickinson College; J.D. 1970, University of Pennsylvania

Roberto M. Samaniego, *Associate Professor of Economics and International Affairs*
B.A. 1995, Princeton University; Ph.D. 2000, University of Pennsylvania

Joost Reyes Santos, *Assistant Professor of Engineering Management and Systems Engineering*
B.S. 1994, M.S. 1998, University of the Philippines; Ph.D. 2003, University of Virginia

Shahram Sarkani, *Professor of Engineering Management and Systems Engineering*
B.S. 1980, M.S. 1981, Louisiana State University; Ph.D. 1987, Rice University; P.E.

Kausik Sarkar, *Professor of Engineering and Applied Science*
Ph.D. 1994, Johns Hopkins University

Mitsuyo Sato, *Lecturer in Japanese*
M.A.T. 1999, Georgetown University

Elizabeth Nathan Saunders, *Assistant Professor of Political Science*
B.A. 2000, Harvard University; M.Phil. 2001, Cambridge University

Robert Savickas, *Associate Professor of Finance*
B.S. 1993, Engr. 1994, Riga Technical University, Latvia; M.A. 1994, M.B.A. 1996, Western Illinois University; Ph.D. 1999, University of Georgia

Veronica Millicent Scarlett, *Lecturer in Music*
Mus.M. 1997, University of Maryland

Moses S. Schanfield, *Professor of Forensic Sciences*
B.A. 1966, University of Minnesota; M.A. 1969, Harvard University; Ph.D. 1971, University of Michigan

Dennis E. Schell, *Assistant Professor of Psychology*
B.A. 1969, Blackburn College; M.Div. 1973, Lutheran Theological Seminary at Gettysburg; M.A. 1982, Loyola College; Ph.D. 1988, University of Maryland

Heather M. Schell, *Assistant Professor of Writing*
B.S. 1988, M.A. 1991, Georgetown University; Ph.D. 2000, Stanford University

Laura B. Schiavo, *Assistant Professor of Museum Studies*
Ph.D. 2003, George Washington University

William Schmitt, *Professor of Mathematics*
B.S. 1982, University of Vermont; Ph.D. 1986, Massachusetts Institute of Technology

Allan Schneider, *Adjunct Professor of Engineering*
B.S. in E.E. 1959, B.S.E.P. 1960, Lehigh University; M.S. in E.E. 1962, Columbia University; Ph.D. 1974, University of Maryland

Evelyn Jaffee Schreiber, *Professor of English*
B.A. 1970, Simmons College; M.A. 1971, Colorado State University; Ph.D. 1977, University of Colorado

Katrin Schultheiss, *Associate Professor of History*
Ph.D. 1994, Harvard University

Geralyn M. Schulz, *Professor of Speech and Hearing*
B.A. 1979, University of Wisconsin; Ph.D. 1994, University of Maryland

David R. Schwandt, *Professor of Human and Organizational Learning*
B.S. 1967, Eastern Michigan University; M.A. 1969, Western Michigan University; Ph.D. 1978, Wayne State University

Daniel B. Schwartz, *Associate Professor of History*
B.A. 1997, Princeton University; M.A. 2000, Ph.D. 2007, Columbia University

David Sciannella, *Lecturer in Music*
B.Mus. 1981, Catholic University of America; M.M. 1982, Eastman School of Music

David William Scott, *Professor of Immunology*
M.S. 1964, University of Chicago; Ph.D. 1968, Yale University

Tara A. Scully, *Teaching Assistant Professor of Biological Science*
M.F.S. 2004, Ph.D. 2012, George Washington University

Ellen Mary Scully-Russ, *Assistant Professor of Human and Organizational Learning*
Ed.D. 2009, Columbia University

Nina Gilden Seavey, *Assistant Research Professor of History and of Media and Public Affairs*
B.A. 1978, Washington University; M.A. 1990, George Washington University

Ormond Albert Seavey, *Professor of English*
B.A. 1966, Carleton College; M.A. 1967, Ph.D. 1976, Columbia University

Barbara Rae Seidman, *Lecturer in Music*
Mus.B. 1969, Cleveland Institute of Music; Mus.M. 1970, Northwestern University

Susan Kathleen Sell, *Professor of Political Science*
B.A. 1979, Colorado College; M.A. 1980, University of California, Santa Barbara; Ph.D. 1989, University of California, Berkeley

Angeles Serrano-Ripoll, *Instructor in Spanish*
Ph.D. 1987, University of Valencia, Spain

Frank Sesno, *Professor of Media and Public Affairs*

B.A. 1977, Middlebury College; L.H.D. 1995, Monterey Institute of International Studies

James Sexton, *Assistant Professor of Professional Psychology*
Ph.D. 1999, University of Massachusetts; Ph.D. 2005, American University

Jigar V. Shah, *Professorial Lecturer in Engineering*
Ph.D. 1978, University of Florida

James Sham, *Assistant Professor of Sculpture*
M.F.A. 2008, Virginia Commonwealth University

David Leigh Shambaugh, *Professor of Political Science and International Affairs*
B.A. 1977, George Washington University; M.A. 1980, Johns Hopkins University; Ph.D. 1989, University of Michigan

Jay C. Shambaugh, *Associate Professor of Economics and International Affairs*
B.A. 1992, Yale University; M.A.L.D. 2008, Tufts University; Ph.D. 2002, University of California, Berkeley

J. Michael Shanahan, *Assistant Professor of Media and Public Affairs*
B.A. 1965, Pennsylvania State University

Rocio Lopez Sharifi, *Assistant Professor of Forensic Psychology*
Psy.D. 2003, George Washington University

Galina Olegovna Shatalina, *Assistant Professor of Russian*
B.A. 1967, M.A. 1968, Ph.D. 1979, Moscow State University

Douglas Shaw, *Assistant Professor of International Affairs; Senior Associate Provost for International Strategy*
Ph.D. 2008, Georgetown University

Gregory Leonard Shaw, *Associate Professor of Engineering Management and Systems Engineering*
B.S. 1969, U.S. Coast Guard Academy; M.A.L.S. 1974, Wesleyan University; D.Sc. 2005, George Washington University

Yin-Lin Shen, *Professor of Engineering and Applied Science*
B.S. 1980, M.S. 1982, National Chiao-Tung University, Taiwan; Ph.D. 1991, University of Wisconsin

Robert Shepherd, *Assistant Professor of Honors, of Anthropology, and of International Affairs*
B.A. 1980, University of Delaware; M.A. 1983, Northeastern University; Ph.D. 2002, George Mason University

Maia G. Sheppard, *Assistant Professor of Curriculum and Pedagogy*
B.A. 1995, Drake University; M.A. 2001, New York University; Ph.D. 2010, University of Minnesota

Kelly A. Sherrill, *Assistant Professor of Educational Administration*
B.S. 1995, M.Ed. 1997, Ph.D. 2009, University of Georgia; J.D. 2001, George Washington University

Chester Sherwood, *Associate Professor of Anthropology*

B.A. 1995, Ph.D. 2003, Columbia University

Nikolay Shiklomanov, *Associate Professor of Geography*
B.S. 1990, St. Petersburg University; M.A. 1997, State University of New York at Albany; Ph.D. 2001, University of Delaware

Ekundayo A. Shittu, *Assistant Professor of Engineering Management and Systems Engineering*
Ph.D. 2009, University of Massachusetts

Sarah Shomstein, *Associate Professor of Psychology*
B.S. 1998, Carnegie Mellon University; M.A. 2000, Ph.D. 2003, Johns Hopkins University

Jane Shore, *Professor of English*
B.A. 1969, Goddard College; M.F.A. 1971, University of Iowa

Danmeng Shuai, *Assistant Professor of Civil Engineering*
Ph.D. 2012, University of Illinois

Alexander Shumakovitch, *Assistant Professor of Mathematics*
Ph.D. 1996, Uppsala University, Sweden

Gabriel T. Sibley, *Assistant Professor of Computer Science*
Ph.D. 2007, University of Southern California

Megan Siczek, *Instructor in English for Academic Purposes*
B.A. 1991, Saint Mary's College; M.Ed. 1996, University of North Carolina

John M. Sides, *Associate Professor of Political Science*
B.A. 1996, University of North Carolina; M.A. 1997, Ph.D. 2003, University of California, Berkeley

Carol Kimball Sigelman, *Professor of Psychology*
B.A. 1967, Carleton College; M.A. 1968, Ph.D. 1972, George Peabody College

Michael Sigrist, *Adjunct Professor of Philosophy*
Ph.D. 2009, State University of New York at Stony Brook

Pedro F. Silva, *Associate Professor of Civil Engineering*
B.S. 1991, M.S. 1992, University of California, Irvine; Ph.D. 1998, University of California, San Diego

David J. Silverman, *Professor of History*
B.A. 1993, Rutgers University; M.A. 1996, College of William and Mary; M.A. 1997, Ph.D. 2000, Princeton University

Rahul Simha, *Professor of Engineering and Applied Science*
B.S. 1984, Birla Institute of Technology, India; M.S. 1986, Ph.D. 1990, University of Massachusetts

Ergun Simsek, *Assistant Professor of Engineering and Applied Science*
Ph.D. 2006, Duke University

Tara Sinclair, *Associate Professor of Economics*
Ph.D. 2005, Washington University

Sheetal Singh, *Assistant Professor of Management*
Ph.D. 2010, University of Maryland

Frank James Slaby, *Professor of Anatomy*
B.S. 1965, California Institute of Technology; Ph.D. 1971,
University of California, Berkeley

Andrew M. Smith II, *Assistant Professor of Classics*
B.S. 1990, M.A. 1995, North Carolina State University; Ph.D.
2004, University of Maryland

Caroline Smith, *Associate Professor of Writing*
B.A. 1996, Moravian College; M.A. 2000, Ph.D. 2005, University
of Delaware

David R. Smith, *Adjunct Professor of Engineering and Applied
Science*
D.Sc. 1977, George Washington University

Keith E. Smith, *Associate Professor of Accountancy*
B.A. 1970, University of Pennsylvania; J.D. 1976, LL.M. 1978,
University of Florida

Lizbeth Courtney Smith, *Professor of Biological Sciences*
B.A. 1974, Drake University; M.Sc. 1976, University of
Minnesota; Ph.D. 1985, University of California, Los Angeles

Stephen Charles Smith, *Professor of Economics and
International Affairs*
B.A. 1976, Goddard College; M.A. 1981, Ph.D. 1983, Cornell
University

Barbara Sobol, *Professorial Lecturer in Art Therapy*
B.A. 1959, Wellesley College; M.A. 1980, George Washington
University

Michael Joseph Sodaro, *Professor of Political Science and
International Affairs*
B.A. 1967, Fordham University; M.A. 1970, Johns Hopkins
University; Ph.D. 1978, Columbia University

Sheryl Ann Sodaro-Spomer, *Assistant Professor of Interior
Design*
B.S. 1998, Colorado State University; M.I.D. 2000, Virginia
Commonwealth University

Myeong-Ho Sohn, *Associate Professor of Psychology*
Ph.D. 1998, Pennsylvania State University

John K. Soldner, *Professorial Lecturer in Engineering*
B.S. 1977, M.S. 1979, University of Illinois; M.B.A. 1988,
University of Chicago

George T. Solomon, *Associate Professor of Management*
M.B.A. 1972, Suffolk University; D.B.A. 1982, George
Washington University

Margaret Rapp Soltan, *Associate Professor of English*
B.A. 1977, Northwestern University; M.A. 1978, Ph.D. 1986,
University of Chicago

Eva M. Sorenson, *Associate Research Professor of
Pharmacology*

B.A. 1981, Washington University; Ph.D. 1990, Saint Louis
University

Volker Jendrik Sorger, *Assistant Professor of Engineering and
Applied Science*
Ph.D. 2011, University of California, Berkeley

Refik Soyer, *Professor of Decision Sciences*
B.A. 1978, Bogazici University, Turkey; M.Sc. 1979, University of
Sussex, England; D.Sc. 1985, George Washington University

Joanna Spear, *Associate Professor of International Affairs*
Ph.D. 1988, University of Southampton

Erin Speck, *Assistant Professor of Interior Design*
B.A. 1980, University of Guelph, Canada; M.A. 1991, Catholic
University of America

August K. Spector, *Professorial Lecturer in Engineering
Management*
M.S. 1971, Hofstra University; Ed.D. 1985, George Washington
University

Ronald H. Spector, *Professor of History and International Affairs*
B.A. 1964, Johns Hopkins University; M.A. 1966, Ph.D. 1967,
Yale University

Jennifer Wynne Spencer, *Professor of International Business;
Vice Dean of the School of Business*
B.S. 1992, Georgetown University; Ph.D. 1997, University of
Minnesota

Philip Daniel Spiess II, *Professorial Lecturer in Museum Studies*
B.A. 1968, Hanover College; M.A. 1970, University of Delaware;
M.A. 1972, Indiana University; M.Phil. 1992, Drew University

Gregory D. Squires, *Professor of Sociology and of Public Policy
and Public Administration*
B.S. 1971, Northwestern University; M.A. 1974, Ph.D. 1976,
Michigan State University

Carole Stabile-Libelo, *Lecturer in Music*
B.S.Mus.Ed. 1978, West Virginia University; M.Mus. 1980, New
England Conservatory of Music

Stephanie Stang, *Lecturer in Music*
B.Mus. 1975, Catholic University of America; M.Mus. 1977, New
England Conservatory of Music

Carol Buchalter Stapp, *Associate Professor of Museum
Education*
B.A. 1967, Tulane University; M.A. 1970, University of
Pennsylvania; Ph.D. 1989, George Washington University

Michael Staten, *Research Professor of Real Estate and Urban
Analysis*
Ph.D. 1980, Purdue University

Janet E. Steele, *Associate Professor of Media and Public Affairs*
B.A. 1979, College of William and Mary; M.A. 1982, Ph.D. 1986,
Johns Hopkins University

Sam Steen, *Associate Professor of Counseling*
Ph.D. 2007, George Mason University

Frederic Stein, *Associate Professor of Naval Science*
B.S.E. 1985, University of Michigan; M.A. 1999, Naval War College

Mary Beth Stein, *Associate Professor of German and International Affairs*
B.A. 1980, St. Olaf College; M.A. 1985, Ph.D. 1993, Indiana University

Rachel M. Stein, *Assistant Professor of Political Science*
B.A. 2005, University of Chicago; Ph.D. 2012, Stanford University

Herman Stekler, *Professorial Lecturer in Economics*
Ph.D. 1955, Massachusetts Institute of Technology

Christopher Willie Sten, *Professor of English*
B.A. 1966, Carleton College; M.A. 1968, Ph.D. 1971, Indiana University

Phoebe Stevenson, *Associate Professor of Education Administration; Administrative Dean of the Graduate School of Education and Human Development*
B.A., B.M. 1982, Oberlin College; M.A. 1984, Columbia University; M.B.A. 1988, American University; Ed.D. 2010, University of Pennsylvania

Michelle Stock, *Associate Professor of Psychology*
B.S. 2001, M.S. 2004, Ph.D. 2007, Iowa State University

Robert P. Stoker, *Associate Professor of Political Science and of Public Policy and Public Administration*
B.A. 1976, Ohio State University; M.A. 1979, Ph.D. 1983, University of Maryland

Allyson Currin Stokes, *Adjunct Professor of English and of Theatre and Dance*
B.A. 1986, Wake Forest University; M.F.A. 1989, University of Virginia

Clarence N. Stone, *Research Professor of Public Policy*
Ph.D. 1963, Duke University

Richard Briggs Stott, *Professor of History*
B.A. 1970, Ph.D. 1983, Cornell University

Igor Strakovsky, *Research Professor of Physics*
Ph.D. 1984, St. Petersburg Nuclear Physics Institute, Russia

Lauren Strauss, *Adjunct Professor of History*
Ph.D. 2004, Jewish Theological Seminary of America

Dmitry Streletskiy, *Assistant Professor of Geography*
B.S. 2003, M.S. 2005, Moscow State University; Ph.D. 2010, University of Delaware

Jonathan R. Stroud, *Associate Professor of Statistics*

B.S. 1994, Boston University; M.S. 1996, Ph.D. 1999, Duke University

Francys Subiaul, *Associate Professor of Speech and Hearing Science*
B.A. 1999, Boston University; Ph.D. 2004, Columbia University

Suresh Subramaniam, *Professor of Engineering and Applied Science*
B.E. 1988, Anna University, India; M.S.E.E. 1993, Tulane University; Ph.D. 1997, University of Washington

Steven M. Suranovic, *Associate Professor of Economics and International Affairs*
B.S. 1982, University of Illinois; M.A. 1986, Ph.D. 1989, Cornell University

Robert Sutter, *Professor of the Practice of International Affairs*
Ph.D. 1975, Harvard University

Michael Svoboda, *Assistant Professor of Writing*
B.S. 1976, Cornell University; M.A. 1980, Ph.D. 2002, Pennsylvania State University

Susan Swayze, *Assistant Professor of Educational Research*
M.A. 1991, Ph.D. 1995, University of California, Los Angeles; M.B.A. 2004, Duke University

Paul Michael Swiercz, *Professor of Management*
M.P.H. 1976, University of Michigan; M.S. 1981, Ph.D. 1984, Virginia Polytechnic Institute and State University

Zoe Szajnfarder, *Assistant Professor of Engineering Management and Systems Engineering*
Ph.D. 2011, Massachusetts Institute of Technology

Nashwa Taher, *Teaching Instructor in the Arabic Language*
M.A. 2007, Ohio University

Caitlin Talmadge, *Assistant Professor of Political Science and International Affairs*
B.A. 2003; Ph.D. 2011, Massachusetts Institute of Technology

Liang Tan, *Assistant Professor of Accountancy*
Ph.D. 2011, Northwestern University

Mehmet Murat Tarimcilar, *Professor of Decision Sciences*
B.S. 1981, Bogazici University, Turkey; M.S. 1984, Ph.D. 1997, Louisiana State University

Robin L. Tarpley, *Associate Professor of Accountancy*
B.S. 1990, Howard University; M.S. 1998, Cornell University

Patricia Sari Tate, *Associate Professor of Curriculum and Pedagogy*
B.S. 1970, Old Dominion University; M.Ed. 1976, George Mason University; Ph.D. 1987, University of Maryland

Juliana M. Taymans, *Professor of Special Education and Disability Studies*

B.A. 1972, Ph.D. 1985, University of Maryland; M.A. 1976, George Washington University

Emmanuel J. Teitelbaum, *Assistant Professor of Political Science and International Affairs*

B.A. 1997, John Carroll University; Ph.D. 2006, Cornell University

Joel B. Teitelbaum, *Associate Professor of Health Policy*
B.A. 1991, University of Wisconsin; J.D. 1996, Marquette University; LL.M. 1997, George Washington University

Ababayeha A. Tekleselassie, *Associate Professor of Educational Administration*

Ed.D. 1995, Addis Ababa University; Ph.D. 2005, University of Buffalo

Henry H. Teng, *Associate Professor of Chemistry and Geosciences*

B.S. 1982, Nanjing University, China; M.S. 1994, Temple University; Ph.D. 1999, Georgia Institute of Technology

Raluca Teodorescu, *Teaching Assistant Professor of Physics*
Ph.D. 2010, George Washington University

Ayanna Thompson, *Professor of English*

B.A. 1994, Columbia University; M.A. 1995, Sussex University; Ph.D. 2001, Harvard University

Barbara Jean Thompson, *Adjunct Professor of Counseling*
Ph.D. 1990, University of Maryland

Cheryl W. Thompson, *Associate Professor of Media and Public Affairs*

B.A. 1982, M.S.J. 1984, University of Illinois

Richard Thornton, *Professor of History and International Affairs*

B.A. 1961, Colgate University; Ph.D. 1966, University of Washington

Emily A. Thorson, *Assistant Professor of Media and Public Affairs*

B.A. 2002, Williams College; M.A. 2008, Ph.D. 2013, University of Pennsylvania

James B. Thurman, *Associate Professor of Strategic Management and Public Policy*

B.A. 1966, M.B.A. 1972, Ph.D. 1978, Pennsylvania State University

Max David Ticktin, *Assistant Professor of Hebrew*

B.A. 1942, University of Pennsylvania; M.H.L. 1947, D.D. 1977, Jewish Theological Seminary of America

Donald Tighe, *Lecturer in Communication*

B.A. 1986, Duke University; M.P.A. 1999, Harvard University

Olga A. Timoshenko, *Assistant Professor of Economics and International Affairs*

B.A. 2005, M.A. 2006, University of Western Ontario; M.A. 2008, Ph.D. 2012, Yale University

Jennifer Tobkin, *Teaching Instructor in the Arabic Language*
M.A. 2004, Catholic University of America

Richard Paul Tollo, *Professor of Geoscience*

B.A. 1972, Tufts University; M.S. 1976, University of New Hampshire; Ph.D. 1982, University of Massachusetts

Susan Tomasovic, *Lecturer in Communication*

B.A. 1969, University of Missouri; M.A.I.S. 1990, George Mason University

Raul Tovaes, *Professorial Lecturer in Communication*

M.A. 1979, Universidad de las Americas; Ph.D. 1995, University of Texas

John Traub, *Assistant Professor of Production Management and Technology*

B.A. 2004, Colorado College; M.F.A. 2011, Boston University

Stephanie Travis, *Associate Professor of Interior Design*

M.Arch. 1994, University of Michigan

Tally Tripp, *Teaching Assistant Professor of Art Therapy*

B.A. 1977, Roanoke College; M.A. 1981, George Washington University; M.S.W. 1986, University of Maryland

Phillip Troutman, *Assistant Professor of Writing*

B.A. 1991, University of Tennessee; M.A. 1993, Ph.D. 2000, University of Virginia

Paul F. Tschudi, *Lecturer in Counseling*

B.A. 1981, San Diego State University; M.A.Ed.&H.D. 1991, Ed.S. 2008, George Washington University

Takae Tsujioka, *Teaching Assistant Professor in the Japanese Language*

B.A. 1993, M.A. 1995, Southern Illinois University at Carbondale; Ph.D. 2001, Georgetown University

Steven A. Tuch, *Professor of Sociology and of Public Policy and Public Administration*

B.A. 1973, University of Massachusetts; M.A. 1976, Emory University; Ph.D. 1981, Pennsylvania State University

Elizabeth D. Tuckwiller, *Assistant Professor of Secondary Education and Transition Services*

M.S. 1999, Radford University; Ph.D. 2009, University of Virginia

Robert W. Tuttle, *Professor of Law and of Religion; David R. and Sherry Kirschner Berz Research Professor of Law and Religion*

B.A. 1985, College of William and Mary; M.A. 1989, Lutheran School of Theology at Chicago; J.D. 1991, George Washington University; Ph.D. 1997, University of Virginia

Douglas Henry Ubelaker, *Professorial Lecturer in Anthropology*

B.A. 1968, Ph.D. 1973, University of Kansas

Daniel H. Ullman, *Professor of Mathematics*

B.A. 1979, Harvard University; Ph.D. 1985, University of California, Berkeley

Elanah Uretsky, *Assistant Professor of Global Health and of Anthropology*

Ph.D. 2007, Columbia University

Nicole Usher, *Assistant Professor of Media and Public Affairs*

B.A. 2003, Harvard University; M.A. 2009, Ph.D. 2011, University of Southern California

Judith Vajda, *Lecturer in Psychology*

B.A. 1990, M.A. 1995, George Washington University

Jack Yehudi Vanderhoek, *Professor of Biochemistry and Molecular Biology*

B.S. 1960, City University of New York, City College; Ph.D. 1966, Massachusetts Institute of Technology

Johan Rene van Dorp, *Professor of Engineering Management and Systems Engineering*

Engr.Dipl. 1989, Delft University of Technology, The Netherlands; D.Sc. 1998, George Washington University

Elizabeth Van Iersel, *Professorial Lecturer in Organizational Sciences and Communication*

M.A. 1979, University of California, Riverside

Robert Van Order, *Oliver T. Carr Professor of Real Estate; Professor of Finance and of Economics*

Ph.D. 1971, Johns Hopkins University

Guru Prasad Venkataramani, *Assistant Professor of Engineering and Applied Science*

Ph.D. 2009, Georgia Institute of Technology

Christopher Venner, *Adjunct Professor of Philosophy*

Ph.D. 2002, Duquesne University

Isabel Rodriguez Vergara, *Associate Professor of Spanish*

B.A. 1974, Universidad Nacional de Colombia; M.A. 1977, Ph.D. 1988, Cornell University

Akos Vertes, *Professor of Chemistry*

B.Sc. 1974, M.Sc. 1976, Ph.D. 1979, Eotvos Lorand University, Hungary

Amanda J. Visek, *Assistant Professor of Exercise Science*

Ph.D. 2007, West Virginia University

Eva A. Vincze, *Professor of Forensic Sciences*

M.A. 1992, Pennsylvania State University; Ph.D. 1994, Saybrook Graduate School

Ben Vinson III, *Professor of History and of Spanish; Dean of Columbian College of Arts and Sciences*

B.A. 1992, Dartmouth College; Ph.D. 1998, Columbia University

Joseph C. Viola, *Adjunct Professor of Clinical Psychology*

Ph.D. 2004, Suffolk University

Branimir Radovan Vojcic, *Professor of Engineering and Applied Science*

Dipl.Eng. 1980, M.S. 1986, D.Sc. 1989, University of Belgrade, Yugoslavia

Nadezhda Volchansky, *Assistant Professor of Interior Design*

M.S. 2007, University of North Carolina, Greensboro

Barbara Ann von Barghahn-Calvetti, *Professor of Art*

B.A. 1970, University of Iowa; M.A. 1972, Ph.D. 1979, New York University

Nicholas S. Vonortas, *Professor of Economics and International Affairs*

B.A. 1981, University of Athens, Greece; M.A. 1982, University of Leicester, England; Ph.D. 1989, New York University

Muriel Von Villas, *Lecturer in Music*

B.Mus. 1977, Boston Conservatory of Music

Poorvi Vora, *Associate Professor of Computer Science*

B.Tech. 1986, Indian Institute of Technology; M.S. 1990, Cornell University; Ph.D. 1993, North Carolina State University

Adelina Mitkova Voutchkova, *Assistant Professor of Chemistry*

B.A. 2004, Middlebury College; M.S. 2005, Ph.D. 2009, Yale University

Alan Gerard Wade, *Professor of Theatre*

B.A. 1968, Ph.D. 1981, Northwestern University; M.A. 1972, Catholic University of America

Michael James Wagner, *Associate Professor of Chemistry*

B.S. 1988, M.S. 1989, University of Oregon; Ph.D. 1994, Michigan State University

Richard D. Wagner, *Professorial Lecturer in American Studies*

B.Arch. 1972, University of Virginia; Ph.D. 1975, University of Edinburgh

Sarah E. Wagner, *Assistant Professor of Anthropology*

B.A. 1994, Dartmouth College; M.A.L.D. 2002, Tufts University; Ph.D. 2006, Harvard University

Paul J. Wahlbeck, *Professor of Political Science*

B.A. 1983, Wheaton College; J.D. 1986, University of Illinois; Ph.D. 1993, Washington University

Silvio Ricardo Waisbord, *Professor of Media and Public Affairs*

Ph.D. 1993, University of California, San Diego

Sergio Waisman, *Professor of Spanish*

B.A. 1990, Ph.D. 2000, University of California; M.A. 1995, University of Colorado

Gayle Wald, *Professor of English*

B.A. 1983, University of Virginia; Ph.D. 1994, Princeton University

Gregory Wallace, *Assistant Professor in Speech and Hearing Science*

B.A. 1995, University of North Carolina; M.A. 2001, George Mason University; Ph.D. 2006, University of London

Tara Ghoshal Wallace, *Professor of English; Associate Dean of Columbian College of Arts and Sciences*
B.A. 1973, Bryn Mawr College; M.A. 1975, Ph.D. 1981, University of Toronto

David A. Walsh, *Lecturer in English*
B.A. 1948, M.A. 1983, M.I.P.P. 1983, Johns Hopkins University

Raymond John Walsh, *Professor of Anatomy*
B.S. 1969, University of Massachusetts; Ph.D. 1978, Tufts University

Jorge Walter, *Assistant Professor of Strategic Management and Public Policy*
D.B.A. 2005, University of St. Gallen, Switzerland

Calvin L. Warren, *Assistant Professor of American Studies*
Ph.D. 2010, Yale University

Clay Warren, *Chauncey M. Depew Professor of Communication and Professor of Organizational Sciences*
B.S. 1968, U.S. Naval Academy; M.A. 1973, Ph.D. 1976, University of Colorado

Rajeev R. Warrier, *Professorial Lecturer in Clinical Psychology*
Psy.D. 2000, George Washington University

Katherine Clark Wasdin, *Assistant Professor of Classics*
B.A. 2003, Brown University; Ph.D. 2009, Yale University

James Stanley Wasek, *Professorial Lecturer in Engineering*
B.Arch. 1979, Carnegie Mellon University; D.Sc. 2005, George Washington University

Julia A. Washburn, *Lecturer in Museum Education*
B.A. 1986, Mount Holyoke College; M.S. 1998, Bank Street College of Education

Uri Wassertzug, *Lecturer in Music*
B.Mus. 1984, University of Maryland; M.M. 1989, San Francisco Conservatory of Music

Wasył Wasyłkiwskyj, *Professor of Engineering and Applied Science*
B.E.E. 1957, City University of New York, City College; M.S. in E.E. 1965, Ph.D. 1968, Polytechnic University

Ryan R. Watkins, *Associate Professor of Educational Technology Leadership*
B.A. 1994, M.A. 1995, Ph.D. 1997, Florida State University

Victor Weedn, *Professor of Forensic Sciences*
J.D. 1978, South Texas College of Law; M.D. 1979, University of Texas

Stephen B. Wehrenberg, *Professorial Lecturer in Organizational Sciences*
B.S.E.E. 1978, M.A. 1979, Ph.D. 1981, Columbia Pacific University

Chao Wei, *Associate Professor of Economics*

M.A. 1996, Columbia University; Ph.D. 2001, Stanford University

Miaochun Wei, *Teaching Instructor in the Chinese Language*
B.A. 2003, National Cheng Kung University; M.A. 2006, National Taiwan Normal University

Jeffrey Weinberg, *Professorial Lecturer in Political Management*
J.D. 1974, George Washington University

Abbie Weiner, *Lecturer in Communication*
B.S. 1973, Northeastern University; M.A. 1977, University of Maryland

Robert Jonathan Weiner, *Professor of International Business and International Affairs*
B.A. 1979, M.A. 1982, Ph.D. 1986, Harvard University

Brandi A. Weiss, *Assistant Professor of Educational Research*
B.S. 2002, M.A. 2005, James Madison University; Ph.D. 2010, University of Maryland

Frank D. Weiss, *Professorial Lecturer in Economics*
Ph.D. 1983, University of Kiel, Germany

Gail D. Weiss, *Professor of Philosophy*
B.A. 1981, Denison University; M.A. 1982, Ph.D. 1991, Yale University

Jenna Weissman Joselit, *Smith Professor of Judaic Studies and Professor of History*
Ph.D. 1981, Columbia University

Ronald Weitzer, *Professor of Sociology*
B.A. 1975, University of California, Santa Cruz; M.A. 1978, Ph.D. 1985, University of California, Berkeley

Stephen William Wellman, *Lecturer in Music*
Mus.B. 1974, North Carolina School of the Arts

Sherrill Brown Wells, *Professorial Lecturer in History and International Affairs*
B.A. 1962, Vassar College; M.Sc. 1965, Ph.D. 1978, London School of Economics and Political Science

Michael Wenger, *Lecturer in Sociology*
B.A. 1965, City University of New York, Queens College

Ric Wenger, *Clinical Instructor in Art Therapy*
B.A. 1971, University of Maryland; M.A. 1974, George Williams College

Linda Louise Werling, *Professor of Pharmacology; Associate Dean of the School of Medicine and Health Sciences*
B.S. 1976, Indiana University; Ph.D. 1983, Duke University

Lynda L. West, *Professor of Special Education and Disability Studies*
B.A. 1968, Benedictine College; M.Ed. 1976, Ph.D. 1979, University of Missouri

Robert C. West, *Professorial Lecturer in Engineering*

B.E. 1974, Vanderbilt University; J.D. 1998, Catholic University of America; M.S. 2001, James Madison University

Beverly J. Westerman, *Associate Professor of Exercise Science*
B.S. 1981, Western Kentucky University; M.Ed. 1983, University of Virginia; Ed.D. 1999, George Washington University

Lynn Lara Westwater, *Associate Professor of Italian*
B.A. 1991, University of Pennsylvania; M.A. 1995, Ph.D. 2003, University of Chicago

Tanya Wetenhall, *Assistant Professor of Design*
M.A. 2009, State University of New York Fashion Institute of Technology

Roger Whitaker, *Professor of Higher Education and of Sociology*
B.A. 1968, Heidelberg College; M.A. 1972, Ph.D. 1982, Boston University

Susan C. White, *Assistant Professor of Decision Sciences*
B.A. 1981, M.B.A. 1985, Baylor University; Ph.D. 1994, Texas A&M University

Rodney Whitlock, *Professorial Lecturer in Political Management*
Ph.D. 1998, University of Georgia

Adam M. Wickenheiser, *Assistant Professor of Engineering and Applied Science*
B.S. 2002, Ph.D. 2008, Cornell University

Sara Wilensky, *Assistant Research Professor of Health Policy*
J.D. 1997, University of Pennsylvania; Ph.D. 2010, George Washington University

Susan L. Wiley, *Associate Professor of Political Science and of Legislative Affairs*
B.S. 1971, Georgia Institute of Technology; Ph.D. 1987, University of Maryland

Abby L. Wilkerson, *Associate Professor of Writing*
B.A. 1982, M.A. 1985, M.A. 1986, Texas Tech University; Ph.D. 1995, University of Illinois

Rebecca Wilkinson, *Professorial Lecturer in Art Therapy*
M.A. 1995, George Washington University

Benjamin D. Williams, *Assistant Professor of Economics*
B.A. 2006, Ph.D. 2012, University of Chicago

James Howard Williams, *Associate Professor of International Education and International Affairs*
M.S. 1976, Florida State University; Ed.M. 1987, Ed.D. 1994, Harvard University

Paul Williams, *Associate Professor of International Affairs*
B.Sc. 1996, M.A. 1997, Ph.D. 2001, University of Wales

Larry Ritchie Williams, *Associate Professor of Information Systems*
B.A. 1957, University of North Carolina; M.S. 1972, University of Southern California; Ph.D. 1994, George Washington University

Arthur J. Wilson, *Associate Professor of Finance*
B.S. 1975, M.A. 1982, Ph.D. 1990, University of Chicago

Thaddeus L. Wilson, *Lecturer in Music*

William H. Winstead, *Assistant Professor of Political Science and Honors*
Ph.D. 2001, University of Massachusetts

Philip William Wirtz, *Professor of Decision Sciences and of Psychology; Vice Dean of the School of Business*
B.A. 1971, Ph.D. 1983, George Washington University; M.S. 1974, Purdue University

Michael Wiseman, *Research Professor of Public Policy and of Economics*
Ph.D. 1972, University of Wisconsin

Maida Rust Withers, *Professor of Dance*
B.A. 1958, Brigham Young University; M.S. 1960, University of Utah

Sharon Lee Wolchik, *Professor of Political Science and International Affairs*
B.A. 1970, Syracuse University; M.A. 1972, Indiana University; Ph.D. 1978, University of Michigan

Zachary Wolfe, *Assistant Professor of Writing*
B.A. 1995, University of California, Santa Cruz; J.D. 2000, George Washington University

Bernard Wood, *University Professor of Human Origins*
B.Sc. 1966, M.B., B.Sc. 1969, Ph.D. 1975, University of London

Cheryl Wood, *Adjunct Professor of Communication*
B.S.B.A. 1987, University of Redlands; M.A. 1990, University of Phoenix; Ph.D. 1995, Union Institute and University

Jon Wood, *Assistant Professor of Religion*
B.A. 1999, Vanderbilt University; M.Div. 2002, Ph.D. 2008, Princeton Theological Seminary

Timothy W. Wood, *Assistant Professor of Computer Science*
Ph.D. 2011, University of Massachusetts

Pamela Jane Woodruff, *Lecturer in Psychology*
B.A. 1976, George Washington University

Ronald Workman, *Associate Research Professor of Physics*
Ph.D. 1987, University of British Columbia

Michael J. Worth, *Professor of Nonprofit Management*
M.A. 1970, American University; Ph.D. 1982, University of Maryland

Catherine Woytowicz, *Professorial Lecturer in Chemistry*
Ph.D. 1997, University of California, Riverside

John Franklin Wright, Jr., *Professor of Drawing and Graphics*
B.A. 1954, American University; M.A. 1960, University of Illinois

Chin-Li Wu, *Lecturer in Engineering*

M.S. 1996, Polytechnic University

Guangying K. Wu, *Assistant Professor of Psychology*

Ph.D. 2009, University of Southern California

Hao Wu, *Associate Professor of Mathematics*

Ph.D. 2004, Massachusetts Institute of Technology

Yanfeng Xue, *Assistant Professor of Accountancy*

Ph.D. 2004, Massachusetts Institute of Technology

Susan Yaffe-Oziel, *Clinical Instructor in Speech and Hearing*

B.S. 1976, Emerson College; M.M.S. 1978, Emory University

Chen Yang, *Professorial Lecturer in Chinese*

Ph.D. 1995, George Mason University

Chi Yang, *Assistant Research Professor of Engineering and*

Applied Science

B.S. 1982, Ph.D. 1988, Shanghai Jiao Tong University

Daqing Yang, *Associate Professor of History and International Affairs*

B.A. 1987, Nanjing University, China; M.A. 1989, University of Hawaii; M.A. 1990, University of Chicago; Ph.D. 1996, Harvard University

Jiawen Yang, *Professor of International Business and International Affairs*

B.A. 1979, M.A. 1984, University of International Business and Economics, China; Ph.D. 1993, New York University

Anri Yasuda, *Assistant Professor of Japanese*

Ph.D. 2011, Columbia University

Anthony Marvin Yezer, *Professor of Economics*

B.S. 1966, Dartmouth College; M.S. 1967, London School of Economics and Political Science; Ph.D. 1974, Massachusetts Institute of Technology

William L. Youmans, *Assistant Professor of Media and Public Affairs*

Ph.D. 2012, University of Michigan

Abdou Youssef, *Professor of Engineering and Applied Science*

B.S. 1981, B.S. 1982, Lebanese University; M.A. 1985, Ph.D. 1988, Princeton University

Liang Yu, *Professor of Tourism and Hotel Management*

B.A. 1980, Hangzhou University, China; Ed.M. 1984, Boston University; Ph.D. 1988, University of Oregon

Mona Elwakkad Zaghloul, *Professor of Engineering and Applied Science*

B.S.(E.E.) 1965, Cairo University, Egypt; M.S.(E.E.) 1970, M.Math. 1971, Ph.D. 1975, University of Waterloo, Canada

Richard Bruce Zamoff, *Professorial Lecturer in Sociology*

B.A. 1961, M.A. 1963, Ph.D. 1968, Columbia University

Amy Elise Zanne, *Assistant Professor of Biological Sciences*

Ph.D. 2003, University of Florida

Jason M. Zara, *Associate Professor of Engineering and Applied Science*

B.S. 1996, University of Illinois; Ph.D. 2001, Duke University

Michele Zavos, *Professorial Lecturer in Women's Studies*

B.A. 1974, University of Wisconsin; J.D. 1979, Catholic University of America

Tadeusz Zawidzki, *Associate Professor of Philosophy*

B.A. 1992, University of Ottawa; M.A. 1993, University of Sussex; Ph.D. 2000, Washington University

Vesna Zderic, *Associate Professor of Engineering and Applied Science*

Ph.D. 2004, University of Washington

Maria Cecilia Zea, *Professor of Psychology*

Psychologist 1981, Pontificia Universidad Javeriana, Colombia; M.A. 1987, Ph.D. 1990, University of Maryland

Chen Zeng, *Professor of Physics*

B.S. 1987, University of Science and Technology of China; Ph.D. 1993, Cornell University

Clement Zhang, *Assistant Professor of Accountancy*

Ph.D. 2004, Yale University

Hang Zhang, *Assistant Professor of Chinese Language and Linguistics*

Ph.D. 2013, University of North Carolina

Lijie Zhang, *Assistant Professor of Engineering and Applied Science*

B.S. 2001, M.S. 2004, Tianjin University; M.S. 2007, Ph.D. 2009, Brown University

Nan Zhang, *Associate Professor of Computer Science*

Ph.D. 2006, Texas A&M University

Phyllis Ni Zhang, *Associate Professor of Chinese*

M.A. 1989, Ed.D. 1994, Columbia University

Shumin Zhang, *Professorial Lecturer in Engineering*

M.S. 1998, North Carolina State University

Xianghuan Zhang, *Professorial Lecturer in Chinese*

Ph.D. 1993, George Washington University

Andrew Zimmerman, *Professor of History*

B.A. 1990, University of California, Los Angeles; Ph.D. 1998, University of California, San Diego

Christine J. Zink, *Assistant Professor of Writing*

B.A. 1992, Emory University; M.F.A. 1996, George Washington University

Youli Zou, *Assistant Professor of Accountancy*

B.A. 2006, Beijing University; M.A. 2007, University of Guelph; Ph.D. 2013, University of Toronto

Martin G. Zysmilich, *Associate Professor of Chemistry*
B.S., M.S. 1990, University of Buenos Aires, Argentina; M.A.
1992, Ph.D. 1997, Columbia University

ACADEMIC CALENDAR

Summer Session 2015

Session I Monday, May 18
begins (6-, 8-,
10-, and 14-
week sessions)

Memorial Day Monday, May 25
(no classes)

6-week Session Saturday, June 27
I ends

Independence Friday, July 3
Day observed
(no classes)

Session II Monday, July 6
begins (6-week
session)

8-week Session Saturday, July 11
I ends

10-week Saturday, July 25
Session I ends

6-week Session Saturday, August 15
II ends

14-week Saturday, August 22
session I ends

Fall Semester 2015

Classes begin Monday, August 31

Labor Day (no Monday, September 7
classes)

Thanksgiving Wednesday, November 25 - Saturday,
break (no November 28
classes)

Designated Tuesday, December 8 (Regularly scheduled
Thursday Tuesday classes will not meet.)

Last day of Wednesday, December 9
classes (except
Saturday)

Reading Day Thursday, December 10

Last Saturday Saturday, December 12
class

Final Friday, December 11 - Saturday, December 19
examinations (Saturday exams will be held on December 19.)

Spring Semester 2016

Classes begin Monday, January 11

Martin Luther Monday, January 18
King Jr. Day
(no classes)

Presidents' Monday, February 15
Day (no
classes)

Spring break Monday, March 14 - Saturday, March 19

Last day of Monday, April 25
classes

Make-up day Tuesday, April 26

Designated Wednesday, April 27
Monday

Reading days Thursday, April 28 - Friday, April 29

Final Monday, May 2 - Tuesday, May 10
examinations

Commencement Friday, May 13 - Sunday, May 15
weekend

Spring degree Sunday, May 15
conferral

Please note that these dates are subject to change. Updates
can be found online (<http://www.gwu.edu/academic-calendar>).

Bachelor of Arts with a Combined Major in Art History and Fine Arts ..	197
Bachelor of Arts with a Major in Applied Science and Technology	508
Bachelor of Arts with a Major in Chemistry	139
Bachelor of Arts with a Major in Creative Writing and English	185
Bachelor of Arts with a Major in Philosophy (Public Affairs Focus)	301
Bachelor of Arts with a Major in Political Communication and Master of Professional Studies in the Field of Political Management	833
Bachelor of Arts with a Major in Political Science and Master of Professional Studies in the Field of Legislative Affairs	833
Bachelor of Arts with a Major in Political Science and Master of Professional Studies in the Field of Political Management	834
Bachelor of Arts with a Major in Speech, Language, and Hearing Sciences	377
Bachelor of Fine Arts with a Major in Digital Media Design	153
Bachelor of Fine Arts with a Major in Fine Art	154
Bachelor of Fine Arts with a Major in Fine Art Photography	155
Bachelor of Fine Arts with a Major in Graphic Design	156
Bachelor of Fine Arts with a Major in Photojournalism	157
Bachelor of Professional Studies with a Major in Cybersecurity	830
Bachelor of Science in Health Sciences with a Major in Clinical Health Sciences	414

Bachelor of Science in Health Sciences with a Major in Clinical Management and Leadership	415	Biochemistry (BIOC)	917
Bachelor of Science in Health Sciences with a Major in Clinical Research Administration	416	Biochemistry and Molecular Medicine Department	116
Bachelor of Science in Health Sciences with a Major in Cytotechnology	416	Biochemistry and Systems Biology, Doctoral	128
Bachelor of Science in Health Sciences with a Major in Emergency Medical Services Management	417	Biological Anthropology, Bachelor of Science	107
Bachelor of Science in Health Sciences with a Major in Health Intervention and Disaster Response	418	Biological Anthropology, Minor	110
Bachelor of Science in Health Sciences with a Major in Medical Laboratory Science	418	Biological Sciences (BISC)	919
Bachelor of Science in Health Sciences with a Major in Pharmaceutical Sciences	420	Biological Sciences Department	118
Bachelor of Science with a Major in Biomedical Engineering	454	Biological Sciences, Doctoral	127
Bachelor of Science with a Major in Chemistry	140	Biological Sciences, Masters	127
Bachelor of Science with a Major in Civil Engineering, Environmental Engineering Option	466	Biology, Bachelor of Arts	125
Bachelor of Science with a Major in Civil Engineering, Medical Preparation Option	468	Biology, Bachelor of Science	126
Bachelor of Science with a Major in Civil Engineering, Sustainability Option	469	Biology, Minor	127
Bachelor of Science with a Major in Civil Engineering, Transportation Engineering Option	471	Biomedical Engineering, Masters	451
Bachelor of Science with a Major in Exercise Science	711	Biomedical Sciences (BMSC)	925
Bachelor of Science with a Major in Exercise Science	711	Biomedical Sciences Department	128
Bachelor of Science with a Major in Exercise Science, Pre-athletic Training/Sports Medicine	712	Biophysics, Bachelor of Science	315
Bachelor of Science with a Major in Exercise Science, Pre-athletic Training/Sports Medicine	712	Biophysics, Minor	317
Bachelor of Science with a Major in Exercise Science, Pre-medical Professional Concentration	713	Biostatistics (BIOS)	926
Bachelor of Science with a Major in Exercise Science, Pre-medical Professional Concentration	713	Biostatistics Department	131
Bachelor of Science with a Major in Exercise Science, Pre-physical Therapy Concentration	714	Biostatistics, Doctoral	133
Bachelor of Science with a Major in Exercise Science, Pre-physical Therapy Concentration	714	Biostatistics, Doctoral	758
Bachelor of Science with a Major in Finance	609	Business Administration (BADM)	926
Bachelor of Science with a Major in Mechanical Engineering, Aerospace Option	524	Business Administration Department	599
Bachelor of Science with a Major in Mechanical Engineering, Biomechanical Option	525	Business Administration, Doctoral	633
Bachelor of Science with a Major in Mechanical Engineering, Medical Preparation Option	526	Business Analytics	602
Bachelor of Science with a Major in Mechanical Engineering, Patent Law Option	527	Business Economics and Public Policy	603
Bachelor of Science with a Major in Mechanical Engineering, Robotics Option	529	C	
Bachelor of Science with a Major in Public Health	715	Certificate in Computer-Integrated Design in Mechanical and Aerospace Engineering	531
